(b) Reviewing and assessing the operations of the laboratories and centers and making recommendations for the improvement and continuation of the individual laboratories and centers and for the support of new laboratories and centers.

The meeting will have two main purposes: discussion of reactions to the Panel's final report, which was submitted to the Director of the National Institute of Education on December 15, 1978 and to the Congress on January 15, 1979; and discussion and planning of future Panel activities, which will include making recommendations on the establishment of new laboratories and centers as well as further inquiry into issues of dissemination and equality of educational opportunity.

This meeting immediately follows a meeting of the National Council on Educational Research (NCER) to which the Panel is invited to discuss its final report. That meeting will be held on February 3, 1979 from 9—11 a.m., in room 823 of the National Institute of Education, 1200 19th St. N.W.

The following agenda gives a tentative outline of the Panel's meeting:

SATURDAY, FEBRUARY 3

1:00-2:00 Convene. Discussion of NIE and NCER reactions to the Panel's final report.
2:00-3:00 Discussion with NIE on current plans for the establishment of new laboratories and centers and other means of providing R&D services.
3:00-3:15 Break.
3:15-5:00 Discussion of issues related to the establishment of new laboratories and centers.

SUNDAY, FEBRUARY 4

9:00-10:30 Discussion of issues related to dissemination.
10:30-10:45 Break.
10:45-12:00 Discussion of issues related to equality of educational opportunity.
12:00-1:00 Lunch.
1:00-3:00 Planning and scheduling of future meetings.

The entire meeting will be open to the public. Interested persons are invited to attend the session. Written statements relevant to an agenda item or any topic deemed of interest to the Panel may be submitted to the Panel staff at the address below.

Copies of the records of all Panel proceedings may be obtained through the office of the Panel Staff. Minutes require approval by the Panel at a subsequent meeting and are available to the public two weeks following their approval.

In order to verify the tentative agenda, or assure adequate seating arrangements, persons likely to attend the Panel meeting may contact the Panel Staff Office as indicated below:

Panel for the Review of Laboratory and Center Operations.
National Institute of Education Washington, D.C. 20208 (202) 254-5830 or 254-5306.

Dated: January 15, 1979.

GRADY MCGONAGILL,
Staff Director, Panel for the Review of Laboratory and Centers Operations.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[NM 35702, 35703 and 35697]

NEW MEXICO

Applications

JANUARY 9, 1979.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has applied for three 4½-inch natural gas pipeline and related facilities rights-of-way across the following land:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 31 N., R. 10 W.,
Sec. 1, lots 11 and 14;
Sec. 24, lots 2 and 9.

These pipelines will convey natural gas across 0.407 of a mile of public land in San Juan County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the applications should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 6770, Albuquerque, New Mexico 87107.

RAUL E. MARTINEZ,
Acting Chief, Branch of Lands and Minerals Operations.

NEW MEXICO WILDERNESS INVENTORY

Commencement and Schedule of Inventory

JANUARY 10, 1979.

AGENCY: Bureau of Land Management.

ACTION: Notice.

SUMMARY: The New Mexico State Office of the Bureau of Land Management announces the initiation of the systematic inventory of all public lands, administered by the Bureau of Land Management in New Mexico, to determine which areas may possess wilderness characteristics and should be subjected to an intensive wilderness inventory and which areas clearly and obviously do not possess wilderness characteristics and should be deleted from further wilderness consideration. This inventory is directed by the Federal Land Policy and Management Act of 1976. The initial inventory is expected to be completed by March 12, 1979 at which time a 90-day review period to comment on preliminary findings will begin. The inventory will be conducted using procedures outlined in the Wilderness Inventory Handbook published September 27, 1978. Copies of these procedures are available on request from the State Office, Bureau of Land Management.

DATES: Comments on the initial inventory should be submitted between March 12, 1979 and June 9, 1979. A schedule of open houses and public meetings associated with the 90-day public review period between March 12, 1979 and June 9, 1979, will be announced on or before February 2, 1979 by the State Office, Bureau of Land Management. Specific information on the open houses or public meetings may be obtained by contacting any Bureau of Land Management office in New Mexico, after February 2, 1979.

ADDRESS: Send comments and requests to: State Director (930), Bureau of Land Management, United States Post Office and Federal Building, South Federal Place, P.O. Box 1449, Santa Fe, New Mexico 87501.

FOR FURTHER INFORMATION CONTACT:

Dan Wood at the above Santa Fe, New Mexico address or call 505-988-6227.

LARRY L. WOODARD,
Acting State Director.

NEW MEXICO WILDERNESS INVENTORY

Star Lake-Bisti Accelerated Wilderness Inventories

JANUARY 10, 1979.

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of inventory recommendations and commencement of public review period.

SUMMARY: The New Mexico State Office of the Bureau of Land Management announces the initial wilderness inventory recommendations for the public lands, included in the draft Star Lake-Bisti Regional Coal Environmental Statement. All affected wilderness inventory units are located within New Mexico's Albuquerque District. Inventory units recommended as not qualifying for further inventory and should, therefore, be dropped from the wilderness review process are NM-010-5, NM-010-6, NM-010-58, all public lands affected by both the proposed Star Lake Railroad and the Fruit Land Coal Load Transmission Line which are not contained within the boundaries of an identified wilderness inventory unit, southwestern corner of NM-010-9 and NM-010-57 excluding approximately 1800 acres commonly referred to as the Bisti Badlands. Inventory units recommended for intensive wilderness inventory are that portion of NM-010-57 commonly referred to as the Bisti Badlands, NM-010-4 and NM-010-9 excluding the southwestern corner. Copies of the situation evaluation for each of the inventory units and detailed maps showing their location are available on request from the Albuquerque District Office Bureau of Land Management.

DATES: Comments by April 9, 1979. A public meeting will be held March 14, 1979, 1:00-3:00 p.m. and 7:00-9:00 p.m. in the Cavalier Ballroom, Four Seasons Motor Lodge, 2550 Carlisle Avenue, N.E., Albuquerque, New Mexico to receive public comment on the initial inventory recommendations.

ADDRESS: Send comments or requests to: District Manager, Bureau of Land Management, P.O. Box 677, 3550 Pan American Freeway, N.E., Albuquerque, New Mexico 87107.

FOR FURTHER INFORMATION CONTACT:

Randy Botkin at the above Albuquerque, New Mexico address or call 505-766-2455.

MOTORIZED VEHICLES ON PUBLIC LANDS CLOSURE TO USE

In continuation of the previous closure, notice is hereby given that use of motorized vehicles on certain public lands in the area between Shan Creek and Griffin Park in Josephine County, Oregon, is prohibited in accordance with the provisions of 43 CFR 6010.4.

This closure does not apply to emergency, law enforcement, and Federal or other government vehicles while being used for official or emergency purposes, or vehicles authorized by permit or contract.

The area affected by this closure lies approximately eight air miles west of Grants Pass. The legal description of the closed land is:

Township 36 South, Range 7 West, Willamette Meridian, Section 11, Government Lots 5, 6, 7, 8
Total Acres: 113

The closure is effective immediately and will remain in effect until further notice. Violation of this closure is punishable by a maximum of $1,000.00 fine and/or 12 months in jail. The closure is necessary to protect the natural environment of the Rogue National Wild and Scenic River.

This closure is effective immediately and will remain in effect until December 31, 1979. Maps showing the area described above are available for examination at the BLM Medford District Office, 310 W. Sixth Street, Medford, Oregon, 97501. For further information, contact Charles Grymes at 779-2351, ext. 341.

This land remains open for non-motorized recreational use, including fishing and horseback riding. It is closed to motorized vehicles, camping, and fires.

JERRY E. ASHER,
Bureau of Land Management, Acting District Manager.

DECKER-BIRNEY, SOUTH ROSEBUD AND COALWOOD MANAGEMENT FRAMEWORK PLANS

Intent

JANUARY 11, 1979.

This notice is to advise you that the Miles City, Montana District Office, Bureau of Land Management, is proceeding to review and supplement portions of the Decker-Birney, South Rosebud and Coalwood Management Framework Plans (MFPs) to make certain that those portions of the MFPs reflect, as completely as possible, existing statutory requirements and policies and to begin to carry out the requirements of the Federal Lands Review mandated by Section (522)(c) of the Surface Mining Control and Reclamation Act (SMCRA).

Background standards and procedures for this MFP review and supplement preparation are contained in FEDERAL REGISTER Notice 43 FR 57662-57670 of December 8, 1978. The standards for this review are also discussed in a draft environmental statement, describing the Secretary of Interior's preferred coal program and alternatives, which was released for review on December 15, 1978 (43 FR 58776-58778).

Comments on revisions in the unsuitability criteria through the environmental statement process as well as through participation in the MFP review process are welcome.

For further information on the areas being reviewed, please contact: District Manager, Bureau of Land Management, West of Miles City, P.O. Box 940, Miles City, Montana 59301, (406) 232-4331.

EDWIN ZAIDLICZ,
State Director.

NEVADA

Airport Lease Application

Notice is hereby given that pursuant to the Act of May 24, 1928 (49 U.S.C. 211-214), Alfred Gerstler has applied for an airport lease for the following land:

MOUNT DIABLO MERIDIAN

T. 21 S., R. 53 E.,
Sec. 3, Lots 2, 3, 4, SW¼NE¼, S½NW¼, N½SW¼, SE¼SW¼, NW¼SE¼;
Sec. 4, Lots 1, 2, 3, S½NE¼, SE¼NW¼, NE¼SW¼, N½SE¼;
Sec. 10, W½NE¼, E½NW¼.

The area described comprises 920 acres in Clark County, Nevada. The application was filed on September 15, 1976, and on that date the land was segregated from all forms of appropriation under the public land laws.

Interested persons may submit comments to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, 300 Booth Street, Federal Building—Room 3008, Reno, Nevada 89509.

ROGER A. JARRELL,
Acting Chief, Division of Technical Services.

[Oregon 016753; 2330 (943.4)]

OREGON

Opportunity for Public Hearing and Republication of Notice of Proposed Withdrawal

JANUARY 8, 1979.

The Corps of Engineers, U.S. Department of the Army, on August 30, 1965, filed application Serial No. Oregon 016753 for withdrawal of 3,970.80 acres of lands. A notice of the proposed withdrawal was published in the FEDERAL REGISTER on September 17, 1965, Vol. 30, page 11926, F.R. Doc. 65-9866. On September 21, 1972, the application was amended to delete 3,130.80 acres, and a notice of termination was published on October 6, 1972, Vol. 37, pages 21193 and 21194, F.R. Doc. 72—17125. The lands remaining in the application are described as:

WILLAMETTE MERIDIAN

REVESTED OREGON AND CALIFORNIA RAILROAD GRANT LANDS

T. 32 S., R. 1 E.,
Sec. 33, NE¼NE¼NW¼, S½NE¼NW¼, and SE¼NW¼.
T. 33 S., R. 1 E.,
Sec. 5, NE¼SW¼SE¼ and S½SW¼SE¼;
Sec. 9, W½NE¼NW¼;
Sec. 17, Lots 5 and 6 (Formerly N½SW¼);
Sec. 19, E½W½NE¼, NE¼SE¼, E½NW¼SE¼, S½SW¼NW¼SE¼, and SW¼SE¼;
Sec. 29, NW¼, N½SW¼, and SW¼SW¼.

PUBLIC DOMAIN LAND

T. 33 S., R. 1 E.,
Sec. 30, E½E½ and NW¼NE¼.

The areas described aggregate 840.59 acres in Jackson County, Oregon.

The applicant desires that the lands be reserved for the Elk Creek Reservoir Project.

Pursuant to section 204(h) of the Federal Land Policy and Management Act of 1976, 90 Stat. 2754, notice is hereby given that an opportunity for a public hearing is afforded in connection with the pending withdrawal application. All interested persons who desire to be heard on the proposed withdrawal must file a written request for a hearing with the State Director, Bureau of Land Management, at the address shown below, on or before February 20, 1979. Notice of the public hearing will be published in the FEDERAL REGISTER, giving the time and place of such hearing. The hearing will be scheduled and conducted in accordance with BLM Manual Sec. 2361.16 B. All previous comments submitted in connection with the withdrawal application have been included in the record and will be considered in making a final determination on the application.

In lieu of or in addition to attendance at a scheduled public hearing, written comments or objections to the pending withdrawal application may be filed with the undersigned authorized officer of the Bureau of Land Management on or before February 20, 1979.

The above described lands are temporarily segregated from the operation of the public land laws, including the mining laws, to the extent that the withdrawal applied for, if and when effected, would prevent any form of disposal or appropriation under such laws. Current administrative jurisdiction over the segregated lands will not be affected by the temporary segregation. In accordance with section 204(g) of the Federal Land Policy and Management Act of 1976 the segregative effect of the pending withdrawal application will terminate on October 20, 1991, unless sooner terminated by action of the Secretary of the Interior.

All communications (except public hearing requests) in connection with this pending withdrawal application should be addressed to the undersigned officer, Bureau of Land Management, Department of the Interior, P.O. Box 2965, Portland, Oregon 97208.

HAROLD A. BERENDS,
Chief, Branch of Lands and Minerals Operations.

National Park Service

[INT DES 79-4]

PROPOSED FERAL BURRO MANAGEMENT AND ECOSYSTEM RESTORATION PLAN, GRAND CANYON NATIONAL PARK, ARIZ.

Availability of Draft Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act, the Department of the Interior has prepared a draft environmental statement for the proposed Feral Burro Management and Ecosystem Restoration Plan, Grand Canyon National Park, Arizona.

The statement considers a management plan to restore natural ecosystems in four impacted areas of the park. The plan proposes to remove approximately 300 feral burros, primarily by shooting and secondarily by herding, and to fence a 2.5-mile section of the park boundary to prevent re-entry of burros from adjacent Federal land.

Written comments on the environmental statement are invited and will be accepted on or before March 19, 1979. Comments should be addressed to the Superintendent, Grand Canyon National Park.

Copies of the draft environmental statement are available from or for inspection at the following locations:

Western Regional Office, National Park Service, 450 Golden Gate Avenue, San Francisco, CA 94102.
Southern Arizona Group, National Park Service, 1115 N. 1st Street, Phoenix, AZ 85004.
Grand Canyon National Park, P.O. Box 129, Grand Canyon, AZ 86023.

Dated: January 15, 1979.

LARRY R. MEIEROTTO,
Deputy Assistant Secretary of the Interior.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-53]

CERTAIN SWIVEL HOOKS AND MOUNTING BRACKETS

Commission Request for Public Comments Concerning Settlement Agreement

RECOMMENDATION OF "NO PRESENT VIOLATION" ISSUED

In connection with the Commission's investigation, under section 337 of the Tariff Act of 1930, of alleged unfair methods of competition and unfair acts in the importation and sale of certain swivel hooks and mounting brackets in the United States, the presiding officer recommended on December 1, 1978, that the Commission determine that there is no present violation of section 337. The presiding officer certified the record to the Commission for its consideration. Copies of the presiding officer's recommendation may be obtained by interested persons by contacting the Office of the Secretary to the Commission, 701 E Street, N.W., Washington, D.C. 20436, telephone (202) 523-0161.

SETTLEMENT AGREEMENT SIGNED BY COMPLAINANT AND ALL RESPONDENTS

The Presiding Officer's recommendation of "no present violation" follows a joint motion by all parties to terminate this investigation, which was supported by a settlement agreement signed by complainant and all respondents ("Settlement Agreement"). The presiding officer found that, while the importation or sale of the swivel hooks and mounting brackets which are the subject of the Commission's investigation may have violated section 337 in the past by infringing U.S. Letters Patent No. 3,995,822 or U.S. Letters Patent No. 4,049,225, in light of the Settlement Agreement these alleged violations will not occur in the future. In addition, the presiding officer found that, while the importation of swivel hooks which are the subject of the Commission's investigation and their subsequent sale to retail purchasers without a clear and conspicuous disclosure of the foreign country of origin may have violated section 337 in the past, in light of the Settlement Agreement these alleged violations will not occur in the future.

WRITTEN COMMENTS ON THE PUBLIC INTEREST REQUESTED

Since all parties have filed a joint motion to terminate this investigation, which is supported by the Settlement Agreement, and since the presiding officer has recommended termination on the basis of the Settlement Agreement, no oral argument will be held with respect to the Presiding Officer's recommendation. However, in light of the Commission's duty to consider the public interest, the Commission requests written comments from the parties, interested agencies, public-interest groups, or other interested persons concerning the effect of the termination of this investigation, supported by the Settlement Agreement, upon (1) the public health and welfare, (2) competitive conditions in the U.S. economy, (3) the production of like or directly competitive articles in the United States, and (4) U.S. consumers. These written comments must be filed with the Secretary to the Commission on or before February 20, 1979. The test of the settlement agreement follows.

TEXT OF THE SETTLEMENT AGREEMENT

This agreement, by and between Coats & Clark, Inc. (hereinafter referred to as "Complainant") and Sato Metal Trading Co., Ltd., Sato American Metal, Inc., Japan Hardcraft (U.S.A.) Corporation, Jordan Industries, Inc., and Carol Cable Company (hereinafter referred to as "Respondents");

Whereas, Complainant has filed a complaint under Section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337) with the United States International Trade Commission on May 9, 1978;

Whereas, an investigation was instituted by the International Trade Commission on June 7, 1978 based on said Complaint;

Whereas, Answers to said Complaint were timely filed by Respondents;

Whereas, Complainant and Respondents have agreed to settle their differences underlying said investigation;

Now, therefore, be it known, that in consideration of the mutual covenants contained herein, the parties hereto agree to be bound as follows:

1. Respondents have re-designed their "Swivel hooks" so as not to infringe U.S. Patent No. 3,995,822.

2. Respondents shall not import or sell "Swivel Hooks" infringing U.S. Patent No. 3,995,822.

3. U.S. Patent No. 3,995,822 is valid.

4. Based on the affidavits of Robert C. Faber, Melba Holbrook, and James Ban attached to the MOTION TO DISMISS ALL ALLEGATIONS IN COATS & CLARK'S COMPLAINT PERTAINING TO "HINGED MOUNTING BRACKETS" filed with the International Trade Commission on the 19th day of July, 1978, and of the Affidavits of Lawrence H. Koffler, James Ban and Earl Oda attached hereto as Exhibits, 1, 2, and 3, respectively, all of said Affidavits being embodied herein by reference, Respondents have not imported or sold any mounting brackets infringing U.S. Patent No. 4,049,225 except for a small number of samples which were imported but not sold.

5. Respondents will not import or sell mounting brackets infringing U.S. Patent No. 4,049,225.

6. U.S. Patent No. 4,049,225 is valid.

7. Respondents have imported and/or sold swivel hooks either lacking an indication of the country of origin or not prominently displaying an indication of the country of origin such that the consumer of said swivel

V 4 4 / 1 3 JA 18 79 UMI

hooks may have been deceived as to the country or origin.

8. Respondents shall disclose clearly and conspicuously the foreign country of origin of all imported swivel hooks on the swivel hooks and on the retail packages in which these swivel hooks are sold in the United States.

9. Respondents, for themselves and for any customers for whom they adopt and use trademarks, shall not use "SWIVEL CEILING HOOK" and "SWIVEL HOOK/EYE" or colorable variations thereof on their swivel hooks and Respondent, Jordan Industries, Inc., shall submit its proposed new trademarks to Complainant for approval. Complainant shall not unreasonably withhold such approval. Said obligation of submission for approval shall not be a continuing one beyond the first change to new trademarks.

10. Respondents, for themselves and for any customers for whom they adopt and use trade dress, shall adopt trade dress for their swivel hooks that is not similar to that of Complainant and Respondent, Jordan Industries, Inc. shall submit its proposed new trade dress to Complainant for approval. Complainant shall not unreasonably withhold such approval. Said obligation for approval shall not be a continuing one beyond the first change to new trade dress.

1. Complainant shall release Respondents from all past claims of patent or trademark infringement, or unfair competition, in the United States, said release to be in a form substantially the same as that attached hereto as Exhibit 4.

12. The International Trade Commission has jurisdiction over the subject matter of said investigation.

13. Respondents will not challenge the validity of U.S. Patents Nos. 3,995,822 and 4,049,225 or of any trademark registrations which may issue to Complainant covering "SWIVEL CEILING HOOK" or "SWIVEL HOOK/EYE".

14. Complainant and Respondents shall enter into a JOINT MOTION FOR TERMINATION with the Commission investigative attorney.

15. Complainant shall assert no claim against Respondents' customers, nor against Respondents by reason of sale or other disposal of products physically present in the United States prior to the date of this settlement agreement, it being the intent of this Paragraph 15 to make clear that Respondents and Respondents' customers have the right to dispose of stock on hand within one year from the date of signing of this Agreement.

16. Complainant agrees that specimens of Respondents' revised trademarks and/or trade designation for the products herein referred to as "SWIVEL CEILING HOOK" and "SWIVEL HOOK/EYE" submitted to Complainant on or about September 15, 1978, satisfies the obligation of Respondents set out in paragraph 9 herein to submit said revisions to Complainant for approval, and Complainant hereby gives its approval thereto.

17. Complainant agrees that specimens of Respondents' revised trade dress for the products herein referred to as "SWIVEL CEILING HOOK" and "SWIVEL HOOK/EYE" submitted to Complainant on or about September 15, 1978, satisfies the obligations of Respondents set out in paragraph 10 herein to submit said revisions to Complainant for approval, and Complainant hereby gives its approval thereto.

In witness whereof, the parties hereto have executed this agreement by their duly authorized attorneys as of this 20th day of September, 1978.

COMPLAINANT: COATS & CLARK, INC., By: Milton J. Wayne, *Attorney for Complainant.*

RESPONDENTS: SATO METAL TRADING CO., LTD.; SATO AMERICAN METAL, INC.; JAPAN HARDCRAFT (U.S.A.) CORP.; CAROL CABLE COMPANY, By: Robert C. Faber, *Their Attorney;* JORDAN INDUSTRIES, INC., By: Robert C. Faber; By: James G. Staples, *Its Attorneys.*

ADDITIONAL INFORMATION

The original and 19 true copies of all written submissions must be filed with the Secretary to the Commission. Any person desiring to submit a document (or a portion thereof) to the Commission in confidence must request *in camera* treatment. Such request should be directed to the Chairman of the Commission and must include a full statement of the reasons why the Commission should grant such treatment. The Commission will either accept such submission in confidence or return it. All nonconfidential written submissions will be open to public inspection at the Secretary's Office.

Notice of the Commission's investigation was published in the FEDERAL REGISTER of June 14, 1978 (43 FR 25743).

By order of the Commission.

Issued: January 15, 1979.

KENNETH R. MASON,
Secretary.

[Investigation No. 337-TA-48]

ALTERNATING PRESSURE PADS

Commission Procedure for Solicitation of Public Comment

On September 7, 1978, the presiding officer in investigation No. 337-TA-48 (Alternating Pressure Pads), an investigation being conducted by the United States International Trade Commission under the authority of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337), issued his recommended determination that the Commission (1) determine that there is no present violation of section 337 in the importation or sale of alternating pressure pads, and (2) terminate the investigation as to all issues and parties, contingent upon complainants filing a copy of their reissue application with proof of filing with the Patent and Trademark Office with the Commission.

Copies of the presiding officer's recommended determination may be obtained by contacting the Office of the Secretary to the Commission, 701 E Street, NW., Washington, D.C. 20436, telephone 202-523-0161.

The Commission, before proceeding on the recommended determination, has determined that it will consider any written submission relating to the public interest for a period of 20 days following publication of this notice in the FEDERAL REGISTER. this notice outlines the procedures for submissions to the Commission relating to its consideration of the public interest.

PROCEDURAL BACKGROUND

This investigation was instituted on February 17, 1978, on the basis of a complaint filed by Gaymar Industries, Inc., and Medisearch PR, Inc. (complainants). Named as respondents in the Commission's notice of investigation were Flowtron Aire, Ltd., and the Huntleigh Group, Inc. (respondents). The notice of investigation listed the unfair practice allegedly engaged in by respondents as (1) the importation of alternating pressure pads which were allegedly covered by claims 1 and 3-6 of U.S. Letters Patent 3,701,173 and (2) the alleged unfair use of promotional and advertising material pertaining to alternating pressure pads (43 FR 7483, Feb. 23, 1978).

On August 7, 1978, complainants filed, pursuant to section 210.51 of the Commission's Rules of Practice and Procedure (19 CFR 210.51), a motion to terminate this investigation as to all issues and with respect to all respondents.

The motion to terminate is based on the discovery by respondents of a prior West German patent reference, which was previously unknown to the parties. Complainants stated that this prior art was not before the patent examiner while the above patent was pending, and that the discovery of the West German patent reference places in question the validity of one or more of the claims in the patent. Complainants also stated in the motion that respondents have withdrawn the promotional literature from circulation and that prior activities connected therewith were de minimis. Complainants then withdrew their request for an exclusion order based on the alleged infringement and on the alleged unfair use of promotional literature. Complainants indicated an intention to surrender the patent and to file a reissue application with the Patent and Trademark Office, which they subsequently did. On August 18, 1978, complainants filed a supplemental memorandum (which is attached to this notice) containing a settlement agreement whereby complainants agreed not to assert the patent claims against respondents or those in privity with respondents (settlement agreement).

The presiding officer, acting in conformity with sections 210.51(c) and 210.53 of the Rules (19 CFR 210.51(c) and 210.53), concluded that (1) the issue of the promotional literature published by respondents is now moot owing to respondents' discontinuing distribution of such literature, and (2) because complainants have voluntarily moved to terminate the investigation and have entered into an agreement with respondents not to assert the patent claims against them, there is no present violation of section 337. The presiding officer also found that the discovery of the West German patent removes the statutory presumption of validity of the 3,701,173 patent under 35 U.S.C. 282. The presiding officer recommended that the Commission (1) determine that there is no present violation of section 337 in the importation or sale of alternating pressure pads, and (2) terminate the investigation as to all issues and parties, contingent upon complainants' filing with the Commission a copy of their reissue application with proof of filing with the Patent and Trademark Office. The copy of the reissue application with proof of filing has been properly filed with the Commission.

Under section 337, the Commission is required to consult with and seek advice and information from the Department of Health, Education, and Welfare, the Department of Justice, the Federal Trade Commission, and departments and agencies as it considers appropriate (19 U.S.C. 1337(b)). In addition, after considering the effect of a determination with respect to the concerned articles on the public health and welfare, competitive conditions in the U.S. economy, the production of like or directly competitive articles in the United States, and U.S. consumers, the Commission may find that the articles which are the subject of its investigation should not be excluded from entry (19 U.S.C. 1337(d)).

The Commission particularly desires to obtain public comment on possible anticompetitive effects arising from this agreement and any adverse effect on the public interest. Under the agreement, third parties may be sued by complainants, and complainants are not precluded from filing a section 337 investigation against other importers which allegedly infringe this patent. A copy of the settlement agreement entered into between the parties follows this notice.

DISPOSITION OF THE MOTION

The Commission will, on the basis of the record, the recommended determination, and the public-interest comments received, (1) grant the motion and terminate the investigation, (2) suspend the investigation, (3) advise the parties of alterations in the agreement that would be acceptable to the Commission so that it will not be in opposition to the public interest, (4) remand the matter to the presiding officer for further consideration, (5) determine that there is no violation in this case, or (6) take other appropriate action, as may be necessary.

The granting of complainants' motion would terminate the present investigation. The agreement would be binding only on the signatories, and there would be no judgment as to the validity of the patent, at least for the purposes of section 337.

Suspension of the investigation would allow the Commission to reopen the investigation on motion by the parties or on its own motion, should further information indicate that this would be in the public interest.

The alternatives of remanding the agreement for further consideration by the parties or by the presiding officer would allow a further consideration of any anti-competitive aspects of the agreement.

PROCEDURE FOR CONSIDERATION OF THE PUBLIC INTEREST

Requests for oral argument and oral presentation. At present, no oral argument is planned with respect to the public-interest factors raised by the recommended determination of the presiding officer. However, the Commission will consider requests for an oral argument or an oral presentation if they are received by the Secretary to the Commission on or before February 20, 1979.

Written submissions on the recommended determination. Written submissions from the parties, other interested persons, government agencies and departments, governments, or the public with respect to the public interest will be considered by the Commission if received on or before February 20, 1979.

Statements made in submissions should be supported by reference to the record. Persons with the same position are encouraged to consolidate their submissions, if possible.

Additional information. The original and 19 true copies of all written submissions must be filed with the Secretary to the Commission. Any person desiring to submit a document (or a portion thereof) to the Commission in confidence, must request *in camera* treatment. Such request should be directed to the Chairman of the Commission and must include a full statement of the reasons the Commission should grant such treatment. The Commission will either accept such submission in confidence or return the submission. All nonconfidential written submissions will be open to public inspection at the Secretary's Office.

Issued: January 15, 1979.

By order of the Commission.

KENNETH R. MASON,
Secretary.

Re: *The Huntleigh Group, Inc. et al* v. *Gaymar Industries, Inc., et al,* Civil Action No. 77 Civ. 4154 (MEL).

SIDNEY R. BRESNICK, Esq.,
Pennie & Edmonds,
330 Madison Avenue,
New York, N.Y. 10017.

DEAR SID: This letter is to advise you that our client Medisearch PR Inc. (and persons and entities in privity with it, such as Gaymar Industries, Inc. and John Whitney) covenant that it will not assert against your clients Flowtron Aire Ltd., The Huntleigh Group, Inc. and The Huntleigh Group Ltd. (and those in privity with them) claims 1, 3, 4, 5 and 6 of United States Patent No. 3,701,173, whether in the original patent or a reissue of that patent.

The above statement is not to be taken as prejudicial to any possible claims which might arise in the future based upon alleged infringement of any new and narrower claims in a reissue of that patent.

Medisearch (and those in privity with it) hereby release your clients from all claims existing up to this date as alleged in the counterclaims in the above-identified litigation.

Although you may take this letter as binding upon my clients, I am having a copy of this letter countersigned by an officer of the owner of the patent, Medisearch PR Inc. and I will forward such countersigned copy to you in the near future.

Very truly yours,

JESSE ROTHSTEIN.

Medisearch PR Inc. acknowledges its agreement with the foregoing and confirms Mr. Rothstein's authorization to commit the company as stated above.

JOHN WHITNEY, *President,*
Medisearch PR Inc.

AMSTER, ROTHSTEIN & EHRENBERG,
COUNSELORS AT LAW,
New York, N.Y., August 9, 1978.

Re: *The Huntleigh Group, Inc. et al* v. *Gaymar Industries, Inc., et al,* Civil Action No. 77 Civ. 4154 (MEL), Alternating Pressure Pads Investigation No. 337-TA-48.

SIDNEY R. BRESNICK, Esq.,
Pennie & Edmonds,
330 Madison Avenue,
New York, N.Y. 10017.

DEAR SID: This letter shall serve as the agreement between and among our respective clients concerning the termination of the above District Court case and ITC proceeding.

The ITC proceeding shall be terminated in accordance with Complainants' motion filed on August 2, 1978. Respondents shall file a document indicating that they have no opposition to the motion and request that it be granted.

The District Court case shall be dismissed under Rule 41(a) by stipulation; both the complaint and the counterclaims shall be

dismissed without prejudice. Our clients again acknowledge the covenants contained in my letter to you dated August 7, 1978.

The covenant contained in our letter to you of August 7, 1978, copy attached, contemplates the dismissal of the complaint and counterclaims in the District Court case without prejudice. This covenant shall take precedence over such dismissal without prejudice.

We further confirm that we will specifically notify your clients upon the filing of an application to reissue U.S. Patent No. 3,701,173.

This agreement, the letter of August 7, 1978, the ITC proceeding, the District Court case and the agreement by the parties to terminate those legal proceedings shall not be used for advertising, promotion or publicity purposes.

Please have a copy of this letter countersigned by persons authorized to sign on behalf of your clients; we will do the same on our side and we can then exchange signed copies.

Very truly yours,

JESSE ROTHSTEIN.

DEPARTMENT OF JUSTICE

Federal Bureau of Investigation

NATIONAL CRIME INFORMATION CENTER ADVISORY POLICY BOARD

Renewal

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of the renewal of the NCIC Advisory Policy Board.

The Assistant Attorney General for Administration, United States Department of Justice, and the Committee Management Secretariat, Office of the Assistant to the Administrator, General Services Administration, have determined that renewal of this Board is necessary and in the public interest. Copies of documents relating to the work of the Board can be obtained at FBI Headquarters, Washington, D.C. 20535.

The purpose of the Board is to recommend to the FBI general policy with respect to the philosophy, concept and operational principles of the NCIC system.

Membership on this Board consists of 26 representatives of criminal justice agencies throughout the United States. Twenty members are elected; five each from the four NCIC geographic regions. Qualified electors are representatives of NCIC control terminal agencies. The FBI does not participate in the electoral process. Six additional members representing the judicial, prosecutorial, and correctional segments of the criminal justice community are appointed by the Director of the FBI.

The Chairman of the Board is elected by the Board members and will serve until January 4, 1981.

WILLIAM H. WEBSTER,
Director.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-10]

COMMONWEALTH EDISION CO.

Issuance of Amendent to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 28 to Facility Operating License No. DPR-2, issued to the Commonwealth Edison Company (the licensee), which revised the Technical Specifications for operation of Unit 1 of Dresden Nuclear Power Station (the facility) located in Grundy County, Illinois. The license amendment is effective as of its date of issuance.

The amendment revises the Technical Specifications to permit tensioning of the reactor vessel head bolting studs with the vessel shell temperature greater than 70°F.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated December 1, 1978, (2) Amendment No. 28 to License No. DPR-2, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555 and at the Morris Public Library, 604 Liberty Street, Morris, Illinois 60451. A single copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 4th day of January, 1979.

For the Nuclear Regulatory Commission.

THOMAS V. WAMBACH,
Acting Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[7590-01-M]

[Docket No. 50-302]

FLORIDA POWER CORP., ET AL.

Notice of Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 17 to Facility Operating License No. DPR-72, issued to the Florida Power Corporation, City of Alachua, City of Bushnell, City of Gainesville, City of Kissimmee, City of Leesburg, City of New Smyrna Beach and Utilities Commission, City of New Smyrna Beach, City of Ocala, Orlando Utilities Commission and City of Orlando, Sebring Utilities Commission, Seminole Electric Cooperative, Inc., and the City of Tallahassee (the licensees) which revised the Technical Specifications for operation for the Crystal River Unit No. 3 Nuclear Generating Plant (the facility) located in Citrus County, Florida. The amendment is effective as of the date of issuance.

This amendment revises the Technical Specifications to delete the requirement to maintain the sodium thiosulfate tank operable while it is also required to be isolated; add surveillance for emergency core cooling system valves; delete reference to two reactor coolant pump operation; change discharge temperature monitoring locations; and change the requirement for condenser vacuum pump exhaust flow rate monitoring from continuous to once per shift.

The applications for the amendment comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the applications for amendment dated July 15, October 11, and November 8, 1977, and February 17, 1978, (2) Amendment No. 17 to License No. DPR-72, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Crystal River Public Library, Crystal River, Florida. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 4th day of January 1979.

For the Nuclear Regulatory Commission.

ROBERT W. REID,
Chief, Operating Reactors Branch No. 4, Division of Operating Reactors.

[7590-01-M]

HEALTH EFFECTS RESEARCH

Memorandum of Understanding

Pursuant to Pub. L. 95-601, the Nuclear Regulatory Commission and the Environmental Proection Agency have executed a Memorandum of Understanding delineating respective agency responsibilities in the conduct of epidemiological planning studies to investigate the health risks associated with low-level ionizing radiation. The text of the memorandum is set forth below.

Dated at Washington, D.C., this 12th day of January 1979.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,
Secretary of the Commission.

NRC/EPA MEMORANDUM OF UNDERSTANDING CONCERNING EPIDEMIOLOGICAL RESEARCH ON THE HEALTH EFFECTS OF LOW-LEVEL IONIZING RADIATION

The Nuclear Regulatory Commission (NRC) and the Environmental Protection Agency (EPA) have complementary responsibilities in areas of environmental protection and the control of radiation health hazards. Pursuant to Reorganization Plan No. 3 of 1970, all functions of the former Federal Radiation Council and the authority of the former Atomic Energy Commission (AEC) for setting "generally applicable environmental radiation standards" were transferred to EPA. In addition, under other environmental statutes EPA has authority to establish various specific environmental standards for radiation protection of the public. The Nuclear Regulatory Commission

V 4 4 / 1 3 J A 1 8 7 9 UMI

was created by the Energy Reorganization Act of 1974 to continue the regulatory activities of the former AEC for ensuring, among other things, the protection of public health and safety from commercial uses of source, byproduct, and special nuclear materials. The NRC also has responsibility for implementing Federal guidance prepared by EPA and approved by the President which pertains to NRC-licensed activities and responsibility for enforcing "generally applicable environmental radiation standards" issued by EPA.

The Congress of the United States has authorized and directed NRC and EPA to: (1) conduct preliminary planning and design studies for epidemiological research on the health effects of low-level ionizing radiation; (2) submit to Congress by April 1, 1979 an assessment of their capabilities and needs in the area of health effects of ionizing radiation research; and (3) submit a report to Congress by September 30, 1979, which includes a study of options for Federal epidemiological research on the health effects of low-level ionizing radiation, with evaluations of the feasibility of such options.

In order to clarify their respective roles with regard to the conduct of the planning studies, the EPA and NRC agree as follows:

1. In complying with the specific requirement of Subsection 5C of the 1979 NRC Authorization bill (item (2) in the preceding paragraph), NRC and EPA will separately prepare assessments of capabilities and research needs in the area of health effects of low-level ionizing radiation for their respective agencies, and will jointly prepare the report to Congress of the results of those assessments.

2. Preparation of the technical scopes of work for the preliminary planning and design studies, selection of the type of organizations most appropriate to conduct such studies and monitoring of the technical progress and the effort, will be accomplished under the direction of a five-member scientific review group. It will consist of members of the professional staffs of NRC, EPA, and the Department of Health, Education, and Welfare (HEW), two members designated by NRC and two by EPA with each other's agreement, and one member designated by HEW, with NRC's and EPA's agreement. EPA will select, with NRC's agreement, the chairperson of this review group. NRC will select, with EPA's agreement, a program manager (not a member of the review group), to be responsible for the day-to-day management of the feasibility and planning studies and for the submission of technical reports to the review group.

3. Any questions that cannot be resolved by the scientific review group will be resolved by conference between the EPA Assistant Administrator for Air, Noise, and Radiation Programs and the Director of NRC's Office of Standards Development.

4. As appropriate during the conduct of the studies, NRC and EPA shall consult with appropriate scientific organizations and Federal and State agencies.

5. NRC and EPA professional staffs will be utilized for preparation of work scopes, technical and administrative management of studies, and preparation of necessary reports to the Congress. The NRC will make available up to $500,000 for outside assistance for the studies. If a private contractor is to be selected, the Division of Contracts of the Nuclear Regulatory Commission will provide administrative support for issuing requests for proposals, receiving proposals, making contract awards, and administering the funds authorized for this purpose.

6. After review of the report by the scientific review group, the report will be sent to the Commission and Administrator of EPA for final approval prior to transmittal to the Congress.

LEE V. GOSSICK,
Executive Director for Operations, U.S. Nuclear Regulatory Commission.

DAVID G. HAWKINS,
Assistant Administrator for Air, Noise and Radiation, U.S. Environmental Protection Agency.

STEPHEN J. GAGE,
Assistant Administrator for Research and Development, U.S. Environmental Protection Agency.

[FR Doc. 79-1791 Filed 1-17-79; 8:45 am]

[7590-01-M]

STUDY OF NUCLEAR POWER PLANT CONSTRUCTION DURING ADJUDICATION

Establishment and First Meeting

The Nuclear Regulatory Commission has established an advisory committee to study the issue of nuclear power plant construction during adjudication. The study group will examine the present NRC licensing process to develop options for dealing with issues arising from the present practice of permitting construction of nuclear power plants while challenges to their construction permits or limited work authorizations are under adjudication. Among the reasons for initiating this study are the following:

a. Irrevocable changes can be made in the site environment during review.

b. Large sums spent on construction, ultimately derived from the rate-paying or tax-paying public, as well as from investors, are being placed at risk.

c. Construction work underway can create psychological pressure on decision makers to uphold permits under conditions when a proper balancing of factors might have led to revocation or modification.

d. Activities performed while a construction permit is under review might ultimately prove to be the decisive factor in tipping a cost-benefit balance in favor of a plant, when that balance before construction was unfavorable.

e. The cloud of litigation during construction, or fear of it, can make utilities' planning more difficult, and result in undesirable distortions of rational planning.

The study group will examine experience under the Commission's current regulations permitting construction during adjudication as well as studying the experiences and practices of other agencies with similar responsibilities and functions. The study group will consider a variety of topics including the Commission's immediate effectiveness rule (10 CFR 2.764), its stay regulations (10 CFR 2.788), adjudicatory proceedings other than direct review, increased use of rulemaking to resolve issues on a generic basis, and any other matters that its members may view as having a potential bearing on the issues considered in the study. The study will not consider possible revision of the Commission's appellate structure which is currently the subject of a separate examination being performed by the Office of the General Counsel.

The report of the study group is expected to aid the NRC in establishing policy in the important area of when and under what conditions it should permit construction of nuclear power reactors to begin. The Commission desires the maximum practical public participation, and all meetings of the group will be publicly noticed and will be open to the public.

The first meeting of the study group will be at 9:30 A.M. on Friday, February 2, 1979, at the headquarters of the NRC at 1717 H Street, N.W., Washington, D.C. 20555. The purpose of the first meeting will be for the study group members to discuss their views on the data that will be necessary to prepare the group's report and also to begin work on the group's interim report to the Commission which must be submitted within 60 days after the first meeting. At this meeting there will be a limited amount of time available for members of the public to make oral statements to the study group. Written comments, addressed to the Secretary of the Commission, United States Nuclear Regulatory Commission, Washington, D.C., 20555, Attention: Docketing and Service Branch, will be accepted for one week after the meeting. Similar arrangements will be made for future meetings of the group which will be held at 9:30 A.M. on the first Friday of each month and at other times as necessary. The location of future meetings may change depending upon circumstances. The Chairman of the study group is empowered to conduct the meetings in a manner that, in his judgment, will facilitate the group's work, including, if necessary, continuing or rescheduling meetings to another day.

A file of documents relevant to the group's work including the minutes of each meeting, memoranda exchanged between group members, and other documents will be maintained and will be available for inspection and copying at the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C. 20555. The Secretary of the NRC will maintain a mailing list for persons interested in receiving notices of the group's meetings and actions. Anyone wishing to be on that list should write to: Secretary of the Commission, Nuclear Regulatory Commission, Washington, D.C., 20555, Attention: Docketing and Service Branch.

The study group will provide its final report to the Commisson by November 1, 1979. The Commission will be furnishing the study group with administrative and secretarial services and with funds for other necessary expenses. Copies of the study group's charter have been filed with the appropriate standing committees of Congress and with the Library of Congress as required by the Federal Advisory Committee Act. For further information on the study group's mission please call Stephen S. Ostrach, Office of the General Counsel, Nuclear Regulatory Commission (202) 634-3224.

Dated at Washington, D.C. this 12th day of January, 1979.

GARY MILHOLLIN,
Chairman.

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 79-3]

SAFETY RECOMMENDATIONS AND RESPONSES

Availability

Cooperative government and industry action to cut the high rate of railroad/highway grade crossing accidents in Florida's 240-mile Jacksonville-Tampa high-speed rail corridor was urged by the National Transportation Safety Board following investigation of the October 2, 1977, grade crossing accident in Plant City, Fla. The accident occurred when a westbound Amtrak passenger train struck a northbound pickup truck at the Turkey Creek Road crossing.

Investigation showed that the crossing was equipped with red flashing signals, which were operating. The train was traveling at 70 mph in a 79-mph speed zone; the pickup truck was traveling at 50 mph in a 45-mph speed zone. The 10 occupants of the truck died in the crash. None of the train crew or its 30 passengers was injured.

On the north approach to the crossing, the westbound train was not visible to the northbound driver until she passed a stand of trees 400 feet south of the crossing. At that point the train was 559 feet from the crossing and there was no way the train could have stopped. The pickup truck could have stopped short of the crossing after the train became visible, but the time and distance available were marginal. An autopsy of the driver of the truck disclosed a 0.14-percent blood alcohol level. The Florida traffic code states that blood alcohol level of 0.10 percent or more is prima facie evidence of driving while under the influence of alcohol.

As a result of its investigation of this accident, the Safety Board on December 27 recommended that:

Federal Highway Administration, Federal Railroad Administration, National Railroad Passenger Corporation (Amtrak), Seaboard Coast Line Railroad Company, and Florida Department of Transportation—

Cooperate to take necessary corrective action to reduce the high frequency of railroad/highway grade crossing accidents along the 240 miles of track between Jacksonville and Tampa, Fla. (H-78-71)

City of Plant City, Fla.—

Cooperate with the Florida Department of Transportation and the Seaboard Coast Line Railroad Company to bring about the installation of the recommended reflectorized, lighted, automatic gates and cantilever flashing light signals and uniform warning signal timing devices at the Turkey Creek crossing in Plant City. (H-78-72)

Install the required advance pavement markings on Turkey Creek Road on both approaches to the railroad/highway grade crossing. (H-78-73)

Relocate the advance railroad/highway grade crossing warning signs on Turkey Creek Road 250 feet before both approaches to the grade crossing, as required by the Manual on Uniform Traffic Control Devices. (H-78-74)

As part of its Operation Lifesaver program, emphasize in its selective traffic law enforcement program grade crossing warning signal violators and those who drive while under the influence of alcohol or drugs. (H-78-75)

National Highway Traffic Safety Administration—

Evaluate and report to the National Transportation Safety Board those alcohol countermeasures that the NHTSA found to be practical and effective for the reduction in the number of alcohol-involved drivers. (H-78-76)

Governor of Florida—

Encourage State-level participation in and high-priority implementation of effective and continuous Statewide Operation Lifesaver railroad/highway grade crossing and selective law enforcement programs. (H-78-77)

Florida Department of Transportation—

Insure that the improvement plans for upgrading the Turkey Creek Road railroad/highway grade crossing, as well as all crossings on the 240 miles of track between Jacksonville and Tampa, Fla., include provisions for uniform warning times for various train speeds in conformity with the Amercian Association of Railroads and Federal Highway Administration guidelines. (H-78-78)

Seaboard Coast Line Railroad Company—

Cooperate with the city of Plant City to expedite the installation of the recommended reflectorized, lighted automatic railroad/highway grade crossing gates and cantilever light signals at the Turkey Creek crossing in Plant City, Fla. (H-78-79)

Recommendation H-78-75, directed to Plant City, is designated "Class I, Urgent Action." The other eight recommendations are designated "Class II, Priority Action."

Copies of the Safety Board's formal investigation report will be made available within the next few weeks. The report will provide factual information, analysis, conclusions, and the probable cause of the Plant City accident.

RESPONSES TO SAFETY RECOMMENDATIONS

Highway

H-78-67 and 68.—Letter of December 12 from the Department of Transportation of the State of North Carolina responds to the Safety Board's letter of December 5 and concerns recommendations issued following investigation of the January 5, 1978, tractor-semitrailer/pickup truck collision on N.C. Route 226 near Marion, N.C. The recommendations called for upgrading State guardrail installations and maintaining edge line markings at the accident site by clearing debris from the pavement surface. (See 43 FR 48742, October 19, 1978.)

The Safety Board on December 5, with reference to the Department's October 5 response, asked to be informed of the final action concerning the guardrail installations at the accident site and to be advised if the pavement edge line markings have indeed been maintained. The Department's December 12 response reports that a study, soon to be completed, will determine the feasibility and estimated cost of upgrading the existing guardrail installations at the accident site. The Department also advises that the pavement markings at the site were repainted in July 1978 and are being properly maintained.

Intermodal

I-78-13.—Letter of December 27 from the Environmental Protection Agency is in response to a recommendation issued as a result of the Safety Board's hearing, held last April 4-6, on derailments and the carriage of hazardous materials. The recommendation asked EPA to assist the U.S. Department of Transportation in assuring that hazardous materials regulations issued by the Department are in agreement with EPA's hazardous materials regulation. (See 43 FR 30149, July 13, 1978.)

EPA reports that for several months EPA and DOT have been cooperating to amend DOT regulations (49 CFR Parts 171 and 172) to require shippers

V 4 4 / 1 3 J A 1 8 7 9 UMI

to identify substances designated in EPA hazardous substance discharge regulations (49 CFR Part 11). EPA is also revising the regulations which define reporting requirements for hazardous substances discharges (40 CFR Part 117). Target dates of December 1978 for Part 117 and January 1979 for Parts 171 and 172 were set for proposing revised regulations, with final promulgations in April 1979.

Marine

M-78-45 through 52.—The U.S. Coast Guard on December 22 responded to recommendations issued as a result of the grounding of the M/V DAUNTLESS COLOCOTRONIS in the Mississippi River near New Orleans, La., July 22, 1977. In seeking better means of coping with submerged wrecks in busy waterways, the Safety Board's recommendations to the Coast Guard and the Corps of Engineers, U. S. Army, included these objectives: Improved standards for defining a navigation hazard in the Mississippi River; an annual summary of Mississippi River wrecks which continue to be hazardous to mariners; greater clarity in stating water depths over submerged wrecks; improved firefighting training for tanker crews, better foreign crew compliance with international fire drill requirements, and enhanced fireproofing of foreign-flag tankers; and international agreement on an exterior display on all large ships which would show emergency personnel the ship's interior layout. (See 43 FR 34222, August 3, 1978.)

In response to M-78-45, Coast Guard states that it will contact the U.S. Army Corps of Engineers through the Second and Eighth Coast Guard Districts to develop standards to establish minimum criteria for defining hazards to navigation in the Mississippi River. Results of this effort will form the basis for a publication listing the hazards to navigation in the Mississippi River, as called for in recommendation M-78-46; the study effort will also address the various means of measuring the level of water in the Mississippi River and determine which is most beneficial for dissemination in Local Notices to Mariners and Broadcasts to Mariners, as recommended in M-78-47.

With reference to M-78-48, which recommended that Coast Guard seek international agreement to improve the firefighting training for officers and crew on tankships, Coast Guard notes that the recently adopted (July 1978) International Convention on Standards of Training, Certification and Watchkeeping for Seafarers, 1978, contains in the Annex Chapter V, Regulation V/1 entitled "Mandatory Minimum Requirements for the Training and Qualifications of Masters, Officers and Ratings of Oil Tankers." These requirements are spelled out in Coast Guard's December 22 letter. Coast Guard also reports publication on April 25, 1977, of a notice of proposed rulemaking in 46 CFR 10.11 and 46 CFR 12.20 tankerman requirements. However, due to lengthy comments received on this proposal, as well as the General Accounting Office's Liquefied Energy Gas Report, the requirements of the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers, 1978, and the requirements of Public Law 94-474 (Port and Tanker Safety Act of 1978), this proposal is being withdrawn and will be reissued as a new notice of proposed rulemaking by mid-1979.

Recommendation M-78-49 asked Coast Guard to insure that all foreign tankships that enter U.S. waters comply with the 1960 Safety of Life at Sea Convention (SOLAS) requirements for fire drills. Coast Guard notes that SOLAS Regulation 26, Chapter III, requires fire drills for tankship at intervals of not more than a month and within 24 hours of leaving port if more than 25 percent of the crew have been replaced at that port. Coast Guard does not concur with a recommendation requiring that each foreign-flag tank vessel entering U.S. waters be boarded for determining compliance with the SOLAS requirements for drills. As required by Presidential initiatives and Commandant Instruction 16711.4 dated February 16, 1978, each foreign-flag tank vessel entering U.S. waters is examined at least annually with reexaminations as considered necessary. Coast Guard notes that the decision to board and examine each foreign-flag tank vessel is based upon that vessel's operational and examination history as contained in the Marine Safety Information System.

Recommendation M-78-50 asked for regulations, under the Ports and Waterways Act of 1972, to require all foreign tankships built after 1980 and entering U.S. waters to meet the fire safety requirements of the 1974 SOLAS Convention. Coast Guard reports that ratification of SOLAS 74 is making substantial progress internationally and that the required amount of tonnage necessary for ratification has been obtained. Only nine more countries are needed to have the requisite 25 countries with at least 50 percent of the world's gross tonnage. Final rules implementing this action are anticipated by June 1979.

With reference to M-78-51, Coast Guard reports that the chairman of the U.S. SOLAS working group on fire protection will present to the working group for consideration the proposal to require all ships of more than 500 gross tons to post, under watertight cover and outside the ship's deckhouse in a prominent place, an arrangement plan of the ship to aid emergency personnel.

The Coast Guard does not believe that it is necessary to seek international agreement to require that cargo pumps on tankships be segregated from all sources of vapor ignition by gastight bulkheads and that pump shafts penetrating these bulkheads be fitted with stuffing boxes or other approved glands which will prevent vapor ignition, as recommended by the Safety Board in M-78-52. Coast Guard states, "The requirements paraphrase 46 CFR 32.60-20(a). Classification societies (ABS, LLOYD's DNV, NKK) and IMCO Resolution A. 325 (IX) have similar requirements. The problem occurring on the DAUNTLESS COLOCOTRONIS was not one of arrangement; it was due to improper installation of the shaft packing gland."

Railroad

R-78-57.—Letter of December 22 from the Atlanta & Saint Andrews Bay Railway Company is in response to a recommendation issued November 27, following investigation of the derailment of one of the Company's trains at Youngstown, Fla., last February 26. The recommendation called for maintaining a 24-hour radio communications monitoring capability between trains and communications based stations. (See 43 FR 59558, December 21, 1978.)

In response, the Company informed the Board that on October 12, 1978, before receiving the recommendation, the Company put in service a 24-hour radio communication monitoring system on the Bay Line.

NOTE.—Single copies of the Safety Board's recommendation letters and letters in response to recommendations are available without charge. Requests for copies must be in writing and provide the recommedation number and date of letter. Address inquiries to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594.

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2169, 2172 (49 U.S.C. 1903, 1906)).)

MARGARET L. FISHER,
Federal Register Liaison Officer.

OFFICE OF MANAGEMENT AND BUDGET

IMPLEMENTATION OF SECTION 223(a)(3) OF PUBLIC LAW 95-507

Invitation for Public Comment

AGENCY: Office of Federal Procurement Policy (OFPP), Office of Management and Budget.

ACTION: Notice of proposed Policy Letter implementing section 223(a)(3) of Pub. L. 95-507.

SUMMARY: On October 24, 1978, the President signed into law Pub. L. 95-507, amending the Small Business Investment Act and the Small Business Act.

Public Law 95-507, among other things, requires that upon the request of a small business concern a Federal agency must provide to it "adequate citations to each major Federal law or agency rule with which such business concern must comply in performing" a contract to be let by the agency.

The proposed policy letter requires that procurement solicitations estimated to result in a contract of $10,000 or more indicate by adequate citation the Federal law or agency rule on which each contract provision is based.

DATE: Comments must be received by February 15, 1979.

ADDRESS: Comments are to be submitted to the Office of Federal Procurement Policy, OMB, 726 Jackson Place, NW., Room 9025, Washington, D.C. 20503.

FOR FURTHER INFORMATION CONTACT:

Mr. Owen Birnbaum, Deputy Associate Administrator for Acquisition Law, (202) 395-3455.

LESTER A. FETTIG,
Administrator.

Policy Letter No. 79-

To: The Heads of Executive Departments and Establishments.

Subject: Contract Citations.

Section 223(a)(3) of Public Law 95-507, October 24, 1978, requires that Federal agencies provide to a requesting small business, with respect to a contract to be awarded, "adequate citations to each major Federal law or agency rule with which such business concern must comply in performing such contract."

Accordingly, in all procurement solicitations estimated to result in a contract that will exceed $10,000 the contracting officer shall, at the end of each provision, indicate by adequate citation the Federal law or agency directive or rule on which the provision is based. If the provision already contains, within its text, the statutory or administrative basis for the provision, that fact will satisfy this requirement.

LESTER A. FETTIG,
Administrator.

[7710-12-M]

POSTAL SERVICE

TEMPORARY CHANGE IN MAIL CLASSIFICATION SCHEDULE

Third-Class Carrier Route Presort

On September 8, 1978, the United States Postal Service requested the Postal Rate Commission to submit to the Governors of the Postal Service a recommended decision on a change in the mail classification schedule establishing a new subclass of third-class mail, a third-class carrier route presort subclass, pursuant to Chapter 36 of Title 39, United States Code. An explanation of the Postal Service proposal was published in the FEDERAL REGISTER by the Postal Rate Commission on September 18, 1978 (43 FR 41440).

In its filing with the Postal Rate Commission, the Postal Service proposed the addition of section 300.222 to the Domestic Mail Classification Schedule as follows:

300.222 Carrier route presort

a. Carrier route presort mail consists of mailings of properly prepared and presorted separately addressed pieces of third-class mail of identical weight and size, with dimensions not to exceed 10 inches x 12 inches x .75 inch (except as provided in section 300.222c). Each mailing must consist of ten pieces for each carrier route included in the mailing, and a minimum of 2,000 pieces per mailing.

b. Mail for each individual carrier route included in the mailing must be sacked or containerized in the manner prescribed by the Postal Service.

c. Merchandise samples with detached labels may be sent as carrier route presort even though their dimensions may exceed the prescribed maxima, if they meet all other requirements of the subclass and the detached labels do not exceed those dimensions.

The proposal included the addition of a "carrier route presort" column to section 300.223 as follows:

300.223 *Rates and fees, bulk rates.*

• • • • • •

	Special Rates for Authorized Organizations Only	Regular Rates	Carrier Route Presort
a. Books and catalogs having 24 or more bound pages with at least 22 printed, seeds, cuttings, bulbs, roots, scions, and plants.	• • •	• • •	36¢ per pound or fraction minus 1.5¢ per piece
Minimum rate per piece	• • •	• • •	6.9¢
b. All matter, except the items in (a) included in the first- or second-class.			41¢ per pound or fraction minus 1.5¢ per piece
Minimum rate per piece	• • •	• • •	6.9¢

In addition, the proposal included the deletion of section 300.22c which reads as follows:

c. Identifying words as follows must be printed or rubber stamped by the mailer either in or immediately adjacent to permit imprints, meter stamps, or precanceled stamps:

(1) BULK RATE or abbreviation BLK.RT. by mailers other than nonprofit organizations.

(2) NONPROFIT ORGANIZATION or the abbreviation NONPROFIT ORG. by nonprofit organizations.

Since the Postal Rate Commission has not transmitted its recommended decision to the Governors of the Postal Service within 90 days after submission of the Postal Service's request (September 8, 1978), the Postal Service will, under the authority of 39 U.S.C. 3641(e), place in effect at 12:01 a.m. on January 28, 1979, temporary changes in the mail classification schedule as described above.

(39 U.S.C. 401, 403, 404, 3621, 3623, 3641)

W. ALLEN SANDERS,
Acting Deputy General Counsel.

[FR Doc. 79-2006 Filed 1-16-79; 1:44 pm]

[8010-01-M]

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-15486; File No. SR-Amex-78-25]

AMERICAN STOCK EXCHANGE, INC.

Self-Regulatory Organization; Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"), 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on October 2, 1978 the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

V 4 / 13 J A 18 79 UMI

AMEX'S STATEMENT OF TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The proposed rule change would permit a member organization to extend credit to customers on shelf-registered, control or restricted securities within the guidelines of Regulation T and the amount set forth in the rule. The total amount of such credit which a member organization may extend will be limited as prescribed from time to time by the Exchange, but in no event greater than 25% of its excess Net Capital. The total amount of credit which may be extended to all customers on such securities of any one issuer is limited to 5% of excess Net Capital. The firm must take deductions in the computation of its net capital, for the amount of credit extended on such securities in order to determine whether it can expand, or if it must reduce its business.

Documentation must be obtained by the member organization to insure the ready saleability and marketability prior to extending credit on shelf-registered securities. The Exchange may require formal reports from member organizations showing the amount of credit extended in accordance with the rule.

AMEX'S STATEMENT OF BASIS AND PURPOSE OF PROPOSED RULE CHANGE

The proposed amendments would permit member organizations to extend credit to customers on shelf-registered, control or restricted securities within the guidelines of Regulation T and, thereby, allow member organizations to better compete with non-members, which are permitted to extend credit on such securities. Under the proposed amendments, safeguards would be imposed to assure the financial integrity of member organizations and to protect investors.

The proposed amendments to Rules 462 and 471 are designed to remove impediments to a free and open market and to eliminate any burden on competition not necessary or appropriate as well as the protection of investors and of the public interest in furtherance of the purposes of the Act, and therefore are authorized by subparagraphs (b)(5) and (b)(8) of Section 6 of the Act.

COMMENTS RECEIVED FROM MEMBERS, PARTICIPANTS OR OTHERS ON PROPOSED RULE CHANGE

No comments were solicited or received with respect to the proposed rule change.

BURDEN ON COMPETITION

The Amex has determined that no burden on competition will be imposed by the proposed rule change.

On or before February 22, 1979, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file six (6) copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before February 20. 1979.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

JANUARY 10, 1979.

EXHIBIT I-A—PROPOSED AMENDMENTS TO RULES 462 AND 471

Rules 462 and 471 of the American Stock Exchange is proposed to be amended as set forth below. *Italics* indicate added material.

RULE 462—EXCEPTIONS

(c) The foregoing requirements of this Rule are subject to the following exceptions:

• • • • •

(9) Shelf-Registered, Control and Restricted Securities.

(A) Shelf-Registered Securities—The margin which must be maintanined in margin accounts of customers for securities which are the subject of a current and effective registration for a delayed offering (shelf-registered securities) shall be at least the amount required by paragraph (b) of this Rule provided the member organization:

(i) Obtains a current prospectus in effect with the Securities and Exchange Commission, meeting the requirements of Section 10 of the Securities Act of 1933, covering such securities;

(ii) Has no reason to believe the Registration Statement is not in effect or that the issuer has been delinquent in filing such periodic reports as may be required of it with the Securities and Exchange Commission and is satisfied that such registration will be kept in effect and that the prospectus will be maintained on a current basis;

(iii) Retains a copy of such Registration Statement, including the prospectus, in an easily accessible place in its files; and

(iv) Values such securities more conservatively than securities of the same class which are freely traded, in the light of current market prices, the amount which might be realized upon liquidation, unusually rapid or volatile changes in value or volume and other business considerations deemed appropriate under the circumstances in determining fair value.

Shelf-registered securities which do not meet all the conditions prescribed above shall have no value for purposes of this Rule. (Also see paragraph (C) of this subsection (9)).

(B) Control and Restricted Securities—The margin which must be maintained in margin accounts of customers for control securities and other restricted securities which are saleable under Rules 144 or 145(d) of the Securities Act of 1933, shall be 40% of the current market value of such securities "long" in the account, provided the member organization;

(i) In computing Net Capital under Rule 470 deducts any cash margin deficiencies in customers' accounts based upon a margin requirement of 25% for such securities and values only that amount of such securities which are then readily saleable under Rules 144 or 145(d) of the Securities Act of 1933 for purposes of determining such deficiencies;

(ii) Makes volume computations necessary to determine the amount of securities saleable under Rules 144 or 145(d) of the Securities Act of 1933 on a weekly basis or at such greater frequency as the member organization and/or the Exchange may deem appropriate in the circumstances; and

(iii) Values such securities more conservatively than securities of the same class which are freely traded, in the light of current market prices, the amount which might be realized upon liquidation, unusually rapid or volatile changes in value or volume and other business considerations deemed appropriate under the circumstances in determining fair value. (Also see paragraph (C) of this subsection (9)).

(C) Additional Requirements on Shelf-Registered Securities and Control and Restricted Securities—Notwithstanding the provisions of paragraphs (A) and (B) of this subsection (9), a member organization extending credit on shelf-registered, control and other restricted securities in margin accounts of customers shall be subject to the following requirements;

(i) The credit extended to all customers on such securities may not in the aggregate exceed a percentage of the member organization's excess Net Capital as prescribed from time to time by the Exchange but in any event not greater than 25% of its excess Net Capital. The amount of the total credit extended, which has been deducted in computing Net Capital, need not be included in calculating this limitation.

(ii) The credit extended to all customers on such securities of any one issuer may not in the aggregate exceed 5% of the member organizations's excess Net Capital. The amount of the total credit extended, which has been deducted in computing Net Capital, need not be included in calculating this limitation.

(iii) The aggregate credit extended on such securities reduced by the amount of credit extended which has been deducted in computing Net Capital under Rule 470 shall be deducted from Net Capital for purposes of determining a member organization's status under Rule 471.

(iv) The Exchange may at any time require reports from member organizations showing relevant information as to the amount of credit extended on shelf-registered, control and restricted securities and the amount, if any, charged to Net Capital due to such security positions.

Rule 471(a) A member organization which carries customer accounts shall not expand its business during any period in which any of the following conditions exist for more than fifteen (15) consecutive business days:

• • • • •

(iv) Capital withdrawals including maturities scheduled during the next six months *and/or the special deduction from net capital set forth in Rule 462(c)(9)(C)(iii)* would result in the condition described in (i), (ii) or (iii) above, or

• • • • •

(b) A member organization which carries customer accounts shall forthwith reduce its business to a point enabling its available capital to meet the standards of paragraph (a) if for more than fifteen (15) consecutive business days:

• • • • •

(iv) Capital withdrawals including maturities scheduled during the next six months *and/or the special deduction from net capital set forth in Rule 462(c)(9)(C)(iii)* would result in the condition described in (i), (ii) or (iii) above, or

[8010-01-M]

[Release No. 34-15482; File No. SR-CBOE-78-37]

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Self-Regulatory Organizations; Proposal Rule Change

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1) as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on January 5, 1979 the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

TEXT OF THE PROPOSED RULE CHANGE

The Chicago Board Options Exchange, Incorporated (the "CBOE" or "Exchange") proposes to amend Section 11.4 of the CBOE Constitution as set forth below. (Italics indicate words to be added.)

OFFICERS AND EMPLOYEES RESTRICTED

Section 11.4.

(a) No Change

(b) No Change

(c) *Paragraphs (a) and (b) above of this Section shall not be construed to preclude any salaried officer or employee of the Exchange or of any corporation in which the Exchange owns a majority of the stock from performing his duties and responsibilities as assigned to him by such organization.*

PURPOSE OF THE PROPOSED RULE CHANGE

CBOE states that the purpose of the proposed change to Section 11.4 of the CBOE Constitution (Officers and Employees Restricted) is to make clear that such constitutional provision shall not operate to preclude any salaried officer of employee of the Exchange, or of any corporation in which the Exchange owns a majority of the stock, from performing his duties as assigned to him by the Exchange or by such corporation.

BASIS UNDER THE ACT

CBOE states that the basis under the Act for the proposed rule change is Section 6(b)(5) in that the change to the CBOE Constitution is designed to facilitate transactions in securities by making clear that Section 11.4 of the Constitution was not intended to restrict Exchange officers and employees from effecting securities transactions as part of their assigned duties.

COMMENTS RECEIVED FROM MEMBERS, PARTICIPANTS, OR OTHERS ON PROPOSED RULE CHANGE

No comments were solicited or received by the CBOE respecting the proposed rule change.

BURDEN ON COMPETITION

The Exchange does not believe the proposed rule change will impose any burden on competition.

The foregoing rule change has become effective, pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before February 8, 1979.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 20883; 70-6249]

INDIANA-KENTUCKY ELECTRIC CORP. AND OHIO VALLEY ELECTRIC CORP.

Proposed Financing of Pollution Control Facilities

JANUARY 10, 1979.

Notice is hereby given that Indiana-Kentucky Electric Corporation ("IKEC"), P.O. Box 97, Madison, Indiana 47250, and Ohio Valley Electric Corporation ("OVEC"), P.O. Box 468, Piketon, Ohio 45661, both indirect electric utility subsidiaries of Allegheny Power System, Inc., American Electric Power Company, Inc., and Ohio

V 4 4 / 1 3 J A 1 8 7 9 UMI

Edison Company, all registered holding companies, have filed with this Commission an application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 9(a), 10 and 12(d) of the Act and Rule 44(b)(3) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the appplication-declaration, which is summarized below, for a complete statement of the proposed transactions.

OVEC and its wholly-owned subsidiary IKEC were organized on October 1, 1952, to provide the power requirements of the gaseous diffusion plant at Portsmouth, Ohio, now owned and operated by the Department of Energy ("DOE"). Such services are provided pursuant to a power agreement ("DOE Agreement"), as modified from time to time. The DOE Agreement provides, *inter alia*, that DOE will pay OVEC and IKEC the entire cost of certain replacements of property and plant, including replacements reasonably required to comply with any governmental pollution control requirements. The DOE Agreement also provides that OVEC will use its best efforts to arrange for financing pollution control replacements from sources of capital funds other than DOE unless DOE prefers to finance OVEC's and IKEC's pollution control replacements directly. Under the DOE Agreement, DOE agrees to pay an amount equal to the principal component of any purchase price payment under an installment sales agreement relating to the purchase by OVEC or IKEC of any pollution control replacement, and an amount equal to the interest component of any such purchase price payment. The DOE Agreement terminates on December 31, 1979. OVEC and DOE are engaged in negotiations with respect to Modification No. 10 which would extend its term to October 14, 1992, and contain certain other provisions the details of which have not been agreed upon.

OVEC has under construction one 1,000-foot smokestack, a foundation and related facilities at its Kyger Creek plant (the "Ohio Project"), which will replace three existing 538-foot smokestacks. The Ohio Project is believed by OVEC to be reasonably required to enable it to limit the emission of pollutants or to be otherwise reasonably necessary in order to comply with governmental pollution control requirements. It is currently estimated that the Ohio Project will cost not more than $18,000,000. OVEC proposes to enter into an agreement ("OVEC Agreement") for the financing of the cost of the Ohio Project by its sale to the Ohio Air Quality Development Authority ("Authority"), which under Ohio statutes is authorized to enter into agreements concerning the acquisition and construction of pollution control facilities. The OVEC Agreement will provide for the construction of the facilities comprising the Ohio Project by the Authority and for the issuance by the Authority of one or more series of Air Quality Development Revenue Bonds ("Authority Bonds") to cover the costs of construction (as defined in the OVEC Agreement), including the issuance of an initial principal amount of up to $18,000,000 of Authority Bonds. The proceeds from the sale of the Authority Bonds will be deposited with a bank as trustee ("Authority Trustee") under an indenture pursuant to which the Authority Bonds are to be issued and secured. Such proceeds will be withdrawn by OVEC upon certification to the Authority of the costs of construction.

The OVEC Agreement will also provide for the sale of the Ohio Project to OVEC, the payment by OVEC of the purchase price thereof in installments over a term of years and the assignment and pledge to the Authority Trustee by the Authority of its interest in and to monies (including the interest and principal components of the purchase price) receivable by the Authority under the OVEC Agreement. DOE and OVEC will consent to such assignment so that amounts equal to the interest and principal components of the purchase price payable by OVEC to the Authority will be paid by DOE directly to the Authority Trustee. The principal and interest components will be payable in such amounts as to enable the Authority to pay when due the principal and interest on the Authority Bonds. The OVEC Agreement also obligates OVEC to pay the fees and charges of the Authority Trustee, as well as certain expenses of the Authority.

OVEC has the option to prepay the purchase price in whole (i) upon the occurrence of certain events by paying amounts sufficient to redeem all Authority Bonds then outstanding and all other amounts payable under the indenture, or (ii) at any time by depositing monies in the bond fund under the indenture or delivering to the Authority Trustee governmental obligations sufficient in either case to provide for the release of the Authority indenture in accordance with its terms. Upon prepayment of the entire purchase price of the Ohio Project, OVEC may terminate the OVEC Agreement. OVEC may also prepay the purchase price in part, such payments to be paid to the Authority Trustee for deposit in the bond fund under the Authority Indenture and credited against the purchase price and used for the redemption or purchase of outstanding Authority Bonds in the manner and to the extent that oustanding bonds are redeemable or subject to purchase under the indenture.

OVEC will be required to prepay the purchase price of the Ohio Project and redeem all Authority Bonds in the event that (a) on or before November 30, 1979, neither a modification of the DOE Agreement providing for an extension of the term thereof through October 14, 1992, nor an interim arrangement for the supply of electric utility services to DOE at its existing gaseous diffusion plant near Portsmouth, Ohio through March 29, 1980, in either case including contract provisions obligating DOE to pay directly to the Authority Trustee all interest and principal components of the purchase price becoming due during the term of such modification or interim arrangement, shall have become effective; (b) on or before the thirty-first day prior to the date on which any such interim arrangement or any succeeding interim arrangement would otherwise terminate, neither a further interim arrangement for a period of ninety days or more, nor a modification of the DOE Agreement referred to in clause (a) above, in each case including the contract provisions referred to in clause (a) above, shall have become effective; (c) any modification of the DOE Agreement is executed by OVEC which has the effect of reducing or eliminating DOE's obligation to make payments of interest and principal components of the purchase price; or (d) the DOE Agreement shall be about to terminate by action of DOE.

It is stated that OVEC will take necessary action under its mortgage and deed of trust to release the portion of the Ohio Project, to the extent constructed and in place at the plant site, from the lien of its mortgage, and, after such release, will convey the same to the Authority. OVEC will receive from the Authority Bond sale proceeds an amount equal to its original cost for the facilities so conveyed.

Under Ohio law, the interest rate to be borne by the Authority Bonds will be fixed by the Authority. OVEC understands that the interest on the Authority Bonds will not be exempt from federal income taxation. The Authority Bonds are expected to be dated on or about the first day of the month in which they are issued, to bear interest semiannually, to mature at a date or dates not earlier than five years subsequent to the date of their issuance and not later than October 14, 1992, and to be subject to optional and mandatory redemption under the circumstances and terms specified in the indenture. It is contemplated that the Authority bonds will be sold directly by the Authority to an unaffiliated investment banking firm ("Authority Bond Buyer"), at a price of not less than 97.5% of principal amount, and that the Authority Bond Buyer will contemporaneously resell them (at a price of not more than 2.5% of principal amount above its purchase price) to certain of its customers appearing on a special list of not more than 200 institutional investors, such resales being under circumstances in which counsel for OVEC and the Authority Bond Buyer advise that no registration of a security under the Securities Act of 1933 and that no qualification of an indenture under the Trust Indenture Act of 1939 is required.

IKEC has under construction two 984-foot smokestacks, foundations and related facilities at its Clifty Creek Plant (the "Indiana Project"), which will replace three existing 684-foot smokestacks. The Indiana Project is believed by IKEC to be reasonably required to enable it to limit the emission of pollutants or to be otherwise reasonably necessary in order to comply with governmental pollution control requirements. It is currently estimated that the Indiana Project will cost not more than $20,000,000. IKEC proposes to enter into an agreement ("IKEC Agreement") for the financing of the cost of the Indiana Project by its sale to the City of Madison, Indiana ("City"), which under Indiana statutes is authorized to enter into agreements concerning the acquisition and construction of pollution control facilities. The IKEC Agreement will provide for the construction of the facilities comprising the Indiana Project by the City and for the issuance by the City of one or more series of pollution control and/or economic development revenue bonds ("City Bonds") to cover the costs of construction (as defined in the IKEC Agreement), including the issuance of an initial principal amount of up to $20,000,000 of City Bonds. The proceeds from the sale of the City Bonds will be deposited with a bank as trustee ("City Trustee") under an indenture pursuant to which the City Bonds are to be issued and secured. Such proceeds will be withdrawn by IKEC upon certification to the City of the costs of construction.

The IKEC Agreement will also provide for the sale of the Indiana Project to IKEC, the payment by IKEC of the purchase price thereof in installments over a term of years and the assignment and pledge to the City Trustee by the City of its interest in and to monies (including the interest and principal components of the purchase price) receivable by the City under the IKEC Agreement. DOE and IKEC will consent to such assignment so that amounts equal to the interest and principal components of the purchase price payable by IKEC to the City will be paid by DOE directly to the City Trustee. The principal and interest components will be payable in such amounts as to enable the city to pay when due the principal and interest on the City Bonds. The IKEC Agreement also obligates IKEC to pay the fees and charges of the City Trustee, as well as certain expenses of the City.

IKEC has the option to prepay the purchase price in whole (i) upon the occurrence of certain events by paying amounts sufficient to redeem all City Bonds then outstanding and all other amounts payable under the indenture, or (ii) at any time by depositing monies in the bond fund under the indenture or delievering to the City Trustee governmental obligations sufficient in either case to provide for the release of the City indenture in accordance with its terms. Upon prepayment of the entire purchase price of the Indiana Project, IKEC may terminate the IKEC Agreement. IKEC may also prepay the purchase price in part, such payments to be paid to the City Trustee for deposit in the bond fund under the City Indenture and credited against the purchase price and used for the redemption or purchase of outstanding City Bonds in the manner and to the extent that outstanding bonds are redeemable or subject to purchase under the indenture.

IKEC will be required to prepay the purchase price of the Indiana Project and redeem all City Bonds in the event that (a) on or before November 30, 1979, neither a modification of the DOE Agreement providing for an extension of the term thereof through October 14, 1992, nor an interim arrangement for the supply of electric utility services to DOE at its existing gaseous diffusion plant near Portsmouth, Ohio through March 29, 1980, in either case including contract provisions obligating DOE to pay directly to the City Trustee all interest and principal components of the purchase price becoming due during the term of such modification or interim arrangement, shall have become effective; (b) on or before the thirty-first day prior to the date on which any such interim arrangement or any succeeding interim arrangement would otherwise terminate, neither a further interim arrangement for a period of ninety days or more, nor a modification of the DOE Agreement referred to in clause (a) above, in each case including the contract provisions referred to in clause (a) above, shall have become effective; (c) any modification of the DOE Agreement is executed which has the effect of reducing or eliminating DOE's obligation to make payments of interest and principal components of the purchase price; or (d) the DOE Agreement shall be about to terminate by action of DOE.

It is stated that IKEC will take necessary action under its mortgage and deed of trust to release the portion of the Indiana Project, to the extent constructed and in place at the plant site, from the lien of its mortgage, and, after such release, will convey the same to the City. IKEC will receive from the City Bond sale proceeds an amount equal to its original cost for the facilities so conveyed.

Under Indiana law, the interest rate to be borne by the City Bonds will be fixed by the Common Council of the City. IKEC understands that the interest on the City Bonds will not be exempt from federal income taxation. The City Bonds are expected to be dated on or about the first day of the month in which they are issued, to bear interest semiannually, to mature at a date or dates not earlier than five years subsequent to the date of their issuance and not later than October 14, 1992, and to be subject to optional and mandatory redemption under the circumstances and terms specified in the indenture. It is contemplated that the City Bonds will be sold directly by the City to an unaffiliated investment banking firm ("City Bond Buyer"), at a price of not less than 97.5% of the principal amount, and that the City Bond Buyer will contemporaneously resell them (at a price of not more than 2.5% of principal amount above its purchase price) to certain of its customers appearing on a special list of not more than 200 institutional investors, such resales being under circumstances in which counsel for IKEC and the City Bond Buyer advise that no registration of a security under the Securities Act of 1933 and no qualification of an indenture under the Trust Indenture Act of 1939 is required.

The fees and expenses to be incurred in connection with the proposed transactions will be supplied by amendment. It is stated that the Public Utilities Commission of Ohio has jurisdiction over the proposed transactions with respect to OVEC, that the Public Service Commission of Indiana has jurisdiction over the proposed transactions with respect to IKEC, and that no other state commission and no federal commission, other than this Commission, has jurisdiction thereover.

Notice is further given that any interested person may, not later than February 5, 1979, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Sec-

V 4 4 / 1 3

retary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 10552; 811-2113]

MEMBERS' INVESTMENT FOR GROWTH FUND, LTD.

Application for an Order Declaring That the Applicant has Ceased to be an Investment Company

JANUARY 11, 1979.

Notice is hereby given that Members' Investment For Growth Fund, Ltd, ("Applicant"), 1617 Sherman Avenue, Madison, Wisconsin 53704, registered under the Investment Company Act of 1940 ("Act") as an open-end, diversified management investment company, filed an application on November 3, 1978, and an amendment thereto on January 2, 1979, for an order of the Commission, pursuant to Section 8(f) of the Act, declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant, a corporation organized under the laws of the State of Maryland, registered under the Act on September 10, 1970, and concurrently filed a registration statement on Form S-5 under the Securities Act of 1933 for the public offer and sale of shares of its common stock. Applicant states that this registration statement was never declared effective, and was formally withdrawn pursuant to its request on June 19, 1978.

Applicant further states that on August 10, 1970, it issued 125,000 shares of its common stock to Michigan Credit Union Employees Pension Plan (the "Plan") in a private placement transaction, and that during the period from August 10, 1970, to February 29, 1972, Applicant issued an additional 699,915 shares of its common stock to the Plan. Applicant represents that on July 3, 1973, ICU Services Corporation, Applicant's current investment adviser, purchased all of Applicant's outstanding shares from the League Life Insurance Company, a wholly owned subsidiary of the Michigan Credit Union League which had purchased all of the shares of the Applicant held by the Plan. Applicant further represents that it has not issued any shares since July 3, 1973, except those shares resulting from the automatic reinvestment of dividends paid to Applicant's sole stockholder, ICU Services Corporation.

Applicant states that on June 30, 1978, it made an in-kind liquidating distribution to its sole stockholder, ICU Services Corporation, pursuant to a plan of liquidation adopted by Applicant's board of directors and approved by its sole stockholder.

Applicant represents that it currently has no assets, except for $100 in a checking account which will be distributed to its sole shareholder upon final dissolution of the Applicant and will not be invested in securities. Applicant further represents that it has no outstanding debts or other liabilities, is not a party to any pending litigation or administrative hearing, has ceased all business activities and does not propose to engage in any business activities other than activities necessary for the final winding up of its affairs, and that, upon approval of this application, intends to take the necessary action to formally dissolve under the laws of the State of Maryland.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission, on its own motion or upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order and, upon the affectiveness of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than February 5, 1979, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 34-15493; File No. SR-OCC-79-1]

OPTIONS CLEARING CORP.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on January 4, 1979, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The Proposed rule change would permit OCC, if it so elected, to charge to its current earnings losses otherwise required to be charged pro rata against the Clearing Fund contributions of its Clearing Members.

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The purpose of the proposed rule change is to permit OCC to elect to charge to its current earnings losses which would otherwise be required to be charged pro rata against the Clearing Fund contributions of its Clearing Members. In recent years, OCC has followed a practice of refunding to Clearing Members, in the form of clearing fee rebates, most of its current earnings. The proposed rule change would permit OCC to use those earnings to discharge obligations to which its Clearing Members would otherwise be subject, instead of refunding them.

The rule change would enable OCC to absorb certain losses with its own assets, without resorting to the cumbersome mechanism of a pro rata charge.

Whether to charge a particular loss to current earnings or to the Clearing Fund would be left to the descretion of OCC, and would depend on such factors as OCC's cash position and commitments at the time of the loss.

The proposed rule change relates to the equitable allocation of reasonable charges among OCC's Clearing Members.

Comments were not and are not intended to be solicited with respect to the proposed rule change.

OCC does not believe that the proposed rule change would impose any burden on competition.

On or before February 22, 1979, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change; or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C., 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before February 8, 1979.

For the Commision by the Division of Market Regulation, pursuant to delegate authority.

GEORGE A. FITZSIMMONS,
Secretary.

RETIREMENT PLAN FOR LEGAL AND OTHER PERSONNEL OF CAHILL GORDON & REINDEL

Filing of Application for an Order Exempting From Provisions Interests or Participations

JANUARY 10, 1979.

Notice is hereby given that Cahill Gordon & Reindel (the "Applicant" or the "Firm"), 80 Pine Street, New York, NY 10005, a law firm organized as a partnership under the laws of the State of New York, on April 25, 1978, filed an application for an exemption from the registration requirements of the Securities Act of 1933 (the "Act") for participations or interests issued in connection with its Retirement Plan for Legal and Other Personnel (the "Plan"). All interested persons are referred to that document, which is on file with the Commission, for the facts and representations contained therein, which are summarized below.

INTRODUCTION

The Plan covers Applicant's partners and full-time salaried employees who have attained age 25 and have completed three years of service with the Firm. At September 30, 1978, 44 partners, 49 other attorneys and 61 non-legal employees were participating.

Applicant states that the Plan is of the type commonly referred to as a "Keogh" plan which covers persons (in this case, Applicant's partners) who are "employees" within the meaning of Section 401(c)(1) of the Internal Revenue code of 1954 (the "Code") and, therefore, the exemption provided by Section 3(a)(2) of the Act is inapplicable to interests in the Plan, absent an order of the Commission issued under said Section 3(a)(2).

In relevant part, Section 3(a)(2) provides that the Commission, by rules and regulations or order, shall exempt from the provisions of Section 5 of the Act any interest or participation issued in connection with a pension or profit-sharing plan which covers employees, some or all of whom are employees within the meaning of Section 401(c)(1) of the Code, if and to the extent that the Commission determines this to be necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

DESCRIPTION AND ADMINISTRATION OF THE PLAN

Applicant states that the Plan was originally established effective as of January 1, 1968 and was amended most recently, effective October 1, 1976, primarily to comply with the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA"). Applicant has received a determination letter from the Internal Revenue Service that the Plan, as so amended, meets the requirements for qualification under Section 401 of the Code.

Applicant contributes to the Plan for each fiscal year in respect of each participating partner that amount, if any, designated by such partner not exceeding 7% of an amount equal to the lesser of such partner's share of Firm net income for such year or $100,000, less the applicable Social Security wage base for that year. In respect of each participating employee, Applicant contributes 7% of an amount equal to the lesser of the employee's nondeferred compensation for that fiscal year or $100,000, less the applicable Social Security wage base for such year. A participant may make voluntary contributions to the Plan of up to 10% of such participant's aggregate compensation (or share of Firm income) for all years during which such person has been a participant, subject to certain limitations. The interest of each participant in the Plan is fully vested at all times.

The Plan is administered by three Trustees under an amended Trust Agreement (the "Trust Agreement") who are appointed by and serve at the pleasure of the Firm. The present Trustees are all partners of the Firm. All assets of the Plan are maintained by Marine Midland Bank. Applicant has retained Wertheim Asset Management Services Incorporated as the registered investment adviser for the Plan and Stone, Young & Co., actuaries, as employee benefit plan consultants.

The Plan provides that the trustees establish rules for the administration of the Plan, interpret its provisions and have authority over the investment of the Plan's funds. However, the investment adviser has been given authority to designate the investment securities in which Plan assets are to be invested.

Applicant states that all contributions under the Plan are paid to a single trust maintained by marine Midland Bank. Such funds are invested in two investment funds maintained solely and separately for the investment of Plan moneys. The first fund is a fixed income fund consisting of obligations issued or guaranteed by the United States or an instrumentality thereof or by a State or political subdivision thereof, bonds, notes or debentures and deposits in banks, trust companies or savings banks. The second fund is a discretionary fund consisting of such securities and other investments as the Trustees of the Plan deem proper and suitable. While the Trust Agreement allows Plan assets to be commingled in collective

JAN 18 79 UMI

V 4 4 / 1 3 J A 1 8 7 9 UMI

funds and pooled for joint ventures into oil and gas drilling, Applicant represents that no such commingling or pooling has occurred, nor is either contemplated.

Applicant states that if the partnership were a corporation, interests and participations in the Plan would be exempt under Section 3(a)(2) of the Act. Applicant submits that merely because it is unincorporated is no reason for subjecting such interests and participations to the registration requirements of the Act. Applicant further submits that the intent of Congress in excluding from the exemption plans in which self-employed persons were participants was to prevent the sale without registration of interests in prepackaged plans offered by financial institutions to self-employed persons lacking the sophistication to protect themselves and their employees, and that the provision permitting the Commission to grant exemptions upon application included in Section 3(a)(2) of the Act makes available an exemption for partnership plans where the plan and the entity involved are comparable to corporate plans exempted by Section 3(a)(2).

Applicant also states that the Plan covers partners and employees of a single firm and is not a uniform prototype plan of a type designed to be marketed by a sponsoring financial institution or promoter to numerous unrelated self-employed persons. Applicant represents that assets of the Plan have not been and will not be commingled in any collective investment fund unless such fund has been registered under the Act.

Applicant represents that it has not distributed and does not intend to distribute any type of promotional material relating to the Plan (other than such material as Applicant is required under ERISA to distribute to participants or to employees) and has not made and does not intend to make any solicitation of voluntary contributions under the Plan.

Applicant states that it is engaged in furnishing legal services of a type which necessarily involves sophisticated and complex financial matters and, for that reason as well as the extensive administrative control over the Plan maintained by the Firm, is able to represent adequately its interests and the interests of its employees who are participants in the Plan.

Applicant concludes that for the foregoing reasons, granting the requesting exemptive order would be appropriate in the public interest, consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than February 5, 1979, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a statement of the nature of his or her interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he or she may request to be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. An order disposing of the matter will be issued as of course following February 5, 1979, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notice or order issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 20882; 70-6253]

EASTERN UTILITIES ASSOCIATES

Proposed Issuance and Sale of Notes and Request for Exemption From Competitive Bidding

JANUARY 10, 1979.

Notice is hereby given that Eastern Utilities Associates ("EUA"), P.O. Box 2333, Boston, Massachusetts 02107, a registered holding company, has filed with this Commission an application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6(a), 7 and 12(c) of the Act and Rules 42(b)(2) and 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

EUA proposes to issue and sell by negotiation to institutional investors $22,500,000 aggregate principal amount of unsecured notes ("New Notes"), having a maturity of up to 20 years from date of issuance. The proceeds from the sale of the New Notes will be used (i) to prepay EUA's remaining collateral trust bonds. 3¾% Series due 1979 ("Bonds"), which are now outstanding in the principal amount of $2,437,000; (ii) to prepay EUA's serial notes ("Serial Notes"), which are held by two banks and are now outstanding in the principal amount of $20,000,000; and (iii) to add to EUA's treasury cash.

The Bonds, which mature December 1, 1979, were issued and sold pursuant to an order dated November 30, 1954 (HCAR No. 12717), in the original principal amount of $7,250,000, which amount has been reduced to $2,437,000 through the operation of a sinking fund (and purchases in anticipation of its requirements).

The Bonds are secured under an indenture and deed of trust between EUA and the First National Bank of Boston, successor trustee, by a lien on all the shares of common stock of EUA's three direct electric utility subsidiaries. The Bonds are now subject to redemption at their principal amount plus accrued interest to date of redemption, without premium.

The Serial Notes were issued and sold pursuant to an order dated September 3, 1976 (HCAR No. 19670), under separate loan agreements with The First National Bank of Boston in the principal amount of $11,500,000 ("First National Note") and the Chase Manhattan Bank in the principal amount of $8,500,000 ("Chase Note"). The First National Note bears interest at 125% of the sum of ½ of 1% plus the prime rata in effect from time to time at The First National Bank of Boston. The Chase Note bears interest at 115% of the "applicable rate" in effect at the Chase Manhattan Bank, such rate being the higher of (i) said bank's prime commercial rate or (ii) the sum of ½ of 1% plus the average rate per annum (on a discount basis and adjusted to the nearest higher ¼ of 1%) for 90 to 119 day dealer placed, prime commercial paper. EUA also pays on the Chase Note a finance fee at a rate per annum equal to 15% of the "applicable rate" together with the payments of interest.

The Serial Notes mature in semi-annual installments of $3,333,334 each commencing November 30, 1979, and ending on May 31, 1982. Each Serial Note is prepayable, in whole or in part (not less than $250,000), at any time without penalty, provided that each prepayment of one Serial Note must be accompanied by a concurrent pro rate prepayment of the other Serial Note. The loan agreements relating to the Serial Notes provide in effect that if EUA issues additional or new collateral trust bonds, it must secure the Serial Notes by pledging and delivering to each holder of the Serial Notes a principal amount of such additional or new collateral trust bonds equal to the principal amount of that holder's

Serial Notes which are to remain outstanding. In addition the loan agreement relating to the Chase Note requires that the net proceeds of any issue of common shares by EUA after November 30, 1979, be applied to pro rata prepayments of the Serial Notes.

It is stated that EUA recognizes that the authorization of the issuance and sale of the Serial Notes represented an exception to the Commission's general policy of not permitting the issuance of long-term or intermediate-term indebtedness by holding companies. EUA management believes, after discussion with representatives of Reis and Chandler, its financial advisor, that in order to achieve the most economical financing of the cash requirements of the EUA system, it is desirable for EUA to continue to have long-term indebtedness in approximately the same amount now represented by the Bonds and the Serial Notes, and that a refunding of the Bonds and Serial Notes, at or prior to the December 1, 1979, maturity of the Bonds, by the issuance of securities such as the New Notes will be the most advantageous course for EUA to take. In support of this conclusion it is noted that EUA has issued and sold common shares in each of the years 1974 through 1978, each such sale being at a price which resulted in proceeds to EUA of less than book value, resulting in a continued dilution of existing shareholders' equity, that contemplated further sales of common shares in 1979, 1980 and 1981 may also be below book value and that such sales and dilution cannot continue indefinitely without impairing the marketability of such shares. If the Serial Notes remain outstanding, the problem will be intensified because of the Chase Note loan agreement provision requiring prepayment from sales of common shares after November 30, 1979.

Management also believes that an extension of EUA's long-term debt is desirable in order to make it as nearly certain as possible that short-term loans will be available from the EUA system's bank connections as needed.

It is further stated that after discussions with representatives of Reis & Chandler and of Paine, Webber, Jackson & Curtis, Inc., EUA management also has reason to believe that there presently exists an institutional market for securities of the general character of the New Notes, which can be sold upon relatively favorable terms, particularly if the sale can be made as early as possible in 1979, and that such a sale is more likely to produce favorable terms for EUA than would a sale of bonds or notes at competitive bidding. It is thought that one of the terms of the New Notes would be a provision for sinking fund payments over a 15 year period commencing after an initial 5 year period during which refunding from proceeds of debt having a lower interest cost would be prohibited. Thus the replacement of EUA's present long-term debt with the New Notes would have the effect of spreading principal payments over a longer term, with smaller annual cash requirements. In addition, the expected interest rate on the New Notes would be lower than that of the Serial Notes, unless the prime rate falls below 8%.

EUA requests an exemption from the competitive bidding requirements of Rule 50 pursuant to Rule 50(a)(5). In support thereof, EUA states that competitive bidding for a $22,500,000 long-term debt issue would be impracticable due to (1) the size of the issue, (2) the fact that it would be a holding-company debt, and (3) the Ba rating which would be expected on such an issue. EUA also claims that while it believes that there exists an institutional market for the New Notes at this time, a delay in refinancing the Serial Notes with the New Notes could result in the disappearance of such market so that the refinancing might have to be accomplished under adverse market conditions.

The fees and expenses to be incurred in connection with the proposed transactions will be supplied by amendment. It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than February 7, 1979, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such a request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant-declarant at the above-stated address and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this manner, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 20885; 70-6254]

LOUISIANA POWER & LIGHT CO.

Proposed Issuance and Sale of Preferred Stock at Competitive Bidding

JANUARY, 11, 1979.

Notice is hereby given that Louisiana Power & Light Company ("LP&L"), 142 Delaronde Street, New Orleans, Louisiana 70174, and electric utility subsidiary company of Middle South Utilities, Inc., a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6(a) and 7 of the Act and Rule 50 promulgated thereunder as applicable to the following proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

LP&L intends to establish, by appropriate corporate action, a new series of its Preferred Stock, Cumulative, $100 par value, which shall consist of 350,000 shares ("Stock"), and to issue and sell the Stock, subject to the competitive bidding requirements of Rule 50 under the Act. The dividend rate of the Stock (which will be a multiple of ½₅th of 1%) and the price to be paid to LP&L for the Stock (which will be not less than $100 nor more than $102.75 per share) will be determined by the competitive bidding. The terms of the Stock, will include a prohibition until March 1, 1984, against refunding the Stock, directly or indirectly, with funds derived from the issuance of debt securities at a lower effective interest cost or from the issuance of other stock, which ranks prior to or on a parity with the Stock as to dividends or assets, at a lower effective dividend cost.

LP&L will apply the net proceeds derived from the issuance an sale of the Stock to the payment in part of short-term borrowings estimated to total $107,000,000 at the time the sale proceeds are received and to the financing in part of the company's construction program.

The fees, commission, and expenses incurred or to be incurred in connection with the proposed transaction total $145,000, including counsel fees

V 4 4 / 1 3 JA 18 79 UMI

of $46,500, printing and engraving costs of $42,500, auditor's fees of $13,500 and miscellaneous expenses of $15,307. In addition, the fee of counsel for the successful bidders is estimated at $17,000, and is to be paid by the successful bidders. LP&L states that no state or federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later that February 7, 1979, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemptions from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate regulations, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01-M]

[Rel. No. 15484; SR-MSE-78-21]

MIDWEST STOCK EXCHANGE, INC.

Correction of Order Approving Proposed Rule Change

JANUARY 9, 1979.

In FR Doc. 78-34215 appearing at page 57708 in the FEDERAL REGISTER of December 8, 1978, the Commission approved a proposed rule change filed by the Midwest Stock Exchange, Incorporated ("MSE"), 120 South LaSalle Street, Chicago, Illinois 60603. The proposed MSE rule change provided two additional exceptions to the rule restricting trading in out-of-the-money options. First, investors would be permitted to enter an order for out-of-the-money options provided such order would result in a spread position. Second, investors would be permitted to purchase (opening) out-of-the-money puts provided such position is offset in the account by long stock or convertible security positions. In announcing that approval, Securities Exchange Act ("SEA") Release No. 15378 (December 1, 1978) should read "Such exception would not permit an investor to initiate an opening purchase or sale in out-of-the-money options and subsequently execute the other side of the spread." In SEA Release No. 15378 the "not" was inadvertently omitted.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 78-185]

PERSONAL FLOTATION DEVICE RESEARCH

Open Meeting

Notice is hereby given that the Coast Guard will hold a meeting to discuss a recently completed Coast Guard research report on Personal Flotation Devices (PFD's) and the future direction of Coast Guard research in the PFD area. The meeting will be held at 9:00 a.m. on 1 February 1979 at Underwriters' Laboratories, Inc., Northbrook Office, in Meeting Rooms A, B, and C of Building 6 (Main Bldg.), 333 Pfingsten Road, Northbrook, Illinois 60062.

A contract research project on the performance of inherently buoyant PFD's in comparison with inflatable PFD's has recently been completed. The report, in three volumes, is available to the public through the National Technical Information Service, Springfield, VA 22161; telephone 703-557-4650. The following ordering information is necessary.

Title	NTIS No.	Price
PFD Research, Phase II, Volume I (Executive Summary).	ADA058737	$5.25
PFD Research, Phase II, Volume II (Basic Report).	ADA058738	$15.25
PFD Research, Phase II, Volume II (Appendices).	ADA058739	$3.00

NOTE.—Volume III is available in microfiche only.

The Coast Guard has received requests from individual members of the PFD industry for an opportunity to present technical comments on the research report and to discuss the report. The Coast Guard has also received requests for an opportunity to discuss further research in the PFD area. This meeting has been scheduled to provide an opportunity for members of the PFD industry and the public to participate in the exchange of information. Emphasis of the discussions is expected to be on volume II of the report. It is recommended that persons wishing to attend the meeting read Volume II of the research report beforehand.

This meeting is open to the public. Seating capacity is limited. Anyone wishing to attend should contact Mr. Sam Wehr, U.S. Coast Guard Headquarters (G-MMT-3/83), Washington, D.C. 20590; telephone number 202-426-1444.

Dated: January 12, 1979.

E. A. DELANEY,
Captain, U.S. Coast Guard,
Acting Chief, Office of Boating Safety.

SHIP STRUCTURE SUBCOMMITTEE

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. I) notice is hereby given of a meeting of the Ship Structure Subcommittee to be held Thursday, March 1, 1979 at 9:30 A.M. in the Federal Building, 500 Camp Street, New Orleans, Louisiana. The agenda for this meeting is as follows: The current research programs of the Ship Structure Committee will be discussed and reviewed, and recommendations for future continuing research work will be developed.

Attendance is open to the interested public. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to attend and persons wishing to present oral statements should notify LCDR T. H. Robinson, USCG, Secretary, Ship Structure Committee, U.S. Coast Guard Headquarters, Washington, D.C. 20590, (202) 426-2205 not later than the day before the meeting. Any member of the public may present a written statement to the Committee at any time.

HENRY H. BELL,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Merchant Marine Safety.

[4910-06-M]

Federal Railroad Administration

[FRA Waiver Petition Docket HS-78-14]

GREAT SOUTHWEST RAILROAD CO.

Petition for Exemption From the Hours of Service Act

In accordance with 49 CFR Section 211.41 and Section 211.9, notice is hereby given that the Great Southwest Railroad (GSW) has petitioned the Federal Railroad Administration (FRA) for an exemption from the Hours of Service Act (83 Stat. 464, Pub. L. 91-169, 45 U.S.C. 64a(e)). That petition requests that the GSW be granted authority to permit certain employees to continuously remain on duty for in excess of twelve hours.

The Hours of Service Act currently makes it unlawful for a railroad to require or permit specified employees to continuously remain on duty for a period in excess of twelve hours. However, the Hours of Service Act contains a provision that permits a railroad, which employs no more than fifteen employees who are subject to the statute, to seek an exemption from this twelve hour limitation.

The GSW seeks this exemption so that it can permit certain employees to remain continuously on duty for periods not to exceed sixteen hours. The petitioner indicates that granting this exemption is in the public interest and will not adversely affect safety. Additionally, the petitioner asserts that it employs no more than fifteen employees and has demonstrated good cause for granting this exemption.

Interested persons are invited to participate in this proceeding by submitting written views or comments. FRA has not scheduled an opportunity for oral comment since the facts do not appear to warrant it. Communications concerning this proceeding should identify the Docket Number, Docket Number HS-78-14, and must be submitted in triplicate to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, Trans Point Building, 2100 Second Street, S.W., Washington, D.C. 20590. Communications received before February 16, 1979, will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All comments received will be available for examination both before and after the closing date for comments, during regular business hours in Room 4406, Trans Point Building, 2100 Second Street, S.W., Washington, D.C. 20590.

(Section 5 of the Hours of Service Act of 1969 (45 U.S.C. 64a), Sec. 1.49(d) of the regulations of the Office of the Secretary, 49 CFR 1.49(d).)

Issued in Washington, D.C. on January 12, 1979.

ROBERT H. WRIGHT,
Acting Chairman,
Railroad Safety Board.

Materials Transportation Bureau

EXEMPTIONS OR APPLICATIONS TO BECOME A PARTY TO AN EXEMPTION

Renewal or Modification Applications

AGENCY: Materials Transportation Bureau, D.O.T.

ACTION: List of Applications for Renewal or Modification of Exemptions or Application To Become a Party to an Exemption.

V 4 4 / 1 3 J A 1 8 7 9 UMI

SUMMARY: In accordance with the procedures governing the application for, and the processing of, exemptions from the Department of Transportation's Hazardous Materials Regulations (49 CFR Part 107, Subpart B), notice is hereby given that the Office of Hazardous Materials Regulation of the Materials Transportation Bureau has received the applications described herein. This notice is abbreviated to expedite docketing and public notice. Because the sections affected, modes of transportation, and the nature of application have been shown in earlier FEDERAL REGISTER publications, they are not repeated here. Except as otherwise noted, renewal applications are for extension of the exemption terms only. Where changes are requested (e.g. to provide for additional hazardous materials, packaging design changes, additional mode of transportation, etc.) they are described in footnotes to the application number. Application numbers with the suffix "X" denote renewal; application numbers with the suffix "P" denote party to. These applications have been separated from the new applications for exemptions to facilitate processing.

DATES: Comment period closes February 2, 1979.

ADDRESSED TO: Dockets Branch, Information Services Division, Materials Transportation Bureau, U.S. Department of Transportation, Washington, D.C. 20590. Comments should refer to the application number and be submitted in triplicate.

FOR FURTHER INFORMATION:

Copies of the applications are available for inspection in the Dockets Branch, Room 6500, Trans Point Building, 2100 Second Street, S.W., Washington, D.C.,

Application No.	Applicant	Renewal of Exemption
1479-X	Rockwell International, Canoga Park, Calif.	1479
3330-X	Teledyne Wah Chang Albany Corp., Albany, Oreg.	3330
4575-X	Kaiser Aluminum and Chemical Corp., Oakland, Calif.	4575
4845-X	Graviner Limited, Slough, England.	4845
5062-X	Dow Chemical U.S.A., Plaquemine, La.	5062
5206-X	Monsanto Co., St. Louis, Mo.,	5206
5792-X	Chemplex Co., Rolling Meadows, Ill.	5792
6080-X	Air Products and Chemicals, Inc., Allentown, Pa. (See Footnote 1).	6080
6113-X	Chemplex Co., Rolling Meadows, Ill.	6113
6215-X	E. I. du Pont de Nemours & Co., Inc., Wilmington, Del. (See Footnote 2).	6215
6418-X	Dow Chemical Co., Midland, Mich.	6418
6466-X	Monsanto Co., St. Louis, Mo.,	6466
6517-X	Coyne Cylinder Co., Huntsville, Ala.	6517
6571-X	Chemplex Co., Rolling Meadows, Ill.	6571
6614-X	FMC Corp., Philadelphia, Pa	6614
6686-X	Chilton Metal Products Division, Chilton, Wis. (See Footnote 3).	6686
6752-X	Pennwalt Corp., Philadelphia, Pa. (See Footnote 4).	6752
6826-X	McDonnell Douglas Astronautics Co., Huntington Beach, Calif.	6826
6919-X	Chemplex Co., Rolling Meadows, Ill.	6919

8047-P	Compagnie des Containers Reservoirs, Neuilly-sur-Seine, France.	8047

[1] To become a party to the exemption and to add strong, rigid plastic cases as authorized packaging for chemical kits.

This notice of receipt of applications for renewal of exemptions and for party to an exemption is published in accordance with Section 107 of the Hazardous Materials Transportation Act (49 CFR U.S.C. 1806; 49 CFR 1.53(e)).

Issued in Washington, D.C., on January 11, 1979.

J. R. GROTHE,
Chief, Exemptions Branch, Office of Hazardous Materials Regulation, Materials Transportation Bureau.

[FR Doc. 79-1613 Filed 1-18-79; 8:45 am]

[1] To provide for additional tube trailers with an increased volumetric capacity of approximately 60% over the current tube trailers for nitric oxide.

[2] Renewal and to delete requirement to compute the capacity of the safety relief valves on a bare tank basis, and to make editorial changes to paragraph 8j.

[3] To authorize shipment of methylacetylene-propadiene, stabilized in DOT-39 cylinders having seams formed by a brazing alloy containing not more than 60% copper.

[4] To renew and provide for additional trailer having 38 tubes instead of 30 for difluorethylene.

[5] To provide rail freight as an additional mode of transportation.

[6] To authorize bromine protable tanks to be double-stacked on-board vessel.

[7] To include sulfur dioxide as an additional commodity.

[8] To provide for certain design and volumetric capacity changes to portable tanks.

OFFICE OF HAZARDOUS MATERIALS REGULATION

Applications for Exemptions

AGENCY: Materials Transportation Bureau, D.O.T.

ACTION: List of Applications for Exemptions.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, exemptions from the Department of Transportation's Hazardous Materials Regulations (49 CFR Part 107, Subpart B), notice is hereby given that the Office of Hazardous Materials Regulation of the Materials Transportation Bureau has received the applications described herein.

DATES: Comment period closes February 20, 1979.

ADDRESSED TO: Dockets Branch, Information Services Division, Materials Transportation Bureau, U.S. Department of Transportation, Washington, D.C. 20590. Comments should refer to the application number and be submitted in triplicate.

FOR FURTHER INFORMATION:

Copies of the applications are available for inspection in the Dockets Branch, Room 6500, Trans Point Building, 2100 Second Street, SW., Washington, D.C.

Each mode of transportation for which a particular exemption is requested is indicated by a number in the "Nature of Application" portion of the table below as follows: 1—Motor vehicle, 2—Rail freight, 3—Cargo vessel, 4—Cargo-only aircraft, 5—Passenger-carrying aircraft.

NEW APPLICATION

Application No.	Applicant	Regulation(s) Affected	Nature of Application
8121-N	Republic Steel Corp., Cleveland, Ohio	49 CFR 173.245	To authorize shipment of compound cleaning liquid, corrosive material, in DOT Specification 57 portable tanks. (mode 1)
8122-N	International Business Machines Corp., Princeton, N.J.	49 CFR 173.263	To authorize shipment of hydrochloric acid mixture in non-DOT specification fiberglass reinforced plastic portable tank. (mode 1)
8123-N	Texas Instruments Inc., Dallas, Tex	49 CFR Part 173	To ship various hazardous materials in non-DOT specification plastic overpack containing multiple 1-gallon DOT Specification 2E bottles or prescribed metal containers. (mode 1)
8124-N	Alloy Products Corp., Waukesha, Wis	49 CFR 173.119, 173.245	To manufacture, mark and sell a non-DOT specification steel drum having a 6 inch closure for the shipment of certain flammable liquids and corrosive materials. (mode 1)
8125-N	Fauvet Girel, Paris, France	49 CFR 173.315	To authorize shipment of various liquefied gases in non-DOT specification ISO-IMCO Type 5 high pressure portable tanks. (modes 1, 2, 3)
8126-N	Fauvet Girel, Paris, France	49 CFR 173.315	To authorize shipment of various liquefied gases in non-DOT specification ISO-IMCO Type 5 low pressure portable tanks. (modes 1, 2, 3)
8127-N	Societe Nationale Des Poudres et Explosifs, Bergerac, France.	49 CFR 173.217, 173.184	To authorize shipment of nitrocellulose wet in non-DOT specification fiber drums similar to DOT Specification 21C. (modes 1, 3)
8129-N	RAD Service Inc., Laurel, Md	49 CFR 173.245	To authorize shipment of certain corrosive liquids (1-pint to 1-gallon capacity) packed in bottles surrounded by absorbent material within DOT Specification 17H or 6J removable head drums for disposal. (mode 1)
8130-N	Union Oil Company of California, Los Angeles, Calif.	49 CFR 173.1080	To authorize shipment of sulfur, dry, in specially designed freight containers. (mode 3)
8131-N	National Aeronautics and Space Administration, Washington, D.C.	49 CFR 173.34(d), 173.302(a), 173.301(d), 175.3.	To authorize the shipment of oxygen in a specially designed metal pressure vessel. (modes 1, 2, 4)
8132-N	Rockwell International, Richland, Wash	49 CFR 173.363, 173.365	To authorize a one time shipment of beryllium compound, n.o.s. in a non-DOT specification wooden box. (mode 1)
8133-N	Alpha Chemical Co, Lake Charles, La	49 CFR 173.272(g)(25), 178.343.	To authorize shipment of corrosive liquid, n.o.s. in non-DOT specification stainless steel cargo tank trucks. (mode 1)
8134-N	J. T. Baker Chemical Co., Phillipsburg, N.J	49 CFR 173.268, 173.269	To ship nitric acid or perchloric acid in DOT-12R packages having inside glass bottles closed with liner-less polypropylene caps. (modes 1, 2, 3)
8135-N	Schlumberger Well Services, Houston, Tex	49 CFR 173.80, 173.110, 175.320.	To authorize shipment of charged oil well jet perforating guns, Class A or C explosives by cargo-only aircraft. (mode 4)
8136-N	Eastman Kodak Co., Rochester, N.Y	49 CFR 173.245	To authorize shipment of phosphoric acid not to exceed 85% strength in DOT Specification 57 stainless steel portable tanks. (mode 1)
8137-N	Ensign Bickford Co., Simsbury, Conn	49 CFR 173.66(b), (c)	To authorize shipment of blasting caps, Class C explosive, in a DOT Specification 12H fiberboard box without inner packaging. (mode 1)
8139-N	Utility Chemical Co., Paterson, N.J	49 CFR 173.217	To authorize shipment of a solid oxidizer in non-DOT specification polyethylene pail placed inside a plastic bag, overpacked in a fiberboard box. (modes 1, 2, 3)
8140-N	CNG Services Inc., Pittsburgh, Pa	49 CFR 173.301(d)(2), 173.302(a)(3).	To authorize shipment of natural gas in DOT Specification 3AAX cylinders. (mode 1)
8141-N	GTE Sylvania, Needham, Mass	49 CFR 173.206(a)(1)	To authorize shipment of lithium batteries in non-DOT specification wooden box. (mode 1)

This notice of receipt of applications for new exemptions is published in accordance with Section 107 of the Hazardous Materials Transportation Act (49 CFR U.S.C. 1806; 49 CFR 1.53(e)).

Issued in Washington, D.C., on January 11, 1979.

J. R. GROTHE,
Chief, Exemptions Branch, Office of Hazardous Materials Regulation, Materials Transportation Bureau.

INTERSTATE COMMERCE COMMISSION

[Permanent Authority Decisions Volume No. 1]

PERMANENT AUTHORITY APPLICATION

Decision-Notice

JANUARY 4, 1979.

The following applications are governed by Special Rule 247 of the Commission's *Rules of Practice* (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date notice of the application is published in the FEDERAL REGISTER. Failure to file a protest, within 30 days, will be considered as a waiver of opposition to the application. A protest under these rules should comply with Rule 247(e)(3) of the Rules of Practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding, (as specifically noted below), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. A protestant should include a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describe in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or upon applicant if no representative is named. If the protest includes a request for oral hearing, such request shall meet the requirements of section 247(e)(4) of the special rules and shall include the certification required in that section.

Section 247(f) provides, in part, that an applicant which does not intend timely to prosecute its application shall promptly request that it be dismissed, and that failure to prosecute an application under the procedures of the Commission will result in its dismissal.

Further processing steps will be by Commission notice, decision, or letter which will be served on each party of record. *Broadening amendments will not be accepted after January 18, 1979.*

Any authority granted may reflect administratively acceptable restrictive amendments to the service proposed below. Some of the applications may have been modified to conform to the Commission's policy of simplifying grants of operating authority.

We Find: With the exceptions of those applications involving duly noted problems (e.g., unresolved common control, unresolved fitness questions, and jurisdictional problems) we find, preliminarily, that each common carrier applicant has demonstrated that its proposed service is required by the public convenience and necessity, and that each contract carrier applicant qualifies as a contract carrier and its proposed contract carrier service will be consistent with the public interest and the national transportation policy. Each applicant is fit, willing, and able properly to perform the service proposed and to conform to the requirements of Title 49, Subtitle IV, of the United States Code and the Commission's regulations. Except where specifically noted this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In those proceedings containing a statement or note that dual operations are or may be involved we find, preliminarily and in the absence of the issue being raised by a protestant, that the proposed dual operations are consistent with the public interest and the national transportation policy subject to the right of the Commission, which is expressly reserved, to impose such conditions as it finds necessary to insure that applicant's operations shall conform to the provisions of 49 U.S.C. 10930 (1978) [formerly section 210 of the Interstate Commerce Act].

In the absence of legally sufficient protests, filed within 30 days of publication of this decision-notice (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except those with duly noted problems) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, such duplication shall not be construed as conferring more than a single operating right.

Applicants must comply with all specific conditions set forth in the grant or grants of authority within 90 days after the service of the notification of the effectiveness of this decision-notice, or the application of a noncomplying applicant shall stand denied.

By the Commission, Review Board Number 1, Members Carleton, Joyce, and Jones.

H. G. HOMME, JR.,
Secretary.

MC 1759 (Sub-38F), filed November 6, 1978. Applicant: FROEHLICH TRANSPORTATION CO., INC., Federal Rd., Danbury, CT 06810. Representative: Thomas W. Murrett, 342 N. Main St., West Hartford, CT 06117. To operate as a *common carrier,* by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting *meat and meat products,* (except commodities in bulk), from New York, NY, to points in RI. (Hearing site: New York, NY, or Hartford, CT.)

NOTE: Purpose of application is to substitute single-line for joint-line operations.

MC 2202 (Sub-572F), filed November 6, 1978. Applicant: ROADWAY EXPRESS, INC., a Delaware corporation, P.O. Box 471, 1077 Gorge Blvd., Akron, OH 44309. Representative: William O. Turney, Suite 1010, 7101 Wisconsin Ave., Washington, DC 20014. To operate as a *common carrier,* by motor vehicle, in interstate or foreign commerce, over regular routes, transporting *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving Neosho, MO, as an off-route point in connection with carrier's otherwise authorized regular-route operations. (Hearing site: Joplin or Springfield, MO.)

MC 3854 (Sub-45F), filed October 23, 1978. Applicant: BURTON LINES, INC., P.O. Box 11306, East Durham Station, 815 Ellis Rd., Durham, NC 27703. Representative: Edward G. Villalon, 1032 Pennsylvania Building, Pennsylvania Avenue & 13th St., NW, Washington, DC 20004. To operate as a *common carrier,* by motor vehicle, in interstate or foreign commerce, over regular routes, transporting *building materials and industrial asphalt,* from points in Carteret County, NC, to points in VA. (Hearing site: Washington, DC.)

MC 8958 (Sub-32F), filed November 27, 1978. Applicant: THE YOUNGSTOWN CARTAGE CO., An Ohio Corporation, 825 West Federal Street, P.O. Box 119, Youngstown, OH 44501. Representative: John P. McMahon, 100 East Broad Street, Columbus, OH 43215. To operate as a *common carrier,* by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting *iron and steel articles,* (1) from points in CT, MA, and RI, to those points in MI on, east, and south of a line beginning at the IN-MI State line and extending along U.S. Hwy 27 to junction MI Hwy 20, then along MI Hwy 20 to the Saginaw Bay, (2) between those points in NJ on and south of Interstate Hwy 80, those points in PA on, south, and east of a line beginning at the NJ-PA State line and extending along Interstate Hwy 80 to junction U.S. Hwy 15, then along U.S. Hwy 15 to the PA-MD State line, and those points in MD on and east of U.S. Hwy 15, on the one hand, and, on the other, those points in OH on, south, and east of a line beginning at the WV-OH State line and extending along U.S. Hwy 22 to junction U.S. Hwy 23, then along U.S. Hwy 23 to the OH-KY State line, (3) between those points in PA on and west of U.S. Hwy 15, on the one hand, and, on the other, those points in OH on and south of a line beginning at the OH-WV State line and extending along U.S. Hwy 22 to junction U.S. Hwy 250, then along U.S. Hwy 250 to Dennison, OH, then along U.S. Hwy 36 to junction Interstate Hwy 77, then along Interstate Hwy 77 to junction U.S. Hwy 250, then along U.S. Hwy 250 to junction OH Hwy 21, then along OH Hwy 21 to junction U.S. Hwy 30, then along U.S. Hwy 30 to junction OH Hwy 309 (formerly U.S. Hwy 30S), then along OH Hwy 309 to junction U.S. Hwy 30, then along U.S. Hwy 30 to the OH-IN State line, (4) between points in Hancock, Brooke, Ohio, and Marshall Counties, WV, on the one hand, and, on the other, those points in OH on and south of a line beginning at the OH-WV State line and extending along U.S. Hwy 22 to junction U.S. Hwy 250, then along U.S. Hwy 250 to Dennison, OH, then along U.S. Hwy 36 to junction Interstate Hwy 77, then along Interstate Hwy 77 to junction U.S. Hwy 250, then along U.S. Hwy 250 to junction OH Hwy 21, then along OH Hwy 21 to junction Interstate Hwy 77, then along Interstate Hwy 77 to junction OH Hwy 21, then along OH Hwy 21 to junction OH Hwy 82, then along OH Hwy 82 to junction U.S. Hwy 42, then along U.S. Hwy 42 to junction U.S. Hwy 224, then along U.S. Hwy 224 to junction Interstate Hwy 75, then along Interstate Hwy 75 to junction OH Hwy 309 (formerly U.S. Hwy 30S), then along OH Hwy 309 to junction U.S. Hwy 30, then along U.S. Hwy 30 to the OH-IN State line, (5) from those points in OH on, west, and south of a line beginning at Sandusky, OH, and extending along OH Hwy 13 to junction U.S. Hwy 30, then along U.S. Hwy 30 to junction OH Hwy 21, then along OH Hwy 21 to junction Interstate Hwy 77, then along Interstate Hwy 77 to junction OH Hwy 7, then along OH Hwy 7 to junction U.S. Hwy 33, then along U.S. Hwy 33 to the OH-WV State line (except Toledo, OH), to Chicago and Belvidere, IL, those points in Lake and Porter Counties,

IN, which are on and north of U.S. Hwy 30, points in Cook, McHenry, DuPage, DeKalb, Grundy, Kane, Kendall, and Will Counties, IL, those points in LaSalle County, IL, which are within 50 miles of Oswego, IL, and points in Kenosha and Walworth Counties, WI, (6) from Chicago and Belvidere, IL, points in Kenosha and Walworth Counties, WI, those points in LaSalle County, IL, which are within 50 miles of Oswego, IL, points in Cook, McHenry, DuPage, Lake, DeKalb, Grundy, Kane, Kendall, and Will Counties, IL, and those points in Lake and Porter Counties, IN, which are on and north of U.S. Hwy 30 to (a) those points in OH on, west, and south of a line beginning at Toledo, OH, and extending along U.S. Hwy 23 to junction OH Hwy 309 (formerly U.S. Hwy 30S), then along OH Hwy 309 to junction U.S. Hwy 30, then along U.S. Hwy 30 to junction OH Hwy 21, then along OH Hwy 21 to junction Interstate Hwy 77, then along Interstate Hwy 77 to junction OH Hwy 7, then along OH Hwy 7 to junction U.S. Hwy 33, then along U.S. Hwy 33 to the OH-WV State line, and (b) those points in MI, within an area defined by a line beginning at the Saginaw Bay and extending along MI Hwy 20 to junction U.S. Hwy 27, then along U.S. Hwy 27 to junction Interstate Hwy 94, then along Interstate Hwy 94 to Detroit, then from Detroit along MI Hwy 24 to junction MI Hwy 138, then along MI Hwy 138 to junction MI Hwy 25, then along MI Hwy 25 to the Saginaw Bay at Bay Port, MI, (7) between those points in MI on, south, and east of a line beginning at Port Huron and extending along MI Hwy 21 to junction U.S. Hwy 27, then along U.S. Hwy 27 to the MI-IN State line, on the one hand, and, on the other, those points in OH on, west, and south of a line beginning at Lake Erie and extending along OH Hwy 21 to junction Interstate Hwy 77, then along Interstate Hwy 77 to junction OH Hwy 21, then along OH Hwy 21 to junction U.S. Hwy 250, then along U.S. Hwy 250 to the OH-WV State line, (8) from those points in OH on, west, and south of a line beginning at Sandusky, OH, and extending along OH Hwy 13 to junction U.S. Hwy 30, then along U.S. Hwy 30 to the OH-WV State line (except Toledo, OH), to those points in MI within an area defined by a line beginning at Port Huron, MI, and extending along MI Hwy 21 to junction U.S. Hwy 27, then along U.S. Hwy 27 to junction MI Hwy 20, then along MI Hwy 20 to the Saginaw Bay, and (9) between points in Allegheny, Washington, and Westmoreland Counties, PA, on the one hand, and, on the other, points in CT, DE, MA, NJ, NY, RI, and those in MD on and east of U.S. Hwy 15. (Hearing site: Columbus, OH.)

MC 22509 (Sub-12F), filed December 6, 1978. Applicant: MISSOURI-NEBRASKA EXPRESS, INC., an Iowa corporation, 5310 St. Joseph Ave., St. Joseph, MO 64505. Representative: Harry Ross, 58 S. Main St., Winchester, KY 40391. To operate as a *common carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting *automobile parts, automobile supplies, automobile accessories, refrigerators, paints*, and *such commodities* as are dealt in by wholesale and retail hardware business houses, (except commodities in bulk), from Chicago, IL, to Kansas City, MO. (Hearing site: Kansas City, MO.)

NOTE: Applicant seeks to eliminate the gateway of Clarinda, IA.

MC 29079 (Sub-96F), filed October 2, 1978, previously published in the FR issue of November 9, 1978. Applicant: BRADA MILLER FREIGHT SYSTEM, INC., 1210 S. Union St., Kokomo, IN 46801. Representative: Richard H. Streeter, 1729 H Street NW, Washington, DC 20006. To operate as a *common carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting *sand and sand with additives*, (except commodities in bulk, in tank vehicles), from the facilities of Manley Brothers, at or near Troy Grove, IL, and Bridgman, MI, and the facilities of Acme Resin Company, at or near Oregon, IL, to points in CT, IL, IN (except Kokomo and points within 50 miles thereof), IA, KY (except Louisville), MA, MO, MN, NH, NJ, OH, RI, VA, WV (except points in Brooke, Hancock, Marshall, and Ohio Counties), WI, those in the Lower Peninsula of MI, those in NY on and east of U.S. Hwy 62, and those in PA on and east of U.S. Hwy 219. (Hearing site: Washington, DC.)

NOTE: This republication shows the addition of the facilities of Manley Brothers as origins and the additional destinations of IL, MN, and OH.

MC 29568 (Sub-6F), filed December 8, 1978. Applicant: ASSOCIATED TRANSFER & STORAGE COMPANY, INC., 730 North Northlake Way, Seattle, WA 98103. Representative: Susan W. Carlson, 1215 Norton Bldg., Seattle, WA 98104. To operate as a *common carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting *coal, road building materials, aggregates, clay, and refractory products*, between points in Beaver, Lawrence, Mercer, Butler, Crawford, Erie, and Allegheny Counties, PA, on the one hand, and, on the other, points in Columbiana, Mahoning, and Trumbull Counties, OH. CONDITION: Issuance of this certificate is subject to prior or coincidental cancellation, at applicant's written request, of MC-135062 Sub 1. (Hearing site: Pittsburgh, PA.)

MC 145641F, filed October 26, 1978. Applicant: DILIDO TRANSPORTATION CO., INC., 501-551 West 30th St., New York, NY 10001. Representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 Eleventh St. NW., Washington, DC 20001. To operate as a *contract carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting (1) *iron and steel articles*, and *aluminum articles*, and (2) *materials, equipment, and supplies* used in the manufacture, distribution and sale of the commodities named in (1) above, (except commodities in bulk), between New York, NY, on the one hand, and, on the other, points in the United States (except AK and HI), under contract with Metal Purchasing Company, Inc., of New York, NY. (Hearing site: New York, NY.)

MC 145669F, filed November 1, 1978. Applicant: PETROLEUM TANK LINE, a corporation, 2600 Rice Avenue, West Sacramento, CA 06902. Representative: Alan F. Wohlstetter, 1700 K Street NW., Washington, DC 20006. To operate as a *common carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting (1) *petroleum and petroleum products*, in bulk, in tank vehicles, (a) from points in Butte, Contra Costa, Sacramento, San Mateo, San Joaquin, Solano, and Yolo Counties, CA, to Carson City, NV, and points in Curry, Jackson, Josephine, Klamath, and Lake Counties, OR, and Churchill, Douglas, Esmeralda, Eureka, Humboldt, Lander, Lyon, Mineral, Nye, Pershing, Storey, and Washoe Counties, NV, and (b) from Sparks, NV, to points in Alpine, Amador, El Dorado, Lassen, Mono, Nevada, Placer, Plumas, and Sierra Counties, CA; and (2) *lignum sulfate*, from points in Yolo County, CA, to points in NV, and those in Curry, Jackson, Josephine, Klamath, and Lake Counties, OR. (Hearing site: Sacramento, CA.)

MC 145702F, filed November 6, 1978. Applicant: TRANSURFACE CARRIERS, INC., 6 Thayer Street, Northboro, MA 01532. Representative: Bernard P. Rome, 31 Milk Street, Boston, MA 02109. To operate as a *contract carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting *woodworking hand tools, automatic door-operating equipment, steel strapping, steel strip, builders' hardware, industrial hardware, and drapery hardware*, from Farmington, New Britain, and Wallingford, CT, to points in the United States (except AK, HI, and CT), under contract with The Stanley Works, of New Britain, CT. (Hearing site: Washington, DC, or Boston, MA.)

MC 145785 (Sub-2F), filed December 4, 1978. Applicant: McADAMS TRUCKING CO., a corporation, 3 South Des Plaines, Joliet, IL 60431. Representative: Patrick H. Smyth, Suite 521, 19 South LaSalle Street, Chicago, IL 60603. To operate as a *contract carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting (1) *steel parts for trusses*, from the facilities of Alpine Engineered Products, Inc., at or near St. Charles, IL, to points in IA, IN, KY, MI, MN, MO, ND, NE, NJ, NY, OH, PA, SD, WI, and WV, and (2) *materials, equipment, and supplies* used in the manufacture and distribution of the commodities in (1) above, (except commodities in bulk), in the reverse direction, under contract with Alpine Engineered Products, Inc., of St. Charles, IL. (Hearing site: Chicago, IL.)

MC 145789F, filed November 20, 1978. Applicant: WILLIAM JOSEPH SWOPE, JR., Route No. 1; Lexington, Rd., Winchester, KY 40391. Representative: Herber D. Liebman, P.O. Box 478, Frankfort, KY 40602. To operate as a *common carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting *boats* from points in Clark County, KY, to points in FL, MD, and MS. (Hearing site: Frankfort or Lexington, KY.)

MC 145849F, filed December 7, 1978. Applicant: CHARLES MONIN AND JOSEPH MONIN, A Partnership, doing business as MONIN BROTHERS, 300 W. John Rowan Blvd., Bardstown, KY 40004. Representative: Robert H. Kinker, P.O. Box 464, Frankfort, KY 40602. To operate as a *common carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting *malt beverages*, from Evansville and Ft. Wayne, IN, Detroit, MI, Eden, NC, Cincinnati, OH, Memphis, TN, and Milwaukee, WI, to Bardstown, KY. (Hearing site: Bardstown or Louisville, KY.)

PASSENGER AUTHORITY

MC 88929 (Sub-3F), filed December 6, 1978. Applicant: BAGGSTROM'S BUS SERVICE, INC., Route 12, Frenchtown, NJ 08825. Representative: Larsh B. Mewhinney, 555 Madison Ave., New York, NY 10022. To operate as a *common carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting *passengers and their baggage* in the same vehicle with passengers, in special and charter operations, beginning and ending at points in Hunterdon County, NJ, and those points in PA on an east of a line beginning at the PA-NJ State line and extending along PA Hwy 611 to Danboro, then along PA Hwy 611 ByPass, near Doylestown, then along U.S. Hwy 202 ByPass to junction U.S. Hwy 202 ByPass to junction U.S. Hwy 202, then along U.S. Hwy 202 to the PA-NJ State line, and extending to points in CT, DE, IL, IN, KY, ME, MD, MA, MI, NH, NJ, NY, OH, PA, RI, VA, VT, WV, and DC. (Hearing site: Newark, NJ, or Philadelphia, PA.)

MC 145845F, filed December 4, 1978. Applicant: RAYMOND W. PAYNE, d./b./a. PAYNE BUS SERVICE, Route No. 1, Box 122, Beverdam, VA 23015. Representative: Leonard A. Jaskiewicz, 1730 M Street NW., Suite 501, Washington, DC 20036. To operate as a *common carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting *passengers and their baggage* in the same vehicle with passengers, in round-trip charter operations, beginning and ending at Fredericksburg and Richmond, VA, and points in Stafford, Spotsylvania, King George, Caroline, King and Queen, King William, Hanover, Henrico, Louisa, and Orange

[Volume No. 3]

PETITIONS, APPLICATIONS, FINANCE MATTERS (INCLUDING TEMPORARY AUTHORITIES), ALTERNATE ROUTE DEVIATIONS, AND INTRASTATE APPLICATIONS

Petitions for Modification, Interpretation, or Reinstatement of Operating Rights Authority

JANUARY 10, 1979.

The following petitions seek modification or interpretation of existing operating rights authority, or reinstatement of terminated operating rights authority.

All pleadings and documents must clearly specify the suffix (e.g. M1 F, M2 F) numbers where the docket is so identified in this notice.

An original and one copy of protests to the granting of the requested authority must be filed with the Commission within 30 days after the date of this notice. Such protests shall comply with Special Rule 247(e) of the Commission's *General Rules of Practice* (49 CFR 1100.247)[1] and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's representative, or petitioner if no representative is named.

MC 99439 (Sub-3) (M1F) (notice of filing of petition to modify certificate), filed October 16, 1978. Petitioner: SUWANNEE TRANSFER, INC., 1830 E. 21st Street, Jacksonville, FL 32206. Representative: Dan R. Schwartz, 1729 Gulf Life Tower, Jacksonville, FL 32207. Petitioner holds a motor *common carrier* certificate in MC 99439 Sub 3, issued September 14, 1977, authorizing transportation over irregular routes, of (a) *Commodities* the transportation of which by reason of size or weight require the use of special equipment, and *related machinery and parts and related contractors' materials and supplies* when their transportation is incidental to the transportation of commodities which by reason of size or weight require special equipment, (b) *iron and steel articles* as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209; and (c) *plastic pipe*, between points in FL, and between points in FL, on the one hand, and, on the other, points in GA. Restriction: The authority granted herein is restricted against the transportation of aerospacecraft, aerospacecraft parts, and aerospacecraft ground support equipment. By the instant petition, petitioner seeks to broaden the commodity description in part (c) above, to read as follows: "(c) *plastic, plastic articles, plastic pipe, tubing, fittings, and connections, materials, supplies, and accessories* used in the manufacture and installation of all such commodities in the manufacture and installation of all such commodities in part (c) hereof (except in bulk, in tank vehicles)."

MC 124887 (Sub-11) (M1F) (Notice of filing of petition to modify certificate), filed October 11, 1978. Petitioner: SHELTON TRUCKING SERVICE, INC., Route 1, Box 230, Altha, FL 32421. Representative: Sol H. Proctor, 1101 Blackstone Building, Jacksonville, FL 32202. Petitioner holds a motor *common carrier* certificate in MC 124887 Sub 11 issued September 16, 1975 authorizing transportation, as pertinent, over irregular routes, of *Steel joists*, from the plant site of Socar, Inc., in Florence County, SC, to points in FL, GA, NC, and TN. By the instant petition, petitioner seeks to modify the above authority by deleting the plant site reference in the origin so the origin would read: "from points in Florence County, SC".

MC 141426 (Sub-10) (M1F) (Notice of filing of petition to modify permit), filed October 12, 1978. Petitioner: WHEATON CARTAGE CO., INC., Millville, NJ 08332. Representative: E. STEPHEN HEISLEY, 805 McLachlen Bank Building, 666 Eleventh Street, N.W., Washington, D.C. 20001. Petitioner holds motor *contract carrier* permit in MC 141426 Sub 10, issued August 24, 1978, authorizing transportation, over irregular routes, of *Glass products, metal products, plastic products, paper products, wax products, clay products, feldspar products and wood products, foodstuffs, antipollution and bio-chemical apparatus, products used in radiological research, organic chemistry kits, bottle coating systems, talc, feldspar, candles, pottery, chinaware, ceramics, gift items, molds and machinery* and *parts and accessories* for the above-described commodities and *materials, equipment and supplies* used in the manufacture or distribution of the above-named commodities (except in bulk, in tank vehicles), between the facilities of Wheaton Industries at or near Miami, FL, on the one hand, and, on the other, points in the United States (except AK and HI), under a continuing contract(s) with Wheaton Industries of Millville, NJ. By the instant petition, petitioner seeks to modify the above authority to add American International Container, Inc. as an additional contracting shipper, and also to add an additional radial base point of Tampa, FL.

MC 141871 (M1F) (Notice of filing of petition to modify certificate), filed March 16, 1978. Petitioner: WNI SERVICE SYSTEM, 8700 S.W. Elligsen Rd., Wilsonville, OR 97070. Representative: John R. Patterson, 2480 E. Commercial Blvd., Fort Lauderdale, FL 33308. Petitioner holds a motor *common carrier* certificate in MC 141871 issued April 18, 1977 authorizing transportation, over irregular routes, as pertinent, of (1) *Plastic products* except commodities in bulk), from Lewiston and Clearfield, UT, to points in AZ, CA, CO, ID, MT, NM, NV, OR, UT, WA, and WY, and (2) *Equipment materials and supplies* (except commodities in bulk and those which because of size or weight require special equipment), used in the manufacture and distribution of plastic products, from points in the destination States named above, to Lewiston and Clearfield, UT. By the instant petition, petitioner seeks to modify the above authority by adding "aluminum foil and stretch wrap holders" to the commodity descriptions in (1) and (2) above.

REPUBLICATIONS OF GRANTS OF OPERATING RIGHTS AUTHORITY PRIOR TO CERTIFICATION

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the FEDERAL REGISTER. An original and one copy of a petition for leave to intervene in the proceeding must be filed with the Commission on or before February 20, 1979. Such pleading shall comply with Special Rule 247(e) of the Commission's *General Rules of Practice* (49 CFR 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including copies of intervenor's conflicting authorities and a concise statement of intervenor's interest in the proceeding setting forth in detail the precise manner in which it has been prejudiced by lack of notice of the authority granted. A copy of the pleading shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

MC 108207 (Sub-478F) (republication), filed March 24, 1978, published in the FEDERAL REGISTER issue of May 11, 1978, and republished this issue. Applicant: FROZEN FOOD EXPRESS, INC., P.O. Box 5888, Dallas, TX 75222. Representative: Mike Smith (same address as applicant). A Decision of the Commission, Review Board Number 3, decided December 4, 1978, and served January 3, 1979, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of *Foodstuffs* (except in bulk), from the facilities of Welch Foods, Inc., at or near Lawton, MI, to points in AR, KS, LA, MS, MO, NM, OK, TN, and TX, restricted to the transportation of traffic originating at the named facilities and destined to the named destination States, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to indicate applicant's actual grant of authority.

MC 112184 (Sub-57) (2nd republication), filed October 3, 1977, published in the FEDERAL REGISTER issues of December 30, 1977, and September 7, 1978, and republished this issue. Applicant: THE MANFREDI MOTOR TRANSIT CO., a Corporation, 11250 Kinsman Road, Newberry, OH 44065. Representative: John P. McMahon, 100 East Broad Street, Columbus, OH 43215. A Decision of the Commission, Division 1, decided December 15, 1978, and served December 28, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *contract carrier*, by motor vehicle, over irregular routes, in the transportation of (1) *Paint ingredients*, in bulk, in tank vehicles, from Oak Creek, WI, and Wallingford, CT, to Cleveland, OH; and (2) *paint and paint products*, in bulk, in tank vehicles, from, Cleveland, OH, to (a) Leed, MO, Chicago, IL, Tarreytown, NY, Wilmington, DE, Oklahoma City, OK, Baltimore, MD, Atlanta, Doraville and Lakewood, GA, Arlington, TX, Norfolk, VA, Minneapolis and St. Paul, MN, Louisville, KY, Fremont, San Jose, Southgate and Van Nuys, CA; and (b) ports of entry on the International Boundary line between the United States and Canada which lie between Buffalo, NY, and Calais, ME, inclusive, under a continuing contract or contracts with PPG Industries, Inc., a Pittsburgh, PA, will be consistent with the public interest and the national transportation policy, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to indicate applicant's actual grant of authority.

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

The following applications are governed by Special Rule 247 of the Commission's General Rules of Practice (49 CFR 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(e)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use a such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected.

The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. All pleadings and documents must clearly specify the "F" suffix where the docket is so identified in this notice. If the protest includes a request for oral hearing, such request shall meet the requirements of Section 247(e)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission decision which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the* FEDERAL REGISTER *of a notice that the proceeding has been assigned for oral hearing.*

Each applicant states that approval of its application will not significantly affect the quality of the human environment nor involve a major regulatory action under the Energy Policy and Conservation Act of 1975.

MC 25798 (Sub-347F), filed December 11, 1978. Applicant: CLAY HYDER TRUCKING LINES, INC., A North Carolina Corporation, P.O. Box 1186, Auburndale, FL 33823. Representative: Tony G. Russell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting *drugs, toilet preparations, health care products, aluminum calcined, magnesium hydroxide, soaps, and dental care cleaning compounds*, (except commodities in bulk), (1) from Philadelphia, PA, and Lewes, DE, to points in the United States (except AK, CT, DE, HI, ME, MD, MA, NH, NJ, NY, PA, RI, VA, VT, WV, and DC), (2) from Lakewood, NJ, and Millsboro, DE, to points in AR, CA, CO, GA, IL, LA, MO, NV, OK, and TX, (3) from Friendship (Guilford County), NC, to points in the United States (except AK, HI, NC, SC, and VA), (4) from Round Rock, TX, to points in the United States (except AK, HI, and TX), (5) from San Leandro, CA, to points in IN, GA, and PA, (6) from Reno, NV, to points in PA, and (7) from West Point, PA, to points in CA, CO, and OR. (Hearing site: Washington, DC.)

MC 123255 (Sub-186F), filed November 30, 1978. Applicant: B & L MOTOR FREIGHT, INC., 1984 Coffman Road, Newark, OH 43055. Representative: C. F. Schnee, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Containers, container ends, and closures*, (2) *commodities* manufactured or distributed by manufacturers and distributors of containers when moving in mixed loads with containers; and (3) *materials, equipment and supplies* used in the manufacture and distribution of containers, container ends and closures, restricted in (1) through (3) above against the transportation of commodities in bulk. Note: Common control may be involved. Procedural information: Applicants shall file their initial verified statements on or before February 13, 1979. Protestants shall file their verified reply statements on or before March 13, 1979. Applicants shall file their rebuttal statements on or before April 2, 1979.

MC 124211 (Sub-350F), filed December 26, 1978. Applicant: HILT TRUCK LINE, INC., P.O. Box 988 D.T.S., Omaha, NE 68101. Representative: A. J. Swanson, 521 South 14th Street, P.O. Box 81849, Lincoln, NE 68501. Authority sought to operate as a

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

common carrier, by motor vehicle, over irregular routes, transporting: (1) *Containers, container ends, and closures*, (2) *commodities* manufactured or distributed by manufacturers and distributors of containers when moving in mixed loads with containers; and (3) *materials, equipment and supplies* used in the manufacture and distribution of containers, container ends and closures, restricted in (1) through (3) above against the transportation of commodities in bulk.

NOTE.-Common control may be involved. Procedural information: Applicants shall file their initial verified statements on or before February 13, 1979. Protestants shall file their verified reply statements on or before March 13, 1979. Applicants shall file their rebuttal statements on or before April 2, 1979.

MC 135684 (Sub-85F), filed December 27, 1978. Applicant: BASS TRANSPORTATION CO., INC., P.O. Box 391, Old Croton Road, Flemington, NJ 08822. Representative: Herbert Alan Dubin, 1320 Fenwick Lane, Silver Spring, MD 20910. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Containers, container ends, and closures*, (2) *commodities* manufactured or distributed by manufacturers and distributors of containers when moving in mixed loads with containers; and (3) *materials, equipment and supplies* used in the manufacture and distribution of containers, container ends and closures, restricted in (1) through (3) above against the transportation of commodities in bulk.

NOTE.-Procedural information: Applicants shall file their initial verified statements on or before February 13, 1979. Protestants shall file their verified reply statements on or before March 13, 1979. Applicants shall file their rebuttal statements on or before April 2, 1979.

MC 139495 (Sub-402F), filed December 27, 1978. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th Street, P.O. Box 1358, Liberal, KS 67901. Representative: Herbert Alan Dubin, 1320 Fenwick Lane, Silver Spring, MD 20910. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Containers, container ends, and closures*, (2) *commodities* manufactured or distributed by manufacturers and distributors of containers when moving in mixed loads with containers; and (3) *materials, equipment and supplies* used in the manufacture and distribution of containers, container ends and closures, restricted in (1) through (3) above against the transportation of commodities in bulk.

NOTE.-Procedural information: Applicants shall file their initial verified statements on or before February 13, 1079. Protestants shall file their verified reply statements on or before March 13, 1979. Applicants shall file their rebuttal statements on or before April 2, 1979.

MC 139577 (Sub-29F), filed December 18, 1978. Applicant: ADAMS TRANSIT, INC., P.O. Box 338, Friesland, WI 53935. Representative: Wayne W. Wilson, 150 E. Gilman Street, Madison, WI 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Containers, container ends, and closures*, (2) *commodities* manufactured or distributed by manufacturers and distributors of containers when moving in mixed loads with containers; and (3) *materials, equipment and supplies* used in the manufacture and distribution of containers, container ends and closures, restricted in (1) through (3) above against the transportation of commodities in bulk.

NOTE.-Procedural information: Applicants shall file their initial verified statements on or before February 13, 1979. Protestants shall file their verified reply statements on or before March 13, 1979. Applicants shall file their rebuttal statements on or before April 2, 1979.

PASSENGER

MC 140247 (Sub-2F), filed October 23, 1978. Applicant: ALLSTATE CHARTER LINES, INC., P.O. Box 9022, Fresno, CA 93790. Representative: John Paul Fischer, 256 Montgomery Street, San Francisco, CA 94104. Authority to operate as a *common carrier*, by motor vehicle, in interstate or foreign commerce, over irregular routes, *transporting passengers and their baggage* in the same vehicle with passengers, in round trip, charter and special operations, in executive coach service, beginning and ending at points in AZ, CA, NV and OR, and extending to points in the United States, including AK, but excluding HI. (Hearing site: San Francisco, CA.)

NOTE.—Common control may be involved.

FINANCE APPLICATIONS

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control through ownership of stock, of rail carriers or motor carriers pursuant to Sections 11343 (formerly Section 5(2)) or 11349 (formerly Section 210a(b)) of the Interstate Commerce Act.

An original and one copy of protests against the granting of the requested authority must be filed with the Commission on or before February 20, 1979. Such protest shall comply with Special Rules 240(c) or 240(d) of the Commission's *General Rules of Practice* (49 CFR 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant, if no representative is named.

Each applicant states that approval of its application will not significantly affect the quality of the human environment nor involve a major regulatory action under the Energy Policy and Conservation Act of 1975.

MC-F-13822F. Applicant: WESTPORT TRUCKING COMPANY, 812 South Silver, Paola, Kansas 66071. Representative: Arthur J. Cerra, 2100 TenMain Center, P.O. Box 19251, Kansas City, Missouri 64141. Authority sought for purchase by Westport Trucking Company, 812 South Silver, P.O. Box 40, Paola, KS 66071, a portion of the operating rights of Arnold E. Debrick d/b/a Debrick Truck Lines, 103 North Silver, P.O. Box 421, Paola, KS 66071, and for acquisition by Laredo Express Company and John M. Edgar, 2100 TenMain Center, Kansas City, MO 64105, of control of the rights through purchase. Operating rights sought to be purchased: Green and salted hides (1) *Between points* in KS, MO and NE, restricted against service to or from Pittsburg, Parsons, Coffeyville and Independence, KS and Joplin, Carthage and Springfield, MO; (2) From points in ND, SD, CO, MT, WY, OK and TX to points in KS, MO, and NE, restricted against traffic originating at (a) Sioux Falls, SD and destined to Kansas City, KS-MO, and (b) Sioux Falls and Huron, SD and Fargo and West Fargo, ND destined to points in NE. Approval of the proposed transaction will result in vendee acquiring operating authority to handle traffic which it is presently handling in interline service with Vendor at Liberal and Sedgwick County, KS; Enid and Muskogee, OK; and Butler, Joplin, Kansas City and Springfield, MO. Vendee is authorized to operate as a common carrier in all the States in the United States (except Alaska and Hawaii). Application has been filed for temporary authority under section 210a(b) of the Act.

NOTE.—MC-126822 (Sub-No. 53F) is a directly related matter.

MC-F-13839F. Authority sought for purchase by ZELLMER TRUCK LINES, INC., P.O. Box 343, Granville, IL 63126, a portion of the operating rights of Farris Truck Line, P.O. Box 224, Faucett, MO 64448, and for acquisition by Henry Zellmer of control of the rights through purchase. Attorneys: E. Stephen Heisley, 666 Eleventh Street, NW, No. 805, Washington, DC 20001; Tom B. Kretsinger, 20 E. Franklin, Liberty, MO 64068. Operating rights sought to be purchased: (1) *Dry fertilizer* and *fertilizer materials*, from the facilities of W. R. Grace & Co. located at or near Henry, IL to points in IA, IN, KY, MI, MN, MO, OH, and WI; (2) *Dry fertilizer, dry fertilizer materials, urea, and pesticides* (except liquid in tank vehicles), from the facilities of W. R. Grace & Co. at or near Henry, IL to points in OH, MI, KY, TN, IL, WI, MN, IA, MO, NE, KS, IN, AR, OK, ND, and SD; from the facilities of W. R. Grace & Co. at or near Perry, IA to points in MN, WI, NE, KS, and IL; from the facilities of W. R. Grace & Co. at or near Lansing, MI to points in OH, IN, and IL; from the facilities of W. R. Grace & Co. at or near New Albany, IN to points in OH, IL, KY, and TN; from the facilities of W. R. Grace & Co. at Columbus, OH to points in MI, IN, IL, KY, and TN. RESTRICTION: The operations in (1) and (2) are limited to a transportation service to be performed under a continuing contract, or contracts, with W. R. Grace & Co. of New York, NY. Vandee is authorized to operate as a *common carrier* in certain States in the United States. Application has been filed for temporary authority under Section 210a(b).

NOTE.—MC 127303 (Sub 51F), is a directly related matter.

MC-F-138484F. Authority sought for purchase by MECCA & SON TRUCKING CORP., 25 Fairmount Ave., Jersey City, NJ 07304, of a portion of the operating rights of CENTRAL TRANSFER COMPANY, 1080 Springfield Rd., Union, NJ 07083, and for acquisition by Jerry Mecca and Helen Mecca, also of 25 Fairmount Ave., Jersey City, NJ 07304. Applicant's attorneys: A. DAVID MILLNER, P.O. Box 1409, 167 Fairfield Rd., Fairfield, NJ 07006, and THOMAS F. X. FOLEY, State Highway 34, Colts Neck, NJ 07722. Operating rights sought to be transferred: That portion of Certificate No. MC-1403 (Sub-No. 2), authorizing the transportation of *general commodities*, with exceptions, as a motor common carrier over *regular* routes BETWEEN Philadelphia, PA and Princeton, NJ, serving the intermediate points of Bristol and Morrisville, PA; and Trenton and Lawrenceville, NJ; FROM Philadelphia over US Hwy 13 to Morrisville, PA, then over US Hwy 1 to Trenton, NJ, and then over US Hwy 206 to Princeton, and return over the same route. Transferee is a common carrier authorized to operate in NY, NJ, and PA. Application has not been filed for temporary authority under Section 210a(b).

MC-F-13859F. Applicant: VALION R. JORDAN, 100 Beta Drive, P.O. Box 756, Franklin, TN 37064. Representative: William J. Monheim, P.O. Box 1756, Whittier, CA 90609. Authority sought for control by Valion R. Jordan, 100 Beta Drive, P.O. Box 756, Franklin, TN 37064 of (B) Rajor, Inc. and (BB) California Express, Ltd. both of 100 Beta Drive, P.O. Box 756, Franklin, TN 37064. Rajor, Inc. operates as a contract carrier, over irregular routes, in all points in the United States (except Alaska and Hawaii) under authority issued by the Commission in Permit No. MC 129862 Subs 1, 2, 3, 4, 5, 11, 12, 15, 17F, 18TA, and 20TA. Rajor, Inc. also has a contract carrier application pending, MC 129862 Sub 19F as well as two common carrier temporary authority applications, MC 145392 TA and Sub 1TA. California Express, Ltd. does not hold any authority from the Commission but is filing an application simultaneously with this control application which, because of the *Hannon* principle is directly related to this application. There is no duplicating authority involved but approval of the transaction will result in dual operations. VALION R. JORDAN holds no authority from this Commission. However, he owns all the stock of RAJOR, INC. Application for temporary authority under Section 210a(b) has not been filed. (HEARING SITE: Nashville, TN or Washington, D.C.)

NOTE.—No. MC-145979F is a directly related matter.

MC-F-13861F. Authority sought for the purchase by LOMBARD BROTHERS, INCORPORATED, 233 Mill Street, Waterbury, CT 06706, of the operating rights of APD TRANSPORT CORP., 1 Railroad Place, Maspeth, NY 11378, and for acquisition by Clotilda Lombard, New Haven Road, Prospect, CT 06712, and A. J. Lombard, Flanders Road, Woodbury, CT 06798, of control of such rights through the purchase. Applicants' attorneys: Hugh M. Joseloff, 80 State Street, Hartford, CT 06103 and Morton E. Kiel, 5 World Trade Center, New York, NY 10048. Operating rights sought to be transferred: *General commodities*, with the usual exceptions, as a *common carrier*, between points in the New York, NY commercial zone, on the one hand, and on the other, points in CT, NJ and NY within 50 miles of the New York, NY commercial zone; and certain specific commodities, between points in PA, a short distance beyond the 50 mile radius, and the New York, NY commercial zone. Approval thereof will result in some duplication of rights to a small extent. Vendee is authorized to operate as a common carrier in MA, RI, CT, NH, NY, NJ, PA, MD, VT, ME, DE and DC. Application has been filed for temporary authority under Section 210a(b). NOTE: MC 42289 (Sub No. 12) is a directly related matter. (Hearing site: Hartford, CT or Washington, DC.)

NOTE.—No. MC-42289 (Sub-No. 12F) is a directly related matter.

MC-F-13868F. Applicant: RYDER TRUCK LINES, INC., 2050 Kings Road, Jacksonville, FL 32209. Representatives Roland Rice, Esq., Suite 501, 1111 E Street, NW., Washington, DC 20004; Alan Kahn, Esq., 1920 Two Penn Center, Philadelphia, PA 19102. Authority sought for the purchase by RYDER TRUCK LINES, INC., 2050 Kings Road, Jacksonville, FL 32209, of a portion of the operating rights of SHANAHAN MOTOR LINES, INC., 1001 Fairview Street, Camden, NJ 09104, and for acquisition by I.U. Transportation Services, 1105 N. Market Street, The Wilmington Tower, Wilmington, DE 19801, and in turn, by I.U. International Corp., of the same address, of control of such rights through the transaction. Operating rights sought to be transferred: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, automobiles and trucks, and garments on hangers) as a *common carrier* over *irregular routes*, between Philadelphia, PA, and points in that part of New Jersey south of a line beginning at Trenton, NJ, and extending along Mercer County Hwy. 535 through Edinburg, NJ, to Locust Corner, NJ, thence along Mercer County Hwy. 571 to junction New Jersey Hwy, 33, thence along New Jersey Hwy. 33 to junction Monmouth County Hwy, 537 near Freehold, NJ, and thence along Monmouth County Hwy. 537 through Freehold, Colts Neck, Eatontown, and Long Branch, NJ, to the Atlantic Ocean, including points on the indicated portions of the highways specified. The authority granted herein to the extent that it duplicates any authority heretofore granted to or now held by carrier shall not be construed as conferring more than one operating right. Vendee is authorized to operate pursuant to Certificate No. MC-2900 and Subs as a *common carrier* of general and specified commodities in the States of AL, AR, CT, DE, FL, GA, IL, IN, KY, LA, MA, MD, ME, MI, MO, MS, NC, NH, NJ, NY, OH, OK, PA, RI, SC, TN, TX, VA, WI, WV, and DC. Application has been filed for temporary authority under Section 210a(b). (Hearing site: Washington, DC.)

MC-F-13871F. Authority sought for purchase by EAST TEXAS MOTOR FREIGHT LINES, INC., 2355 Stemmons Freeway, Dallas, TX 75207, of a portion of the operating rights of Shanahan Motor Lines, Inc., 1001 Fairview Street, Camden, NJ 08104 and for acquisition by H. R. Bright, Individually, and as Executor and Trustee of the Estate of Mary Frances Smith Bright, Deceased, also of 2355 Stemmons Freeway, Dallas, TX 75207, of control of such rights through the purchase. Applicant's attorneys: J.

V 4 4 / 1 3 J A 1 8 7 9 UMI

V 4 4 / 1 3 J A 1 8 7 9 UMI

Raymond Chesney, P.O. Box 10125, Dallas, TX 75207 and Alan Kahn, 1920 Two Penn Central Plaza, Philadelphia, PA 19102. Operating rights sought to be transferred: *General Commodities*, with the usual exceptions, as a common carrier, over regular routes, between New York, NY and Boston, MA, serving points within 25 miles of the State House in Boston; between New Haven, CT and Boston, MA, serving points within 25 miles of the State House in Boston; between New York, NY and New Haven, CT, serving the intermediate and off-route points of Bridgeport, Stamford, Fairfield, Westport, Greenwich, Derby, South Norwalk, Meriden, Middletown, Hartford, Shelton, Ansonia, New Britain, Manchester, Bristol, West Haven, East Haven and Branford, CT, Yonkers, NY, and Hoboken, Weehawken and Jersey City, NJ; between Boston, MA and Norwalk, CT, serving all intermediate points and the off-route points of Canton, Montville, New Britain, Rockville, Simsbury, Stafford, Thompson, Thompsonville, Torrington, Unionville, Versailles, Willington and Winstead, CT, points within 8 miles of Boston, MA, points within 8 miles of Norwalk, CT, and points within 12 miles of Providence, RI; between New York, NY and New Haven, CT, serving all intermediate points; between Bridgeport, CT and New Haven, CT, serving all intermediate points; between New Haven, CT and Norwich, CT, serving all intermediate points; between Derby, CT and Waterbury, CT, serving all intermediate points; serving the off-route points of New Milford, Torrington, Baltic, Franklin, Occum, Taftville, Jewett City and Versailles, CT and points in Connecticut on and south of U.S. Hwy. 6 and west of Connecticut Hwy. 32 (except Chester, Deep River, Center Brook, Ivoryton, and Essex, CT); and *General Commodities*, with the usual exceptions, over irregular routes, from New York, NY to Springfield, MA, as more fully described in Docket No. MC-F-13431. Vendee is authorized to operate pursuant to Certificate No. MC-41432 and subs thereunder and MC-F-12872 as a common carrier in Alabama, Arizona, Arkansas, California, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maryland, Michigan, Mississippi, Missouri, New Jersey, New York, North Carolina, Ohio, Oregon, Pennsylvania, South Carolina, Tennessee, Texas, Utah, Virginia, Washington, West Virginia, Wisconsin, and the District of Columbia. Approval of the proposed transaction will result in Vendee acquiring no duplicating authority. Approval of the proposed transaction will result in a split of Vendor's authority at New York, NY. Application has been filed for temporary authority under Section 210a(b) of the Act.

MC-F-13872F. Authority sought for purchase by SUNDERMAN TRANSFER INC., Box 63, Windom, MN 56101, of a portion of the operating rights of Katuin Bros., Inc., Highway 61 South, P. O. Box 311, Fort Madison, IA 52627, and for acquisition by Sunderman Transfer Inc., of control of such rights through acquisition. Representative: Carl E. Munson, 469 Fischer Building, Dubuque, IA 52001. Operating rights sought to be purchased are those contained in MC 126539 Sub Nos. 14, 36F and 39F thereunder which authorize the transportation of: Foodstuffs and nonedible food products, in vehicles equipped with mechanical refrigeration, from Bettendorf, IA, to IL, MN, MO, NE, SD and WI, restricted to traffic originating at facilities of Terminal Ice & Cold Storage Co., and destined to above-named destinations. Foodstuffs (except in bulk) in mechanically refrigerated equipment, from the facilities of Termicold Corp. at or near Bettendorf, IA, to IN, KY, MI, OH, PA and WV, restricted to the transportation originating at named origin and destined to indicated destinations. Frozen foods (except in bulk), from facilities of Termicold Corp. at or near Plover, WI, to points in AR, IL, IN, IA, KS, KY, LA, MI, MN, MS, NE, OH, PA, SD, TN, TX, restricted to the transportation of traffic originating at named origin and destined to indicated destinations. Vendee authorized to transport commodities between named points in AL, AR, CO, CT, DC, GA, IL, IN, IA, KY, LA, MA, ME, MI, MD, MN, MO, MS, NC, ND, NE, NJ, NH, NY, OH, PA, RI, SC, SD, TN, TX, VA, VT, WI, and WV. No duplicating authority involved but possible dual operations. Sec. 5 Application filed. (Hearing Site: Minneapolis, MN.)

OPERATING RIGHTS APPLICATION(S) DIRECTLY RELATED TO FINANCE PROCEEDINGS

The following operating rights application(s) are filed in connection with pending finance applications under section 11343 (formerly Section 5(2)) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with transfer applications under Section 10926 (formerly Section 212(b)) of the Interstate Commerce Act.

An original and one copy of protests to the granting of the authorities must be filed with the Commission on or before February 20, 1979. Such protests shall comply with Special Rule 247(e) of the Commission's *General Rules of Practice* (49 CFR 1100.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative or applicant if no representative is named.

Each applicant states that approval of its application will not significantly affect the quality of the human environment nor involve a major regulatory action under the Energy Policy and Conservation Act of 1975.

MC 42289 (Sub-12F), filed December 14, 1978. Applicant: LOMBARD BROTHERS, INCORPORATED, 233 Mill Street, Waterbury, CT 06706. Representative: Hugh M. Joseloff, 80 State Street, Hartford, CT 06103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, (except commodities in bulk, household goods as defined by the Commission, classes A and B explosives, those of unusual value, and commodities which because of size or weight require the use of special equipment), between points in CT, NJ, and NY within 50 miles of the New York, NY commercial zone. (Hearing site: Hartford, CT or Washington, D.C.)

NOTE.—The purpose of this application is to eliminate the gateway of the New York, NY commercial zone. This is a matter directly related to a Section 5(2) proceedings in MC-F-13861F published in a previous section of this FEDERAL REGISTER issue.

MC 99902 (Sub-5F), filed December 19, 1978. Applicant: DAVE'S MOTOR TRANSPORTATION, INC., Logan International Airport, Boston, MA 02109. Representative: Kenneth B. Williams, 84 State Street, Boston, MA 02109. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment), between Logan International Airport, Boston, MA, on the one hand, and, on the other, Bradley Field, Windsor Locks, CT, LaGuardia and John F. Kennedy International Airports, New York, NY and Newark Airport, Newark, NJ. Restricted to the transportation of shipments having an immediately prior or subsequent movement by air. (Hearing site: Boston, MA.)

NOTE.—The purpose of this application is to eliminate the gateways of Windsor Locks, CT, and points in MA and CT within 50 miles of Windsor Locks and to tack applicant's present irregular route authority with the irregular route authority sought to be acquired in the Section 5 application at Boston, MA to provide a through service between points in RI and the airports in CT, NY and NJ, and is directly related to a finance proceeding docketed MC-F—13865F published in a previous section of the FEDERAL REGISTER issue of January 11, 1979.

MC 126822 (Sub-53F), filed November 9, 1978. Applicant: WESTPORT TRUCKING COMPANY, a Corporation, 812 South Silver, Paola, Kansas 66071. Representative: Arthur J. Cerra, 2100 TenMain Center, P.O. Box 19251, Kansas City, Missouri 64141. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *hides and pelts:*

(1) From points in IA. MN, MO. IN, OH, IL, TX, NE, MI, KS, NM, and WI to points in CA. (Gateways eliminated: Sedgwick County and Liberal, KS; Butler, MO; and Enid, OK.)

(2) From points in OH, MI, SD, IL, IN, MO, NM, OK, MN, TN, KY, ND, NE, KS, IA, and WI to points in TX. (Gateways eliminated: Sedgwick County and Liberal, KS; Butler, MO; and Muskogee and Enid, OK.)

(3) From points in TX, KS, TN, and NM to points in MN. (Gateways eliminated: Liberal and Sedgwick County, KS; Butler, MO; and Muskogee and Enid, OK.)

(4) From points in TX, OK, MO, CA, and NE to points in MI. (Gateways eliminated: Butler and Kansas City, MO, and Sedgwick County, KS.)

(5) From points in OK, SD, MO, MI, TX, and NY to Denver, CO. (Gateways eliminated: Butler, MO, and Liberal and Sedgwick County, KS.)

(6) From points in TX, KS, and MO to Chicago, IL. (Gateways eliminated: Sedgwick County, KS, and Kansas City and Springfield, MO.)

(7) From points in IA, WI, MN, MO, KS, NE, ND, and IN to New Orleans, LA (Gateways eliminated: Butler, MO, and Sedgwick County, KS.)

(8) From points in TX, NM, NE, KS, and CO to points in NY. (Gateways eliminated: Butler, Kansas City, and Springfield, MO and Enid, OK.)

(9) From points in TX, MO, NE, NM, and KS, to points in ME. (Gateways eliminated: Springfield and Kansas City, MO, and Muskogee, OK.)

(10) From points in TX to points in AZ, DE, OH, and OR. (Gateways eliminated: Liberal and Sedgwick County, KS, and Springfield and Butler, MO.)

(11) From points in TX, KS, NE, and MO to points in KY. (Gateways eliminated: Sedgwick County, KS, and Butler, MO.)

(12) From points in TX, CA, CO, NM, OK, KS, KY, MO, and LA to points in WI. (Gateways eliminated: Sedgwick County, KS; Springfield, Butler and Kansas City, MO; and Enid, OK.)

(13) From points in MO, TX, AZ, KS, and NE to points in MA. (Gateways eliminated: Enid, OK, and Kansas City and Springfield, MO.)

(14) From points in CO, MO, KS, and NE to points in NH. (Gateway eliminated: Kansas City, MO.)

(15) From points in ID, TX, NE, KS, MO, NM, and MN to points in TN. (Gateways eliminated: Enid, OK; Butler, MO; and Sedgwick County and Liberal, KS.)

(16) From points in KS to points in WA. (Gateways eliminated: Sedgwick County and Liberal, KS.)

(17) From points in IN, TX, and IL, to St. Joseph, MO. (Gateways eliminated: Butler, MO, and Sedgwick County, KS.)

(18) From points in MO, CO, and TX to points in PA. (Gateways eliminated: Butler, MO, and Sedgwick County, KS.)

(19) From points in MO and CO to points in WV. (Gateway eliminated: Butler, MO.)

(20) From points in IA to points in GA. (Gateways eliminated: Butler, MO, and Sedgwick County, KS.)

(21) From points in TX and MO to Newark, NJ. (Gateways eliminated: Sedgwick County, KS, and Butler, MO.)

(22) From points in WI to points in UT. (Gateways eliminated: Butler, MO, and Sedgwick County, KS.)

(23) From points in CO to points in VA. (Gateway eliminated: Butler, MO.) (Hearing site: Kansas City, MO.)

NOTE.—This gateway elimination application is directly related to finance proceedings docketed MC-F-13822F published in a previous section of this FEDERAL REGISTER issue.

MC 127303 (Sub-51F), filed December 15, 1978. Applicant: ZELLMER TRUCK LINES, INC., P.O. Box 343, Granville, IL 61326. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street, NW, Washington, DC 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting (1) *dry fertilizer and fertilizer materials* (except liquid commodities in bulk), from the facilities of W. R. Grace & Co., at or near Henry, IL, to points in IA, IN, KY, MI, MN, MO, OH, and WI, and (2) *dry fertilizer, dry fertilizer materials, urea, and pesticides* (except liquid commodities in bulk), (a) from the facilities of W. R. Grace & Co., at or near Henry, IL, to points in OH, MI, KY, TN, IL, WI, MN, IA, MO, NE, KS, IN, AR, OK, ND, and SD, (b) from the facilities of W. R. Grace & Co., at or near Perry, IA, to points in MN, WI, NE, KS, and IL, (c) from the facilities of W. R. Grace & Co., at or near Lansing, MI, to points in OH, IN, and IL, (d) from the facilities of W. R. Grace & Co., at or near New Albany, IN, to points in OH, IL, KY, and TN, and (e) from the facilites of W. R. Grace & Co., at Columbus, OH, to points in MI, IN, IL, KY, and TN. (Hearing site: Memphis, TN.)

NOTE.—The purpose of this application is to convert permits to certificates of public convenience and necessity and is directly related matter to MC-F-13839F published in a previous section of this FEDERAL REGISTER issue.

MC 145979F, filed December 13, 1978. Applicant: CALIFORNIA EXPRESS, LTD., P.O. Box 756, 100 Beta Drive, Franklin, TN 37064. Representative: William J. Monheim, P.O. Box 1756, Whittier, CA 90609. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals, cleaning, scouring and washing compounds, plastic liquids and sheeting, ink, defoaming compounds, laminating machinery, laminating machinery parts, solvents, pallets and containers* between the facilities of Thiokol/Dynachem Corporation at or near Tustin, CA, on the one hand, and on the other, Woburn and South Hadley Falls, MA, Herndon, VA, Elmhurst, IL, Matthews, NC, Tampa, FL, and Detroit, MI. Restriction: Restricted against the transportation of commodities in bulk and further restricted to traffic originating at and destined to the named origins and destinations. This application is directly related to an application for approval of control, MC-F-13859F, published in a previous section of this FEDERAL REGISTER issue. (Hearing site: Los Angeles, CA.)

MOTOR CARRIER ALTERNATE ROUTE DEVIATIONS

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Deviation Rules—Motor Carrier of Passengers (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules at any time, but will not operate to stay commencement of the proposed operations unless filed on or before February 20, 1979.

Each applicant states that there will be no significant effect on either the quality of the human environment or energy policy and conservation.

MOTOR CARRIERS OF PASSENGERS

MC 61599 (Deviation No. 14), CONTINENTAL SOUTHEASTERN LINES, INC., 200 Spring St., N.W., Atlanta, GA 30343, filed December 4, 1978. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers, and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, over deviation routes as follows: From Asheville, NC over Interstate Hwy 26 to junction US

V 4 / 1 3 J A 1 8 7 9 UMI

Hwy 29, then over US Hwy 29 to Spartanburg, SC, with the following access routes: (1) From junction Interstate Hwy 26 and US Hwy 25, over US Hwy 25 to Hendersonville, NC, and (2) From junction Interstate Hwy 26 and US Hwy 64, over US Hwy 64 to Hndersonville, NC and return over the same routes for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property over a pertinent service route as follows: From Asheville, NC over NC Hwy 191 to Hendersonville, NC, then over US Hwy 176 to Spartanburg, SC, and return over the same route.

By the Commission.

H. G. HOMME, Jr.,
Secretary.

OPERATING RIGHTS AUTHORIZING SERVICE AT DESIGNATED AIRPORTS

Petition To Amend Interpretation

AGENCY: Interestate Commerce Commission.

ACTION: Extension of time for filing public comments in this proceeding.

SUMMARY: This proceeding was instituted by a notice of petition for rulemaking published in the FEDERAL REGISTER on October 24, 1978, at 43 FR 49601. All interested parties were initially invited to file comments respecting the proposal on or before December 8, 1978.

That date was extended to February 1, 1979 because of the pendency of a decision in No. MC-C-3437, a proceeding with potential implications in the instant proceeding.

A decision in that proceeding was served on January 11, 1979. We believe that a further extension of time is necessary for interested parties to evaluate their positions and prepare comments.

DATES: Comments regarding the proposed rulemaking proceeding should be submitted to the Commission on or before March 1, 1979. No further extensions are contemplated.

FOR FURTHER INFORMATION CONTACT:

Michael Erenberg 202-275-7292.

By the Commission, Alan M. Fitzwater, Director, Office of Proceedings.

[7035-01-M]

[Service Order No. 1344; Revised I.C.C. Order No. 14]

MICHIGAN NORTHERN RAILWAY CO. AND SOO LINE RAILROAD CO.

Rerouting Traffic

In the opinion of Robert S. Turkington, Agent, the Michigan Northern Railway Company (MN) is unable to receive traffic from the Soo Line Railroad Company at St. Ignace-Mackinaw City, Michigan, and is unable to transport traffic presently on its line because of disrupted train operations on the MN caused by heavy snow and a shortage of locomotives.

It is ordered, (a) *Rerouting traffic.* The Soo Line Railroad Company (Soo) being unable to deliver traffic to the Michigan Northern Railway Company (MN) and the MN being unable to transport traffic because of disrupted train operations on the MN caused by heavy snow and a shortage of locomotives, these lines are directed to divert or reroute such traffic over any available route to expedite the movement. Traffic necessarily diverted by authority of this order shall be rerouted so as to preserve as nearly as possible the participation and revenues of other carriers provided in the original routing. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) *Acceptance of rerouted cars required.* Any railroad named in the original routing is required to accept and transport cars rerouted or diverted by the Soo Line Railroad or Michigan Northern Railway in accordance with the requirements of this order.

(c) *Notification to shippers.* Each carrier rerouting cars in accordance with this order, shall notify each shipper at the time each shipment is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic is deemed to be due to carrier disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers, or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) *Effective date.* This order shall become effective at 4:00 p.m., January 5, 1979.

(g) *Expiration date.* This order shall expire at 11:59 p.m., January 10, 1979, unless otherwise modified, changed or suspended.

This order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association. A copy of this order shall be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., January 5, 1979.

INTERSTATE COMMERCE COMMISSION,
ROBERT S. TURKINGTON,
Agent.

[Notice No. 148]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under section 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include request for oral hearing, must be filed with the Commission on or before February 20, 1979. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopses from, but are deemed sufficient to place interested persons on notice of the proposed transfer.

MC-FC-77905, filed October 24, 1978. Transferee: Dreisbsch Enterprises, Inc., 8451 San Leandro St., Oakland, CA 94603. Transferor: Penguin Trucking Co., Inc., 2045 East Vernon Ave., Los Angeles, CA 90058. Representative: Eldon M. Johnson, Attorney at Law, 650 California St., Suite 3808, San Francisco, CA 94108. Authority sought for purchase by transferee of the entire operating rights of transferor as set forth in Certificate No. MC-65115, issued July 9, 1971, and portion of operating rights in Certificate of Registration 98886 Sub 2 issued October 26, 1973, to Alco Transportation Co., and portion of Certificate of Registration No. MC-120936 Sub 1 issued October 1, 1974, to Alco Fast Freight, Inc., and acquired by transferor pursuant to approval and consummation of the transfer proceeding in MC-F-12741, as follows: MC-65115: Agricultural commodities, from points in Los Angeles and Orange Counties, CA, to Los Angeles Harbor, CA, commercial fertilizer, from Los Angeles Harbor, CA, to points in Los Angeles and Riverside Counties, CA, general commodities (with certain exceptions), between Los Angeles, CA, and Los Angeles Harbor Commercial Zone as defined by the Commission, to Colton and San Diego, CA. MC-98886 Sub 2: Commodities requiring the use of special refrigeration or temperature control in specially designed and constructed refrigerator equipment, between points in specified areas and territories in California, with certain restrictions; and MC-120936 Sub 1: Commodities requiring the use of special refrigeration or temperature control in specially designed and constructed refrigerator equipment, between points in specified areas and territories in California, with certrain restrictions. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under section 210a(b).

MC-FC-77922, filed November 6, 1978. Transferee: James Mulvihill, Patricia Carrell, Donna McMahon, Robert, Michael and Kevin Mulvihill, 2607 Cravey Drive, NE., Atlanta, GA 30345. Transferor: Thompson Travel Bureau, 625 Lackawanna Ave., Scranton, PA 18503. Authority sought for control by transferees through the purchase of capital stock of the operating rights of transferor as set forth in License No. MC 12681, issued December 12, 1958, authorizing the transportation of passengers and their baggage, between points in the United States and authorizing operations as a broker at Scranton and Philadelphia, PA and Binghamton, Rochester, and Syracuse, NY.

MC-FC-77925, filed November 6, 1978. Transferee: H & K Transport Co., Inc., Rt. 2, Box 2087-X, Wenatchee, WA 98801. Transferor: Brader Hauling Service, Inc., P.O. Box 655, Zillah, WA 98953. Applicants' Representative: Larry Brader, President, Brader Hauling Service, Inc., P.O. Box 655, Zillah, WA 98953. Applicants' Representative: Charles C. Flower, Suite 2, Yakima Legal Center, 303 East "D" Street, Yakima, WA 98901. Authority sought for purchase by transferee of the operating rights of transfer as set forth in Permit No. MC-124658 (Sub-No. 2) issued June 30, 1969, as follows: Orchard heaters and parts and accessories thereof, from Upland and Cucamonga, CA to points in Wasco, Sherman, Hood River, Union, and Baker Counties, OR, and that part of Washington lying east of the summit of the Cascade Mountain Range, restricted to a transportation service to be performed under a continuing contract with Scheu Products Company of Upland, CA. Application has not been filed for temporary authority under Section 210a(b).

MC-FC-77947, filed December 6, 1978. Transferee: Twin City Trucking, Inc., 57 Cathy Street, Fitchburg, MA 01420. Transferor: Furniture Warehouse, Inc., 323 Speen Street, Natick,

MA 01760. Applicants' Representative: Frank J. Weiner, 15 Court Square, Boston, MA 02108. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Certificate of Registration No. MC-39339 (Sub-No. 2), issued October 23, 1967, as corrected March 12, 1968, authorizing the transportation of general commodities anywhere in the Commonwealth of Massachusetts. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

MC-FC-77956, filed December 12, 1978. Transferee: Ohio Movers and Storage, Inc., 9420 Sandusky Ave., Cleveland, OH 44105. Transferor: The Schott-Geise Moving & Cartage Company, 9420 Sandusky Ave., Cleveland, OH 44105. Applicants' Representative: Richard H. Brandon, Attorney at Law, 220 West Bridge St., P.O. Box 97, Dublin, OH 43107. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC-79678, issued September 26, 1940, as follows: *Household goods*, over irregular routes, between points and places in Cuyahoga County, Ohio, on the one hand, and, on the other, points and places in Illinois, Indiana, Michigan, Pennsylvania, and Wisconsin, traversing West Virginia for operating convenience only. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

H. G. HOMME, Jr.,
Secretary.

[Notice No. 4]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 8, 1979.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

NOTE.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

MOTOR CARRIERS OF PROPERTY

MC 29910 (Sub-201TA), filed December 13, 1978. Applicant: ARKANSAS-BEST FREIGHT SYSTEM, INC., 301 South Eleventh Street, Fort Smith, AR 72901. Representative: Joseph K. Reber, 301 South Eleventh Street, Fort Smith, AR 72901. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the facilities of A. M. General Corporation, at or near Marshall and Wildlawn, TX., as off-route points in connection with applicant's authorized regular route operations at Shreveport, LA. (ABF's authority to serve Shreveport, LA., is found on Page 3, Lines 64-68 and Page 4, Lines 31-34 of its operating authority attached hereto), for 180 days. An underlying ETA seeks up to 90 days authority. SUPPORTING SHIPPER(S): A. M. General Corporation, P.O. Box 1779, Marshall, TX 75670. SEND PROTESTS TO: William H. An underlying ETA seeks up to 90 days authority. SUPPORTING SHIPPER(S): Kaufman & Broad Home Systems, Inc., 11320 Amalgam Street, Rancho Cordova, CA. SEND PROTESTS TO: A. J. Rodriguez DS, 211 Main Street, Suite 500, San Francisco, CA 94105.

MC 145817 TA filed December 1, 1978. Applicant: RECREATIONAL PRODUCTS TRANSPORT, INC., (R.P.T.), Uxbridge Road (Route 16), Mendon, Massachusetts 01756. Representative: Mr. S. L. Watts, TDS, Inc.; 1050 Waltham Street, Lexington, Massachusetts 02173. *Boats new or used, and other products*, dealt with in the recreational marine products industry (except in bulk). Proposed operation will be between points in the states of CT, MA, ME, NH, NY, RI and VT on the one hand, and, on the other, points in the United States, excepting AK and HI, for 90 days. An underlying ETA seeking up to 90 days authority. SUPPORTING SHIPPER(S): Jessee F. White, Inc., Uxbridge Road, Mendon, MA 01756. SEND PROTESTS TO: David M. Miller DS, ICC, 436 Dwight Street, Springfield, MA 01103.

MC 145834 (Sub-1 TA), filed December 6, 1978. Applicant: PIPE HAULERS, INC., 1900 Grant Building, Pittsburgh, PA 15219. Representative: James P. Giltner, 709 Brookpark Road, Cleveland, OH 44109. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Conduits and other pipe, and attachments, parts and fittings therefor*, and commodities used in the manufacture of same, between Croydon, PA., and points in New Jersey, New York, Delaware and MD., within 150 miles of Croydon, PA., under a continuing contract or contracts, with United States Concrete Pipe Company, for 180 days. SUPPORTING SHIPPER(S): United States Concrete Pipe Company, 709 Brookpark Rd., Cleveland, OH 44109. SEND PROTESTS TO: Mary Wehner DS, ICC, 731 Federal Office Building, 1240 East Ninth Street, Cleveland, OH 44199.

MC 145851 (Sub-1 TA), filed December 6, 1978. Applicant: BRUNSWICK TRUCK SERVICE, INC., Old Portland Road, Brunswick, ME 04011. Representative: Philip Sherwood, Old Portland Road, Brunswick, ME 04011. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *All types of scrap metals and all types of materials for recycling purposes*, from points in ME., on the one hand, to Madbury, NH, and Boston, MA, on the other, under a continuing contract, or contracts, with A. Gagnon & Sons, Inc., for 90 days. An underlying ETA seeks up to 90 days authority. SUPPORTING SHIPPER(S): A. Gagnon & Sons, Inc., P.O. Box 2418, South Portland, ME 04106. SEND PROTESTS TO: ICC, Room 305, 76 Pearl St., Portland, ME 04111.

MC 145870 TA, filed December 13, 1978. Applicant: L-J-R HAULING, INCORPORATED, P.O. Box 699, Dublin, VA 24084. Representative: Wilmer B. Hill, 805 McLachlen Bank Building, 666 Eleventh Street, N.W., Washington, D.C. 20001. (1) *Mining machinery and equipment, and parts* for such commodities, and (2) *materials, equipment and supplies* used in the manufacture and installation of mining machinery and equipment (except commodities in bulk), between the facilities of Long-Airdox Company, at or near Pulaski, VA and Rural Retreat, VA, on the one hand, and, on the other, points in AL, AR, CO, IL, IN, KY, MD, OH, OK, PA, TN, VT, VA, WV, and WY for 180 days. Applicant has also filed an underlying application seeking up to 90 days of emergency temporary authority. Supporting shipper: Long-Airdox Company, P.O. Box 1231, Pulaski, VA 24301. Send protests to: Mr. Paul D. Collins, District Supervisor, Interstate Commerce Commission, 10-502 Federal Bldg., 400 North Eighth Street, Richmond, VA 23240.

By the Commission.

H. G. Homme, Jr.,
Secretary.

[Exception No. 11 under Section (a), Paragraph (1), Part (v) Second Revised Service Order No. 1332]

SOUTHERN PACIFIC TRANSPORTATION CO.

Decided: January 9, 1979.

By the Board:

Because of traffic interruptions and power problems, the Southern Pacific Transportation Company (SP) is temporarily unable to forward all cars within 60 hours as required by Section (a)(4)(i) of Second Revised Service Order No. 1332.

It is ordered, Pursuant to the authority vested in the Railroad Service Board by Section (a)(1)(v) of Second Revised Service Order No. 1332, the SP is required to forward loaded cars or empty foreign or private cars from the points named below within 72 hours.

SP

Houston, Texas, San Antonio, Texas, El Paso, Texas, Tucson, Arizona.

Effective: January 9, 1979.

Expires: 11:59 p.m., January 15, 1979.

Robert S. Turkington,
Acting Chairman,
Railroad Service Board.

1

[M-190-Amdt. 1; Jan. 15, 1979]

CIVIL AERONAUTICS BOARD.

Notice of addition of items to the January 18, 1978, meeting agenda.

TIME AND DATE: 10 a.m., January 18, 1979.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT:

6a. Docket 29968, *Louisville Service Case*—Tentative opinion and order disposing of deferred issues. (Memo 6240-D, OGC.)

9a. Docket 33105, Braniff's application for a further extension of its Las Vegas-Reno exemption. (Memo 8122-F, OGC.)

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: Although work on Item 6a was completed and it was circulated to Board Members on December 11, 1978, it was not received by the Secretary's Office until after the December 18, 1978, calendar had been closed. Item 9a is being added because Braniff's exemption expires after January 18, 1979. Accordingly, the following Members have voted that agency business requires the addition of Items 6a and 9a to the January 18, 1979, agenda and that no earlier announcement of these additions was possible.

Chairman Marvin S. Cohen
Member Richard J. O'Melia
Member Elizabeth E. Bailey
Member Gloria Schaffer

[6320-01-M]

2

[M-190 Amdt 2; Jan. 15, 1979]

CIVIL AERONAUTICS BOARD.

Notice of deletion of item from the January 18, agenda.

TIME and DATE: 10 a.m., January 18, 1979.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: (9). Dockets 33580, 33629, 33672, 33821, 33863, 33878, and 33997; applications for certificate amendments nonstop Denver-Detroit authority in the following: Frontier, Braniff, Northwest, Allegheny, Continental, American, and Ozark (memo 8423, BPDA, OGC).

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: The staff needs additional time in order for further revisions. Accordingly, the following Members have voted that agency business requires the deletion of Item 9 from the January 18, 1979, agenda and that no earlier announcement of this change was possible:

Chairman Marvin S. Cohen
Member Richard J. O'Melia
Member Elizabeth E. Bailey
Member Gloria Schaffer

CHESAPEAKE BAY, COVE POINT, MARYLAND

Safety Zone Regulations

V 4 4 - 1 3

[4910-14-M]

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Port 165]

[CGD5-78-06R]

CHESAPEAKE BAY, COVE POINT, MD.

Safety Zone Regulations

AGENCY: Goast Guard, DOT.

ACTION: Proposed Rule.

SUMMARY: The Coast Guard proposes to establish a safety zone in the vicinity of the Columbia LNG Corporation's offshore liquefied natural gas (LNG) receiving terminal near Cove Point, Maryland. This safety zone is proposed to minimize the risk of collision between LNG carriers and other vessels while they are maneuvering in the vicinity of, or moored to, the offshore terminal. This additional precautionary measure is deemed necessary in consideration of the nature and quantity of the liquefied natural gas cargo involved and the limited ability of the LNG vessels to take evasive action when maneuvering to approach or depart the offshore terminal. This proposed safety zone regulation would require persons to comply with the general safety zone regulations contained in 33 CFR Part 165.20, which prohibit persons from entering or remaining in the safety zone without authorization from the Captain of the Port. This safety zone is in effect at all times. The exact parameters of the zone are dependent upon whether an LNG vessel is moored to; maneuvering in the vicinity of; or is not present at the Columbia LNG offshore terminal. Mariners will be provided advance notice of scheduled arrivals and departures of LNG vessels calling at the Cover Point terminal via Broadcast Notice to Mariners.

DATES: Comments must be received on or before March 5, 1979.

ADDRESSES: Comments should be submitted to the Captain of the Port, Customhouse, Baltimore, Maryland 21202. Comments will be available for examination at the office of the Captain of the Port, Room 333, Customhouse, Gay and Lombard Streets, Baltimore, Maryland.

FOR FURTHER INFORMATION CONTACT:

Lieutenant Commander Eric J. Williams III, Chief, Port Operations, Department, Marine Safety Office, Customhouse, Baltimore, Maryland 21202. (301-752-3573)

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, data, or arguments. Each person submitting a comment should include his name and address, identify the notice (CGD5-78-06R and the specific section of the proposal to which his comment applies, and give reasons for his comment. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal. No public hearing is planned but one may be held at a time and place to be set in a later notice in the FEDERAL REGISTER if requested in writing by an interested person raising a genuine issue and desiring to comment orally at a public hearing.

DRAFTING INFORMATION

The principal persons involved in drafting this proposal are: Lieutenant D. G. BRATTON, Port Safety Branch of the Marine Safety Division, and Lieutenant M. P. TROSETH of the office of the District Legal Officer, Fifth Coast Guard District.

DISCUSSION OF THE PROPOSED RULE

This proposed safety zone is intended to be part of an overall safety program implemented by the Captain of the Port, Baltimore, Maryland to enhance the safety of liquefied natural gas operations on Chesapeake Bay. The Coast Guard promulgated regulations which set forth the procedures for the establishment of safety zones for the protection of vessels, structures, and water and shore areas. These regulations also provide for publishing specific safety zones when they have a continuing application (33 CFR Part 165, 42 FR 63369). This safety zone is in effect at all times, whether an LNG vessel is or is not moored to the Columbia LNG Corporation's offshore terminal; when an LNG vessel is maneuvering in the vicinity of the offshore terminal; or when an LNG vessel signals its intention to depart from the offshore terminal. All marine traffic in the vicinity would be prohibited from entering or remaining in this safety zone without authorization from the Captain of the Port, Baltimore, Maryland. Mariners will be provided notice of scheduled arrivals and departures of LNG vessels calling at the Cove Point terminal via Broadcast Notice to Mariners.

This proposed safety zone is to be established in the immediate vicinity of the Columbia LNG Corporation's offshore receiving terminal near Cove Point, Maryland. This offshore structure is located approximately one mile from the western shore of Chesapeake Bay, and is designed to accommodate a maximum of two LNG vessels simultaneously. The vessels that use this facility are approximately 925 feet in length and operate at a draft of approximately 36 feet. Both the size of these vessels and the significant "sail areas" presented by their above-water hull configurations require the masters to exercise delicate handling skills when maneuvering in the vicinity of the offshore terminal, thereby limiting their ability to take evasive action to avoid other traffic while conducting these maneuvers. The waters surrounding the offshore platform are utilized by both commercial and sport fishermen, as well as by general recreational boaters. The establishment of this safety zone would enhance the safety of all watermen operating in this area.

This safety zone covers a small area and therefore it should not cause undue hardships to local fishermen and watermen. The size and configuration of this safety zone were chosen after consultations by the Captain of the Port, Baltimore with representatives of various state and local agencies and local watermen associations. The Coast Guard is proposing this safety zone both because if affords ample maneuvering room for the LNG vessels and because its application is limited to only those situations when hazardous conditions are deemed to exist. The Columbia LNG Corporation received its initial shipment of LNG at its Cove Point terminal in March 1978. For that and subsequent vessel arrivals, the Captain of the Port, Baltimore, has exercised his authority under 33 CFR 165 by establishing, on each occasion, a temporary safety zone describing the identical location and conditions contained in this notice of proposed rulemaking. Interested persons who have communicated with the Captain of the Port, Baltimore have voiced general approval of the safety zone. The Coast Guard has determined that establishing this safety zone, which has continuing application, would enhance its effectiveness through greater dissemination.

This regulation has been reviewed under DOT notice 78-1 "Improving Government Regulations" (43 FR 9582) and a draft evaluation has been prepared and is available for public inspection at the fifth district address indicated above.

An environmental assessment has been completed and an initial determination has been made that this proposed action would result in no adverse impact on the quality of the human environment.

In consideration of the foregoing, it is proposed to amend Part 165 of Title 33 Code of Federal Regulations by adding § 165.—, to read as follows

§ 165.— Cove Point, Chesapeake Bay, Maryland.

(a) The waters and waterfront facilities located within the following boundary constitute a safety zone effective when an LNG carrier is maneuvering in the vicinity of the Cove Point terminal and when a moored LNG carrier indicates its intention to get underway; a line beginning at a point one-half mile NW of the end of the north pier of the Columbia LNG facility at Cove Point, Maryland, located at 38°24'43" N latitude, 76°23'32" W longitude; thence 056°T to a point 2800 yards off shore at 38°24'59" N latitude, 76°23'01" W longitude; thence 146°T to a point located 2300 yards off shore at 38°23'52" N latitude, 76°22'03" W longitude; thence 236°T to a point one-half mile SE of the end of the south pier of the Columbia LNG facility at Cove Point, Maryland, located at 38°23'39" N latitude, 76°22'35" W longitude; thence north westerly to the point of origin.

(b) The waters and waterfront facilities located within the following boundary constitute a safety zone when an LNG carrier is moored at the receiving terminal: the area within 200 yards of the moored LNG carriers at the Columbia LNG offshore terminal, Cove Point, Maryland. Regardless of whether one or two LNG vessels are moored, the safety zone will extend 50 yards on the shoreside of the offshore terminal.

(c) The waters and waterfront facilities located within the following boundary constitute a safety zone when no LNG carrier is moored at the receiving terminal: the area within 50 yards of the Columbia LNG Corporation offshore terminal, Cove Point, Maryland.

(d) The general regulations governing safety zones as contained in 33 CFR 165.20 apply.

(86 Stat. 427 (33 USC 1224); 49 CFR 1.46), as amended by Section 2 of the Port and Tanker Safety Act of 1978 (Pub. L. 95-474).

J. W. KIME,
Captain, U.S. Coast Guard, Captain of the Port, Baltimore, Md.

NATIONAL VOLUNTARY LABORATORY ACCREDITATION PROGRAM

Test Thermal Insulation Materials; General and Specific Criteria, and Fees and Charges

V 4 4 / 1 3 J A 1 8 7 9 UMI

[3510-13-M]

DEPARTMENT OF COMMERCE

Office of the Secretary

NATIONAL VOLUNTARY LABORATORY ACCREDITATION PROGRAM

Final General and Specific Criteria for Accrediting Laboratories That Test Thermal Insulation Materials

AGENCY: Assistant Secretary of Commerce for Science and Technology.

ACTION: Announcing the final general and specific criteria that laboratories which test thermal insulation materials must meet in order to be accredited under the provisions of the National Voluntary Laboratory Accreditation Program.

SUMMARY: Pursuant to the Procedures for a National Voluntary Laboratory Accreditation Program (NVLAP) (15 CFR Part 7), this notice contains the text of the final general and specific criteria to be used by the Secretary of Commerce (Secretary) in accrediting testing laboratories that voluntarily request such accreditation under the National Voluntary Laboratory Accreditation Program for Thermal Insulation Materials (NVLAP-1). These final criteria are based upon criteria proposed in the FEDERAL REGISTER on September 29, 1978 (43 FR 45290-45297), and include modifications to the proposed criteria in response to comment from the public. The evaluation of these public comments and the recommendations of the National Laboratory Accreditation Criteria Committee for Thermal Insulation Materials (NLACC-1) submitted to the Assistant Secretary of Commerce for Science and technology on December 18, 1978, provided valuable guidance in arriving at the final criteria.

These final criteria do not differ from the proposed criteria in any significant way. The Notes following Criteria G1 and S1 were modified so as to make it clear that the on-site examiner, upon visiting a laboratory, may compare resumes of key persons with resumes and job descriptions provided by the testing laboratory in response to the requirements of sections G1.1.6 and S1.1 of criteria. The purpose of this comparison will be to assure that the laboratory is staffed with personnel competent in the principles and practices of measurement in the area in which accreditation is sought. Section G2.1.4 was changed to make it clear that the laboratory is expected to have a procedure to respond to complaints about test results. Although these procedures may vary among the various accredited laboratories, NVLAP will establish its own uniform procedures to respond to complaints which it receives about accredited laboratories. The note following section 4 of Criterion S4 was also expended to make it clear that a laboratory accredited for a specific test method must also be accredited for all other test methods in the NVLAP program which are used to obtain data necessary to complete the specific test method.

In addition to these modifications of the criteria proposed on September 29, 1978, several paragraphs have been added at the beginning of the criteria which contain instructions for making application for accreditation and describe the conditions related to examination of the laboratory, fees to be paid by the laboratory, and limits on the laboratory in publicizing the laboratory's NVLAP accreditation as specified in section 7.7(c) of the NVLAP procedures (15 CFR Part 7). Several paragraphs have also been added at the end of criteria in order to clearly identify the requirements applicable to proficiency sample testing.

Finally, Appendix 1 of the proposed criteria was clarified and amplified. Several test methods, dealing primarily with tests for cellulose insulation, were added to the program. The data presented in Appendix 1 are supplemental to the criteria, clarifying the application of the criteria to thermal insulation materials. As such, they are part of the operating process of the program and not part of the criteria. As this NVLAP program is implemented, it may be necessary to change some of the stated values for precision and accuracy of each test method, modify proficiency sampling programs, or to make other adjustments to the material in Appendix 1 in response to changes in the state-of-the-art. When such changes are developed they will be published in the FEDERAL REGISTER and made effective immediately upon publication.

DATES: These final criteria shall go into effect on (please insert the date which is 30 days from the date this notice will appear). Laboratories which complete their application for accreditation and submit their fee by February 28, 1979 will be included among the first group of laboratories to be evaluated for accreditation under NVLAP procedures. Applications received after this date will be included in a second group of laboratories to be evaluated six months to one year later.

FOR FURTHER INFORMATION CONTACT:

Dr. Howard I. Forman, Deputy Assistant Secretary for Product Standards. Room 3876, U.S. Department of Commerce, Washington, DC 20230; (202) 377-3221.

SUPPLEMENTARY INFORMATION: On September 29, 1978, the Department of Commerce (Department) announced in the FEDERAL REGISTER (43 FR 45290-45297) the issuance of proposed criteria for accrediting testing laboratories that test thermal insulation materials. On the same day in a separate FEDERAL REGISTER notice (43 FR 45298) the Department issued the proposed schedule of estimated fees that laboratories would be charged if they want to become accredited. Information on fees was provided to enable a laboratory to more completely evaluate the proposed criteria.

Persons desiring to comment on the proposed criteria were invited to submit their comments to the Assistant Secretary for Science and Technology on or before November 13, 1978. Fourteen respondents submitted written statements during the comment period. Their statements are part of the public record and are available for inspection and copying in the Department's Central Reference and Records Inspection Facility, Room 5317, Main Commerce Building, 14th Street between Constitution Avenue and E Street, N.W., Washington, DC 20230.

Persons desiring to present views at an informal hearing on the proposed criteria were invited to request such hearings. No such requests were received and, accordingly, no hearings were held.

The issues raised by the public comment in response to the notice of proposed criteria were addressed by the NLACC-1 in an open meeting on December 8, 1978. The Committee's report entitled "Report of Evaluation and Recommendations with Respect to Comments Received from the Public on the Proposed Criteria for Accrediting Testing Laboratories that Test Thermal Insulation Materials" was presented to the Assistant Secretary for Science and Technology on December 18, 1978 and is available for inspection and copying in the Departmental Central Reference and Records Inspection Facility mentioned above.

EVALUATION OF COMMENTS

A total of 14 issues were raised in response to the criteria as proposed. Eight issues relate directly to the criteria for accrediting laboratories. The six other issues relate to the operating process of NVLAP, including the content of Appendix 1 of the proposal which is not part of the criteria. The criteria and Appendix 1 have been revised to respond to a number of the comments. Further revisions to Appendix 1 may be necessary as the program is implemented. When such revisions are developed, they will be published in FEDERAL REGISTER and made effective immediately upon publication.

ISSUES RELATED TO THE CRITERIA

1. Should the names and resumes of laboratory personnel be required in evaluating a laboratory's capability? Two respondents agreed with the criteria as proposed in that names and resumes of key laboratory personnel need not be provided, while three other respondents expressed the belief that such a requirement is appropriate if restricted to a limited number of personnel. This issue remains controversial. Some of the Committee members expressed concern that if names and resumes are required, individuals could be "black listed", while others were concerned that, without resumes, the personnel function cannot be effectively evaluated pursuant to Criterion S1. Criteria and examination methodology from six existing laboratory accreditation programs were reviewed. In most of these, the submission of resumes describing the technical background, expertise, and competence of the laboratory staff is required. However, without criterial which specify minimum levels of educational attainment, professional recognition (e.g. "professional engineer"), and a requisite number of years of working experience, the evaluation of a laboratory's staff would be subjective. In response to the recommendations of the Criteria Committee, Criteria G1 and S1 continue to state that either resumes or position descriptions may be supplied to meet this requirement. Moreover, the notes following Criteria G1 and S1 make clear that during on-site evaluation, personnel backgrounds of incumbent laboratory personnel will be compared to corresponding position descriptions or resumes supplied by the laboratories in response to the questionnaire. Also Appendix 2 has been added as a guide showing the type of information which a laboratory should supply in resumes or position descriptions.

2. May unaccredited laboratories be used by accredited laboratories as subcontractors? Two respondents indicated that the possible use of subcontractors by accredited laboratories for the performance of test methods included in the program was unclear. Using test methods in the NVLAP program as examples, one respondent described how a laboratory accredited for a second test method might use as input data to this second test method data provided by a subcontractor using a first test method. At issue is whether NVLAP accredited testing laboratories would have to be used as a subcontractor or whether unaccredited laboratories could be used. In such a situation, the Committee recommended that the laboratory accredited for the second test method should also be accredited for all other test methods used to obtain input data.

The Committee further suggested that if an accredited laboratory obtains data from an unaccredited laboratory for a test method that was included in the program, the accredited laboratory's client should be so notified. It was recognized that problems associated with the repeated testing of products are related more to a certification of the product than to NVLAP recognition of a laboratory through accreditation. Thus, it was recommended that an accredited laboratory should be allowed to subcontract to an unaccredited laboratory any tests for which the former laboratory itself is accredited, provided its clients were so notified. However, subcontracting for test specimen preparation and for determining intermediate values (except where such intermediate values are obtained from a test method included in the NVLAP program) should not require notification of the laboratory's clients if there is compliance with provisions of section S4.2 of the criteria.

The note after section S4.2 of the Criteria has been changed in response to the Committee's recommendations.

3. Should only independent laboratories be included in NVLAP? Three respondents addressed the independence of laboratories and the related conflict of interest issue. One respondent felt that only commercial independent laboratories should be accredited. Another respondent suggested that sections G3.3 and G3.4 of the criteria should be strengthened to minimize possible conflict of interest and to provide a means of validating that independent actions are actually made. However, another respondent expressed the belief that sections G3.3 and G3.4 are fair to both independent and in-house laboratories and therefore should remain unchanged.

Section 7.7(e)(1) of the NVLAP procedures explicitly states that, "No action will be taken or criteria developed that would prohibit the accreditation of a testing laboratory solely on the basis of that laboratory's association or nonassociation with manufacturing, distributing, or vending organizations . . ." The criteria as proposed are consistent with the above quoted prohibition. Moreover, if the actions of an accredited laboratory are not in accord with the submitted evidence of the "independent decisional relationship" requirements of sections G3.3 and G3.4 of the criteria, appropriate action including deaccreditation may be taken. The Committee's recommendation against changing sections G3.3 and G3.4 has been accepted.

4. How will proficiency testing be used in the program? One respondent indicated that the frequency of proficiency testing is not clear in the proposed criteria and suggested that such testing be carried out at least yearly. This respondent added that the proposed criteria do not establish a relationship between proficiency testing and the establishment of protocols for assuring that the requisite precision and accuracy figures cited in Appendix 1 are achieved. Also, this respondent expressed the belief that guidelines and requirements concerned with the conduct of these proficiency tests must be included in the final criteria document. A better description of the operation of the proficiency testing program is indeed needed.

In response to the recommendations of the Committee, this issue has been addressed in the criteria under a separate heading and a new table (Table 2) has been added to Appendix 1 showing those test methods currently subject to proficiency testing and the frequency of such tests. It is the intent of the National Bureau of Standards (NBS) which is responsible for evaluating the testing laboratories to use Collaborative Testing Services, Inc. (CTS), a nonprofit organization currently cosponsoring collaborative reference programs with NBS, to conduct the proficiency testing programs. Enrollment in the NBS-CTS Collaborative Reference Program for the test methods shown in Table 1 of Appendix 1 and the successful attainment of the precision and accuracy shown will be accepted as fulfilling the proficiency testing requirements of NVLAP-1. This does not preclude the use of other collaborative reference programs or existing proficiency testing programs for the test methods involved if appropriate arrangements can be completed with NBS. The Committee also raised a question with regard to materials used in conducting corrosion tests. For example, metal coupons (strips) employed for evaluating corrosion require removal of protective coatings before use. However, if such a coating is not removed properly, inaccurate results may be obtained. It was suggested that, if proficiency tests are planned, chemical coating removers should be supplied with the metal coupons and the proficiency sample insulation materials. NBS will give careful consideration to this operational recommendation as the state-of-the-art develops.

5. Should modifications to the test methods be allowed? Two respondents commented on the provisions of the proposed criteria allowing for noncritical modifications of equipment or facilities and noncritical varitions in the test procedures as long as test result are not degraded. One respondent suggested that judgments regarding whether such modifications and variations are "noncritical" should be

V 4 4 / 1 3 J A 1 8 7 9 UMI

relegated to the responsible standards development groups. The other respondent suggested that a section be added to Criterion S2 encouraging participation in professional societies and continuing education as ways of maintaining current knowledge thereby maintaining capability to make appropriate judgments. The Committee discussed this subject in depth in one of its earlier meetings and had concluded that, although in some instances it may be very difficult to determine what is noncritical, knowledgeable NVLAP on-site evaluators and proficiency testing should be adequate to evaluate these modifications. There appears to be no need to specify particular requirements, such as continuing education or society participation, for maintaining required competence. Accordingly, the Committee's recommendation that no change be made to the criteria has been accepted.

The Department believes it is appropriate at this point to stress, that under § 7.7(e)(5) of the NVLAP procedures, any written information supplied in response to these criteria and Criterion S2 in particular will not be considered confidential business data, trade secrets, or proprietary information.

6. Are the requirements for written information too extensive? Two respondents addressed the requirements for written information. One respondent stated that there appears to be excessive written compliance information which is either repetitious or only remotely related to a laboratory's competence. The other respondent suggested that NVLAP examiners, during on-site examinations, should concentrate on the actions taken by the laboratory to implement that procedure and to provide the written information, and should observe actual calibration tests on selected test equipment.

There may very well be some unnecessary overlap in the criteria. However, different characteristics of the laboratory are being assessed and the evaluation is being approached from different standpoints. Nonetheless, as explained in the notice of the proposed criteria, duplication of information is not required; a simple cross reference would be sufficient. Change in the criteria may be appropriate after experience has been gained. NVLAP examiners are expected to use all appropriate means to verify that the laboratories implement test procedures properly and prepare appropriate written information. The Committee's recommendation that no change is deemed necessary at this time has been accepted.

7. Should uniform appeal procedures be established? One respondent suggested that there should be a unified complaint handling procedure to be established by NBS for contesting test results. Criterion G2.5.6 refers to the complaint handling procedures established by the laboratory to respond to complaints it receives. Any complaints made to NBS and the Department relative to a laboratory will be handled under a single unified procedure. It does not appear to be necessary to require each laboratory to handle complaints to it in the same way. In response to the Committee's recommendation, the Note at the end of Criterion G2 has been modified to clarify the intent of the criterion.

8. Should the time within which it is necessary to notify NVLAP of changes in the laboratory be increased? One respondent expressed the belief that the costs for reporting of changes will be excessive if a 30-day notification period and a 45-day implementation period is adopted as specified in Criterion G4. This respondent recommended a 120-day notification period and a 180-day implementation period. A delay of 120 days before notification of changes was excessive in the view of the Committee. In response to the Committee's recommendations, deadlines for reporting and implementing changes remain as specified in the proposed criteria.

ISSUES RELATED TO THE PROGRAM OPERATIONS (INCLUDING APPENDIX 1)

9. Should additional test methods be included in this laboratory accreditation program? A number of respondents expressed concerns about the apparent omission from the program of test methods contained in certain product standards (e.g., test methods in product standard ASTM C739, General Services Administration Specification (GSA) HH-I-515, and cellulose insulation standards published by the Consumer Product Safety Commission (CPSC)). Several other test methods were also suggested for inclusion in NVLAP-1.

The requestor of this program identified specific product standards and test methods covering the following five properties of thermal insulation materials:

1. Thermal properties;
2. Dimensions, stability and density properties;
3. Strength properties;
4. Fire properties; and
5. Properties of vapor barriers.

The requestor did not identify tests in the areas of corrosiveness and odor emission contained in C739. Standard ASTM C739 was included as a relevant standard, however, in the final finding of need for the program as published on October 12, 1977 (42 FR 55020-55024). The following ASTM standard test methods listed in that standard are included in NVLAP-1: C177, C518, C236, C687, C519, C591, and E84.

There are a number of test methods contained integrally in ASTM C739 and several other product standards which do not have an independent ASTM test method designation. During the second NLACC-1 meeting, it was reported that if all test methods contained in the specification standards but not identified as specific ASTM test methods were included in the program, some 80 additional test methods would be added to the program. NVLAP staff indicated that it intended to include in the program only the test methods which were explicitly requested.

In the comments received from the public, it was clearly pointed out that the test methods identified in ASTM C739 should be included in the program because of their use in mandatory standards being promulgated by the Consumer Product Safety Commission (CPSC). The Committee agreed that it was desirable to include test methods from ASTM C739 in the program. Specifically, this would mean that four test methods should be added to the program; (1) flame resistance; (2) corrosion; (3) moisture absorption; and (4) odor emission. The Committee, however, questioned the inclusion of the test method on odor because of the nature of that test.

The Committee also agreed that it was desirable to add test methods which are an integral part of the GSA specification HH-I-515 but which do not have a unique identification. Using the program provision that only the latest version of the standards and test methods would be included in NVLAP, the test methods in HH-I-515D which should be added to the program are for: (1) settled density; (2) smoldering combustion; (3) corrosion; (4) moisture absorption; (5) odor emission; (6) starch; and (7) fungus.

The tests for corrosion and moisture absorption in ASTM 739 and HH-I-515D are not identical and each would be added to the program. However, the Committee took cognizance of the difficulty in conducting the odor emission test according to the ASTM 739 procedures and the qualitative nature of both odor emission tests and recommended that the odor emission tests not be included in the NVLAP-1 at this time.

Some respondents also suggested that additional test methods contained in the CPSC standards be included in the program. These standards are based upon HH-I-515 although there are significant differences. Since a request to include CPSC standards was never a part of the final finding of need for this program, a formal request to include the CPSC standards should be made and in response to such request an extension to the finding of need would have to be made using the NVLAP procedures. However, it may be more practical for the CPSC to request that its standards be included using the optional NVLAP procedures (15 CFR Part 7B proposed on October 25, 1978, 43 FR 49812-49818) if and when these procedures become final.

The CPSC staff, in a comment on the proposed criteria, has requested that four test methods of interest to the CPSC be added to the program. The Committee suggested adding these methods to the program if at all possible when the final NVLAP criteria are published. The Department is concerned, however, about differences between some of the test methods as they appear in the iterim CPSC regulations and the proposed final CPSC regulations. For this reason, the Department believes that the most appropriate way to include CPSC requirements in the NVLAP Program is to ask the CPSC to clarify its intent with respect to all aspects of their relevant regulations and to make a request to the Department for inclusion of the CPSC requirements under provisions of Part 7B of the NVLAP procedures which are expected to be published in final form early in 1979.

In response to the Committee's recommendations, all test methods of ASTM C739 and of HH-I-515 not already included in the program will be added to the program with the exception of the test for odor emission.

In deciding which test methods were to be included in this program, it was reasoned that standard methods which were not referenced in the thermal insulation material specifications (standards) included in the final finding of need for the program would not be included in the program. For this reason, ASTM test method D1623 which the requestor originally identified was not included in the program. The final finding of need did not specifically address those test methods contained in the standards which do not have unique designations. In response to the recommendations of the Committee, ASTM D1623, D732, and E408 which a respondent suggested should be included will not be included in the program. ASTM test method D1622 is included in the program. (Unfortunately, due to a typographical error, this test method was shown incorrectly as 01/D18-ASTM D162 in the proposed criteria.)

At the suggestion of the Committee, an index has been added as Appendix 3 which identifies the formal designation and title of those test methods and recommended practices for which accreditation can be granted under NVLAP-1.

10. What should be the frequency of on-site examinations under the program? Three of four respondents who commented on this question indicated that two-year intervals plus or minus three months was adequate. However, the other respondent suggested that inspections should occur every 12 months. Concern for the magnitude of fees in relation to the frequency of on-site examination was given as one reason why a two-year interval would be more appropriate since the cost of the program for the laboratories will depend upon the frequency of on-site examinations. If the fees and charges become too great, few laboratories will apply and accordingly there would be a possibility that there will be no program. Less frequent examinations may result in a reduction in credibility of the program although the magnitude of any such reduction is unpredictable. More frequent examination would provide a check to ensure that the latest versions of the test methods are being used. In the proposed fee structure which was published in the FEDERAL REGISTER notice on September 29, 1978 (43 FR 45298), it was assumed that a "typical" laboratory involved in the program would request to be accredited for nine test methods at a cost of $1,225 per year if examined every two years (including the costs of the proficiency tests). The costs of unannounced visits to one-third of the laboratories in the program was estimated to be six percent of the cost. If the on-site examination were performed every year and unannounced visits were eliminated, the fees would almost double if it were necessary to complete all elements of the evaluation. In actual practice, some additional costs could be saved since a complete evaluation (evaluation of all the data about the laboratories) would not have to be done every year. In response to the recommendations of the Committee, NVLAP will conduct examinations annually for the first two years in which a laboratory is enrolled in the program and biannually thereafter. NVLAP will also retain provisions for random, unannounced visits to accredited laboratories as presently stated in the proposed criteria, particularly for cases where poor proficiency test results suggest a potential problem.

11. Should the stated precision and accuracy of test results be changed? Three respondents expressed concern about the precision and accuracy of test results that are stated in Appendix 1 to the proposed criteria. One respondent suggested deletion of the precision and accuracy requirements and a clarification of the definitions of various terms used in Appendix 1. Another respondent suggested that the accuracy limit for 01/D13-ASTM C519 should be changed to plus or minus five percent rather than the stated plus or minus two percent. The third respondent suggested that Appendix 1 should be revised to convey recommended repair and preventive maintenance cycles for each piece of equipment covered by the test methods because proper repair and maintenance are critical to the production of accurate data. Precision and accuracy values will be particularly important for those test methods where proficiency samples are used. The values suggested in Table 1 are the best available at this stage in the program. Changes to some values may be appropriate as experience is gained in implementating the program. In some instances, the values are specified in the product standards themselves and are not likely to change. Values for precision and accuracy are provided for many of the test methods even though proficiency tests are not being required for these methods. Such values are meant as guides or goals for the laboratory.

With regard to 01/D13-ASTM C519, the target values of plus or minus two percent were intended for classifying "good" laboratories. Limints approximately 50 percent greater (± three percent) define "acceptable" laboratories for this aspect of NVLAP accreditation. It was also pointed out that part of the reason that five percent limits were suggested by the respondent is that the materials tested may not be homogeneous, thereby accountin for part of the deviation. It was recommended that limits of plus or minus two percent for "good" laboratories, based on the use of homogeneous materials, was appropriate. The Committee did not believe that repair and maintenance schedules were necessary for inclusion in the criteria since actual performance of the laboratory was being monitored through periodic proficiency testing and on-site examinations. In response to the Committee's recommendations, the accuracy limit of plus or minus two percent of 01/D13-ASTM C519 was retained. A clarification of how precision and accuracy requirements will be used is included in the portion of this criteria labeled Proficiency Testing.

12. Which versions of test methods are included in the program? Two repondents suggested that Appendix 1 should contain a clear statement to the effect that the latest versions of the test methods shall be applicable. The Committee agreed and in response to its recommendation, such clarification has been added to Appendix 1.

13. Will full fees and charges be paid by a laboratory participating in successive NVLAP programs? One respondent requested a clarification with respect to the fees and charges. Specifi-

V 4 4 / 1 3 J A 1 1 8 7 9 UMI

cally, will a laboratory which seeks accreditation for a number of products be required to pay the fixed charge for each product area? The Department believes that charging full fees for each of several programs a laboratory may participate in is not appropriate. As successive NVLAP programs are established, it is the Department's intent to eliminate the duplication of data and to consolidate visits to a laboratory thereby keeping fees to a minimum. It is the policy of NVLAP to accredit laboratories as inexpensively as possible without compromising the effectiveness of the program.

14. Should examiners and evaluators be exclusively government employees? Two respondents commented on issues related to the use of examiners and evaluators. One respondent suggested that the major emphasis of the program should be geared toward on-site peer examination with frequent proficiency testing. The other respondent expressed the belief that examiners and evaluators be full-time government employees in order to insure uniform evaluation. Peer evaluation is a long term goal of the program. When a group of peers is identified and trained so as to ensure consistent evaluation, more emphasis will be placed on this approach. In the interim, the program will use full-time government employees or contract employees who have specific evaluation skills. Although the program will strive for uniform evaluation, it is not necessarily true that using all full-time government employees will ensure such uniformity. NVLAP should be open in the long term to the use of contractor services and other methods of providing on-site examination and evaluation. The Committee recommended that no change in the operating process was necessary at this time, and its recommendation has been accepted.

Laboratory Accreditation Criteria

The final general and specific criteria to be used to accredit laboratories which test thermal insulation materials under the National Voluntary Laboratory Accreditation Program (NVLAP) of the Department of Commerce are contained in the following paragraphs. These criteria have been developed in compliance with the NVLAP procedures (15 CFR Part 7) and form the basis for accrediting testing laboratories which voluntarily request such accreditation.

Instructions for Making Application. Any testing laboratory which desires accreditation as a NVLAP accredited laboratory testing thermal insulation materials using one or more of the test methods in the program may request such accreditation from the Assistant Secretary of Commerce for Science and Technology, Department of Commerce, Washington, DC 20230. Each request will be acknowledged upon receipt, and will be forwarded to the National Bureau of Standards (NBS) for further action. NBS will transmit materials describing the program and an application form which will allow the requesting laboratory to identify the specific test methods for which it desires accreditation. When the requesting laboratory returns the completed application and requisite fees, it becomes an official applicant in the program.

Basic Conditions for Accreditation. In order for a laboratory to be accredited under these NVLAP procedures, it must, among other things, agree to the following basic conditions:

1. It must submit to examination and audit procedures established for the program initially and on a continuing basis;

2. It must pay accreditation fees and charges; and

3. It must avoid reference by itself and forbid others utilizing its services from referencing its accredited status in consumer media and in product advertising or on product labels, containers and packaging or the contents therein.

In addition, the applicant laboratory must recognize that compliance by testing laboratories with these general and specific criteria and accreditation of a laboratory by the Secretary shall in no way relieve such laboratory from the necessity of observing and being in compliance with existing Federal, State and local statutes, ordinances, and regulations that may be applicable to the operation of such laboratory, including consumer protection and anti-trust laws.

This accreditation program consists of three distinct operations. First, the laboratory submits written information in response to a questionnaire based on the requirements of the general and specific criteria. These written responses are evaluated, and if the laboratory is judged to meet the criteria based on these responses, an on-site examination is arranged. The second operation is to conduct an on-site examination of the laboratory with appropriate equipment to compare the observed characteristics of the laboratory with written information submitted by the laboratory and with the criteria. The third operation is to arrange for and obtain data from proficiency tests which are part of the program. An evaluation of the written information, the on-site examiners' assessment, and proficiency testing data all taken together will form the basis for making a decision about whether or not to accredit a specific laboratory.

General Criteria. For initial accreditation and continued accreditation, an applicant laboratory shall provide the information listed below for the general product and testing areas for which accreditation is sought. This information will be formally requested on a questionnaire sent to each applicant testing laboratory upon receipt of that laboratory's application and requisite fees and will be verified by on-site examiners.

A single or double asterisk preceding a section number signifies that the section must be included in quality control procedures as explained in section G2.6.

Criterion G1. *The laboratory has an organizational structure that enables it to develop and maintain a testing capability to perform satisfactorily the functions for which accreditation is sought.*

G1.1 A description of the laboratory's organization including:

*G1.1.1 The complete legal name and address of the main office, or parent company if part of a larger organization;

*G1.1.2 The name and location of the laboratory if different from that stated in G1.1.1;

G1.1.3 A general description of the laboratory, including, its equipment and facilities;

G1.1.4 The laboratory's and parent company's (if any) principal ownership and management structure, including the names and positions of the principal officers and board of directors;

*G1.1.5 An outline or chart showing the titles or positions of all key management and supervisory personnel in each operating, support, and service unit in the laboratory's functional organization, and their reporting relationships relative to this accreditation request;

**G1.1.6 The names and resumes of the individuals assigned to each of the positions identified in G1.1.5 or the personnel requirements for the individuals occupying those positions.

G1.2 A listing of the relevant technical services performed.

*G1.3 A list of test method standards for which accreditation is sought, showing the approximate number of times each test is performed per year.

*See sections 2.6.1 and 2.6.2 for meaning of asterisks.

NOTE.—This criterion and its sections require a relatively straightforward description of the testing laboratory. An evaluator will review written information supplied by the laboratory in response to this criterion for appropriate definition of authority and responsibility, for the personnel qualifications, and for consistency between services offered and personnel and facilities available. An on-site examiner will verify the responses to the questionnaire regarding the laboratory's facilities and organization, will compare resumes of personnel with personnel requirements submitted by the laboratory, and will conduct other appropriately

related examinations. Appendix 2 is provided as a guide to applicant laboratories for reporting the requirements for management and technical personnel involved in the testing area for which accreditation is sought. The examples given in Appendix 2 are guides to the type of information desired and should not be interpreted as minimum or even typical requirements for personnel in this program.

Criterion G2. *The laboratory has and maintains a quality control system to assure the technical integrity of its work.*

**G2.1 A description of the laboratory's system for auditing and monitoring its test work, including procedures for:

**G2.1.1 Preventing or reducing testing errors and discrepancies;

**G2.1.2 Identifying and correcting known errors and discrepancies;

**G2.1.3 Specifying the frequency and the sample size (quantity) of the audit sampling of the test results of testing personnel.

**G2.1.4 Obtaining tracing the validity of, and responding to complaints and charges received by the laboratory about the quality of its test work.

**G2.2 A description of the laboratory's system for insuring that all test equipment and reference standards are calibrated or verified to the requisite degree of accuracy including procedures for:

**G2.2.1 Maintaining written descriptions of the standardization (calibration and verifications) procedures for all test equipment and reference standards;

**G2.2.2 Maintaining standardization records, including:

(a) Equipment, description or name,
(b) Name of manufacturer,
(c) Model, style, and serial number or other identification,
(d) Equipment variables subject to standardization,
(e) Range of operation and range of standardization,
(f) Resolution of the instrument and allowable error tolerances on readings,
(g) Standardization schedule (intervals),
(h) Date and result of last standardization and date of next standardization,
(i) Name of laboratory person or standardization service providing the above standardization,
(j) Traceability to NBS or other authority as required;

**G2.2.3 Insuring that all test equipment is recalled periodically for verification and/or recalibration.

**G2.3 A description of the laboratory's system for assuring that all equipment and facilities are properly maintained (e.g., routine operational checks and upkeep, maintenance of instructions for equipment operation and repair, power sources, electricity, and gases).

**G2.4 A description of the laboratory's system for controlling the flow of work, including procedures for at least the following:

**G2.4.1 Specifying workflow from reception to reporting;

**G2.4.2 Specifying the functions to be performed at each step along the workflow path;

**G2.4.3 Data recording, processing and reporting;

**G2.4.4 Selecting specimens for testing;

**G2.4.5 Retention or disposal of specimens tested.

**G2.5 A description of the laboratory's system for maintaining records, including records of:

**G2.5.1 Test reports;

**G2.5.2 Data generated during testing;

**G2.5.3 Receiving, shipping and disposal of test samples;

**G2.5.5 Personnel (including training);

**G2.5.6 Complaints contesting results.

G2.6 A copy of the laboratory's quality control manual or procedures which should:

G2.6.1 Explicitly include information required by sections of these general specific criteria preceded by a single asterisk (*);

G2.6.2 Clearly state where in the laboratory is maintained the information required by sections of these general and specific criteria preceded by a double asterisk (**), or explicitly include this information.

G2.6.3 Explicitly include the procedures to be followed for maintaining the manual current and the name or title of the person responsible for implementing those procedures.

NOTE.—In assessing a laboratory's capability to meet this criterion, an evaluator, based on information submitted by the laboratory, will be making judgments about the adequacy of the test auditing and monitoring program of the laboratory, the adequacy of the laboratory's calibration system, the appropriateness of the laboratory's equipment and facility maintenance, the laboratory's system for controlling the flow of work, the laboratory's system for maintaining records, and the laboratory's system for responding to complaints. The on-site examiner will verify the information supplied by the laboratory and examine other characteristics as appropriate.

The laboratory's quality control system must be documented by a quality control manual or written procedures. The purpose of the manual is to provide, in one convenient location, detailed descriptions, or clear instructions where such descriptions may be found, of the operating and quality assurance procedures governing the human and physical resources of the laboratory. The manual must be available at all times to serve as a guide for the laboratory staff, and procedures must exist for maintaining and periodically updating it. It is subject to review during on-site laboratory examinations by NVLAP personnel. An example of how such a manual might be structured is presented in the American Council of Independent Laboratories (ACIL) publication, "Quality Control, Requirements for a Testing and Inspection Laboratory, Manual of Practice—1976." As a minimum, the manual should be structured in accordance with sections G2.6.1, G2.6.2, and G2.6.3 above.

Criterion G3. *The laboratory is operated in accordance with generally accepted professional and ethical business practices.*

G3.1 The laboratory has a stated and effective policy which assures that reported values accurately reflect all properly measured data.

G3.2 Documentary evidence assuring that:

G3.2.1 Test work is limited to that for which competence and capacity are available;

G3.2.2 Test data, records, and reports are treated as proprietary information and are released only to such other individuals as the client agrees to in writing;

G3.2.3 Complaints contesting test results are considered and properly handled.

G3.3 For a laboratory that is part of a larger organization, dependent on manufacturing or supplier interest: evidence that there is an independent decisional relationship between the testing and other components of the organization. (This may be demonstrated, for example, by a letter of authority from the parent organization management.)

G3.4 For a private laboratory that is not part of a larger manufacturing or supplier organization: evidence that there is an independent decisional relationship between the laboratory and other organizations, including clients (e.g., a policy declaration or a contract provision that the laboratory's relationships with these organizations are not allowed to affect the laboratory's capacity to render reports of findings objectively and without bias).

NOTE.—An evaluator will review the information supplied by the laboratory and compare it with other information provided under criteria G1 and G2 to evaluate compliance with this criterion. Particular attention will be paid under this criterion relative to complaints received about the laboratory by the Assistant Secretary. On-site examiners will verify the information supplied and will address any complaints which may have arisen.

Criterion G4. *During the processing of the application and following accreditation, the laboratory reports to NBS, within specified times, any substantive changes in the laboratory related to the general and specific crite-*

V 4 / 1 3 J A 1 8 7 9

ria, and documents these changes as per the original submission.

G4.1 A description of the change mailed within 30 days following a substantive change relative to the general and specific criteria.

G4.2 Implementation within 45 days of the "official notice" date, or by the effective date, whichever is later, of all changes necessitated by a revision in the standard test method, unless another date is established by notice from NBS. (The "official notice" date is the date the organization responsible for the standard test method gives notice in its official publication that the standard has been revised. In some cases the organization may indicate a later "effective" date which will be used instead.)

NOTE.—An evaluator will evaluate changes as they may affect other aspects of the criterion and on-site examiners will report the absence of unreported substantive changes.

Specific Criteria. For each standard test method for which accreditation or continued accreditation is sought, an applicant laboratory shall provide the information required.

Criteria S1. *The laboratory is staffed with trained and experienced personnel competent in the principles and practices of measurement in the area of testing for which accreditation is sought.*

**S1.1 A list of, or the requirements of, the personnel responsible for and capable of conducting the tests specified in the test method, if not specifically addressed in the response to section G1.1.6 of the general criteria.

**S1.2 A description of the specific training program to assure proficiency and uniformity in applying the test method to the requisite degree of accuracy and precision (e.g., methods for ensuring job competence, probationary periods under close supervision, audits of test work performed, and performance reviews with affected personnel).

NOTE.—For each test method for which a laboratory requests accreditation, an evaluator will evaluate the competence of the personnel function and the training function. On-site examiners will compare resumes of personnel at the laboratory with the personnel requirements or resumes submitted by the laboratory in evaluating the laboratory under this criterion. Examiners will also address how newly trained personnel move into the work force, the nature of periodic reviews of competence, and the kinds of continuous education programs available. The on-site examiner will verify the content and utilization of training programs.

Criterion S2. *The laboratory's facilities and equipment are appropriate to the functions for which accreditation is sought and are properly maintained.*

**S2.1 A description of the test setups and a list of test instruments used, sufficiently identified to allow correlation with the calibration information requested in criterion S3. (Provide diagrams and photographs, if helpful in demonstrating conformance with the test requirements.)

**S2.2 A description of all special or laboratory-fabricated equipment listed in section S2.1, and evidence that this equipment conforms to the requirements of the test method and assures requisite accuracy and precision. (Provide schematics or shop drawings with annotated photographs, if helpful in demonstrating conformance with the test requirements.)

**S2.3 A description of any auxiliary equipment, facilities, or procedures required by or used for the test method, such as: storage and conditioning of samples; environmental conditions or controls (including how compliance is measured and percentage of time within required limits); automatic data collection, reduction or analysis; housekeeping, safety and custodial care; maintenance of laboratory equipment and facilities.

**S2.4 An inventory of the laboratory's collection of applicable standards and other documents referred to or used for the test method.

**S2.5 Evidence by analytical or other means that the test results are not degraded by the use of equipment or facilities which have received noncritical modifications not in strict conformance with the standard method of test.

NOTE.—For this criterion, an evaluator would evaluate the setups, instrumentation, special equipment, facilities, etc. of the laboratory as compared to the requirements of each test method for which accreditation is sought. Evidence would be examined to confirm that non-critical modifications have not degraded the test results. Information provided will not be considered confidential business data, trade secrets, or proprietary information. The on-site examiner during his visit to the laboratory would explore evidence justifying claims made by the laboratory by comparing selected measurements with the requirement of the test methods.

Criterion S3. *The laboratory's equipment and procedures are standardized (calibrated and verified) periodically.*

**S3.1 A description of the standardization equipment (including diagrams, etc., as appropriate) and a listing of the standardization schedule to ensure continuing adequate performance and accuracy of results.

**S3.2 Either references to recognized standardization procedures or descriptions of standardization procedures used for each laboratory standard and test instrument to assure that all measurements can be made to the requisite precision and accuracy.

**S3.3 A listing of the reference standards and materials being used with the test method, including:

**S3.3.1 The source, identity, latest dates and results of the standardization of the reference standards and materials;

**S3.3.2 For other than specifically required standards and standard reference materials, the procedures used to reference the standards to national standards;

**S3.3.3 Clear identification and differentiation between reference and working standards.

**S3.4 A listing of the measurement assurance, collaborative reference or other program(s), appropriate to the test method, in which the laboratory participates.

NOTE.—This criterion relates to the laboratory's fundamental program for establishing and maintaining basic references upon which its testing program is built. In some cases, much of the standardization procedures required herein will be part of an overall computerized laboratory program. In other cases, such standardization will be accomplished on a test method by test method basis. The evaluators and on-site examiners will be responsive to evaluation and verification in either case.

Criterion S4. *The laboratory maintains documented and acceptable in-house operating protocols for the test method to assure the requisite degree of accuracy and precision.*

**S4.1 A copy of the in-house instructions, if any, supplementing the instructions of the standard test method, including those necessary for equipment maintenance and calibration checks, sample preparation, testing and disposal, data reduction, and reporting of test results.

**S4.2 A copy of the instructions to the subcontractor and a description of how the laboratory assures the required precision and accuracy for any highly specialized part of the test method which is subcontracted.

NOTE.—Only that laboratory having the measuring equipment by which final test values are obtained can be accredited. If data obtained using one test method in this accreditation program are used as input data for a second test method, a laboratory seeking accreditation for the second method must be accredited for the first method also. In a laboratory's operating practice, if final test values for the first test method are obtained from an unaccredited laboratory, the client of the accredited laboratory must be notified. In general, if a NVLAP accredited laboratory does not or cannot, because of equipment failure, conduct a test method for which it has been accredited, it may supply data obtained from an unaccredited laboratory provided its client has been notified. If the data are obtained from a laboratory which is accredited for the test method, such notification is not necessary.

**S4.3 Evidence by analytical or other means that the use of noncritical variations in the procedure from that specified in the standard test method does not degrade the results of the test.

**S4.4 Evidence demonstrating the capability of satisfactorily complying with the intent of the standard test method when any variation in test equipment or procdures is made necessary by environmental conditions or by special requirements of a product for which accreditation is sought.

**S4.5 A sample test report (with name of client deleted) showing test results accompanied by the raw data and a copy of the worksheet showing the steps to reduce the raw data and the method of data reduction or reference to appropriate "calculation" sections of the test protocol or standard.

NOTE.—This criterion deals with the fundamental ability of the laboratory to obtain test results to the required precision and accuracy of the test methods. When reviewing data submitted by the laboratory, the evaluator's emphasis will be placed upon evaluation of instructions and procedures for the staff of the laboratory and for any subcontracted segments of the work. The applicability of nonconforming test procedures will also be carefully evaluated. A sample report will be reviewed and the on-site examiners will look for evidence that such sample reports are typical rather than specially produced for the accreditation program.

Proficiency Testing. Of utmost importance to the user of laboratory services is whether or not a testing laboratory consistently obtains accurate results. The existence of facilities, equipment and personnel, verified by a laboratory's ability to meet the preceding criteria, establishes the capability to obtain such results. An analysis of actual test results is necessary to determine if these ingredients do in fact produce the desired results.

A proficiency testing program may be considered an interlaboratory testing program in which specially prepared samples are distributed—on a periodic schedule. The samples are tested by the participating laboratories in accordance with standard test methods and the results reported to proficiency test evaluators. The "true" or target test result for any particular test is obtained by one of the following ways:

(1) *Manufacturer.* For some properties of a sample, it is possible to determine what the test result should be from information on how the sample was made. However, each case has to be thoroughly examined before manufacturing information can be used as the basis for determining the target or "true" values. This approach is often useful in proficiency testing programs requiring qualitative responses or identifications only (e.g. is starch present or not).

(2) *Reference Laboratory.* Sometimes a single laboratory, such as the National Bureau of Standards, has sufficiently high competence and national recognition that it can be used to provide the target or "true" test result. This is particularly useful when the laboratory has the capability of and has agreed to carefully verify the correctness of every important dimension of its apparatus and every step in its application of the standard test method.

(3) *Group of Reference Laboratories.* When no single laboratory can be given national recognition as having sufficiently high competence to set the national standard, it sometimes is possible for a proficiency test coordinator to use the results from a number of reputable laboratories. This would be accomplished by pooling their results (after a suitable statistical check on the agreement among the results) in order to establish the target or "true" test result.

(4) *Reference Method.* Under NVLAP procedures, the standard test method will usually also be the reference method. However, in some cases the standard test method may be so broadly written as to permit a wide variety of test equipment and testing protocols. If in such a case a particular protocol and equipment combination is recognized as a reference method (or can be shown through error analysis to yield results well within the required precision and accuracy), then the results obtained with that method by one or more "reference" laboratories is used to establish the target test result.

(5) *Participants.* If there is a sufficient number of participating testing laboratories and an insufficient number of reference laboratories, then the test results of the participating laboratories are sometimes pooled by a proficiency test coordinator to establish the target result for the individual participants. It is important that the pooled test results include only test data from laboratories known (on the basis of all available information) to be following the standard test method. This is determined not from the test data, but from an inspection report and from information submitted originally and with the test data.

(6) *Previous Proficiency Test and Interlaboratory Data.* Sometimes the same samples are used as were used in a previous proficiency test. If so, the new target test result is based on a weighted pooling of current and previous test results.

Most of the proficiency testing specified for NVLAP will consist of methods described in (5) and (6).

Another type of proficiency testing program makes use of samples of products which are being routinely tested. In this case, the sample, assumed to be homogeneous, is split into two parts, with the laboratory being evaluated testing one part and a reference laboratory or laboratories testing the second part. Typically, the reference laboratory tests its portion of the sample only occasionally and comparisons of its results with the results obtained by the laboratory being evaluated are used to determine proficiency.

Although some sort of proficiency test could conceivably be designed for all test methods, that step is not always appropriate. Some test methods depend upon qualitative observations and others depend upon the proper and sequential use of measuring equipment. In the latter situation, proficiency can often be more easily established through observation by the on-site examiners. In addition, if proficiency is established for one test method, it would not appear to be necessary to conduct a second proficiency test for a method which is very similar and which simply requires the demonstration of the same skills as were demonstrated in the first test method.

On the basis of these considerations, proficiency tests have been arranged for the test methods shown in Table 2 of Appendix 1. This Table and the description which follows are not intended to be part of the criteria but rather are part of the program operations. Although it is intended that proficiency must be demonstrated for all the test methods shown in Table 2, that may not be feasible if an insufficient number of laboratories request accreditation for a given test method. In such a case, any fee collected for the proficiency test would be returned to the applicant laboratory and the accreditation would be based only on the information submitted by the laboratory and the on-site examiner's review.

Values for the desired precision and accuracy for the test methods in NVLAP-1 are shown in Table 1 of Appendix 1. For test methods requiring proficiency testing (Table 2), the precision and accuracy figures represent the values required for demonstrating "good" laboratory performance and the desired degree of proficiency. Approximately 95 percent of the laboratories should be able to achieve this. Limits approximately 50 percent greater are used to define "acceptable" performance for accreditation purposes. The frequency of proficiency testing is also shown in Table 2 of Appendix 1. For test methods not requiring proficiency testing, the precision and accuracy values suggest guides for desired capability.

Initial and Periodic Examination and Audit Procedures. Once a laboratory has satisfactorily completed the written questionnaire and evaluators have concluded that the laboratory appears to be qualified to conduct the tests for which accreditation has been requested, NBS will arrange for a mutually convenient time for the on-site examiners to visit the laboratory. At

V 4 4 / 1 3 J A 1 8 7 9 UMI

the time of that visit, the laboratory will be provided with the inspection guide which the on-site examiner will use during the visit. The visit may last from one to three days or even longer depending on the number and complexity of the test methods for which accreditation is sought. The on-site examiner will conduct an exit interview with the laboratory management at the conclusion of the examination.

Laboratories will be granted accreditation for one year. The yearly accreditation fee must be paid each year. The fees and charges for this program are described in a separate notice published in this issue of the FEDERAL REGISTER.

Based upon the recommendation of the Committee, a scheduled on-site evaluation and a complete review of a laboratory's capability will be completed each year for the first two years and every two years thereafter. Unannounced visits may occur at any time with approximately one-third of the laboratories being visited each year. These visits may be initiated by the use of a random selection scheme or because the laboratory appears to have testing problems. A complete review of the laboratory is not planned for the unannounced visits. In the case of randomly selected visits, key items in the Laboratory will be checked. In the case of visits due to apparent problems, items relating to the problem will be checked. However, in both cases additional inspection may take place at the discretion of the examiner.

The National Bureau fo Standards will be responsible for the professional and technical performance of all examiners. The description which follows is not intended to be part of the criteria but rather is part of the program's operations. It is provided in order to give a potential applicant laboratory an indication of background and capabilities of personnel who will be employed to evaluate the laboratories. These procedures are subject to change as experience in the operation of the program is gained.

Evaluators will carefully review the completed questionnaire and prepare an evaluation of the laboratory indicating whether appropriate personnel, facilities, equipment, and procedures are provided which could produce accurate results. Examiners will be carefully trained to conduct the on-site examinations, so that these examinations will be consistently performed among the laboratories and so that subsequent examinations will be consistent. Personnel who are experienced in performing the specific test methods included in the program and in performing day-to-day laboratory operations will be used. These personnel will be government employees or will be specifically retained to perform certain aspects of the work. One of the key features in selecting personnel to work on this program will be the minimization of potential conflicts of interest.

REQUESTING ACCREDITATION

Any laboratory interested in being accredited by the Department of Commerce should write to the Department requesting information about the program. The address is: Assistant Secretary for Science and Technology, U.S. Department of Commerce, Room 3864, Washington, DC 20230. No commitment is implied or intended by such a request. The laboratory will receive a formal application accompanied by material which describes the program.

Laboratories will be accredited in groups so as to minimize costs of employing test method experts, to minimize travel costs, and to avoid one laboratory's receiving exclusive recognition. All applications postmarked by February 28, 1979 and accompanied by the required fee will be included in the first group of laboratories to be considered for accreditation. Applications received after this date will be included in a second group of laboratories to be considered for accreditation six months to one year later. It is suggested that those laboratories wishing to be in the first group mail a request for an application by February 7, 1979.

Issued: January 12, 1979.

JORDAN J. BARUCH,
Assistant Secretary for Science and Technology.

[3510-13-C]

Appendix 1

U.S. Department of Commerce
National Voluntary Laboratory Accreditation Program (NVLAP)

Criteria and Compliance
Information Supplement for
Thermal Insulation Materials
1/10/79

Table 1 establishes the performance requirements for the initial and continued accreditation of laboratories that test thermal insulation materials. It also lists measurement assurance aids which are available for helping laboratories maintain their testing performance. Evidence of appropriate use of such aids or their equivalent is required for accreditation.

The performance requirements are specified in terms of the desired precision and accuracy in applying the test method; that is, the overall precision and accuracy of application involving such potential sources of error as test operator, test environment, test equipment, test protocol and test sample. The capability of a laboratory to perform to these overall requirements is judged from the written information it submits in response to the examination material and from the findings of the on-site inspection. The ability of the laboratory to apply this capability is determined from the results of its performance in a proficiency testing program.

A NVLAP proficiency sample number designation and frequency of testing is shown in Table II for those test methods currently subject to proficiency testing requirements. Note: Participation in an NBS accepted collaborative reference program (CRP) may be accepted as partial fulfillment of the NVLAP proficiency testing requirement.

Precision is expressed in terms of repeatability (R) and comparability (C). Repeatability is a measure of the ability of a laboratory to repeat its own test result on the same or essentially identical samples. Comparability is a measure of the ability of a laboratory to compare two materials (intended for the same use), obtaining comparative test results (e.g. difference between or ratio of the two test results) consistent with comparisons obtained by other laboratories. Accuracy (A), is a measure of the ability of a laboratory to obtain a test result in agreement with the "true" or target test result.

The limits specified in the table for precision and accuracy are for "good" performance. Approximately 95% of the laboratories should be able to achieve this. Limits approximately 50 wider are used to define "acceptable" performance for accreditation purposes. CAUTION: The limits presented in this table for laboratory accreditation purposes should not be interpreted as setting specification limits on products.

In addition to utilizing the measurement assurance aids listed below for each test method, each laboratory should maintain a uniform batch of test specimens for more frequent checks of its performance (or should use other means for this purpose). The sources of currently available measurement assurance aids are listed at the end of the table. The table shows those programs currently available. As other aids become available, especially for methods not now covered, and are determined to be desirable for NVLAP, they will be added to the table.

The standards identified in this Appendix for accreditation under the provisions of NVLAP refer to the latest versions applicable.

TABLE 1

NVLAP Code Test Method No.	Complexity	Short title (property) Subtitle (if applicable)	Desired Precision and Accuracy	Measurement Assurance Aids
01/C01 ASTM C739 (para. 7.7 in 77 version)	B_2 1/	Corrosiveness; Cellulosic fiber (loose-fill)	Non-quantitative Test

Footnote:

1/ Laboratories seeking accreditation for 01/T04 while not also seeking accreditation for 01/T03 or 01/T07 will be required to perform proficienty tests using the guarded hot box during on-site laboratory inspection visits.

APPENDIX 2

EXAMPLE PERSONNEL REQUIREMENTS 1/

EDUCATION	EXPERIENCE	NATURE OF EMPLOYMENT (full or part time)	AFFILIATIONS
GENERAL MANAGEMENT	This individual, or group of individuals, may or may not be involved at the technical level. They could be full time or part time employees of the firm. In either case, they should become familiar with the broad technical aspects of the business, so as to make policy decisions consistent with quality testing.		
TECHNICAL DIRECTOR	Minimum of a B.S. degree or demonstrated capability in applicable field. Shall possess applicable professional license or certificates in one or more fields directed.	Minimum of 5 years in one or more fields directed. Must demonstrate capability in applicable field.	Full time employee of the Laboratory. Holds affiliations with the technical and professional societies pertinent to fields.
TECHNICAL SUPERVISOR	B.S. Degree or 5 years experience. Both relevant to the technology supervised. Shall possess applicable licenses or certificates in one or more fields directed.	1 year with degree full time or 5 years w/o under qualified technical director in field supervised.	Full time. Holds affiliations with the technical and professional societies pertinent to fields.
ENGINEERING OR SCIENTIFIC STAFF	B.S. degree or equivalent pertinent to field of work. Working towards or has achieved any applicable license or certificate.	On job training by supervisor or predecessor.	Full or part time. Holds affiliations with the technical and professional societies pertinent to fields.
TECHNICAL STAFF	High School graduate or equivalent. Shall strive for any applicable certificates in their field.	Sufficient "on-the-job" training and/or trade school. Competence must be demonstrated.	Part or Full Time.
CONSULTANT	An individual, who by academic training, work experience, or both brings the Laboratory technical skills and expertise equivalent to those of a Technical Supervisor on a part time basis.		
SUPPORT STAFF	Sufficient "on-the-job" training by a supervisor or predecessor so that job is performed properly.		

1/ This Appendix is adopted from the chart, "Recommended Personnel Basic Requirements" from the American Council of Independent Laboratories (ACIL) publication, "Quality Control, Requirements for a Testing and Inspection Laboratory, Manual of Practice - 1976," The qualifications given in this Appendix should not be interpreted as minimum or typical requirements for personnel in the NVLAP program.

APPENDIX 3

INDEX OF TEST METHODS AND RECOMMENDED PRACTICES
APPLICABLE TO THE NVLAP FOR THERMAL INSULATION MATERIALS

ASTM designation:	Title
C177	Steady-state thermal transmission properties by means of the guarded hot plate.
C518	Steady-state thermal transmission properties by means of the heat flow meter.
C335	Thermal conducitivity of pipe insulation.
C236	Thermal conductance and transmittance of built-up sections by means of the guarded hot box.
C653	Recommended practice for determination of thermal resistance of low-density mineral fiber blanket-type building insulation.
C687	Recommended practice for determination of thermal resistance of low-density fibrous loose fill-type building insulation.
C167	Tests for thickness and density of blanket- or batt-type thermal insulating materials.
C302	Test for density of preformed pipe-covering-type thermal insulation.
C303	Test for density of preformed block-type thermal insulation.
C519	Test for density of fibrous loose fill building insulations.
C520	Test for density of granular loose fill insulations.
D1622	Test for apparent density of rigid cellular plastics.
C135	Sieve or screen analysis of fine and coarse aggregates.
C356	Test for linear shrinkage of preformed high-temperature thermal insulation subjected to soaking heat.
C355	Tests for water vapor transmission of thick materials.
D2842	Test for water absorption of rigid cellular plastics.
D2126	Test for response of rigid cellular plastics to thermal and humid aging.
D591	Test for starch in paper.
C272	Test for water absorption of core materials for structural sandwich constructions.
D756	Tests for resistance of plastics to accelerated service conditions.
C411	Test for hot-surface performance of high-temperature thermal insulation.
C165	Test for compressive strength or preformed block-type thermal insulation.
C203	Test for breaking load and calculated flexural strength of preformed block-type thermal insulation.

C446	Test for breaking load and calculated modulus of rupture of preformed insulation for pipes.
D781	Tests for puncture and stiffness of paperboard, corrugated and solid fiberboard.
D828	Test for tensile breaking strength of paper and paperboard.
C209	Testing insulating board (cellulosic fiber), structural and decorative.
C273	Shear test in flatwise plane of flat sandwich constructions or sandwich cores.
E84	Test for surface burning characterisitics of building materials.
E136	Test for noncombustibility of elementary materials.
E96	Test for water vapor transmission of materials in sheet form.
D2020	Tests for mildew (fungus) resistance of paper and paperboard.
D777	Test for flammmability of treated paper and paperboard.
C739	Cellulosic fiber (wood-base) loose-fill thermal insulation. Test for flame resistance, corrosion, and moisture absorption.

Federal designation:

HH-I-515	Insulation thermal (loose fill for pneumatic or poured application) cellulosic or wood fiber. Test for settled density, smoldering combustion, corrosion, moisture absorption, starch, and fungus.

NATIONAL VOLUNTARY LABORATORY ACCREDITATION PROGRAM

Fees and Charges To Accredit Laboratories Which Test Thermal Insulation Materials

In a separate notice appearing in this issue of the FEDERAL REGISTER, the Department of Commerce announced the issuance of general and specific criteria for accrediting testing laboratories that test thermal insulation materials. Pursuant to paragraph (a) of § 7.10 of the Procedures for a National Voluntary Laboratory Accreditation Program (15 CFR Part 7) notice is hereby given of the fees and charges which the Secretary of Commerce (Secretary) has established for this laboratory accreditation program (LAP).

Basis for Fees: Fees and charges have been established on the basis that each laboratory in the program will be evaluated annually for the first two years of enrollment and once every two years thereafter. This evaluation schedule has been adopted as a compromise between the two year schedule originally proposed for the program on September 29, 1978 (43 FR 45298), and the recommendation of the National Laboratory Accreditation Criteria Committee which urged that evaluations be conducted every year. The fees cited in this notice have been increased from those originally proposed in order to reflect the more frequent inspections during the first two years.

The fees and charges cover the cost of examining, accrediting, and auditing laboratories that test thermal insulation materials. The fees also include a contingency factor to cover the cost associated with conducting unannounced re-inspection visits for up to one-third of the participating laboratories. The Department of Commerce's administrative cost associated with developing this LAP has not been included.

It is unlikely that any one laboratory will seek accreditation for all of the various test methods which are included in this LAP. Therefore, the fees have been established on the basis of allowing total charges to vary with the number and complexity of the individual test methods selected by the laboratory seeking accreditation.

Fees and Charges: The fee to any laboratory will be determined by the following equation:

$$F = A + B_1(N_1) + B_2(N_2) + B_3(N_3) + \ldots .$$

where F is the fee in dollars. A is a fixed charge in dollars to cover administrative and some basic examination costs associated with the program operation. B is a variable charge in dollars which covers the examination costs for evaluating a laboratory's capability to meet the specific criteria for each test method. N is the number of test methods for which the laboratory requests accreditation.

Subscripts 1, 2, and 3 represent the three levels of complexity into which the test methods fall when considered for examination purposes. The fee per method for the simpler test methods is represented as B_1. N_1 is the number of such test methods. B_2 is the fee per method for test methods of intermediate complexity and N_2 is the number of such test methods. The most complex test methods and the number of each are represented by B_3 and N_3 respectively. Values for each coefficient in the equation are: A=$750, B_1=$75, B_2=$125, and B_3=$175. The level of complexity for each test method is shown by the letter B with subscripts 1, 2, and 3 in the column, labeled "Complexity" in Table 1 of Appendix 1 to the FEDERAL REGISTER announcement referenced in the first sentence of this notice.

Proficiency Sample Fees: In addition to the basic inspection and evaluation charges referenced above, there will be a fee associated with proficiency sample testing where such tests are required. Table 2 in Appendix 1 referred to above identifies those test methods for which proficiency sample tests are currently required in this LAP. Proficiency sample fees pay for distribution of samples (where appropriate), the collection and analysis of the data, and the reporting of results. The fee for proficiency sample testing associated with each of the test methods is nominally $80 for each test performed. In most instances where proficiency testing is prescribed for test methods in the LAP, it is a requirement of the program that such testing be performed twice yearly. Thus, for each test method identified in Table 2 of Appendix 1 for which a laboratory desires accreditation, an additional fee of $160 is required. Explicit instructions regarding proficiency testing will be supplied with examination materials.

As explained under issue 4 in the FEDERAL REGISTER announcement referenced in the first sentence of this notice, the proficiency testing requirement for this LAP will be fulfilled by enrollment in a CTS CRP for the tests requiring NVLAP proficiency testing and the successful attainment of precision and accuracy of NVLAP.

Example Calculation: In order to clearly illustrate the annual cost for accreditation, the following example is provided. If a laboratory was to choose to be accredited for four simple test methods (B_1), three intermediate test methods (B_2), and two complex test methods (B_3), the fee equation would become:

$$F = \$750 + \$75(4) + \$125(3) + \$175(2) = \$1,775$$

Added to this would be the cost of proficiency testing. If proficiency sample tests were required twice annually for two of these nine test methods at a cost of $80 each, the total cost of proficiency sample testing would be $320. The total annual accreditation cost for the testing laboratory in this example would be $2,095.

Inquiries: Any inquiries may be addressed to Dr. Howard I. Forman, Deputy Assistant Secretary for Product Standards, Room 3876, U.S. Department of Commerce, Washington, DC 20230, 202-377-3221.

Dated: January 12, 1979.

JORDAN J. BARUCH,
Assistant Secretary for Science and Technology.

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM

Contract Rent Annual Adjustment Factors

V 4 4 / 1 3 J A 1 8 7 9 UMI

[4210-01-M]

Title 24—Housing and Urban Development

CHAPTER VIII—LOW INCOME HOUSING, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-79-613]

PART 888—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—FAIR MARKET RENTS AND CONTRACT RENT ANNUAL ADJUSTMENT FACTORS

Publication of Subpart B—Contract Rent Annual Adjustment Factors

AGENCY: Office of the Assistant Secretary for Housing-Federal Housing Commissioner, Department of Housing and Urban Development (HUD).

ACTION: Interim rule.

SUMMARY: HUD is publishing for effect amendments to Subpart B—Contract Rent Annual Adjustment Factors to require that the adjusted monthly amount of the Contract Rent of a dwelling unit shall be determined by multiplying the unit's *pro rata* share of the operating expense by the applicable Annual Adjustment Factors. The adjustment factors will not apply to depreciation, interest or amortization. The factors are applicable to Section 8 New Construction, Substantial Rehabilitation, Housing Finance and Development Agencies, New Construction Set-Aside for Section 515 Rural Rental Housing Projects, and Additional Assistance Program for Projects with HUD-insured and HUD-held mortgages.

EFFECTIVE DATE: November 8, 1978.

COMMENTS DUE: February 20, 1979.

ADDRESS: Written comments should be submitted to the Rules Docket Clerk, Office of the General Counsel, Room 5218, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410. Comments should be identified by the above title, docket number and date of publication. A copy of each such communications will be available for public inspection during regular business hours at the above address.

FOR FURTHER INFORMATION CONTACT:

Fred W. Pfaender, Acting Director, Office of Multifamily Housing Management and Occupancy, Department of Housing and Urban Development, Room 6156, 451 Seventh Street SW., Washington, D.C. 20410, (202) 755-5677. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: The Revised Annual Adjustment Factors are being published for effect on November 8, 1978 to supersede the factors which were made effective as of November 8, 1977.

RATIONALE FOR ADJUSTING EXPENSES

The basic purpose of the interim amendment is to prevent unnecessary escalation of Section 8 rents beyond what is needed to meet increases in operating expenses. The current Subpart B specifies that the contract rent Annual Adjustment Factors are applied to the full amount of the latest adjusted Contract Rent. The Department is concerned that this method of adjusting rents has the effect of providing greater rent increases than are needed to compensate for increases in operating expenses. This overcompensation is due to two basic facts: (1) The portion of the owner's rent which is needed to pay operating expenses generally amounts to much less than 50% of the total rent while the portion needed for debt service represents more than half of the total rent, and (2) although operating expenses are subject to annual escalation, in response to market conditions, the annual debt service payment for a section 8 project remains at a fixed level throughout the 30 or 40 years of the financing period. Assuming that there has been 6 or 7 percent escalation in materials and labor resulting in an Adjustment Factor of commensurate amount, the owner under the present system may be overcompensated by being permitted to apply the 6 or 7 percent increase to the large portion of the rent which is available for payment of the non-escalating debt service.

To discourage increases in operating costs which may be induced by applying the Adjustment Factor to operating expense, an overall control is provided by specifying that the amount of Operating Expense on which the adjustment may be based shall not exceed 45 percent of the total revenue of the project as determined by an audited financial statement. Since Operating Expense is generally less than 45 percent, this allows some leeway for individual differences among projects.

If there is any situation in which a project-owner finds that this adjustment is insufficient, he/she could request relief under § 888.204 which applies "If the application of the Automatic Annual Adjustment Factors results in rents that are substantially lower than rents charged for comparable units not receiving assistance under the U.S. Housing Act of 1937, in the area for which the factor was published or a portion thereof * * *".

A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A copy of the Finding of Inapplicability is available for public inspection during regular business hours at the Office of the Rules Docket Clerk.

Accordingly, the Department Title 24 CFR Part 888, Subpart B, is amended as follows:

1. Amend § 888.203(b) to read as follows:

§ 888.203 Use of contract rent annual adjustment factors.

* * * * *

The adjusted monthly amount of the Contract Rent of a dwelling unit shall be determined by (1) multiplying the unit's *pro rata* share of the Operating Expense by the applicable Annual Adjustment Factor (see paragraph (a) of this section) and (2) by adding the difference between the calculation under subparagraph (1) of this paragraph and the *pro rata* share, rounded to the next higher whole dollar amount to the Contract Rent in effect on the anniversary date of the Contract. For purposes of this paragraph, Operating Expenses (i) shall include administrative expense, management fee, trustee fee, insurance, property tax, utilities, maintenance and repairs, and payments to a maintenance or replacements reserve, (ii) shall not include depreciation, interest or amortization, and (iii) shall not be more than 45 percent of the total operating revenue, all of the foregoing to be supported by an audited financial statement submitted to HUD.

2. Amend the first sentence of § 888.204(a) to read as follows:

§ 888.204 Revision to the annual adjustment factors.

* * * * *

(a) If the application of the Annual Adjustment Factors results in rents that are substantially lower than rents charged for comparable units not receiving assistance under the U.S. Housing Act of 1937, in the area for which the factor was published or a portion thereof, and it is shown to HUD that the costs of operating comparable rental housing have increased at a substantially greater rate than is compensated for by application of the Adjustment Factors, the HUD Field Office will consider establishing separate or revised Annual Adjustment Factors for that particular area.* * *

(Sec. 7(d), Department of HUD Act (42 U.S.C. 3535(d)); sec. 5(b), U.S. Housing Act of 1937 (42 U.S.C. 1437c(b)); sec. 8, U.S. Housing Act of 1937 (42 U.S.C. 1437(f).)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

Issued at Washington, D.C., January 9, 1979.

LAWRENCE B. SIMONS,
Assistant Secretary for Housing, Federal Housing Commissioner.

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM

Contract Rent Annual Adjustment Factors

[4210-01-M]

Title 24—Housing and Urban Development

CHAPTER VIII—LOW INCOME HOUSING, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-79-614]

PART 888—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—FAIR MARKET RENTS AND CONTRACT RENT ANNUAL ADJUSTMENT FACTORS

Publication of Subpart B—Contract Rent Annual Adjustment Factors

AGENCY: Office of the Assistant Secretary for Housing-Federal Housing Commissioner, Department of Housing and Urban Development (HUD).

ACTION: Final rule.

SUMMARY: HUD is publishing for effect amendments to Subpart B—Contract Rent Annual Adjustment Factors to require that the adjusted monthly amount of the Contract Rent of a dwelling unit shall be determined by multiplying the unit's *pro rata* share of the operating expense by the applicable Annual Adjustment Factors. The Adjustment Factors will not apply to depreciation, interest or amortization.

EFFECTIVE DATE: November 8, 1978.

ADDRESS: Rules Docket Clerk, Office of the General Counsel, Room 5218, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410.

FOR FURTHER INFORMATION CONTACT:

Fred W. Pfaender, Acting Director, Office of Multifamily Housing Management and Occupancy, Department of Housing and Urban Development, Washington, D.C. 20410, (202) 755-5677: (This is not a toll free number.)

SUPPLEMENTARY INFORMATION: The revised factors supersede those published for effect at 42 FR 60508 on November 25, 1977, which were made effective as of November 8, 1977. Different adjustment factor schedules are provided for 23 Standard Metropolitan Statistical Areas (SMSAs) and for the four Census Regions on the basis of changes in the Consumer Price Index (CPI) for rent and utilities. A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A copy of the Finding of Inapplicability is available for public inspection during regular business hours at the Office of the Rules Docket Clerk.

Accordingly, Title 24, Part 888, is amended by publishing updated Schedule C factors for effect as set forth below.

(Sec. 7(d), Department of HUD Act (42 U.S.C. 3535(d)); sec. 5(b), U.S. Housing Act of 1937 (42 U.S.C. 1437c(b)); sec. 8, U.S. Housing Act of 1937 (42 U.S.C. 1437f))

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

Issued at Washington, D.C., January 9, 1979.

LAWRENCE B. SIMONS,
Assistant Secretary for Housing, Federal Housing Commissioner.

PETROLEUM SUPPLY SHORTAGE; STANDBY PRODUCT ALLOCATION AND PRICE REGULATIONS AND IMPOSED ALLOCATION FRACTIONS

[6450-01-M]

Title 10—Energy

CHAPTER II—DEPARTMENT OF ENERGY

[Docket No. ERA-R-78-15]

STANDBY PRODUCT ALLOCATION AND PRICE REGULATIONS AND IMPOSED ALLOCATION FRACTIONS

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Final rule.

SUMMARY: The Economic Regulatory Administration ("ERA") of the Department of Energy ("DOE") hereby adopts in standby status three special rules to be appended to 10 CFR Parts 210, 211 and 212, respectively. These special rules, which would be made effective to govern the allocation and pricing of refined petroleum products in a petroleum supply shortage, are adopted today in a standby status. These special rules provide the Administrator of the ERA with revised allocation rules, the discretion to impose maximum allocation fractions and revised pricing provisions. To further the objectives of the Emergency Petroleum Allocation Act of 1973 ("EPAA"), as amended, the Administrator may order the provisions of these special rules into effect on a national or regional basis, at any level of distribution, and upon any or all refined petroleum products subject to the EPAA, including both those already subject to the price and allocation regulations and those that have previously been exempted.

DATES: Adopted immediately in standby status. Further comments due on or before March 16, 1979.

ADDRESSES: Send comments to: Department of Energy, Public Hearing Management, Docket No. ERA-R-78-15, Room 2313, 2000 M Street NW., Washington, D.C. 20461.

FOR FURTHER INFORMATION CONTACT:

William Webb (Office of Public Information), 2000 M Street NW., Room B110, Washington, D.C. 20461 (202) 634-2170.

William Caldwell, (Office of Regulations and Emergency Planning), 2000 M Street NW., Room 2304, Washington, D.C. 20461, (202) 254-8034.

W. Mayo Lee or Joel M. Yudson (Office of General Counsel), 12th and Pennsylvania Avenue NW., Room 5138, Washington, D.C. 20461 (202) 633-8624.

SUPPLEMENTARY INFORMATION:

I. General Features of the New Rules

II. Discussion of Comments Received

A. Notice and Scope of Authority

B. Base Period

C. Imposed Allocation Fraction and Storage Requirement

D. Leaded and Unleaded Gasoline

E. Alternate Fuel Capability

F. Pricing Provisions

G. Delegation of Authority to the States

III. Specific Provisions of Final Rules

A. Special Rule No. 1 to Part 211

1. Activation of Special Rule.
2. Imposed Allocation Fractions.
3. Updated Base Period.
4. Adjustment of Base Period Volumes for Certain Users of Kerosene-Base Jet Fuel, Middle Distillates and Residual Fuel Oil.
5. Other Amendments to Part 211.

B. Special Rule No. 1 to Part 210

C. Special Rule No. 1 to Part 212

1. Refiner Price Rule.
2. Reseller Price Rule.

IV. Additional Comments Requested

I. General Features of the New Rules

These special rules of 10 CFR Parts 210, 211 and 212 set forth standby product allocation and price rules. These price and allocations rules are part of an overall effort by the Department of Energy to put into place various standby regulatory measures that could be used in the event of a significant national or regional crude oil or refined product shortage, or a widespread pattern of inequitable prices or, if otherwise necessary, to attain the objectives set forth in section 4(b)(1) of the Emergency Petroleum Allocation Act of 1973, as amended (Pub. L. 93-159, EPAA). The other parts of this effort that have been announced include the newly issued final Emergency Standby Mandatory Crude Oil and Refinery Yield Control Programs; a proposed program for U.S. participation in the international allocation of petroleum under the terms of the International Energy Agreement (IEA), on which a hearing was held June 13, 1978; and the proposed motor gasoline rationing plan and regulations (43 FR 28134, June 28, 1978) on which public hearings were held in July and August 1978. These regulations together will fulfill the United States' commitments under the IEA and will help the Federal government to deal with any severe petroleum shortage. It is intended that in the event an emergency would occur, the three special rules adopted today, together with the standby crude oil regulations, would be made effective before gasoline rationing. If rationing later becomes necessary, certain provisions of the standby product regulations, such as an updated base period, will complement the gasoline rationing program.

Under section 12(f) of the EPAA, any oil or refined petroleum product which is exempted from price or allocation regulations pursuant to section 551 of the Energy Policy and Conservation Act (EPCA), Pub. L. 94-163, is subject to the reimposition of controls if DOE determines that reimposition is necessary for the achievement of, and is consistent with, the objectives specified in section 4(b)(1) of the EPAA. Consequently, the effect of a decontrol action is to place the controls in a "standby" status unless and until the need for the controls again arises. Controls may be reimposed and, once reimposed, may be removed a second time without congressional review under section 551 of EPCA.

The standby regulations adopted today are in addition to, rather than a replacement for, the regulations that went into standby status when certain refined petroleum products, such as middle distillates and residual fuel oil, were exempted from controls. Either could theoretically be reimposed if needed. However, the regulations currently in standby status (that is, those that were in effect when products were deregulated) are those that evolved during a period in which the products in question were in relatively plentiful supply. Those that are adopted today are designed for use in a period when shortages of product exist or are imminent. The regulations adopted today will also be available if necessary to supersede those regulations currently in effect for products such as gasoline that have not yet been exempted from controls.

In general, the regulations now adopted will provide the Administrator of the ERA (the "Administrator") with the flexibility, in conjunction with the partial or complete reimposition of the petroleum allocation and price regulations on some or all products that have been exempted from such regulations, to update the petroleum allocation or price regulations, or both, to a more current basis (including more recent base periods for both previously exempted and controlled refined petroleum products and residual fuel oil). The Administrator may also mandate national or regional maximum allocation fractions on some or all products to restrain abrupt inventory drawdowns in shortage situations. If mandatory allocation fractions are imposed, the special rules will also require suppliers to store product in inventory during the early stages of abrupt interruptions or other

possible shortages to ensure an equitable distribution of available supplies over a longer period of time so as to mitigate the long-term economic dislocations caused by petroleum supply shortages.

These regulations also give the Administrator authority to limit the allocation of kerosene-base jet fuel, middle distillates and residual fuel oil to firms that use them for industrial, electric utility or refinery fuel purposes if the purchaser has or could reasonably have been expected to have in place an alternate fuel source, including natural gas or propane. These provisions will assist in the implementation of the policy of the Powerplant and Industrial Fuel Use Act of 1978 and the DOE's recently announced policy to switch major users of middle distillates particularly to natural gas or propane where such fuel is available.

The period of effectiveness of the standby regulations, the exact provisions to be implemented, the products, class of persons and class of transactions subject to the rules and the areas of the country where they are applicable are left to the discretion of the Administrator at the time the rules are ordered into effect. For instance, the Administrator might act quite differently in addressing a supply interruption of a known, limited duration (resulting, for example, from an accident or single act of sabotage) than in addressing a situation where supplies of a particular product, such as unleaded gasoline, become short and prices rise to inequitable levels.

Imposed allocation fractions under Special Rule No. 1 to Part 211 differ from the allocation fraction requirements in Subpart A of Part 211 in that they are established by the Administrator and are not a function of a supplier's supply obligations and allocable supply. By imposing a mandatory allocation fraction, the Administrator determines the maximum extent to which suppliers would be permitted to meet obligations to base period purchasers, regardless of amount of supply available to them.

II. Discussion of Comments Received

We received approximately 150 comments on the proposal (43 FR 29565, July 10, 1978), including written submissions and oral statements presented at the national and regional hearings. A discussion of the major issues raised is included here.

A. Notice and Scope of Authority

One of the principal issues raised by the comments is whether additional notice is required before the Administrator of the ERA can reimpose controls. Commenters stated that if the Administrator acts without prior notice, such action would be violative of provisions of the Administrative Procedure Act and the Department of Energy Organization Act (Pub. L. 95-91, DOE Act) requiring that prior notice and opportunity for comment be given to the public and the Federal Energy Regulatory Commission (FERC). If such provisions are not included, it was suggested that set indices or "trigger" conditions be established for reimposition of controls. In this manner, industry would have notice of impending controls independent of action by the Administrator. Similarly, commenters requested that the standby regulations include a "sunset" provision that would terminate the effectiveness of the controls independently of action by the Administrator.

Other commenters questioned the authority of the ERA Administrator to reimpose controls because such action would be outside of his authority under DOE Delegation Order No. 0204-4, which, it was asserted, gives the Administrator the authority to administer the allocation and price regulations, but not to reimpose controls. In this connection, other commenters stated that the EPAA refers only to *national* shortages and therefore any actions of the Administrator which would affect only a particular region would be beyond his authority.

With respect to currently exempt products, the amendments adopted today provide that the standby product price and allocation regulations would be applicable only to the extent controls are reimposed on specific products. Actions taken under these special rules, whether on a national or regional basis, would be carried out as prescribed by section 12(f) of the EPAA as necessary to attain the objectives of section 4(b)(1) of the EPAA. We have determined that the FERC does not have to be notified in advance of action under these regulations, since the FERC was notified of the proposed standby regulations themselves and has declined to determine under Section 404 of the DOE Act that the matters raised herein may significantly affect any function within its jurisdiction under sections 402(a)(1), (b) and (c)(1) of the DOE Act.

We have also retained in the final rule the ERA Administrator as the official having authority to reimpose controls and administer the standby program. The Administrator's authority to "• • • adopt rules, issue orders, • • • and take such other action as may be necessary and appropriate to • • • administer • • • (t)he allocation and pricing of crude oil, residual fuel oil, and refined petroleum products, pursuant to the provisions of the Emergency Petroleum Allocation Act of 1973 • • •" (DOE Delegation Order No. 0204-4) clearly includes the authority to make the necessary determinations under EPAA section 12(f) to reimpose controls on some or all products and crude oil by implementing the standby regulations. The Administrator's authority is not limited merely to administering existing regulations but extends to the *function* of allocating and providing price rules for crude oil, residual fuel oil, and refined petroleum products.

We have also retained in the final rule those provisions that would authorize the Administrator to activate the standby regulations on a regional basis only. There is nothing in the legislative history of the EPAA to suggest that Congress intended that this authority could be exercised only on a national basis where there was a national shortage of crude oil or refined petroleum products. On the contrary, the Conference Report indicates that Congress "expressly intended to give the President flexibility to act selectively," including the authority to allocate on a regional basis. *See* 1 Fed. Energy Guidelines ¶10,610, p. 10,619-6. (While this quotation appears in the context of a discussion of crude oil allocation, the statutory objectives under discussion are equally applicable to refined products.) Clearly this language and the proscriptions in section 4(b)(1) regarding equitable allocation among all regions of the country and the minimization of economic distortion indicates that the Administrator has authority to act to deal with regional shortages or dislocations by activating the standby regulations on a regional basis.

As to the possibility of establishing indices which would automatically cause the controls to take effect, our experience with such indices following the exemption of middle distillates leads us to conclude that they are not needed here, would deprive the Administrator of the flexibility to tailor the programs to the situation at hand, and could have the potential for distorting market conditions. Therefore, the suggestion made in the comments that such indices be established has not been adopted.

We have, however, decided to adopt the suggestion made in the comments that the activated standby regulations automatically revert to standby status after a specified period of time. A ninety-day sunset provision has been provided. This provision can be overridden by the ERA Administrator if he determines that the continuation of controls beyond 90 days (including successive 90-day periods) is necessary.

V 4 4 / 1 3 J A 1 8 7 9 UMI

B. BASE PERIOD

The allocation base period set forth in the notice generated a great deal of comment. The base period as proposed was defined as the month or quarter corresponding to the current month or quarter in the 12-month period ending with the second full month prior to the month in which the Administrator issues an order effectuating the Special Rule, or such other 12-month period as the Administrator should consider appropriate. Commenters expressed concern over the Administrator's power to establish "any other base period as he may deem appropriate" as possibly being too arbitrary. Some persons felt that the base period proposed would be too close to a crisis to be truly representative of transactions. They suggested that the base period should be the 12-month period ending a full calendar year before the last day of the month preceding the imposition of Special Rule No. 1. Others felt that 1972 was the last normal year of distillate sales and therefore should be reflected in any base period calculations for that product. Still others requested the retention of the current base period allocation for middle distillates, propane and naphtha. There were also others who asked that the base period should be the same for all products placed under control at a given time.

In addition, there were commenters that opposed the idea of having any set base period. One utility stated that the concept of a base period ignores the usage for "peak shaving", the process by which a gas utility supplements its basic pipeline supplies during periods of peak customer demand. Such requirements, it was stated, are weather-related and do not necessarily pertain to usage during an historical period.

As can be seen from the divergent comments, it is impossible, in advance of an acutual situation necessitating the activation of the special rules, to state a precise mechanism for determining the base period or base date which would be equitable to most affected persons. We continue to believe that a 12-month period ending with the second full month prior to activation will in most instances be an appropriate base period but that authority must be retained to make it a different period if that period is for any reason not a representative one on which to base an allocation program. Accordingly, as proposed, we retain the Administrator's flexibility to establish a different base period if appropriate, including the authority to update the base period on a rolling or periodic basis.

C. IMPOSED ALLOCATION FRACTIONS AND STORAGE REQUIREMENTS

In regard to imposed allocation fractions, commenters were concerned primarily with the situation of not having adequate product to meet the imposed allocation fraction and the costs of having to acquire such product. These concerns were based on a misapprehension of the proposal which is clarified below.

Although many commenters felt that the storage requirement for "excess" product was a good idea, those opposed to the provision pointed out the complications that could arise. It would be difficult to implement an enforced storage requirement just before or during an emergency when the demand would be greatest. Commenters stated that the mandatory storage requirement creates costs that a person without such capacity would not incur, which would in turn permit that seller to have lower costs and therefore lower selling prices. This would consequently tend to penalize those with storage capabilities. Then too, if jobbers and dealers have to store excess product, great problems of financing, credit limits and cash flow will result. Finally, commenters pointed out that in order for a refinery to operate at its peak output, storage tanks should never be more than 70 percent full. Thus, it is alleged that requiring storage in excess of this percentage would create an even greater risk of shortages by lowering the potential utilization of refining capacity.

While we recognize that an enforced storage requirement will be difficult to implement when demand is great, it is precisely because we wish to preserve available supplies over an extended period that the requirement will be imposed. Although storage costs could be passed through in the prices of those firms storing product, the EPAA prohibits the ERA from setting minimum prices for those firms without storage capability. In deciding to impose maximum allocation fractions, the Administrator will have to weigh the benefits of stretching available supplies against possible reductions in refinery output and financial hardships caused by such action.

D. LEADED AND UNLEADED GASOLINE

The question raised in the preamble to the proposed rule concerning the allocation and pricing of leaded and unleaded gasoline as separate products produced conflicting comments. The majority seemed to prefer the present allocation system, but a number of commenters favored separate allocation. The prevalent opinion seemed to be that the present system is more responsive to market fluctuations as customer usage varies. One person suggested that if these products were to be allocated separately, this could most effectively be done at the prime supplier level. In general, persons who commented on the price issues stated that the price differential between the products should not be regulated.

Upon consideration of the comments received, we have decided not to include a provision establishing separate allocation levels for leaded and unleaded gasoline, but rather will retain present section 211.108, which provides that a base period purchaser of gasoline is entitled to a volume of unleaded gasoline which bears the same ratio to the purchaser's allocation entitlement as the supplier's supply of unleaded gasoline bears to its total gasoline supply. This provision should allow for the equitable distribution of unleaded gasoline to distributors and dealers as the demand for unleaded gasoline grows relative to leaded, and it has the necessary flexibility built into it to take account of the differing demands for unleaded gasoline in different regions of the country.

Provisions applicable to the separate pricing of leaded and unleaded gasoline are discussed *infra*. The price provisions do permit unleaded gasoline to be designated as a specified product for which separate computations of maximum selling prices would be required.

E. ALTERNATE FUEL CAPABILITY

The July notice asked for comments on whether provision should be made in these regulations for adjustment of allocation rights by rule or order as either a positive or negative incentive to encourage major users of refined petroleum products to use alternate fuels or to install and utilize cogeneration capability. It was suggested, for example, that allocation levels to installations capable of using an alternate fuel or installing the capability to use it could be assigned a lesser priority or allocation level, and that allocations to cogeneration facilities could receive a higher priority or allocation level.

Notwithstanding that few direct comments on these issues were received, we have decided to provide the Administrator with the flexibility to reduce, by either a general or case-by-case order, a firm's use of middle distillates, kerosene-base jet fuel or residual fuel oil for industrial, electric utility or refinery fuel uses where it has in place, or should have installed, the capability to use other available sources of energy that are in more abundant supply. Since the issuance of the notice of proposed rulemaking, it has become apparent that natural gas and propane supplies in particular are increasingly available for industrial and utility uses and that in many instances it is in the national interest for a firm to use natural gas in lieu of a petroleum based product. The Department of Energy has recently announced a policy of encouraging shifts from petroleum products, particularly middle distillates, to natural gas and has proposed regulations that would allow it to exempt utilities from provisions of the Powerplant and Industrial Fuel Use Act of 1978 that would otherwise prevent such switching. (44 FR 1694, January 5, 1979.) Under the standby rules adopted today, the Administrator would be authorized to take into account any available alternate form of energy, including natural gas, in establishing allocation levels for industrial, electric utility and refinery users of kerosene-base jet fuel, middle distillates and residual fuel oil.

F. PRICING PROVISIONS

A provision of the proposed regulations that provoked a considerable response was that which eliminated the provision in present Part 212 that allows costs not recovered in the current month to be "banked" and recovered in a subsequent month. Most persons who commented thought that banks should be retained because their elimination would violate the dollar-for-dollar cost passthrough provision of section 4(b)(2)(A) of the EPAA and that the ERA's fear of price increases was unfounded. This fear was unfounded, the commenters said, primarily because present price rules prohibit more than 10 percent of the accumulated banks to be passed through in any one month. Additionally, commenters asserted that the elimination of the banks would create wild fluctuations in prices because sellers would try to recoup as much of their increased costs as possible during the current month.

The final rule provides that banks of unrecovered costs of specified products existing on the date the special price rule is made effective may not be recouped during the period this special rule is in effect except as permitted by the Administrator. It is not anticipated that previously accumulated banks will be allowed to be recovered except perhaps in exceptional circumstances involving seasonal products. This will prevent sellers from taking advantage of a shortage to pass through increased costs that could not be recovered under normal competitive conditions. In addition, the Administrator is given discretion to eliminate a portion or all of the banked costs for covered products accumulated prior to the date of activation of the special rule. However, the special price rule does permit the banking and recoupment of unrecovered costs incurred *subsequent* to the effectuation of the rule.

We received several comments on the proposed elimination of the class of purchaser rule. Some commenters stated that the elimination of the rule would simply conform the special rule to existing industry practice and would eliminate unnecessary complexity and distortion. However, others stated that the elimination of the rule could have anticompetitive effects by altering some independent marketers' positions in the market. After weighing these comments carefully, we have decided to retain the class of purchaser rule for refiners but substantially eliminate it for resellers and retailers.

G. DELEGATION OF AUTHORITY TO THE STATES

We envisage that in some instances it may be appropriate to delegate to the States some of the allocation, pricing and enforcement authority contained in the standby regulations adopted today. Such delegation has been made in the past with respect to the allocation of refined products, for instance, in Puerto Rico. The rule adopted today does not in itself delegate any authority under these regulations to the States. However, the Administrator possesses the power to so delegate under section 5 of the EPAA, and it is our intention that such authority will be exercised in those instances where there is merit in allowing States to tailor the regulations or their enforcement to problems unique to their area. In particular, if these special rules are activated, the function of enforcing price controls on gasoline and other products at the retail level may be delegated to the States. In the comments requested on the special rules, we particularly invite discussion of whether enforcement authority at the retail level should be delegated to the States, whether certain rulemaking or administration, as well as enforcement, authority should be delegated to the States, and whether the delegated authority should extend to other products besides gasoline, such as middle distillates and propane.

III. SPECIFIC PROVISIONS OF FINAL RULE

A. SPECIAL RULE NO. 1 TO PART 211

1. *Activation of Special Rule.* The provisions of Special Rule No. 1 to Part 211 become effective if the international crude oil allocation provisions of the Agreement on an International Energy Program take effect, unless the Secretary of Energy expressly decides otherwise. At present, the "trigger" mechanism of the International Energy Program (IEP) consists of either of the following occurrences: (1) A general interruption of at least seven percent of the participating countries' total oil consumption during a particular period, or (2) a supply interruption of at least seven percent of any one participating country's or a major region of one country's consumption during a particular period. These criteria become, therefore, a part of these special rules in order to permit these rules to aid in the satisfaction of the United States' responsibility under the IEP's provisions.

Any or all of the provisions of the special rule may also be ordered into effect at any time by the ERA Administrator. He may make the special rule effective on either a national or regional basis, upon any category of refined petroleum product or products and residual fuel oil, and with respect to a class of persons or class of transactions.

Unless otherwise specified by the Administrator, Special Rule No. 1 when activated will apply to any firm engaged in the production, distribution or consumption of refined petroleum products and residual fuel oil produced or imported into the United States. To attain the objectives of section 4(b)(1) of the EPAA, it may be ordered into effect with respect to any product currently subject to the provisions of Part 211, and, to the extent the allocation regulations are reimposed on any product previously exempted, it may also be made effective as to such a product. When the special rule will be in effect as to previously exempt products, it will supersede the exemption provisions contained in § 211.1(b) and any other inconsistent provision of Part 211.

Although the proposed rule issued in July 1978 would have limited the discretion of the Administrator to impose the standby product allocation rule to situations in which a severe supply interruption would have occurred or been imminent, it has become apparent that the need for standby allocation regulations is wider than for those emergencies caused by severe supply interruptions. Significant crude oil or product shortages can occur in other situations such as demand surges beyond refiners' supply capabilities. Such occurrences could lead to rapid increases in price or other effects similar to those caused by severe supply interruptions. The standby regulations as adopted are designed to prevent significant adverse impacts regardless of their cause.

2. *Imposed Allocation Fractions.* The special rule will permit the ERA Administrator to set maximum allocation fractions for suppliers of any product subject to the allocation regulations. Imposed allocation fractions will not require suppliers to distribute more product than they have available. Rather, by imposing allocation fractions, the Administrator will designate a maximum fraction of an allocation

V 4 4 / 1 3 J A 1 8 7 9 UMI

requirement that would be distributable to each purchaser. Such fractions may be imposed nationwide or only in selected geographic areas, and they may apply only to categories of a refined petroleum product or to certain classes of suppliers, purchasers, users or transactions. At the time an order imposing allocation fractions is issued, the class of persons or transactions affected will be specifically described. Such an order may apply only to refiners and other prime suppliers, or it may also appy to other categories of suppliers.

An "imposed allocation fraction" will be defined as a fraction imposed by the Administrator which represents the maximum proportion of a supplier's total adjusted base period supply obligations that it will be permitted to supply. It does not prevent a supplier from declaring a smaller fraction and thereby distributing less product if its allocable supply is not large enough to meet the imposed fraction. The supply obligations referred to in the definition of "imposed allocation fraction" are the obligations to purchasers whose allocation levels are subject to an allocation fraction, and will not apply to obligations to purchasers not subject to an allocation fraction (that is, certain high priority users) and to product deliverable into state set-asides.

Under Subpart A of Part 211, § 211.10(b)(2) provides the method of calculating an allocation fraction when a firm knows its supply obligations and allocable supply for an allocation period. The regulations require that product first be distributed to purchasers not subject to an allocation fraction in amounts sufficient to satisfy such purchasers' total current requirements or 100 percent of their base period volumes (as determined by the appropriate allocation level), and to satisfy state set-aside obligations. As already stated, the remaining supply, the "allocable" supply, is then divided by the remaining unfulfilled supply obligations—that is, the obligations subject to an allocation fraction—to calculate the allocation fraction for that period. Each wholesale purchaser then receives an amount of product equal to its allocation level multiplied by the supplier's allocation fraction.

Under Special Rule No. 1, suppliers will be generally prohibited from delivering product to any purchaser at a fraction of that purchaser's allocation level higher than that designated by the Administrator, even though additional supplies might be available. Thus, if imposed allocation fraction is ordered, "excess product," which is the difference between a supplier's maximum allocable supply under the imposed fraction and its available supply, will result for many suppliers. The special rule will require these amounts to be maintained in a supplier's storage facilities until its maximum storage capability is attained or until it accumulates an amount of product equal to 90 days peak supply to purchasers with respect to whom it has a supply obligation, whichever is less. The definition of "excess product" thus differs greatly from a similar expression—"surplus product"—in Subpart A of Part 211, which is that product remaining when the supplier has met all of its supply obligations and which may be distributed subject only to the limitations of § 211.10(g)(5).

"Maximum storage capability" in the special rule means the maximum volume of product or products that a firm can store using its facilities in place at the time an imposed allocation fraction order is issued under the special rule. Such capability will include, but is not limited to, facilities owned, leased or otherwise available to a firm at the time the order is issued.

In the event that a firm accumulates an amount of excess product which (i) is in excess of the amount of product that firm would use or distribute during any 90-day period of peak usage or (ii) would necessitate that firm making physical additions to storage facilities, the rule provides that such excess product is subject to redirection by the Administrator to a supplier not able to meet its supply obligations even with the imposed allocation fraction. If not thus redirected, the excess product must then be distributed by the supplier to meet the rest of its base period supply obligations, up to the point where it raises the supplier's allocation fraction to 1.0, and then as surplus product under § 211.10(g)(5).

The authority adopted here is designed to be used by the Administrator primarily if shortage conditions are threatened. The imposed allocation fraction under the special rule will not have the effect of reducing supply in total, but will either delay the distribution of available petroleum products, thus making a given supply available over a longer period of time, or, if mandatory allocation fractions are imposed selectively upon only certain products, cause refiners to shift their yields away from products on which the maximum fraction is imposed to others which may be distributed.

Illustrations of the operation of the Special Rule as contrasted with the regulations in Subpart A of Part 211 are given below. For the first example, assume a supplier's available supply of a product for an allocation period is 125 barrels, its obligation not subject to an allocation fraction is 15 barrels and its obligation subject to an allocation fraction is 100 barrels. Under the regulations in Subpart A, without an imposed maximum allocation fraction, the supplier would first distribute the 15 barrels which represent the obligations not subject to an allocation fraction. Then (assuming no product is deliverable into a state set-aside) the supplier would calculate its allocation fraction by dividing the remaining supply (110 barrels) by the obligations subject to an allocation fraction (100 barrels). This fraction would result in an allocation fraction of approximately 1.1.

Next, the supplier would distribute the 100 barrels to satisfy its remaining supply obligations. Each purchaser would receive an amount of product equal to its appropriate allocation requirement set forth in Subparts D through K of Part 211 multiplied by the supplier's allocation fraction. In this case, since the supplier's allocation fraction is greater than 1.0, surplus product of 10 barrels will result. That surplus may then be distributed under the provisions of § 211.10(g)(5).

If, however, the Administrator imposes a mandatory allocation fraction of .90 under the special rule, a different distribution would result. The supplier would as before distribute first the 15 barrels representing obligations not subject to an allocation fraction. Then the supplier's maximum allocable supply would be determined by multiplying the remaining unsatisfied supply obligations by the imposed allocation fraction. In this example, 90 barrels could be distributed, since .90 (imposed allocation fraction)×100 barrels (obligations subject to a fraction)=90 barrels. Each base period purchaser would receive an amount of product equal to 90 percent of its allocation requirement.

The amount of excess product remaining would be the difference between the maximum allocable supply—90 barrels—and the available supply—110 barrels. Therefore, 20 barrels would have to be held as inventory (assuming that storage capacity or 90 days' peak supply have not been exceeded).

For a second example, assume that the same obligations are subject to a fraction and not subject to a fraction as set forth in the first example (100 barrels and 15 barrels, respectively), but that the supplier's available supply, rather than being 125 barrels, is 100 barrels. Under Subpart A regulations with no imposed allocation fraction, the supplier would initially distribute the 15 barrels to purchasers not subject to an allocation fraction. The allocation fraction would then be determined by dividing supply by the remaining obligations to be satisfied. This would produce an allocation fraction of 85/100=.85. The supplier would thus distribute the remaining 85 barrels under an allocation fraction of .85. No surplus product would result since the fraction is less than 1.0.

If, in this second example, a maximum allocation fraction of .90 were imposed under the special rule, the following allocation would occur: Again, the supplier would first distribute the 15 barrels to purchasers not subject to an allocation fraction, leaving 85 barrels available to be distributed. Then, to determine whether the imposed maximum allocation fraction would prevent the distribution of the supplier's entire available supply, the maximum allocable supply is calculated by multiplying the imposed allocation fraction (.90) by the obligations subject to an allocation fraction (100 barrels) to give 90 barrels. Since the supplier's remaining available supply of 85 barrels would be less than its maximum allocable supply under the imposed fraction, the remaining 85 barrels of the available supply would be distributed under a .85 fraction, a fraction less than the mandated .90 maximum. In this case, the supplier's supply obligation for the particular period will be met by distributing its entire available supply and there will be no excess product to add to inventory. The supplier will not have a further obligation to obtain and distribute product it does not have available, solely to meet a maximum imposed allocation fraction.

Excess product placed in inventory in previous months under an imposed allocation fraction shall, if required by the Administrator under 10 CFR 211.22, be considered as part of a supplier's allocable supply for purposes of determining its allocation fraction (and may be so considered even if not required by the Administrator). Thus, in the second example above, if, in addition to the supplier's 85 barrels of product available in the present month (after distribution to high priority customers), it had available 10 barrels of excess product accumulated in previous months, if so ordered by the Administrator it would be deemed to have an allocable supply of 95 barrels from which an allocation fraction of .95 could be calculated. Because it would be subject to an imposed allocation fraction of .90, however, it would be required to keep 5 barrels of excess product in inventory.

The Special Rule to Part 211 places two notices requirements upon suppliers subject to an imposed allocation fraction ordered by the administrator. The first requires suppliers to notify DOE if the supply obligation under the imposed allocation fraction for each product cannot be met. Such notification will be made within five days of determining that the fraction cannot be met to enable DOE to assess more accurately the availability of product supplies. Notice will also be required to be given of any excess product which has accumulated or will accumulate which exceeds a supplier's maximum storage capability. This notice must be given when storage capabilities are projected to be exceeded, but, in any event, no later than 48 hours before the maximum storage capability will be attained.

Such notifications to DOE may be by telephone or in such other manner to either the DOE National or Regional offices as may be specified by the Administrator.

3. *Updated Base Period.* The allocation scheme provided for under the special rule is the same as that under the existing active or standby petroleum allocation program. However, the Administrator will have the discretion to adopt certain modifications to the present rules that would make the existing program more responsive to a petroleum supply shortage. The most significant possible change to the existing allocation program provides for the establishment of an updated base period to determine base period volumes and supplier/purchaser relationships.

The base period year, necessary to determine the purchasers to which a supplier is obligated to provide product, and the amount of supply obligations, could be changed by the Administrator under the special rule to be the 12-month period ending with the second full month prior to the month in which the Administrator issues an order effectuating the special rule. This period will ordinarily reflect a relatively normal period upon which to base emergency allocations. However, if it does not, the Administrator may establish such other base period as he should consider appropriate, and may provide for a rolling or periodically updated base period. As revised, the "base period" for any product would be either the corresponding month or calendar quarter of the base period year, whichever had been used in the relevant subpart of Part 211 as the length of the base period for that particular product.

Because the special rule can be activated only in part, the Administrator could use the rule to update base periods for presently controlled products without activating any other provisions of the rule. This may be an appropriate response to a situation where a relatively modest shortage of product brings out the distortions and inequities existing in the present base period requirements.

The revised base period year could apply under today's final rule to all products except propane, butane and natural gasoline. The base period year for purposes of allocating these products is currently the subject of a separate rulemaking (42 FR 21242, August 15, 1977), which is now pending before the FERC under section 404 of the Department of Energy Organization Act, and will be determined in the context of that rulemaking.

4. *Adjustments of Base Period Uses for Certain Users of Kerosene-Base Jet Fuel, Middle Distillates and Residual Fuel Oil.* Section 6 of Special Rule No. 1 to Part 211 permits the Administrator to limit the use of kerosene-base jet fuel, middle distillates and residual fuel oil by wholesale purchasers for industrial, electric utility and refinery fuel uses. As was stated in the proposal, this provision could provide a means for encouraging the use of other sources of energy in more abundant supply. It will place industrial, electric utility and refinery fuel users of oil on notice that if they have facilities in place to use available sources of energy other than kerosene-base jet fuel, middle distillates or residual fuel oil, or they could reasonably have been expected to put such facilities in place, the Administrator may reduce their allocation of kerosene-base jet fuel, middle distillates and residual fuel oil when Special Rule No. 1 is ordered into effect. As a concomitant measure to insure that industrial, electric utility and refinery fuel users do not frustrate the purpose of these requirements by acquiring surplus product, the Administrator may also limit the *use* by wholesale purchasers of residual fuel oil, kerosene-base jet fuel or middle distillates to one hundred percent of their base period use, as adjusted under section 6 of the special rule.

The special rule also contains a provision which permits the Administrator to adjust upward a firm's base period use of kerosene-base jet fuel, middle distillates or residual fuel oil if it can demonstrate it previously had a base period use of such product or products; had switched to another source of energy in adequate supply and therefore was not using, or was using decreased volumes of, the original products in a period subsequently designated as a base period; and, finally, the new source of energy to which the firm switched is no longer in adequate supply.

To be consistent with the Administrator's authority to adjust the base period use of electric utilities in order to maximize switching to alternate fuels, in § 211.125 we have removed the floor below which the base period use of an electric utility could not heretofore be adjusted. Further, in §§ 211.125(c) and 211.163(b)(2), we have conformed the criteria for allocations of middle distillates and residual fuel oil to electric utilities to reflect our intentions.

V 4 4 / 1 3 J A 1 8 7 9 UMI

5. *Other Amendments to Part 211.* The other specific amendments to Part 211 that are adopted by Special Rule No. 1 are the same as proposed in the July notice. The reasons for these changes appear in that notice. Although some comments were received on the various allocation levels presented in Special Rule No. 1, the majority appeared to find the proposed levels satisfactory. Consequently, those levels are adopted as part of this final rule. Further comments are specifically requested, however, on appropriate allocation levels and whether imposed maximum allocation fractions should be extended to those uses which are not subject to an allocation fraction.

The mechanism for downward adjustment of base period use in § 211.13(e), as revised specifically provides that ERA may order downward adjustment of base period volumes whenever purchasers' needs have declined. This change will help insure that base period allocation entitlements reflect purchasers' actual requirements. In § 211.10(g)(5), the waiting time that a supplier must wait (unless otherwise notified by ERA) before distributing surplus after reporting to ERA will be reduced from ten days to five days.

Conforming technical changes have also been made to update the program and to reflect the establishment of the Department of Energy.

B. SPECIAL RULE NO. 1 TO PART 210

Special Rule No. 1 to Part 210, the General Allocation and Price rules, provides that § 210.35, which sets forth products that are exempt from the Mandatory Petroleum Allocation and Price Regulations, will be superseded and made inoperative to the extent and for the duration the Mandatory Petroleum Allocation and Price Regulations are reimposed upon any exempt product.

This special rule also contains a sunset provision which provides that, unless otherwise ordered by the ERA Administrator, the reimposition of the Mandatory Petroleum Allocation or Price Regulations upon a previously exempt product shall be for a period ending not later than the last day of the third full calendar month after controls are reimposed. It also states that Special Rules No. 1 to Part 211 and Part 212 may not be in effect as to either a previously exempt or previously controlled product for a period ending not later than the last day of the third full calendar month after the special rules became effective, unless otherwise ordered by the Administrator. If the Administrator decides to waive the sunset provisions of these rules, the rules may continue in effect only for three additional calendar months, unless the Administrator establishes a different time for their termination or again waives the sunset provision at the end of three months. Expiration of the special rules as applied to a product already subject to controls shall result in a reversion back to the prior controls.

C. SPECIAL RULE NO 1 TO PART 212

The product pricing provisions adopted today are set forth in Special Rule No. 1 to Part 212. The provisions in the special rule are similar but not identical to those in the current price regulations. When any or all of the provisions of this special rule are ordered into effect by the Administrator, the DOE, shall, in the provisions ordered into effect, set forth in greater detail the specifics of this special rule, and, if necessary, issue instructions with respect to the operation of this special rule.

The Administrator of ERA shall determine which products are subject to this special rule and at which levels of distribution it shall apply. The products subject, generally, to the special price provisions are defined as "specified products" in the special rule. The Administrator may order the special rule into effect at any or all levels of distribution, including refiner, wholesaler and retailer tiers or for full or self-service sales.

Before the Administrator could designate as a specified product any product exempt from the price regulations, the exemption for such product would first have to be removed. Products upon which controls have been reimposed, but which are not specified under the Special Rule, will be priced in accordance with the present provisions of Part 212 and, to the limited degree the Special Rule is applicable to covered products but not specified products, under the Special Rule.

1. *Refiner Price Rule.* Refiners shall calculate the maximum lawful selling price for specified products using the price formula currently set forth in Subpart E to Part 212 with certain modifications. Each specified product will be treated as a separate product category (of the type "i" under the refiner price formula) and the total dollar amount of cost increases attributable to the specified product will be allocated to that particular specified product to be recovered in sales of that specified product.

The current regulations permit refiners certain flexibility in determining on which products in the general refinery product category increased costs will be recouped and in reallocating increased costs between products. For example, if it were not exempt, under the current regulations residual fuel oil would be considered a general refinery product for purposes of determining maximum lawful selling prices. That category also includes lubricants, specialty oils and a variety of other products. A refiner determines what portion, if any, of the increased costs allocated to the general refinery product category will be passed through in price increases on the various products in the general refinery product category. Accordingly, a refiner would be permitted to recoup any or all of the costs increases attributable to general refinery products on residual fuel oil. Furthermore, increased costs allocated to the general refinery product category may be reallocated to gasoline thus permitting refiners an additional pricing flexibility.

This special rule modifies refiners' pricing flexibility. First, specified products will only have cost increases attributable to the specified product allocated to such product. Second, when a product is determined by the Administrator to be a specified product—*i.e.*, a product subject to this special rule and thus a separate category for purposes of the refiner price formula—no increased costs shall be reallocated to the product from other product categories. In other words, increased costs which may be recouped on a specified product are calculated in the same manner as increased costs for a product category "i" under the current rules. Thus, only the increased costs directly attributable to specified products shall be reflected in the maximum lawful selling price of these products and no increased costs attributable to other product categories shall be reallocated to the specified products.

For example, assume the Administrator determines that regular grade unleaded gasoline and residual fuel oil are specified products subject to this special rule. Cost increases which may be recouped on each of these products would be calculated by treating each product as a separate product category. In such a situation, the general refinery products category would not include residual fuel oil and the product category for gasoline would not include regular unleaded gasoline. Only increased costs attributable to regular grade unleaded gasoline and residual fuel oil could be recouped, respectively, on each of these products. Furthermore, increased costs initially allocated to residual fuel oil may not be reallocated to those products continued to be included in the general refinery products category except as directed by the Administrator. However, increased costs initially allocated to regular unleaded gasoline and residual fuel oil may be reallocated to any products remaining in the product category of gasoline which would continue to include all the grades of gasoline other than those designated as specified products.

Thus under this special rule, if prices for unleaded gasoline were to attain levels that were inequitable or which began to cause other adverse impacts, the Administrator could designate unleaded gasoline as a specified product. This designation would require its maximum lawful selling price to be computed separately, thus preventing the reallocation to unleaded gasoline of unrecovered increased costs reallocable to the product category of gasoline or unrecovered increased costs allocated to the other grades of gasoline.

Unrecouped increased costs for specified products incurred after this rule is ordered into effect may be carried forward or banked for later recovery. However, unrecouped costs in "banks" for specified products created prior to the day this special rule is made effective shall not be recouped on any specified product during the period this special rule is in effect. In addition, the Administrator may adjust or eliminate the "bank" created prior to the date the special rule is made effective for any covered but not specified product (a product which remains subject to the current rules) while the rule is in effect.

The rule also states that if the Administrator orders a type or grade of gasoline to be a specified product, the Administrator may adjust the base date selling price for that type or grade of gasoline or for the gasoline product category. To the extent the Administrator increases the base date selling price of any product under this provision, increased costs must be reduced in an equal total dollar amount on another product or products as determined by the Administrator. This provides the Administrator with a means, for instance, of controlling refiners' price differentials between leaded and unleaded gasoline on a basis more current than the one cent imputed price difference set forth in § 212.112(b). Additionally, the Administrator may adjust for each covered or specified product the base date and base period to a more recent date than May 15, 1973 and more recent month than May 1973, respectively, for the purpose of calculating maximum lawful selling prices.

2. *Reseller Price Rule.* Resellers and retailers will price product in a manner similar to the current pricing scheme with two major modifications: (1) The class of purchaser rule in the current regulations is changed substantially and (2) the amount of allowable non-product cost increases will be determined by the Administrator.

First, except for end-users, the base price to customers will be the price charged in the last sale to the customer during the 30 days immediately preceding the date the special rule is ordered into effect or as directed by the Administrator. Accordingly, the base price will reflect current market conditions. The base price to end-users will be determined using prices charged to members of the class of purchaser.

Customers other than end users, which did not purchase a specified product during the base period, will be assigned by the seller to the most suitable class of purchaser. The base price will be the weighted average price charged on the most recent day during the base period in sales of the specified product to customers in the most suitable class of purchaser. For example, assume Customers A, B, and C each bought one gallon of a specified product at a price of 50¢, 60¢, and 70¢ on September 1, 1979, September 15, 1979 and October 2, 1979 respectively. Further assume that this special rule was ordered into effect and the Administrator set the base date as October 5, 1979. The base price to customers B and C would be 60¢ and 70¢ per gallon respectively. Because Customer A did not purchase within 30 days of the base date, the base price would be the average weighted price of all the customers in the same class of purchaser as Customer A on the most recent date a sale was made to that class. Assuming Customers A, B, and C are in the same class of purchaser as defined in Part 212, then Customer A's base price would be 70¢ per gallon for the specified product. This base price is computed by averaging the price charged in sales to Customer C, the only member of the class of purchaser to whom a sale was made on the most recent day during the base period on which sales were made to the class of purchaser. As a further example with respect to the calculation of the base price for Customer A, assume that Customer D, a member of the same class of purchaser as Customers A, B, and C, purchased one gallon of the specified product on October 2, 1979 at 76¢ per gallon. The base price to Customer A would be 73¢ per gallon—*i.e.* the weighted average price to Customers C and D on October 2. The price charged to Customer B would not be included in the computation of Customer A's base price because it did not occur on the most recent date during the base period on which sales were made to the class.

Whenever a seller (except a seller to end-users) places a new purchaser in a class of purchaser for purposes of determining the appropriate base date price for that purchaser, the seller must maintain records which clearly and specifically indicate the criteria which were applied in determining the appropriate class of purchaser. Further, (except for end-users) a seller must notify the buyer in writing, at the time of the first sale to the buyer, of the class of purchaser, the weighted average of the lawful prices in the most recent base period sales to members of that class and the criteria used in determining which purchasers were in that class.

When this special rule is made effective, the nonproduct cost increases permitted by the current rules (ordinarily expressed in a maximum number of cents per gallon for all sellers) will be superseded by a provision which permits the Administrator to determine the amount of price increases that will be permitted to reflect increased marketing costs. This provision will allow the Administrator to make an immediate adjustment in allowable nonproduct cost increases to reflect increases in such costs since the last adjustment was made.

IV. ADDITIONAL COMMENTS REQUESTED

We recognize that the special rules adopted today could have significant impact on certain firms in the event they are made effective. Although the special rules are standby rules subject to being ordered into effect immediately, they may not be activated until a future date. Thus, there may be an opportunity to make additional improvements in these regulations prior to the time they are needed, and it is our intention to review these regulations continuously for this purpose prior to their activation.

In this regard, the DOE may conduct additional tests of the emergency supply interruption systems. These tests could demonstrate the need for amendments to these special rules and, if so, the changes will be made in the appropriate manner. In addition, we are soliciting further written comments, through March 16, 1979, on all aspects of these special rules, and particularly those provisions that represent significant modifications of the proposal, and are continuing this rulemaking proceeding for the purpose of making any further amendments that may be appropriate in light of the comments received. It is also our intention to request comments on these regulations at other appropriate intervals in the future, and we specifically request suggestions from the public as to whether we should establish a routine procedure for receiving public comments on these regulations and, if so, how often comments should be solicited.

Comments should be submitted to the address indicated in the "Address" section of this preamble and should be identified on the outside envelope with the designation "Standby Product Allocation and Price Regulations" and the docket number. Fifteen copies should be submitted. All comments re-

V 4 4 / 1 3 J A 1 8 7 9 UMI

ceived by the ERA will be available for public inspection in the ERA Office of Public Information, Room B-110, 2000 M Street, NW., Washington, D.C. between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday.

You should identify any information or data considered by you to be confidential and submit it in writing, one copy only. We reserve the right to determine the confidential status of the information or data and to treat it according to our determination.

In accord with section 404 of the DOE Organization Act, the Federal Energy Regulatory Commission received a copy of the proposed rulemaking and has notified ERA that it has not determined that the proposed regulations would significantly affect any function within its jurisdiction under sections 402(a)(1), (b), and (c)(1) of the DOE Act.

The amendments issued today are adopted immediately in standby status. If any of their provisions are ordered into effect by the ERA Administrator within thirty days of publication, such action will be taken in accordance with the requirement set forth at 5 U.S.C. section 553(d).

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159, as amended, Pub. L. 93-511, Pub. L. 94-99, Pub. L. 94-133, Pub. L. 94-163, and Pub. L. 94-385; Federal Energy Administration Act of 1974, Pub. L. 93-275, as amended, Pub. L. 94-385 and Pub. L. 95-91; Energy Policy and Conservation Act, Pub. L. 94-163, as amended, Pub. L. 94-385; E.O. 11790, 39 FR 23185; Department of Energy Organization Act, Pub. L. 95-91; E.O. 12009, 42 FR 46267; Powerplant and Industrial Fuel Use Act of 1978, Pub. L. 95-620)

In consideration of the foregoing, Parts 210, 211 and 212 of Chapter II of Title 10 of the Code of Federal Regulations are amended, as set forth below, on the day of issuance.

Issued in Washington, D.C., on January 12, 1979.

DAVID J. BARDIN,
Administrator,
Economic Regulatory Administration.

PART 210—GENERAL ALLOCATION AND PRICE RULES

1. Part 210 is amended by adding Special Rule No. 1 as an appendix to read as follows:

APPENDIX—SPECIAL RULE NO. 1

STANDBY PRODUCT PRICE AND ALLOCATION REGULATIONS

1. To the extent and for the duration the Mandatory Petroleum Allocation and Price Regulations are reimposed upon any exempt product, this Special Rule supersedes and renders inoperative the relevant portions of § 210.35.

2. Unless otherwise ordered by the ERA Administrator,

(a) the reimposition of the Mandatory Petroleum Allocation or Price Regulations upon any exempt product shall be for a period ending not later than the last day of the third full calendar month following reimposition or such other period as the Administrator shall determine, and

(b) Special Rules No. 1 to Part 211 and Part 212 of this chapter shall remain in effect as to either a previously exempt or a previously controlled product for a period ending not later than the last day of the third full calendar month following the date they are made effective or such other period as the Administrator shall determine.

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

2. Part 211 is amended by adding Special Rule No. 1 as an appendix at the end thereof to read as follows:

APPENDIX—SPECIAL RULE NO. 1

STANDBY PRODUCT ALLOCATION REGULATIONS

1. *Purpose.* The provisions of this special rule shall be ordered into effect if necessary to attain the objectives of section 4(b)(1) of the Emergency Petroleum Allocation Act of 1973, as amended.

2. *Scope.* This special rule applies to any firm engaged in the production, distribution or consumption of refined petroleum products and residual fuel oil produced or imported into the United States. This special rule may be ordered into effect with respect to any product subject to the provisions of Part 211 and, to the extent the Mandatory Petroleum Allocation Regulations are reimposed on any product previously exempted, this rule may be made effective as to such product. During the time period this special rule is in effect it supersedes any inconsistent provision of this part.

3. *Applicability.* Unless the Secretary of Energy shall determine otherwise, the provisions of this special rule shall take effect, and remain in effect, if the international crude oil allocation provisions of the International Energy Agreement take effect. Any or all of the provisions of this special rule may also be ordered into effect at any time by the Administrator of the Economic Regulatory Administration ("the Administrator"). The Administrator may apply the provisions of this rule on either a national or regional basis upon any category of refined petroleum product or products and residual fuel oil), and with respect to any class of persons or class of transactions.

4. *Definitions.* For the purposes of this special rule:

"Excess product" means the volume of available supply for a base period which results after (1) a supplier has met all of its base period obligations for those end uses not subject to an allocation fraction and (2) has applied an imposed allocation fraction to the remainder of its supply obligations.

"Imposed allocation fraction" means the maximum proportion of a supplier's total adjusted base period supply obligations for all purchasers subject to an allocation fraction (as calculated in § 211.10(b)(2) for any refined product or products) that a supplier is permitted to supply pursuant to an order issued by the Administrator under this Special Rule.

"Maximum storage capability" means the maximum volume of product or products that a firm can store using its facilities in place at the time an order is issued. Such capability shall include, but is not limited to, facilities owned, leased or otherwise available to a firm.

5. *Imposed Allocation fractions.* (a) When the provisions of this special rule take effect, the Administrator may, by order, impose maximum allocation fractions.

(b) Suppliers shall not supply any amounts of product in excess of those amounts permitted under the order issued by the Administrator. To the extent that a supplier does not have enough supply to meet the imposed allocation fraction, there is no requirement to obtain additional product and lesser allocation fractions may be declared as calculated in §211.10(b).

(c) If the supply obligation under the maximum imposed allocation fraction for each product subject to this special rule cannot be met, suppliers subject to an order issued by the Administrator shall notify ERA within five days of making that determination. Such notification shall be made to the DOE national office unless otherwise specified by the Administrator.

(d) Each supplier subject to an order issued under this Special Rule shall (i) hold all excess product in storage up to the amount of product such firms would use or distribute during any 90-day period of peak usage and (ii) report to ERA any excess product which has accumulated or will accumulate in excess of its maximum storage capability. Nothing in this paragraph shall be construed as requiring any firm to make physical additions to storage facilities in order to comply with this rule.

(e) In the event that a firm accumulates an amount of excess product which is the lesser of (i) the amount of product that firm would use or distribute during any 90-day period of peak usuage or (ii) the total available capacity of that firm's storage facilities, then, subject to redirection by the Administrator, such excess product may be distributed first to meet the rest of its base period supply obligations and then as surplus product under § 211.10(g)(5).

(f) As ordered by the Administrator, for each base period suppliers shall notify ERA of the volume of excess product when storage capabilities are projected to be exceeded, and, in any event, no later than 48 hours before the maximum storage capability will be attained.

(g) Notification to ERA by suppliers shall be by telephone or any other manner specified by the Administrator to the ERA National office.

6. *Adjustments and Use Limitations for Kerosene-Base Jet Fuel, Middle Distillates and Residual Fuel Oil.* When the provision of this special rule are in effect as to either kerosene-base jet fuel, middle distillates or residual fuel oil, the Administrator may, by general or special order:

(a) Adjust downward a wholesale purchaser's base period use of kerosene-base jet fuel, middle distillates or residual fuel oil which is used for industrial, electric utility, or refinery fuel use: *Provided,* That (i) the wholesale purchaser has in place, or could reasonably have been expected to have put in place, the facilities and the capability to use instead another source of energy and (ii) the other source of energy is available to it;

(b) Impose limitations on the use by wholesale purchaser-consumers of kerosene-base jet fuel, middle distillates and residual

fuel oil for industrial, electric utility and refinery fuel use in excess of one hundred percent of their base period use, as adjusted pursuant to paragraph (a) of this section; and

(c) Adjust upward the base period use of kerosene-base jet fuel, middle distillates or residual fuel oil for a firm which demonstrates it (1) had a previous base period use of such product or products; (2) had switched to another source of energy in adequate supply and was therefore not using, or using decreased amounts of, kerosene-base jet fuel, middle distillates or residual fuel oil during a period subsequently designated as a base period; and (3) the source of energy to which the firm switched is no longer in adequate supply.

7. *Proposed Amendments to Part 211.* When the provisions of this special rule are in effect, the Administrator may order the following amendments to supersede or modify as set forth herein the following sections of this part:

(a) Section 211.2 may be amended by designating the present section as paragraph (a) and by adding a new paragraph (b) to read as follows:

§ 211.2 *Relationship of subparts.*

(a) Unless otherwise specified in Subparts D through K of this part, the general provisions set forth in this subpart apply to the mandatory allocation of all allocated products.

(b) Where inconsistent with the provisions of this part, Special Rule No. 1 to this part shall take precedence.

(b) Section 211.9 may be amended by revising paragraphs (a) and (b) to read as follows:

§ 211.9 *Supplier/purchaser relationships.*

(a) *Supplier/wholesale purchaser relationship.* (1) Each supplier of an allocated product shall supply all wholesale purchaser-resellers and all wholesale purchaser-consumers which purchased or obtained that allocated product from that supplier during the base period as specified in Subparts D through K of this part and Special Rule No. 1 to this part.

• • • • •

(b) *Supplier/end-user relationship.* Each supplier of an allocated product shall, to the maximum extent practicable, supply as of the date specified by the Administrator, all end-users which purchased that allocated product from that supplier during the base period or the interim period between the end of the base period and the effective date of these provisions and which are entitled to an allocation level under the provisions of Subparts D through K of this part.

(c) Section 211.10 may be amended as follows: Paragraphs (a) and (e) are revised, paragraph (f), subparagraph (3) is deleted and paragraph (g), subparagraphs (1) and (5) are revised.

§ 211.10 *Suppliers' method of allocation.*

(a) *General.* (1) Suppliers of allocated products shall allocate all their allocable supply in accordance with the provisions of this section unless otherwise specified in Subparts D through K of this part or in Special Rule No. 1 of this part. Each supplier shall determine its allocation fraction pursuant to the provisions of paragraph (b) of this section. Suppliers shall then allocate to wholesale purchasers and end-users in accordance with the provisions of paragraph (c) of this section. Suppliers of end-users without allocation levels shall allocate their allocable supply in accordance with the provisions of paragraph (d) of this section. The method of allocation for new suppliers is specified in paragraph (e) of this section. Suppliers with allocation fractions less than one (1.0) must act in accordance with the provisions of paragraph (f) of this section, while suppliers with allocation fractions in excess of one (1.0) must act in accordance with the provisions of paragraph (g) of this section. Suppliers which sell products with different uses which are subject to allocation under more than one subpart shall determine the applicable subpart by reference to paragraph (h) of this section.

• • • • •

(e) *New supplier.* (1) A supplier which was not a base period supplier but was a supplier during the interim period after the end of the base period but before the date specified by the Administrator under Special Rule No. 1 to this part, shall supply, in accordance with the provisions of this section, (i) wholesale purchasers which it supplied as of a date specified by the Administrator and which have no base period supplier; (ii) any assigned purchasers; (iii) new wholesale purchasers acquired during the interim period described in this paragraph (e)(1) in accordance with the provisions of § 211.12; and (iv) to the maximum extent possible, end-users.

(2) A supplier which was not a supplier prior to the date specified by the Administrator under Special Rule No. 1 to this part shall be considered to have no supply obligation and shall not allocate supplies to any purchaser without ERA approval.

(f) *Allocation fractions less than one.* • • •

(3) [Deleted]

• • • • •

(g) *Allocation fractions greater than one—*

(1) *General.* Unless otherwise directed by the ERA, in allocating allocable supplies of any allocated product among wholesale purchasers and end-users, no supplier may use an allocation fraction greater than one (1.0) except as provided herein. Propane and butane imported and distributed by suppliers pursuant to § 211.12(g) shall be subject only to the provisions of paragraph (g)(8), of this section.

• • • • •

(5) *Distribution of surplus product.* Any supplier subject to subparagraph (2) or any supplier which reports pursuant to subparagraph (3) of this paragraph and which is not notified to the contrary within five (5) days of receipt by ERA of the supplier's notification under subparagraph (3) of this paragraph, may distribute its surplus product at its discretion except that (i) the supplier shall offer, to each purchaser a volume based on the aggregate pro-rata volume supplied during the base period in the category of (A) wholesale purchaser-resellers which are entitled to receive an allocation from that supplier and which are branded independent marketers, to the extent that such category of purchaser is willing to accept it, at least the same proportion of the supplier's surplus product as the total base period volumes (prior to any adjustments) of branded independent marketers which are entitled to receive an allocation from that supplier bear to the total base period volumes (prior to any adjustments) of all purchasers, including those assigned by ERA, which are entitled to receive an allocation from that supplier; and (B) wholesale purchaser-resellers which are entitled to receive an allocation from that supplier and which are non-branded independent marketers, to the extent that such category of purchasers is willing to accept it, at least the same proportion of the supplier's surplus product as the total base period volumes (prior to any adjustments) of non-branded independent marketers which are entitled to receive an allocation from that supplier bear to the total base period volumes (prior to any adjustments) of all purchasers including those assigned by ERA, which are entitled to receive an allocation from that supplier; and (ii) the supplier may not supply to retail sales outlets owned and operated by the supplier, in the aggregate, a greater proportion of the supplier's surplus product than the total base period volumes (prior to any adjustments) of all such retail sales outlets bear to the total base period volumes (prior to any adjustments) of all purchasers, including those assigned by ERA, which are entitled to receive an allocation from that supplier unless the supplier first offers surplus product to and meets all requests for surplus product from all independent marketers which are entitled to receive an allocation from that supplier to the extent required in clause (i) of this subparagraph. *Provided,* That a supplier shall not be required to offer surplus product available for distribution during a period corresponding to a base period to any purchaser which has refused to lift all of its allocation entitlement in that same period corresponding to a base period.

• • • • •

(d) Section 211.12 may be amended as follows: Paragraph (c), paragraph (e), subparagraph (2)(i), and paragraph (g) are revised and paragraph (h), subparagraphs (5) and (6) are deleted.

§ 211.12 *Purchasers allocation entitlement.*

• • • • •

(c) *Base period volume determination.* (1) Within fifteen (15) days after the date specified by the Administrator under Special Rule No. 1 to this part, each supplier which sells an allocated product to a wholesale purchaser or end-user entitled to an allocation level which is a percentage of a base period use shall report to each of those purchasers with respect to each allocated product, the volume of product which it sold to or transferred to that purchaser in each base period.

• • • • •

(3) If the supplier and purchaser are unable to resolve their differences, the supplier shall commence allocation based on the supplier's records, in accordance with the allocation provisions in this part, and the purchaser shall make application to the appropriate ERA office for a corrected base period volume in accordance with ERA forms and instructions. Copies of the purchaser's records for base period purchases should be included with the application.

V 4 4 / 1 3 J A 1 8 7 9 UMI

(4) If the ERA determines that the purchaser's application for a corrected base period volume is valid it may order the supplier to adjust the purchaser's base period and to supply the purchaser with additional volumes of the allocated product equal to the adjusted amount the purchaser should have received if allocation had initially been based on the corrected base period volume.

• • • • • •

(e) *New wholesale purchasers.* • • •

(2) *New wholesale purchaser-resellers.* (i) Suppliers which have accepted as new purchasers wholesale purchaser-resellers after the end of the base period but prior to the date specified by the Administrator under Special Rule No. 1 to this part, shall notify ERA of the names of all such new purchasers, the proposed base period volume for each purchaser and the basis upon which the proposed base period volume was determined. Such notification shall be received by ERA within fifteen (15) days of the date specified by the Administrator. The proposed base period volume is subject to adjustment by ERA. ERA may also assign the wholesale purchaser-reseller to another supplier. Suppliers may provide interim supplies to such wholesale purchaser-resellers pending ERA assignment of a supplier and a base period volume.

• • • • • •

(g) *Importers.* • • •

(2) *Supplier importers of propane and butane.* • • •

(vi) Products that are imported under paragraph (g) of this section shall be subject to orders issued under Special Rule No. 1 to this part.

(h) *Curtailment of certain energy sources pursuant to Federal or State rule or order.* • • •

(5) [Deleted]

(6) [Deleted]

(e) Section 211.13 may be amended by revising paragraph (a), deleting paragraph (b), relettering the remaining paragraphs and revising paragraph (e), the relettered paragraph (f), to read as follows:

§ 211.13 *Adjustments to base period volume.*

(a) *Scope.* • • •

(2) Paragraph (b) of this section provides for adjustments to a wholesale purchaser-reseller's entitlements of purchasers which are occasioned by new assignments to supply wholesale purchasers, or adjustments granted its purchasers pursuant to § 211.12(h), § 211.13(e), § 211.125(b) or § 211.145(b) of this part. Paragraph (c) of this section provides an adjustment to base period use when increased requirements are certified by end-users and wholesale purchaser-consumers entitled to receive an allocation level based upon their current requirements.

• • • • • •

(b) *Adjustments to a wholesale purchaser-reseller's base period for new and increased allocation entitlements of purchasers.* • • •

(c) *Adjustments for increased current requirements.* • • •

(d) *Additional Adjustments.* • • •

(e) *Certifications and downward adjustments of base period uses.* (1) The chief executive officer (or his authorized agent) of a purchaser applying to a supplier for an adjustment under this section shall certify such application for accuracy. Such allocation shall contain a statement that increased allocation shall be used only for the purpose stated in the application, shall not be diverted for other uses; and that if its needs decline, the purchaser shall file an amended application to ERA for a downward adjustment to its base period use.

(2) Each supplier shall report to the appropriate ERA Regional Office when (A) any one of its base period purchasers purchases less than 80% of its base period entitlements during each of two consecutive months or quarters corresponding to the relevant base period; (B) these purchases of volumes less than base period entitlements indicate a decline in the purchaser's needs and (C) the supplier has not been notified of a downward adjustment to its purchaser's base period volume.

(3) ERA may order a downward adjustment to a purchaser's base period volumes and the respective supplier's obligations whenever ERA determine that a decline in the purchaser's needs has occured.

• • • • • •

(f) *Non-discrimination among wholesale purchasers.* • • •

(f) Section 211.17 may be amended by revising paragraphs (c) and (f) to read as follows:

§ 211.17 *State set-aside.*

• • • • • •

(c) *State representative.* Each supplier shall designate a representative within each State in which the supplier is a prime supplier to act for and on behalf of the prime supplier with respect to State set-aside petitions ans assignments from the State set-aside to be supplied by that prime supplier. As to products not previously exempt from this part, each prime supplier for a State shall maintain its designated representative for that State. For those products upon which Mandatory Petroleum Allocation regulations are reimposed, each prime supplier for a State shall designate its representative for that State and shall notify in writing the appropriate State office of such designation within fifteen (15) days of a date specified by the Administrator under Special Rule No. 1 to this part. The designated representative for a State shall be a firm which maintains a place of business within the State. The State office shall to the maximum extent possible consult with a prime supplier's representative prior to issuing any authorizing document affecting State set-aside volumes to be provided by the prime supplier.

• • • • • •

(f) *Supplier's responsibilities.* Suppliers shall provide the assigned amount of an allocated product to an applicant when presented with an authorizing document. The authorizing document shall entitle the applicant to receive product from any convenient local distributor of the prime supplier from which the State set-aside assignment has been made which is readily accessible to the applicant. Wholesale purchaser-resellers of prime suppliers shall, as non-prime suppliers, honor such authorizing documents upon presentation, and shall not delay deliveries required by the authorization document while confirming such deliveries with the prime supplier. Any non-prime supplier which provides an allocated product pursuant to an authorizing document shall in turn receive from its supplier an equivalent volume of the allocated product which shall not be considered part of its allocation entitlement otherwise authorized by this part.

(g) Section 211.26 may be amended by revising subparagraph (b) to read as follows:

§ 211.26 *Department of Defense allocations:*

• • • • • •

(b) The Department of Defense shall report to the Department of Energy on a semi-annual basis a bulk product purchase program, and, or an annual basis, the purchase program needed in support of the "Posts, Camps, and Stations", "Into-Plane Refueling" (at commercial-civil airports), "Marine Bunkers", "Lubes, Greases and Specialty Products," and "Federal Civil agencies" programs. These programs shall take effect only following the approval of the President. Whenever necessary to assure that the Department of Defense is fully supplied with its current requirements, the Administrator of the ERA shall assign to suppliers the volumes of crude oil and allocated products to be allocated to the Department of Defense.

• • • • • •

(h) Section 211.102 may be amended by revising the definition of "base period" to read as follows:

§ 211.102 *Definitions.*

For purposes of this subpart—

"Base period" means the month corresponding to the current month in the 12-month period ending with the second full month prior to the month in which the Administrator issues an order effectuating the Special Rule, or such other 12-month period as the Administrator should consider appropriate.

• • • • • •

(i) Section 211.105 may be amended by revising paragraphs (b) and (c) to read as follows:

§ 211.105 *Supplier/purchaser relationships.*

• • • • • •

(b) Notwithstanding the provisions of Subpart A of this part, any wholesale purchaser-reseller of motor gasoline which is a branded independent marketer and which during the base period has two or more base period suppliers, shall have designated as its base period supplier that supplier which is its supplier on the date the provisions of Special Rule No. 1 take effect as ordered by the Administrator. This supplier shall be maintained for all periods corresponding to base periods commencing after the provisions of Special Rule No. 1 take effect. This designation shall be for the duration of the Mandatory Allocation Program unless otherwise ordered by ERA pursuant to Part 205 of this chapter.

(c) A wholesale purchaser-reseller which has a base period supplier designated pursuant to paragraph (b) of this section shall provide, within thirty (30) days of the date

specified by the Administrator pursuant to paragraph (b) of this section, written notice of this designation and of the termination of the supply obligations of other suppliers to any supplier(s) which supplied the wholesale-purchaser reseller during base period. Such wholesale purchaser-reseller shall also provide written notice to the designated supplier of the amount of the wholesale purchaser-reseller's base period use which was formerly supplied by the terminated base period supplier(s) and which is to be supplied by the designated supplier. The notice of the designated supplier shall include the names and addresses of the terminated base period suppliers and of the wholesale purchaser-reseller and the location of any facility, including any retail sales outlet concerned.

• • • • • •

(j) Section 211.106 may be amended as follows: Paragraph (b), subparagraph (4) is revised and paragraph (c), subparagraph (2)(i) is revised and subparagraph (2)(ii) is deleted.

§ 211.106 *Retail sales outlets.*

• • • • • •

(b) *Retail sales outlets as a firm.* • • •

(4) To the extent that retail sales outlets have not been considered separate firms and therefore separate wholesale purchaser-resellers in the base period volume determination required under § 211.12(c), an operator of more than one retail sales outlet shall, not later than 20 days after the date specified by the Administrator, determine the base period volume of each of its retail sales outlets.

(c) *Loss of allocation entitlement for going out of business.* • • •

(2)(i) *Closing of retail outlets.* An entity which operates more than one retail sales outlet and which intends to go or goes out of business at one or more such retail sales outlets may apply to ERA for an adjustment to the base period volumes of its retail sales outlets which will remain in business. ERA may allow such adjustments to the extent that the vacating of business at a particular retail sales outlet does not result in an inequitable distribution of motor gasoline in the market areas served by the entity and that such an adjustment would not otherwise be inconsistent with the objectives of the allocation program. Pending ERA action on an application, ERA may provide adjustments to the base period volume of the pertinent retail sales outlets, which will remain in business.

• • • • • •

(2)(ii) [Deleted]

(k) Section 211.122 may be amended by revising the definition of "base period" to read as follows:

§ 211.122 *Definitions.*

For the purposes of this subpart—

"Base Period" means the month corresponding to the current month in the 12-month period ending with the second full month prior to the month in which the Administrator issues an order effectuating the Special Rule, or such other 12-month period as the Administrator should consider appropriate.

• • • • • •

(l) Section 211.123 may be amended by revising paragraph (c), subparagraphs (2) and (3) to read as follows:

§ 211.123 *Allocation levels.*

• • • • • •

(c) *Allocation levels subject to an allocation fraction.* • • •

(2) One hundred ten (110) percent of base period use (as reduced by application of an allocation fraction) for residential space heating.

(3) One hundred (100) percent of base period use (as reduced by application of an allocation fraction) for the following uses:

(i) Synthetic natural gas plant feedstock use;

(ii) Electric utilities;

(iii) Industrial space heating uses; and

(iv) All other non-space heating uses.

(m) Section 211.125 may be amended by revising paragraph (c) to read as follows:

§ 211.125 *Supplier/purchaser relationships and adjustments to base period use for electric utilities.*

• • • • • •

(c) The ERA may at any time adjust the base period use of an electric utility. The FEA shall notify the utility and the affected supplier of any such adjustment. In making such an adjustment, the ERA may consider, but is not limited to the following:

(1) The addition or phasing out of generating units;

(2) Ability, within appropriate groupings, to absorb equal percentage cutback in middle distillate supply;

(3) Ability to utilize non-oil based energy;

(4) System reserve capacity;

(5) Available energy from imports;

(6) Minimum level of consumption, which cannot be supplied by non-oil fired generation; and

(7) Middle distillate inventory held by a utility.

(n) Section 211.142 may be amended by revising the definitions of "base period," "base period supplier" and "base period volume" and inserting a definition of "mail transport flying" in alphabetical order to read as follows:

§ 211.142 *Definitions.*

For purposes of this subpart—

• • • • • •

"Base period" means the calendar quarter corresponding to the current calendar quarter, of the 12-month period ending with the second full month prior to the month in which the Administrator issues an order effectuating the Special Rule, or such other 12-month period as the Administrator should consider appropriate.

"Base period supplier" means a base period supplier as set forth in Subpart A of this part or as designated by the ERA, and includes in the case of an international air carrier its suppier during the base period of bonded or non-bonded fuel.

"Base period volume" means base period volume as defined in § 211.51 and § 211.10(b)(2)(ii), and includes in the case of an international air carrier, the volume of bonded and non-bonded aviation fuels purchased during a base period.

"Mail transport flying" means use of aircraft operating under 14 CFR Parts 121 and 135 in transporting mail under contract with the United States Postal Service, including use of aircraft in transporting such mail by "other air carriers" as defined in this § 211.142.

• • • • • •

(o) Section 211.143 paragraph (c) may be amended by revising subparagraphs (1) and (2) to read as follows:

§ 211.143 *Allocation levels.*

• • • • • •

(c) *Allocation levels subject to an allocation fraction.* (1) One hundred percent of current requirements (as reduced by application of an allocation fraction) for the following uses:

(i) Emergency aviation services; safety and mercy missions;

(ii) Energy production flying; and

(iii) Telecommunications flying.

(2) One hundred (100) percent of base period use (as reduced by application of an allocation fraction) for the following uses:

(i) Aircraft manufacturing;

(ii) Business flying, including requirements for crew training and proficiency flying;

(iii) Domestic, supplemental, and scheduled cargo air carriers, including requirements for crew training and proficiency flying;

(iv) International air carriers, including requirements for crew training and proficiency flying—the total of both bonded and non-bonded fuels;

(v) Intrastate carriers, including requirements for crew training and proficiency flying;

(vi) Instructional flying;

(vii) Local service air carriers, including requirements for crew training and proficiency flying;

(viii) Mail transport flying including requirements for crew training and proficiency flying;

(ix) Non-flying use of aviation fuels;

(x) Other air carriers including requirements for crew training and proficiency flying; and

(xi) Public aviation including requirements for crew training and proficiency flying.

(3) Ninety (90) percent of base period use (as reduced by application of an allocation fraction) for the following uses:

(i) Air travel club flying, including requirements for crew training and proficiency flying; and

(ii) Personal non-business flying.

(p) Section 211.144 may be amended to read as follows:

§ 211.144 *Fixed based operators.*

Notwithstanding the general provisions of § 211.12(b)(1), fixed base operators are entitled to receive from their suppliers an amount of aviation fuel equal to one hundred (100) percent of base period use as reduced by the application of the supplier's allocation fraction for use in the conduct of an ongoing business of selling aviation fuels to wholesale purchaser-consumers and end-

users. Notwithstanding the provisions of Subpart A of this part, if during the base period, a fixed base operator had more than one base period supplier, the fixed base operator shall have designated as its base period supplier that supplier which is its supplier on the date of the provisions of Special Rule No. 1 take effect.

(q) Section 211.145 may be amended by revising paragraph (b), subparagraph (1) and deleting paragraphs (c) and (d) to read as follows:

§ 211.145 *Supplier/purchaser relationships and adjustments of base period use.*

• • • • • •

(b)(1) Civil air carriers may apply to the appropriate DOE office for adjustments to base period use based upon changed circumstances. Applications under this paragraph shall be fully supported by detailed facts, figures and other documentation. DOE may consult with appropriate Federal agencies in processing such applications. Adjustments under this paragraph will be granted only where there are compelling situations requiring relief.

• • • • • •

(c) [Deleted]

(d) [Deleted]

(r) Section 211.146 may be amended by revising paragraph (c) subparagraphs (1), (3) and (7) to read as follows:

§ 211.146 *Method of Allocation.*

• • • • • •

(c)(1) For periods corresponding to a base period beginning after the date specified by the Administrator international air carriers which have traditionally used bonded aviation fuel for international flights shall be allocated non-bonded aviation fuels by their base period suppliers as provided by this paragraph. Upon certification by an international air carrier to its base period suppliers that the carrier is unable to purchase or obtain sufficient bonded aviation fuel for a period corresponding to a base period at prices which do not exceed the lawful price of its base period suppliers of bonded fuel for similar volumes of non-bonded aviation fuel at the desired location, the base period suppliers shall provide non-bonded aviation fuel to that carrier. International air carriers which do not have base period suppliers or whose base period suppliers are unable to supply them currently with non-bonded aviation fuel shall apply to ERA for assignment of suppliers of non-bonded aviation fuels.

• • • • • •

(3) An international air carrier which files a certification with a supplier under this paragraph shall provide such certification to its supplier at least fifteen (15) days prior to the beginning of the period corresponding to a base period to which the certification applies except that the initial certification following the effective date of the provisions of Special Rule No. 1 to this part shall be provided to the supplier within fifteen (15) days after such date. The certification shall specify:

(i) The volumes of bonded aviation fuel which can be obtained for the period from all sources;

(ii) The volumes of bonded aviation fuel which can be obtained from that supplier;

(iii) The international air carrier's base period use for that period;

(iv) The amount of the international air carrier's base period use to be supplied by that supplier;

(v) The amount of bonded fuel which the supplier it to subtract from that portion of the carrier's base period use to be supplied by the supplier in addition to the volume of bonded aviation fuel to be supplied by the supplier in determining the amount of non-bonded fuel the supplier is to supply to the carrier.

• • • • • •

(7) For each period corresponding to a base period beginning after the date specified by the Administrator under Special Rule No. 1 to this part, no international air carrier shall accept non-bonded aviation fuel under this paragraph unless it has provided ERA with the following information by supplier for each period corresponding to a base period:

(i) The carrier's base period volume of bonded fuel;

(ii) The carrier's base period volume of non-bonded aviation fuel;

(iii) The amounts of any adjustments to the carrier's base period volume; and

(iv) The carrier's total base period volume.

(s) Section 211.147 may be amended by revising paragraphs (a), (b), (c) and (d) and the addition of paragraph (e) to read as follows:

§ 211.147 *Procedures and reporting requirements.*

(a) All applications for adjustment or assignment of aviation fuels to civil air carriers (except non-scheduled air taxi/commercial operators) shall be filed with the ERA National Office in accordance with Subparts B and C, respectively of Part 205 of this chapter. All other matters pertaining to the allocation of aviation fuels to civil air carriers (except non-scheduled air taxi/commercial operators) shall be addressed to the ERA National Office at the address provided in § 205.12, unless otherwise specified.

(b) All matters pertaining to the allocation of aviation fuels for general aviation, non-scheduled air taxi/commercial operators, public aviation and non-flying uses of aviation fuels shall be addressed to the appropriate supplier. Any matters unresolved at the supplier level may be referred directly to the appropriate ERA Regional Office at the address provided in § 205.12.

Civil air carriers (except non-scheduled air taxi-commercial operators) shall report monthly their aviation fuel usage to ERA in accordance with forms and instructions issued by ERA. Civil air carriers shall file reports pursuant to this paragraph with the National ERA at the address provided in § 205.12.

(d) All other wholesale purchaser-consumers, including non-scheduled air taxi/commercial operators and wholesale purchaser-resellers shall comply with the reporting and recordkeeping requirements specified in § 211.223 with information on uses and activities and total pumpage per month of jet fuel and aviation gasoline.

(e) The general reporting and recordkeeping requirements for refiners and importers contained in § 211.222 shall apply to this subpart.

(t) Section 211.162 may be amended by revising the definition of "base period" to read as follows:

§ 211.162 *Definitions.*

For the purposes of this subpart—"Base period" may be defined separately for utility and non-utility users and means the month or calendar quarter corresponding to the current month or calendar quarter, in the 12-month period ending with the second full month prior to the month in which the Administrator issues an order effectuating the Special Rule, or such other 12-month period as the Administrator should consider appropriate.

(u) Section 211.163 may be amended by revising paragraph (b), subparagraph (2), and paragraph (c), subparagraphs (2) and (3) to read as follows:

§ 211.163 *Allocation levels*

• • • • • •

(b) *Allocation levels not subject to an allocation fraction.* • • •

(2) The allocation level as specified each month by the ERA for utility use. In specifying the allocation levels for each utility the ERA may include but is not limited to the following considerations:

(i) Each utility within appropriate groupings shall absorb an equal percentage cutback in electricity generation, to the maximum extent possible.

(ii) The fact that electric generating plants which now burn residual fuel oil have been identified by the ERA as candidates for conversion to coal, and the maximum possible extent to which such plants could be utilized after conversion.

(iii) The extent to which any electric generating plants which burn coal may be utilized more fully than at present.

(iv) The ability to use other forms of energy in adequate supply;

(v) The extent to which certain minimal levels of residual fuel oil consumption are essential; and

(vi) Available stocks of residual fuel oil held by each utility.

(c) *Allocation levels subject to an allocation fraction.* • • •

(2) One hundred and ten (110) percent of base period use (as reduced by application of an allocation fraction) for residential space heating.

(3) One hundred (100) percent of base period use as reduced by an allocation fraction for industrial use including space heating and all other users and uses of residual fuel oil not included in paragraphs (b) or (c) (1) or (2) of this section.

(v) Section 211.166 may be amended by revising subparagraph (d) to read as follows:

§ 211.166 *Method of allocation.*

• • • • • •

(d) *Utilities.* (1) For purposes of calculating the allocation of residual fuel oil to utilities for delivery in each month beginning with the first month of the date specified by the Administrator under Special Rule No. 1 to this part:

(i) The ERA will notify each utility to establish a supplier percentage for each supplier and forward this information to the ERA within 7 days of such notification. The supplier percentage will be the volume purchased from each supplier divided by the total volume purchased from all suppliers during the base period.

(ii) The ERA will determine the amount of residual fuel oil allocated for delivery to each utility for a single month, or for several months at a time, based upon the supply available for utilities, the ability of the utility to use non-oil based energy, the considerations specified in § 211.163(b)(2) and other relevant considerations and may modify such determinations if necessary.

(iii) Based on the supplier percentages determined as set forth in paragraph (d)(1)(i) of this section, the ERA will publish the amounts of residual fuel oil allocated to each utility for delivery for a single month or several months at a time, and the amounts required to be supplied for each month by each supplier. The amounts required to be supplied by each supplier will be calculated by multiplying each utility's specified monthly allocation amount by that supplier's percentage.

(2) Within 48 hours after receipt of an ERA allocation notice, each supplier of a utility shall notify that utility of its anticipated ability to supply, during the month for which the allocation amount is specified, the entire amount of residual fuel required to be supplied by that supplier. If a supplier of a utility is unable to supply its specified amount, the supplier may request an extension to the delivery period in that month of up to 12 days. Following receipt of a request for extension, the utility must notify the supplier within 48 hours of its determination of the acceptability of the requested extension and of the amount to be delivered during the extension period. If the utility refuses to accept the extension, the supplier and utility shall notify the ERA of the reason for the request for extension by the supplier and the refusal to accept the extension by the utility. The ERA shall then determine the amounts to be delivered and the date or dates for delivery.

(3) Suppliers and utilities may apply to the ERA for adjustment to the requirement of § 211.163 and paragraph (d)(1)(i) of this section, or assignment of a new supplier, in accordance with Subparts B and C, respectively, of Part 205 of this chapter.

(4) Utilities may, and are encouraged to, by mutual agreement and after notice to ERA, apportion their respective allocated residual fuel oil volumes, other fuel volumes, or generated power among themselves.

• • • • • •

(w) Section 211.167 may be amended by revising subparts (a) and (b) to read as follows:

§ 211.167 *Procedures and reporting requirements.*

(a) All matters pertaining to the allocation of residual fuel oil for the electric industry shall be addressed to the ERA National Office, at the address provided in § 205.12. Applications for adjustment and assignment of residual fuel oil for the electric utilities shall be filed in accordance with Subparts B and C, respectively, of Part 205 of this chapter.

(b) All matters pertaining to the allocations of residual fuel oil to non-utility users of residual fuel oil shall be addressed to the appropriate ERA Regional Office at the address provided in § 205.12. Applications for adjustment and assignment of residual fuel oil to non-utility users of residual fuel oil shall be filed in accordance with Subparts B and C, respectively, of Part 205 of this chapter.

• • • • • •

(x) Section 211.182 may be amended by revising the definition of "base period" and "naphthas" to read as follows:

§ 211.182 *Definitions.*

For purposes of this subpart—

"Base Period" means the calendar quarter corresponding to the current calendar quarter of the 12-month period ending with the second full month prior to the month in which the Administrator issues an order effectuating the Special Rule, or such other 12-month period as the Administrator should consider appropriate. • • •

"Naphthas" mean petroleum fractions made up predominantly of hydrocarbons whose boiling points fall within the temperature range of 85° to 430°F, excluding natural gasoline and condensates. This definition does not include specific hydrocarbon constituents such as hexane or special naphthas (solvents) or other products which are separately allocated.

• • • • • •

(y) Section 211.183 may be amended by revising paragraphs (a), (b) and adding paragraph (c) to read as follows:

(a) *General.* The allocation levels in this paragraph apply only to allocations made by suppliers to wholesale purchaser-consumers and end-users. Suppliers shall first allocate one hundred (100) percent of the allocation requirements of all their purchasers entitled to an allocation under this part without application of an allocation fraction. Suppliers may then dispose of the remainder of their total supply in accordance with the provisions of § 211.10(g). The allocation levels listed below are not arranged in sequence of priority. Suppliers shall distribute available supplies of naphthas and gas oils to all classifications of purchasers listed in the following allocation levels without regard to order of listing.

(b) *Allocation levels (not subject to an allocation fraction).* One hundred (100) percent of current requirements for the following uses:

(1) Agricultural production and

(2) Department of Defense use as specified in § 211.26.

(c) *Allocation levels (subject to an allocation fraction).* One hundred (100) percent of base period use for the following uses:

(1) Petrochemical feedstock uses;

(2) Synthetic natural gas feedstock use or plant fuel use;

(3) Gasoline blending and manufacturing; and

(4) All other uses

(z) Section 211.185, paragraph (a) may be amended to read as follows:

§ 211.185 *Method of allocation.*

(a) The provisions of § 211.10 shall apply to this subpart.

• • • • • •

(aa) Section 211.186 may be amended by revising paragraphs (a), (b) and (c) to read as follows:

§ 211.186 *Procedures and reporting requirements.*

(a) All refiners and importers shall report in accordance with forms and procedures to be issued by DOE.

(b) The provisions contained in subpart L of this part shall not apply to this subpart except §§ 211.223 and 211.225.

(c) All applications for adjustment or assignment of naphthas and gas oils shall be filed with the DOE National Office in accordance with Subparts B and C, respectively, of Part 205 of this chapter, except that applications pertaining to synthetic natural gas production shall accord with § 211.29. All other matters pertaining to allocation of naphthas and gas oils shall be addressed to the FEA National Office at the address provided in § 205.12.

(bb) Section 211.202 may be amended by revising the definition of "base period", "greases", "lubricants" and "wholesale purchaser-consumer" to read as follows:

§ 211.202 *Definitions.*

For purposes of this subpart—

"Base Period" means the calendar quarter corresponding to the current calendar quarter of the 12-month period ending with the second full month prior to the month in which the Administrator issues an order effectuating the Special Rule, or such other 12-month period as the Administrator should consider appropriate. • • •

"Greases" means petroleum lubricating products which are solid or semifluid, produced through a refining process or dispersion of a thickening agent in a liquid petroleum lubricant. • • •

"Lubricants" means all grades of lubricating oils designed to be used for lubricating purposes in industrial, commercial and automotive use without further modification, including lubricating oils that have been blended with additives, provided that refined petroleum products comprise more than 10 percent of the blend by weight. • • •

"Wholesale purchaser-consumer" means any firm that is an ultimate consumer which, as part of its normal business practices, purchases or obtains an allocated product from a supplier and receives delivery of that product into storage substantially under the control of that firm at a fixed location and purchased or obtained more than 20,000 gallons of lubricants, 10,000 pounds of greases or 55,000 gallons of any other product subject to this subpart in any completed base period year.

(cc) Section 211.203, paragraph (c) may be amended to read as follows:

§ 211.203 *Allocation levels.*

• • • • • •

(c) *Allocation levels subject to an allocation fraction.* (1) One hundred (100) percent of current requirements (as reduced by the application of an allocation fraction) for the following uses:

(i) Emergency service;

(ii) Energy production;

(iii) Sanitation services;

(iv) Passenger transportation services;

(v) Telecommunications services; and

(vi) Cargo, freight and mail hauling.

(2) One hundred (100) percent of base period use for:
(i) Chemical processing;
(ii) Petrochemical feedstock use;
(iii) Industrial use;
(iv) Synthetic natural gas plant feedstock use; and
(v) Blending and compounding of lubricants.
(3) Ninety (90) percent of base period use for:
(i) Gasoline blending and manufacturing; and
(ii) All other uses.

• • • • •

PART 212—MANDATORY PETROLEUM PRICE REGULATIONS

3. Part 212 is amended by adding Special Rule No. 1 as an appendix to read as follows:

APPENDIX—SPECIAL RULE NO. 1 TO PART 212

STANDBY PRODUCT PRICE REGULATIONS

1. *Purpose.* This Special Rule No. 1 to Part 212 sets forth the rules for pricing of covered and specified products as defined in paragraph 4 of this special rule, as necessary to attain the objectives of section 4(b)(1) of the Emergency Petroleum Allocation Act of 1973, as amended.

2. *Applicability.* (a) This special rule is effective when ordered by the Administrator.

(b) During the time period this special rule is in effect, it supersedes the relevant portions of sections 212.56 and 212.57 and any inconsistent provisions of Part 212.

(c) This special rule expires when Special Rule No. 1 to Part 211 expires or when ordered by the Administrator.

3. *Scope.* The Administrator may order this special rule into effect upon any or all products subject to the provisions of Part 212 and, to the extent the Mandatory Petroleum Price Regulations are reimposed on any product previously exempted, this special rule may be made effective as to such products. This special rule may be imposed with respect to refiners, resellers, retailers, and reseller-retailers. Products subject to this special rule, as ordered by the Administrator, are set forth in paragraph 4 of this special rule as specified products and in Part 212 as covered products.

4. *Definitions.* "Administrator" means the Administrator of the Economic Regulatory Administration, Department of Energy.

"Base period" with respect to resellers and retailers means the 30-day period immediately preceding the date this special rule is made effective for that product or such other date as the Administrator may determine.

"Covered products" means covered products as defined in § 212.31 of Part 212.

"Specified products" means products subject to this special rule as ordered by the Administrator.

5. *Refiner Price Rule.* (a) When this special rule is ordered into effect by the Administrator, refiners shall calculate the maximum lawful selling price for each specified product pursuant to the price computation formula set forth in Subpart E to Part 212. The maximum lawful selling price shall be computed separately for each specified product.

(b) Notwithstanding the provisions in Subpart E or in Paragraph 5(a) above;

(i) When this special rule is imposed on middle distillate and residual fuel oil, a portion or all of the increased costs attributable to middle distillate and residual fuel oil may be reallocated to covered and specified products (other than propane) as directed by the Administrator;

(ii) Unrecouped increased costs for specified products incurred prior to the day this special rule is made effective shall not be recouped on such specified products while this special rule is in effect but unrecouped increased costs incurred subsequent to the date this rule is made effective may be carried forward and recovered pursuant to § 212.83(e);

(iii) The Administrator may adjust the extent, if any, to which unrecouped increased costs for covered but not specified products, incurred prior to the day this special rule is made effective, may be recouped while this special rule is effective;

(iv) The Administrator may adjust the maximum lawful selling price for specified products and covered products to reflect unrecouped increased costs incurred prior to the day this special rule is made effective;

(v) When any type or grade of gasoline becomes a specified product, the Administrator may adjust the May 15, 1973 selling price (or selling price on a date established under subparagraph (vi) below) for that type or grade of gasoline or for the category "1" equals gasoline; to the extent the Administrator increases the May 15, 1973 selling price (or selling price on a date established under subparagraph (vi) below) of any product pursuant to this paragraph, increased costs must be reduced in an equal total dollar amount on other covered or specified products as determined by the Administrator;

(vi) The Administrator may adjust the base date and base period for specified or covered products to a more recent date than May 15, 1973 and more recent month than May 1973, respectively, for the purpose of calculating maximum lawful selling prices.

6. *Reseller and Retailer Price Rule.* (a) Except for sales to end-users as defined in § 211.51 of Part 211 and except for sales to purchasers which did not purchase during the base period, a reseller or retailer may not charge a price for a specified product which exceeds the price charged by the seller in the most recent sale to the purchaser concerned during the base period, plus an amount which reflects, on a dollar for dollar basis, increased product costs incurred subsequent to the date this special rule is made effective and plus an amount, as established by the Administrator, which reflects increased nonproduct costs.

(b) In the case of sales to end-users as defined in § 211.51 of Part 211, a reseller or retailer may not charge a price for a specified product which exceeds the weighted average of the lawful prices charged in sales of the product to the class of purchaser concerned on the most recent day during the base period in which there were sales of the product to the class of purchaser concerned, plus an amount which reflects on a dollar for dollar basis, increased product costs incurred subsequent to the date this special rule is made effective and plus an amount, as established by the Administrator, which reflects increased nonproduct costs.

(c) In the case of sales to purchasers which did not purchase a specified product during the base period, a reseller or retailer may not charge a price for a specified product which exceeds the weighted average of the lawful prices charged in sales of the product to the class of purchaser concerned on the most recent day during the base period in which there were sales of the product to the class of purchaser concerned, plus an amount which reflects, on a dollar for dollar basis, increased product costs incurred subsequent to the date this special rule is made effective and plus an amount, as established by the Administrator, which reflects increased nonproduct costs. For purposes of this subparagraph (c), the class of purchaser concerned is the class, as defined in Part 212.31, which is the most suitable class for the purchaser which did not purchase the specified product during the base period.

(d) In the case of sales to a purchaser which did not purchase a specified product during the base period and for which there is no suitable class as defined in Part 212.31, a reseller or retailer may not charge a price which exceeds the weighted average of the lawful prices charged in sales of the product to the most comparable class of purchaser on the most recent day during the base period in which there were sales of the product to purchasers of the specified product, plus an amount which reflects, on a dollar for dollar basis, increased product costs incurred subsequent to the date this special rule is made effective and plus an amount, as established by the Administrator, which reflects increased nonproduct costs.

(e) The Administrator may establish price adjustments to reflect increased nonproduct costs incurred subsequent to the base period.

(f) A seller which determines a highest permissible selling price pursuant to subparagraph (c) and (d) of this special rule shall:

(i) Maintain records, to be made available to DOE upon request, which state (1) the name of the class of purchaser; (2) all purchasers currently in the class of purchaser, and, (3) the factors (e.g., location) used to establish the class of purchaser; and

(ii) Notify the purchaser, except for end users, in writing at the time of the first sale to the purchaser of (1) the name of the class of purchaser; (2) the factors used to establish the class of purchaser; and, (3) the weighted average of the lawful prices as determined under subparagraph (c) or (d) above, together with a statement that the weighted average price is the purchaser's imputed base price under this special rule.

BILLING PROCEDURES FOR AGENCIES

As part of the billing procedures announced in the FEDERAL REGISTER of August 24, 1977, and to insure that each agency is correctly billed for only its own documents, the Office of the Federal Register requests agencies to insert the proper billing code on all of their documents. The six digit billing code should be typed or handwritten in ink at the top of the first page on all three copies of documents submitted to the Office of the Federal Register for publication, as follows:

BILLING CODE: 0000-00

The list of agency billing codes assigned by the Government Printing Office follows:

Department	*Billing Code*
ACTION	6050-01
Actuaries, Joint Board for the Enrollment	4810-25

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA//FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
CSA	MSPB*/OPM*		CSA	MSPB*/OPM*
	LABOR			LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

***NOTE: As of January 1, 1979, the Merit Systems Protection Board (MSPB) and the Office of Personnel Management (OPM) will publish on the Tuesday/Friday schedule. (MSPB and OPM are successor agencies to the Civil Service Commission.)**

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—OFFICE OF PERSONNEL MANAGEMENT

TITLE CHANGE

AGENCY: Office of Personnel Management.

ACTION: Editorial change.

SUMMARY: This document changes the title of Chapter I from Civil Service Commission to Office of Personnel Management to implement Reorganization Plan No. 2 of 1978 and Pub. L. 95-454.

EFFECTIVE DATE: January 1, 1979.

FOR FURTHER INFORMATION CONTACT:

James C. Spry, Special Assistant to the Director, 202-632-5556. Accordingly, chapter I of 5 CFR is renamed Office of Personnel Management.

(5 U.S.C. 1105)

OFFICE OF PERSONNEL MANAGEMENT,
JAMES C. SPRY,
Special Assistant to the Director.

[FR Doc. 79-2081 Filed 1-18-79; 8:45 am]

[6325-01-M]

PART 213—EXCEPTED SERVICE

Department of Health, Education, and Welfare

AGENCY: Office of Personnel Management.

ACTION: Final rule.

SUMMARY: Pharmacy Resident positions at grade GS-7 in the National Institutes of Health's Clinical Center, Pharmacy Department, are excepted under Schedule A because it is impracticable to examine for them. Employment in these positions is confined to graduates of approved schools of pharmacy and is limited to a period not to exceed 12 months pending licensure.

EFFECTIVE DATE: January 9, 1979.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3116(b)(11) is added as set out below:

§ 213.3116 Department of Health, Education, and Welfare.

• • • • • •

(b) *Public Health Service.* • • •

(11) Pharmacy Resident positions at GS-7 in the National Institutes of Health's Clinical Center, Pharmacy Department. Employment in these positions is confined to graduates of approved schools of pharmacy and is limited to a period not to exceed 12 months pending licensure.

(5 U.S.C. 3301, 3302, EO 10577, 3 CFR 1954-1958 Comp., p. 218)

JAMES C. SPRY,
Special Assistant to the Director, Office of Personnel Management.

[FR Doc. 79-2082 filed 1-18-79; 8:45 am]

[6325-01-M]

PART 213—EXCEPTED SERVICE

Temporary Boards and Commissions

AGENCY: Office of Personnel Management.

ACTION: Final rule.

SUMMARY: This authority excepts from the competitive service under Schedule A one GS-15 Deputy Executive Director position, one GS-10 Staff Assistant position, and one GS-7 Secretary position with the President's Commission on the Holocaust, with the provision that employment under this authority may not exceed February 1, 1980. This exception was granted because it is impracticable to examine for these positions.

EFFECTIVE DATE: January 9, 1979.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3199(y) is added as set out below:

§ 213.3199 Temporary boards and commissions.

• • • • • •

(y) *President's Commission on the Holocaust.*

(1) One GS-15 Deputy Executive Director position, one GS-10 Staff Assistant position, and one GS-7 Secretary position with the President's Commission on the Holocaust. Employment under this authority may not exceed February 1, 1980.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218)

JAMES C. SPRY,
Special Assistant to the Director, Office of Personnel Management.

[6325-01-M]

PART 307—VETERANS READJUSTMENT APPOINTMENTS

PART 316—TEMPORARY AND TERM EMPLOYMENT

Disabled and Vietnam Era Veterans

AGENCY: Office of Personnel Management.

ACTION: Final rule.

SUMMARY: The Office of Personnel Management is amending the regulations to implement certain provisions of the Veterans Administration Programs Extension Act of 1978 (Pub. L. 95-520), which liberalizes eligibility requirements for Veterans Readjustment Appointments and other kinds of employment for VRA eligibles. These regulations are amended to combat continuing unemployment problems of disabled and Vietnam era veterans.

EFFECTIVE DATE: January 10, 1979.

FOR FURTHER INFORMATION CONTACT:

Oliver J. Thomsen, Chief, Veterans Employment Programs, Office of Affirmative Employment Programs, Office of Personnel Management, 1900 E Street, N.W., Washington, DC 20415, 202-254-3058.

SUPPLEMENTAL INFORMATION: The Director finds that good cause exists for making these regulations effective in less than 30 days, in order to provide continuity of operations and to give immediate and timely effect to the appropriate provisions of Pub. L. 95-520 enacted October 26, 1978.

Accordingly, 5 CFR Parts 307 and 316 are amended as set forth below:

(1) By revising § 307.101 (a) and (b) as follows:

§ 307.101 Definitions.

In this part: (a) "Veteran" has the meaning given in section 2011(2)(A) of title 38, United States Code.

(b) "Vietnam era" is the period beginning August 5, 1964 and ending May 7, 1975.

• • • • •

(2) By revising § 307.102 (a) and (b) as follows:

§ 307.102 Basic eligibility.

(a) A veteran may receive a veterans readjustment appointment if s/he:

(1) Has served on active duty in the armed forces of the United States during the Vietnam era;

(2) Has completed not more than 14 years of education unless compensably disabled or discharged because of service-connected disabilities, in which case the 14-year educational requirement does not apply; and

(3) Agrees in writing that during employment under the appointment, veteran will pursue a training or educational program developed under § 307.104.

(b) A Vietnam era veteran may be given a veterans readjustment appointment at any time following separation from the service, except that no veterans readjustment appointment may be made under current statutory authority after September 30, 1981.

(3) By revising § 307.103 (a) and (c) as follows:

§ 307.103 Appointment authority.

(a) An agency may appoint any veteran eligible under section 307.102 who meets the qualification standards of the Office of Personnel Management for the position, to a position at GS-7 or below, or the equivalent in another pay system. On the basis of military and civilian experience, any veteran eligible under § 307.102 is deemed to meet the qualification standards for positions at GS-3 and below, and equivalent levels: *Provided,* The agency considers the veteran capable of performing the duties of the specific position.

• • • • •

(c) An appointment under this section is subject to investigation by the Office. A law, Executive Order, or regulation which disqualifies a person for appointment in the competitive service also disqualifies a person for a veterans readjustment appointment.

(4) By revising § 307.104(a) and (b) as follows:

§ 307.104 Training or educational programs.

(a) Each agency shall develop a training or educational program for each employee given a veterans readjustment appointment.

(b) The Office shall establish and publish guidelines for developing training or education programs under this section.

(5) By revising § 307.105 as follows:

§ 307.105 Conditions of employment.

An employee holding a veterans readjustment appointment serves subject to satisfactory performance of assigned duties and satisfactory participation in the required training or educational program. The agency shall separate an employee who does not meet these conditions, following the procedures in Part 43 of this chapter if the employee has completed one year of current continuous employment.

(6) By revising § 307.106(a), by deleting section 307.106(b) and by changing § 307.106(c) to read 307.106(b), as follows:

§ 307.106 Noncompetitive movement.

(a) Subject to § 335.103 of this chapter an agency may reassign, promote, or transfer an employee serving under veterans readjustment appointment to any position for which the employee meets the qualifications standards of the Office.

(b) Noncompetitive movements under this section are subject to completion of applicable training or educational programs.

• • • • •

(7) By adding § 307.107 to bring into regulation a reporting requirement contained in § 2014(d) of title 38, United States Code as follows:

§ 307.107 Reporting requirement.

(a) Agencies shall submit reports on efforts to promote maximum employment, placement, and job advancement opportunities for disabled and Vietnam era veterans to the Office on a 6-month basis.

(b) The Office shall establish and issue guidelines for the preparation and submission of these reports.

(8) By revising § 316.302(c)(2) as follows:

§ 316.302 Selection of term employees.

• • • • •

(c) • • •

(2) A veteran, as defined in section 2011(2)(A) of title 38, United States Code, who:

(i) Served on active duty in the Armed Forces of the United States beginning August 5, 1964 and ending May 7, 1975;

(ii) Completed not more than 14 years of education, unless compensably disabled or discharged because of service-connected disabilities, in which case the 14-year educational requirement does not apply; and

(iii) Is qualified to perform the duties of the position.

An appointment under this subparagraph may be made only to a position at GS-7 or below, or equivalent in another pay system, without time limitation after separation from the military service, but not after September 30, 1981. A veteran who is an applicant for a position at GS-3 or equivalent, and below under this subparagraph is deemed qualified to perform the duties of the position on the basis of the veteran's civilian and military service.

(9) By revising § 316.402(b)(4) as follows:

§ 316.402 Authorities for temporary appointments.

• • • • •

(b) *Noncompetitive temporary limited appointments.* • • •

(4) A veteran, as defined in section 2011(2)(A) of title 38, United States Code, who:

(i) Served on active duty in the Armed Forces of the United States beginning August 5, 1964 and ending May 7, 1975;

(ii) Completed not more than 14 years of education, unless compensably disabled or discharged because of service-connected disabilities, in which case the 14-year educational requirement does not apply; and

(iii) Is qualified to perform the duties of the position.

An appointment under this subparagraph may be made only to a position at GS-7 or below, or equivalent in another pay system, without time limitation after separation from the military service, but not after September 30, 1981. A veteran who is an applicant for a position at GS-3 or below, or equivalent, under this subparagraph is deemed qualified to perform the duties of the position on the basis of the veteran's civilian and military service.

JAMES C. SPRY,
Special Assistant to the Director.

[FR Doc. 79-2079 Filed 1-18-79; 8:45 am]

[6325-01-M]

PART 330—RECRUITMENT, SELECTION, AND PLACEMENT (GENERAL)

AGENCY: Office of Personnel Management.

ACTION: Interim regulation with comments invited for consideration in final rulemaking.

SUMMARY: The Office of Personnel Management is issuing interim regulation which requires Federal agencies to notify State Job Service Offices and the Office of Personnel Management of vacancies in the competitive service which they intend to fill from outside the Federal service other than through competitive examinations or rehiring of former Federal employees. This requirement is specifically included in the Civil Service Reform Act of 1978, section 309 (5 U.S.C. 3327).

DATE: Effective Date: January 11, 1979, and until final regulations are issued. Comment Date: Written comments will be considered if received no later than March 20, 1979.

ADDRESS: Send written comments to Arch S. Ramsay, Deputy Associate Director for Staffing, Room 6F08, Office of Personnel Management, 1900 E Street, N.W., Washington, D.C. 20415.

FOR FURTHER INFORMATION CONTACT:

Patricia Esslinger, Staffing Services, 202-632-6013.

SUPPLEMENTARY INFORMATION: Pursuant to section 553(d)(3) of title 5, U.S.C., the Director finds that good cause exists for making this amendment effective in less than 30 days, in order to provide continuity of operations and to give immediate and timely effect to the appropriate provisions of the Civil Service Reform Act of 1978.

Accordingly, § 330.102 is added to 5 CFR Part 330 as set out below:

§ 330.102 Notification of vacancies to State Job Service and Office of Personnel Management.

Federal agencies (as defined in 5 USC 5102(a)(1) must notify State Job Service offices and the Office of Personnel Management of vacant positions in the competitive service which they intend to fill from outside the Federal service, other than through competitive examinations or rehiring of former Federal employees. Such notification must indicate the period during which applications will be accepted.

(5 U.S.C. 3327)

JAMES C. SPRY,
Special Assistant to the Director, Office of Personnel Management.

[FR Doc. 79-2083 Filed 1-18-79; 8:45 am]

[6325-01-M]

PART 550—PAY ADMINISTRATION (GENERAL)

Allotments to Labor Organizations and Other Associations

AGENCY: Office of Personnel Management.

ACTION: Final rule.

SUMMARY: The following amendments revise Subpart C of Part 550 which governs allotments to labor organizations and other associations. With the enactment of the Civil Service Reform Act of 1978, effective January 11, 1979, allotments for union dues will generally be made under section 7115 of title 5, United States Code. Therefore, in order to reflect this change in the legal basis for most allotments for union dues, §§ 550.321-2 and 550.324 of Title 5, Code of Federal Regulations, governing allotments to labor organizations are being deleted effective January 11, 1979. In addition, the enactment into law of the Federal service labor-management relations program has rendered obsolete certain references to Executive Order 11491 which previously provided the legal basis for the program. Therefore, such references are being deleted from subsections (e) and (m) of § 550.301. Since these changes are required by statute and are not discretionary, they are being published as a final rule.

It is important to note, however, that not all references to labor organizations or to Executive Order 11491 hve been eliminated. This results from the need to retain both the savings provision in § 550.323 which incorporates such references and sufficient definitional and other explanatory material to make that section understandable.

EFFECTIVE DATE: January 11, 1979.

FOR FURTHER INFORMATION CONTACT:

Harry A. Wolf, Office of Personnel Management, Room 3351, 1900 E Street NW., Washington, D.C. 20415, 202-632-6553.

SUPPLEMENTARY INFORMATION: Section 7115 of title 5, United States Code, under which allotments for union dues will generally be made beginning January 11, 1979, reads as follows:

§ 7115. Allotments to representatives.

(a) If an agency has received from an employee in an appropriate unit a written assignment which authorizes the agency to deduct from the pay of the employee amounts for the payment of regular and periodic dues of the exclusive representative of the unit, the agency shall honor the assignment and make an appropriate allotment pursuant to the assignment. Any such allotment shall be made at no cost to the exclusive representative or the employee. Except as provided under subsection (b) of this section, any such assignment may not be revoked for a period of 1 year.

(b) An allotment under subsection (a) of this section for the deduction of dues with respect to any employee shall terminate when—

(1) the agreement between the agency and the exclusive representative involved ceases to be applicable to the employee; or

(2) the employee is suspended or expelled from membership in the exclusive representative.

(c)(1) Subject to paragraph (2) of this subsection, if a petition has been filed with the Authority by a labor organization alleging that 10 percent of the employees in an appropriate unit in an agency have membership in the labor organization, the Authority shall investigate the petition to determine its validity. Upon certification by the Authority of the validity of the petition, the agency shall have a duty to negotiate with the labor organization solely concerning the deduction of dues of the labor organization from the pay of the members of the labor organization who are employees in the unit and who make a voluntary allotment for such purpose.

(2)(A) The provisions of paragraph (1) of this subsection shall not apply in the case of any appropriate unit for which there is an exclusive representative.

(B) Any agreement under paragraph (1) of this subsection between a labor organization and an agency with respect to an appropriate unit shall be null and void upon the certification of an exclusive representative of the unit.

All of Subpart C, "Allotments and Assignments from Federal Employees" will be amended to conform with the Civil Service Reform Act of 1978. However, at the present time only the portions affected by section 7115 of title 5, United States Code, are amended.

Accordingly, paragraphs (e) and (m) of § 550.301 of Title 5, Code of Federal Regulations, are amended and §§ 550.321, 550.322, and 550.324 are revoked as set out below:

V 4 4 / 1 4

§ 550.301 Definitions.

. . . . . .

(e) "Association of management officials or supervisors" means an association composed of management officials or of supervisors with which the agency has established official relationships.

. . . . . .

(m) "Professional or other associations" means an organization with which the agency has established official relationships.

. . . . . .

§ 550.321 [Revoked]

§ 550.322 [Revoked]

§ 550.324 [Revoked]

(5 U.S.C.; EO 10982, 3 CFR 1959-1963 Comp., p. 502)

JAMES C. SPRY,
Special Assistant to the Director, Office of Personnel Management.

[6325-01-M]

CHAPTER II—MERIT SYSTEMS PROTECTION BOARD

Organization and Procedures

AGENCY: Merit Systems Protection Board.

ACTION: Publication of interim regulations.

SUMMARY: These regulations establish interim procedures for the operations of the Merit Systems Protection Board under the Civil Service Reform Act of 1978. These regulations expire no later than June 30, 1979. Proposed regulations for public comment will be published as soon as possible.

EFFECTIVE DATE: January 11, 1979.

FOR FURTHER INFORMATION CONTACT:

Alan Greenwald or Deborah House, Office of the Chair of the Merit Systems Protection Board, Washington, D.C. 20419 (202-653-7101).

SUPPLEMENTARY INFORMATION: These regulations are published under the authority conferred on the Board by 5 U.S.C. § 1101 et seq., the Civil Service Reform Act of 1978 (Pub. L. 95-454) signed into law by President Carter on October 13, 1978 ("the Act").

Under the findings and statement of purpose of that enactment, the Congress stated ten underlying policy considerations, including among others the desire that:

Federal personnel management be implemented consistent with merit system principles and free from prohibited personnel practices; that those principles be expressly stated to furnish guidance to federal agencies in carrying out their responsibilities in administering the public business; that prohibited personnel practices be statutorily defined to enable federal employees to avoid conduct which undermines the merit system principles and the integrity of the merit system; and that federal employees receive appropriate protection through increasing the authority and powers of the Merit Systems Protection Board.

These regulations supersede all regulations adopted at any time by the Civil Service Commission relating to the functions imposed on the Merit Systems Protection Board by the Act and Reorganization Plans 1 and 2 of 1978. However, it should be emphasized that these regulations are issued in compliance with the Savings Provision of Pub. L. No. 94-454 (§ 902(b)) which states:

No provision of this Act shall affect any administrative proceeding pending at the time such provision takes effect. Orders shall be issued in such proceedings and appeals shall be taken therefrom as if this Act had not been enacted.

Accordingly, these interim regulations are not applicable to any administrative proceeding instituted prior to the effective date of the Act. Such proceedings will be conducted in accordance with all regulations applicable prior to the effective date of this Act which are incorporated herein by reference, except that all actions previously delegated to the Federal Employee Appeals Authority or the Appeals Review Board are vested in the Merit Systems Protection Board.

The Merit Systems Protection Board has determined that the January 11, 1979 effective date of the Act establishes good cause for immediately publishing regulations under the Act.

Accordingly, 5 CFR is amended as follows:

Chapter II, entitled, "Merit Systems Protection Board" is established and new Parts 1200—1206 are added to read as follows:

SUBCHAPTER A—ORGANIZATION AND PROCEDURES

PART 1200—BOARD ORGANIZATION

Subpart A—General

Sec.
1200.1 The Board.
1200.2 The Chair; Vice Chair.

Subpart B—Offices of the Board [Reserved]

Authority: 5 U.S.C. 1101 et seq.

Subpart A—General

§ 1200.1 The Board.

The Merit Systems Protection Board ("the Board") is composed of three members who are appointed by the President with the advice and consent of the Senate, and whose terms are for a period of seven years.

§ 1200.2 The Chair; Vice Chair.

One of the members of the Board shall be designated from time to time by the President, with the advice and consent of the Senate, to serve as the Chair and chief executive and administrative officer of the Board. From time to time the President shall also designate one of the members of the Board to serve as Vice Chair. In the absence or disability of the Chair, or when the office of Chair is vacant, the Vice Chair shall perform the functions vested in the Chair. During the absence or disability of both the Chair and Vice Chair or when their offices are vacant, the remaining Board member shall perform the functions vested in the Chair.

Subpart B—Offices of the Board [Reserved]

PART 1201—PRACTICES AND PROCEDURES

Subpart A—Jurisdiction and Definitions

Sec.
1201.1 General.
1201.2 Original jurisdiction: definition and application.
1201.3 Appellate jurisdiction: definition and application.
1201.4 General definitions.

Subpart B—Hearing Procedures for Appellate Cases

GENERAL

1201.11 Scope.
1201.12 Suspension, revocation, amendment or waiver of rules.

PETITIONS FOR REVIEW OF AGENCY ACTION, PLEADINGS

1201.21 Filing of petition for appeal.
1201.22 Computation of time.
1201.23 Length, form and content of pleadings.
1201.24 Petitions, pleadings and briefs to be filed: form and proof of service.

PARTIES, PRACTITIONERS, WITNESSES

1201.31 Parties, representation.
1201.32 Witnesses, right to representation.
1201.33 Federal witnesses.
1201.34 Intervenors.
1201.35 Substitution.
1201.36 Consolidation or joinder.
1201.37 Fees.

PRESIDING OFFICIALS

1201.41 Authority of presiding officials.
1201.42 Disqualification of presiding official.
1201.43 Sanctions.

HEARINGS

1201.51 Scheduling the hearing.
1201.52 Public hearings.
1201.53 Transcript.
1201.54 Official record.
1201.55 Motions.
1201.56 Burden and degree of proof.
1201.57 Closing the record.

EVIDENCE

1201.61 Service of documents.
1201.62 Admissibility.
1201.63 Production of evidence by order of presiding official.
1201.64 Production of statements.
1201.65 Admission of facts and genuineness of documents.
1201.66 Stipulations.
1201.67 Official notice.

DISCOVERY

1201.71 Statement of purpose.
1201.72 Motions for discovery.
1201.73 Scope.
1201.74 Orders for discovery.
1201.75 Taking of depositions.
1201.76 Rules governing discovery procedures.

SUBPENAS

1201.81 Who may sign and issue.
1201.82 Requests for issuance of subpenas.
1201.83 Motions to quash.
1201.84 Rulings.
1201.85 Service.
1201.86 Return of service.
1201.87 Enforcement.

INTERLOCUTORY APPEALS

1201.91 [Reserved]

EX PARTE COMMUNICATIONS

1201.101 Definitions.
1201.102 Prohibition against ex parte communications.
1201.103 Permissible ex parte communications.
1201.104 Sanctions for prohibited ex parte communications.

FINAL DECISIONS

1201.111 Initial decisions by presiding officials other than the Board.
1201.112 Jurisdiction of the presiding official.
1201.113 Petition for review: contents.
1201.114 Filing of petition.
1201.115 Board action upon petition for review of initial decision.
1201.116 Board reopening and reconsideration of case.
1201.117 Review or reopening of initial decision by Board.

Subpart C—Hearing Procedures for Original Jurisdiction Cases

ACTIONS BROUGHT BY THE SPECIAL COUNSEL

1201.121 Compliance with hearing procedures under Subpart B.
1201.122 Rights of employees or agencies.
1201.123 Complaint.
1201.124 Answer.
1201.125 Final order of the Board.
1201.126 Administrative appeal.
1201.127 State and local officers or employees.

ACTIONS AGAINST ADMINISTRATIVE LAW JUDGES

1201.131 Procedures of this Part.
1201.132 Presiding official.
1201.133 Board jurisdiction.
1201.134 Filing of complaint.
1201.135 Procedure.
1201.136 Showing required.

REMOVAL FROM THE SENIOR EXECUTIVE SERVICE

1201.141 Entitlement to hearing.
1201.142 Hearing procedures.
1201.143 Right to appeal.

Subpart D—Procedures for Cases Alleging Discrimination

1201.151 Compliance with hearing procedures under Subpart B.
1201.152 Statutory basis.
1201.153 Acceptance of appeal by Board.
1201.154 Basis of allegation of discrimination.
1201.155 Right to review by the Equal Employment Opportunity Commission.
1201.156 Action by the Commission.
1201.157 Board action on the Commission decision.
1201.158 Referral of case to Special Panel.
1201.159 Action by Special Panel.

Subpart E—Compliance Enforcement

1201.161 Enforcement of Board orders.

AUTHORITY: 5 U.S.C. 1101 et seq.

Subpart A—Jurisdiction and Definitions

§ 1201.1 General.

The Board exercises two types of jurisdiction: original jurisdiction and appellate jurisdiction.

§ 1201.2 Original jurisdiction: Definition and application.

The Act confers upon the Board original jurisdiction over: actions brought by the Special Counsel (5 U.S.C. §§ 1206(c)(1)(B)(g)(1), (h) and 1207(d)); requests for stays of certain personnel actions (5 U.S.C. § 1208) actions against administrative law judges (5 U.S.C. § 7521); and requests for informal hearings in cases of removal from the Senior Executive Service (5 U.S.C. § 3592).

§ 1201.3 Appellate jurisdiction: Definition and application.

(a) Appellate jurisdiction lies in the Board in cases specified in the Act where there have been prior actions or proceedings within an agency except to the extent that the Board has original jurisdiction as described in § 1201.2. The Act confers appellate jurisdiction over: actions based upon removal, suspension for more than 14 days, reduction in grade or pay, or furlough for 30 days or less (5 U.S.C. § 7513(d)); actions otherwise appealable to the Board and involving an allegation of discrimination (5 U.S.C. § 7702); certain actions relating to the Senior Executive Service (5 U.S.C. § 7543(d)); of the Act and § 413(j) of Public Law 95-454); actions involving reinstatement of preference eligibles (38 U.S.C. § 2023); removal or reduction in grade of competitive or preference eligible employees. (5 U.S.C. § 4303(e)); and denial of grade step increases (5 U.S.C. § 5335(c)); and such actions for which jurisdiction may be granted by regulations of the Office of Personnel Management (OPM).

(b) The Board may not hear matters under §§ 4303 and 7512 where the aggrieved employee has elected to utilize a negotiated grievance procedure rather than the appellate procedures of § 7701. This election does not, however, prejudice the right of the employee to request review pursuant to § 7702 of any final decision otherwise appealable to the Board involving discrimination. (5 U.S.C. § 7121(d) and (e)).

§ 1201.4 General definitions.

(a) *Presiding Official:* This term means any person designated by the Board to preside over any hearing under this Chapter including: a hearing officer, administrative law judge, the Board or any of the Members of the Board when so sitting;

(b) *The Act:* This term means the Civil Service Reform Act of 1978 (Public Law 95-454).

Subpart B—Hearing Procedures for Appellate Cases

GENERAL

§ 1201.11 Scope.

The rules in this subpart govern proceedings pursuant to the appellate jurisdiction of the Board. These rules are also applicable to proceedings pursuant to the original jurisdiction of the Board except as otherwise provided. It is the policy of the Board that these rules shall be applied in order to process each case expeditiously with due regard to the rights of all parties.

§ 1201.12 Suspension, revocation, amendment, or waiver of rules.

These rules may be suspended, revoked, amended or waived in whole or in part by the Board on petition or on its own motion. *Provided, however,* That a presiding official may waive a rule, such as the time limit for filing, for the purpose of an individual case for good cause shown.

PETITIONS FOR REVIEW OF AGENCY ACTION, PLEADINGS

§ 1201.21 Filing of petition for appeal.

(a) *Place of filing:* Petitions for appeal to the Board shall be filed at the appropriate Board field office.

(b) *Time of filing:* The petition shall be filed in the designated place no

A 19 79 UMI

later than twenty calendar days after the effective date of the agency action complained of, or the appellant's receipt of notice of the appealable action, whichever is later. Petitions received from outside of the contiguous 48 states, however, shall be deemed timely filed if received within thirty days after appellant's receipt of notice of an appealable action or the effective date of the action, whichever is later. Such responsive pleadings, briefs, and other documentation as may be required to adjudicate the case fairly and completely shall be filed in accordance with the time limits set by the presiding official. For purposes of this regulation, filing shall be interpreted to mean receipt of the document by the presiding official.

§ 1201.22 Computation of time.

In computing the time for filing any pleadings prescribed by or allowed under these regulations, the day of the event, action, or failure to act, from which the designated time period begins to run shall not be counted. The last day of the period so computed shall be counted unless it is a Saturday, Sunday, or federal legal holiday, in which case the time period shall include the next day which is not a Saturday, Sunday, or federal legal holiday. When the time period prescribed or allowed under these regulations or by order of the presiding official is less than seven (7) days, the time computation shall exclude intervening Saturdays, Sundays and federal legal holidays. When these regulations require the filing of any petition for appeal or review, such petition must be received at the office of the presiding official before the close of business of the last day of the original time limit for such filing, or the last day of any extension of time which may have been granted.

§ 1201.23 Length, form, and content of pleadings.

(a) All petitions shall clearly set forth: the names of the parties; the agency involved; the date of the agency's decision and its effective date; and the nature of the action (*e.g.*, suspension for more than fourteen days, removal, et cetera). All petitions and other pleadings or briefs must bear the signature of the party filing the document or his/her representative.

(b) An appellant under 5 U.S.C. § 7701 is entitled to a hearing before a qualified presiding official. Appellant may waive his/her right to a hearing and in such an event the decision of the presiding official will be made on the written record.

(c) All pleadings, including petitions, responsive pleadings, and briefs, shall be neat and legible and shall be reasonable in length and contain certificates of service where required.

§ 1201.24 Petitions, pleadings, and briefs to be filed: Form and proof of service.

(a) Two copies of all petitions, responsive pleadings, motions and briefs must be filed at the office of the presiding official. Except where otherwise provided in these regulations or by order of the presiding official, a copy of each such document must be served on all parties, including, whenever relevant, intervenors.

(b) Service may be made either upon the party or parties, or, where represented, upon the representative(s) of the party or parties. Such service may be made either by mail or in person. In cases where service is made by mail, the document served must be deposited in an official depository of the United States Postal Service, addressed to the party or his/her representative at the last known address thereof, or, if no address is known, addressed to the office of the presiding official. Service by mail is complete upon mailing. Whenever service is made in person, service is accomplished by handing a copy to the party or representative or by leaving it at the home or office of the party or representative with a person of suitable age and discretion.

(c) Proof of service consists of a certificate affixed to the original of the document being served and filed, showing the name and residence or business address of the person who deposited the document in the mail; the name and residence or business address of the person to whom the document was addressed; and the date, city and state where the document was deposited in the mail. In the case of personal service, the same certificate shall be appended to the document being served and filed, but shall show the name and address of the person making service, the date and place of such service, and the name and address of the person being served.

PARTIES, PRACTITIONERS, WITNESSES

§ 1201.31 Parties, representation.

(a) All parties to an appeal may be represented. The parties shall immediately designate their representatives, if any, in writing to the presiding official, and shall serve a copy of such designation upon all other parties to the appeal. Any subsequent changes in representatives shall also be in writing and served on all other parties.

(b) There are no limitations as to what person may be chosen by a party to represent him/her before the presiding official; however, the other party or parties may challenge the choice on the grounds of conflict of position or conflict of interest. Such a challenge must be made within seven (7) calendar days after receipt of the notice of designation, and must be decided by the presiding official prior to consideration of the case on the merits. These procedures apply equally to original and subsequent designations of representatives.

(c) The presiding official, on his/her own motion, may disqualify a party's representative on the same grounds as described above.

§ 1201.32 Witnesses, right to representation.

Witnesses shall have the right to representation when testifying.

§ 1201.33 Federal witnesses.

Every federal agency shall make its employees available to furnish sworn statements or to appear as witnesses at the hearing when requested by the presiding official.

§ 1201.34 Intervenors.

(a) *Intervention by OPM:* The Director of OPM ("the Director") pursuant to 5 U.S.C. § 7701(d)(1) may intervene as a matter of right if:

(1) the interpretation or application of any Civil Service law, rule or regulation, under the jurisdiction of OPM is at issue; and

(2) the Director is of the opinion that an erroneous decision would have a substantial impact on any Civil Service law, rule, or regulation under the jurisdiction of the Office.

Such intervention shall be made at the earliest practicable time so as not to prejudice the parties or unduly delay the proceeding.

(b) *Intervention of the Special Counsel:* Pursuant to 5 U.S.C. § 1206(i), the Special Counsel may intervene as a matter of right in any proceeding before the Board. Such intervention must be made at the earliest practicable time in the proceeding so as not to prejudice the parties or unduly delay the proceedings.

(c) *Permissive intervention:* Any person whose interests may be directly affected by the outcome of a proceeding before the Board may petition the presiding official for permission to intervene. Such petition shall be served upon all parties of record to the proceeding. It shall be solely within the discretion of the presiding official to grant or deny the petition, based upon his/her determination that the intervention will not prejudice the rights of the parties or unduly delay the proceedings. Such determination shall specify the issues regarding which the intervenor may participate. Under these regulations, a permissive intervenor has the same rights and obligations as a party, except that: 1) the intervenor's scope of participation may be limited by the presiding official to

issues affecting the intervenor; 2) the intervenor shall not have an independent right to a hearing.

§ 1201.35 Substitution.

If a party to an appeal dies or is otherwise unable to pursue the action, the appeal will be processed to completion upon substitution as the party of record of the successor-in-interest to the rights of the party.

§ 1201.36 Consolidation or joinder.

If the presiding official believes that consolidation or joinder of cases would result in more expeditious processing of the appeals and would not adversely affect any party, he/she may, after giving the parties opportunity to object, consolidate the cases and hear and decide them concurrently. In so doing the presiding official may:

(a) consolidate appeals filed by two or more appellants; or

(b) join two or more appeals filed by the same appellant.

§ 1201.37 Fees.

(a) *Attorney fees:* Except as provided in subparagraph (1) of this section, the presiding official may require payment by the agency involved of reasonable attorney fees incurred by an appellant if he/she is the prevailing party and payment by the agency is warranted in the interest of justice, including any cases in which a prohibited personnel practice was engaged in by the agency or any case in which the agency's action was clearly without merit.

(1) If an appellant is the prevailing party and the decision is based on a finding of discrimination prohibited under 5 U.S.C. § 2302(b)(1), the payment of attorney fees shall be in accordance with the standards prescribed under § 706(k) of the Civil Rights Act of 1964 (42 U.S.C. 2000e-5(k)).

(2) If, after a presiding official determines that fees are properly payable, the agency involved agrees to the amount of the fees requested, the presiding official shall order payment of such fees. If the agency does not agree to the amount requested, the presiding official may require the attorney requesting the fees and the agency involved to submit any information or argument concerning the application for fees. The presiding official shall then determine the proper amount of fees to be awarded.

(b) *Witness fees:* (1) Federal employees: Employees of any federal agency who testify in any proceeding before the Board shall not receive witness fees if they are in official duty status. Payment of travel and per diem expenses shall be governed by applicable regulations of OPM and the Federal Travel Regulations of the General Services Administration.

(2) Other witnesses: Witnesses who are not covered by subsection (1) of this section are entitled to the same witness fees as those paid subpenaed witnesses under 28 U.S.C. § 1821.

(3) Payment of witness fees: Witness fees shall be paid by the party requesting the presence of the witness and shall be tendered to the witness at the time the subpena is served, or, where the witness appears voluntarily, at the time of appearance.

PRESIDING OFFICIALS

§ 1201.41 Authority of presiding officials.

Presiding officials shall conduct fair and impartial hearings and take all necessary action to avoid delay in the disposition of all proceedings. They shall have all powers necessary to that end unless otherwise limited by statute or regulation, including the authority to:

(a) Administer oaths and affirmations;

(b) Issue subpenas in accordance with § 1201.81 of this Part;

(c) Rule upon offers of proof and receive relevant evidence;

(d) Rule upon the institution of discovery procedures as appropriate in accordance with § 1201.74;

(e) Regulate the course of the hearing, maintain decorum, and exclude from the hearing any person engaged in contemptuous conduct or otherwise disrupting the proceeding, any witness whose presence may adversely affect the testimony of any other witness, or any witness who may testify in the future;

(f) Consider and rule upon all procedural and other appropriate motions;

(g) Require the filing of memoranda of law and the presentation of oral argument with respect to any question of law;

(h) Order the production of evidence relevant to the issues to be resolved in the hearing;

(i) Impose sanctions as provided under § 1201.43 of this Part;

(j) File initial decisions; and

(k) To take any other action authorized by these rules.

§ 1201.42 Disqualification of presiding official.

(a) In the event that a presiding official deems him/herself disqualified he/she shall withdraw from the case and immediately notify the Board of the withdrawal.

(b) Any party may make a motion for disqualification of the presiding official not later than 5 days before the commencement of the hearing. The basis for the motion for disqualification shall be stated with specificity.

(c) The presiding official may rule on the motion for disqualification. If the ruling is against the moving party, exception must be taken to the ruling or the right to request disqualification will be deemed to have been waived.

(d) In the event that an exception is taken to the ruling of the presiding official he/she shall certify the motion to the Board and the proceeding shall be stayed pending its determination.

§ 1201.43 Sanctions.

The presiding official may impose any necessary sanctions upon the parties as will serve the ends of justice including:

(a) *Failure to comply with an order:* In the absence of good cause shown, if a party fails to comply with an order including an order for: the taking of a deposition; the production of evidence within the party's control; compliance with a subpena; a request for admission; and production of a witness; the presiding official may:

(1) Draw an inference in favor of the requesting party with regard to the information sought; or

(2) Prohibit the party failing to comply with such request from introducing evidence of, or otherwise relying upon testimony relating to, the information sought; or

(3) Permit the requesting party to introduce secondary evidence of the information sought, and prohibit the party failing to comply with the request from objecting thereto; or

(4) Strike that part of the pleadings or other submission of the party failing to comply with such request pertaining thereto.

(b) *Failure to prosecute:* If a party fails to prosecute his/her case or defend an appeal the presiding official may dismiss the action with prejudice or rule for the appellant.

(c) *Failure to make timely filing:* The presiding official may refuse to consider any motion or other action which is not filed in a timely fashion in compliance with this Part.

(d) *Failure to make service:* The presiding official may refuse to consider any motion or other action which is not properly served on all parties. A failure to meet technical requirements of service under this Part will not affect the rights of any parties if service was actually completed and the rights of the party being served was not prejudiced.

HEARINGS

§ 1201.51 Scheduling the hearing.

The notice of hearing shall fix the date, time and place of the hearing. The hearing shall be scheduled not earlier than ten calendar days after the date of the notice. The agency, upon request of the presiding official,

shall provide adequate hearing facilities. Requests for postponement by either party shall be made in writing and shall be granted only upon good cause shown.

§ 1201.52 Public hearings.

A public hearing shall be held unless the appellant requests a closed hearing. The presiding official may close one or more sessions of a hearing in the best interests of the appellant, a witness, the public or other affected persons. The reasons for the hearing officer's decision to close one or more sessions of a hearing, and any objections thereto, shall be made a part of the record.

§ 1201.53 Transcript.

(a) *Preparation:* Every hearing shall be recorded verbatim under the supervision of the presiding official and shall be the sole official transcript of the proceeding. A copy of the transcript shall be made available to each party; intervenors shall be furnished a copy at their own cost.

(b) *Corrections:* Corrections of the official transcript will be permitted only when errors of substance are involved and only upon approval of the presiding official.

§ 1201.54 Official record.

The transcript of testimony and exhibits, together with all papers and requests filed in the proceeding shall constitute the exclusive and official record.

Where any decision rests on official notice of a material fact not appearing in the record, the presiding official shall so state in his/her decision.

§ 1201.55 Motions.

(a) All motions shall be filed with and decided by the presiding official—if within his/her authority to do so.

(b) All motions shall be in writing, stating the particular order, ruling or action desired and the basis therefor and shall be served on all parties. The presiding official may waive the requirement for a written submission if it is made during the course of the hearing.

(c) Motions for extension of time will be granted only for good cause shown.

§ 1201.56 Burden and degree of proof.

(a) *Burden of proof:*

(1) Pursuant to § 7701(c)(2) of the Act the agency's decision may not be sustained by the presiding official if the employee can demonstrate that the decision of the agency:

(i) was based upon harmful error in the application of its own procedures;

(ii) was based upon a prohibited personnel practice as set forth in § 2302(b) of the Act; or

(iii) was not otherwise in accordance with law.

(b) *Degree of proof:* In the absence of the appellant's ability to demonstrate the above, the decision of the agency must be sustained by the Board pursuant to § 7701(b)(1) of the Act if:

(1) it is brought under § 4303 of the Act and can be supported by substantial evidence, or

(2) it is any other type of case and is supported by a preponderance of the evidence.

(c) *Moving forward:* The agency shall present its case first. The appellant may then present rebuttal evidence, Provided however, that the appellant shall have the burden of proof as to issues of jurisdiction.

§ 1201.57 Closing the record.

(a) When there is a hearing, the record shall be closed at the conclusion of the hearing except that, when the presiding official allows the parties to submit written argument or briefs or documents previously identified for introduction into evidence, the record shall be left open for such time as the presiding official grants for that purpose.

(b) In cases in which the appellant waives a hearing, the record will be closed on the date set by the hearing officer as the final date for the receipt of representations of the parties to the matter.

(c) Once the record is closed, no additional evidence or argument shall be accepted into the record except upon a showing that new and material evidence which was not readily available prior to the closing of the record is now available and is offered into evidence.

Evidence

§ 1201.61 Service of documents.

All evidentiary documents shall be served upon all parties to the proceeding in the same manner as pleadings, to the extent practicable. Exception to this rule shall be made for medical evidence which a prudent physician would hesitate to release to a patient. Such evidence shall be made available only to a duly licensed physician designated by the appellant or his/her representative.

§ 1201.62 Admissibility.

All evidence and testimony offered in the hearing, or where appropriate, a description thereof, shall be made a part of the record even though excluded by the presiding official from consideration as being irrelevant, immaterial, or unduly repetitious.

§ 1201.63 Production of evidence by order of presiding official.

At any stage of a hearing, the presiding official may request further evidence upon an issue and require its submission.

§ 1201.64 Production of statements.

After a witness is called and has given direct testimony in a hearing, but before he/she is excused, any party may move for production of a statement of such witness, or part thereof relevant to his/her direct testimony, which has been reduced to writing and signed by the witness and is in the possession of the party calling the witness. If the party declines to furnish the statement, the testimony of the witness pertaining to the requested statement may be stricken.

§ 1201.65 Admission of facts and genuineness of documents.

(a) Upon leave of the presiding official, a party may serve upon any other party a request for the admission by the latter of the genuineness of any relevant documents identified within the request or the truth of any relevant matters of fact as set forth in the request.

(b) Within the time period prescribed by the presiding official, the party on whom the request is served must serve upon the requesting party:

(1) a sworn statement specifically denying or admitting or expressing a lack of knowledge regarding the specific matters on which an admission is requested; or

(2) an objection to the request in whole or in part on the ground that the matters contained therein are privileged or irrelevant or otherwise improper.

§ 1201.66 Stipulations.

The parties may stipulate to the truth of any alleged fact. Such a stipulation will satisfy a party's burden of proving the alleged fact.

§ 1201.67 Official notice.

The presiding official may take official notice of matters of common knowledge or certain verification and the taking therof will be noted in the record. Notice will not be taken unless the parties are advised and given the opportunity to oppose the propriety of taking such notice. Official notice satisfies a party's burden of proving the fact which is noticed.

Discovery

§ 1201.71 Statement of purpose.

It is the intent of the Board that all proceedings will be conducted as expeditiously as possible with due regard to the rights of the parties. With regard to discovery, these two considerations

require that a careful balance be established between avoiding unproductive delay in adjudication and obtaining that information essential to perfect the record. Accordingly, the discretion of the presiding official must be carefully exercised in determining the necessity for discovery in the appellate jurisdiction of the Board.

§ 1201.72 Motions for discovery.

Any party to the proceeding may file a motion with the presiding official for approval of the taking of depositions and interrogatories; the production of documents or other evidence or information. Such motions shall be filed prior to hearing.

§ 1201.73 Scope.

Persons and parties may be examined regarding any matter, not privileged, which is relevant to the hearing issues, including the existence, description, nature, custody, condition and location of documents or other tangible things and the identity and location of persons having knowledge of relevant facts.

§ 1201.74 Orders for discovery.

(a) Request for order: Requests for orders to take deposition or respond to written interrogatories where the presiding official is an administrative law judge or the Board may be submitted directly to the presiding official.

(b) Rulings: Presiding officials may approve or deny motions for discovery in whole or in part when authorized to do so. Approval in whole or in part of any motion for discovery shall be made by written order and shall include the following where appropriate:

(1) provision for notice to the party to be orally deposed as to the time and place of such deposition;

(2) any limitations on the conduct of the proceeding or the subject matter so as to protect any party or deponent from expense, embarrassment or oppression;

(3) any limitations upon the time for: deposition; submission of or answer to written interrogatories; or production of evidence; and

(4) any other restrictions upon the discovery procedures as determined by the presiding official.

§ 1201.75 Taking of depositions.

Depositions may be taken before a presiding official, or a notary public not interested in the outcome of the proceeding.

§ 1201.76 Rules governing discovery procedures.

Because discovery pursuant to the appellate jurisdiction of the Board is intended to be of a simplified nature, procedures are not set forth in great detail. To the extent, however, that the nature of discovery in a case requires further detail, the presiding official and parties may seek guidance in the Federal Rules of Civil Procedure on this subject. However, such rules should be interpreted as being instructive rather than controlling.

Subpenas

§ 1201.81 Who may sign and issue.

Pursuant to 5 U.S.C. § 1205(b)(2) of the Act any Member of the board or an administrative law judge appointed under 5 U.S.C. § 3105, may issue subpenas requiring the attendance and testimony of witnesses and the production of documents or other evidence.

§ 1201.82 Requests for issuance of subpenas.

(a) Requests for a subpena in a proceeding where the presiding official is the Board, a Member of the Board, or an administrative law judge, may be submitted directly to the presiding official;

(b) Unless submitted on the record while a hearing is in progress, requests for a subpena for testimony and documents shall be submitted in writing, and in the case of the latter shall specify with particularity the books, papers and documents desired and the facts expected to be proven thereby.

(c) All requests for subpenas shall be supported by a showing of the general relevance and reasonable scope of the evidence sought.

§ 1201.83 Motions to quash.

Any person against whom a subpena is directed may file a motion to quash or limit the subpena, setting forth the reasons why the subpena should not be complied with or why it should be limited in scope.

§ 1201.84 Rulings.

In denying a request for a subpena or motion to quash, in whole or in part, presiding officials shall render prompt rulings including a statement of the reasons for such denial.

§ 1201.85 Service.

Service of subpena may be made by a United States Marshal or Deputy Marshal, by Board personnel or any person who is not a party to the hearing and is over 18 years of age.

§ 1201.86 Return of service.

The service of a subpena by a person other than a United States Marshal or Deputy Marshal shall be attested to by the person making such service. The attesting affidavit should state the date, time and method of making service.

§ 1201.87 Enforcement.

In the case of contumacy or failure to obey a subpena issued, the Board may request the United States District Court to enforce the subpena pursuant to 5 U.S.C. § 1205(c). Application for enforcement of the subpena shall be made by the General Counsel of the Board.

Interlocutory Appeals

§ 1201.91 [Reserved]

Ex Parte Communications

§ 1201.101 Definitions.

(a) *Ex parte communication:*

(1) Any written presentation made to decision-making personnel of the Board during the course of a restricted proceeding by any other person which is not served on the parties to the proceeding.

(2) Any oral presentation made to decision-making personnel by any other person during the course of a restricted proceeding without advance notice to the parties to the proceeding.

(b) *Restricted proceeding:* All adjudicative proceedings, from the time they are assigned for decision until the time they are no longer subject to review or reconsideration by the Board.

(c) *Interested persons:* Any person having a direct or indirect interest in the outcome of a restricted proceeding, including the following:

(1) Parties to the restricted proceeding.

(2) Any other person who might be aggrieved or adversely affected by the outcome of the restricted proceeding.

(3) Agents for persons who might be aggrieved or adversely affected by the outcome of the restricted proceeding, including attorneys and other representatives.

(d) *Decision-making Board personnel:* The term "Decision-making personnel" includes any presiding official and his/her immediate staff or other Board employee who participates, or can reasonably be expected to participate, in the initial decision-making process or the decision-making process on review or reconsideration.

§ 1201.102 Prohibition against ex parte communications.

(a) No interested person shall, in a restricted proceeding, make or knowingly cause to be made, any ex parte communications to decision-making personnel.

(b) No person shall solicit or encourage others to make any presentation which is otherwise prohibited under this section.

(c) Except as provided in § 1202.102, decision-making personnel shall not make or cause to be made, solicit or encourage ex parte presentations from

V 4 4 / 1 4 A 19 7 9 UMI

any person and shall not entertain prohibited ex parte communications.

§ 1201.103 Permissible ex parte communications.

The following ex parte communications shall not be considered to be ex parte communications prohibited by the provisions of this subpart.

(a) Ex parte communications authorized by statute or by the Board's rules. However, pleadings which are required to be served but which may be ruled on ex parte do not fall within this category.

(b) Any communication made by or to the General Counsel or his/her staff.

(c) Any communication from an agency of the Federal Government involving classified security information.

(d) Any request for information solely with respect to the status of a restricted proceeding.

§ 1201.104 Sanctions for prohibited ex parte communications.

(a) *Parties:*

(1) Upon notice and hearing, any party to a restricted proceeding who directly or indirectly makes any unauthorized ex parte presentation or who encourages or solicits others to make any such presentation, may be disqualified by the presiding official from further participation in that proceeding. Such alternative or additional sanctions as may be appropriate may be imposed.

(2) To the extent consistent with the interests of justice and the public, a party who has made an ex parte presentation may be required to show cause why his/her claim or interest in the proceeding should not be dismissed, denied, disregarded or otherwise adversely affected.

(b) *Board personnel:* Violations of the provisions of this subpart by Board personnel will be treated in accordance with established disciplinary procedures.

(c) *Other persons:* Such sanctions as may be appropriate under the circumstances will be imposed upon other persons who violate the provisions of this subpart.

FINAL DECISIONS

§ 1201.111 Initial decisions by presiding officials other than the Board.

(a) Except as otherwise provided in this section, the presiding official shall prepare an initial (or recommended) decision within 25 days of the closing of the record, such initial decision shall be immediately transmitted to the Secretary of the Board, to the Director of OPM and to all parties to the hearing.

(b) Each initial decision shall contain:

(1) Findings of fact and conclusions, as well as the reasons or basis therefore, upon all the material issues of fact, law or discretion presented on the record.

(2) The appropriate rule or order and the sanction, relief or denial thereof.

(3) Recommendations as to the final disposition of the case; and

(4) The date upon which the decision will become effective in accordance with the provisions of this section and in the absence of appeal or reopening.

§ 1201.112 Jurisdiction of the presiding official.

The jurisdiction of the presiding official other than the Board shall cease after he/she has filed the initial decision, *Provided, however,*, that he/she shall retain limited jurisdiction over the proceeding for the purpose of correcting the transcript.

§ 1201.113 Petition for review: Contents.

The petition for review shall contain exceptions to the decision of the presiding official. The basis for each exception shall be clearly set forth and shall include the laws relied upon in support of the petition with specific reference to the record. The Board may grant a petition for review when the party requesting submits written review argument and supporting documentation tending to establish that:

(a) New and material evidence is available that despite due diligence was not available when the decision of the presiding official was issued; or

(b) The decision of the presiding official is based upon an erroneous interpretation of law, rule, or regulation, or a misapplication of established policy; or

(c) The decision of the presiding official is of a precedential nature involving new or unreviewed policy considerations that may have substantial impact on a civil service law, rule, regulation or a more Government-wide policy directive.

§ 1201.114 Filing of petition.

(a) *Who may file:* Any party to the proceeding or the Director of the Office of Personnel Management. The Director may request review of a case when he/she is of the opinion that the decision is erroneous and will have a substantial impact on any civil service law, rule, or regulation under the jurisdiction of the Office.

(b) *Time limit for filing:* A petition for review of the initial or final decision must be filed within 30 days of receipt of the decision.

(c) *Place of filing:* Petitions for review shall be filed with the Secretary to the Merit Systems Protection Board, Washington, D.C. (20419).

§ 1201.115 Board action upon petition for review of initial decision.

Any member of the Board may grant a petition for review. In the event that a petition for review is granted shall suspend the running of the 30 day period before which the initial decision will become final. A failure to grant review within the 30 day period shall be deemed to be a denial and the initial decision shall become final.

§ 1201.116 Board reopening and reconsideration of case.

The Board may reopen and reconsider an initial decision of a presiding official on its own motion.

§ 1201.117 Review or reopening of initial decision by Board.

(a) In any case where the Board determines to reopen on its own motion, it shall inform the parties, the Director of OPM and the Special Counsel, in writing, of its decision to reopen, and state the issues which it will consider.

(b) In any case where the Board has determined to grant a petition for review or to reopen a case on its own motion it may take one or more of the following actions:

(1) hear oral argument;

(2) require the filing of briefs; and

(3) reopen the record and remand the proceedings to the presiding official to take further testimony or evidence or to make further findings or conclusions. The Board may deny a petition to review issues not raised before the presiding official.

(c) The Board may affirm or reject, in whole or in part, the initial decision of the presiding official and shall issue a final decision and order a date for compliance where appropriate.

Subpart C—Hearing Procedures for Original Jurisdiction Cases

ACTIONS BROUGHT BY THE SPECIAL COUNSEL

§ 1201.121 Compliance with hearing procedures under subpart B.

In cases where the Special Counsel, under §§ 1206(c), (g)(1) and (h), files a complaint with the Board, he/she shall comply in all regards with the regulations set forth in subpart B, regarding hearing procedures, except as otherwise provided in this subpart. The presiding official in such actions shall be an administrative law judge appointed under 5 U.S.C. § 3105, or the Board.

§ 1201.122 Rights of employees or agencies.

Pursuant to 5 U.S.C. § 1207(a), an employee or agency against whom a complaint has been presented by the

Special Counsel shall have the right to:

(a) file an answer to the complaint;

(b) be represented by an attorney;

(c) a hearing upon the record before the Board or an administrative law judge appointed under 5 U.S.C. § 3105; and

(d) a decision by the Board and the basis therefore at the earliest possible date.

§ 1201.123 Complaint.

(a) If the Special Counsel determines that action should be taken against any employee or agency under 5 U.S.C. §§ 1206(g) or (h), a written complaint setting forth with particularity the supporting facts shall be filed with the Board.

(b) If the Special Counsel determines that an agency has not taken corrective action recommended under 5 U.S.C. § 1206(c)(1)(B) or has engaged in a pattern of prohibited personnel practices not otherwise appealable to the Board under 5 U.S.C. § 7701, a written complaint setting forth with particularity the supporting facts may be filed with the Board.

§ 1201.124 Answer.

(a) *Filing and Default:* The answer shall be filed with the Secretary of the Board within 30 days of receipt of the complaint made by the Special Counsel to the Board. Failure to file an answer without good cause shall be deemed to constitute a waiver of the right to appear and contest the allegations of the complaint. This failure shall authorize the administrative law judge to find the facts alleged in the complaint to be true and to enter an initial decision.

(b) *Content:* An answer shall conform to the following:

(1) *Allegations of the complaint which are contested:* An answer shall contain, for those allegations of a complaint which are contested:

(i) A concise statement of the facts constituting each ground of defense and any documentary evidence in support thereof.

(ii) Specific admission, denial, or explanation of each fact alleged in the complaint or, if the respondent is without knowledge thereof, a statement to that effect. Allegations of a complaint not thus answered shall be deemed to have been admitted.

(2) *Allegations of the complaint which are admitted:* For those allegations which the respondent elects not to contest, his/her answer shall consist of statements of admissions to the truth of such allegations. Such portions of an answer shall constitute a waiver of hearings as to those facts alleged in the complaint, and together with the complaint will provide a record basis on which the administrative law judge or the Board may file an initial decision with respect to such allegations, containing appropriate finding and conclusions and an appropriate order disposing of the proceeding with respect to them.

§ 1201.125 Final order of the Board.

(a) A final order of the Board under 5 U.S.C. § 1207 may impose disciplinary action consisting of removal, reduction in grade, debarment from federal employment for a period not to exceed five years, suspension, reprimand, or the assessment of a civil penalty not to exceed $1,000.

(b) A final order of the Board under 5 U.S.C. 1206(c)(1)(B) may not be imposed without granting to OPM the opportunity to comment on the charges filed by the Special Counsel. The Board may order such corrective actions as are necessary.

(c) The Board may order an agency under 5 U.S.C. § 1206(h) to take such corrective actions as the Board determines necessary.

§ 1201.126 Administrative appeal.

No administrative appeal lies from an order of the Board. In the case of employee disciplinary actions under § 1207, the employee may seek judicial review in the United States Court of Appeals for the circuit in which the employee resides or is employed at the time of such action. An initial decision of an administrative law judge may be appealed to the Board for review under § 1201.113 of this Part.

§ 1201.127 State and local officers or employees.

Cases involving state and local officers and employees shall be considered in accordance with the provisions of Chapter 15 of 5 U.S.C.

ACTIONS AGAINST ADMINISTRATIVE LAW JUDGES

§ 1201.131 Procedures of this part.

Where, pursuant to 5 U.S.C. § 7521, an agency proposes to take action against an administrative law judge appointed under 5 U.S.C. § 3105, the hearing shall comply with the procedures established under subpart B, except as otherwise provided.

§ 1201.132 Presiding official.

The presiding official in all cases brought under this section shall be the Board.

§ 1201.133 Board jurisdiction.

The proposed agency actions which may be heard before the Board under this provision are limited to:

(a) a removal;

(b) a suspension;

(c) a reduction in grade;

(d) a reduction in pay; and

(e) a furlough of 30 days or less.

§ 1201.134 Filing of complaint.

Any action against an administrative law judge shall be initiated by the filing of a complaint setting forth with particularity the facts in support of the action proposed by the moving agency.

§ 1201.135 Procedure.

The administrative law judge against whom the complaint is filed shall file an answer to the complaint in compliance with § 1201.124 of this Subpart.

§ 1201.136 Showing required.

Proposed agency actions under this section are sustainable only for good cause shown.

REMOVAL FROM THE SENIOR EXECUTIVE SERVICE

§ 1201.141 Entitlement to hearing.

In the case of removal of a career appointee from the Senior Executive Service to a civil service position outside the Senior Executive Service pursuant to 5 U.S.C. § 3592, when such action is based on less than fully successful performance as determined under subchapter II of Chapter 43 of title 5, United States Code, the career appointee shall, at least 15 days before the effective date of the removal, be entitled, upon request, to an informal hearing before an official appointed by the Board.

§ 1201.142 Hearing procedures.

In an informal hearing before the Board or its designee as provided for in this section, the appointee may appear and present arguments on the record but shall not be entitled to any other procedural rights.

§ 1201.143 Right to appeal.

No right to appeal from this action shall be available under 5 U.S.C. § 7701, nor shall the removal action be delayed as a result of this hearing.

Subpart D—Procedures for Cases Alleging Discrimination

§ 1201.151 Compliance with hearing procedures under Subpart B.

In cases brought under 5 U.S.C. § 7702, the hearing shall comply with the procedures established under Subpart B except as otherwise provided.

§ 1201.152 Statutory basis.

This subpart applies to appeals in which an appellant alleges that an action otherwise appealable to the Board was based in whole or in part upon discrimination prohibited by—

(a) section 717 of the Civil Rights Act of 1964 (42 U.S.C. § 2000e-16c),

(b) section 6(d) of the Fair Labor Standards Act of 1938 (29 U.S.C. § 206(d)),

(c) section 501 of the Rehabilitation Act of 1973 (29 U.S.C. § 791),

(d) sections 12 and 15 of the Age Discrimination in Employment Act of 1967 (29 U.S.C. §§ 631, 633a), or

(e) any rule, regulation, or policy directive prescribed under any provision of law described in paragraphs (a) through (d) of this section.

§ 1201.153 Acceptance of appeal by Board.

The Board shall accept cases involving discrimination where:

(a) The appellant first raised the issue of discrimination before the agency whose action is being appealed, the Board shall accept the appeal only if—

(1) the agency has issued its final decision in the matter pursuant to 5 U.S.C. § 7702(a)(2); or

(2) the agency has failed to issue its decision in the matter within 120 days following the appellant's initial allegation of discrimination to the agency pursuant to 5 U.S.C. § 7702(e)(2).

(b) The appellant initially pursued a grievance otherwise appealable to the Board under this subpart through a negotiated grievance procedure established pursuant to the provisions of 5 U.S.C. § 7121, the Board shall accept the appeal only if—

(1) A final decision has been issued in the matter pursuant to the negotiated grievance procedure and such decision constitutes the agency decision pursuant to 5 U.S.C. § 7702(a)(2); or

(2) the agency has failed to issue its decision in the matter within 120 days following the employee's initial allegation of discrimination to the agency.

§ 1201.154 Basis of allegation of discrimination.

Where a party alleges discrimination by an agency and brings an action before the Board it may require the party to submit a written statement under oath setting forth the basis for the allegation of discrimination.

§ 1201.155 Right to review by the Equal Employment Opportunity Commission.

The Board shall notify an appellant under this subpart of his/her right to petition the Equal Employment Opportunity Commission (the "Commission") to consider the Board's decision on the discrimination issue within 30 days after notice of the decision by the Board, or to file a civil action in an appropriate U.S. District Court.

§ 1201.156 Action by the Commission.

(a) *Time Limit:* In cases where an employee or applicant decides to petition the Commission for reconsideration, the Commission, under 5 U.S.C. § 7702(b)(2) shall determine within 30 days after receipt of the petition whether to consider the Board's decision. In those instances where the Commission determines to consider, within 60 days after reaching such determination, it shall complete its reconsideration and either concur or write a contrary decision.

(b) *Transmittal of record:* The Board shall transmit a copy of its record to the Commission.

(c) *Development of additional evidence:* When requested by the Commission the Board shall develop additional evidence necessary to supplement the record.

§ 1201.157 Board action on the Commission decision.

Within 30 days after receipt of the decision of the Commission, the Board shall:

(a) concur and adopt in whole the decision of the Commission; or

(b) reject the decision of the Commission to the extent that it finds it erroneous and:

(1) reaffirm the initial decision of the Board; or

(2) reaffirm the initial decision of the Board with such revisions as it determines appropriate.

§ 1201.158 Referral of case to special panel.

If the Board reaffirms the Board's initial decision, with or without modification, the matter shall be immediately certified to the special panel established pursuant to 5 U.S.C. § 7702. Upon certification, the Board shall within 5 days (excluding Saturdays, Sundays, and federal holidays), transmit to the special panel the administrative record in the proceeding, including—

(a) the factual record compiled under this section,

(b) the decisions issued by the Board and the Commission under this section, and

(c) any transcript of oral arguments made, or legal briefs filed, before the Board or the Commission.

§ 1201.159 Action by special panel.

The special panel, convened pursuant to 5 U.S.C. § 7702(d)(2)(A), shall review the administrative record transmitted to it, and, on the basis of the record, issue a final decision which shall be judicially reviewable. The Board shall, upon receipt of the decision of the special panel, order the agency concerned to take any action appropriate to carry out the decision of the panel.

Subpart E—Compliance Enforcement

§ 1201.161 Enforcement of Board orders.

The Board may, upon an adverse decision after a hearing on a complaint filed by the Special Counsel under subchapter B of this Chapter or after giving the employee an opportunity to be heard by the Board or its designee, order that any employee, other than an employee appointed by the President by and with the consent of the Senate, charged with complying with an order of the Board, shall not be entitled to receive payment for service as an employee during any period that the Board's order has not been complied with. The Board shall certify to the Comptroller General of the United States that such an order has been issued and no payment shall be made out of the Treasury of the United States for any service specified in the Board's order.

PART 1202—STATUTORY REVIEW BOARDS

§ 1202.1 Designation of Chair of Statutory Review Boards.

Upon written request by the agency—

(a) The Chair of the Board shall designate a hearing officer of the Board to serve as Chair of the Boards of Review, established by the Secretary of Transportation pursuant to 5 U.S.C. § 3383(b) for review of certain actions to remove air traffic controllers.

(b) The Board shall designate qualified employees of the Board to serve as chairs of performance rating review boards which may be required to be established pursuant to 5 U.S.C. § 4305(b) of the Act as in effect immediately before the effective date of the Act until such time that all reviews of performance ratings pending on the effective date of the Act have been disposed of. CHAPTER II—FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER A—CHILD NUTRITION PROGRAMS

PART 227—NUTRITION EDUCATION AND TRAINING PROGRAM

Assessment of State Nutrition Education Needs, Development of State Plans, and Operational Requirements; Authority Citation

AGENCY: Food and Nutrition Service, USDA.

ACTION: Notification of Authority Citation.

SUMMARY: At 43 FR 25132, June 9, 1978, the Food and Nutrition Service adopted amendments to the interim regulations relating to the Nutrition Education and Training Program. Those amendments added new sections governing the assessment of State nutrition education needs, the development of State plans, and additional operational requirements. This document adds the authority citation under which those amendments were issued.

EFFECTIVE DATE: June 9, 1978.

FOR FURTHER INFORMATION CONTACT:

Henry Rodriguez, Acting Director, Nutrition and Technical Services Division, Food and Nutrition Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-8286.

SUPPLEMENTARY INFORMATION: The proper authority citation for the rule document 78-16251 which amended §§ 227.5, 227.30 and added §§ 227.31, 227.36, 227.37, 227.41-227.44, published at 43 FR 25132 is as follows:

SUBCHAPTER B—GENERAL REGULATIONS AND POLICIES—FOOD DISTRIBUTION

PART 250—DONATION OF FOODS FOR USE IN UNITED STATES, ITS TERRITORIES AND POSSESSIONS AND AREAS UNDER ITS JURISDICTION

Notification of Authority Citations

AGENCY: Food and Nutrition Service, USDA.

ACTION: Notification of authority citations.

SUMMARY: At 43 FR 9782-9783, the Food and Nutrition Service (FNS) adopted a final rule (Amdt. 39) deleting provisions for the Commodity Supplemental Food Program since new regulations for that program had been published under 7 CFR Part 247 at 43 FR 8777. Also, at 43 FR 20954-20955, FNS adopted a final rule (Amdt. 40) pertaining to food donations to nonprofit summer camps for children. Finally, at 43 FR 39070-39074, FNS adopted a final rule (Amdt. 41) making miscellaneous changes related to food donations to programs authorized under the National School Lunch Act and the Child Nutrition Act of 1966. This document adds the authority citations under which these amendments were issued.

DATES: Amdts. 39, 40 and 41 appeared on March 10, 1978, May 16, 1978, and September 1, 1978, respectively.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 182]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona lemons that may be shipped to market during the period January 21-27, 1979. Such action is needed to provide for orderly marketing of fresh lemons for this period due to the marketing situation confronting the lemon industry.

EFFECTIVE DATE: January 21, 1979.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, (202) 447-6393.

SUPPLEMENTARY INFORMATION: *Findings.* Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, and upon other information, it is found that the limitation of handling of lemons, as hereafter provided, will tend to effectuate the declared policy of the act. This regulation has not been determined significant under the USDA criteria for implementing Executive Order 12044.

The committee met on January 16, 1979, to consider supply and market conditions and other factors affecting the need for regulation and recommended a quantity of lemons deemed advisable to be handled during the specified week. The committee reports the demand for lemons is easier.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

§ 910.482 Lemon Regulation 182.

Order. (a) The quantity of lemons grown in California and Arizona which may be handled during the period January 21, 1979, through January 27, 1979, is established at 200,000 cartons.

(b) As used in this section, "handled" and "carton(s)" mean the same as defined in the marketing order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: January 18, 1979.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 79-2274 Filed 1-18-79; 11:28 am]

[3410-34-M]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 73—SCABIES IN CATTLE

Areas Quarantined

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: The purpose of these amendments is to quarantine additional portions of San Luis Obispo County in California and a portion of Bureau County in Illinois because of the existence of cattle scabies. Psoroptic cattle scabies was confirmed from specimens collected from cattle in these areas by the Veterinary Services Laboratories in Ames, Iowa. Therefore, in order to prevent the dissemination of cattle scabies it is necessary to quarantine the infested areas.

EFFECTIVE DATE: January 12, 1979.

FOR FURTHER INFORMATION CONTACT:

Dr. Glen O. Schubert, Chief Staff Veterinarian, Sheep, Goat, Equine, and Ectoparasites Staff, USDA, APHIS, VS, Federal Building, Room 737, 6505 Belcrest Road, Hyattsville, MD 20782, 301-436-8322.

SUPPLEMENTARY INFORMATION: These amendments quarantine additional portions of San Luis Obispo County in California and a portion of Bureau County in Illinois because of the existence of cattle scabies. The restrictions pertaining to the interstate movement of cattle from quarantined areas as contained in 9 CFR Part 73, as amended, will apply to the areas quarantined.

Accordingly, Part 73, Title 9, Code of Federal Regulations, as amended, restricting the interstate movement of cattle because of scabies, is hereby amended as follows:

1. In § 73.1a, in paragraph (c) relating to the State of California, new paragraphs (c)(4) and (c)(5) are added to read:

§ 73.1a Notice of quarantine.

* * * * *

(c) * * *

* * * * *

(4) The premises of the Davis Brothers (Happy Valley Ranch), Atascadero, San Luis Obispo County, California, R. 13 E., T 28 S., S. ½ sec. 30, and N. ½ sec. 31.

(5) The premises of the Edwin Borchert Ranch, Paso Robles, San Luis Obispo County, California, R. 13 E., T 25 S., secs. 1, 2, 11, 12, 27, 28, 33, and 34, T. 24 S., secs. 25, 35, and 36.

* * * * *

2. In § 73.1a, a new paragraph (f) relating to the State of Illinois is added to read:

§ 73.1a Notice of quarantine.

* * * * *

(f) Notice is hereby given that cattle in a certain portion of the State of Illinois are affected with scabies, a contagious, infectious, and communicable disease; and, therefore, the following area in such State is hereby quarantined because of said disease:

The premises of the Prime Rib Feedlot, Walnut, Bureau County, Illinois, Sec. 24, T. 18 N., R. 8 E., Bureau County, Illinois.

(Secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; secs. 1-4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; (21 U.S.C. 111-113, 115, 117, 120, 121, 123-126, 134b, 134f); 37 FR 28464, 28477; 38 FR 19141.)

These amendments impose certain further restrictions necessary to prevent the interstate spread of cattle scabies and must be made effective immediately to accomplish their purpose in the public interest. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and contrary to the public interest, and good cause is found for making the amendments effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 12th day of January 1979.

NOTE.—This final rulemaking is being published under emergency procedures as authorized by E.O. 12044 and Secretary's Memorandum 1955. It has been determined by J. K. Atwell, Assistant Deputy Administrator, Animal Health Programs, APHIS, VS, USDA, that the possibility of the spread of cattle scabies into other States or Territories of the United States is severe enough to constitute an emergency which warrants the publication of this quarantine without waiting for public comment. These amendments to the regulations covering cattle scabies will be scheduled for review under provisions of E.O. 12044 and Secretary's Memorandum 1955. The review will include preparation of an Impact Analysis Statement which will be available from Program Services Staff, Room 870, Federal Building, 6505 Belcrest Road, Hyattsville, Maryland 20782. 301-436-8695.

M. T. GOFF,
Acting Deputy Administrator, Veterinary Sevices.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUPCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Docket No. R-0196]

PART 262—RULES OF PROCEDURE

Statement of Policy

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Statement of policy regarding expanded rulemaking procedures.

SUMMARY: The Board of Governors of the Federal Reserve System desires to improve the quality of its regulations through greater public participation in the development of its regulations and early involvement by Board members in the process to assure that regulations are not unduly burdensome and complex. The Board also wishes to improve public understanding of the considerations underlying the regulations it adopts. To accomplish these objectives, the Board is adopting a general policy of following rulemaking procedures that will be more elaborate than those prescribed in the Board's Rules of Procedure for Rulemaking (12 CFR 262.2). When the Board has good cause to follow more expedited procedures, such as those set forth in its regulations, it will state the reasons in the FEDERAL REGISTER notice accompanying the action. The new procedures do not apply to the formulation of monetary policy or to amendments of regulations required to implement monetary policy decisions.

The Board believes that this approach fully complies with the spirit of Executive Order No. 12044 ("Improving Government Regulations") and contributes significantly to furthering the President's goals of reducing regulatory burdens and improving regulations.

The Board is implementing this policy immediately and welcomes suggestions for improving the policy.

DATES: Comments should be submitted in writing on or before March 20, 1979. The new policy is effective January 10, 1979.

ADDRESS: Submit comments to the Secretary to the Board, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. The comments received will be available for inspection and copying.

FOR FURTHER INFORMATION CONTACT:

Jerauld C. Kluckman, Associate Director, Division of Consumer Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. Telephone: (202) 452-3401.

SUPPLEMENTARY INFORMATION: The Board, with participation by the Federal Reserve Banks, is engaged in a Regulatory Improvement Project involving a zero-base review of all Federal Reserve regulations that affect the public. Each regulation is being analyzed to determine: the fundamental objectives of the regulation; whether the regulation is obsolete or a different approach would be appropriate; the costs and benefits of the regulation; whether it can be made less burdensome or nonregulatory alternatives adopted without reducing its effectiveness to achieve present-day goals; and whether the regulation is as simple as possible and understandable to those who must comply. To date, this review has been completed for two regulations (Regulations C and E; see 43 FR 53708 and Board release of Nov. 9, 1978), and substantial staff work has been done on others. Deadlines have been set to assure that the review of remaining regulations will be completed as soon as possible.

The Board also has decided to improve access to all Federal Reserve regulatory materials by authorizing issuance of a new, publicly distributed regulatory service that will include regulations, published and previously unpublished Board interpretations, previously uncirculated Board and staff rulings and opinions, relevant policy statements and other materials that affect the public. The Board plans to introduce this service in early 1980 and will update it periodically. The Board believes that ready access to the full range of regulatory materials will enable those regulated to operate with a far greater degree of certainty, and understanding of and compliance with Board rules will be enhanced.

As a further effort to improve its regulations and the regulatory process, the Board as a matter of policy also will apply expanded procedures to the development of new regulations. These procedures are more elaborate than those prescribed in the Board's Rules of Procedure for Rulemaking (12 CFR 262.2).

At the same time, the Board is aware that a lengthier, more involved rulemaking procedure may result in delays detrimental to those making plans or seeking immediate relief from undue burdens. Therefore, when the Board believes that more expedited procedures are fair, necessary, or desirable, it will follow such procedures and inform the public of the reasons for its decision. Ordinarily, consideration of a regulation in a new area of the law will involve greater time and public participation than an amendment to an existing regulation in an established area of the law.

Examples of regulatory actions for which expedited procedures may be appropriate are the following:

(1) The regulation is a technical amendment (e.g., reflecting a name change) or a clarifying change;

(2) The regulation requires prompt action in the public interest (e.g., changes in reserve requirements, stock market margin requirements, or the discount rate, or actions designed to eliminate a loophole);

(3) The regulation reduces a burden where further delay would cause unnecessary harm;

(4) The regulation is a reformulation of a proposal previously issued for public comment; and

(5) The regulation must be adopted within a statutory deadline.

The Board believes its policy will result in improved Board regulations and fully complies with the spirit of Executive Order No. 12044, dated March 23, 1978 ("Improving Government Regulations") (43 FR 12661). In several ways, it goes beyond that Order. For example, the policy generally will be followed for all new proposals, whether or not they are re-

V 4 4 / 1 4

garded as "significant," and a regulatory analysis will be made in all cases.

To implement this approach the Board has adopted the following policy statement:

STATEMENT OF POLICY REGARDING EXPANDED RULEMAKING PROCEDURES

SECTION 1

Policy. It is the policy of the Board of Governors of the Federal Reserve System to improve the quality and minimize the burdens of its regulations by carefully considering an analysis of proposed regulations before they are published for comment, encouraging maximum public participation in the development of the regulations, and informing the public of the reasons for the Board's regulatory actions.

To achieve these objectives and to comply with the spirit of Executive Order 12044, the Board is setting forth in this statement expanded rulemaking procedures that it intends to follow in developing regulations. If the Board finds it necessary or beneficial in the public interest to avoid delay by following more expedited procedures, such as those set forth in the Board's Rules of Procedure for Rulemaking (12 CFR 262.2), the Board will state its reasons in a notice accompanying its actions. The new procedures do not apply to the formulation of monetary policy or to amendments of regulations required to implement monetary policy decisions.

Examples of regulatory actions for which expedited procedures may be appropriate are the following:

(1) The regulation is a technical amendment (e.g., reflecting a name change) or a clarifying change;

(2) The regulation requires prompt action in the public interest (e.g., changes in reserve requirements, stock market margin requirements, or the discount rate, or actions designed to eliminate a loophole);

(3) The regulation reduces a burden where further delay would cause unnecessary harm;

(4) The regulation is a reformulation of a proposal previously issued for public comment; and

(5) The regulation must be adopted within a statutory deadline.

SECTION 2

Development of regulatory plan. Designated members of the Board will become involved at an early stage in the development of regulations and will meet with staff to review the issues to be considered, the alternative approaches to be explored, a tentative plan to obtain public comment, and target dates for completion of steps in the development of the regulation.

SECTION 3

Public involvement in the development of proposals. The Board believes that the public can make valuable contributions in identifying issues that should be addressed in its regulations. With respect to regulations implementing new areas of law or major revisions of existing regulations, the Board will endeavor to obtain preliminary views of interested persons prior to the development of a proposed regulation. For this purpose, the Board will utilize such procedures as it deems appropriate, including publication of an advance notice of proposed rulemaking, which may suggest specific issues on which comments should be focused; scheduling of an open conference or informal public hearing; and direct solicitation of views from interested persons or groups, selected so as to assure that conflicting interests and appropriate public bodies are fairly represented.

SECTION 4

Initial analysis of proposals. Before presenting any proposals regarding a regulation to the Board for formal action, the staff will prepare a regulatory analysis of the proposal. The extent of the regulatory analysis at this stage will vary, depending upon the nature of the regulation. In every case, at a minimum, the regulatory analysis will discuss the need for and purposes of the regulation, set forth the various options available, discuss, where appropriate, their possible economic implications, evaluate their compliance, recordkeeping and reporting burdens, and recommend the best course of action based on an evaluation of the alternatives. If the regulation concerns an area where considerable information is available, a correspondingly more exhaustive regulatory analysis will be expected.

When the designated Board members involved are satisfied that the issues have been adequately treated by the staff, that the proposals are as simple as possible and understandable to those who must comply and that no unnecessary burdens would be imposed, the staff will present the proposals to the Board for action.

SECTION 5

Preliminary action by the Board. Consideration of the proposals by the Board ordinarily will take place at a meeting open to public observation. The Board ordinarily will authorize publication of a proposed regulation for comment. At that time, the regulatory analysis of the proposals will be made available to the public.

SECTION 6

General public participation. The Board generally will allow at least 60 days for public comment on a proposed regulation. The notice accompanying the proposal will contain a summary analysis of the regulation and inform the public that copies of the regulatory analysis are available through the Freedom of Information Office. When deemed appropriate, the Board may also schedule an informal public hearing.

SECTION 7

Staff analysis following public comments. The staff will prepare a summary of comments received, and this document, as well as the written comments, will be made available to the public. After taking account of the public comments, the staff will prepare recommendations for consideration by the designated Board members. When these members are satisfied that the public comments have received full and appropriate attention, the staff's analysis and recommendations will be presented to the Board for action.

SECTION 8

Final action by the Board and announcement of its decision. Final action on the proposals by the Board ordinarily will take place at a meeting open to public observation. The Board will announce the reasons for whatever action it takes regarding a proposed regulation. The announcement will discuss the Board's rationale for accepting or rejecting arguments regarding the significant issues raised by the public. If the earlier regulatory analysis made available to the public is changed materially, a revised regulatory analysis will be made available.

SECTION 9

Semiannual agenda of regulations. On the first Monday in October, the Board will publish in the FEDERAL REGISTER a schedule showing the times during the next twelve months when it will publish a semiannual agenda of regulations under development or review. The agenda shall describe the regulations that the Board anticipates will be considered, the need and legal basis for the action being taken, and the status of regulations previously listed on the agenda. Each item on the agenda will include the name and telephone number of a knowledgeable member of the Board's staff. Supplements to the agenda may be published at other times during the year as appropriate.

SECTION 10

Periodic review of regulations. The Board will review each of its existing

J A 1 9 7 9

regulations at least once every five years. Each regulation is to be re-examined with a view toward eliminating or simplifying it and easing burdens imposed by it. In selecting regulations to be reviewed, the Board will consider such factors as the length of time since the last evaluation of the regulation, the continued need for it, the type and number of complaints and suggestions received, the direct and indirect burdens imposed by the regulation, and the need to simplify or clarify the regulation and eliminate duplication. Essentially the same procedures described in this policy statement will be followed in the periodic review of regulations.

Board of Governors of the Federal Reserve System, January 15, 1979.

THEODORE E. ALLISON,
Secretary of the Board.

Title 13—Business Credit and Assistance

CHAPTER III—ECONOMIC DEVELOPMENT ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 305—PUBLIC WORKS AND DEVELOPMENT FACILITIES PROGRAM

Amendment of Grant Rate Policy for Public Works Projects Experiencing Underruns

AGENCY: Economic Development Administration (EDA), Department of Commerce.

ACTION: Final rule.

SUMMARY: The Economic Development Administration is amending regulations affecting the grant rates for certain public works projects. These amendments will allow an increase in grant rates, within legal maximum, to qualified public works projects which have experienced cost underruns. EDA has discovered that, because of its previous grant rate policy, certain grantees which had experienced underruns were prevented from receiving the full dollar amount of funding committed to their projects. The intended effect of these amendments is to correct that situation and to allow qualified underrun projects to obtain their full commitment of EDA funding.

EFFECTIVE DATE: January 19, 1979.

FOR FURTHER INFORMATION ON THESE RULES CONTACT:

James F. Marten, U.S. Department of Commerce, Room 7009, Washington, D.C. 20230, (202) 377-5441.

SUPPLEMENTARY INFORMATION: During the years 1972 to 1974, some EDA public works grant offers were written offering a stated sum of money (e.g., $100,000) not to exceed a certain percentage of total project cost (e.g. 40%), which percentage was below the maximum grant rate then allowable for the area in which the project was to be located. If the project costs ultimately fell below those estimated at the time of approval, 13 CFR 305.89(b), as it previously read, prevented the grantee from receiving the stated sum of Federal funds because the percentage that the stated sum represented would have exceeded the percentage of total project cost written into the grant agreement. Although total project costs were less, this diminution of the Federal share worked hardships on grantees in meeting their project financing budgets.

On page 47980 of the October 18, 1978, FEDERAL REGISTER, EDA published proposed amendments to 13 CFR 305.8 and 305.89 to correct this unintended effect. 13 CFR 305.89(b) previously stated that in the event the total cost of the project is less than the amount stated in the "Offer of Grant," the grant rate will be unchanged. As amended, § 305.89(b) allows EDA the discretion to increase the percentage of the Federal share of a project's cost, within the legal maximum, above that percentage originally provided for in the "Offer of Grant" if (1) the total cost of the project will be less than the amount stated in the "Offer of Grant," *and* (2) the percentage of the Federal share originally provided for in the "Offer of Grant" was less than that percentage allowed by law at the time the "Offer of Grant" was made. Where these two circumstances coincide (an underrun and a grant rate less than the maximum allowed by law), EDA may increase a project's rate to the maximum allowable at the time the project was approved.

13 CFR 305.8(b) was prefaced by a general statement that "• • • the percentage of the Federal share of a project's cost shall not exceed that percentage originally provided for in the grant agreement, • • •". This restriction applied only to projects receiving construction cost increase grants under the authority of section 107 of PWEDA, as implemented in 13 CFR 305.8. However, the amendment to 13 CFR 305.89(b) appears to create a conflict with this statement. Therefore, in order to avoid confusion, EDA has revised § 305.8 (b) and (c) to clarify the limited scope of application of their restriction on grant rate increases. This modification in language does not change EDA's administration of the construction cost increase grant program.

Interested persons were given thirty days to submit comments on the proposed amendments. Three comments were received from the public. Two commentators complimented EDA on the proposed changes. The third misunderstood the nature and effect of the proposed changes, confusing the amendment of the grant rate policy for underrun projects with EDA's program of assistance for overruns caused by increased construction costs. As no substantive comments on the proposed amendments were received, they are hereby adopted without change as set forth below.

1. 13 CFR 305.8 (b) and (c) are revised to read as follows:

§ 305.8 Grants for construction cost increases.

• • • • • •

(b) The Assistant Secretary may increase the amount of any grant made under the authority of Title I of the Act to a project which meets all the following conditions:

(1) The project is being or will be constructed according to original designs and specifications;

(2) The project's total cost has increased because of increases in costs based on the original designs and specifications; and

(3) The project has incurred construction cost increases after the grant was made but prior to completion of the project.

(c) *Limitations on amount of grants.* (1) The amount of a grant made under paragraph (b) of this section may be equal to an amount based on the percentage increase in the costs referred to in paragraph (b)(2) of the section, as determined by the Assistant Secretary.

(2) A construction cost increase grant may not be in an amount which would cause the Federal share of the project's costs to exceed the percentage originally provided for in the grant agreement.

2. 13 CFR 305.89(b) is revised to read as follows:

§ 305.89 Variance in cost of grant and loan projects.

• • • • • •

(b) In the event the total cost of the project shall be less than the amount stated in the "Offer of Grant," the grant rate may be increased up to the maximum amount allowed by law at the time the grant was accepted.

Dated: January 12, 1979.

ROBERT T. HALL,
Assistant Secretary for Economic Development.

Title 14—Aeronautics and Space

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER A—ECONOMIC REGULATIONS

[Regulation ER-1093; Amendment No. 1]

PART 291—GENERAL RULES FOR ALL-CARGO CARRIERS

Approval by Comptroller General

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. January 15, 1979.

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: This final rule gives notice of approval by the Comptroller General of the application filing requirements, recordkeeping requirements, and certain notification requirements contained in a regulation governing the operating rules for all-cargo carriers and domestic cargo transportation by section 401 and section 418 carriers. This approval is required by the Federal Reports Act and was transmitted to the Civil Aeronautics Board by letter dated December 27, 1978.

DATES: Effective: January 15, 1979. Adopted: January 15, 1979.

FOR FURTHER INFORMATION CONTACT:

Raymond Kurlander, Director, Bureau of Accounts and Statistics, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202-673-5270.

Accordingly, the Civil Aeronautics Board amends Part 291 of its Economic Regulations (14 CFR 291) by adding the following note at the end of Part 291:

NOTE.—The requirement to file an application in section 291.11, the recordkeeping requirement in section 291.23, and the reporting requirement in section 291.33 have been approved by the U.S. General Accounting Office under Number B-180226 (R0574).

This amendment is issued under authority delegated from the Board to the Secretary in 14 CFR section 385.24(b). (Sec. 204 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743; U.S.C. 1324.)

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

[Docket No. 76N-0460]

PART 2—GENERAL ADMINISTRATIVE RULINGS AND DECISIONS

Drug Products Containing Chlorofluorocarbons as Propellants in Self-Pressurized Containers for Essential Uses; Clarification of NDA Requirements

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This document clarifies the regulation permitting the essential use of chlorofluorocarbons in certain human drug products. It amends the regulation to specifically identify those essential drug products for which the Food and Drug Administration (FDA) has made a finding that an abbreviated new drug application is acceptable.

DATES: Effective January 19, 1979: comments by February 20, 1979.

ADDRESSES: Written comments to the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT:

Paul O. Fehnel, Jr., Bureau of Drugs (HFD-30), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-433-6490.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of March 17, 1978 (43 FR 11301), the Commissioner of Food and Drugs issued a final regulation (21 CFR 2.125) that prohibited, in general, the use of chlorofluorocarbons as propellants in self-pressurized containers in products subject to the Federal Food, Drug, and Cosmetic Act. Five drug classes in which the use of chlorofluorocarbon propellants was believed essential were exempt from the ban. These five drug classes, set forth in § 2.125(e) (21 CFR 2.125(e)), are: (1) Metered-dose steroid human drugs for nasal inhalation, (2) metered-dose steroid human drugs for oral inhalation, (3) metered-dose adrenergic bronchodilator human drugs for oral inhalation, (4) contraceptive vaginal foams for human use, and (5) metered-dose ergotamine tartrate human drugs for oral inhalation.

Section 2.125(c) of this regulation (21 CFR 2.125(c)) provides that any drug product in a self-pressurized container that contains a chlorofluorocarbon propellant is a new drug; this includes the five classes in which the use of chlorofluorocarbons is deemed essential.

The chlorofluorocarbon ban was proposed in the FEDERAL REGISTER of May 13, 1977 (42 FR 24535). At that time, FDA recognized that some specific products included in the drugs generally described in the proposal as containing a chlorofluorocarbon for an essential use had not previously been the subject of new drug applications (NDA's). Specifically, of three over-the-counter (OTC) contraceptive vaginal foam products containing nonoxynol 9 as the active ingredient, one product was not then the subject of an approved NDA. Similarly, some OTC metered-dose epinephrine products for oral inhalation were not the subject of approved NDA's. Accordingly, a provision was included in the May 13, 1977 proposal that would require a firm to submit an NDA for any drug product that is not currently the subject of an approved NDA and is listed in the regulation as using a chlorofluorocarbon propellant for an essential use. The proposal recommended that each firm required to submit such an NDA discuss with FDA the type of information needed before submitting the application. This provision was included because the Commissioner of Food and Drugs had tentatively determined that no additional clinical data to establish efficacy and safety would be needed for the OTC epinephrine inhalation products and the OTC contraceptive vaginal foam products containing nonoxynol 9.

One comment on the proposal recommended that the regulations be revised to specify that an abbreviated new drug application (ANDA) would be acceptable for these drugs. The comment stated that this course would conform to the FEDERAL REGISTER announcement of September 8, 1976 (41 FR 37836), pertaining to isoproterenol hydrochloride for inhalation. This announcement permitted ANDA's to be submitted for isoproterenol hydrochloride inhalation products that were not then the subject of approved NDA's.

In response to this comment, the Commissioner agreed (see paragraph 29 of the March 17, 1978 final order (43 FR 11312)) to allow manufacturers to submit an ANDA in these cases. However, the ANDA provision was intended to apply only to OTC epinephrine products for oral inhalation, OTC contraceptive vaginal foams containing at least 8 percent of the active ingredient nonoxynol 9, and any other essential product for which FDA has made a finding that an ANDA is acceptable. Such a finding was made for ergotamine tartrate aerosol for oral inhalation in a notice published in the FEDERAL REGISTER of July 27, 1972 (37 FR 15032). A similar notice was published in the FEDERAL REGISTER of September 8, 1976 (41 FR 37836) indicating that ANDA's may be submitted for isoproterenol hydrochloride products for oral inhalation. Because § 2.125(h) of the March 17, 1978 final regulation did not specifically limit the use of ANDA's to these few products, it is the purpose of this rule to clarify the intent of this section.

Although a specific notice has not been published finding that an ANDA would be acceptable for epinephrine products for oral inhalation or for OTC contraceptive vaginal foam products containing nonoxynol 9, the Commissioner concludes that ANDA's will be acceptable for these two types of products when they contain a chlorofluorocarbon. This conclusion is based on the tentative findings of the OTC advisory review panels that reviewed the drug classes to which these products belong. As a result of that review, epinephrine for OTC use as a bronchodilator has been placed in Category I (generally recognized as safe and effective and not misbranded) in the proposed monograph for cold, cough, allergy, bronchodilator, and antiasthmatic products published in the FEDERAL REGISTER of September 9, 1976 (41 FR 38312). There has not been any question concerning the safety and effectiveness of epinephrine for oral inhalation. Although the proposed monograph recommended by the Advisory Review Panel on Contraceptive Products has not yet been published, the status of contraceptive vaginal products containing nonoxynol 9 has been discussed at open meetings of this Panel, and this ingredient has tentatively been placed in Category I. The agency expects that this ingredient will remain in Category I following publication of a final monograph. Pending any change in the status of epinephrine products for oral inhalation or OTC contraceptive vaginal foams containing nonoxynol 9, an ANDA may be submitted for these products when packaged to contain a chlorofluorocarbon propellant provided the product complies with the conditions of any proposed, tentative final, or final monograph as applicable.

Currently, all the classes of drug products listed in § 2.125(e) are drug products for human use. Thus, the requirement in § 2.125(h) that the manufacturer of any drug product listed in § 2.125(e) that is not covered by an approved new animal drug application shall submit such an application in accord with § 514.1 *Applications* (21 CFR 514.1) serves no useful purpose and may tend to confuse the reader. Therefore, the Commissioner concludes that § 2.125(h) should be revised to remove these references to new animal drug applications. If, at some time in the future, the Commissioner proposes to amend § 2.125(e) to include a drug product for animal use, these references can be reinserted into § 2.125(h).

Because this amendment simply clarifies the intent of § 2.125(h), the Commissioner finds that notice and public procedure are unnecessary and contrary to the public interest. Interested persons may, however, on or before February 20, 1979, file with the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857, four copies of written comments on this amendment identified with the docket number found in brackets in the heading of this document. Comments received may be seen in the office of the Hearing Clerk between 9 a.m. and 4 p.m., Monday through Friday. Any changes in this regulation justified by the comments will be the subject of a further amendment.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 505, 701(a), 52 Stat. 1052-1053 as amended, 1055 (21 U.S.C. 355, 371(a))) and under authority delegated to the Commissioner (21 CFR 5.1), Part 2 is amended by revising § 2.125(h) to read as follows:

§ 2.125 Use of chlorofluorocarbon propellants in self-pressurized containers.

• • • • •

(h)(1) Each manufacturer of a drug product listed in paragraph (e) of this section that is not covered by an approved new drug application shall submit a new drug application in accord with § 314.1 of this chapter on or before June 15, 1978.

(2) The Food and Drug Administration may find that an abbreviated new drug application conforming to § 314.1(f) of this chapter is acceptable in lieu of a full new drug application for any product included in the classes of products in paragraph (e) of this section. An ANDA for any of these products shall also contain full information with respect to items 6 (components), 7 (composition), 8 (methods, facilities, and controls), and 9 (samples) of new drug application form FD-356H. A finding has been made that an ANDA may be submitted for the following products included in the classes of products listed in paragraph (e) of this section:

(i) Ergotamine tartrate supplied in a metered-dose aerosol form suitable for oral inhalation for the treatment of migraine headaches. Each measured dose must deliver a dose of the active ingredient equivalent to that contained in the product that has been the subject of a separate finding that an abbreviated new drug application is suitable.

(ii) Isoproterenol hydrochloride supplied in a metered-dose aerosol form suitable for oral inhalation for use as an adrenergic bronchodilator. Each measured dose must deliver a dose of the active ingredient equivalent to that contained in the products that have been the subject of a separate finding that an abbreviated new drug application is suitable.

(iii) Epinephrine, epinephrine bitartrate, or epinephrine hydrochloride (racemic) in a metered-dose aerosol form suitable for oral inhalation for use as an adrenergic bronchodilator. Each measured dose must deliver a dose of the active ingredient equivalent to that specified in an OTC proposed or final monograph issued under the provisions of 21 CFR Part 330.

(iv) Nonoxynol 9 in an aerosol foam suitable for vaginal administration as a contraceptive foam. The aerosol foam must contain 8 to 12.5 percent of nonoxynol 9.

* * * * *

Effective date. This regulation is effective January 19, 1979.

(Secs. 505, 701(a), 52 Stat. 1052-1053 as amended, 1055 (21 U.S.C. 355, 371(a)))

Dated: January 11, 1979.

[4110-03-M]

SUBCHAPTER B—FOOD FOR HUMAN CONSUMPTION

[Docket No. 77N-0040]

FOOD SUBSTANCES GENERALLY RECOGNIZED AS SAFE

Clove and its Derivatives

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is affirming clove and its derivatives as generally recognized as safe (GRAS) as direct human food ingredients. The safety of these ingredients has been evaluated under the comprehensive safety review being conducted by this agency.

EFFECTIVE DATE: February 20, 1979.

ADDRESS: Written objections to the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT:

Corbin I. Miles, Bureau of Foods (HFF-335), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, DC 20204, 202-472-4750.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of July 29, 1977 (42 FR 38613), the agency proposed to affirm that clove and its derivatives are generally recognized as safe (GRAS) for use as direct human food ingredients. The proposal was made on the initiative of the Commissioner of Food and Drugs as part of the announced FDA review of the safety of GRAS and prior-sanctioned food ingredients.

Under § 170.35 (21 CFR 170.35), relating to the affirmation of GRAS food ingredients, copies of the Scientific Literature Review on oil of cloves and the report of the Select Committee on GRAS Substances on oil of cloves have been made available for public review in the office of the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857.

In addition to proposing to affirm the GRAS status of clove and its derivatives, the Commissioner gave public notice that he was unaware of any prior-sanctioned food ingredient use for these ingredients other than for the proposed conditions of use. Persons asserting additional or extended uses under approvals granted by the U.S. Department of Agriculture or FDA before September 6, 1958, were given notice to submit proof of those sanctions so that the safety of the prior-sanctioned uses could be determined at this time. That notice was also an opportunity to have prior-sanctioned uses of clove and its derivatives approved by issuance of an appropriate regulation under Part 181—Prior-Sanctioned Food Ingredients (21 CFR Part 181), provided the prior-sanctioned uses could be affirmed as safe on the basis of information and data now available to the Commissioner. Notice was also given that failure to submit proof of an applicable prior sanction in response to the proposal would constitute a waiver of the right to assert that sanction at any future time.

No reports of prior-sanctioned uses for clove or its derivatives were submitted in response to the proposal, and any right to assert a prior sanction for uses of clove and its derivatives under conditions different from those set forth in the final regulation has therefore been waived.

Eight respondents submitted comments on the Commissioner's proposal and supporting data and information on clove and its derivatives. A summary of the comments and the Commissioner's conclusions on them follows:

1. Five comments objected to placing good manufacturing practice (GMP) use limitations on clove and its derivatives.

The Commissioner has reexamined the National Academy of Sciences/National Research Council (NAS/NRC) survey data, the available safety data, and the range of anticipated consumption for clove and its derivatives, and agrees that certain inconsistencies do exist. For example, there are inconsistencies in the maximum levels of use for the different parts of the clove plant (e.g., stems, buds, leaves) based on estimated eugenol content, and for pure eugenol when compared to the amounts of plant parts used. The inconsistencies in the data do not, however, affect the safety evaluation of clove and its derivatives, which was based on total dietary consumption of these ingredients in food. The Commissioner finds that a relaxation of conditions of use will not significantly change total consumption and that adequate margins of safety exist for use of these food ingredients. Therefore, the Commissioner concludes that clove, its essential oils, oleoresins, and natural extractives may be affirmed as GRAS without designating specific good manufacturing practice guidelines.

Although this regulation specifies that clove and its derivatives need be used only in accordance with good manufacturing practice and without indicated levels of GMP use, the Commissioner is not abandoning the practice of designating maximum GMP levels of use for other ingredients affirmed as GRAS. Maximum GMP levels establish conditions of use upon which the GRAS status of the substance was affirmed and serve as important food-processing guidelines in providing information on the concentration of ingredients required to produce intended effects in food. Therefore, although several natural spices may be affirmed as GRAS without GMP guidelines, this practice will only be adopted when it can be determined that the food-processing use information available to FDA is totally inadequate for this purpose and that safety margins for consumption of the ingredient are very high.

2. One comment specifically reported that clove oleoresin is currently used in chewing gum and requested that acceptable flavors made with whole cloves, oleoresins, or extracts also be permitted.

As indicated above, the Commissioner has reexamined the NAS/NRC survey data reported by the food industries and has concluded that clove and its derivatives may be used in food in accordance with good manufacturing practice.

3. Three comments indicated that the specifications for solvent-free clove bud extract and clove bud oleoresin were either inappropriate or did not conform with usual industry specifications. One comment specifically objected to the proposed angular rotation, refractive index, and specific gravity specifications for clove bud oleoresin, indicating that these specifications are difficult to perform on the oleoresin and are usually performed on volatile oils extracted from this product. In addition, the comments objected to the term "residual solvent free" because this term conflicts with the provisions of Part 173 (21 CFR Part 173), Subpart C, which permits certain solvent residues in spice extracts and oleoresins. The comments also recommended that the proposed specifications for clove bud oleoresin and clove bud extract be expanded to define the products more accurately (e.g., by requiring designation of the volatile oil content). Another comment suggested that the Food Chemicals Codex specifications for clove bud oil, clove leaf oil, or clove stem oil be adopted, by reference, for the volatile oil of clove oleoresin and of other natural clove extractives.

The Commissioner has found the comments helpful in formulating specifications for clove and its derivatives. The Commissioner agrees that the specifications for clove bud oil, with some modifications, can be used to characterize the volatile oil of the oleoresin and other extractives of clove, and further agrees that specific gravity, refractive index, and angular rotation specifications for oleoresin should be eliminated and that these specifications are most appropriately applied to the volatile oil of oleoresin. Accordingly, angular rotation, refractive index, and specific gravity specifications have been adopted for the volatile oil of oleoresin in the final regulation. The Commissioner also acknowledges that the term "residual solvent free" conflicts with solvents that are permitted for food use because of their GRAS status or included in Part 173, Subpart C, and the final regulation has been modified to permit residual solvents as specified in these regulations.

4. Three comments noted an error in proposed § 184.1257(a) in the terminology describing cloves as "dried unopened 'flavor' buds and twig tips." The correct description should read "flower" buds. Another comment indicated that the description uses the term "twig tips" to describe the hypanthium of the clove bud structure. The comment indicated that the term "calyx" or "calyx tube" would be more precise than "twig tip" and would avoid the implication of nonfloral twigs in the definition of clove.

The Commissioner agrees with these comments and has amended the final regulation accordingly.

5. One comment noted that deleting clove from §§ 182.10 and 182.20 (21 CFR 182.10 and 182.20) and reaffirming it as GRAS in Part 184 (21 CFR Part 184) creates a problem of interpretation in § 101.22(a) (2) and (3) (21 CFR 101.22(a) (2) and (3)) because the spices listed in Part 184 would not be included in these sections.

The Commissioner acknowledges this oversight during the promulgation of the affirmed GRAS list. Dill, garlic, and rue, previously affirmed as GRAS, were not cross-referenced with the food labeling provisions in § 101.22. However, it was always FDA's intent to cross-reference the affirmed GRAS list (Part 184) with the food labeling provisions just as the GRAS list (Part 182) had been cross-referenced with these provisions. Therefore, the Commissioner is amending § 101.22(a) (2) and (3) to include the spices and natural essences or extractives obtained from plants that are also listed in Part 184. Inasmuch as this action merely cross-references § 101.22(a) (2) and (3) with Part 184, formal rulemaking procedures are unnecessary and the amendment of § 101.22(a) (2) and (3) is included in the final regulation.

6. One comment was concerned that the affirmation of clove and its derivatives as GRAS substances would increase the usage of these ingredients and result in an increase in reactions by hyperkinetic children. The comment suggested that the term "cloves" or "clove derivative," rather than the lesser known term "eugenol," be required on the label of any product containing these substances.

The Commissioner emphasizes that cloves, clove buds, clove leaves, and clove stems, as well as the synthetic flavoring substance eugenol, have appeared on the GRAS list since 1960 and 1961, respectively. Reaffirming these substances as generally recognized as safe is not expected to cause an increase in usage of these ingredients.

The Commissioner also advises that under section 403(i)(2) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 343(i)(2)), the common or usual name of each ingredient of a food fabricated from two or more ingredients must appear on the label. However, spices, flavorings, and colorings, other than those sold as such, may be designated as spices, flavorings, and colorings without naming each specifically. The Commissioner recognizes that some consumers may experience adverse effects from some food ingredients and welcomes comments and suggestions from knowledgeable individuals on this subject. However, in the absence of clear evidence that the public health would be jeopardized if clove or its derivatives were not stated on the product label, it is premature to single out these ingredients from other food additives for special attention.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 348, 371(a))) and under authority delegated to the Commissioner (21 CFR 5.1), Parts 101, 182, and 184 are amended as follows:

PART 101—FOOD LABELING

1. In Part 101, § 101.22 is amended by revising the second sentence of paragraph (a)(2) and the last sentence of paragraph (a)(3) to read as follows:

§ 101.22 Foods; labeling of spices, flavorings, colorings, and chemical preservatives.

(a) * * *

(2) * * * Spices include the spices listed in § 182.10 and Part 184 of this chapter, such as the following: * * *

(3) * * * Natural flavors include the natural essence or extractives obtained from plants listed in §§ 182.10, 182.20, 182.30, 182.40, and 182.50 and Part 184 of this chapter, and the substances listed in § 172.510 of this chapter.

* * * * *

PART 182—SUBSTANCES GENERALLY RECOGNIZED AS SAFE

§ 182.10 [Amended]

3. In § 182.10 *Spices and other natural seasonings and flavorings* by deleting the entry for "Cloves."

§ 182.20 [Amended]

4. In § 182.20 *Essential oils, oleoresins (solvent-free), and natural extractives (including distillates)* by deleting the entries for "Clove bud," "Clove leaf," and "Clove stem."

§ 182.60 [Amended]

5. In § 182.60 *Synthetic flavoring substances and adjuvants* by deleting the entry for "Eugenol."

PART 184—DIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

6. By adding new § 184.1257 to read as follows:

§ 184.1257 **Clove and its derivatives.**

(a) Cloves are the dried unopened flower buds and calyx tubes, harvested before the flowers have opened, of the clove tree *Eugenia caryophyllata* Thunberg, native to tropical Asia. Their derivatives include essential oils (cloves, CAS Reg. No. 8000-34-8; buds; leaves, CAS Reg. No. 8015-97-2; stems, CAS Reg. No. 8015-98-3; and eugenol, CAS Reg. No. 97-53-0), oleoresins, and natural extractives obtained from clove buds, leaves, and stems.

(b) Clove bud oil, clove leaf oil, clove stem oil, and eugenol meet the specifications of the Food Chemicals Codex (FCC), 2d Ed. (1972),[1] which is incorporated by reference. As determined by analytical methods in FCC, clove oleoresin or other natural extractives (other than clove oils) meet FCC specifications for clove (clove bud) oil and the following modifications:

(1) The assay for phenols, as eugenol, by the FCC test (p. 898) or the volatile oils content by the FCC test (p. 901) should conform to the representation of the vendor;

(2) Optical rotation of the volatile oil between −2° and 0°;

(3) Refractive index of the volatile oil between 1.527 and 1.538 at 20° C;

(4) Specific gravity of the volatile oil between 1.036 and 1.060; and

(5) Residual solvent free, except those solvents that are GRAS or within tolerance levels as specified in Part 173, Subpart C, of this chapter.

(c) Clove and its derivatives are used as flavoring agents and adjuvants as defined in § 170.3(o)(12) of this chapter.

(d) The ingredients are used in food at levels not to exceed good manufacturing practice in accordance with § 184.1(b)(1).

(e) Prior sanctions for these ingredients different from the uses established in this section do not exist or have been waived.

Effective date. This regulation is effective February 20, 1979.

(Secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 348, 371(a)))

NOTE.—Incorporation by reference was approved by the Director of the Office of the Federal Register on July 10, 1973 and is on file in the FEDERAL REGISTER library.

Dated: January 15, 1979.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Regulatory Affairs.

SUBCHAPTER B—FOOD FOR HUMAN CONSUMPTION

[Docket No. 77N-0119]

PART 131—MILK AND CREAM

Nonfat Dry Milk, Lowfat Dry Milk, Dry Whole Milk, and Dry Cream; Standards of Identity; Confirmation of Effective Date and a Further Amendment

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This document confirms the effective date of the final regulation of May 9, 1978 that amended the standards of identity for nonfat dry milk and nonfat dry milk fortified with vitamins A and D and established standards of identity for lowfat dry milk, dry whole milk, and dry cream based on consideration of the international standards developed by the Codex Alimentarius Commission for these foods. This document also amends the description for dry cream to make it consistent with the descriptions for dry whole milk and lowfat dry milk.

DATES: Voluntary compliance may have begun July 10, 1978. Mandatory compliance for all products initially introduced into interstate commerce begins July 1, 1979. Objections to the amendment by February 20, 1979.

FOR FURTHER INFORMATION CONTACT:

Eugene T. McGarrahan, Bureau of Foods (HFF-415), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, DC 20204, 202-245-1155.

SUPPLEMENTARY INFORMATION: The Commissioner of Food and Drugs issued a final regulation in the FEDERAL REGISTER of May 9, 1978 (43 FR 19834) that established standards of identity for low fat dry milk, dry whole milk, and dry cream (21 CFR 131.123, 131.147, and 131.149, respectively) and amended the standards of identity for nonfat dry milk and nonfat dry milk fortified with vitamins A and D (21 CFR 131.125 and 131.127, respectively). The new standards of identity were based on the recommended international standards for whole milk powder, partly skimmed milk powder, and skimmed milk powder (Codex Standard No. A-5 (1971)) and the recommended international standards for cream powder, half cream powder, and high-fat milk powder (Codex Standard No. A-10 1971)) which were submitted to the United States for consideration of acceptance by the Joint Food and Agriculture Organization/World Health Organization's Committee of Government Experts on the Code of Principles Concerning Milk and Milk Products, and auxiliary body of the Codex Alimentarius Commission. The new standards of identity for lowfat dry milk, dry whole milk, and dry cream establish (1) requirements for mandatory ingredients, (2) provisions for optional ingredients such as stabilizers, emulsifiers, anticaking agents, antioxidants, and characterizing flavoring ingredients, with or without coloring, and (3) requirements for label declaration of optional ingredients. In addition, the standards of identity for nonfat dry milk and nonfat dry milk fortified with vitamins A and D were amended to provide for the use of nutritive carbohydrate sweetners in the optional characterizing flavoring ingredients.

The final regulation provided that any person who would be adversely affected could at any time, on or before June 8, 1978, file written objections to the final regulation and request a hearing on the specific provisions to which there were objections.

OBJECTIONS AND REQUESTS FOR A HEARING

Two objections and requests for a hearing and one letter suggesting a minor change were received in response to the final regulation. The Commissioner has considered these responses and his conclusions are as follows:

1. *Description of dry cream.* The American Dry Milk Institute (ADMI) suggested that the standard of identity for dry cream provide for the manufacture of dry cream by dry blending dry cream with other dry milk products even though this method is not currently common practice in the United States. The ADMI is of the opinion that this would (1) make the description of dry cream in § 131.149(a) uniform with the descriptions of lowfat dry milk in § 131.123(a) and dry whole milk in § 131.147(a); and (2) allow flexibility without restricting future manufacturing processes for dry cream.

The Commissioner agrees with ADMI's suggestions and is revising the standard of identity for dry cream accordingly.

2. *Lactose-reduced dry milk products.* Two firms marketing the enzyme lactase objected to the establishment of the standards of identity for lowfat dry milk, dry whole milk, and dry cream, and the amendment of the standard of identity for nonfat dry milk. They maintained that the final regulations, as published, will adversely affect them and will not be in the best interest of consumers. They stated that the standards of identity establish the level of lactose contained in the foods, thereby eliminating lactose-reduced dry milk products as foods that can be made and sold under the standard nomenclature. The firms said that alternate nomenclature such as "lactose reduced skim milk solids" would have to be substituted for the preferred "lactose reduced nonfat dry milk." Further, they stated that this exclusion from standard product nomenclature obscures the product's identity and causes unnecessary confusion for the consumer. Further, they said that the conversion of lactose to the more readily digestible galactose and glucose, resulting from the treatment of milk with lactase, is beneficial to that segment of the population, estimated at about 30 million in the United States, that cannot readily tolerate lactose in its naturally occuring form. The firms suggested that consideration be given to other foods that may be produced with lactose in the hydrolyzed form for which standards of identity not exist or will be developed in the future.

The Commissioner recognizes the benefits to be derived from lactose reduced milk products by lactose-intolerant individuals but does not believe that there is a need to delay issuing the standards of identity for dry milk products in order to establish appropriate names for lactose-reduced milk products. Lactose-reduced milk products differ in composition from dry milk products. As the objectors recognize, the lactose-reduced foods cannot bear the same name as dry milk products but must instead be named to indicate their distinctive feature. However, they do not have to be labeled with obscure names as suggested by the objectors. Furthermore, as the Commissioner has previously advised in the FEDERAL REGISTER of August 2, 1973 (38 FR 20703), the existence of a standard of identity for a particular food does not necessarily preclude the use of the standardized name in connection with the name of a nonstandardized food, and "in some cases it may be necessary to include a standardized name in the name of a substitute food in order to provide the consumer with accurate, descriptive, and fully informative labeling." In other words, the standards of identity to which objections are made do not by themselves, affect the objecting parties' ability to market accurately labeled lactose-reduced milk products using the standardized nomeclature, to the extent appropriate, as part of the name of the new foods.

Accordingly, the Commissioner is denying a hearing on the points made in the objections because they do not raise factual issues concerning the validity of the standards of identity in question. Rather, the objections seek to avoid an effect that the standards do not have by seeking to establish new names for distinct foods that are not subject to the standards; the promulgation of these standards for dry milk products will not preclude the development of appropriate names for the new product. Under 21 CFR 12.24(b)(4), a hearing will not be granted when a food standard does not have the effect of excluding or otherwise affecting the products. The lactose-reduced foods may be sold as nonstandardized foods named in accordance with the general principles in 21 CFR 102.5. Alternatively, the objectors may file a petition to establish a new standard of identity for these products. Since the lactose-reduced foods are special dietary foods, the foods should also comply with the applicable labeling requirements in Part 105.

A GRAS affirmation petition for lactase enzyme derived from *Kluyveromyces (Saccharomyces) lactis*, submitted by one of the objectors, is being considered by the agency. No decision has been made regarding its safety. In view of the undetermined status of this source of lactase enzyme and the option for production of lactose-reduced milk products as special dietary foods, the Commissioner concludes that a hearing on the above objections is not warranted.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 401, 701(e), 52 Stat. 1046 as amended, 70 Stat. 919 as amended (21 U.S.C. 341, 371(e))) and under authority delegated to the Commissioner (21 CFR 5.1), notice is given that the objections filed to the final regulation establishing standards of identity for lowfat dry milk, dry whole milk, and dry cream under §§ 131.123, 131.147, and 131.149 and amending the standards of identity for nonfat dry milk and nonfat dry milk fortified with vitamins A and D under §§ 131.125 and 131.127 are not accepted as valid, except that, in accordance with the foregoing: *It is ordered*, That § 131.149 as promulgated in the FEDERAL REGISTER of May 9, 1978, be amended by revising paragraph (a) to read as follows:

§ 131.149 **Dry cream.**

(a) *Description.* Dry cream is the product obtained by removal of water only from pasteurized milk or cream or a mixture thereof, which may have been homogenized. Alternatively, dry cream may be obtained by blending dry milks as defined in §§ 131.123(a), 131.125(a), and 131.147(a) with dry cream as appropriate: *Provided*, That the resulting product is equivalent in composition to that obtained by the method described in the first sentence of this paragraph. It contains not less than 40 percent but less than 75 percent by weight of milkfat on an as is basis. It contains not more than 5 percent by weight of moisture on a milk solids not fat basis.

* * * * * *

Any person who will be adversely affected by the foregoing amendment to the final regulation may at any time on or before February 20, 1979, submit to the Hearing Clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, MD 20857, written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description an analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Four copies of all documents shall be submitted and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this regulation. Received objections may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

Effective date: Except as to the amendment that may be stayed by the filing of proper objections, compliance with this amendment to the final regulation may begin Feburary 20, 1979. Notice of the filing of objections or lack thereof will be published in the FEDERAL REGISTER. Compliance with all other provisions of the final regulation may have begun on July 10, 1978, and all products initially introduced into interstate commerce on or after July 1, 1979, shall fully comply.

Dated: January 11, 1979.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Regulatory Affairs.

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

PART 510—NEW ANIMAL DRUGS

PART 524—OPHTHALMIC AND TOPICAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Selenium Disulfide Suspension

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This document amends the regulations to reflect approval of a new animal drug application (NADA) filed by Farnam Companies, Inc., providing for use of a selenium disulfide suspension on dogs as a shampoo and agent for removing skin debris, and to indicate the sponsor's current corporate address.

EFFECTIVE DATE: January 19, 1979.

FOR FURTHER INFORMATION CONTACT:

Henry C. Hewitt, Bureau of Veterinary Medicine (HFV-112), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3430.

SUPPLEMENTARY INFORMATION: Farnam Companies, Inc., 2230 E. Magnolia St., Phoenix, AZ 85036, filed an NADA (115-579V) providing for use of a selenium disulfide suspension on dogs as a cleansing shampoo and as an agent for removing skin debris associated with dry eczema and nonspecific dermatoses.

This application concerns a product similar to one reviewed by the National Academy of Sciences/National Research Council (NAS/NRC), approval of which is reflected in the regulations in § 524.2101 (21 CFR 524.2101). This application is approved on the basis of generic equivalence to the NAS/NRC reviewed product. It conforms to the NAS/NRC panel recommendations published in the FEDERAL REGISTER of September 5, 1970 (35 FR 14168).

In addition, the regulations do not reflect the current address of the firm in the list of approved sponsors in § 510.600(c) (21 CFR 510.600(c)). The address is revised appropriately.

In accordance with the freedom of information regulations and § 514.11(e)(2)(ii) of the animal drug regulations (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk (HFA-305), Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))), and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1) and redelegated to the Director of the Bureau of Veterinary Medicine (21 CFR 5.83), Parts 510 and 524 are amended as follows:

1. In Part 510, § 510.600 is amended by revising the entries for Farnam Companies, Inc., in paragraph (c) (1) and (2) to read as follows:

§ 510.600 Names, addresses, and code number of sponsors of approved applications.

* * * * *

(c) * * *

(1) * * *

Firm name and address	Drug listing No.

* * * * *

Farnam Companies, Inc., 2230 E. Magnolia St., Phoenix, AZ 85036;	017135.

* * * * *

(2) * * *

Drug listing No.	Firm name and address
017135	Farnam Companies, Inc., 2230 E. Magnolia St., Phoenix, AZ 85036.

* * * * *

2. In Part 524, § 524.2101 is amended by revising paragraph (b)(2) to read as follows:

§ 524.2101 Selenium disulfide suspension.

* * * * *

(b) * * *

(2) See Nos. 011536, 015563, and 017135 in § 510.600(c) of this chapter for use as in paragraph (c)(2)(ii) of this section.

* * * * *

Effective date. This regulation is effective January 19, 1979.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Dated: January 10, 1979.

LESTER M. CRAWFORD,
Director, Bureau of Veterinary Medicine.

[FR Doc. 79-1903 Filed 1-18-79; 8:45 am]

[4110-03-M]

PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Diethylcarbamazine Citrate Syrup

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The animal drug regulations are amended to reflect approval of a new animal drug application (NADA) providing for safe and effective use of an anthelmintic syrup for prevention of heartworm disease in dogs and as an aid in treatment of ascarid infections in dogs and cats. The application was filed by Evsco Pharmaceutical Corp.

EFFECTIVE DATE: January 19, 1979.

FOR FURTHER INFORMATION CONTACT:

Henry C. Hewitt, Bureau of Veterinary Medicine (HFV-112), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3430.

SUPPLEMENTARY INFORMATION: Evsco Pharmaceutical Corp., P.O. Box 209, Harding Highway, Buena, NJ 08310, filed an NADA (100-689V) providing for use of diethylcarbamazine citrate syrup for prevention of heartworm disease (*Dirofilaria immitis*) in dogs and as an aid in treatment of ascarid infections in dogs (*Toxocara canis*) and cats (*Toxocara canis* and *Toxascaris leonina*). The regulations are amended to add Evsco as a sponsor and revise the existing text in accordance with the current format.

In accordance with the freedom of information regulations and § 514.11(e)(2)(ii) of the animal drug regulations (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m to 4 p.m., Monday through Friday.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1) and redelegated to the Director of the Bureau of Veterinary Medicine (21 CFR 5.83)

Part 520 is amended in § 520.622b by revising paragraph (b) to read as follows:

§ 520.622b Diethylcarbamazine citrate syrup.

* * * * *

(b) (1) *Specifications.* Each milliliter of syrup contains 60 milligrams of diethylcarbamazine citrate.

(2) *Sponsors.* (i) See No. 010042 in § 510.600(c) of this chapter for use as in paragraphs (3)(ii) (*a*) and (*b*) of this section.

(ii) See No. 017030 for use as in paragraphs (3)(ii) (*a*) and (*c*) of this section.

(3) *Conditions of use*—(i) *Amount.* 3 milligrams per pound of body weight per day for prevention of heartworm disease and as an aid in control of large roundworms; 25 to 50 milligrams per pound of body weight as an aid in treatment of ascarid infections.

(ii) *Indications for use.* (*a*) For prevention of heartworm disease (*Dirofilaria immitis*) in dogs.

(*b*) As an aid in control of large roundworms (*T. canis*) in dogs.

(*c*) As an aid in treatment of ascarid infections in dogs (*T. canis*) and cats (*T. canis* and *T. leonina*).

(iii) *Limitations.* The drug may be placed on the daily ration or given directly by mouth. For treatment of ascarid infections, a repeat dose should be given in 10 to 20 days to remove immature worms which may enter the intestine from the lungs after the first dose. Older dogs should be proven negative for presence of *Dirofilaria immitis* infections before administering the drug. Dogs with established heartworm infections should not receive the drug until they have been converted to a negative status by the use of adulticidal and microfilaricidal drugs. Inadvertent administration to heartworm-infected dogs may cause adverse reactions due to pulmonary occlusion. Overdosage may cause emesis. For prevention of heartworm disease in heartworm-endemic areas, administration of the drug should start 1 month before the mosquito season and be continued daily throughout the mosquito season and for 2 months thereafter. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

* * * * *

Effective date. This regulation is effective January 19, 1979.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Dated: January 10, 1979.

Title 29—Labor

CHAPTER XX—OCCUPATIONAL SAFETY AND HEALTH REVIEW COMMISSION

PART 2400—REGULATIONS IMPLEMENTING THE PRIVACY ACT

Adoption of Regulations

AGENCY: Occupational Safety and Health Review Commission.

ACTION: Final regulations.

SUMMARY: The Occupational Safety and Health Review Commission has adopted rules to govern the manner in which it will implement the requirements of the Privacy Act of 1974. The regulations set forth the procedures under which the public may determine the systems of records maintained by the Commission and procedures on how to access may be gained for purposes of review, amendment and/or correction of those records.

EFFECTIVE DATE: These regulations are effective January 15, 1979.

FOR FURTHER INFORMATION CONTACT:

Robert C. Gombar, General Counsel, Occupational Safety and Health Review Commission, 1825 K Street NW., Washington, D.C. 20006, (202) 634-4015.

SUPPLEMENTARY INFORMATION: On August 29, 1975, the Occupational Safety and Health Review Commission published, pursuant to Section 3(f) of the Privacy Act of 1974, proposed regulations which, if adopted, would be used to govern the manner in which the requirements of the Act would be carried out by the Occupational Safety and Health Review Commission. The public was invited to participate in the rulemaking proceeding by submitting written data, views and arguments on the proposed regulations. No comments were received. Several amendments have been incorporated in the final regulations, however, either at the suggestion of the Office of Management and Budget or for the purpose of clarifying the regulations or changing the agency official responsible for taking certain actions under the regulations.

One area of concern raised by a Member of Congress and the Office of Management and Budget dealt with the lack of a provision for supplying personal information to individual congressional offices in connection with constituent case work inquiries. Section 2400.4(b)(2)(ix) provided for dissemination of personal information to either House of Congress or its committees or subcommittees, but not to Members of Congress. Accordingly, § 2400.4(b)(2)(xii) of the final regulations provides for such dissemination, if there has been a written request from the individual constituent to the Member of Congress. The consent of the individual shall be inferred from his letter to the Member of Congress.

Section 2400.6(a)(3) of the proposed regulations provided for access to records in person. Upon the recommendation of the Office of Management and Budget, the final regulations also provide for access by mail. Because of this expansion, several subsections of § 2400.6 required amendments, and the entire section was renumbered to accommodate the changes and substantially rewritten to clarify the procedures for requesting access. Paragraph (a)(1) specifically provides for a written request to be made either in person or by mail, and paragraphs (f)(1) and (2) provide for the record to be either mailed, if possible, or made available for personal inspection in OSHRC offices, depending on the expressed wishes of the individual. Paragraph (f)(1) also furnishes a means for notifying the requester of the cost of copying the record if the responsible OSHRC official has reason to believe the cost may be considerably more than anticipated by the requester. Paragraph (f)(2) specifies the information that shall be supplied in the notice of the availability of the record to those who intend to review it in person.

Sections 2400.6(b)(1)-(3), in addition to establishing a procedure for verification of identity when requests are mailed, also provide for a means by which a person not having identification papers can establish his identity, and further specify the documents of identification that shall be accepted when an individual makes the request for a record in person. One amendment incorporated into the final regulation at § 2400.6(d) deals with the verification of guardianship where the parent or guardian of a minor or a person judicially determined to be incompetent seeks access on behalf of such minor or incompetent. This provision inadvertently was omitted from the OSHRC proposed regulations on Privacy.

Another addition to the final regulations is a provision for access to OSHRC records maintained in the National Archives and Records Service Centers. This clause was unintentionally left out of the proposed regula-

V 4 4 / 1 4 J A 1 9 7 9 UMI

V 4 4 / 1 4

tions, and accordingly, is included in the final regulation at § 2400.6(a)(1).

Also new is a provision, added at the suggestion of the Office of Management and Budget, to allow for an accounting to a requester of any disclosures made from the individual's record.

The final regulation includes this requirement at Section 2400.6(a)(2).

Section 2400.6(a)(1) of the proposed regulation specified that a person making an inquiry provide OSHRC with the name of the system and category of individual making the request. The final regulation, at § 2400.6(a)(2), deletes the requirement that the category of individual be identified, but asks that additional information be supplied, namely the nature of the record sought and the approximate dates covered by the record. This modification was made because it was thought that the new information requested would facilitate the search for a record.

Other revisions incorporated throughout the final regulations change the official to whom all Privacy Act requests should be made from the Chief Administrative Law Judge to the Executive Director. In addition, the agency is abbreviated as OSHRC rather than OSAHRC to maintain consistency with the abbreviation used by the agency in other matters. Finally, several technical perfecting amendments are made in the language of the regulations so that it more closely corresponds with that of the Privacy Act itself.

Therefore, pursuant to Section 3(f) of the Privacy Act of 1974 (5 U.S.C. 552a(f), 88 Stat. 1896, 1900), and 5 U.S.C. 553, Title 29 Code of Federal Regulations, is amended by adding a new part, Part 2400, to read as follows:

Sec.
2400.1 Purpose and scope.
2400.2 Description of agency.
2400.3 Delegation of authority.
2400.4 Collection and disclosure of personal information.
2400.5 Notification.
2400.6 Procedures for requesting records.
2400.7 Procedures for requesting amendment.
2400.8 Schedule of fees.
2400.9 Exemptions.

AUTHORITY: Sec. 3(f), Privacy Act of 1974 (5 U.S.C. 552a(f), 88 Stat. 1896, 1900), and 5 U.S.C. 553.

§ 2400.1 Purpose and scope.

The purpose of the provisions of this Part is to provide procedures to implement the Privacy Act of 1974 (5 U.S.C. 552a). The following provisions are applicable only to such items of information as relate to the agency or are within its custody. The Commission's custody encompasses all information which is kept by an agent by contract with the agency. They are not applicable to the rights of parties appearing in adversary proceedings before the Commission to obtain discovery from an adverse party. Such matters are governed by the Commission's Rules of Procedure which are published at 29 CFR 2200.1 *et seq.* This part is intended to protect individual privacy, and affects all personal information collection and usage activity of the agency.

§ 2400.2 Description of agency.

The Occupational Safety and Health Review Commission (OSHRC) adjudicates contested enforcement actions under the Occupational Safety and Health Act of 1970 (29 U.S.C. 651-677). Decisions of the Commission on such actions are issued only after the parties to the case are afforded an opportunity for a hearing in accordance with Section 554 of Title 5, United States Code. All such hearings are conducted by an OSHRC Administrative Law Judge at a place convenient to the parties and are open to the public. Each Commission member has the authority to direct that a decision of a Judge be reviewed by the full Commission before becoming a final order.

§ 2400.3 Delegation of authority.

(a) The Executive Director shall insure agency-wide compliance with this policy.

(b) Custodians are responsible for adherence to this part within their respective units and in particular for their collection, use and disclosure of personal information, and for affording individuals the right to inspect, obtain copies of and correct records concerning them. They are responsible for reporting the existence of personal records systems, changes to the contents of those systems and changes of routine use to the Executive Director, and also for establishing the relevancy of information within those systems.

§ 2400.4 Collection and disclosure of personal information.

(a) The following rules govern the collection of personal information throughout OSHRC operations:

(1) The OSHRC shall: (i) Solicit, collect and maintain only such personal information as is relevant and necessary to accomplish a purpose required by statute or Executive Order.

(ii) Collect information, to the greatest extent practicable, directly from the subject individual when such information may result in adverse determinations about an individual's rights, benefits or privileges.

(iii) Inform any individual requested to disclose personal information whether that disclosure is mandatory or voluntary, by what authority it is solicited, the principal purposes for which it is intended to be used, the routine uses which may be made of it, and any penalties or consequences known to the OSHRC which shall result to the individual from such nondisclosure.

(2) OSHRC shall not discriminate against any individual who fails to provide personal information unless that information is required or necessary for the conduct of the system or program in which the individual desires to participate. See § 2400.4(a)(1)(i).

(3) No information shall be collected or maintained which describes how individuals exercise rights guaranteed by the First Amendment unless the Commission specifically determines that such information is relevant and necessary to carry out a statutory purpose of the OSHRC, and the collection is expressly authorized by statute or by the individual about whom the record is maintained.

(4) OSHRC shall not require disclosure of any individual's Social Security account number or deny a right, privilege or benefit because of the individual's refusal to disclose the number unless disclosure is required by Federal law.

(b) Disclosures. (1) Limitations. OSHRC shall not disseminate personal information unless reasonable efforts have been made to assure that the information is accurate, complete, timely and relevant and

(i) The individual to whom the record pertains has requested in writing that the information be disseminated, or

(ii) It has obtained the prior written consent of the individual to whom the record pertains, or

(iii) The dissemination is in accordance with paragraph (b)(2) of this section.

(2) Dissemination of personal information may be made:

(i) To a person pursuant to a requirement of the Freedom of Information Act (5 U.S.C. 552);

(ii) To those officers and employees of OSHRC who have a need for such information in the performance of their duties;

(iii) For a routine use as contained in the system notices published in the FEDERAL REGISTER;

(iv) To a recipient who has provided adequate advance written assurance that the information shall be used solely as a statistical reporting or research record, and to whom the information is transferred in a form that is not individually identifiable;

(v) To the Bureau of the Census for purposes of planning or carrying out a census or survey or related activity pursuant to the provisions of Title 13, U.S. Code;

(vi) To the National Archives of the United States as a record which has sufficient historical or other value to warrant its continued preservation by the United States Government, or for evaluation by the Administrator of General Services or his designee to determine whether the record has such value;

(vii) To a person pursuant to a showing of compelling circumstances affecting the health or safety of an individual, if upon such disclosure notification is transmitted to the last known address of such individual;

(viii) To a federal agency or an instrumentality of any governmental jurisdiction within or under the control of the United States for a civil or criminal law enforcement activity, if such activity is authorized by law and if the head of the agency or instrumentality has made a written request to the OSHRC specifying the particular portion of the record desired and the law enforcement activity for which the record is sought;

(ix) To either House of Congress or its committees or subcommittees to the extent of matter within their jurisdiction;

(x) To the Comptroller General or any of his authorized representatives in the course of the performance of the duties of the General Accounting Office;

(xi) Pursuant to the order of a court of competent jurisdiction;

(xii) To a congressional office from the record of an individual in response to an inquiry from the congressional office made at the written request of that individual. The consent implied from such a written request applies only to congressional inquiries.

(3) Employee credit references. The Personnel Office shall verify the following information provided by an employee to a credit bureau or commercial firm from which an employee is seeking credit: length of service, job title, grade, salary, tenure of employment, and Civil service status.

(4) Employee job references. Prospective employers of an OSHRC employee or a former OSHRC employee may be furnished with the information in § 2400.4(b)(3) above, in addition to the date and reason for separation if applicable, upon the request of the employee or former employee.

(c) Correction disclosure. Any person or other agency to which a personal record has been or is to be disclosed shall be informed of any corrections or be provided copies of statements of dispute, and notifications specifying the portions of the record relating thereto affecting the accuracy, timeliness or relevance of that personal record.

(d) Record of disclosure. (1) An accurate accounting of each disclosure shall be kept in all instances except those in which disclosure is made to OSHRC employees in the performance of their duties or is required by the Freedom of Information Act (5 U.S.C. 552), in conformance with Section 552a(c) of the Privacy Act.

(2) The accounting shall be maintained for at least five (5) years or the life of the record, whichever is longer.

(3) The accounting shall be made available to the individual named in the record upon inquiry, except for disclosures made pursuant to provision (b)(2)(viii) of this section relating to law enforcement activities.

§ 2400.5 Notification.

(a) Notification of systems. The following procedures permit individuals to determine the types of personal records systems maintained by OSHRC.

(1) Upon written request, OSHRC shall notify any individual whether a specific system named by him contains a record pertaining to him. See § 2400.6 for suggested form of request.

(2) OSHRC shall publish annually in the FEDERAL REGISTER a notice of existence and character of all personal systems of records. This notice shall contain the following information:

(i) Name and location of the system,

(ii) Nature and purposes of the system,

(iii) Categories of individuals on whom records are maintained and categories of records generally maintained in the system,

(iv) Confidentiality requirements and the extent to which access controls apply to such information,

(v) OSHRC policies and standards regarding the safeguarding and disclosure of information, retrievability of information, information storage, duration of retention of information, and disposal of such information from the system,

(vi) Each routine use made by OSHRC of the personal information contained in the system, including the categories of users and the purpose of the use,

(vii) Title and official address of the custodian,

(viii) Procedures by which an individual can be informed if a system contains personal information pertaining to himself, gain access to such information, and contest the content, accuracy, completeness, timeliness, relevance and necessity for retention of the information,

(ix) Categories of sources of such personal information,

(x) System status—either developmental or operational.

(b) Notification of disclosure. OSHRC shall make reasonable efforts to serve notice on an individudial before any personal information is made available to any person under compulsory legal process when such process becomes a matter of public record.

(Also see § 2400.4(b) (1)(ii) and (2)(vii).)

(c) Notification of amendment. (See § 2400.7 relating to amendment of records upon request.)

(d) Notification of new use. Any new or revised use of personal information maintained by OSHRC shall be published in the FEDERAL REGISTER thirty (30) days before such use becomes operational. Public views may then be submitted to the Executive Director.

(e) Notification of exemptions. OSHRC shall publish in the FEDERAL REGISTER its intent to exempt any system of records and shall specify the nature and purpose of that system.

§ 2400.6 Procedures for requesting records.

The purpose of this section is to provide procedures by which an individual may have access to personal information within a comprehensive format.

(a) Submission of requests for access—(1) Manner. An individual seeking information regarding the contents of records systems or access to records about himself in a system of records should present a written request to that effect either in person or by mail to the Executive Director, OSHRC, 1825 K Street, NW., Washington, D.C. 20006. Access to OSHRC records maintained in National Archives and Records Service Centers may be obtained in accordance with the regulations issued by the General Services Administration.

(2) Specification of records sought. Requests for access to records shall describe the nature of the record sought, the approximate dates covered by the record, and the system in which the record is thought to be included as described in the "Notification" for that system as published in the FEDERAL REGISTER. The requester should also indicate whether he wishes to review the record in person or obtain a copy by mail. If the information supplied is insufficient to locate or identify the record, the requester shall be notified promptly and, if necessary, informed of additional information required. Upon request, OSHRC also shall disclose to the individual an accounting of any disclosures made from the individual's record.

(3) Period for response. Upon receipt of an inquiry the Executive Director shall respond promptly to the request and no later than 10 days from receipt of such inquiry.

(b) Verification of identity. The following standards are applicable to any individual who requests records concerning himself.

(1) An individual seeking access to records about himself in person may establish his identity by the presenta-

A 19 79 UMI

tion of a single document bearing a photograph (such as a passport, employee identification card, or valid driver's license) or by the presentation of two items of identification which do not bear a photograph but do bear both a name and address (such as a valid driver's license, or credit card).

(2) An individual seeking access to records about himself by mail shall establish his identity by a signature, address, date of birth, place of birth, employee identification number, if any, and one other identifier such as a photocopy of an identifying document.

(3) An individual seeking access to records about himself by mail or in person who cannot provide the necessary documentation of identification may provide a notarized statement swearing or affirming to his identity and to the fact that he understands the penalties for false statements pursuant to 18 U.S.C. § 1001. Forms for such notarized statements may be obtained on request from the Executive Director.

(c) Verification of guardianship. The parent or guardian of a minor or a person judicially determined to be incompetent and seeking to act on behalf of such minor or incompetent shall, in addition to establishing his own identity, establish the identity of the minor or other person he represents as required in paragraph (b) of this section and establish his own parentage or guardianship of the subject of the record by furnishing either a copy of a birth certificate showing parentage or a court order establishing the guardianship.

(d) Accompanying persons. An individual seeking to review records about himself may be accompanied by another individual of his own choosing. Both the individual seeking access and the individual accompanying him shall be required to sign the required form indicating that OSHRC is authorized to discuss the contents of the subject record in the presence of both individuals.

(e) Special rules for medical records. Medical records shall be disclosed to the requester to whom they pertain unless the Executive Director, in consultation with a medical doctor named by the requesting individual, determines that access to such record could have an adverse effect upon such individual. In such a case, the Executive Director shall transmit such information to the named medical doctor.

(f) When compliance is possible. (1) The Executive Director shall inform the requester of the determination to grant the request and shall make the record available to the individual in the manner requested, that is, either by forwarding a copy of the information to him or by making it available for review, unless:

(i) It is impracticable to provide the requester with a copy of a record, in which case the requester shall be so notified, and, in addition, be informed of the procedures set forth in paragraph (b)(2) of this section, or (ii) the responsible official has reason to believe that the cost of a copy of a record is considerably more expensive than anticipated by the requester, in which case he shall notify the requester of the estimated cost, and ascertain whether the requester still wishes to be provided with a copy of the information.

(2) Where a record is to be reviewed by the requester in person, the disclosure officer shall inform the requester in writing of: (i) The date on which the record shall become available for review, the location at which it may be reviewed, and the hours for inspection; (ii) the type of identification that shall be required in order for him to review the record; (iii) such person's right to have a person of his own choosing accompany him to review the record; and (iv) such person's right to have a person other than himself review the record.

(3) If the requester seeks to inspect the record without receiving a copy, he shall not leave OSHRC premises with the record and shall sign a statement indicating he has reviewed a specific record or category of record.

(g) Response when compliance is not possible. A reply denying a written request to review a record shall be in writing signed by the Executive Director or other appropriate official and shall be made only if such a record does not exist or does not contain personal information relating to the requester, or is exempt. This reply shall include a statement regarding the determining factors of denial, and the right to obtain judicial review in a district court of the United States.

§ 2400.7 Procedures for requesting amendment.

(a) Submission of requests for amendment. Upon review of an individual's personal record, that individual may submit a request to amend such record. This request shall be submitted in writing to the Executive Director and shall include a statement of the amendment requested and the reasons therefor, e.g., relevance, accuracy, timeliness or completeness of the record.

(b) Action to be taken by the Executive Director. Upon receiving an amendment request, he or she shall promptly:

(1) Acknowledge in writing within ten (10) working days the receipt of the request.

(2) Make such inquiry as is necessary to determine whether the amendment is appropriate, and

(3) Correct or eliminate any information that is found to be incomplete, inaccurate, not relevant to a statutory purpose of OSHRC, or not timely and notify the requester when this action is complete, or

(4) Notify the requester of a determination not to amend and of the individual's right to appeal not later than thirty (30) working days after receipt of a request to amend.

(c) Appeal procedure. (1) If a request to inspect, copy or amend a record is denied, in whole or in part, or if no determination is made within the period prescribed by this part, the requester may appeal to the Chairman, OSHRC, 1825 K Street, N.W., Washington, D.C. 20006.

(2) The requester shall submit his appeal in writing within thirty (30) days of the date of denial, or within ninety (90) days of such request if the appeal is from a failure of the Executive Director to make a determination. The letter of appeal should include, as applicable:

(i) Reasonable identification of the record to which access was sought or the amendment of which was requested.

(ii) A statement of the OSHRC action or failure to act being appealed and the relief sought.

(iii) A copy of the request, the notification of denial and of any other related correspondence.

(3) The Chairman shall make his final determination not later than thirty (30) days from the date of the request, unless he extends the time for good cause to be shown by him but not to exceed ninety (90) days from the date of the request. Any record found on appeal to be not complete, accurate, relevant, or timely, shall within thirty (30) working days of the date of such findings be appropriately amended.

(4) The decision of the Chairman constitutes the final decision of OSHRC on the right of the requester to inspect, copy, change or update a record. The decision on the appeal shall be in writing and, in the event of a denial, shall set forth the reasons for such denial and state the individual's right to obtain judicial review in a district court. An indexed file of the agency decisions on appeal shall be maintained by the Executive Director.

(d) Submission of statement of disagreement. If the final decision does not satisfy the requester, any statement of reasonable length, provided by that individual, setting forth a position regarding the disputed information, shall be accepted and included in the relevant personal record.

(e) Availability of assistance in exercising rights. The Executive Director is available to provide an individual with assistance in exercising rights pursuant this Part.

§ 2400.8 Schedule of fees.

(a) Policy. The purpose of this section is to establish fair and equitable fees to permit reproduction of records for concerned individuals.

(b) Reproduction. (1) For reproducing any paper or micrographic record or publication, the fee is $.10 per page. No charge shall be made if the total fee authorized by this Part in compliance with a request or series of related requests is less than $3.00.

(2) OSHRC shall not normally furnish more than one copy of any record.

(c) Limitations. No fee shall be charged to any individual for the process of retrieving, or amending records.

§ 2400.9 Exemptions.

(a) Subsections 552a (j) and (k) of Title 5, United States Code, empower the Chairman to exempt systems of records meeting certain criteria from various other subsections of Section 552a. With respect to systems of records so exempted, nothing in this Part shall require compliance with any provisions hereof implementing any subsections of Section 552a from which those systems may properly be and have been exempted.

(b) [Reserved for specific exemptions.]

Signed this 15th day of January, 1979.

RAY H. DARLING, JR.,
Executive Secretary.

CHAPTER XXVI—PENSION BENEFIT GUARANTY CORPORATION

PART 2610—INTERIM REGULATION ON VALUATION OF PLAN BENEFITS

Amendment Adopting Additional PBGC Rates

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Amendment to the interim regulation.

SUMMARY: This amendment to the interim regulation on Valuation of Plan Benefits prescribes the rates and factors the Pension Benefit Guaranty Corporation (the "PBGC") will use to value benefits provided under terminating pension plans covered by Title IV of the Employee Retirement Income Security Act of 1974 ("ERISA"). This valuation is necessary because under section 4041 of ERISA, the PBGC must determine whether a terminating pension plan has sufficient assets to pay all guaranteed benefits provided under the plan. If the assets are insufficient, the PBGC will pay the unfunded guaranteed benefits under the plan termination insurance program established under Title IV.

The interest rates and factors set forth in the regulation must be adjusted periodically to reflect changes in investment markets. This amendment adopts the rates and factors applicable to plans that terminated on or after June 1, 1978, but before September 1, 1978, and will enable the PBGC to value the benefits provided under those plans.

EFFECTIVE DATE: January 19, 1979.

FOR FURTHER INFORMATION CONTACT:

William E. Seals, Staff Attorney, Office of the General Counsel, Pension Benefit Guaranty Corporation, 2020 K Street, N.W., Washington, D.C. 20006, 202-254-4895.

SUPPLEMENTARY INFORMATION: On November 3, 1976, the Pension Benefit Guaranty Corporation (the "PBGC") issued an interim regulation establishing the methods for valuing plan benefits of terminating plans covered under Title IV of the Employee Retirement Income Security Act of 1974 (the "Act") (41 FR 48484 *et seq.*). Specifically, the regulation contains a number of formulae for valuing different types of benefits. In addition, Appendix B of the regulation sets forth the various rates and factors that are to be used in the formulae. Because these rates and factors must be reflective of investment experience, it is necessary to update the rates and factors periodically. When first published, Appendix B contained rates and factors to be used to value benefits in plans that terminated on or after September 2, 1974, but before October 1, 1975. Subsequently, the PBGC adopted additional rates and factors for valuing benefits in plans that terminated on or after October 1, 1975, but before June 1, 1978. (42 FR 2678 *et seq.*, 42 FR 32777 *et seq.*, 42 FR 41858 *et seq.*, 42 FR 59753 *et seq.*, 43 FR 10559 *et seq.*, 43 FR 25337 *et seq.*, 43 FR 55240 *et seq.*).

On October 11, 1978, the PBGC published for comment in the FEDERAL REGISTER rates and factors for valuing benefits in plans that terminated on or after June 1, 1978, but before September 1, 1978 (43 FR 46868 *et seq.*).

No comments were received regarding that proposed amendment to the interim regulation, and accordingly the PBGC hereby adopts the proposed interest rates and factors without change.

The PBGC has determined that this proposed amendment to the Valuation of Benefits regulation is not "significant" under the criteria prescribed by Executive Order 12044, "Improving Government Regulations," 43 FR 12661 (March 24, 1978), and the PBGC's Statement of Policy and Procedures implementing the Order, 43 FR 58237 (December 13, 1978). The reasons for this determination are that this proposal is not likely to engender substantial public interest or controversy, does not affect another Federal agency, and will not have a major economic impact.

Because of the need to provide immediate guidance for the valuation of benefits in plans that terminated on or after June 1, 1978, but before September 1, 1978, and because no adjustment by ongoing plans is required by this amendment, the PBGC finds that good cause exists for making this amendment to the interim regulation effective immediately.

In consideration of the foregoing, Part 2610 of Chapter XXVI, Code of Federal Regulations, is amended by adding a new Table XII to Appendix B to read as follows:

APPENDIX B—INTEREST RATES AND QUANTITIES USED TO VALUE DEFERRED ANNUITIES

XII. *The following interest rates and quantities used to value benefits shall be effective for plans that terminate on or after June 1, 1978, but before September 1, 1978.*

I. *Interest rate for valuing immediate annuities.* An interest rate of 7¼ percent shall be used to value immediate annuities, to compute the quantity "Gy" in § 2610.6 and for valuing both portions of a cash refund annuity.

II. *Interest rate for valuing death benefits.* An interest rate of 5 percent shall be used to value death benefits other than the decreasing term insurance portion of a cash refund annuity pursuant to § 2610.8.

III. *Interest rates and quantities used for valuing deferred annuities.* The following factors shall be used to value deferred annuities pursuant to § 2610.6:

(1) $k_1 = 1.0675$
(2) $k_2 = 1.0475$
(3) $k_3 = 1.035$
(4) $n_1 = 7$
(5) $n_2 = 10$

(Secs. 4002(b)(3), 4041(b), 4044, 4062(b)(1)(A), Pub. L. 93-406, 88 Stat. 1004, 1020, 1025-27, 1029 (29 U.S.C. 1302(b)(3), 1341(b), 1344, 1362(b)(1)(A)).)

Issued at Washington, D.C., on this 27th day of December 1978.

RAY MARSHALL,
Chairman, Board of Directors, Pension Benefit Guaranty Corporation.

Issued on the date set forth above, pursuant to a resolution of the Board of Directors authorizing its chairman to issue same.

HENRY ROSE,
Secretary, Pension Benefit Guaranty Corporation.

Title 32—National Defense

CHAPTER I—OFFICE OF THE SECRETARY OF DEFENSE

[DoD Instruction 1336.1][1]

PART 45—CERTIFICATE OF RELEASE OR DISCHARGE FROM ACTIVE DUTY (DD FORM 214/5 SERIES)

AGENCY: Office of the Secretary of Defense.

ACTION: Final rule.

SUMMARY: This rule prescribes new procedures for the issuance of DD Form 214, Certificate of Release or Discharge from Active Duty, and DD Form 215, Correction to Certificate of Release or Discharge from Active Duty. The revised forms update the reporting requirements of the military services and other Government agencies. The rule will also provide the separating member with a more suitable document for use as a summary of military service when seeking most types of civilian employment, and will provide the military services with a consolidated report of the significant aspects of the member's service. Moreover, it will provide the Veterans Administration, the Department of Labor, and the State Directors of Veterans Affairs, when requested by the member, with selected information that will be used in adjudicating an individual's claim for various veterans' benefits.

EFFECTIVE DATE: July 1, 1979.

FOR FURTHER INFORMATION CONTACT:

LTC G. A. Johnson, USAF, Office of the Deputy Assistant Secretary of Defense (MPP), The Pentagon, Room 3C980, Washington, D.C. 20301 (202) 697-9525.

SUPPLEMENTARY INFORMATION: In FR 78-19707 appearing in the FEDERAL REGISTER on July 18, 1978 (43 FR 30828), the Department of Defense published a notice of proposed rulemaking concerning the reissuance of revised DD Forms 214 and 215. The revision of the DD Form 214 eliminates the need for issuing the certificates entitled "General Discharge" (DD Form 257), or "Discharge Under Other Than Honorable Conditions" (DD Form 794), when an individual is discharged from active duty status. DD Forms 257 or 794, as appropriate, will continue to be issued when a member is discharged from a reserve status until other appropriate instructions are issued. The "Honorable Discharge Certificate" (DD Form 256), will continue to be issued under appropriate circumstances upon completion of a member's reserve obligation. The separating member will receive copy No. 1 of the DD Form 214 containing items 1 through 22. It will be a shortened version of the form, eliminating the Special Additional Information section that may contain potentially adverse information. The member will also have the option of receiving copy No. 4 which will contain the Special Additional Information section. The copies sent to the Veterans Administration, the Department of Labor, and the State Directors of Veterans Affairs, will not contain items 25 through 27, which are intended for internal DoD use only.

The member will also have the option of requesting that a copy of this form be sent to his/her designated State Director of Veterans Affairs. Shading of the form in certain areas, spot carbon, security ink, and improved storage requirements will serve to deter its use from unintended purposes, and to preclude unauthorized alterations. In order to avoid unnecessary duplication of the various pages of the DD Form 214, the sample forms below are limited to an image of copy No. 2 of the eight page carbon set, a DD Form 214 worksheet and a sample DD Form 215.

COMMENTS RECEIVED

In response to the proposed notice of rulemaking, the Department received comments from over 30 organizations and individuals, many of which were from offices of State Directors of Veterans' Affairs. Full and careful consideration was given to all written comments received. To accommodate substantive recommendations, the rule and DD Form 214 were modified in some instances. Major changes from the proposed rulemaking are discussed below. In addition, some alterations were made to promote consistency and clarity in grammar, vocabulary and style.

1. Applicability and scope. § 45.2 was extended to include the U.S. Coast Guard.

2. Policy and Procedures. Section 45.3(b) was revised to include a provision whereby the Military Services may also prescribe other circumstances when a DD Form 214 may be issued. It also prescribes the format for continuation sheets, if necessary. Section 45.3(c) has added a provision that limits the issuance of DD Forms 214 to only those other circumstances which may dictate the reissuance of the form for some other reason. Section 45.3(d) provides for the recording of disability pay and non-pay/excess leave days in appropriate cases, as well as annotating actions relating to discharge upgrade. Section 45.3(e) clarifies the issuance of DD Forms 214 issued prior to July 1, 1979.

3. Responsibilities. Section 45.4(a) prescribes surprinting on DD Form 214 and DD Form 215.

One area of comments that reflects some misunderstanding is the use of separation program designator (SPD) codes. These are generally a three to five position code that indicates a specific reason for separation for ease of computer input. They are intended for internal use by the Department of Defense in collecting data to analyze statistical reporting trends that may influence changes in separation policy. Trend analysis studies of cohort year groups require matchup of individuals and SPD's between computer tapes. This analysis would not be possible if the linkage were broken. In addition, the individual identifier-SPD linkage is key to managing the Services' prior service enlistment programs.

If either the individual identifier or SPD were deleted from the data system after a certain period of time, we would be required to establish and maintain two separate data files. One file would contain the SPD and other-than-individual identifier information; the other would contain individual identifiers, other information, but no SPD. Establishment of two files to replace one would unnecessarily increase costs, particularly when multiplied by the number of user files.

Additionally, they may be used to identify individuals separated for a specific reason if some subsequent policy decision may affect them as a group.

Without full knowledge of the circumstances associated with an individual's separation, especially when mitigating factors may be involved, individuals or organizations who attempt to use these codes as a bar to prospective employment commit a disservice to former servicemembers.

The unique requirement associated with military service and a particular individual's inability to cope in such an environment are not necessarily indicative of his/her potential within the civilian sector. By not placing these codes on the original copy of the DD Form 214 given to the member, the Department is attempting to preclude their use for unintended purposes. These codes have not been placed on the original copy since 1974; however, a cumbersome administrative procedure has been used to accomplish this while using the 1 November 1972 edition of the form.

Accordingly, 32 CFR Chapter I is amended by adding a new Part 45, reading as follows:

[1] Copies may be obtained, if needed, from the U.S. Naval Publications and Forms Center, 5801 Tabor Avenue, Philadelphia, PA. 19120. Attention: Code 301.

Sec.
45.1 Purpose.
45.2 Applicability and scope.
45.3 Policy and procedures.
45.4 Responsibilities.
45.5 State Directors of Veterans Affairs.

AUTHORITY: Title 10, U.S.C. 1168 and 972.

§ 45.1 Purpose.

This Part prescribes procedures concerning the preparation and distribution of revised DD Form 214 to comport with the requirements of 10 U.S.C. 1168, 972, and DoD Directive 1332.14, "Enlisted Administrative Separations," December 29, 1976, and the control and publication of separation program designators (SPDs).

§ 45.2 Applicability and scope.

(a) The provisions of this Part apply to the Office of the Secretary of Defense, the Military Services, the Organization of the Joint Chiefs of Staff, and the Defense Agencies (hereafter referred to as "DoD Components"). The term "Military Services," as used here, refers to the Army, the Navy, the Air Force, the Marine Corps and, by agreement with the Department of Transportation, to the Coast Guard.

(b) Its provisions include procedures on the preparation and distribution of DD Forms 214, 214-ws, and 215 (enclosures 1, 2 and 3) which record and report the transfer of or separation of military personnel from a period of active duty.

NOTE.—Computer generated formats are acceptable substitutes provided Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics) approval is obtained.

DD Forms 214 and 215 (or their substitutes) will provide:

(1) *The Military Services* with a source of information relating to military personnel for administrative purposes, and for making determinations of eligibility for enlistment or reenlistment.

(2) *The servicemember* with a brief, clear-cut record of the member's active service with the Armed Forces at the time of transfer, release, or discharge, or when the member changes status or component while on active duty.

(3) *Appropriate governmental agencies* with an authoritative source of information which they require in the administration of Federal and State laws applying to personnel who have been discharged, otherwise released, or transferred to a Reserve component of the Military Services.

(c) Its provisions include procedures on the control and distribution of all lists of SPDs.

§ 45.3 Policy and procedures.

(a) Administrative Issuance or Reissuance of DD Forms 214 and 215.

(1) The DD Form 214 will normally be issued by the command from which the member was separated. In those instances where a DD 214 was not issued, the Services concerned may establish procedures for administrative issuance.

(2) The DD Form 214, once issued, will not be reissued except:

(i) When directed by appropriate appellate authority, Executive Order or by the Secretary concerned.

(ii) When it is determined by the Service concerned that the original DD Form 214 cannot be properly corrected by issuance of a DD Form 215 or if the correction would require issuance of more than two DD Forms 215.

(iii) When two DD Forms 215 have been issued and an additional correction is required.

(3) Whenever a DD Form 214 is administratively issued or reissued, an appropriate entry stating that fact and the date of such action will be made in Block 18, Remarks, of the DD Form 214 unless the appellate authority, Executive Order, or Secretarial directive specifies otherwise.

(b) The Military Services will ensure that every member (except as limited in § 45.3(b)(2), and excluding those listed in § 45.3(c)) being separated from the Military Services is given a completed DD Form 214 describing relevant data regarding the member's service, and the circumstances of termination. DD Form 214 may also be issued under other circumstances prescribed by the Military Service concerned. A continuation sheet, if required, will be bond paper, and will reference: the DD Form 214 being continued, information from blocks 1 through 4; the appropriate block(s) being continued; the member's signature, date; and the authorizing official's signature. DD Forms 214 are not intended to have any legal effect on termination of the member's service.

(1) *Release or Discharge from Active Service.* (i) The original of DD Form 214 showing separation from a period of active service with a Military Service, including release from a status that is legally determined to be void, will be physically delivered to the separatee prior to departure from the separation activity (*a*) on the effective date of separation; or (*b*) on the date authorized travel time commences.

(A) Copy No. 4, containing the statutory or regulatory authority, reenlistment eligibility code, SPD code, and narrative reason for separation also will be physically delivered to the separatee prior to departure, if he/she so requests by initialing Block 30, Member Requests Copy 4.

(B) Remaining copies of DD Form 214 will be distributed on the day following the effective date of separation (see § 45.3(e)).

(ii) When separation is effected under emergency conditions which preclude physical delivery, or when the recipient departs in advance of normal departure time (e.g., on leave in conjunction with retirement; or at home awaiting separation for disability), the original DD Form 214 will be mailed to the recipient on the effective date of separation.

(iii) If the separation activity is unable to complete all items on the DD Form 214, the form will be prepared as completely as possible and delivered to the separatee. The separatee will be advised (*a*) that a DD Form 215 will be issued by the Military Service concerned when the missing information becomes available; and (*b*) that it will not be necessary for the separatee to request a DD Form 215 for such information (see § 45.3 (e)(3)).

(iv) If an optical character recognition format is utilized by a Military Service, the first carbon copy of the document will be physically delivered or mailed to the separatee as prescribed in subparagraphs (1) (i), (ii) and (iii) of this paragraph.

(2) *Release from Active Duty for Training or Full Time Training Duty.* Personnel being separated from a period of active duty for training or full-time training duty will be furnished a DD Form 214 only when they have served 90 days or more. However, personnel being separated for physical disability, and those serving under special active duty for training programs of the National Guard or Reserve will be furnished a DD Form 214, regardless of the length of time served on active duty.

(3) *Continuing on Active Duty.* Members who change their status or component as outlined below, while they are serving on active duty will be provided a completed DD Form 214 upon:

(i) Discharge for immediate enlistment or reenlistment (optional—at the discretion of the Military Services). However, Military Services not providing the DD Form 214 will issue instructions requiring those military offices which maintain a member's records to provide necessary Service data to the member for application to

V 4 4 / 1 4 J A 1 9 7 9

appropriate civilian individuals, groups, and governmental agencies. Such data will include Service component, entry date and grade.

(ii) Termination of enlisted status to accept an appointment to warrant or commissioned officer grade.

(iii) Termination of a temporary appointment to accept a permanent warrant or commission in the Regular or Reserve components of the Armed Forces.

(iv) Termination of an officer appointment in one of the Military Services to accept appointment in another Service.

(c) *DD Form 214 need not be prepared for.* (1) Personnel found disqualified upon reporting for active duty and who do not enter actively upon duties in accordance with orders.

(2) Personnel whose active duty, active duty for training, or full-time training duty is terminated by death.

(3) Personnel being removed from the Temporary Disability Retired List.

(4) Enlisted personnel receiving temporary appointments to warrant or commissioned officer grades.

(5) Personnel whose temporary warrant or commissioned officer status is terminated and who remain on active duty to complete an enlistment.

(6) Personnel who terminate their Reserve component status to integrate into a Regular component.

(7) Personnel separated or discharged who have been furnished a prior edition of this form, unless that form is in need of reissuance for some other reason.

(d) *Preparation.* The Military Departments will issue instructions governing the preparation of DD Form 214, consistent with the following:

(1) DD Form 214 is an important record of service which must be prepared accurately and completely. Any unavoidable corrections and changes made in the unshaded areas of the form during preparation shall be neat, legible and initialed on all copies by the authenticating official. The recipient will be informed that making any unauthorized change or alteration of the form will render it void.

(2) Since DD Form 214 is often used by civilian personnel, abbreviations should be avoided.

(3) Copies of DD Form 214 transmitted to various governmental agencies shall be legible, especially those provided to the Veterans Administration and the Department of Labor.

(4) The authority for a member's transfer or discharge will be cited by reference to the appropriate Military Service regulation, instruction, or manual, followed by the appropriate separation program designator on copies 2, 4, 7 and 8 only. A narrative description to identify the reason for transfer or separation will not be used on copy 1.

(5) To assist the former servicemember in employment placement and job counseling, formal inservice training courses successfully completed during the period covered by the form will be listed in Block 14, Military Education; e.g., medical, dental, electronics, supply, administration, personnel or heavy equipment operations. Training courses for combat skills will not be listed. See 1978 Guide to the Evaluation of Educational Experiences in the Armed Services, published by the American Council on Education, for commonly accepted course titles and abbreviations.

(6) For the purpose of reemployment rights (DoD Directive 1205.12 "Assistance to be Provided members of the Armed Forces in Exercising Reemployment Rights for Obtaining Employment or Training," January 15, 1969), all extensions of service, except those under 10 U.S.C. 972, are considered to be at the request and for the convenience of the Government. In these cases, Block 18 of DD Form 214 will be annotated to indicate "Extension of Service was at the request and for the convenience of the Government."

(7) When one or more of the data items on the DD Form 214 are not available and the document is issued to the separatee, the applicable block(s) will be annotated "See Remarks." In such cases, Block 18 will contain the entry "DD Form 215 will be issued to provide missing information." When appropriate, Block 18 will also reflect the amount of disability pay, and the inclusive dates of any non-pay/excess leave days.

(8) Authorizing official (E-7, GS-7 or above) will sign the original in ink ensuring that the signature is legible on all carbon copies. If not, a second signature may be necessary on a subsequent carbon copy.

(9) The following are the only authorized entries in Block 24, Character of Service, as appropriate: "Honorable, Under Honorable Conditions (General), Under Other Than Honorable Conditions, Bad Conduct, or Dishonorable." When a discharge has been upgraded, the DD Form 214 will be annotated on copies 2 through 8 in Block 18 to indicate the character of service has been upgraded; the date the application for upgrade was made; and the effective date of the corrective action.

(e) *Distribution.* The Military Services will prescribe procedures governing the distribution of copies of the DD Forms 214 and 215, consistent with their internal requirements, and the following:

(1) *DD Form 214*—(i) *Copy No. 1 (original).* To the member.

(ii) *Copy No. 2.* To be used as the Military Services' record copy.

(iii) *Copy No. 3.* To the Veterans Administration, Data Processing Center (214), 1614 E. Woodward Street, Austin, Texas 78772. A reproduced copy will also be provided to the hospital with the medical records if the individual is transferred to a VA hospital. If the individual completes VA Form 21-526e, "Veterans Application for Compensation or Pension at Separation from Service," include a copy of the DD Form 214 with medical records forwarded to the VA regional office having jurisdiction over the member's permanent address. When an individual is in Service and enlisting or reenlisting in an active duty status or otherwise continuing on active duty in another status, copy No. 3 will not be forwarded to the VA.

(iv) *Copy No. 4.* To the member, if the member so requested by having initialed Block 30. If the member does not request this copy, it may be retained in the master military personnel record, to be available in case the member requests a copy later.

(v) *Copy No. 5.* To the U.S. Department of Labor, Unemployment Insurance Systems Design Center, P.O. Box 44246, Capitol Station, Baton Rouge, Louisiana 70804.

(vi) *Copy No. 6.* To the appropriate State Director of Veterans Affairs (see § 45.5), if the member so requested by having checked "Yes" in Block 20, "Member Requests Copy Be Sent to Director of Veterans Affairs." The member must specify the State. If the member does not request the copy be mailed, it may be utilized as prescribed by the Military Service concerned.

(vii) *Copies No. 7 and 8.* To be distributed in accordance with regulations issued by the Military Service concerned.

(viii) *Additional Copy Requirements.* Discharged Alien Deserters. Provide one reproduced copy of Copy No. 1 to the U.S. Department of State, Visa Office—SCA/VO, State Annex No. 2, Washington, D.C. 20520 to assist the Visa Office in precluding the unwarranted issuance of visas to discharged and alien deserters in accordance with DoD Directive 1325.2[1], "Desertion and Unauthorized Absenteeism," February 10, 1977. Place of birth will be entered in Block 18.

(2) *DD Form 214-ws.* Utilized to facilitate the preparation of DD Form 214. The document will be used and disposed of in accordance with regulations issued by the Military Service concerned.

(3) *DD Form 215.* Utilized to correct errors in DD Form 214 discovered after the original has been delivered and/or distribution of copies of the form has been made, and to furnish to separatee information not available when the DD Form 214 was prepared. The distribution of DD Form 215 will be identical to the distribution of DD Form 214.

(4) *Requests for Copies of DD Form 214 Subsequent to Separation.* Agencies maintaining a separatee's DD Form 214 will provide a copy only upon written request by the member. Agencies will provide the member with 1 copy with the Special Additional Information section, and 1 copy with that information deleted. In the case of DD Forms 214 issued prior to 1 July 1979, agencies will provide the member with 1 copy containing all items of information completed, and 1 copy with the following items deleted from the form: Specific authority and narrative reason for separation, reenlistment eligibility code, and separation program designator/number.

(i) In those cases where the member has supplied an authorization to provide a copy of the DD Form 214 to another individual or group, the copy furnished will not contain the Special Additional Information section or, in the case of DD Forms issued prior to 1 July 1979, those items listed in d., above.

(ii) A copy will be provided to authorized personnel for official purposes only.

(f) *Procurement.* Arrangements for procurement of DD Forms 214, 214-ws, and 215 will be made by the Military Services.

(g) *Modification of Forms.* The modification of the content of format of DD Forms 214, 214-ws, and 215 may not be accomplished without prior authorization of the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics) (ASD(MRA&L)). Requests to add or delete information will be coordinated with the other Military Services in writing, prior to submission to the ASD(MRA&L). If a Military Service uses computer capability to generate forms, the items of information may be rearranged.

§ 45.4 Responsibilites.

(a) The DD Forms 214 and 215 are a source of significant and authoritative information used by civilian and governmental agencies to validate veteran eligibility for benefits. As such, they are valuable forms, and therefore, vulnerable for fraudulent use. Since they are sensitive, the forms must be safeguarded at all times. They will be transmitted, stored, and destroyed in a manner which will prevent unauthorized use. The Military Services will issue instructions consistent with the following:

(1) All DD Forms 214 will be surprinted with a reproducible screen tint using appropriate security ink on blocks 1, 3, 4, 12 and 18 through 30. In addition blocks 1, 3, 5 and 7 of the DD Form 215 will be similarly surprinted to make alterations readily discernible. No corrections will be permitted in the screened areas.

(2) All forms will be secured after duty hours.

(3) All obsolete forms will be destroyed.

(4) All forms to be discared, including those which are blank or partially completed, and reproduced copies of DD Form 214, will be destroyed. No forms will be discared intact.

(5) Blank forms given to personnel for educational or instructional purposes, and forms maintained for such use, are to be clearly voided in an unalterable manner.

(6) The commander or commanding officer of each unit or activity authorized to ussue DD Form 214 will appoint, in writing, a commissioned officer, warrant officer, enlisted member (grade E-7 or above), or DoD civilian (GS-7 or above) who will requisition, control, and issue blank DD Forms 214 and 215.

(7) The Military services will monitor the use of DD Form 214 and review periodically its issuance to insure compliance with procedures for safeguarding.

(b) The DD Form 214-ws will contain the word "WORKSHEET" on the body of the Form. This DD Form 214-ws will be treated in the same manner as the DD Form 214.

(c) The Military Services will issue appropriate instructions to separation activities stressing the importance of the DD Forms 214 and 215 in obtaining veterans benefits, reemployment rights and unemployment insurance.

(d) Standard separation program designator (SPD) codes for officer and enlisted personnel developed under the provisions of DoD Instruction 5000.12, [1] "Data Elements and Data Codes Standardization Procedures," April 27, 1965 are published in DoD Manual 5000.12-M, [2] "Manual for Standard Data Elements," March 1, 1970.

(1) Requests to add, change, or delete an SPD code shall be forwarded by the DoD Component concerned with appropriate justification to the Assigned Responsible Agency accountable for evaluating, recommending approval of, and maintaining such codes:

Department of the Navy, Bureau of Naval Personnel, (PERS 3), Washington, D.C. 20370

(2) Requests to add, change, or delete an SPD code will be submitted in accordance with section V., DoD Instruction 5000.12, [1] with prior written approval by the ASD(MRA&L), or his/her designee.

(e) All lists of SPD codes, including supplemental lists, published by the DoD Components will be stamped "For Official Use Only" and will not be furnished to any agency or individual outside the Department of Defense.

(1) Appropriate provisions of the Freedom of Information Act, 5 U.S.C. 522, as amended by Pub. L. 93-502 will be used to deny the release of the lists to the public. An individual being separated or discharged is entitled access only to his/her SPD code. It is not intended that these codes stigmatize an individual in any manner. They are intended for internal use by the Department of Defense in collecting data to analyze statistical reporting trends that may, in turn, influence changes in separation policy.

(2) Agencies or individuals who come into the possession of these lists are cautioned on their use because a particular list may be outdated and not reveal correctly the full circumstances relating to an individual's separation or discharge.

§ 45.5 State Directors of Veterans Affairs.

ALABAMA

Director, Department of Veterans Affairs, P.O. Box 1509, Montgomery, AL 36106.

ALASKA

Director, Division of Veterans Affairs, Pouch DA, Juneau, AK 99801.

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 52h—SCIENTIFIC PEER REVIEW OF RESEARCH GRANT APPLICATIONS AND RESEARCH AND DEVELOPMENT CONTRACT PROJECTS

Correction

AGENCY: Public Health Service, HEW.

ACTION: Correction of Rules and Regulations.

SUMMARY: HEW corrects the Regulation published in the FEDERAL REGISTER February 24, 1978 (43 FR 7861, FR Doc. 78-4441). In that publication, the effective date was erroneously listed as October 1, 1977. The effective date should have read February 24, 1978, the date of publication in the FEDERAL REGISTER.

EFFECTIVE DATE: This correction is effective January 19, 1979.

FOR FURTHER INFORMATION CONTACT:

Dr. William H. Goldwater, Collaborative Programs Policy Officer, National Institutes of Health, OCR, Building 1, Room 113, 9000 Rockville Pike, Bethesda, Md. 20014, (301) 496-2241.

Dated: January 12, 1979.

L. DAVID TAYLOR,
Deputy Assistant Secretary for Management Analysis and Systems.

CHAPTER IV—HEALTH CARE FINANCING ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—MEDICARE PROGRAM

PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

Subpart D—Principles of Reimbursement for Provider Costs and for Services by Hospital-based Physicians

DEPRECIATION: ALLOWANCE FOR DEPRECIATION BASED ON ASSET COSTS

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Final rule.

SUMMARY: Current regulations dealing with the computation of gains and losses on disposal of depreciable assets are being amended. These amendments specify the Medicare cost accounting treatment of gains and losses arising from both voluntary and involuntary disposal of assets. The amendments preclude immediate reimbursement for substantial losses resulting from the premature and voluntary demolition or abandonment of depreciable assets. These amendments also include rules for determining the useful lives of depreciable assets and provide that estimated useful lives may not be shortened for such reasons as anticipated early disposal of assets or termination from the Medicare program. The new provisions are intended to assure that depreciation allowed under Medicare accurately reflects providers' costs of using assets for patient care.

EFFECTIVE DATE: These amendments become effective March 20, 1979 in order to allow providers and intermediaries sufficient time to make any necessary changes in recordkeeping or procedures.

FOR FURTHER INFORMATION CONTACT:

Mr. Hugh McConville, Medicare Bureau, Health Care Financing Administration, 412 East Building, 6401 Security Boulevard, Baltimore, Maryland 21235, 301-594-9430.

SUPPLEMENTARY INFORMATION:

SUMMARY OF AMENDMENTS

Medicare reimburses providers for the direct and indirect costs necessary to the provision of patient care, including the cost of using assets in patient care. Thus, depreciation of these assets has always been an allowable cost under Medicare. The allowance is computed on the depreciable basis and estimated useful life of the assets. When an asset is disposed of, no further depreciation may be taken on it. However, if a gain or loss is realized from the disposition, reimbursement for depreciation must be adjusted so that Medicare pays the actual cost the provider incurred in using the asset for patient care.

Existing regulations contain a requirement that any gain or loss realized on the disposal of a depreciable asset must be included in Medicare allowable cost computation. (See 42 CFR 405.415(f).) The regulations, however, specify neither the procedures for computations of the gain or loss nor the methods for making adjustments to depreciation. These amendments provide rules for the treatment of gain or loss depending on the manner of disposition of the asset.

Depreciable assets may be disposed of in various ways: voluntarily through sale, scrapping, trade-in, exchange, demolition and abandonment, or involuntarily through casualty. These amendments provide that, if a provider sells or scraps depreciable assets, a gain or loss will be included as an adjustment to depreciation allowed in the year of disposal. (§ 405.415(f)(2).) The amendments retain the present requirement that gain or loss on a sale of assets within one year after a provider terminates Medicare participation is included in computing allowable cost. (§ 405.415(f)(3).) If several assets are sold for a lump sum, the amendments provide that the sales price will be allocated to each asset according to its fair market value for purposes of computing gain or loss. The regulation encourages the buyer and seller to agree on an allocation of the sales price, but if the parties fail to agree, or if they do agree but there is not sufficient documentation of current fair market value of each asset, the intermediary of the selling provider will determine the fair market value of each asset by an independent appraisal.

If a provider trades in or exchanges an asset, no gain or loss is included in computation of allowable cost. Instead, consistent with principles of the Internal Revenue Service (IRS), the undepreciated value of the traded asset, plus any additional assets transferred to acquire the new asset, are used as the basis for depreciation of the new asset under Medicare. Any gain or loss upon disposition of the new asset will be computed in accordance with the applicable provisions of this section.

These amendments preclude immediate reimbursement of a loss resulting from a voluntary and premature demolition or abandonment of assets, since the loss is not related to patient care furnished in the year of disposal. In order to obtain reimbursement, a provider must ordinarily replace the asset and capitalize the loss as a deferred charge, to be amortized over the useful life of the replacement asset. (§ 405.415(f)(5)(iv).) There are several exceptions to this general principle. If the loss is less than $5,000 or the asset disposed of is virtually exhausted, a depreciation adjustment will be allowed in the year of disposition. (§ 405.415(f)(5)(ii).) We have decided that the recordkeeping costs that would result from requiring deferral and amortization of these losses are not warranted by the amounts involved.

Moreover, if demolition or abandonment of patient care assets is approved by the State Health Planning and Development Agency (SHPDA) responsible under P.L. 93-641 for developing standards, criteria, and plans to meet the health care needs in the area, the regulation allows a loss to be recovered over the remaining life of the demolished asset. (§ 405.415(f)(5)(iv).)

We have added a similar provision modifying section 405.415(f)(6) of the proposed regulation. The change liberalizes the proposed regulation which required that a provider replace involuntarily-converted assets in order to include involuntary losses in costs reimbursed under Medicare. The final regulation provides that if a provider intends to replace the assets, but a State Health Planning and Development Agency finds that replacement is inconsistent with the health systems plan of the health service area, the loss will be included in computing allowable cost. This provision and section 405.415(f)(5)(iv) are consistent with our commitment to effective health planning and development and to cost containment; their purpose is to encourage voluntary compliance with SHPDA recommendations and to eliminate Medicare costs that would be associated with unnecessary replacement of assets.

These amendments also expand current provisions with respect to estimating useful lives of assets. They specify the factors to be used in determining useful lives. They also require that in computing depreciation providers use useful life guidelines published by the Secretary, or, if none exist, the guidelines published by IRS or the American Hospital Association. Any changes in estimated useful lives must be properly documented by the provider and approved by the intermediary. This procedure is intended to assure that providers do not inappropriately shorten the estimated useful lives of assets to increase Medicare reimbursement.

The proposed regulation did not specify how costs should be assigned between depreciable and nondepreciable assets disposed of through demolition. To rectify this omission, we have added § 405.415(f)(5)(vi) and (vii), describing the items of cost to be included in the computation of a loss arising from a demolition or abandonment and those items that are treated under generally accepted accounting principles as adjustments to the basis of the assets. Similarly, § 405.415(f)(6)(ii) was added to define the net loss allowable with respect to involuntary conversion of assets; this term was not defined in the NPRM.

We have made a number of editorial changes for clarity, including amending paragraph (a) of § 405.415 by adding the phrase "used in the provision of patient care" after the words "buildings and equipment." This phrase previously appeared in paragraph (f)(2), but it more properly belongs in paragraph (a) as a general principle.

DISCUSSION OF MAJOR COMMENTS

A notice of proposed rulemaking for these regulations was published on August 20, 1976 in the FEDERAL REGISTER (41 FR 35197). Comments and suggestions were received from a number of organizations, hospitals, and individuals. Responses to the most significant ones and changes in the proposed regulations are described below.

1. DEFERRAL OF LOSSES WHERE ASSETS ARE DISPOSED OF THROUGH ABANDONMENT OR DEMOLITION

Several comments received regarding § 405.415(f) concerned the deferral of losses where assets are disposed of through abandonment or demolition. Commenters criticized the procedure, stating that it is not consistent with generally accepted accounting principles, is arbitrary and capricious, and is contrary to the law because it would result in costs associated with Medicare patients being borne by non-Medicare patients. Further, comments contended that deferral of such losses is not justified because there is no future economic value to the demolished or abandoned asset and that such treatment adversely affects the provider's cash flow. We think it would be inconsistent with the reimbursement of reasonable cost to include the entire loss in the year of disposal, since the loss is not related to the cost of services rendered in that year. Also, full recognition of such losses in the year of disposal tends to encourage the demolition or abandonment of patient care assets at the expense of the Medicare program. We have, however, modified the proposed regulation to allow reimbursement in the year of disposal for demolition or abandonment losses incurred on assets which are at least 80 percent depreciated (as computed under the straight-line method) at the time of demolition or abandonment. Since assets held for 80 percent of their estimated useful life are substantially exhausted, we have decided not to treat their disposal as a premature disposition. If an asset is not 80 percent depreciated under the straight-line method, the loss, if in excess of $5,000, must still be capitalized and amortized, but the amount to be amortized each year will be the greater of the annual amortized amount or $5,000. This will insure the rapid amortization of small losses.

2. USE OF STATE HEALTH PLANNING AND DEVELOPMENT AGENCIES

The second major objection concerned the requirement that providers secure State Health Planning and Development Agencies' approval of demolitions or abandonments. Such agencies do not exist in all States and some agencies are not authorized to approve proposed demolitions or abandonments. The proposed regulation has, therefore, been changed to provide that where such agencies cannot perform this function, a provider must seek approval from the Medicare Bureau Regional Office.

3. GAINS OR LOSSES ON EXCHANGE OR TRADE-IN NOT INCLUDED IN ALLOWABLE COST

Some commenters objected that the regulation does not permit inclusion of gains or losses on exchange or trade-in in determining allowable cost. Although gains or losses are not immediately allowable, the historical cost of the new asset is based upon the book value of the traded asset plus other assets included in the exchange. Thus, gain or loss on the exchange or trade-in would be indirectly reflected in any gain or loss realized when the new asset is disposed of. This policy is consistent with IRS treatment of these gains and losses and is currently widely employed in accounting for exchange or trade-in of assets by all industries in order to comply with IRS requirements. Therefore, we have retained this provision as published in the NPRM, with a minor addition: the regulation now provides that historical cost of the new asset is limited to the lower of its list price or fair market value. The addition of the phrase "fair market value" is intended to clarify how the provision will be applied to assets that have no list price or both list price and fair market value.

4. USE OF APPRAISALS TO ALLOCATE A LUMP SUM SALES PRICE

The proposed regulation required that allocation of a lump sum sales price among the assets sold be based on an independent appraisal. Some commenters objected that this requirement would unnecessarily increase costs. We have amended the provision to allow the seller and buyer to agree upon an allocation of a lump sum sales price, and we encourage them to do so. If the parties do not agree on an allocation, or if they do agree but there is insufficient documentation of the current fair market value of each asset, the regulation provides that the intermediary of the selling provider will require an independ-

V 4 4 / 1 4 A 1 9 7 9 UMI

ent appraisal to establish the fair market value of each asset. We believe that these changes in the regulation will avoid unnecessary costs, while assuring accurate allocations of lump sum sales prices.

5. EXCLUSION OF DEFERRED CHARGES FROM EQUITY CAPITAL COMPUTATION

Other commenters disagreed with our excluding from equity capital computation the deferred charges arising from demolition or abandonment losses. (See discussion in Paragraph 1 above.) Pursuant to § 405.429, proprietary providers may include as an allowable cost a return on equity capital invested and used in the provision of patient care. In our view, however, since assets demolished or abandoned are no longer used in the provision of patient care as required by § 405.429, the deferred unrecovered cost should be excluded from the equity capital computation.

6. $5,000 LIMITATION

Numerous requests were received to increase the limit of $5,000 for current allowance of losses from demolition or abandonment of depreciable assets. Rather than raising the $5,000 limit, we have liberalized the proposed regulation by allowing inclusion of losses in the year of disposal if the asset disposed of is at least 80 percent depreciated. As amended, the provision will limit deferral of losses to extraordinary disposals.

7. DETERMINING AND CHANGING USEFUL LIVES OF ASSETS

A few comments received opposed the use of useful life guidelines set by the American Hospital Association or the Internal Revenue Service. These guidelines have been used since the inception of the program and have proved to be equitable to the providers and the program. Therefore, we have decided to require their use where the Secretary does not publish applicable useful life guidelines. The regulation, however, does allow providers to establish estimated useful lives different from the guidelines under specified conditions.

Other commenters objected to the requirement for advance approval of changes in useful life, arguing that this new procedure is impractical, will increase administrative cost, and will cause undue hardship to providers. However, since this policy allows changes in useful life where justified by supportable documentation and merely assures proper review of such modifications, we have retained the requirement for advanced written approval.

Many comments expressed concern about the requirement that any change in useful life would be effective in the reporting period following the period the request is approved. Some stated that this provision could delay by an additional year the proper recording of depreciation. Accordingly, we have made such changes in useful life effective in the reporting year immediately following the year in which the provider's request is submitted for approval provided that the request to change is approved.

EFFECTIVE DATE

Some of these amendments may require providers and intermediaries to revise their recordkeeping and review procedures in order to assure proper implementation. These include § 405.415 (b)(7)(ii), (f)(2)(iv), (f)(5), and (f)(8). For this reason, we have deferred the effective date of these amendments for 60 days.

However, some of these amendments are merely a clarification or codification of existing Medicare policies. This is true for paragraphs (a), (b)(7)(i), (c), (f)(1), (f)(2) (i) through (iii), (f)(3), (f)(4), and (f)(7). (See § 405.415 (a), (c), and (f) and § 405.429 of the current regulations and Chapter I of the Medicare Provider Reimbursement Manual (HIM-15-1).) With respect to these provisions, we will continue to implement the current policies, in the manner specified in these amendments.

42 CFR Part 405 is amended as follows:

1. Section 405.415 is amended by revising paragraphs (a), (c), and (f), and adding a new paragraph (b)(7) to read as follows:

§ 405.415 Depreciation: Allowance for depreciation based on asset costs.

(a) *Principle.* An appropriate allowance for depreciation on buildings and equipment used in the provision of patient care is an allowable cost. The depreciation must be:

• • • • • •

(b) *Definitions.*

• • • • • •

(7) *Useful life.* The estimated useful life of a depreciable asset is its normal operating or service life to the provider, subject to the provisions in paragraph (b)(7)(i) of this section. Factors to be considered in determining useful life include normal wear and tear; obsolescence due to normal economic and technological changes; climatic and other local conditions; and the provider's policy for repairs and replacement.

(i) *Initial selection of useful life.* In selecting a proper useful life for computing depreciation under the Medicare program, providers must use the useful life guidelines published by the Secretary. If the Secretary has not published applicable useful life guidelines, the useful life guidelines published by the American Hospital Association in its 1973 edition of *Chart of Accounts for Hospitals* or by the Internal Revenue Service shall be used. A different useful life may be approved by the intermediary if the provider's request is properly supported by acceptable factors which affect the determination of useful life. However, such factors as an expected early sale, retirement, demolition or abandonment of an asset, or termination from the Medicare program may not enter into a determination of the expected useful life of an asset.

(ii) *Changing useful life.* A change in the estimated useful life may be made when clear and convincing evidence justifies a redetermination of the useful life used by the provider. Such a change must be approved by the intermediary in writing, and the factors cited in paragraphs (b)(7) and (b)(7)(i) of this section are applicable in making such redeterminations of useful life. If the request is approved, the change is effective with the reporting period immediately following the period in which the provider's request is submitted for approval.

(c) *Recording of depreciation.* Appropriate recording of depreciation includes the identification of the depreciable assets in use, the assets' historical costs, the assets' dates of acquisition, the method of depreciation, estimated useful lives, and the assets' accumulated depreciation.

• • • • • •

(f) *Gains and losses on disposal of assets.*

(1) *General.* Depreciable assets may be disposed of through sale, scrapping, trade-in, exchange, demolition, abandonment, condemnation, fire, theft, or other casualty. If disposal of a depreciable asset results in a gain or loss, an adjustment is necessary in the provider's allowable cost. The amount of a gain included in the determination of allowable cost shall be limited to the amount of depreciation previously included in Medicare allowable costs. The amount of a loss to be included shall be limited to the undepreciated basis of the asset permitted under the program. The treatment of the gain or loss depends upon the manner of disposition of the asset, as specified in paragraphs (f)(2) through (f)(6) of this section.

(2) *Bona fide sale or scrapping.* (i) Except as specified in paragraph (f)(3) of this section, gains and losses realized from the bona fide sale or scrapping of depreciable assets are included in the determination of allowable cost only if the sale or scrapping occurs while the provider is participating in Medicare. The extent to which such gains and losses are included is calculated by prorating the basis for depreciation of the asset in accordance with the proportion of the assets' useful life for which the provider participated in Medicare. For purposes of this paragraph (f)(2)(i), scrapping refers to the physical removal from the provider's premises of tangible personal properties which are no longer useful for their intended purpose and are only salable for their scrap or junk value.

(ii) If the total amount of gains or losses realized from bona fide sales or scrapping does not exceed $5,000 within the cost reporting period or if the provider's cumulative utilization under the Medicare program is less than 5 percent, the net amount of gains or losses realized from sale or scrapping shall be allowed as a depreciation adjustment in the period of disposal. For purposes of this paragraph (f)(2)(ii), the provider's cumulative Medicare utilization percentage is determined by comparing the cumulative total of the Medicare inpatient days for all reporting periods in which depreciation on the asset disposed of was claimed under the Medicare program to the cumulative total of inpatient days of the participating provider for the same reporting periods.

(iii) If the conditions specified in paragraph (f)(2)(ii) of this section are not met, the adjustment to reimbursable cost in the reporting period of asset disposition shall be calculated as follows:

The total amount of gains or losses shall be allocated to all reporting periods under the Medicare program, based on the ratio of the depreciation allowed on the assets in each reporting period to the total depreciation allowed under the Medicare program. The results of this allocation are multiplied by the ratio of Medicare reimbursable cost to total allowable cost for each reporting period. The results of this multiplication are then added.

(iv) If a provider sells more than one asset for a lump sum sales price, the gain or loss on the sale of each depreciable asset must be determined by allocating the lump sum sales price among all the assets sold, in accordance with the fair market value of each asset as it was used by the provider at the time of sale. If the buyer and seller cannot agree on an allocation of the sales price, or if they do agree but there is insufficient documentation of the current fair market value of each asset, the intermediary for the selling provider shall require an appraisal by an independent appraisal expert to establish the fair market value of each asset and shall make an allocation of the sales price in accordance with the appraisal.

(3) *Sale within 1 year after termination.* Gains and losses realized from a bona fide sale of depreciable assets within 1 year immediately following the date on which the provider terminates participation in the Medicare program are also included in the determination of allowable cost, in accordance with the procedure specified in paragraph (f)(2) of this section. However, if several assets are sold for a lump sum sales price, the determination of fair market value must be based on the appraised value of the assets as they were last used by the provider while participating in the Medicare program.

(4) *Exchange or trade-in.* Gains or losses realized from the exchange or trade-in of depreciable assets are not included in the determination of allowable cost. When the disposition of an asset is by means of exchange or trade-in, the historical cost of the new asset is the sum of the undepreciated cost of the asset disposed of and the additional cash or other assets transferred or to be transferred to acquire the new asset. However, if the asset disposed of was acquired by the provider before its participation in the Medicare program and the sum of the undepreciated cost and the cash or other assets transferred or to be transferred exceed the list price or fair market value of the new asset, the historical cost of the new asset is limited to the lower of its list price or fair market value.

(5) *Demolition or abandonment.* (i) For purposes of this section, the term "abandonment" means the permanent retirement of an asset for any future purpose, not merely the provider's ceasing to use the asset for patient care purposes. To claim an abandonment under the Medicare program, the provider must have relinquished all rights, title, claim, and possession of the asset with the intention of never reclaiming it or resuming its ownership, possession, or enjoyment.

(ii) If losses resulting from the demolition or abandonment of depreciable assets do not exceed $5,000 within the cost-reporting period, the losses shall be allowed in the period of disposal.

(iii) If losses exceed $5,000 and, at the date of disposition, the demolished or abandoned assets are at least 80 percent depreciated as computed under the straight-line method, such losses are includible in the determination of allowable cost under the Medicare program in the period of disposal and the procedure provided in paragraph (f)(2)(iii) of this section shall be used in determining the adjustment to reimbursable cost.

(iv) Losses in excess of $5,000 resulting from the demolition or abandonment of assets, which at the date of disposition are not 80 percent depreciated as computed under the straight-line method, must be capitalized as a deferred charge and amortized as follows:

(A) If the State Health Planning and Development Agency (SHPDA) designated under Section 1521 of the Public Health Service Act approves the demolition or abandonment of a depreciable asset as being consistent with the health systems plan of the health service area in which the provider is located, the net loss realized shall be capitalized as a deferred charge and amortized over the remaining life of the demolished or abandoned asset, or at the rate of $5,000 per year, whichever is greater. If no State Health Planning and Development Agency exists or if such agency is unable or unwilling to perform this function, the provider shall submit a request for approval to the intermediary. The intermediary, after reviewing this request and before issuing the approval, shall submit the request along with its recommendation to the appropriate Medicare Bureau Regional Office for its approval.

(B) If a provider fails to obtain approval as specified in paragraph (f)(5)(iv)(A) of this section, a loss is not allowable unless the demolished or abandoned asset is replaced. If the asset is replaced, the loss resulting from the unapproved demolition or abandonment must be capitalized as a deferred charge and amortized over the estimated usefull life of the replacement asset or at the rate of $5,000 per year, whichever is greater.

(v) If a loss resulting from the demolition or abandonment is deferred and amortized and the provider terminates its participation in the Medicare program or ceases to use a replacement asset in the provision of patient care services, the unamortized deferred charge remaining at that time shall not be included in determining allowable cost under the Medicare program.

(vi) Losses on demolition shall include the demolition cost incurred by the provider for razing and removal of the asset, less any salvage value recovered by the provider. However, where a provider demolishes a depreciable asset for the purpose of preparing land for future sale, the net demolition cost incurred by the provider (razing and removal costs less salvage recovered) shall be considered a capital expenditure and added to the historical basis of the land.

(vii) If a provider purchases land on which there is a building, no depreciation shall be allowed under the Medicare program unless the building is used in providing patient care. If the building is demolished, the entire purchase price and demolition cost shall be considered the historical cost of the land. If the building is used for patient

V 4 4 / 1 4

care, but demolished within 5 years of purchase, the entire purchase price, less allowed depreciation, plus demolition cost shall be considered the historical cost of the land.

(6) *Involuntary conversion.* (i) Losses resulting from the involuntary conversion of depreciable assets, such as condemnation, fire, theft, or other casualty, are generally included in the determination of allowable cost on a deferred basis if the asset is restored or replaced. However, losses resulting from a provider's imprudent management of its depreciable assets, such as the failure to obtain proper insurance coverage, are not included in the determination of allowable cost.

(ii) The net allowable loss from involuntary conversion shall consist of the undepreciated cost or unrecovered book value of the asset, less amounts received from insurance proceeds, gifts and grants received from local, State, or Federal government, or any other source as a result of the involuntary conversion.

(iii) If the asset is replaced and the net allowable loss in any cost-reporting period does not exeed $5,000, the entire amount shall be included in allowable cost in the period in which the loss is incurred. If the asset is replaced and the net allowable loss in any cost-reporting period exceeds $5,000, the loss must be capitalized as a deferred charge and amortized over the useful life of the replacement or restored asset. If a replaced or restored asset ceases to be used in the provision of patient care services or the provider terminates its participation in the Medicare program, the unamortized deferred charge remaining at that time shall not be included in determining allowable cost under the Medicare program.

(iv) If the provider fails to replace or restore an involuntarily-converted asset, the loss is not included in determining allowable cost. However, if the provider intends to replace or restore the asset but is unable to do so because the designated State Health Planning and Development Agency finds such replacement or restoration to be inconsistent with the health systems plan of the provider's health service area, the loss is allowable so long as the provider continues to participate in Medicare. In this case, the loss shall be capitalized as a deferred charge and amortized over the remaining life of the involuntarily converted asset, or at the rate of $5,000 per year, whichever is greater.

(v) If a gain is realized from an involuntary conversion of depreciable assets, the net amount realized shall reduce the basis of the restored or replacement asset. If the asset is not restored or replaced, the gain shall be treated in accordance with paragraph (f)(2) of this section.

(7) *Effect on equity capital.* The unrecovered loss entered on the books of the provider as a deferred charge, in accordance with paragraphs (f)(5) and (f)(6) of this section, is not includable in the computation of equity capital under § 405.429.

(8) *Sale of replacement or restored assets.* If a provider sells a replacement or restored asset while participating in the Medicare program or within 1 year immediately following the date on which it terminates its participation in the Medicare program, the unrecovered loss entered on the books of the provider as a deferred charge in accordance with paragraphs (f) (5) and (6) of this section will not be included in determining the gain or loss realized from the sale of the replacement or restored asset. However, if the sale of such asset is made to a related organization, as defined in § 405.427, and the purchasing organization continues as a provider in the Medicare program, the remaining deferred charge representing the unrecovered depreciable basis of the demolished, abandoned or destroyed asset shall continue to be amortized over the remaining expected useful life of the replacement or restored asset. If the sale is made to an unrelated organization, further amortization of the deferred charge is not allowed.

(Sections 1102, 1814(b), 1815, 1861(v)(1), and 1871 of the Social Security Act, 42 U.S.C. 1302, 1395f(b), 1395g, 1395x(v)(1) and 1395hh.)

PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

Subpart D—Principles of Reimbursement for Provider Costs and for Services by Hospital-Based Physicians

ELIMINATION OF THE COMBINATION METHOD OF APPORTIONMENT AND MODIFIED COST FINDING FOR PROVIDERS

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Final rule.

SUMMARY: The amendments eliminate the Combination Method of apportionment and modified cost finding used to determine a provider's allowable costs for health care services provided to Medicare beneficiaries. The elimination of the Combination Method is effective for cost reporting periods starting on or after July 1, 1979. The amendments also allow providers presently required to use the Combination Method to switch to the Departmental Method of apportionment for current cost reporting periods beginning on or after January 1, 1978, but before July 1, 1979. The purpose is to achieve greater uniformity with respect to cost reporting, cost finding, and apportionment methodology under the Medicare program.

EFFECTIVE DATE: These amendments shall be effective on February 20, 1979.

FOR FURTHER INFORMATION CONTACT:

Mr. Hugh McConville, Medicare Bureau, Room 412, East Building, Baltimore, Maryland 21235. Telephone: (301) 594-9430.

SUPPLEMENTARY INFORMATION:

BACKGROUND

The purpose of a method of apportionment is to determine what portion of a provider's costs is properly attributable to furnishing services to Medicare beneficiaries. The purpose of a method of cost finding is to determine the full cost of routine revenue-producing departments, ancillary revenue-producing departments, and activities for which reimbursement is not allowed under Medicare. For this purpose, "full-cost" means the direct cost incurred by these departments and activities, as well as their share of the cost of overhead.

The current Medicare regulations provide for two different methods of apportionment and cost finding. (See 42 CFR 405.404.) Under the simpler method of modified cost finding, the costs of groups of nonrevenue-producing departments are allocated to the benefiting departments using a common allocation basis for each group. This method of cost finding requires a division of the provider's costs among the general routine revenue-producing department, the aggregate of special care routine revenue-producing departments, the aggregate of most ancillary revenue-producing departments, and nonallowable activities. The Combination Method of apportionment, used with this method of cost finding to determine the cost attributable to services furnished to Medicare beneficiaries, requires the use of an aggregate determination of the cost of most ancillary services.

Step-down cost finding is a more precise methodology for allocating the costs of nonrevenue-producing departments, in that costs of each nonrevenue-producing department are allocated separately to each revenue-producing department and nonallowable activity. This method of cost finding requires a division of the provider's costs among the general routine revenue-producing department, each special care routine revenue-producing department, each ancillary revenue-producing department, and each nonallowable activity. The Departmental Method of apportionment, which is used with this method of cost finding to determine the cost attributable to services furnished to Medicare beneficiaries, requires a separate determination of the cost of services furnished to Medicare beneficiaries in each ancillary revenue-producing department.

The requirement that certain providers use the simpler Combination Method of apportionment and modified cost finding and that other providers use the Departmental Method of apportionment and step-down or a more sophisticated method of cost finding was established in accordance with the report of the Senate Finance Committee (S. Rep. No. 91-1431, 91st Cong. 2d sess. 178(1970)). However, after requiring the use of these two different methods, we received a significant amount of correspondence from providers, and from Congressmen on behalf of providers required to use the simpler method, expressing the desire and ability to use the more precise step-down cost finding and the Departmental Method of apportionment. A subsequent survey revealed that all but a few of the providers using the Combination Method had the ability to develop the necessary statistics which would enable them to use the Departmental Method. A majority of the providers surveyed stated their preference to use the Departmental Method. In addition, although the Combination Method of apportionment originally offered some simplicity in the manner in which the health insurance program determines its share of the smaller and less complex providers' allowable costs, legislative amendments affecting the Medicare program since 1972 no longer permit this simplicity. For cost reporting periods ending after June 30, 1973, allowable costs must be identified separately for renal dialysis services and delivery room and labor room services. Moreover, additional information and computations are now required on cost reports as a result of Section 223, Limitations on Coverage of Costs and Section 233, Payments of Lower of Costs or Charges, of the Social Security Amendments of 1972 (P.L. 92-603).

Consequently, we have decided to eliminate the simpler Combination Method of apportionment and modified cost finding.

DISCUSSION OF MAJOR COMMENTS

A Notice of Proposed Rulemaking was published on November 26, 1976 (41 FR 52067). Interested persons were given 45 days from the date of publication of the Notice of Proposed Rulemaking in which to submit data, views, or arguments. Comments and suggestions relative to the proposed regulations were received from a number of organizations, hospitals, and individuals. Responses to the most significant ones and changes in the proposed regulations are described below.

1. *Should Providers be Given an Option to Convert to the Departmental Method of Apportionment?*

Several commenters were concerned that small hospitals and small free-standing skilled nursing facilities may experience financial hardships in trying to perform the Departmental Method of apportionment and step-down cost finding. Moreover, they thought that a number of these providers have a very limited capability to perform the cost finding and apportionment requirements of the Departmental Method. They suggested that the solution to the problem would be to retain the Combination Method of apportionment and modified cost finding and to allow providers currently using this method a one-time irrevocable option to convert to the Departmental Method of apportionment and step-down cost finding.

Although we are also concerned with the small provider who may find difficulty in using the Departmental Method of apportionment and step-down cost finding, we did not accept this suggestion because we believe that optional methods of computing program reimbursement would not be consistent with our objective not to reimburse providers an amount exceeding the reasonable cost of covered services furnished to Medicare beneficiaries. The Senate Finance Committee, in its original recommendation to require the use of Combination and Departmental Methods, recognized that reimbursement options should be eliminated because the Committee believed that providers would not necessarily choose the reimbursement method that produces the most precise results. Rather, they could be expected to choose the method that yields them the greatest financial benefit. (Senate Report No. 91-1431, 91st Cong. 2d sess. 180(1970.) Moreover, the use of one reimbursement method would permit better cost analyses for making program payment determinations, because all providers would use the same method of cost finding, cost apportionment, and cost reporting.

These amendments continue the current procedure of permitting providers to file less than a full cost report if they have a low utilization of covered services by Medicare beneficiaries and receive correspondingly low interim reimbursement payments. In these cases, intermediaries may permit providers to submit only a minimum amount of cost report information in order to determine Medicare's share of the providers' allowable costs. Moreover, even where low utilization does not exist, providers are required to complete only those cost reporting forms which are applicable to their operations. For example, providers that do not have provider-based physicians may ignore the forms for reporting provider-based physican compensation.

2. *Should the Regulations be Applied Retroactively?*

Several of those who commented suggested that providers required to use the Combination Method since 1972 be permitted to use the Departmental Method retroactively to 1972. We do not believe that the results obtained by reopening prior cost determinations on such a large scale would be sufficient to justify the administrative effort. Moreover, as presently interpreted, the existing rules permit certain cost allocations on a provider's accounting records prior to allocation on the Medicare cost report and therefore provide some degree of the flexibility sought by these providers. Under these rules, a provider may make certain cost allocations on its accounting records prior to completion of the Medicare cost report if it can demonstrate that such allocations produce a more accurate determination of program reimbursement. These rules can be applied retroactively, since they are applicable to all cost reporting periods that can be reopened under § 405.1885 of the regulations

3. *Should Providers be Permitted to Use Modified Cost Finding With the Departmental Method of Apportionment?*

One commenter suggested that if the Departmental Method is mandated as proposed, the intermediary

JAN 19 79 UMI

V 4 4 / 1 4

should be permitted to authorize the use of modified cost finding in lieu of step-down cost finding for a provider that makes a request to do so and has never used step-down or a more sophisticated method of cost finding. We believe that the use of modified cost finding with the Departmental Method would not be consistent with our intent to establish uniformity with respect to provider cost reporting, cost finding, and apportionment methodology. Such uniformity is desirable in order to simplify the administration of the Medicare program and provide a data base for the uniform reporting requirements under section 19 of the Medicare-Medicaid Anti-Fraud and Abuse Act of 1977 (P.L. 95-142). Uniformity will also provide a common language upon which problems in individual providers and in the health care field can be discussed and resolved more easily.

4. *Should Small Providers be Permitted to Use the Combination Method for Outpatients?*

One commenter suggested that we permit small providers with a small volume of outpatient business to use the Combination Method of apportionment for outpatient reimbursement. This comment was not accepted because we believe that any use of the Combination Method of Apportionment would not be consistent with the program's intent to establish uniformity, as explained in our response to comment number 3. Moreover, small providers would generally not be required to furnish the amount of cost report information required from large providers because some of the cost report information for large providers would not be applicable.

5. *Should a More Simplified Method Than the Combination Method be Used?*

One commenter suggested that a more simplified method than the Combination Method be made available to the small providers. This suggestion was not accepted because we believe that the use of any method of apportionment other than the Departmental Method would not be consistent with the program's intent to establish uniformity, as explained in our response to comment number 3.

RECODIFICATION AND EDITORIAL REVISIONS

The Notice of Proposed Rulemaking proposed to codify the regulation under 20 CFR Part 405. Recodification of HCFA regulations, effective October 1, 1977, moved all Medicare regulatios to Title 42 of the Code of Federal Regulations. Accordingly, the final regulation is codified under Part 405 of 42 CFR Chapter IV.

In keeping with the Department's "Operation Common Sense," extensive editorial revisions have been made to clarify the regulation. No substantive changes, other than those discussed above, have been made in the final regulation.

42 CFR Part 405 is amended as follows:

1. Section 405.404(b) is revised to read as follows:

§ 405.404 Methods of apportionment under title XVIII.

• • • • • •

(b) For cost reporting periods starting after December 31, 1971, the rules governing the use of the Departmental Method and the Combination Method of apportionment are set forth in §§ 405.452 and 405.453 of this part.

2. Section 405.452 is amended by revising paragraph (c) and adding a new paragraph (e)(3)(iv) to read as follows:

§ 405.452 Determination of cost of services to beneficiaries.

• • • • • •

(c) *Availability of apportionment methods for cost reporting periods starting after December 31, 1971.* (1) *Hospitals and hospital complexes having less than 100 beds.* Any hospital or hospital complex having less than 100 beds on the first day of its cost reporting period must use the applicable apportionment method specified in this paragraph. (A hospital complex contains inpatient areas in which patients receive a level of care other than hospital care.) For this purpose, the number of beds includes both those certified for use by Medicare beneficiaries and those not certified, but does not include newborn beds. (A newborn bed is a bed set aside for regular use by an infant newly born in the hospital.)

(i) For cost reporting periods starting after December 31, 1971, but before January 1, 1978. These providers must use the Combination Method of apportionment.

(ii) For cost reporting periods starting on or after January 1, 1978, but before July 1, 1979, these providers may use either the Departmental Method or the Combination Method of apportionment. If the Departmental Method is used for any cost reporting period, the Combination Method may not be used for any subsequent cost reporting period.

(iii) For cost reporting periods starting on or after July 1, 1979, these providers must use the Departmental Method of apportionment.

(2) *Hospitals and hospital complexes having 100 or more beds.* For cost reporting periods starting after December 31, 1971, any hospital or hospital complex having 100 or more beds on the first day of its cost reporting period must use the Departmental Method of apportionment.

(3) *Skilled nursing facilities.* All skilled nursing facility providers that are not part of a hospital complex must use the applicable apportionment method as follows:

(i) For cost reporting periods starting after December 31, 1971, but before January 1, 1978, these providers must use the Combination Method of apportionment.

(ii) For cost reporting periods starting on or after January 1, 1978, but before July 1, 1979, these providers may use either the Departmental Method or the Combination Method of apportionment. If the Departmental Method is used for any cost reporting period, the Combination Method may not be used for any subsequent cost reporting period.

(iii) For cost reporting periods starting on or after July 1, 1979, these providers must use the Departmental Method of apportionment.

(4) *New providers.* All providers entering the program on or after January 1, 1979, must use the Departmental Method of apportionment starting with their first cost reporting period.

• • • • • •

(e) • • •

(3) • • •

(iv) *Using cost finding for cost reporting periods ending after June 30, 1973.* Use of the Combination Method of apportionment for cost reporting periods ending after June 30, 1973, and starting before July 1, 1979, necessitates cost finding as specified in § 405.453(d)(3) to determine the division of the provider's total costs among general routine care, routine care in special care units, renal dialysis, delivery room and labor room, the aggregate of all other ancillary services, and nonallowable activities.

3. In § 405.453, new paragraphs (g) and (h) are added to read as follows:

§ 405.453 Adequate cost data and cost finding.

• • • • • •

(g) *Exception from full cost reporting for lack of program utilization.* If a provider does not furnish any covered services to Medicare beneficiaries during a cost reporting period, it is not required to submit a full cost report. It must, however, submit an abbreviated cost report, as prescribed by the Health Care Financing Administration.

(h) *Waiver of full cost reporting for low program utilization.* (1) If the provider has had low utilization of covered services by Medicare beneficiaries (as determined by the intermediary) and has received correspondingly low interim reimbursement payments for the cost reporting period, the intermediary may waive a full cost report if it decides that it can determine, without a full report, the reasonable cost of covered services provided during that period.

(2) If a full cost report is waived, the provider must submit within the same time period required for full cost reports:

(i) The cost reporting forms prescribed by the Health Care Financing Administration for this situation; and

(ii) Any other financial and statistical data the intermediary requires.

(Secs. 1102, 1814(b), 1815, 1833(a), 1861(v) and 1871 of the Social Security Act (42 U.S.C. 1302, 1395f(b), 1395(g), 1395l(a), 1395x(v) and 1395hh).)

(Catalog of Federal Domestic Assistance Program No. 13.773 Medicare—Hospital Insurance; No. 13.774, Medicare—Supplementary Medical Insurance.)

Dated: September 29, 1978.

ROBERT A DERZON,
Administrator, Health Care Financing Administration.

Approved: January 15, 1979.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER B—PRACTICE AND PROCEDURE

PART 1100—RULES OF PRACTICE

JANUARY 16, 1979.

AGENCY: Interstate Commerce Commission.

ACTION: Corrections to rules.

SUMMARY: These corrections to rules 97(c) and 97(g) of the Commission's Rules of Practice, effective July 19, 1977, are being made to remove a draftsmanship error. As corrected the rules will provide that the filing of administrative appeals will not automatically stay the effectiveness of a decision of the entire Commission in the first instance or a decision of the Commission on appeal.

EFFECTIVE DATE: January 19, 1979.

FOR FURTHER INFORMATION CONTACT:

Janice M. Rosenak or Harvey Gobetz, Section of Rates, Office of Proceedings, Washington, D.C. 20423 (202-275-7693).

SUPPLEMENTARY INFORMATION: During the pendency of Investigation and Suspension Docket No. M-29772, *General Increase, S.M.C.R.C., April 1978*, significant questions have come to our attention concerning the proper interpretation of rules 97(c) and 97(g) of the Commission's General Rules of Practice, 49 CFR 1100.97(c) and 97(g).

Our review indicates that a literal reading of Rules 97(c) and 97(g) appears to provide for an automatic stay of all nonrail decisions, including those made by the entire Commission, upon the filing of an administrative appeal. With respect to entire Commission decisions, the applicability of the automatic stay provision results from a draftsmanship error made during the revision of our Rules of Practice subsequent to the enactment of Pub. L. 94-210, the Railroad Revitalization and Regulatory Reform Act of 1976 (the 4R Act). The revised Rules of Practice became effective on July 19, 1977.

Prior to the revision of our Rules of Practice, it was clearly not Commission procedure to provide for automatic stays of entire Commission decisions. In those instances where an entire Commission decision was issued in the first instance or on appeal, that decision was administratively final. Administrative appeals (petitions for reconsideration) were permitted. However, the filing of such petitions did not stay the decision or interfere with its administrative finality. When we revised our Rules of Practice, we did not intend to depart from this procedure. See the original notice in Ex Parte No. 55 (Sub-No. 24), *Revised Rules of Practice*, published November 8, 1976, at 41 FR 49282. Moreover, this distinction between the "staying" effect of an appeal of an entire Commission decision and an appeal of a decision by a lesser panel has its basis in former Section 17(8) of the Interstate Commerce Act.[1] That section provided that:

[w]here application for rehearing, reargument, or reconsideration of a decision . . . of *a division, an individual Commissioner, or board*, is made . . . the decision . . . shall be stayed or postponed pending disposition of the matter by the Commission or appellate division . . . (emphasis added)

Significantly, this language does not refer to entire Commission decisions. Nothing in the Act provided for an automatic stay of a decision made by the entire Commission. Indeed, Section 17(8) went on to state that "otherwise the making of such an application [the filing of an administrative appeal] shall not . . . operate to stay [the decision], without the special order of the Commission."

Furthermore, it would be contrary to sound regulatory practice for a party to be able to stay a decision made by the entire Commission, even in an urgent case, by merely filing a pleading which is, or purports to be, an administrative appeal. It is essential that the Commission have the ability to make its decisions effective expeditiously, especially when confronted with cases of urgency or compelling public interest. This point was recognized in Ex Parte No. 55 (Sub-No. 24A), *Rail Appellate Procedures-Revision of Rule 98 of the Rules of Practice 49 CFR 1100.98* (notice of proposed rulemaking.)[2] Because of certain errors contained in rule 98, including a similar implication that entire Commission decisions are stayed by the filing of administrative appeals, the Commission recently proposed a revision of that rule. An administratively final decision concerning rule 98 will be served shortly.

The error in draftsmanship in rule 97 may be corrected without an entire revision at this time. Accordingly, the inappropriate references to entire Commission decisions in rules 97(c) and 97(g) will be deleted, so that our present rules will now be consistent with our prior practice of not automatically staying decisions of the Entire Commission upon the filing of an administrative appeal. We will retain, of course, the *discretion* to stay the effectiveness of an entire Commission decision when we believe that action to be appropriate.

• • • • • •

Part 1100 of Title 49 of the Code of Federal Regulations is amended in the following respects by correcting rules 97(c) and 97(g) of § 1100.97 as follows:

§ 1100.97 Administrative appeals—nonrail proceedings. (Rule 97)

• • • • • •

(c) *Conclusiveness.* Unless the division reverses, changes or modifies the prior decision, order, or requirement or unless the decision, order, or requirement is issued by the division in the first instance, or unless the decision, order, or requirement is issued by

[1] The Interstate Commerce Act was recently revised, codified, and enacted without substantive change as subtitle IV of title 49, United States Code. Act of October 17, 1978, Pub. L. 95-473, 92 Stat. 1337. Former Section 17(8) is recodified at 49 U.S.C. 10324. While the distinction between stays of entire Commission decisions and stays of decisions by lesser panels is not clearly delineated in the recodified Act, Congress did not intend any substantive change from prior laws when enacting the recodification. Section 3(a) of the Revised Act declares: Sections 1 and 2 of this Act restate, without substantive change, laws enacted before May 16, 1978, that were replaced by those sections. Those sections may not be construed as making a substantive change in the laws replaced. Pub. L. 95-473, 92 Stat. 1466.

[2] 43 FR 17006 April 21, 1978.

JAN 19 79 UMI

V 4 4 / 1 4 J A 1 9 7 9

an employee board, no further administrative appeal shall lie.

. . . . .

(g) *Administrative finality.* The timely filing of exceptions and petitions for administrative review shall, and the Commission on its own motion may, stay the effect of the decision, order, or requirement until thirty days after the date of service of the order of the division or review board acting thereon, unless otherwise provided. Decisions of an employee board whether original or on review, are not administratively final.

. . . . .

These rules were promulgated and are being corrected under the authority of 49 U.S.C. 10321-10324 and 5 U.S.C. 553(b).

By the Commission, Chairman O'Neal, Vice Chairman Brown, Commissioners Stafford, Gresham, Clapp, and Christian. Commissioner Gresham dissenting.

Dated January 15, 1979, at Washington, D.C.

H. G. HOMME, Jr.,
Secretary.

AGENCY: Consumer Product Safety Commission.

ACTION: Notice of extension of time for proposing an amendment to the interim standard.

SUMMARY: In this notice, the Commission extends for 45 days, from January 22, until March 8, 1979, the time in which it must publish the flame resistance and corrosiveness provisions of a revised General Services Administration (GSA) specification as a proposed amendment to the interim safety standard for cellulose insulation. The Commission is extending the time in order to further study the technical and scientific basis and safety and economic consequences of the revised GSA specification.

DATES: Comments by March 8, 1979.

FOR FURTHER INFORMATION CONTACT:

Philip Bechtel, Office of the General Counsel, Consumer Product Safety Commission, Washington, D.C. 20207, (202) 634-7770.

SUPPLEMENTARY INFORMATION: As required by the "Emergency Interim Consumer Product Safety Standard Act of 1978" (Pub. L. 95-319), the Commission has published an interim standard for cellulose insulation, based on the flame resistance and corrosiveness provisions of General Services Administration (GSA) Specification HH-I-515C (43 FR 35240, August 8, 1978). Section 35(c)(2) of the Consumer Product Safety Act, as amended by Pub. L. 95-319, requires the Commission to publish as a proposed amendment to the Commission's interim standard for cellulose insulation each revision GSA issues that supersedes the requirements for flame resistance and corrosiveness in GSA Specification HH-I-515C. The Commission must publish the revision as a proposed amendment within 45 days after having received notice from the Administrator of the General Services Administration, or, if a revision becomes effective between February 1, 1978 and the effective date of the act, within 45 days of the effective date of the act.

Pub. L. 95-319 provides that the Commission may extend the 45 day period for publishing the proposed amendment by 150 days if the Commission determines that an extension is necessary to study the technical and scientific basis for the revision, or to study the safety and economic consequences of the revision. Pub. L. 95-319 also provides that the Commission may take additional 45 day extensions of this time period if the Commission makes the same determination. If the Commission takes one additional 45 day extension, the Commission may take further 45 day extensions if it makes the appropriate findings, unless both the Committee on Commerce,

V 4 4 / 1 4 J A 1 9 7 9 UMI

Science, and Transportation of the Senate and the Committee on Interstate and Foreign Commerce of the House of Representatives disapprove any further extensions, by committee resolution.

On June 15, 1978, GSA specification HH-I-515D became effective. This specification contains requirements for the flame resistance and corrosiveness of cellulose insulation that supersede the flame resistance and corrosiveness provisions of HH-I-515C. Therefore, the Commission would have been required to publish the proposed amendment to the interim standard by August 24, 1978, unless the Commission extended this period. On August 8, 1978, the Commission extended this period for 150 days, until January 22, 1979 (43 FR 35238).

The Commission believes that it is necessary to further extend the period of time for proposing the flame resistance and corrosiveness requirements of HH-I-515D as an amendment to the interim standard in order to study the technical and scientific basis and the safety and economic consequences of these requirements. This further extension is for 45 days, from January 22, 1979 until March 8, 1979.

Pub. L. 95-319 provides that the Commission shall issue an amendment to the interim standard unless the Commission determines, after considering public comments, that the amendment is not necessary to protect consumers from the unreasonable risk of injury associated with flammable or corrosive cellulose insulation, or unless the Commission determines that implementation of the amendment will create an undue burden on persons subject to the interim standard. Therefore, the Commission is required to consider these issues.

The additional time is necessary for the Commission to evaluate comments from interested persons that raise technical and economic issues concerning the proposed amendment. The Commission received these comments in response to a notice of intent to propose an amendment, which the Commission published in the FEDERAL REGISTER on September 6, 1978 (43 FR 39720). The additional time is also necessary for the Commission to consider technical and economic evaluations of the proposed amendment that the National Bureau of Standards and a contractor prepared for the Commission and made available to the Commission staff in December 1978. The Commission will also use the additional time to review the proposed amendment for technical accuracy and make editorial and other changes necessary to insure that the document is suitable for publication in the FEDERAL REGISTER.

The Commission does not anticipate that any further extension will be necessary for preparing the proposed amendment. If the Commission is able to complete its work before March 8, 1979, the Commission will publish the proposal at an earlier date.

Therefore, in accordance with section 35(c)(2)(D)(i) of the act, as amended by Pub. L. 95-319, the Commission extends by 45 days, from January 22, 1979 until March 8, 1979, the time in which it must publish the flame resistance and corrosiveness requirements of GSA Specification HH-I-515D as a proposed amendment to the interim standard for cellulose insulation at 16 CFR Part 1209. In accordance with Pub. L. 95-319, this period may be further extended.

Dated: January 16, 1979.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

[Docket No. 77N-0166]

ACTION LEVEL FOR MERCURY IN FISH, SHELLFISH, CRUSTACEANS, AND OTHER AQUATIC ANIMALS

Withdrawal of Proposed Rulemaking and Termination of Rulemaking Proceeding

AGENCY: Food and Drug Administration.

ACTION: Withdrawal of proposal.

SUMMARY: This document withdraws a proposed rulemaking and terminates a rulemaking proceeding to codify the existing action level limiting the amount of unavoidable mercury residues permitted in fish and shellfish. Instead of establishing the action levels by a formal regulation, the Food and Drug Administration (FDA) will continue to use an administrative action level to regulate those mercury residues. Elsewhere in this issue of the FEDERAL REGISTER is a notice announcing the availability of that action level.

FOR FURTHER INFORMATION CONTACT:

Howard N. Pippin, Bureau of Foods (HFF-312), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, DC 20204, 202-245-3092.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of December 6, 1974 (39 FR 42738), the Commissioner of Food and Drugs proposed to adopt, in former Part 122 (21 CFR Part 122) (recodified as Part 109 (21 CFR Part 109) in the FEDERAL REGISTER of March 15, 1977 (42 FR 14032)), an action level of 0.5 part per million for unavoidable residues of mercury in the edible portion of fish and shellfish.

In the same issue of the FEDERAL REGISTER, the Commissioner proposed to establish procedural regulations regarding poisonous and deleterious substances in food (39 FR 42743). That proposal included procedures and criteria for establishing tolerances under section 406 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346) for unavoidable poisonous or deleterious substances in food. It also included provisions for establishing "action levels," through informal, i.e., notice and comment, rulemaking.

The procedural regulations that were finally promulgated, however, differed from those proposed. As discussed in the preamble to the final order published in the FEDERAL REGISTER of September 30, 1977 (42 FR 52814), the Commissioner decided that a simpler procedure than that proposed for establishing action levels is appropriate. This simplified procedure, set forth in § 109.4(b) (21 CFR 109.4(b)), provides for FDA to set an action level administratively and to publish a notice of availability of the action level and the information on which the agency relied in setting the action level. The supporting information is placed on file with the Hearing Clerk, FDA, and the notice invites public comments on the action level.

Because FDA expects to continue to receive new information bearing on the appropriate limit for mercury in fish and other aquatic animals, it is appropriate to continue to regulate the mercury levels in fish and shellfish through an action level, rather than a formal tolerance. The Commissioner is therefore terminating the December 6, 1974, proposal to codify the action level for mercury in fish and shellfish and, in accordance with the procedure in § 109.4(b), is announcing the availability of the revised action level for mercury in fish and shellfish.

RECEIVED COMMENTS

The agency received 71 comments in response to the December 6, 1974 proposal. Although most of the comments have been rendered moot due to the withdrawal of the proposal, the Commissioner has decided to respond to them because many of them reflect a lack of understanding of FDA's current procedures regarding action levels for mercury in fish. Also, some information received bears on the still relevant issue of what the action level should be. Based on current information, the Commissioner has determined that the action level should be changed from 0.5 part per million (ppm) mercury to 1.0 ppm.

1. Two comments objected to the Commissioner's interpretation of "added" in applying the principles of section 406 of the act. Both comments pointed out that because mercury occurs naturally in some of the waters inhabited by fish, particularly marine fish, and is not introduced to these waters by some activity of man, resulting mercury residues in the fish are naturally occurring and not "added."

The Commissioner notes that these issues were also raised by the comments received in response to the proposal regarding general principles for the establishment of tolerances for added poisonous or deleterious substances in food. In the preamble to the September 30, 1977 final rule establishing the procedures for regulating food contaminants and naturally occurring poisonous or deleterious substances, the Commissioner discussed in detail the issue of added versus naturally occurring substances, with specific reference to mercury in fish. The Commissioner concluded that under the act the test for determining whether a substance is "added" or natural is whether it is necessarily an inherent part of the food, in which case it is natural. Otherwise it is "added" under the law.

This issue has been raised in a pending case involving mercury in fish (*Anderson Seafoods, Inc.* v. *Califano et al.*, No. 78-1962 (5th Cir. 1978)). In that case, the district court rejected FDA's definition of "added" and held that to be "added" within the meaning of section 402(a)(1) of the act (21 U.S.C. 342(a)(1)), the substance must be present in food as a result of human action (*United States* v. *Anderson Seafoods, Inc.*, 447 F. Supp. 1151 (N.D. Fla. 1978)). The district court also held, however, that some part of the mercury in swordfish, although not quantifiable, was due to human intervention. Thus, even under the district court's test, mercury in swordfish would be treated as an added poisonous or deleterious substance under section 402(a)(1) of the act.

As noted above, this issue is currently pending before the United States Court of Appeals for the Fifth Circuit in the appeal of the district court's decision in *Anderson Seafoods*. Pending a final resolution of this issue, the Commissioner intends to adhere to the definition of "added" found in § 109.3(d) of the agency's regulations (21 CFR 109.3(d)).

2. One comment stated that in view of the lack of adequate definitive information regarding mercury residues in fish, and action level should be set for a limited period, with automatic expiration in 1 or 2 years, so that reexamination of accumulated data would be automatic and that action level could be revised according to the most current data.

The Commissioner considers this provision unnecessary. The Food and Drug Administration will continue to monitor mercury residues in fish, shellfish, and other aquatic animals and will continue to evaluate any data regarding methlymercury in fish that become available, so that the action level can be reevaluated and revised as necessary. As with any other action level, the time for any such reevaluation must be based on the availability of scientific information rather than on an absolute calendar-year interval.

3. One comment requested that the definition of a "lot" of fish be revised to reflect current fishery practices. Specific changes requested were that a boatload of fish should be allowed to constitute a lot and that the fish in a lot should be allowed to range considerably in size. Another comment requested that the provision that fish constituting a lot be from "similar waters" be changed to "the same waters." The comment stated that in a locale where there are several lakes constituting "similar waters," one lake may be polluted and contain contaminated fish, while another nearby lake may not.

The Commissioner advises that because the proposed regulation for mercury in fish and shellfish is being withdrawn, there will not be a definition of "lot" specifically directed to fish sampled for mercury residues. Instead, in enforcing the action level, FDA will use its traditional definitions and interpretations of "lot," which appear in several places in the regulations (e.g., § 101.9(e) (21 CFR 101.9(e))) and in agency documents such as the Inspector Operations Manual sample collection instructions for unprocessed fish, e.g., imported whitefish, which include the following definition:

> A lot is defined as follows: "Each group of fish of a distinct size, listed in the invoice as from a distinct lake, will be considered as a separate lot. Where an invoice does not list the lakes or origin of boxes of fish in a shipment, fish of the same size and kind will be considered to comprise a *single lot.* When the size of fish or lakes or origin in a shipment are not specified, the shipment will be treated as a single lot."

This definition is an example of how FDA defines a "lot" based on the manner in which the food is shipped (invoiced) in interstate commerce. In the case of a boatload of fish, if the fish are invoiced for sale without any classification other than the entire contents of the boat, then the entire amount of fish would constitute a single lot. If the fish sold from that boat are classified by size and/or by waters of origin, or any other more specific classification, however, than each group of fish so classified would constitute a separate lot.

Regarding the use of "similar waters" rather than "the same waters," the Commissioner points out that "similar waters" applies to open waters, i.e., similar areas in one body of water, either at sea or in a very large lake. When the water-of-origin information is available, fish from different lakes constitute separate lots.

4. Some comments contended that regulation of mercury residues in fish should be based on the amount of methlymercury present rather than total mercury, because methlymercury is the compound of toxicological concern. One comment stated that only about half of the mercury in American fish is in the form of methylmercury.

The Commissioner does not agree with the contention that only half of the total mercury in fish is methylmercury. The limited data obtained to date indicate that mercury residues in most fish and other aquatic animals are 80 percent or more methylmercury. The Commissioner agrees, however, that it may be more appropriate to use methylmercury levels to regulate these mercury residues. The agency is currently developing an analytical method that may be adequate for determining methylmercury for enforcement purposes. If such a method is developed, the Commissioner will revise the action level to a methylmercury basis.

TOXICOLOGICAL REEVALUATION

A number of the comments requested that the Commissioner reevaluate the proposed 0.5 ppm action level. Several stated that the Commissioner had not considered all the available information in making the toxicological evaluation of mercury residues in fish and that this information does not support an action level as low as 0.5 ppm. Among the information provided in some of these comments were reports of a protective effect against methylmercury toxicity provided by the selenium that occurs in marine fish and studies of certain populations who ingested large amounts of fish containing methylmercury and who did not exhibit symptoms of mercury poisoning.

At the time of the proposal, the Commissioner was aware of some studies suggesting a protective effect of selenium against methylmercury toxicity but considered the available data inconclusive. Since 1974, other information on the selenium/methylmercury relationship has become available. A workshop was jointly sponsored by FDA and the National Marine Fisheries Service in 1977 to review recent research on the effects of selenium on methylmercury toxicity (a copy of the

V 4 4 / 1 4

report of the workshop is on file in the office of the Hearing Clerk, FDA). Participants had hoped to reach a consensus as to the extent that the presence of selenium in fish should be taken into account in reassessing the guideline for mercury. Although much work has been done in the area of mercury/selenium relationships and there appears to be some mechanism in fish for protection against methylmercury toxicity in animals, whether or not selenium is protective is not clear. The participants in the workshop concluded that the findings to date are inconclusive.

The Commissioner advises that at the time of the proposal, the estimate of tolerable weekly or daily intakes of methylmercury was based on information developed primarily by Swedish studies of Japanese individuals poisoned in the episode of Niigata, which resulted from consumption of contaminated fish and shellfish. Data on mercury levels in blood and hair, and in some cases the brains of poisoned patients, provided a basis for establishing methylmercury levels at which toxic effects were observed. The blood level at the time of onset of symptoms was estimated by extrapolation and it was concluded that the lowest blood level for the appearance of signs and symptoms of methylmercury poisoning was 200 parts per billion (ppb) (0.2 ppm). Biochemical studies in Finland and Sweden on the movement of methylmercury through the human system made it possible to relate blood levels to daily intake. Using trace amounts of radiolabled methylmercury, it was shown that methylmercury is completely absorbed from food and is distributed rapidly throughout the body and that its estimated average biological half-life is about 70 days. This information was used to show the theroretical total body burden of mercury as a function of time when a constant dose of methylmercury is ingested. This calculated body burden becomes essentially steady after about a year. In this steady state the total amount of methylmercury in the body is proportional to the daily intake. This result was confirmed by studies on Swedish fishermen having relatively high daily intakes of methylmercury.

From these data and using these calculations it was estimated that a blood level of 200 ppb would be reached with a minimum daily intake of approximately 300 micrograms (μg) of mercury, present as methylmercury in the diet. In setting intake standards for a whole population it is usual to apply a safety factor. In cases where human data are available the safety factor used is 10. Thus a maximum tolerable level would be 20 ppb of methylmercury daily in the blood, or 30 μg methylmercury daily in the diet.

The following limitations to this approach were recognized: (1) it was not known to what extent particular individuals are more or less sensitive to mercury than others; (2) the estimates were based on the "lowest level that caused an effect" rather than the normal procedure of using a "no effect dose level"; (3) questions about dose/response relationships in human fetuses and newborn infants were unanswered; and (4) there is a possibility of subclinical effects arising from exposure to very low levels of methylmercury.

Since the 0.5 ppm action level was proposed, there have been further studies of individuals exposed to methylmercury as a result of the poisoning episode in Iraq in 1972, in which homemade bread prepared from seed wheat treated with a methylmercurial fungicide was consumed. There are also reports on populations ingesting large amounts of fish that show that many individuals have blood mercury levels that clearly exceed the allowable limit and appear to be asymptomatic. The Iraqi studies contained indications that toxic effects were associated with a total intake of methylmercury in the range of 40 to 60 milligrams (mg) for a 70-kilogram (kg) man or with blood levels of 400 to 600 ppb.

These data would appear to suggest that the values used in 1974 for estimating a tolerable level of methylmercury for humans may have been too low. Additional data developed on the biological half-life of methylmercury in humans, however, indicate a need to take into account the problem of variations among individuals. In the Iraqi episode, 90 percent of the individuals studied had a biological half-life of methylmercury of 35 to 100 days and 10 percent showed values of 110 to 120 days. Individuals having a long biological half-life would accumulate much higher steady state levels than those having short biological half-lives and would thus be at greater risk from the same level of methylmercury intake.

In addition, information has been developed on the so-called "late onset of symptoms" associated with methylmercury poisoning. Specifically, by 1973, in the Agano area of Niigata, Japan, new cases of methylmercury poisoning were detected years after the consumption of contaminated fish had ceased. This finding indicates that there may be some damage which is not diagnosed under current procedures, and it introduces further uncertainty into the determination of the "lowest effect level" used to estimate tolerable intakes.

Therefore, the Commissioner concludes that, in spite of the contention of some of the comments, there are substantial uncertainties and variations in the total body of information on methylmercury toxicity form long-term chronic exposure. In light of these uncertainties and variations, the data cannot be considered as supporting a change in the estimated tolerable intake of methylmercury.

Seafood Consumption Reevaluation

The Commissioner has recently received new data on the consumption of fish in the United States, particularly those species of dietary significance known to contain mercury residues. The new data present more comprehensive and detailed information on fish consumption than has been available previously (Report on the Chance of U. S. Seafood Consumers Exceeding the Current Acceptable Daily Intake for Mercury and Recommended Regulatory Controls, National Marine Fisheries Service, February 8, 1978). In this report, the National Marine Fisheries Service (NMFS) concluded that the 0.5 ppm guideline is unnecessarily restrictive and recommended an action level of 1.0 ppm mercury for swordfish and freshwater fish and no action level for marine species other than swordfish. The NMFS concluded that a 1.0 ppm action level would protect consumers as much as does the 0.5 ppm level. also, the higher level would provide a significant economic benefit to those industries most seriously affected by regulatory actions under the 0.5 ppm guideline and would enhance the future development of a number of presently underutilized fisheries. The report also stated that the less restrictive regulatory approach it recommended would significantly increase consumer confidence in seafood. Accompanying NMFS's recommendations for a less restrictive regulatory level was a recommendation that monitoring of mercury levels in fish and other seafoods and consumption patterns of fishery products in the United States be continued.

The NMFS consumption study report has been carefully studied, and the Commissioner concludes that the probability of systematic exposure to a substantial intake of methylmercury by the average consumer appears to be lower than FDA had originally estimated when it set the 0.5 ppm guideline. Among other considerations, the new data make it possible to estimate probable methylmercury intakes bases on mercury levels in individual species of fish and other aquatic animals. When the 0.5 ppm level was reevaluated in 1974, the limitations in the available data required that maximum projected residues be applied to all species. This resulted in a higher estimated probable intake.

The Commissioner agrees with NMFS's conclusion that a 1.0 ppm regulatory level for swordfish and freshwater fish would provide adequate protection to consumers. Because completely abandoning a regulatory level for marine species other than swordfish may result in increased concentrations of mercury in some species as marketed, the Commissioner concludes that a regulatory level applicable to all species should be retained. Based on the NMFS's data on consumption rates, mercury residue levels, and individualized allowable daily intakes (ADI's) a 1.0 ppm regulatory level for marine species should provide adequate protection against significant numbers of consumers exceeding their ADI's.

Accordingly, the Commissioner concludes that 1.0 ppm is the appropriate level at which to regulate residues of mercury in fish and other aquatic animals. Elsewhere in this issue of the Federal Register, the Commissioner announces the availability of, and invites comments on, the Administrative Guideline establishing the action level of 1.0 ppm mercury in fish, shellfish, crustaceans, and other aquatic animals. The Administrative Guideline and underlying information supporting it are available for public examination in the office of the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857.

The Administrative Guideline (No. 7408.09) establishing the action level provides the following instructions to FDA District Offices: "Recommend legal action to Division of Regulatory Guidance where the composite of fish or shellfish analyzed by the procedure outlined in the Twelfth Edition of the Official Methods of Analysis of the Association of Official Analytical Chemists 25.103-25.107 shows:

Mercury (Hg) ..... 1.0 ppm (edible portion only)

Note.—Recommendations for legal action must clearly indicate the exact portion of the food used for analysis. The portion used for analysis must be prepared by the appropriate procedure outlined in Volume 1 of the Pesticide analytical Manual, sections 141.12 and 141.22.

The Food and Drug Administration will continue to monitor mercury levels in fish so that if there is any change in mercury residue levels as a result of raising the action level, or if there is any other change in the information regarding mercury in fish, the action level can be revised accordingly.

This notice of withdrawal and termination of rulemaking proceeding is issued under the Federal Food, Drug, and Cosmetic Act (secs. 306, 402, 406, 701(a), 52 Stat. 1045-1046 as amended, 1049, 1055 (21 U.S.C. 336, 342, 346, 371(a))) and under authority delegated to the Commissioner (21 CFR 5.1).

Dated: January 8, 1979.

Donald Kennedy,
Commissioner of Food and Drugs.

[21 CFR Parts 175 and 189]

[Docket No. 78N-0112]

2-NITROPROPANE

Proposed Removal From Food Additive Use

AGENCY: Food and Drug Administration.

ACTION: Extension of comment period for proposed rule.

SUMMARY: This document extends the comment period on the proposal to delete from the food additive regulations provisions for use of 2-nitropropane as a component of adhesives intended to contact food and to list it as a substance prohibited from addition to human food. The Commissioner of Food and Drugs, having evaluated available data, has concluded that 2-nitropropane is a carcinogen in test animals.

DATE: Written comments by April 2, 1979.

ADDRESS: Written comments to the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT:

John J. McAuliffe, Bureau of Foods (HFF-334), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: In the Federal Register of December 1, 1978 (43 FR 56247), the Commissioner proposed to amend § 175.105 *Adhesives* (21 CFR 175.105) by deleting the use of 2-nitropropane currently permitted in this section, and to amend Part 189—Substances Prohibited from Use in Human Food (21 CFR Part 189) by adding new § 189.310 *Nitropropane.* These actions were taken by the Commissioner after evaluating the available data and concluding that the report by the Department of Health, Education, and Welfare/National Institute for Occupational Safety and Health (HEW/NIOSH) demonstrates that 2-nitropropane is a carcinogen in test animals and that the continued use of 2-nitropropane as a food additive is no longer warranted. Interested persons were requested to submit their comments on the proposal on or before January 2, 1979.

The Commissioner has received requests for extension of time for comment from the law firm of Covington and Burling on behalf of International Minerals and Chemical Corp. (IMC) and the law firm of Keller and Heckman on behalf of Durkee Foods, Division of SCM Corporation. The request for IMC sought an extension of time to prepare a written report on the most recent toxicology testing on 2-nitropropane, a risk assessment, and a regulatory analysis in response to the December 1 proposal. IMC has also made freedom of information requests to FDA and NIOSH in support of its request for extension. Further information on the availability of the material is expected to be indicated in the NIOSH response to the IMC request for information.

The Commissioner is extending the comment period to close of business April 2, 1979. The extension will permit consideration of the disposition of the request for background material and an opportunity for comments on any material that becomes available. Requests for access to the background material may be made to NIOSH.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 402, 409, 701, 52 Stat. 1046-1047 as amended, 1055-1056 as amended, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 342, 348, 371)) and under authority delegated to the Commissioner (21 CFR 5.1), the comment period on the December 1, 1978 proposal to remove 2-nitropropane from food additive use (43 FR 56248) is extended to April 2, 1979.

Interested persons may, on or before April 2, 1979 submit to the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857, written comments regarding the proposal. Four copies of all comments shall be submitted, except that individuals may submit single copies of comments, and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this document. Received comments may be seen in the above office between 9 a.m. and 4 p.m., Monday through Friday.

Dated: January 15, 1979.

William F. Randolph,
Acting Associate Commissioner for Regulatory Affairs.

[Docket No. 75N-0062]

ORAL HYPOGLYCEMIC DRUGS

Availability of Agency Analysis and Reopening of Comment Period on Proposed Labeling Requirements

AGENCY: Food and Drug Administration.

ACTION: Extension of comment period on proposed rule.

SUMMARY: This document extends to March 16, 1979, the comment period on the Food and Drug Administration's (FDA's) analysis of the University Group Diabetes Program (UGDP) study and on the proposed labeling requirements for oral hypoglycemic drugs. This action is being taken to allow more time to review the extenisve material made available as part of FDA's analysis. The original comment period would have expired on January 15, 1979.

ADDRESS: Written comments to the hearing Clerk (HFA-305), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, MD 20857.

DATES: Comments by March 16, 1979.

FOR FURTHER INFORMATION CONTACT:

Robert D. Bradley, Bureau of Drugs (HFD-30), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers, Lane, Rockville, MD 20857, 301-443-6490.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of November 14, 1978 (43 FR 52732), the Commissioner of Food and Drugs announced the availability of FDA's analysis of the UGDP study and reopened, until January 15, 1979, the comment period on the labeling changes proposed in the FEDERAL REGISTER of July 7, 1975 (40 FR 28587). Comments on the FDA analysis of the UGDP were also invited.

A summary of the FDA analysis is contained in the Notice of Availability published in the FEDERAL REGISTER of November 14, 1978 (43 FR 52732). The analysis consists of a 121 page report complete with appendices and over 2,200 pages of records that were obtained from the UGDP or generated by FDA.

Requests have been received from the Upjohn Company and the American Diabetes Association to extend for an additional 60 days the comment period on the proposed oral hypoglycemic labeling. The basis for the requested extension includes the complexity of the issues, the volume of material to review, the need for review of certain of the data with experts who are not employees of the firm submitting the request, and the intervening Thanksgiving and Christmas holidays.

The Commissioner has considered these requests and finds that an extension of the comment period for 60 days is justified for the reasons cited in the petitions.

Accordingly, the comment period is extended to March 16, 1979. Comments may be seen in the office of the Hearing Clerk, Food and Drug Administration at the address noted above, between 9 a.m. and 4 p.m., Monday through Friday.

Dated: January 11, 1979.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Regulatory Affairs.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1913]

[Docket No. H-112A]

CONFIDENTIALITY OF EMPLOYEE MEDICAL RECORDS

AGENCY: Occupational Safety and Health Administration, Department of Labor.

ACTION: Proposed rule.

SUMMARY: On July 21, 1978, OSHA published an interim final rule [1] (43 FR 31329) and a proposed rule on access to employee exposure and medical records (43 FR 31371). Both the interim rule and the proposal include requirements that employers make available to OSHA, upon request, employee exposure and medical records. Because of the concern for confidentiality of these records, OSHA has developed draft administrative guidelines on its access to and the use of these records, a copy of which has already been placed in the public record of the rulemaking proceeding in conjunction with the OSHA proposal on records access. Notice is hereby given of the public availability of these draft guidelines, and public comment is invited on any issue raised by them. After review and analysis of the comments, OSHA intends to issue procedures on records access and handling as administrative regulations.

DATES: Comments must be postmarked on or before March 1, 1979.

ADDRESS: Comments should be sent to: Docket Officer, Docket No. H-112A, Room S6212, U.S. Department of Labor, Third Street and Constitution Avenue, N.W., Washington, D.C. 20210, 202-523-7895.

FOR FURTHER INFORMATION CONTACT:

Ms. Flo Ryer, Director, Office of Special Standards Programs, Room N-3663, U.S. Department of Labor, Third and Constitution Avenue, N.W. Washington, D.C., 20210, 202-523-7174.

SUPPLEMENTARY INFORMATION: On July 21, 1978, OSHA published in the FEDERAL REGISTER an interim final rule (43 FR 31329)* and a proposed rule on access to employee exposure and medical records (43 FR 31371). Both the interim final rule and the proposed rule include requirements for the retention of all employee exposure and medical records which are maintained by employers, and for the availability of these records, upon request, to OSHA and the National Institute for Occupational Safety and Health (NIOSH). The text of the interim final rule and proposed rule and a discussion of their background, purpose, and significant issues appeared in the July 21 Federal Register document.

In accordance with 5 U.S.C. 553, OSHA gave interested persons until September 22, 1978, to present written comments, views or arguments on any issue raised by the proposal. As a result, OSHA received a total of 229 comments. Based on the widespread interest evidenced by these comments, OSHA scheduled public hearings on this proposal.

These hearings were held in Washington, D.C., December 5-8, 1978 and January 3-5, 1979; Chicago, Illinois, December 12-13, 1978 and January 9-10, 1979; and San Francisco, California, December 15, 1978.

A provision of both the interim final rule and the proposed rule (§ 1910.20(d)) provides for the employer to make available, upon request, to the Assistant Secretary of Labor, or to a designee, all employee exposure and medical records for examination and copying. While OSHA views this provision as simply implementing its authority under the OSH Act (29 USC 651 et seq.) to gain access to such records in appropriate circumstances, its inclusion in the rule raised the question of the agency's policies on access to and use of these data. Numerous commenters noted the absence of established OSHA procedures and policies concerning its access to, or handling of, often highly sensitive medical information; they indicated a need for

[1] Part 1910.

*The interim final rule was initially published on July 19, 1978 (43 FR 31019).

appropriate mechanisms protecting the confidentiality of these records. OSHA shares these concerns, and accordingly makes available for public comment the draft administrative guidelines for OSHA access to employee medical records.

The draft administrative guidelines respond to these concerns by articulating how OSHA intends to act in carrying out its authority. They would establish procedures which would provide answers to the following basic questions:

(1) Under what circumstances would OSHA seek to examine or copy identifiable exposure and medical records?

(2) Who in the agency would have authority to: (a) approve access requests; (b) initiate access request; and (c) use records obtained as a result of an access request?

(3) What procedures would be followed in gaining access to records?

(4) What internal security procedures would be followed to protect the confidentiality of records?

(5) How would the agency respond to requests for (a) interagency sharing or transfer; and (b) public disclosure of information in these records?

In developing procedures responsive to these basic questions, an attempt has been made to be as consistent as possible with the Privacy Protection Study Commission's Report with respect to governmental access to private sector records. Other sources of information considered include a draft report from the Privacy Initiative staff of the National Telecommunications and Information Administration to the Privacy Policy Coordinating Committee, draft work of the Interagency Regulatory Liaison Group Task Force on confidential business information, the Toxic Substances Control Act Confidential Business Information Security Manual, written statements of the Trade Secrets Subcommittee of the Toxic Substance Control Strategy Committee, the Court's decision in the *DuPont* v. *Finklea* case (459 F. Supp. 235 (1978)), and public comments on the OSHA proposal, including those of the National Commission on Confidentiality of Health Records.

The draft guidelines have been developed in light of the recommendations contained in those sources and in view of OSHA's needs to gain access to information whose confidential nature must be respected and protected. Further, these draft guidelines encompass the following recommended objectives:

1. A system of approving access to confidential records should be established so that a request to seek access requires an affirmative decision by an appropriate official within the agency that such access is necessary, and so that it is clear which officials within OSHA may be held accountable for making the key decisions concerning records access.

2. Access to these records should be limited to those OSHA employees who have the need to examine such confidential and private information.

3. A system of control over, and physical security of, these records when in the physical possession of the agency should be established to assure that their integrity is maintained and that they are completely unavailable to unauthorized persons.

4. Requests for public disclosures of information should be carefully scrutinized so that no information which may properly be withheld from disclosure under an applicable provision of the Freedom of Information Act or the Privacy Act is in fact disclosed.

A copy of the draft guidelines was placed in the public record (Docket No. H-112) of the rulemaking on OSHA's proposal on access to exposure and medical records on November 24, 1978. Their availability to the public was announced in Mr. Grover Wrenn's opening statement on behalf of OSHA at the December 5 hearings held on that proposal.

Since that time, OSHA has received a number of preliminary comments on the guidelines. OSHA has also had a limited opportunity to reevaluate the guidelines. One major area of consideration relates to the ultimate legal effect of these guidelines. Based on public expressions of concern from a spectrum of interested parties and on its own evaluation of the issue, OSHA has preliminarily decided to promulgate the guidelines as procedural regulations in a new Part 1913 of 29 CFR, at or about the same time as the final rule on records access is issued.

A second area of concern involves the intended scope of the guidelines. As originally drafted, the guidelines in many respects applied equally to exposure records containing alleged trade secrets and confidential business information and to personally identifiable medical records.

After reevaluation, OSHA has preliminarily determined that the draft guidelines are uniquely suited to medical records, but not to alleged trade secret information. The reason for this is, first, that trade secrets are already afforded protection by statute (18 U.S.C. 1905 and section 15 of the OSH Act), by regulation (29 CFR 1903.9), and by the OSHA Field Operations Manual. Secondly, the draft guidelines do not provide procedures which would allow for a quick and fair determination of the validity of a trade secret claim. The potential for abuse and delay if trade secrets were to be additionally covered by these guidelines was therefore apparent. Thus, OSHA intends that the final regulations will apply only to the agency's access to medical records.

OSHA invites comments on these preliminary determinations discussed above and all other issues raised in the draft guidelines.

The draft administrative guidelines for OSHA access to employee medical records as well as other public documents referred to in this notice may be obtained upon request at the OSHA Docket Office, Room S6212, U.S. Department of Labor, Third Street and Constitution Avenue, N.W., Washington, D.C., 20210, 202-523-7895.

PUBLIC PARTICIPATION

Although these are rules of agency organization, procedure or practice and are therefore not subject to the rulemaking requirements of the OSH Act or of the Administrative Procedure Act (5 U.S.C. 553 (b)), OSHA has decided to invite public comment in view of the numerous expressions of public interest in these issues.

Accordingly, interested persons are invited to submit comments, views, and arguments on any issue raised by this proposed rule. These comments must be submitted on or before March 1, 1979, in quadruplicate, to the Docket Officer, Docket No. H-112A, Room S6212, U.S. Department of Labor, Third Street and Constitution Avenue, N.W., Washington, D.C., 20210, 202-523-7895. They will be available for public inspection and copying at the above address and will be carefully evaluated and considered by OSHA before it promulgates the final rule.

AUTHORITY

This document was prepared under the direction of Eula Bingham, Assistant Secretary of Labor for Occupational Safety and Health, U.S. Department of Labor, Room S-2315, Third Street and Constitution Avenue, N.W., Washington, D.C., 20210.

Accordingly, pursuant to sections 8 (c) (1), 8 (c) (3), and 8 (g) of the Occupational Safety and Health Act of 1970 (84 Stat. 1599, 1600; 29 U.S.C. 657) and Secretary of Labor's Order No. 8-76 (41 FR 25059) it is proposed to amend Title 29 of the Code of the Federal Regulations by adding a new Part 1913 containing procedural regulations on access to and use of employee medical records.

(Sec. 8, 84 Stat. 1599, 1600 (29 U.S.C. 657); Secretary of Labor's Order No. 8-76 (41 FR 25059)).

Signed at Washington, D.C., this 11th day of January, 1979.

EULA BINGHAM,
Assistant Secretary of Labor.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 65]

[FRL 1039-8]

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Approval of Administrative Orders Issued By Connecticut Department of Environmental Protection To New Haven Trap Rock-Tomasso

AGENCY: Environmental Protection Agency.

ACTION: Proposed Rules.

SUMMARY: EPA proposes to approve administrative orders issued by the Connecticut Department of Environmental Protection. The orders require the company to bring air emissions from its asphalt batching plants in Bristol and Portland, Connecticut into compliance with certain regulations contained in the federally approved Connecticut State Implementation Plan (SIP) by May 15, 1979. Because the orders have been issued to a major source and permit a delay in compliance with provisions of the SIP, they must be approved by EPA before they become effective as delayed compliance orders under the Clean Air Act (the Act). If approved by EPA, the orders will constitute an addition to the SIP. In addition, a source in compliance with an approved order may not be sued under the federal enforcement or citizen suit provisions of the Act for violations of the SIP regulations covered by the Order. The purpose of this notice is to invite public comment on EPA's approval of the orders as delayed compliance orders.

DATE: Written comments must be received on or before February 20, 1979.

ADDRESSEE: Comments should be submitted to Director, Enforcement Division, EPA, Region I, Rm. 2103, J.F.K. Federal Building, Boston, MA 02203. The State orders, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Attorney Michael Gurchin at 617/223-5061 or engineer Steven Fradkoff at 617/223-5610, both at the following address: U.S. Environmental Protection Agency, J.F.K. Federal Building, Room 2103, Boston, Massachusetts 02203.

SUPPLEMENTARY INFORMATION: New Haven Trap Rock-Tomasso operates asphalt batching plants at Bristol and Portland, Connecticut. The orders under consideration address emissions from equipment at these plants with state registration numbers 0017, 0018, 0004, and 0005, which are subject to section 19-508-5(e) of the Connecticut Regulations for the abatement of air pollution. The regulation governs the testing of emissions from all sources, and is part of the federally approved Connecticut State Implementation Plan. The orders require final compliance with the regulation by May 15, 1979 through installation of baghouses and subsequent emission testing by procedures approved by the Connecticut Department of Environmental Protection. The source has consented to the terms of the order.

Because these orders have been issued to a major source of particulate emissions and permit a delay in compliance with the applicable regulation, they must be approved by EPA before they become effective as delayed compliance orders under Section 113(d) of the Clean Air Act (the Act). EPA may approve the orders only if they satisfy the appropriate requirements of this subsection.

If the orders are approved by EPA, source compliance with its terms would preclude federal enforcement action under Section 113 of the Act against the source for violations of the regulation covered by the orders during the period the orders are in effect. Enforcement against the source under the citizen suit provision of the Act (Section 304) would be similarly precluded. If approved, the orders would also constitute additions to the Connecticut SIP.

All interested persons are invited to submit written comments on the proposed orders. Written comments received by the date specified above will be considered in determining whether EPA may approve the orders. After the public comment period, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the orders in 40 CFR Part 65.

(42 U.S.C. 7413, 7601)

Dated: January 3, 1979.

WILLIAM R. ADAMS, Jr.,
Regional Administrator, Region I.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

[45 CFR Part 123]

BILINGUAL EDUCATION PROGRAM

Decision to Develop Regulations

AGENCY: Office of Education, HEW.

ACTION: Notice of decision to develop regulations.

SUMMARY: The Commissioner of Education proposes to amend the Bilingual Education Program regulations to reflect the Education Amendments of 1978 by issuing two separate sets of regulations.

(1) *Interim Final Regulations* are essential and effective immediately in order to issue grants for bilingual education programs during FY 1979. The Commissioner believes that it is impractical and contrary to the public interest to follow proposed rulemaking procedures that would delay the effective date of final regulations. The interim final regulations will amend existing regulations to implement certain provisions of the Education Amendments of 1978 that are not self-explanatory.

(2) *Proposed Regulations* will be published shortly after the interim final regulations. Proposed regulations will govern awards in FY 1980. They will:

(a) Simplify and clarify the language of existing regulations;

(b) Include the provisions published in the interim final regulations; and

(c) Further regulate on provisions of the Education Amendments of 1978.

Proposed rulemaking procedures will be followed for the FY 1980 regulations. Both sets of regulations are policy significant.

FOR FURTHER INFORMATION CONTACT:

Ms. Barbara J. Wells, 400 Maryland Avenue SW., (Room 421, Reporter's Building), Washington, D.C. 20202, Telephone: (202) 447-9273.

COMMUNITY EDUCATION PROGRAM

Decision To Develop Regulations

AGENCY: Office of Education, HEW.

ACTION: Notice of decision to develop regulations.

SUMMARY: The Commissioner of Education proposes regulations governing grants and allotments for implementation of the new Community Schools and Comprehensive Community Education Act of 1978. The proposed regulations will simplify and clarify the language of the existing regulations and implement the Education Amendments of 1978. These regulations will improve leadership and financial support for implementation of planning, establishing, expanding, and operating local community education programs. These proposed regulations are policy significant.

FOR FURTHER INFORMATION CONTACT:

FEDERAL COMMUNICATIONS COMMISSION

[FCC 78-828]

[47 CFR Chapter I]

CELLULAR MOBILE RADIO COMMUNICATIONS SYSTEM

Order Concerning Extension of Time for Limit for Adoption of Rules and Technical Standards

AGENCY: Federal Communications Commission.

ACTION: Order.

SUMMARY: Federal Communications Commission extends the deadline for adoption of rules and technical standards for nationwide, broadband, "cellular" mobile radio communication systems, to January 1, 1980. Cellular mobile systems are mobile radio telephone systems using advanced technology in order to achieve high quality communications with a high order of frequency reuse. In Docket 18262 the Commission expected to have adopted final rules by January 1, 1979. A pilot "developmental" program was instituted to yield data on which to base proposed rules. In order to obtain more detailed data before adopting final rules, the Commission is extending its target date for adoption of rules by one year. The Chief, Common Carrier Bureau, is given delegated authority to renew the authorizations of the participants in the pilot program.

V 4 4 / 1 4 J A 1 9 7 9 UMI

DATES: Target date for adoption of definitive technical standards and institution of regular cellular radio communication service is January 1, 1980.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Michael D. Sullivan, Mobile Services Division, Common Carrier Bureau. Telephone (202) 632-6450.

SUPPLEMENTARY INFORMATION:

In the matter of extension of time limit for adoption of rules and technical standards for cellular Mobile Radio Communication Systems; *Order;* adopted November 30, 1978; released December 6, 1978; By the Commission: Commissioner Lee absent.

1. On March 19, 1975, the Commission adopted its *Memorandum Opinion and Order* in Docket No. 18262, *Land Mobile Radio Service*, 51 FCC 2d 945, 40 FR 14452 (1975) (MO&O), terminating a long proceeding to provide spectrum relief for the land mobile radio services.[1] In that proceeding, the Commission, *inter alia*, allocated 40 MHz to the Domestic Public Land Mobile Radio Service for the development of a nationwide, broadband, "cellular" mobile radio communication system.

2. In paragraph 34 of the MO&O, the Commission emphasized the urgent need for additional mobile telephone service. Accordingly, we set a target date of January 1, 1979, for the adoption of rules and the institution of regular cellular service, and we stated that developmental operations would not extend beyond January 1, 1979.[2]

3. The first application for developmental authority was filed on July 31, 1975, by the Illinois Bell Telephone Company (IBT), for a developmental cellular system in the Chicago, Illinois, metropolitan area. In a letter dated July 15, 1976, we suggested that IBT revise its application.[3] IBT and the American Telephone and Telegraph Company sought reconsideration of the letter. On March 10, 1977, we granted reconsideration and granted IBT's application.[4] IBT began constructing its developmental system in July 1977.

4. On February 14, 1977, American Radio Telephone Service, Inc. (ARTS), a radio common carrier, filed an application for a developmental system. ARTS proposed to test a cellular system designed by Motorola in the Baltimore-Washington area. We granted the application on October 28, 1977.[5]

5. On the same day as our grant to ARTS, we also returned as defective an application filed by ARCH, a joint venture, for a non-cellular "nonwireline multiple acess exchange (N-MAX) mobile telephone system."[6] The ARCH application was rejected because it did not comply with either the letter or the spirit of the guidelines for cellular systems laid down in paragraph 33 of our MO&O.[7]

6. Thus, the only developmental cellular systems presently authorized are those of IBT and American Radio Telephone Service, Inc. (ARTS). 51 FCC 2d at 955.

We have received six developmental reports from IBT and four from ARTS. IBT is currently in the equipment testing phase, and has informed us that in December 1978 it plans to start service tests to over 2000 mobile units. The ARTS system is in the early stages of a three-phase developmental program.

7. We recognized in our MO&O that "considerable additional work must be done before standards may be prescribed for [cellular] systems on a regular basis."[8] Accordingly, we decided that only developmental systems would be authorized. "Following that program, we will adopt standards to which all systems, existing and new, will be required to conform."[9] In 1975, we expected to be able to adopt technical standards and other rules governing cellular systems and move from a developmental stage to regular service by January 1, 1979. At this time, we believe that it would be desirable to have a further period of development before adopting rules which preclude new, creative approaches to cellular development. Accordingly, we now feel that it would be prudent to extend the target date for the adoption of the rules and technical standards and the institution of regular service to January 1, 1980, on our own motion.[10]

8. We are hereby delegating authority to the Chief, Common Carrier Bureau, to act on applications for renewal of developmental cellular authorizations consistent with this decision.

9. We are extending the period for cellular development in the hope that it will lead to the submission of information so that we can adopt a framework of rules which will make possible a nationwide compatible mobile communications network which will meet the needs of the American public. To this end, we still encourage the submission of new developmental proposals from the telecommunications industry. The experience gained from even a short period of developmental operation of a new system may be of more value in designing a framework of rules for future systems than an entire year of pleadings and comments. Accordingly, we are willing to entertain additional developmental proposals which would contribute significantly to our understanding of the cellular concept. Such proposals must be compatible with existing cellular technology, however, and they must be in keeping with the spirit of the MO&O in Docket 18262.[11]

[1] Land Mobile Radio Service, Docket No. 18262, Second Report and Order, 46 FCC 2d 752, 39 FR 16831 (1974), *on reconsideration*, 51 FCC 2d 945, 40 FR 14452 (1975), *clarified*, 55 FCC 2d 771, 40 FR 49779 (1975), *aff'd sub nom.* Nat'l Ass'n of Regulatory Utility Comm'rs v. FCC, 525 F.2d 630 (D.C. Cir. 1976), *cert. denied*, 425 U.S. 992 (1976). The rulemaking in Docket No. 18262 was initiated in 1968 with the Commission's Notice of Inquiry and Notice of Proposed Rule Making, 14 FCC 2d 311, 33 FR 10807 (1968).

[2] In paragraph 34 of the MO&O the Commission stated that: the public interest requires that development of cellular systems be carried forward as swiftly as possible. It is vital that the frequency spectrum made available for this purpose be put to use without delay in order to service the public needs for mobile radiotelephone and for limited dispatch service. There must be prescribed time limits within which an applicant who has received a developmental grant will carry out the proposal. Applications must include a proposed time schedule that must, at a minimum, call for beginning construction within one year following the grant and for completion of the developmental operation no later than January 1, 1979. We would expect to have adopted definitive technical standards and other regulations for regular system operation by that date.

[3] Illinois Bell Tel. Co., 62 FCC 2d 436 (1976).

[4] Illinois Bell Tel. Co., 63 FCC 2d 655 (1977), *appeal pending sub nom.* Rogers Radio Communication Services, Inc. v. FCC, Nos. 77-1352, 77-1357 (D.C. Cir.) (argued June 14, 1978). Note that part of the developmental data IBT is producing actually comes from Bell Laboratories' "Cellular test bed" in Newark, New Jersey, under several experimental licenses.

[5] American Radio Telephone Service, Inc., 66 FCC 2d 481 (1977).

[6] ARCH, 66 FCC 2d 496 (1977).

[7] 51 FCC 2d at 954.

[8] *Id.* at 953.

[9] *Id.* at 954. *See also* 63 FCC 2d at 662-63.

[10] Although we are taking action herein on our own motion, we note the filing, on September 13, 1978, of the "Petition of Illinois Bell Telephone Company and American Telegraph Company for an Extension of the Completion Date for Cellular Mobile Telephone Development." IBT and AT&T ask that the completion date for the cellular program be extended from January 1, 1979, to January 1, 1980. We are granting this petition insofar as it is consistent with this Order. We are not, however, extending the period of existing developmental authorizations; the developmental licensees will be required to apply for renewal of their authorizations. The IBT authorization, File No. 20115-CD-P-(—)-76, and the ARTS authorization, File No. 20777-CD-P-(—)-77, expire on January 1, 1979.

[11] We take note that the American Telephone and Telegraph Company and IBT have jointly filed a "Petition for Inquiry" looking toward standards for cellular systems. File No. RM-3200, Public Notice dated September 8, 1978 (Mimeo 7101). We have

Footnotes continued on next page

10. Authority for this action is contained in Sections 4(i) and 303 of the Communications Act of 1934, as amended, 47 U.S.C. Sections 154(i) and 303.

11. In view of the foregoing, IT IS ORDERED, That the target date for adoption of definitive technical standards and institution of regular cellular radio communication service shall be January 1, 1980.

12. It is further ordered, That authority to renew developmental cellular authorizations until January 1, 1980, is hereby delegated to the Chief, Common Carrier Bureau.

13. It is further ordered, That the "Petition of Illinois Bell Telephone Company and American Telephone and Telegraph Company for an Extension of the Completion Date for Cellular Mobile Telephone Development" IS GRANTED, insofar as it is not inconsistent with this Order, and is in all other respects DENIED.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

[FR Doc. 79-1507 Filed 1-18-79; 8:45 am]

Footnotes continued from last page

previously waived the requirement of Section 21.403 of the Rules that an applicant for developmental authority accompany its application with a petition to amend the Rules. *See* 63 FCC 2d at 666; *cf.* 66 FCC 2d at 483. This was done because the very purpose of the cellular developmental systems was to yield data which would aid us in the adoption of rules. We are now of the belief, however, that following the experience gained by IBT and ARTS, it would be helpful to have specific proposals for rules from renewal applicants. Therefore, we expect to release a Notice of Inquiry in the near future, pertaining to rules governing cellular systems. It will still not be necessary for rulemaking petitions to accompany the applications. We anticipate that if we grant renewals of any developmental authorizations we may require, as a condition on the authorizations, that the licensee submit detailed comments and proposed rules in response to our Notice of Inquiry. In our Notice of Inquiry, we will address the question of varying the standards established in our MO&O; at present, however, any requests for waiver of those standards must be adequately justified. In any event, developmental proposals must use a mobile unit which is capable of being used in other cellular systems.

[47 CFR Part 18]

[Docket No. 20718]

INDUSTRIAL, SCIENTIFIC, AND MEDICAL EQUIPMENT

Order Extending Time for Filing Comments and Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Order extending time for comments.

SUMMARY: Order Extending time for comments and reply comments in FCC Docket 20718 re overall revision of Part 18 of FCC Rules governing ISM equipment to May 1, 1979 and June 1, 1979, respectively.

DATES: Comments must be received on or before May 1, 1979, and Reply Comments must be received on or before June 1, 1979.

ADDRESSES: Federal Communications Commission, 1919 M St., N.W. Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Art Wall, Office of Chief Engineer, FCC, Washington, D.C. 20554 (202-632-7095).

ORDER

Adopted: January 5, 1979.

Released: January 11, 1979.

In the Matter of overall revision of Part 18 governing industrial, scientific, and medical equipment, Docket 20718.

1. On September 29, 1978, the Commission released (43 FR 46326, October 6, 1978) a Notice of Proposed Rule Making in the above entitled matter soliciting public comments on or before January 15, 1979. Several parties have requested extensions of time within which to file comments on the grounds that the test procedures discussed in the proposal are not available.

2. Publication of the six test procedures has been unavoidably delayed. Recognizing the desirability of having these procedures available so they can be used to evaluate the proposed technical specifications, time for filing comments and reply comments is hereby extended to May 1, 1979, and June 1, 1979, respectively, pursuant to the authority granted by Section 0.241(d) of FCC Rules.

RAYMOND E. SPENCE,
Chief Engineer.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 34]

REFUGE REVENUE SHARING ACT

Participation of Local Governments in Revenue From Areas Administered

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: The Service proposes to revise Part 34 of Title 50, Code of Federal Regulations which prescribes regulations for revenue sharing with counties. These changes are necessitated by recent legislation which amended the Refuge Revenue Sharing Act. The proposed rule makes revenue sharing applicable to all service-administered lands instead of just to the refuge system; makes payments available for any governmental purpose; and provides a new computation for payments to county and local governments.

DATE: Comments must be received by February 20, 1979.

ADDRESS: Send comments to the Chief, Division of Realty, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT:

Bernard J. Schaefer, Assistant Chief, Division of Realty, Telephone 202-343-4026.

SUPPLEMENTAL INFORMATION: Public Law 95-469, approved October 17, 1978, which amended 16 U.S.C. 715s, changes the provisions for sharing revenues with counties in a number of ways. It makes revenue sharing applicable to all lands administered solely or primarily by the U.S. Fish and Wildlife Service, whereas previously it was applicable only to areas in the National Wildlife Refuge System. Areas added are national fish hatcheries, administrative sites, and research stations. The new law makes payments available for any governmental purpose, whereas the old law restricted the use of the payments to roads and schools. For fee (acquired) lands, the new law provides a payment of 75¢ per acre, 3/4 of 1% of fair market value, or 25% of net receipts, whichever is greater, whereas the old law provided a payment of 3/4 of 1% adjusted cost or 25% of net receipts, whichever was greater. The new law makes reserve (public domain) lands entitlement lands under Public Law 94-565 (16 U.S.C. 1601-1607), and provides for a payment of 25% of net receipts. The new law authorizes appropriations to make up any short-fall in

V 4 4 / 1 4 J A 1 9 7 9 UMI

net receipts to make payments in the full amount for which counties are eligible. The old law provided that if the net receipts were insufficient to make the full payment, the payment to each county would be reduced proportionately. All written comments made pursuant to this notice will be available for inspection at the Division of Realty, U.S. Fish and Wildlife Service, 5th Floor Rear, 608 13th Street, N.W., Washington, D.C., during regular business hours, 7:45 a.m. to 4:15 p.m. (except holidays). The primary author of this proposal is Richard E. Corthell, Division of Realty, U.S. Fish and Wildlife Service, Washington, D.C. 20240 (phone 202-343-4026).

NOTE.—The Department of the Interior has determined that this document is not a significant rule and does not require a regulatory analysis under Executive order 12044 and 43 CFR Part 14.

Accordingly, it is proposed to revise Part 34, Title 50, Code of Federal Regulations as follows:

PART 34—REFUGE REVENUE SHARING WITH COUNTIES

Sec.
34.1 Purpose.
34.2 Authority.
34.3 Definitions.
34.4 Eligibility of areas.
34.5 Distribution of revenues.
34.6 Schedule of appraisals.
34.7 Fair market value appraisals.
34.8 Appropriations authorized.
34.9 Protests.

AUTHORITY: 16 U.S.C. 715s, as amended.

§ 34.1 Purpose.

The purpose of the regulations contained in this part is to prescribe the procedures for making payments in lieu of taxes to counties for areas administered by the Secretary through the United States Fish and Wildlife Service in accordance with the Revenue Sharing Act.

§ 34.2 Authority.

(a) The Act of October 17, Public Law 95-469, amended the Act of June 15, 1935, as amended by the Act of August 30, 1964 (78 Stat. 701, 16 U.S.C. 715s), by revising the formula and extending the revenue sharing provisions to all fee and reserve areas that are administered solely or primarily by the Secretary through the United States Fish and Wildlife Service. Payments under this Act may be used for any governmental purpose.

(b) Pursuant to Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d), and the regulations issued pursuant thereto, which are contained in 43 CFR Part 17, counties must file an assurance with the Department, comply with the terms of the assurances, and comply with regulations contained in 43 CFR Part 17 in order to continue to receive this Federal financial assurance.

§ 34.3 Definitions.

(a) The term "fee area" means any area which was acquired in fee by the United States and is administered, either solely or primarily, by the Secretary through the Service.

(b) The term "reserve area" means any area of land withdrawn from the public domain and administered, either solely or primarily, by the Secretary through the Service. For the purpose of these regulations, reserve areas also include lands in Hawaii, the Commonwealth of Puerto Rico, Guam, and the Virgin Islands, which were initially administered by the United States through Act of Congress, Executive Order, Public Land Order or Proclamation of the President and administered, either solely or primarily, by the Secretary through the Service.

(c) The term "county" means any county, parish, organized or unorganized borough, or other unit of local government that collects and distributes real property taxes where fee area and/or reserve areas area located. For the purpose of sharing revenues, the Commonwealth of Puerto Rico, Guam, and the Virgin Islands shall each be treated as a county.

(d) The term "fund" means the revenues received by the Service from (1) the sale or disposition of animals, salmonoid carcasses and eggs, products of the soil (including, but not limited to, timber, hay, and grass), minerals, shells, sand, and gravel; (2) leases for public accomodations or facilities incidental to, but not in conflict with, the basic purpose of such areas; and (3) other priviliges, including industrial leases at Crab Orchard National Wildlife Refuge, Illinois, as authorized by Section 8 of Public Law 95-616, approved October 27, 1978. The Service may pay from such revenues any necessary expenses incurred in connection with the revenue producing and revenue sharing activity. The fund shall also include any appropriations authorized by the Act to make up any difference between the total amount of receipts after payments of expenses and the total amount of payments to the counties.

(e) The term "net receipts" means the amount of revenue collected by the Service from an area of fee land and/or reserve land after the deduction of necessary expenses incurred in producing the particular revenues.

(f) The term "fair market value" means the amount in terms of money for which in all probability a property would be sold if exposed for sale in the open market by a seller who is willing but not obligated to sell, allowing a reasonable time to find a buyer who is willing but not obligated to buy, both parties having full knowledge of all the uses to which the property is adapted, and for which it is capable of being used.

§ 34.4 Eligibility of areas.

In order for any county to receive payments under the Act, there must be located within the county, areas of land and/or water administered by the Secretary of the Interior, including wildlife refuges, wildlife ranges, wildlife management areas, fish hatcheries, research centers or stations, and administrative sites, and these areas must be solely or primarily administered by the Service. In addition to this Act, reserve areas administered solely or primarily by the Service are entitlement lands under Section 6(a) of the Act of October 29, 1976 (Public Law 94-565, 31 U.S.C. 1601-1607), for which regulations are published in Title 43, Part 1880, Code of Federal Regulations.

§ 34.5 Distribution of revenues.

The Act provides that the Secretary, at the end of each fiscal year, shall pay to each county out of the fund:

(a) For reserve areas, an amount equal to 25 percentum of the net receipts, collected by the Secretary in connection with the operation and management of such area, provided that when any such area is situated in more than one county, the distributive share to each from the aforesaid receipts shall be proportional to its acreage of such reserve area.

(b) For fee areas, whichever of the following is greater:

(1) An amount equal to 75¢ per acre for the total acreage of the fee area located within such county.

(2) An amount equal to three-fourths of 1 percentum of the fair market value, as determined by the Secretary, of that portion of the fee area (excluding any improvements thereto made after the date of Federal acquisition) which is located within such county. For those areas of fee land within the National Wildlife Refuge System as of September 30, 1977, the amount of payment will not be less than the amount paid on the adjusted cost basis as in effect at that time. Actual cost, or appraised value in case of donation, will be used for lands acquired during fiscal year 1978, and for those areas of fee lands added to lands administered by the Service after September 30, 1978, by purchase, donation, or otherwise, fair market value shall be determined by appraisal as of the date said areas are administered by the Service.

(3) An amount equal to 25 percentum of the net receipts collected by the Secretary in connection with the operation and management of such fee area during such fiscal year; but if a

fee area is located in two or more counties, the amount each such county is entitled to shall be the amount which bears to such 25 percentum, the same ratio as that portion of the fee area acreage which is within such county bears to the total acreage of such fee area.

(c) In accordance with Section 5(A) of the Act, each county which receives a payment under (a) and (b) above with respect to any fee area or reserve area shall distribute that payment to those units of local government which have incurred the loss or reduction of real property tax revenues because of the existence of such area in accordance with the following guidelines. The local units of government entitled to this distribution will be those such as, but not limited to, cities, towns, townships, school districts, and the county itself in appropriate cases, which levy and collect real property taxes separately from the county or other primary taxing authority or those for which a tax is separately stated on a consolidated tax bill of the primary taxing authority in areas wherein eligible lands are located. The amount of distribution or passthrough to which each unit of local government will be entitled shall be in the same proportion as its current tax loss bears to the current whole tax loss for the area. Counties shall distribute the payment to eligible local units of government within 90 days from receipt of the payment. In the event a county cannot make the required distribution for reasons of State or local law, or otherwise, the Service will make the payments directly to local units of government upon return of the check and information upon which to make the payments. Payments generated from reserve lands are not subject to the requirements for distribution since these lands have never been on tax rolls. Where reserve land payments are included in payments to counties, the Service will furnish with the payment, a statement as to the portion pertaining to such reserve lands, which amount may be retained by the county in full.

(d) Each county which receives a payment under these regulations shall maintain a record for a period of three years as to how the payment was distributed to units of local government under (c) above. The record shall be available for inspection by the Regional Director should a dispute arise as to the distribution of payments. See Section 29.21-2(c) for a listing of the Regional Directors of the Service.

§ 34.6 Schedule of appraisals.

The Secretary shall make fair market value appraisals of areas administered by the Service within five years after October 17, 1978, beginning with areas established earliest, and on a schedule of approximately one-fifth of such areas each fiscal year. All areas for which payments were not authorized prior to fiscal year 1979 (i.e.; fish hatcheries, administrative sites, and research stations) shall be included in the areas appraised during the first fiscal year. Once appraised, areas shall be reappraised on a schedule of at least once every five years. Until areas are appraised, the fair market value for the purposes of this regulation shall be the adjusted cost as of September 30, 1978, except that fee lands added to such areas after that date shall be on the basis of fair market value.

§ 34.7 Fair market value appraisals.

Fee areas administered by the Service will be appraised in accordance with standard appraisal procedures in order to estimate the fair market value of each area as a whole. The evaluation will be premised on an appropriate determination of highest and best use in accordance with existing or potential zoning, the present condition of the land and the general economic situation in the vicinity. Standard appraisal techniques will involve a market data comparison of these areas with similar properties which have sold recently in the local market. These techniques may also include consideration of potential income and development of the cost approach for special use properties having limited marketability. An appropriate evaluation of these areas will also take into consideration a discount for size as recognized by the market for large properties where applicable. The appraisals will be made on a gross or overall basis rather than a summation of individual values for different cover type acreages. The appraisals will be accomplished by the regional director, using Service staff appraisers or private appraisers contracted by the Service. The Act requires that improvements placed upon the land after the date of Federal acquisition be excluded from the fair market value. The only structures that will be included in the appraisal are those that were present at the time of Federal acquisition and have not been the subject of substantial renovation or modification with Federal funds. Evaluation of improvements will be based on their contributory value to the area as determined by the highest and best use study. Lands occupied by improvements not subject to appraisal will be valued as though unimproved. The appraisals will be reviewed by the Service's review appraisers and the determination of the regional director as to fair market value shall be final and conclusive and shall be the basis for computation of revenue sharing payments.

§ 34.8 Appropriations authorized.

The Act authorizes appropriations to the fund for any fiscal year when the aggregate amount of payments required to be made exceeds the net receipts in the fund.

§ 34.9 Protests.

(a) Computation of payments shall be based on Federal records concerning land, real property improvements, and accounting of net receipts from area administered solely or primarily by the Service.

(b) Any affected county may protest the results of the computations of its payments to the Regional Director in charge of the State and county affected. See Section 29.21-2(c) for a listing of the regional directors of the Service.

(c) Any protesting county shall submit sufficient evidence to show error in the computation or the data from which the computations are made.

(d) All protests to the regional director shall be filed within 90 days from the date of receipt of the payment.

(e) The regional director shall consult with the affected county to resolve conflicts in the computations and/or data. The regional director shall make a determination as to the correct payment, which determination shall be final and conclusive.

Dated: January 15, 1979.

ROBERT S. COOK,
Acting Director,
Fish and Wildlife Service.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

PUBLIC INFORMATION MEETING

Notice is hereby given that on Monday, January 29, 1979, from 3:00 to 7:30 p.m., a public information meeting will be held at the First Chicago Center, 1 First National Plaza, Chicago, Illinois. The purpose of this meeting is to provide an opportunity for representatives of national, State, and local units of government, representatives of public and private organizations, and interested citizens to receive information and express their views on the proposed Franklin Line Rail Rapid Transit Project (Project No. IL-23-2005), an undertaking assisted by the Urban Mass Transportation Administration, U.S. Department of Transportation, that will adversely affect the Union Loop Elevated Structure in Chicago, Illinois, a property determined by the Secretary of the Interior to be eligible for inclusion in the National Register of Historic Places.

The following is a summary of the agenda of the public information meeting:

I. An explanation of the procedures and purpose of the meeting by a representative of the Executive Director of the Council. The meeting is being held in accordance with § 800.5(c) of the Council's "Procedures for the Protection of Historic and Cultural Properties" (36 CFR Part 800).

II. A description of the undertaking and an evaluation of its effects on the property by the Chicago Urban Transportation District.

III. A statement by the Illinois State Historic Preservation Officer.

IV. Statements from local officials, private organizations, and the public on the effects of the undertaking on the Union Loop Elevated Structure.

V. A general question period.

Speakers should limit their time to 10 minutes. Written statements in furtherance of oral remarks will be accepted by the Council at the time of the meeting. Additional information regarding the meeting is available from the Executive Director, Advisory Council on Historic Preservation, 1522 K Street, N.W., Washington, D.C. 20005, (202)254-3974.

ROBERT M. UTLEY,
Deputy Executive Director.

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

ADVISORY COUNCIL ON MATERNAL, INFANT AND FETAL NUTRITION

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following Committee meeting:

Name: National Advisory Council on Maternal, Infant and Fetal Nutrition.

Date and time: 9:00 a.m., February 6-7, 1979.

Place: New Orleans Hilton Hotel, Poydras Street at the Mississippi River, New Orleans, Louisiana 70140.

Purpose of meeting: The Council will continue its study of the special Supplemental Food Program for Women, Infants and Children (WIC) and will discuss a wide range of matters concerning the operation of this program.

Proposed agenda: The agenda will cover issues in the proposed WIC program regulations including the following: priority systems for participant eligibility, local agency applications, and county participation or expansion as determined by the affirmative action plan; eligibility criteria; certification; nutrition education; performance standards; outreach requirements and food delivery standards. Future evaluations of the WIC program and developmental projects will also be discussed.

This meeting will be open to the public.

Persons wishing additional information about this meeting should contact Lindy Dahnk, Supplemental Food Programs Division, Food and Nutrition Service, U.S. Department of Agriculture, Washington, D.C. 20250, telephone (202) 447-8421.

Dated: January 12, 1979.

CAROL TUCKER FOREMAN,
Assistant Secretary.

Bureau of the Census

CENSUS ADVISORY COMMITTEE ON HOUSING FOR THE 1980 CENSUS

Public Meeting

Pursuant to the Federal Advisory Committee Act, as amended, 5 U.S.C. APP. (1976), notice is hereby given that the Census Advisory Committee on Housing for the 1980 Census will convene on February 9, 1979, at 9:30 a.m. The Committee will meet in Room 2424, Federal Building 3 at the Bureau of the Census in Suitland, Maryland.

The Census Advisory Committee on Housing for the 1980 Census was established in March 1976 to provide technical advice and guidance in planning the forthcoming decennial census of housing to ensure that the major statistical requirements of decision-makers are provided by the 1980 Census of Housing program.

The Committee is composed of 18 members, including a representative from each of nine organizations, and nine members appointed by the Secretary of Commerce.

The agenda for the meeting, which is scheduled to adjourn at 4:00 p.m., is: 1) Introductory remarks by the Director, Bureau of the Census, 2) status of planning for the 1980 census, 3) status of the 1980 housing census, 4) Community Services Program, 5) publication outlines for the 1980 housing census, 6) outlying areas program, and 7) committee recommendations and plans for the next meeting.

The meeting will be open to the public and a brief period will be set aside for public comment and questions. Extensive questions or statements must be submitted in writing to the Committee Control Officer at least 3 days prior to the meeting.

Persons planning to attend and wishing additional information concerning this meeting or who wish to submit written statements may contact Mr. Arthur F. Young, Chief, Housing Division, Bureau of the Census, Federal Building 3, Suitland, Maryland. (Mail address: Washington, D.C. 20233). Telephone (301) 763-2863.

Dates: January 16, 1979.

MANUEL D. PLOTKIN,
Director,
Bureau of the Census.

Foreign Trade Zones Board

[Order No. 141]

RESOLUTION AND ORDER APPROVING APPLICATION OF THE GREATER CINCINNATI FOREIGN-TRADE ZONE, INC., FOR FOREIGN, TRADE ZONE FACILITIES IN THE GREATER CINCINNATI AND COLUMBUS, OHIO, AREAS

Proceedings of the Foreign-Trade Zones Board, Washington, D.C.

RESOLUTION AND ORDER

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), the Foreign-Trade Zones Board has adopted the following Resolution and Order:

The Board, having considered the matter, hereby orders:

After consideration of the application of the Greater Cincinnati Foreign-Trade Zone, Inc., filed with the Foreign-Trade Zones Board (the Board) on September 19, 1978, requesting a grant of authority for establishing, operating, and maintaining general-purpose foreign-trade zones in the Greater Cincinnati area of Ohio and northern Kentucky, and two special-purpose subzones near Cincinnati and Columbus, Ohio, the Board, finding that the requirements of the Foreign-Trade Zones Act, as amended, and the Board's regulations are satisfied, and that the proposal is in the public interest, approved the application.

As the proposal involves industrial park type general-purpose zone sites that envisage the possible construction of buildings by parties other than the grantee, this approval includes authority to the grantee to permit the erection of such buildings, pursuant to Section 400.815 of the Board's regulations, as are necessary to carry out the zone proposal, providing that prior to its granting such permission it shall have the concurrences of the local District Director of Customs, the U.S. Army District Engineer, when appropriate, and the Board's Executive Secretary. Further, the grantee shall notify the Board's Executive Secretary for approval prior to the commencement of any manufacturing operation at any of the various zone sites. The Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized to issue a grant of authority and appropriate Board Order.

FOREIGN TRADE ZONES BOARD—
WASHINGTON, D.C.

GRANT TO ESTABLISH, OPERATE AND MAINTAIN FOREIGN, TRADE ZONE AND SUBZONE FACILITIES IN THE GREATER CINCINNATI AND COLUMBUS, OHIO, AREAS

WHEREAS, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," as amended (19 U.S.C. 81a-81u) (the Act), the Foreign-Trade Zones Board (the Board) is authorized and empowered to grant to corporations the privilege of establishing, operating, and maintaining foreign-trade zones in or adjacent to ports of entry under the jurisdiction of the United States;

WHEREAS, the Greater Cincinnati Foreign-Trade Zone, Inc., (the Grantee) has made application (filed September 19, 1978, and amended November 2, 1978) in due and proper form to the Board, requesting the establishment, operation and maintenance of foreign-trade zones in Butler County, Ohio, and Campbell County, Kentucky, within the Cincinnati Customs port of entry; and, two special-purpose subzones, one in Hamilton County, Ohio, within the Cincinnati Customs port of entry, the other in Union County, Ohio, adjacent to the Columbus port of entry;

WHEREAS, notice of said application and amendment has been given and published, and full opportunity has been afforded all interested parties to be heard; and

WHEREAS, the Board has found that the requirements of the Act and the Board's Regulations (15 CFR Part 400) are satisfied;

NOW, THEREFORE, the Board hereby grants to the grantee the privilege of establishing, operating and maintaining foreign-trade zones and subzones, designated on the records of the Board as Zone No. 46 (Butler County, Ohio), Subzone No. 46A (Hamilton County, Ohio), Subzone 46B (Union County, Ohio), and Zone No. 47 (Campbell County, Kentucky) at two sites: (NKPA Site) and (Hosea Site), and more particularly described on the maps and drawings accompanying the application (as amended) in Exhibits IX and X, said grant being subject to the provisions, conditions, and restrictions of the Act and the regulations issued thereunder, to the same extent as though the same were

fully set forth herein, and also to the following express conditions and limitations:

Operation of the foreign-trade zones and subzones shall be commenced by the Grantee within a reasonable time from the date of issuance of the grant, and prior thereto the Grantee shall obtain all necessary permits from Federal, State, and municipal authorities.

The Grantee shall allow officers and employees of the United States free and unrestricted access to and throughout the foreign-trade zones and subzones in the performance of their official duties.

The Grantee shall notify the Executive Secretary of the Board for approval prior to the commencement of any manufacturing operation within the zone and subzone sites.

The grant shall not be construed to relieve the Grantee from liability for injury or damage to the person or property of others occasioned by the construction, operation, or maintenance of said zone and subzone sites, and in no event shall the United States be liable therefor.

The grant is further subject to settlement locally by the District Director of Customs and the Army District Engineer with the Grantee regarding compliance with their respective requirements for the protection of the revenue of the United States and the installation of suitable facilities.

IN WITNESS WHEREOF, the Foreign-Trade Zones Board has caused its name to be signed and its seal to be affixed hereto by its Chairman and Executive Officer at Washington, D.C. this 12th day of January 1979, pursuant to Order of the Board.

C. L. HASLAM,
Foreign-Trade Zones Board, Acting Chairman and Executive Officer.

Attest:
JOHN J. DAPONTE,
Executive Secretary.

Maritime Administration

[Docket No. S-634]

OGDEN TRAVELER, INC.

Application

Notice is hereby given that Ogden Traveler, Inc., 280 Park Avenue, New York, New York 10017, has filed an application dated December 29, 1978, with the Maritime Subsidy Board (the Board) pursuant to Title VI of the Merchant Marine Act, 1936, as amended (the Act), for an operating-differential subsidy contract, to expire December 31, 1979, unless extended, to operate the SS TRAVELER, 25,977 deadweight tons, in the carriage of bulk raw and processed agricultural commodities in the foreign commerce of the United States (U.S.) from ports in the U.S. to ports in the Union of Soviet Socialist Republics (U.S.S.R.), or other permissible ports of discharge. Dry and liquid bulk cargoes may be carried from the U.S.S.R. and other foreign ports inbound to U.S. ports during voyages subsidized for carriage of export bulk raw and processed agricultural commodities to the U.S.S.R., or other permissible ports of discharge.

Full details concerning the U.S.-U.S.S.R. export bulk raw and processed agricultural commodities subsidy program, including terms, conditions and restrictions upon both the subsidized operators and vessels, appear in Title 46 of the Code of Federal Regulations, Part 294.

For purposes of section 605(c) of the Act, it should be assumed that should the Board grant the requested approval, the vessel named above will engage in the described trade, on a full-time basis, during the indicated time period. Under such approval, each voyage must be approved for subsidy assistance prior to its commencement, and the Board will act on such request(s) as an administrative matter for which there is no requirement for further section 605(c) notice(s).

Any person having an interest in the granting of the application and who would contest a finding by the Board that the service now provided by vessels of U.S. registry for the carriage of cargoes previously specified is inadequate, must on or before January 30, 1979 notify the Board's Secretary, in writing, of his interest and of his position, and file a petition for leave to intervene in accordance with the Board's Rules of Practice and Procedure (46 CFR 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the Act, and, with as much specificity as possible, the facts that the intervenor would undertake to prove at such hearing.

In the event a hearing under section 605(c) of the Act is ordered to be held with respect to the subject application, the purpose of such hearing will be to receive evidence relevant to (1) whether the application herein described, with respect to the vessel to be operated in an essential service and served by citizens of the U.S. would be in addition to the existing service or services, and if so, whether the service already provided by vessels of U.S. registry is inadequate, and (2) whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated thereon.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Board will take such actions as may be deemed appropriate.

(Catalog of Federal Domestic Assistance Program No. 11.504 Operating-Differential Subsidy (ODS)).

Dated: January 15, 1979.

JAMES S. DAWSON, Jr.,
Secretary.

National Oceanic and Atmospheric Administration

NATIONAL MARINE FISHERIES SERVICE

Issuance of Permit To Take and Import Marine Mammals

On November 1, 1978, Notice was published in the FEDERAL REGISTER (43 FR 50955), that an application had been filed with the National Marine Fisheries Service by Dr. Lanny Cornell, Vice President.

Research/Veterinary Husbandry, 1720 South Shores Road, Mission Bay, San Diego, California 92109, for a public display/scientific research permit to take and import six (6) beluga whales, six (6) pilot whales, twenty (20) common dolphins and/or Pacific white-sided dolphins, fifteen (15) spotted dolphins, spinner dolphins, striped dolphins and/or Northern right whale dolphins and fifty (50) Atlantic or Pacific bottlenose dolphins.

Notice is hereby given that on January 12, 1979, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a public display/scientific research permit to Sea World, Inc., subject to certain conditions set forth therein.

The Permit is available for review by interested persons in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, N. W., Washington, D.C.,

Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731;

Regional Director, National Marine Fisheries Service, Duval Building, 9450 Kroger Boulevard, St. Petersburg, Florida 33702;

Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930; and

Regional Director, National Marine Fisheries Service, Alaska Region, P.O. Box 1668, Juneau, Alaska 99802.

Dated: January 12, 1979.

WINFRED H. MEIBOHM,
Associate Director, National Marine Fisheries Service.

Office of the Secretary

MID-AMERICA ECONOMIC DEVELOPMENT REGION

Notice of Designation of an Economic Development Region

Pursuant to the provisions of Section 501(a) of the Public Works and Economic Development Act of 1965, as amended (Public Law 89-136; 42 U.S.C. 3181(a)), having examined all pertinent data, I have determined that the States of Illinois, Indiana, Iowa, and the following 60 counties in the State of Ohio meet the requirements of the Act for designation as an economic development region: Allen, Ashland, Ashtabula, Auglaize, Butler, Champaign, Clark, Clinton, Columbiana, Crawford, Cuyahoga, Darke, Defiance, Delaware, Erie, Fairfield, Fayette, Franklin, Fulton, Geauga, Greene, Hamilton, Hancock, Hardin, Henry, Huron, Knox, Lake, Licking, Logan, Lorain, Lucas, Madison, Mahoning, Marion, Medina, Mercer, Miami, Montgomery, Morrow, Ottawa, Paulding, Pickaway, Portage, Preble, Putnam, Richland, Sandusky, Seneca, Shelby, Stark, Summit, Trumbull, Union, Van Wert, Warren, Wayne, Williams, Wood, and Wyandot. Accordingly, in response to a request dated December 28, 1976, from the Governors of the four states, I have designated the above-described region as the Mid-America Economic Development Region.

Inquiries relating to this designation should be addressed to the Special Assistant to the Secretary for Regional Economic Coordination, Room 2092, Main Commerce Building, 14th Street and Constitution Avenue, NW., Washington, D.C. 20230.

Dated: January 9, 1979.

JUANITA M. KREPS
Secretary of Commerce.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHERS SEVERELY HANDICAPPED

PROCUREMENT LIST 1979

Addition

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Addition to procurement list.

SUMMARY: This action adds to Procurement List 1979 a commodity to be produced by workshops for the blind or other severely handicapped.

EFFECTIVE DATE: January 19, 1979.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Virginia 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher, 703-557-1145.

SUPPLEMENTARY INFORMATION: On October 20, 1978 the Committee for Purchase from the Blind and Other Severely Handicapped published a notice (43 FR 49035) of proposed addition to Procurement List 1979, November 15, 1978 (43 FR 53151).

After consideration of the relevant matter presented, the Committee has determined that the commodity listed below is suitable for procurement by the Federal Government under 41 U.S.C. 46-48c, 85 Stat. 77.

Accordingly, the following commodity is hereby added to Procurement List 1979:

Class 8135

Currency Packing Block
BEP Stock No. 1391

C. W. FLETCHER,
Executive Director.

Office of the Secretary of Defense

DOD ADVISORY GROUP ON ELECTRON DEVICES

Advisory Committee Meeting

Working Group C (Mainly Imaging and Display) of the DOD Advisory Group on Electron Devices (AGED) will meet in closed session at 201 Varick Street, New York, New York 10014 on 15 February 1979.

The purpose of the Advisory Group is to provide the Under Secretary of Defense for Research and Engineering, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of electron devices.

The Working Group C meeting will be limited to review of research and development programs which the Military Departments propose to initiate with industry, universities or in their laboratories. This special device area includes such programs as infrared and night vision sensors. The review will include classified program details throughout.

In accordance with Section 10(d) of Appendix 1, Title 5, United States Code, it has been determined that this Advisory Group meeting concerns matters listed in Section 552b(c) of title 5 of the United States Code, specifically Subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

Dated: January 15, 1979.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Service, Department of Defense.

OVERSEAS MILITARY BANKING PROGRAM

Services Sought

Consideration is being given to competitive solicitation for the procurement of banking services at U.S. military installations in the foreign countries specified below for fiscal Year 1980 (October 1, 1979, through September 30, 1980).

Competitive solicitation is being considered to meet Defense needs. All qualified firms, including the present contractors, would be included in the competition.

This notice pertains to five present contracts. No. 1 provides for 134 full-time and satellite banking facilities at U.S. military installations in the Federal Republic of Germany, the United Kingdom, Greece, the Netherlands, and Iceland. No. 2 provides for 4 facilities in Germany. No. 3 provides for 20 facilities in Japan, Okinawa, and the Philippines. No. 4 provides for 4 facilities in Japan. No. 5 provides for 17 facilities in South Korea.

Such facilities normally furnish U.S. and local currency to military disbursing officers and nonappropriated fund activities and maintain official and nonappropriated fund dollar and local currency accounts. They also provide checking and savings accounts, local currency, and other common retail banking services to Defense personnel and their dependents.

Present contracts are cost reimbursement plus fixed fee. The Government pays the net loss, if any, after income from service fees and the investment of account balances has been deducted from allowable expenses. Contractor expenses include personnel, supplies, and equipment. Office space is provided by the Government.

Interested financial institutions may obtain additional information and a questionnaire by making a written request to the Defense Supply Service-

V 4 4 / 1 4 J A 1 9 7 9 UMI

Washington, Room 1D-245, The Pentagon, Washington, DC, 20310. Requests should specify the number, as given above, of each present contract for which information is desired. Deadline for return is February 23, 1979.

Dated: January 15, 1979.

MAURICE W. ROCHE,
Director, Correspondence and Di>rectives, Washington Headquarters Services, Department of Defense.

DEPARTMENT OF ENERGY

INDUSTRIAL ENERGY CONSERVATION PROGRAM

Requirement for Certain Corporations to File Information on Energy Consumption for Identification; Correction

AGENCY: Department of Energy.

ACTION: Notice of Information Filing Requirement; Correction.

SUMMARY: This document corrects errors made in the notice of information filing requirement that appears on pages 1770 and following in the FEDERAL REGISTER of January 8, 1979.

FOR FURTHER INFORMATION CONTACT:

Robert G. Massey, Office of Industrial Applications and Commercialization, Suite 735, 666 11th St. N.W., Washington, D.C. 20001, (202) 724-3461.

SUPPLEMENTARY INFORMATION: The format for filing the information with the Department of Energy required by section II.C.3 of FR Doc. 79-713 which appeared on page 1772 in the FEDERAL REGISTER of January 8, 1979 is corrected to read as follows:

(3) A statement as follows and the date of submission:

(A) (name of corporation)———— consumed at least one trillion Btu's of energy in calendar year 1977 in SIC(s)————, as determined according to instructions contained in "Requirement for Certain Corporations to File Information on Energy Consumption for Identification," (44 FR 1770, January 8, 1979).

(B) Excluding petroleum, natural gas and their derivatives used as feedstocks, (name of corporation)————consumed at least one trillion Btu's of energy in calendar year 1977 in SIC(s)————. I certify that all the information in this report is true and accurate to the best of my knowledge.

The first item in the list of energy consumption to be excluded from the determination of total energy consumption which is provided in section II.D.1. on page 1772 is corrected to read as follows:

(a) All uses of electricity self-generated by thermal means.

The conversion factor for Distillate fuel oil (including diesel) which is provided in section II.D.2. on page 1773 is corrected to read as follows:

Distillate fuel oil (including diesel)—5,825,000/bbl.

Issued in Washington, D.C., January 16, 1979.

OMI WALDEN,
Assistant Secretary, Conservation and Solar Application.

INTERGOVERNMENTAL AND INSTITUTIONAL RELATIONS

Consumer Affairs Advisory Committee Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Consumer Advisory Committee will meet at 4:00 p.m., Monday, February 5, 1979, in Room 8E083, and reconvene at 9:00 a.m., Tuesday, February 6, 1979, in Room 8E069, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C.

The purpose of the Committee is to provide the Secretary of Energy with diversified expert advice from qualified individuals relating to the identification and evaluation of the impact of proposed or existing energy policies and programs on consumers, the identifications of areas where new policy initiatives or program change is needed, and planning, developing, and implementing equitable energy policies and programs.

The agenda for the meeting is as follows:

1. Role of Office of Consumer Affairs and Energy.
2. Report on Contracts and Grants Information.
3. Discussion of Proposed Refund Procedures to Purchasers of Petroleum Products from Firms Found to Have Violated the Mandatory Petroleum Regulations.
4. Subcommittee Reports.
5. Public Comment (10 Minute Rule).

The meeting is open to the public. The Chairwoman of the Committee is empowered to conduct the meeting in a fashion that will, in her judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee concerning items on the agenda will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements concerning items on the agenda should inform Georgia Hildreth, Director, Advisory Committee Management (202) 252-5935, at least 5 days prior to the meeting and reasonable provision will be made for their appearance on the agenda.

The transcript of the meeting will be available for public review and copying at the Freedom of Information Public Reading Room, Room GA-152, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. In addition, any person may purchase a copy of the transcript from the reporter. An Executive Summary of the meeting may be obtained by calling the Advisory Committee Management Office at the above number.

Issued at Washington, D.C. on January 12, 1979.

TINA C. HOBSON,
Advisory Committee Management Officer.

INTERGOVERNMENTAL AND INSTITUTIONAL RELATIONS

Consumer Affairs Advisory Committee, Subcommittee Meetings

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Consumer Affairs Advisory Committee Subcommittees will meet Monday, February 5, 1979, in Rooms 8E069 and 8E083, Forrestal Building, 1000 Independence Avenue, SW., Washington, D.C. at the time indicated below.

The objective of the subcommittees is to make recommendations to the parent Committee with respect to matters concerning consumer aspects of DOE policies and programs.

The agenda and schedule of meetings is as follows:

Consumers' Right to Appropriate Energy Sources
9:00 a.m.—12:00 Room 8E083.
Agenda:
- Report on the California Distributed Energy Project.
- Update on Appropriate Technology Small Grants Program.
- Energy Transportation Policy.
- Gasohol.

Funded Public Participation of Consumer Organizations
9:00 a.m.—12:00 Room 8E069.
Agenda:
General Planning Session by Subcommittee Members.

Consumers' Right to Heat and Light
1:00 p.m.—4:00 Room 8E069.
Agenda:
- PUPPA Implementation.
- Subcommittee Discussion on Conflict Between Energy Policy and Inflation.

Oversight of DOE
1:00 p.m.—4:00 Room 9E083.

Agenda:
- Follow-up Report on Committee Requests for Contracts & Grants Information.
- Discussion on National Consumer Cooperative Bank Act.
- Review of Functional Budget of the Office of Consumer Affairs.

The subcommittee meetings are open to the public. The Chairperson of each subcommittee is empowered to conduct the meeting in a fashion that will, in his/her judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with a subcommittee concerning items on the agenda will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements concerning items on the agenda should inform Georgia Hildreth, Director, Advisory Committee Management (202) 252-5935, at least 5 days prior to the meeting and reasonable provision will be made for their appearance on the agenda.

Transcripts of the meetings will be available for public review and copying at the Freedom of Information Public Reading, Room, Room GA-152, Forrestal Building, 1000 Independence Avenue, SW., Washington, D.C. between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. In addition, any person may purchase a copy of the transcript from the reporter. An Executive Summary of the Meeting may be obtained by calling the Advisory Committee Management Office at the above number.

Issued at Washington, D.C. on January 12, 1979.

TINA C. HOBSON,
Advisory Committee Management Officer.

NATIONAL PETROLEUM COUNCIL, TASK GROUP OF THE COMMITTEE ON MATERIALS AND MANPOWER REQUIREMENTS

Meeting

Notice is hereby given that a task group of the Committee on Materials and Manpower Requirements will meet in January 1979. The National Petroleum Council was established to provide advice, information, and recommendations to the Secretary of Energy on matters relating to oil and natural gas or the oil and natural gas industries. The Committee on Materials and Manpower Requirements will analyze the potential constraints in these areas which may inhibit future production and will report its findings to the National Petroleum Council. Its analysis and findings will be based on information and data to be gathered by the various task groups. The task group scheduling a meeting is the Task Group on Production Equipment. The time, location and agenda of the task group meeting follows:

The second meeting of the Task Group on Production Equipment will be on Wednesday, January 24, 1979, starting at 9:00 a.m. in Room 1992 on the 19th Floor of the Exxon Building, 800 Bell Avenue, Houston, Texas.

The tentative agenda for the meeting follows:

1. Introductory remarks by Chairman and Government Cochairman.
2. Discussion of the study methodology to be employed by the Task Group on Production Equipment and review of assignments.
3. Discussion of the timetable of the Task Group on Production Equipment.
4. Discussion of any other matters pertinent to the overall assignment of the Task Group on Production Equipment.

The meeting is open to the public. The chairman of the task group is empowered to conduct the meeting in a fashion that will, in his judgement, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the task group will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform James R. Hemphill, Office of Resource Applications, 202-633-8383, prior to the meeting and reasonable provision will be made for their appearance on the agenda.

Summary minutes of the meeting will be available for public review at the Freedom of Information Public Reading Room, Room GA 152, DOE, Forrestal Building, 1000 Independence Avenue, SW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued at Washington, D.C., on January 12, 1979.

GEORGE S. MCISAAC,
Assistant Secretary for Resource Applications.

JANUARY 12, 1979.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 1041-4]

SPRAYED ASBESTOS IN SCHOOLS: PETITION

Request for Comments

AGENCY: Environmental Protection Agency.

ACTION: Request for Comments on Citizens' Petition.

SUMMARY: The Environmental Protection Agency (EPA) requests comments from the public regarding a citizens' petition filed by the Environmental Defense Fund (EDF) requesting that asbestos-sprayed materials in school buildings be controlled under the Toxic Substances Control Act (TSCA). Comments will aid the Agency in responding to this petition.

DATE: Comments should be submitted by February 20, 1979.

ADDRESS: Copies of the petition are available from: John Ritch, Industry Assistance Office, TS-793, United States Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460, Phone: 800-424-9065 or 554-1404 (Washington, D.C.). Send comments to: Larry E. Longanecker, Office of Toxic Substances, TS-794, United States Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

Larry E. Longanecker, address as above, Phone: (202) 755-8963.

SUPPLEMENTARY INFORMATION: On December 21, 1978, the Environmental Defense Fund (EDF) submitted to the EPA a "Petition to the Environmental Protection Agency to Control Asbestos Emissions From Spray-on Materials Which Have Been Applied in Public School Buildings for Insulation, Fireproofing, Decorative or Other Purposes," pursuant to Section 21 of the Toxic Substances Control Act (TSCA), 15 U.S.C. 2620. Under TSCA, EPA has 90 days to respond to this citizen's petition. The petition points out the extensive past use of asbestos-sprayed materials, the well-established health effects of asbestos inhalation, and the presence of asbestos in the air of some school buildings. Petitioner concludes that exposure to this asbestos may pose an unreasonable risk to the health of building occupants, particularly children. Briefly, the petition requests that EPA promulgate rules under Section 6 of TSCA to require removal or encapsulation of asbestos found to be deteriorating or damaged. Specifically, the petition suggests that EPA take actions under Sections 6(a)(3), 6(a)(5), and 6(a)(7) to (1) identify all public schools in which sprayed-asbestos has been used and (2) require manufacturers and processors of sprayed-asbestos to take appropriate corrective action.

All asbestos-sprayed materials in schools would be identified and labelled. School officials and asbestos manufacturers and processors would jointly carry out the investigation. Manufacturers or processors would be

V 4 4 / 1 4 A 1 9 7 9 UMI

required either to (1) encapsulate or (2) remove and replace or repurchase sprayed-asbestos materials, depending upon which remedy provides adequate protection.

The petition requests that rulemaking activities be initiated no later than March 1, 1979, that investigative requirements be made immediately effective upon proposal of a rule, and that corrective action be immediately required where deteriorating asbestos has already been identified. EPA invites comment on the petition from State and local school officials, asbestos manufacturers and processors and all other interested parties.

Dated: January 15, 1979.

STEVEN D. JELLINEK,
Assistant Administrator for Toxic Substances.

FEDERAL MARITIME COMMISSION

[General Order 7, Rev.]

PETITIONS OF RATE-FIXING AGREEMENTS FOR AN EXEMPTION FROM PROVISIONS

Filing of Petition

A petition has been filed by the Household Goods Carriers' Bureau seeking a total exemption from the provisions of Part 528, 46 CFR, *Self-Policing Requirements For Section 15 Agreements* (General Order 7, Revised) for and on behalf of the following rate-fixing agreements; viz:

International Household Goods Rate Agreement, Agreement No. 8470.
U.S. Hawaii/Puerto Rico/Guam Household Goods Rate Agreement, Agreement No. 8480.
U.S. Alaska Household Goods Rate Agreement, Agreement No. 8490.

In particular, a total exemption is being sought from the requirement imposed by General Order 7, Revised that rate-fixing agreements provide for a policing authority and an impartial adjudicator. An exemption under § 528.3(b)(3) of General Order 7 to allow an agreement officer or employee to perform the self-policing functions in lieu of an independent policing authority is a *not* being sought by petitioners.

Interested parties may inspect and obtain a copy of the petition at the Washington Office of the Federal Maritime Commission, 1100 L Street, NW., Room 11101, and at the Field Offices located at New York, N.Y.; New Orleans, Louisiana; San Francisco, California; Chicago, Illinois; and San Juan, Puerto Rico. Comments on the petition may be submitted to the Secretary Federal Maritime Commission, Washington, D.C., 20573, on or before February 8, 1979. Comments should include facts and arguments concerning the requests for an exemption.

Dated: January 16, 1979.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

FEDERAL RESERVE SYSTEM

BANK HOLDING COMPANIES

Proposed De Novo Nonbank Activities

The bank holding companies listed in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843 (c)(8)) and § 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to each application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on an application that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

Each application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated for that application. Comments and requests for hearings should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than February 14, 1979.

A. *Federal Reserve Bank of New York*, 33 Liberty Street, New York, New York 10045:

1. CITICORP, New York, New York (finance and insurance activities; Kansas): to engage, through its subsidiary, Citicorp Person-to-Person Financial Center, Inc., in making consumer installment personal loans; purchasing and servicing consumer installment sales finance contracts; making loans for the account of others, such as 1-4 family unit mortgage loans; making loans secured by real and personal property the proceeds of which may be for other than personal, family, or household purposes; and the sale of life, accident and health, decreasing or level (for single payment loans) term life, and property and casualty insurance (including liability coverage on home and automobile policies where such is the general practice) directly related to extensions of credit by Applicant's subsidiary. These activities would be conducted from an office at 4370 West 109 Street, Overland Park, Kansas, and the geographic area to be served is the Kansas City, Kansas metropolitan area.

2. LINCOLN FIRST BANKS, INC., Rochester, New York (factoring and commercial finance activities; New York): To engage, through its subsidiary, Lincoln First Commercial Corporation, in making or acquiring loans and other extensions of credit such as would be made by a commercial finance or factoring company, including advances to domestic commercial customers secured by assignments of accounts receivable, inventory, equipment, and other collateral; and servicing loans and other extensions of credit for any person. These activities would be performed from an office at 183 East Main Street, Rochester, New York 14604, and the geographic areas to be served are central and western New York, particularly Rochester, Buffalo, and Syracuse, New York.

3. MANUFACTURERS HANOVER CORPORATION, New York, New York (consumer finance and insurance activities; New Jersey): To engage through Applicant's subsidiaries, Ritter Financial Corporation and The Financial Source, Inc., of New Jersey, in arranging, making, or acquiring loans and other extensions of credit secured by second mortgages on residential real property such as would be made by a consumer finance company; servicing such loans and other extensions of credit; and acting as agent or broker for the sale of credit life insurance directly related to such loans or extensions of credit by Applicant's subsidiaries. These proposed services would be provided from offices in Penns Grove, Sicklerville, Berlin, Camden, Cherry Hill, Haddonfield, Moorestown, Lambertville, Willingboro, Bridgeton, Hammonton, Mantua, Pleasantville, and Vineland, New Jersey, and the geographic areas to be served are the counties in which the offices are located and certain adjacent counties in New Jersey.

4. MANUFACTURERS HANOVER CORPORATION, New York, New York (consumer finance and insurance activities; Virginia): To engage through its subsidiaries, the Financial Source, Incorporated of Virginia, and Ritter Life Insurance Company, in arranging, making, or acquiring loans and other extensions of credit such as would be made by a consumer finance company under a revolving loan plan, including loans under a revolving loan agreement secured by mortgages or deeds of trust on real property or security loans and other extensions of credit for any person; acting as agent or broker for the sale of credit life insurance directly related to extensions of credit by Applicant's subsidiaries; and reinsurance of credit life insurance. These activities would be conducted at an office in Lawrenceville, Virginia, and the geographic areas to be served are Brunswick, Mecklenburg, Greensville, Sussex, and Dinwiddie Counties, Virginia.

B. *Federal Reserve Bank of San Francisco*, 400 Sansome Street, San Francisco, California 94120:

1. FIRST NORTHERN BANCORPORATION, Anchorage, Alaska (leasing and financing activities; Alaska, Washington): To engage, through its subsidiary, First Northern Leasing, Inc., in packaging brokering, making and consulting for lease and loan financing for personal, commercial, and industrial property not including real estate. These activities would be conducted from an office at 101 West Benson Boulevard, Anchorage, Alaska 99503, and the geographic areas to be served are Alaska and Washington.

2. WESTERN BANCORPORATION, Los Angeles, California (mortgage banking and insurance activities; national): To engage, through its subsidiary, Western Bancorp Mortgage Company, in making, acquiring, selling, and servicing real estate and construction loans and conducting related activities incidental to the mortgage banking business, and acting as agent or broker with respect to credit life and credit accident and health insurance and mortgage disability and mortgage redemption insurance directly related to extensions of credit or the provision of other financial services by Applicant or its subsidiaries. These activities would be prerformed from an office at 1515 Arapahoe Street, Denver, Colorado 80202, and the geographic areas to be served are Colorado, Montana, New Mexico, Wyoming, Idaho, Utah, Arizona, Nevada, California, Oregon, and Washington (making or acquiring 1-4 family residential loans; insurance) and national (selling and servicing loans; making or acquiring construction loans and loans on income-producing property).

C. *Other Federal Reserve Banks:* None.

Board of Governors of the Federal Reserve System, January 15, 1979.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[FR Doc. 79-1898 Filed 1-18-79; 8:45 am]

[6210-01-M]

CHEVALIER, INC.

Proposed Retention of Credit Life Insurance Activities

Chevalier, Inc., Postville, Iowa, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to retain the activity of serving as agent for the sale of credit life, accident, and health insurance. Notice of the application was published on December 13, 1978, in the *Postville Herald*, a newspaper circulated in Postville, Iowa.

Applicant states that it would engage in the activities of selling as agent credit life, accident, and health insurance directly related to extensions of credit by the Citizens State Bank, Postville, Iowa. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweight possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than February 12, 1979.

Board of Governors of the Federal Reserve System, January 11, 1979.

THEODORE E. ALLISON,
Secretary of the Board.

[6210-01-M]

FIRST NATIONAL BANCSHARES, INC.

Formation of Bank Holding Company

First National Bancshares, Inc., Plainview, Texas, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company by acquiring 80 per cent or more of the voting shares of First National Bank of Plainview, Plainview, Texas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than February 9, 1979. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, January 15, 1979.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[6210-01-M]

SOUTHWEST FLORIDA BANKS, INC.

Acquisition of Bank

Southwest Florida Banks, Inc., Fort Meyers, Florida, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 80 per cent or more of the voting shares of Madeira Beach Bank, Madeira Beach, Florida. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit views in writing to the Reserve Bank to be received not later than February 9, 1979. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. 77N-0166]

ACTION LEVEL FOR MERCURY IN FISH, SHELLFISH, CRUSTACEANS, AND OTHER AQUATIC ANIMALS

Availability of Revised Action Level

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces the availability of an Administrative Guideline that establishes a new action level for mercury in fish and shellfish.

ADDRESSES: Single copies of the action level are available from, and written comments on the guideline may be submitted to, the office of the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT:

Howard N. Pippin, Bureau of Foods (HFF-312), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St., SW., Washington, D.C. 20204, 202-245-3092.

SUPPLEMENTARY INFORMATION: Elsewhere in this issue of the FEDERAL REGISTER, the Commissioner of Food and Drugs withdraws proposed rulemaking and terminates a rulemaking proceeding that would have codified the existing action level that limits to 0.5 part per million (ppm) unavoidable residues of mercury in the edible portion of fish and shellfish. Instead of establishing a formal regulation, FDA will continue to use an administrative action level to regulate such mercury residues.

The Commissioner is therefore announcing the availability of Administrative Guideline No. 7408.09 establishing the action level of 1.0 ppm mercury in fish, shellfish, crustaceans, and other aquatic animals. The rationale for establishing this action level is discussed in the withdrawal and termination document referred to above. The Administrative Guideline establishing the action level is available for public examination in the office of the Hearing Clerk, FDA (address above), and requests for single copies of the guideline may be made in writing to that office.

The Administrative Guideline provides the following instructions to FDA District Offices: "Recommend legal action to Division of Regulatory Guidance where the composite of fish or shellfish analyzed by the procedure outlined in the Twelfth Edition of the Official methods of Analysis of the Association of Official Analytical Chemists 25.103-25.107 shows:

Mercury (Hg)..... 1.0 ppm (edible portion only)

Note.—Recommendations for legal action must clearly indicate the exact portion of the food used for analysis. The portion used for analysis must be prepared by the appropriate procedure outlined in Volume 1 of the Pesticide Analytical Manual, §§ 141.12 and 141.22.

In addition to announcing the 1.0 ppm action level, this notice also informs interested persons of the availability of information the agency relied on in establishing the action level. Supporting documents also are available for public examination in the office of the Hearing Clerk, FDA.

Interested person may submit written comments (preferably four copies, each identified with the Hearing Clerk document number found in brackets in the heading of this document) of the guideline to the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857. Received comments will be incorporated into the public file on the guideline and may be seen in the above-named office between 9 a.m. and 4 p.m., Monday through Friday.

Dated: January 8, 1979.

DONALD KENNEDY,
Commissioner of Food and Drugs.

[Docket No. 78F-0412]

AMERICAN CYANAMID CO.

Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: American Cyanamid Co. has filed a petition (FAP 2167) proposing that the regulations be amended to provide for safe use of acrylamide-acrylic acid resin as a flocculant in nonmedicated aqueous suspensions intended for addition to animal feeds.

FOR FURTHER INFORMATION CONTACT:

Jack C. Taylor, Bureau of Veterinary Medicine (HFV-136), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-443-5247.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a food additive petition (FAP 2167) has been filed by American Cyanamid Co., Wayne, NJ 07470, proposing that § 573.120 *Acrylamide-acrylic acid resin* (21 CFR 573.120) be amended to provide for the safe use of acrylamide-acrylic acid resin as a flocculant in nonmedicated aqueous suspensions intended for addition to animal feeds.

The environmental impact analysis report and other relevant material are being reviewed to determine whether the proposed use of the additive will have a significant environmental impact. In accordance with the provisions of § 25.25(b) (21 CFR 25.25(b)) of the environmental impact regulations, environmental impact consideration of the final action on this petition will be addressed in a future publication.

Dated: January 9, 1979.

LESTER M. CRAWFORD,
Director, Bureau of Veterinary Medicine.

[Docket No. 76N-0249]

BUCLIZINE HYDROCHLORIDE

Final Order on Objections and Request for a Hearing Regarding Approval of Supplemental New Drug Application

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Commissioner of Food and Drugs denies a hearing and refuses to approve the indications for Bucladin-S (NDA 10-911; DESI 9295) which lack substantial evidence of effectiveness. The drug is effective in the management of nausea, vomiting, and dizziness associated with motion sickness.

EFFECTIVE DATE: January 19, 1979.

FOR FURTHER INFORMATION CONTACT:

Ronald Kartzinel, Bureau of Drugs (HFD-120), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857 (310-443-4020).

SUPPLEMENTARY INFORMATION: In a notice (DESI 10911) published in the FEDERAL REGISTER of July 28, 1972 (37 FR 15186), the Food and Drug Administration (FDA) announced its evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group (NAS-NRC) on the combination drug Bucladin Tablets (NDA 10-911, held by Stuart Pharmaceuticals, Division of ICI America, Inc., Wilmington, DE 19897; hereinafter ICI) containing buclizine hydrochloride, pyridoxine hydrochloride, scopolamine hydrobromide, atropine, sulfate, and hyoscyamine sulfate. The announcement stated that FDA intended to initiate proceedings to withdraw approval of the new drug application because there was as a lack of substantial evidence that the fixed combination drug is effective for its claimed uses and that each ingredient in the combination contributes to the total effects claimed. Holders of approved new drug applications and persons who might be adversely affected by removal of the drug from the market were given 30 days to submit data consisting of adequate and well-controlled clinical studies in support of Bucladin's effectiveness.

No data were submitted in response to the notice and a notice of opportunity for hearing was published in the FEDERAL REGISTER of November 15, 1972 (37 FR 24208) proposing to withdraw approval of NDA 10-911 on the grounds that there was a lack of substantial evidence of effectiveness for the combination drug. ICI and manufacturers of identical, similar or related drugs were invited to file hearing requests supported by substantial evidence of effectiveness. On December 6, 1972, ICI filed a hearing request and indicated its intention to reformulate and relabel Bucladin Tablets.

On June 18, 1973, ICI submitted a supplemental new drug application requesting permission to delete all ingredients from the combination product except buclizine hydrochloride; the firm also sought to relabel the reformulated drug as effective for nausea, vomiting and vertigo associated with labyrinthitis, Meniere's syndrome and motion sickness. On August 7, 1974, FDA notified ICI that the supplement was "permitted without approval • • • pending a determination of whether there is substantial evidence of effectiveness of the drug for all of the purposes claimed in the labeling." The conditionally permitted supplement allowed the reformulated product (renamed Bucladin-S) to be labeled as "effective" for management of nausea, vomiting and dizziness associated with motion sickness and as "possibly effective" for management of nausea, vomiting and vertigo which may occur in a variety of conditions including labyrinthitis and Meniere's syndrome. By letter dated August 27, 1974, the firm notified FDA that it was withdrawing its hearing request for Bucladin and on October 11, 1974, a notice was published in the FEDERAL REGISTER (39 FR 36626) withdrawing approval of the new drug application for the combination product.

On March 13, 1975, FDA published a notice (DESI 9295) in the FEDERAL REGISTER (40 FR 11794) amending a March 9, 1971 notice (36 FR 4558) which evaluated two drugs containing buclizine hydrochloride as a single entity. The earlier DESI notice found the drugs effective for the prevention of motion sickness; lacking substantial evidence for a number of specified claims; and possibly effective for all other labeled indications. The March 13, 1975 notice stated the these evaluations were also applicable to ICI's newly-formulated Bucladin-S Tablets and invited interested persons to submit adequate and well-controlled clinical studies to support the possible effective indications.

Because no data were submitted by ICI in response to the DESI amendment, a notice of opportunity for hearing was published in the FEDERAL REGISTER of July 29, 1976 (41 FR 31586). The notice stated that claims which previously had been evaluated as "lacking substantial evidence of effectiveness" and for which no evidence had been submitted were illegal and, if continued, subject to regulatory action. The notice also reclassified the "possibly effective" claims to "lacking substantial evidence of effectiveness" and proposed to issue an order withdrawing approval of the named new drug applications. Manufacturers and other interested parties were advised of the opportunity to request a hearing and to submit substantial evidence to support the effectiveness of the claims.

On August 27, 1976, ICI requested a hearing. No clinical investigations of any kind were submitted in support of the request. Instead, the firm called FDA's attention to clinical information regarding meclizine hydrochloride, a drug which it contended was similar and related to buclizine hydrochloride. ICI also contended that the possibly effective indication (management of nausea, vomiting, and vertigo which may occur in a variety of conditions including labyrinthitis and Meniere's syndrome) was never the subject of a DESI evaluation and that the decision regarding this indication should be held in abeyance pending the issuance of a follow-up DESI notice for meclizine hydrochloride.

The Commissioner has considered the arguments submitted by ICI and has concluded that they are insubstantial and present no genuine issue of material fact requiring a hearing. The arguments are discussed below.

I. THE DRUG

Bucladin-S Tablets each contain 50 milligrams of buclizine hydrochloride.

II. RECOMMENDED USES

Bucladin-S Tablets are presently labeled as follows:

INDICATIONS: Based on a review of this drug by the National Academy of Sciences-National Research Council and/or other information, FDA has classified the indications as follows: Effective: Management of nausea, vomiting and dizziness associated with motion sickness. Possibly Effective: Management of nausea, vomiting and vertigo which may occur in a variety of conditions including labyrinthitis and Meniere's syndrome.

Final Classification of the less than effective indications requires further investigation.

III. DATA SUBMITTED TO SUPPORT CLAIMS OF EFFECTIVENESS

No adequate and well-controlled clinical investigations were submitted to support the firm's claim that Bucladin-S Tablets are effective in the management of nausea, vomiting and vertigo which may occur in labyrinthitis and Meniere's syndrome.

ICI's attempt to support the claim for its product by reference to data relating to meclizine hydrochloride is inadequate for several reasons. First, contrary to the express direction of the hearing regulation, the firm has not submitted the meclizine study, the protocol or underlying raw data. 21 CFR 314.200(d). Nor has ICI submitted a factual analysis of the meclizine data specifying how it accords with the criteria for adequate and well-controlled clincial investigations. 21 CFR 314.200(d)(2). In fact, no information whatever is provided with respect to the design or results of the meclizine study. ICI has not even identified which firm submitted the study, when it was submitted, in which of the thousands of NDAs on file with the agency it may be located, or even whether it has obtained the permission of sponsor of the study to utilize the data generated therefrom. 21 CFR 314.11 and 314.14.

Moreover, although ICI contends that meclizine and buclizine are related or similar within the meaning of 21 CFR 310.6, it has failed to submit any data demonstrating that identical effectiveness conclusions would apply to both drugs. Although buclizine hydrochloride and meclizine hydrochloride are structurally similar, it does not necessarily follow that the are pharmacologically identical. Either form of the drug may be more or less effective than the other for any given indication. Also, even if it were shown that the two drugs have the identical active

JAN 19 79 UMI

V 4 4 / 1 4 J A 1 9 7 9 UMI

metabolite(s), there would undoubtedly be qualitative and quantitative differences in their pharmacokinetics. In short, on clinical data comparing the two drugs could prove that they have identical effects in vertigo, labyrinthitis and Meniere's syndrome. In the absence of any clinical data, no conclusion can be drawn regarding the effectiveness of buclizine hydrochloride for these indications.

IV. Summary

ICI did not submit any adequate and well-controlled clinical studies which demonstrate that Bucladin-S is effective for the management of nausea, vomiting and vertigo which may occur in labyrinthitis and Meniere's syndrome. Nor did it submit any data to support its contention that buclizine hydrochloride is either pharmacologically or pharmacokinetically identical to meclizine hydrochloride.

V. Legal Arguments

The firm's contention that a DESI notice has never been issued for buclizine hydrochloride as indicated for nausea, vomiting and vertigo associated with labyrinthitis and Meniere's syndrome is erroneous. The Federal Register DESI notices of March 9, 1971, and March 13, 1975, and the July 29, 1976 notice of opportunity for hearing evaluated buclizine hydrochloride for all indications for which it was labeled. Except for the indication classified as effective, all other labeled indications, whether or not specifically identified in the notices, were determined either to lack substantial evidence of effectiveness or to be possibly effective. This determination applied to the reformulated product labeled for nausea, vomiting, and vertigo associated with labyrinthitis and Meniere's syndrome.

ICI's "understanding" that the decision regarding the "possibly effective" indication for Bucladin-S was being held in abeyance pending the issuance of a follow-up DESI notice for meclizine hydrochloride is equally erroneous. The March 13, 1975 Federal Register notice specifically amended the March 9, 1971 DESI notice to apply to Bucaldin-S Tablets when recommended for vertigo and the other conditions evaluated as "possibly effective" on March 9, 1971; on that date Bucaldin was indicated for, among other things, Meniere's syndrome and labyrinthitis.

Neither the March 13, 1975 notice nor any other Federal Register notice relating to buclizine hydrochloride has suggested in any way that meclizine hydrochloride was involved in a future decision regarding buclizine hydrochloride.

VI. Findings

On the basis of the foregoing, the Commissioner finds that there is a lack of substantial evidence that Bucladin-S Tablets are effective for the management of nausea, vomiting and vertigo which may occur in a variety of indications including labyrinthitis and Meniere's syndrome. Since ICI has failed to identify any adequate and well-controlled studies or legal reason showing that there is a genuine and substantial issue of fact requiring a hearing, its hearing request is denied.

Therefore under the Federal Food, Drug, and Cosmetic Act (sec. 505(d), 52 Stat. 1052, as amended (21 U.S.C. 355(d)), and under authority delegated to the Commissioner (21 CFR 5.1), approval of the supplemental application for this indication for Bucladin-S (NDA 10-911) is refused.

Dated: January 9, 1979.

Donald Kennedy,
Commissioner of Food and Drugs.

[Docket No. 78N-0311]

DRUGS FOR VETERINARY USE; DRUG EFFICACY STUDY IMPLEMENTATION

Nitrofurazone Topical Preparations

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The agency announces the findings of the National Academy of Sciences/National Research Council (NAS/NRC) Drug Efficacy Study Group for nitrofurazone topical preparations for animal use and concludes that the preparations are effective for certain uses in dogs, cats, and horses but are not to be used in food-producing animals. Sponsors of such products are requested to submit new animal drug applications with labeling for the uses deemed effective.

DATE: Supplements to new animal drug applications by July 30, 1979.

ADDRESS: Applications should be sent to the Bureau of Veterinary Medicine (HFV-112), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT:

Henry C. Hewitt, Bureau of Veterinary Medicine (HFV-112), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3430.

SUPPLEMENTARY INFORMATION:

Background

The Federal Food, Drug, and Cosmetics Act of 1938 (21 U.S.C. 301 et seq.) established that manufacturers of new drugs must submit a new drug application (NDA) to the agency before marketing each new drug. The NDA required information on the drug's composition, labeling, and directions for use, as well as evidence of safety under the recommended conditions of use. The Food and Drug Administration (FDA) reviewed the data and, if they were acceptable, the NDA was approved and the new drug permitted to be marketed.

The Drug Amendments of 1962 (Pub. L. 87-781; 76 Stat. 780-796) required that new drugs must additionally be shown to be effective before the NDA can be approved. In 1966, the agency took steps to review the effectiveness of drugs that had been approved for marketing before 1962. As an aid in reviewing the effectiveness of these drugs, the agency called upon NAS/NRC to determine whether there was appropriate scientific evidence to support the claims being made. This review was known as the Drug Efficacy Study.

To facilitate the review, manufacturers were requested by notices published in the Federal Register of July 9, 1966 (31 FR 9426) and October 6, 1966 (31 FR 13014) to submit a special report containing the best available evidence to support the labeled efficacy claims made for their drug products. The report was to include identification of the drug product, copies of its labeling, a bibliography of publications pertinent to the claims, and any available unpublished data that the manufacturer wished to have considered.

The results of the NAS/NRC review were announced by Drug Efficacy Study Implementation (DESI) notices published in the Federal Register.

The NAS/NRC reviewed a new animal drug application (NADA) for four furacin (nitrofurazone) topical products for animal use (NADA 6-475) sponsored by Norwich Pharmacal, 13-27 Eaton Ave., Norwich, NY 18315. The results have not been published because questions regarding the safety of the drug for use in food-producing animals arose after the NAS/NRC reviews (see the notice of opportunity for hearing published in the Federal Register of August 17, 1976 (41 FR 34899)).

Because of August 17, 1976 notice pertains to the use of nitrofurazone only in food-producing animals, the Commissioner deems it appropriate to

announce the results of the NAS/NRC review for nitrofurazone topical products and permit their use in the treatment of animals that are not food-producing.

NAS/NRC Review for Nitrofurazone Topical, DESI

The NAS/NRC reviewed the following nitrofurazone topical products for animal use sponsored by Norwich Pharmacal under NADA 6-475:

1. Furacin Dressing Veterinary; contains 0.2% nitorfurazone in a water-soluble base:

Indications: For the prevention or treatment of surface bacterial infections of wounds, burns, cutaneous ulcers, eczema, ears and in the treatment of secondary bacterial infections of cow pox.

Administration: Apply directly on the lesion with a spatula or first place on a piece of gauze. Application of a bandage is optional. this preparation should be in contact with the lesion for at least 24 hours. The dressing may be changed several times daily or left on the lesion for a longer period.

2. Furacin Dressing Veterinary with Anesthetic; contains 0.2% nitrofurazone and 0.5% butacaine sulphate in a water-soluble base:

Indication: For the prevention or treatment of surface bacterial infections of wounds, burns, cutaneous ulcers, eczema, ears and in the treatment of secondary bacterial infections of cow pox.

Administration: Apply directly on the lesion with a spatula or first place on a piece of gauze. Application of a bandage is optional. This preparation should be in contact with the lesion for at least 24 hours. The dressing may be changed several times daily or left on the lesion for a longer period.

3. Furacin Soluble Powder Veterinary; contains 0.2% nitrofurazone in a water-soluble base:

Indications: For the prevention or treatment of surface bacterial infections of the eye, including bovine pink eye, and of wounds, burns, skin ulcers and abscesses after incision.

Administration: Apply several times daily to the lesion or affected area from the plastic squeeze bottle.

4. Furacin Solution Veterinary; contains 0.2% nitrofurazone in a water-miscible vehicle:

Indications:

(1) For the prevention or treatment of surface bacterial infections.

(2) For the treatment of bovine mastitis in dry cows caused by *Staphylococcus aureus; Streptococcus agalactiae, dysgalactiae,* or *uberis; Escherichia coli* and *Pseudomonas aeruginosa,* sensitive to Furacin.

(3) For the treatment of genital tract infections and impaired fertility of large female animals caused by strains of *Staphylococcus, Streptococcus, Escherichia coli, Salmonella, Pseudomonas* and *Vibrio fetus,* sensitive to Furacin.

Directions: (1) Surface bactrial infections: In topical bacterial infections, apply directly to the lesion. For wet dressings, it may be diluted with two or three parts of sterile water or saline solution. This may be applied several times daily or left beneath occlusive dressing for several days.

(2) Bovine mastitis—dry cow treatment: Into each quarter with a history of mastitis inject, aseptically, 30 cc, 4 to 6 weeks prior to onset of lactation. Repeat one week later if desired. Warning: Not for use in animals producing milk, since this use will result in contamination of the milk. Colostrum taken from treated animals after calving must not be used for food.

(3) Female Genital Tract Infections: To treat obvious bacterial infections of the female genital tract inject aseptically, 30 to 90 cc into the affected portions of the genital tract once daily until 48 hours after clinical signs subside or until negative bacteriological findings indicate recovery. In cases of impaired fertility inject, aseptically, 30 cc into the uterus 4 to 48 hours after breeding.

The NAS/NRC concluded that these products were "effective" for the prevention and treatment of surface bacterial infections of wounds, burns, and cutaneous ulcers. Additionally, NAS/NRC concluded that Furacin Dressing Veterinary, Furacin Dressing Veterinary with Anesthetic, and Furacin Solution Veterinary were "effective" for the prevention and treatment of surface bacterial infections of ears.

The NAS/NRC recommended the following labeling changes:

1. Delete "eczema" from the label because that term is not specific enough.

2. Provide a stronger statement to indicate a possible sensitizing property of butacaine and perhaps of the drug.

3. Indicate that the products are effective for infections caused by organisms sensitive to this drug.

Effective Classification

The agency has reviewed the NAS/NRC report for nitrofurazone topical products and concurs with its conclusions. However, because of concern for the safety of residues from food-producing animals, the agency concludes that these products must be limited to use in dogs, cats, and horses (i.e., not for food use). The agency also finds that Furacin Soluble Powder is "probably not effective" for use in the eye, based upon the lack of documentation in small animals and the NAS/NRC conclusion that there is little justification for the use of powder preparations in the eye unless it is the only way range cattle can be treated. This evaluation is concerned only with the effectiveness of these drugs. Nothing in this notice prevents further proceedings on questions of safety.

This announcement is published to inform NADA holders regarding the NAS/NRC and agency findings and to inform all interested persons that such articles must be the subject of an approved NADA and otherwise comply with the requirements of the Federal Food, Drug, and Cosmetic Act.

Sponsors with approved NADA's for nitrofurazone topical products are requested to submit supplemental NADA's before July 30, 1979 to revise their labeling by limiting the claims and presenting the conditions of use substantially as follows:

1. 0.2% Nitrofurazone Dressing (Water-soluble Base) Veterinary:

Indications: For the prevention or treatment of surface bacterial infections of wounds, burns, cutaneous ulcers. For use only on dogs, cats, and horses (not for food use).

Administration: Apply directly on the lesion with a spatula or first place on a piece of gauze. Application of a bandage is optional. This preparation should be in contact with the lesion for at least 24 hours. The dressing may be changed several times daily or left on the lesion for a longer period.

2. 0.2% Nitrofurazone Dressing (Water-soluble Base) with 0.5% Butacaine Sulfate Veterinary:

Indications: For the prevention or treatment of surface bacterial infections of ears, wounds, burns and cutaneous ulcers. For use only on dogs, cats, and horses (not for food use).

Administration: Apply directly on the lesion with a spatula or first place on a piece of gauze. Application of a bandage is optional. This preparation should be in contact with the lesion for at least 24 hours. The dressing may be changed several times daily or left on the lesion for a longer period.

3. 0.2% Nitrofurazone Soluble Powder Veterinary:

Indications: For the prevention or treatment of surface bacterial infections of wounds, burns, skin ulcers and abscesses after incision. For use only on dogs, cats, and horses (not for food use).

Administration: Apply several times daily to the lesion or affected area.

4. 0.2% Nitrofurazone Solution Veterinary:

Indications: For use only on dogs, cats, and horses (not for food use).

(1) For the prevention or treatment of surface bacterial infections.

(2) For the treatment of genital tract infections and impaired fertility of female horses caused by strains of *Staphylococcus, Streptococcus, Escherichia coli, Salmonella, Pseudomonas*

V 4 4 - 1 4 J A 1 9 7 9 UMI

and *Vibrio fetus*, sensitive to nitrofurazone.

Directions:

(1) Surface bacterial infections: In topical bacterial infections, apply directly to the lesion. For wet dressings, it may be diluted with two or three parts of sterile water or saline solution. This may be applied several times daily or left beneath occlusive dressing for several days.

(2) Female genital tract infections in horses: To treat obvious bacterial infections of the female genital tract inject aseptically, 30 to 90 cc into the affected portions of the genital tract once daily until 48 hours after clinical signs subside or until negative bacteriological findings indicate recovery. In cases of impaired fertility inject, aseptically, 30 cc into the uterus 4 to 48 hours after breeding.

4. Warning statements: The label for nitorfurazone topical products should also carry the warning statement recommended in § 505.20 (21 CFR 505.20) for Antiseptics for External Use:

Caution—In case of deep or puncture wounds or serious burns consult veterinarian. If redness, irritation, or swelling persists or increases, discontinue use and consult veterinarian.

Additionally, the label for nitorfurazone with butacaine should carry a warning of a possible sensitizing property of butacaine and perhaps the drug.

For such products that are not now the subject of approved NADA's approval of an application must be obtained before marketing. Marketing before approval of an NADA will cause such products, and the persons who caused the products to be marketed, to be subject to regulatory action. Applications providing for the effective conditions of use identified in this notice need not include data required by § 514.111 (21 CFR 514.111) to establish the effectiveness of the drug for these uses but must include certain data, including (1) composition of the drug and a representative batch formula, (2) name of the supplier of the new drug substance, (3) specifications and test methods for the raw materials, (4) method of manufacture for the product, (5) specifications for the finished dosage form, and (6) stability data on the dosage form in the market container and a description of the analytical method used for the stability study. If only limited data are available, a commitment should be made to run postapproval stability studies on production batches. If data indicate a need for an expiration date, a statement of the expiration date must be included.

Additionally, the applicant must certify that it is in compliance with good manufacturing practices and must submit proposed draft labeling. It is recommended that applicants follow the "Guidelines for Submitting NADA's for Generic Drugs Reviewed by NAS/NRC" available from the Hearing Clerk, FDA (address above).

New animal drug applications that comply with the requirements set forth in this notice and that meet all the other requirements of section 512(c) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b(c)) will be approved and a regulation under section 512(i) of the act will be issued in the FEDERAL REGISTER identifying the approval.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 502, 512, 52 Stat. 1050-1051 as amended, 82 Stat. 343-351 (21 U.S.C. 352, 360b)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1).

Dated: January 15, 1979

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Regulatory Affairs.

[NADA NO. 14-929V]

PARKE, DAVIS & CO.

Sernylan (Phencyclidine Hydrochloride) Injectable; Withdrawal of Approval of NADA

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Director of the Bureau of Veterinary Medicine is with drawing approval of a new animal drug application (NADA) which provides for the use of Sernylan (Parke, Davis's phencyclidine hydrochloride injectable) for intramuscular use as an immobilizing agent for primates. This action is taken in response to a request by the sponsor, Parke, Davis & Co.

EFFECTIVE DATE: January 19, 1979.

FOR FURTHER INFORMATION CONTACT:

Louis L. Nangeroni, Bureau of Veterinary Medicine (HFV-216), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-443-4093.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 512(e), 82 Stat. 345-347 (21 U.S.C. 360b(e))) and under authority delegated to the Commissioner (21 CFR 5.1) and redelegated to the Director of the Bureau of Veterinary Medicine (21 CFR 5.84), the following notice is issued.

In a letter dated April 26, 1978, Parke, Davis & Co., Joseph Campau at the River, Detroit, MI 48232, requested that approval of NADA 14-929V be withdrawn because the drug is no longer being marketed. Therfore, in accordance with § 514-115 *Withdrawal of approval of applications* (21 CFR 514.115), notice is given that approval of NADA 14-929V and all supplements thereto is withdrawn, effective January 19, 1979.

Dated: January 3, 1979.

LESTER M. CRAWFORD,
Director, Bureau of Veterinary Medicine.

BOARD OF TEA EXPERTS

Rechartering

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: Under the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776 (5 U.S.C. App.)), the Food and Drug Administration announces the rechartering of the Board of Tea Experts by the Commissioner of Food and Drugs for an additional period of 2 years beyond January 3, 1979. The charter for this Committee will expire January 3, 1981.

FOR FURTHER INFORMATION CONTACT:

Richard L. Schmidt, Committee Management Office (HFA-27), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md 20857, 301-443-2765.

Dated: January 11, 1979.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner, for Regulatory Affairs.

[4110-03-M]

[Docket No. 78P-0001]

DEPUY

Withdrawal of Reclassification Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is publishing a notice of withdrawal of a reclassification petition for a ceramic hip prosthesis. The petitioner requested that the petition be withdrawn due to the difficulty of compiling the necessary data and other considerations.

FOR FURTHER INFORMATION CONTACT:

James G. Dillon, Bureau of Medical Devices (HFK-410), Food and Drug Administration, Department of Health, Education, and Welfare, 8757 Georgia Ave., Silver Spring, MD 20910, 301-427-7238.

SUPPLEMENTARY INFORMATION: On December 2, 1977, DePuy, Warsaw, IN 46580, submitted to FDA under section 513(f) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360c(f)) a reclassification petition for a ceramic hip prosthesis. FDA referred the petition to an advisory committee, the Orthopedic Device Classification Panel, for a recommendation on whether to approve or deny the petition.

In the FEDERAL REGISTER of February 24, 1978 (43 FR 7709), FDA published a notice inviting interested persons to submit data, information, and views for consideration by the Panel. This notice stated that any data, information, and views submitted by March 27, 1978, would be mailed to the Panel for consideration before recommendations were made. The Panel's recommendations were received by the agency on March 27, 1978. The Panel recommended that the device be reclassified into class II (performance standards).

In the FEDERAL REGISTER of June 6, 1978 (43 FR 24601) FDA published a notice of this recommendation. In the June 6 notice, the Commissioner stated that he disagreed with the Panel recommendation and intended to deny the petition unless additional information was submitted to justify reclassification. Interested persons were given 60 days to submit written comments on the notice. At the request of the petitioner, the Commissioner extended the comment period for 60 days in a notice published in the FEDERAL REGISTER of August 11, 1978 (43 FR 35749).

On September 25, 1978, the petitioner requested that the petition be withdrawn because of the difficulty of compiling the necessary data and other considerations based on the company's competitive position. The Commissioner has determined that it is appropriate to allow the petition to be withdrawn. Therefore, the device remains in class III (premarket approval).

Dated: January 11, 1979.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Regulatory Affairs.

Health Resources Administration

GRADUATE TRAINING IN FAMILY MEDICINE

Application Announcement

The Bureau of Health Manpower, Health Resources Administration, announces that applications for fiscal year 1979 Grants for Graduate Training in Family Medicine are now being accepted under the authority of section 786(a) of the Public Health Service Act, as amended by the Health Professions Educational Assistance Act of 1976 (P.L. 94-484).

Section 786(a) authorizes the award of grants to public or nonprofit private hospitals, schools of medicine or osteopathy, and other public or private nonprofit entities located in a State to assist in meeting the cost of planning, developing and operating or participating in approved graduate training programs in the field of family medicine.

To receive support, programs must meet the requirements of the Interim-Final regulations, published in the FEDERAL REGISTER on October 16, 1978 (42 FR 47694).

In the funding of approved applications, preference will be given to projects in which:

(1) Substantial training experience is in settings which exemplify interdependent utilization of physicians and physician assistants and/or nurse practitioners; and/or

(2) substantial portions of a project are conducted in a health manpower shortage area(s) designated under section 332 of the Public Health Service Act, or in an Area Health Education Center, funded, at least in part, under Section 781 of the Act; and/or

(3) (for osteopathic medicine programs) projects are conducted in conjunction with a school of osteopathy with which the training institution is affiliated.

Requests for application materials and questions regarding grants policy should be directed to:

Grants Management Officer (D-15), Bureau of Health Manpower, Health Resources Administration, Center Building, Room 4-27, 3700 East-West Highway, Hyattsville, Maryland 20782. Phone: (301) 436-6564.

To be considered for fiscal year 1979 funding, applications must be received by the Grants Management Officer, Bureau of Health Manpower, Health Resources Administration, at the abover address no later than February 5, 1979. Approximately $3.5 to $4 million is expected to be available in FY 1979 for competitive grants.

Should additional programmatic information be desired, please contact:

Primary Care Education Branch, Division of Medicine, Bureau of Health Manpower, Health Resources Administration, Center Building, Room 4-50, 3700 East-West Highway, Hyattsville, Maryland 20782. Phone: (301) 436-7350.

Competitive cycles for predoctoral and faculty development training under section 786(a) are not being initiated in fiscal year 1979.

Dated: January 9, 1979.

HENRY A. FOLEY,
Administrator.

[4110-83-M]

HEALTH PROFESSIONS CAPITATION GRANTS

Application Announcement

The Bureau of Health Manpower, Health Resources Administration, announces that applications for Health Professions Capitation Grants for fiscal year 1979 are new being accepted under the authority of section 770 of the Public Health Service Act.

Grants are awarded to eligible schools of medicine, dentistry, osteopathy, public health, optometry, podiatry, pharmacy, and veterinary medicine for the support of their educational programs. The amount of each grant is determined by a formula based on the school's enrollment.

To be considered for fiscal year 1979 funding, applications must be postmarked no later than *February 1, 1979.* Application materials have been sent to all known eligible applicants. However, if the materials have not been received, they may be requested from:

Grants Management Officer, Bureau of Health Manpower, Health Resources Administration, Center Building, Room 4-27, 3700 East-West Highway, Hyattsville, Maryland 20782. Phone: (301) 436-6564.

Any questions concerning the program also should be directed to the Grants Management Officer at the above address.

Dated: January 9, 1979.

HENRY A. FOLEY, Ph. D.,
Administrator.

Office of Education

NATIONALLY RECOGNIZED ACCREDITING AGENCIES AND ASSOCIATIONS

List

For purposes of determining eligibility for Federal assistance pursuant to 20 U.S.C. 1141(a) and other legislation, beginning with the Veterans' Readjustment Assistance Act of 1952, the

U.S. Commissioner of Education hereby publishes a list of nationally recognized accrediting agencies and associations which he determines to be reliable authorities as to the quality of training offered by educational institutions either in a geographical area or in a specialized field, and the general scope of recognition granted to the accrediting bodies.

This list supersedes the list previously promulgated by the Acting Commissioner of Education on April 20, 1977, 42 FR 20507-20509.

REGIONAL INSTITUTIONAL ACCREDITING ASSOCIATIONS

New England Association of Schools and Colleges.
Commission on Independent Schools.
Commission of Institutions of Higher Education.
Commission on Public Schools.
Commission on Vocational, Technical, Career Institutions.

REGIONAL INSTITUTIONAL ACCREDITING COMMISSIONS

Accrediting Commission for Community and Junior Colleges, Western Association of Schools and Colleges.
Accrediting Commission for Schools, Western Association of Schools and Colleges.
Accrediting Commission for Senior Colleges and Universities, Western Association of Schools and Colleges.
Commission on Colleges, Northwest Association of Schools and Colleges.
Commission on Colleges, Southern Association of Colleges and Schools.
Commission on Higher Education, Middle States Association of Colleges and Schools.
Commission on Institutions of Higher Education, North Central Association of Colleges and Schools.
Commission on Occupational Education Institutions, Southern Association of Colleges and Schools.
Commission on Schools, North Central Association of Colleges and Schools.

NATIONAL INSTITUTION AND SPECIALIZED ACCREDITING AGENCIES AND ASSOCIATIONS

Architecture: National Architectural Accrediting Board, Inc. (first professional degree programs).
Art: National Association of Schools of Art, Commission on Accreditation and Membership (professional schools and programs).
Bible College Education: American Association of Bible Colleges, Commission on Accrediting (Bible colleges and institutes).
Blind and Visually Handicapped Education: National Accreditation Council for Agencies Serving the Blind and Visually Handicapped (specialized schools for the blind and visually handicapped).
Blood Bank Technology: American Medical Association, Committee on Allied Health Education and Accreditation, in cooperation with the Subcommittee on Accreditation, American Association of Blood Banks (programs for the specialist in blood bank technology).
Business:
American Assembly of Collegiate Schools of Business, Accreditation Council (baccalaurate and graduate degree programs in business and administration).
Association of Independent Colleges and Schools, Accrediting Commission (private, postsecondary degree and non-degree granting institutions that are predominantly organized to train students for business careers).
Chiropractic: Council on Chiropractic Education, Commission on Accreditation (programs leading to the D.C. degree).
Clinical Pastoral Education: Association of Clinical Pastoral Education, Inc. (professional training centers).
Continuing Education: Council for Non-Collegiate Continuing Education, Accrediting Commission (programs in non-collegiate continuing education).
Cosmetology: Cosmetology Accrediting Commission (cosmetology schools and programs).
Cytotechnology: American Medical Association, Committee on Allied Health Education and Accreditation, in cooperation with the Cytotechnology Programs Review Committee, American Society of Cytology (programs for the cytotechnologist).
Dental and Dental Auxiliary Education: American Dental Association, Commission on Accreditation of Dental and Dental Auxiliary Programs (programs leading to the D.D.S. or D.M.D. degrees, advanced dental specialty programs, general practice residency programs and programs in dental hygiene, dental assisting and dental technology).
Dietetics: American Dietetic Association, Commission on Evaluation of Dietetic Education (coordinated undergraduate programs in dietetics and dietetic internships).
Engineering: Engineers' Council for Professional Development (first professional degree programs in engineering, graduate programs leading to advanced entry into the engineering profession and associate and baccalaureate degree programs in engineering technology).
Forestry: Society of American Foresters (program leading to a bachelor's or higher first professional degree and related resource-oriented programs).
Funeral Service Education: American Board of Funeral Service Education, Commission of Schools (independent schools and collegiate departments).
Health Services Administration: Accrediting Commission on Education for Health Services Administration (graduate programs in health services administration).
Histologic Technology: American Medical Association, Committee on Allied Health Education and Accreditation, in cooperation with the National Accrediting Agency for Clinical Laboratory Sciences, which is sponsored by the American Society for Medical Technology and the American Society of Clinical Pathologists (programs for the histologic technician).
Home Study Education: National Home Study Council, Accrediting Commission (home study schools).
Interior Design Education: Foundation for Interior Design Education Research, Committee on Accreditation (professional and technical programs).
Journalism: American Council on Education for Journalism, Accrediting committee (first professional degree programs).
Landscape Architecture: American Society of Landscape Architects, Landscape Architectural Accreditation Board (first professional degree programs)
Law: American Bar Association, Council of the Section of Legal Education and Admissions to the Bar (professional schools).
Librarianship: American Library Association, Committee on Accreditation (graduate programs leading to the first professional degree).
Marriage and Family Counseling: American Association of Marriage and Family Counselors, Committee on Accreditation (graduate degree programs and clinical training programs).
Medical Assistant Education:
Accrediting Bureau of Health Education Schools (private medical assistant educational institutions and programs).
American Medical Association, Committee on Allied Health Education and Accreditation, in cooperation with the Curriculum Review Board, American Association of Medical Assistants (one- and two-year medical assistant programs).
Medical Laboratory Technician Education:
Accrediting Bureau of Health Education Schools (schools and programs for the medical laboratory technician).
American Medical Association, Committee on Allied Health Education and Accreditation, in cooperation with the National Accrediting Agency for Clinical Laboratory Sciences, which is sponsored by the American Society for Medical Technology and the American Society of Clinical Pathologists (associate degree and certificate programs for the medical laboratory technician).
Medical Record Education: American Medical Association, Committee on Allied Health Education and Accreditation, in cooperation with the Education and Registration Committee, American Medical Record Association (programs for the medical record administrator and medical record technician).
Medical Technology: American Medical Association, Committee on Allied Health Education and Accreditation, in cooperation with the National Accrediting Agency for Clinical Laboratory Sciences, which is sponsored by the American Society for Medical Technology and the American Society of Clinical Pathologists (professional programs).
Medicine: Liaison Committee on Medical Education, representing the Council on Medical Education, American Medical Association and the Executive Council, Association of American Medical Colleges (programs leading to the M.D. degree).
Music: National Association of Schools of Music (baccalaureate and graduate degree programs and non-degree granting institutions offering music education).
Nuclear Medicine Technology: American Medical Association, Committee on Allied Health Education and Accreditation, in cooperation with the Joint Review Committee on Educational Programs in Nuclear Medicine Technology, which is sponsored by the American College of Radiology, American Society for Medical Technology, American Society of Clinical Pathologists, American Society of Radiologic Technologists and the Society of Nuclear Medicine (programs for the nuclear medicine technologist).
Nursing:
American Association of Nurse Anesthetists, Council on Accreditation of Educational Programs of Nurse Anesthesia (programs for nurse anesthetists).

National Association for Practical Nurse Education and Service, Inc., Accrediting Review Board (pratical nurse programs).
National League for Nursing, Inc., Board of Review for Associate Degree Programs, Board of Review for Baccalaureate and Higher Degree Programs, Board of Review for Diploma Programs, Board of Review for Practical Nursing Programs (professional, technical and practical nurse programs).
Occupational Therapy: American Medical Association, Committee on Allied Health Education and Accreditation, in cooperation with the Accreditation Committee, American Occupational Therapy Association (professional programs).
Occupational, Trade and Technical Education: National Association of Trade and Technical Schools, Accrediting Commission (private trade and technical schools).
Optometry: American Optometric Association, Council on Optometric Education (professional programs).
Osteopathic Medicine: American Osteopathic Association (programs leading to the D.O. degree).
Pharmacy: American Council on Pharmaceutical Education (professional degree programs).
Physical Therapy:
American Medical Association, Committee on Allied Health Education and Accreditation, in cooperation with the Review Committee for Physical Therapy Education, which is sponsored by the American Medical Association (professional programs for the physical therapist).
American Physical Therapy Association, Committee on Accreditation in Education (professional programs for the physical therapist and programs for the physical therapist assistant).
Physician's Assistant Education: American Medical Association, Committee on Allied Health Education and Accreditation, in cooperation with the Joint Review Committee on Educational Programs for Physician's Assistants, which is sponsored by the American Academy of Family Physicians, American Academy of Pediatrics, American Academy of Physician's Assistants, American College of Physicians, American College of Surgeons, American Society of Internal Medicine and the Association for Physician Assistant Programs (programs for the assistant to the primary care physician and the surgeon's assistant).
Podiatry: American Podiatry Association, Council on Podiatry Education (professional and graduate degree programs and podiatric assistant training programs).
Psychology: American Psychological Association, Committee on Accreditation (doctoral and internship programs in clinical and counseling psychology and doctoral programs in school psychology).
Public Health: Council on Education for Public Health (graduate schools of public health).
Rabbinical and Talmudic Education: Association of Advanced Rabbinical and Talmudic Schools, Accreditation Commission (rabbinical and Talmudic Schools).
Radiologic Technology: American Medical Association, Committee on Allied Health Education Accreditation, in cooperation with the Joint Review Committee on Education in Radiologic Technology, which is sponsored by the American College of Radiology and the American Society of Radiologic Technologists (programs for the radiographer and radiation therapy technologist).
Respiratory Therapy: American Medical Association, Committee on Allied Health Education and Accreditation, in cooperation with the Joint Review Committee for Respiratory Terapy Education which is sponsored by the American Association for Respiratory Therapy, American College of Chest Physicians, American Society of Anesthesiologists and the American Thoracic Society (programs for the respiratory therapist and respiratory therapy technician).
Social Work: Council on Social Work Education, Commission on Accreditation (master's and baccalaureate degree programs).
Speech Pathlogy and Audiology: American Speech and Hearing Association, American Boards of Examiners in Speech Pathology and Audiology (master's degree programs).
Surgical Technology: American Medical Association, Committee on Allied Health Education and Accreditation, in cooperation with the Joint Review Committee on Education for the Surgical Technologist, which is sponsored by the American College of Surgeons, American Hospital Association and the Association of Surgical Technologists (programs for the surgical technologist).
Teacher Education: National Council for Accreditation of Teacher Education (baccalaureate and graduate degree programs).
Theology: Association of Theological Schools in the United States and Canada, Commission on Accrediting (graduate professional degree programs offered by schools of theology).
Veterinary Medicine:
American Veterinary Medical Association, Committee on Animal Technician Activities and Training (associate degree programs for animal technicians).
American Veterinary Medical Association, Council on Education (programs leading to the D.V.M. or V.M.D. degree).
Other: New York State Board of Regents (registration [Accreditation] of collegiate degree-granting programs or curricula offered by institutions of higher education).

STATE AGENCIES RECOGNIZED FOR THE APPROVAL OF PUBLIC POSTSECONDARY VOCATIONAL EDUCATION

LIST

For purposes of determining eligibility for Federal Assistance, pursuant to 20 U.S.C. 1087-1(b), the U.S. Commissioner of Education hereby publishes a list of State agencies which he determines to be reliable authorities as to the quality of public postsecondary vocational education in their respective States.

This list supersedes the list previously promulgated by the Commissioner of Education on April 20, 1977, 42 FR 20509.

Arkansas State Board for Vocational Education.
Iowa State Board of Public Instruction.
Kansas State Board of Education.
Minnesota State Board for Vocational-Technical Education.
Missouri State Board of Education.
New Jersey State Board of Education.
New York State Board of Regents.
Oklahoma State Board of Vocational and Technical Education (for approval of postsecondary vocational education programs and courses offered at area vocational technical schools which are not offered for college credit).
Oklahoma State Regents for Higher Education (for approval of vocational education programs for which credit earned is applied toward a degree, diploma, or other postsecondary academic or collegiate award, or which are given at State Institutions comprising the Oklahoma State System of Higher Education).
Utah State Board of Vocational Education.

AGENCIES WITHDRAWN FROM LIST

Indiana State Board of Vocational and Technical Education (by request).
Kentucky State Board of Education (by request).

Dated: January 8, 1979.

JOHN ELLIS,
Acting U.S. Commissioner of Education.

ACCREDITING AND STATE APPROVAL AGENCIES RECOGNIZED FOR THE APPROVAL OF NURSE EDUCATION

LIST

For the purposes of determining eligibility for Federal assistance, pursuant to the Nurse Training Act, as amended (42 U.S.C. 298(b)), the U.S. Commissioner of Education hereby publishes a list of recognized accrediting and State approval agencies which he determines to be reliable authorities as to the quality of training offered by schools and programs for diploma, associate degrees and baccalaurate and graduate degrees in nursing.

This list supersedes the list previously promulgated by the Commissioner of Education on April 20, 1977, 42 FR 20509-20510.

REGIONAL INSTITUTIONAL ACCREDITING COMMISSIONS

Accrediting Commission for Community and Junior Colleges, Western Association of Schools and Colleges.
Accrediting Commission for Senior Colleges and Universities, Western Association of Schools and Colleges.
Commission on Colleges, Northwest Association of Schools and Colleges.
Commission on Colleges, Southern Association of Colleges and Schools.
Commission on Higher Education, Middle States Association of Colleges and Schools.
Commission on Institutions of Higher Education, New England Association of Schools and Colleges.
Commission on Institutions of Higher Education, North Central Association of Colleges and Schools.

NATIONAL INSTITUTIONAL AND SPECIALIZED ACCREDITING AGENCIES AND ASSOCIATIONS

National League for Nursing, Inc.
Board of Review for Associate Degree Programs.
Board of Review for Baccalaureate and Higher Degree Programs.
Board of Review for Diploma Programs.

STATE AGENCIES

California Board of Registered Nursing.
Iowa Board of Nursing.
Louisiana State Board of Nursing.
Missouri State Board of Nursing.
Montana State Board of Nursing.
New Hampshire Board of Nursing Education and Nurse Registration.
New York State Board of Regents (Nursing Education Unit).
West Virginia Board of Examiners for Registered Nurses.

Dated: January 8, 1979.

JOHN ELLIS,
Acting U.S. Commissioner of Education.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[Docket No.NFD-6587; FDAA-570-DR]

ARIZONA

Amendment to Notice of Major Disaster Declaration

AGENCY: Federal Disaster Assistance Administration.

ACTION: Notice.

SUMMARY: This Notice amends the Notice of major disaster declaration for the state of Arizona (FDAA-570-DR), dated December 21, 1978.

DATED: December 26, 1978.

FOR FURTHER INFORMATION CONTACT:

A. C. Reid, Program Support Staff, Federal Disaster Assistance Administration, Department of Housing and Urban Development, Washington, D.C. 20410 (202/634-7825).

NOTICE: The Notice of major disaster for the State of Arizona dated December 21, 1978, is hereby amended to include the following areas among those areas determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of December 21, 1978.

The Counties of: Coconino, Pinal, and Yuvapai.

(Catalog of Federal Domestic Assistance No. 14,701, Disaster Assistance)

DEPARTMENT OF THE INTERIOR

Office of Surface Mining

[Federal Lease No. W-3446]

ATLANTIC RICHFIELD CO., COAL CREEK MINE, CAMPBELL COUNTY, WYO.

Availability of Coal Mining and Reclamation Plan for Public Review

AGENCY: Office of Surface Mining Reclamation and Enforcement.

ACTION: Availability of Coal Mining and Reclamation Plan for Public Review.

SUMMARY: Pursuant to § 211.5 of Title 30, Code of Federal Regulations, notice is hereby given that the Office of Surface Mining, Region V, has received sufficient additional information from the applicant to form a coal mining and reclamation plan for a new mine appropriate for public review. The plan, described below, involves extraction of federally-, privately-, and state-owned coal.

Applicant	Mine name	Location of lands to be affected		
		State	County	Township, range, and sections
Atlantic Richfield Co.	Coal Creek	Wyoming	Campbell	T. 46 N. R. 70 W: 4, 7, 8, 9, 15, 16, 17, 18, 19, 20, 21, 22, 27, 28, 29, 30, 31, 32, 33, 34. T. 46 N. R. 71 W: 13, 24. T. 45 N. R. 70 W: 3, 4, 5.

Office of Surface Mining Reference Number: WY-0003.—The mining and reclamation plan provides baseline environmental data, describes the mining and environmental protection procedures proposed by the operator to meet State and Federal requirements, and discusses the reclamation procedures proposed. The plan proposes a production rate of ten million tons per year, to be shipped by rail. The total area included in the permit application is 9,545 acres of which approximately 8,310 acres will be affected. A Draft Environmental Impact Statement for this mine was transmitted to the Environmental Protection Agency on August 24, 1978. A final Statement is in preparation.

The mining and reclamation plan submitted by ARCo for the Coal Creek Mine in available for public review in the Library, Office of Surface Mining, Region V, Room 207, Post Office Building, 1823 Stout Street, Denver, Colorado. This Notice is issued at this time for the convenience of the public. The Office of Surface Mining has not yet determined whether the plan is technically adequate. Therefore, OSM may request additional information during the technical review. Any information so obtained will also be available for public review.

No action with respect to approval of the plan shall be taken by the Regional Director until February 20, 1979, or until the appropriate comment period after submission of the Final Environmental Impact Statement to EPA has expired, whichever comes later.

Prior to a final decision on this plan, the Office of Surface Mining will issue a Notice of Pending Decision pursuant to Section 211.5(c)(2) of Title 30, Code of Federal Regulations.

FOR ADDITIONAL INFORMATION:

John Hardaway, Office of Surface Mining, Region V, 1823 Stout Street, Denver, Colorado 80202.

WALTER N. HEINE, P.E.,
Director, Office of Surface Mining, Reclamation and Enforcement.

JANUARY 15, 1979.

[FR Doc. 79-2008 Filed 1-18-79; 8:45 am]

[4310-05-M]

PEABODY COAL CO., BIG SKY MINE, ROSEBUD COUNTY, MONT.

Availability of Mine Plan

AGENCY: Office of Surface Mining Reclamation and Enforcement.

ACTION: Major Modification of Existing Coal Mining and Reclamation Plan.

SUMMARY: Pursuant to § 211.5(b) of Title 30, CFR, Notice is hereby given that the Office of Surface Mining has received the following mine plan for a coal mining and reclamation operation on Federal coal lands:

LOCATION OF LANDS

Applicant: Peabody Coal Company.
Mine Property Name: Big Sky Mine.
State: Montana.
County: Rosebud.
OSM Reference Number: MT-0007-3.
General Description of Affected Lands: 29 Acres in E½ of Section 22, T1N, R41E of the Montana Principal Meridan.

This application is available for public review in the library of Region V Offices of the Office of Surface Mining, Room 270, Post Office Building, 1823 Stout Street, Denver, Colorado.

This Notice is issued at this time for the convenience of the public. The OSM has not yet determined whether the plan is adequate and may, during the course of its reviews, request additional information. Any additional information so obtained will also be available for public review. Prior to final decision on this mine plan, the Office of Surface Mining will issue a Notice of Pending Decision pursuant to § 211.5(c)(2) of Title 30, Code of Federal Regulations. Copies of the mining plan are also being sent to the offices of the Bureau of Land Management and the Geological Survey in Billings, Montana.

DATES: Comments on or objections to the plan should be received by the Region V Office no later than February 20, 1979.

ADDRESSES: Comments should be sent to the Regional Director, Office of Surface Mining and Reclamation and Enforcement, Region V, 1823 Stout Street, Denver, Colorado 80202.

WALTER N. HEINE,
Director, Office of Surface Mining, Reclamation and Enforcement.

JANUARY 15, 1979.

[Federal Lease No. U-28297]

SOUTHERN UTAH FUEL CO., CONVULSION CANYON MINE, SEVIER COUNTY, UTAH

Availability of Coal Mining and Reclamation Plan for Public Review

AGENCY: Office of Surface Mining Reclamation and Enforcement.

ACTION: Availability of Coal Mining and Reclamation Plan for Public Review.

SUMMARY: Pursuant to § 211.5 of Title 30, Code of Federal Regulations, notice is hereby given that the Office of Surface Mining, Region V, has received sufficient additional information from the applicant to form a coal mining and reclamation plan for a new mine appropriate for public review. The plan, described below, involves extraction of federally owned coal.

Applicant	Mine name	Location of lands to be affected		
		State	County	Township, range, and sections
Southern Utah Fuel Company.	Convulsion Canyon Mine	Utah	Sevier	T. 22 S., R. 5 E. Sections: 4, 5, 7, 17 & 18. T. 21 S, R 5 E, Sections 32 & 33.

Office of Surface Mining Reference Number: UT-0026.—The mining and reclamation plan provides baseline environmental data, describes the mining and environmental protection procedures proposed by the operator to meet State and Federal requirements, and discusses the reclamation procedures proposed. The plan proposes a upper production rate of 2.1 million tons per year, to be shipped by truck and rail. The total area included in the permit application is 2632 acres. A Draft Environmental Impact Statement for Development of Coal Resources in Central Utah, within which this operation is located, but not addressed specifically, was transmitted to the Environmental Protection Agency on October 20, 1978. A final Statement is in preparation.

The mining and reclamation plan submitted by SUFCO for the Convulsion Canyon Mine is available for public review in the Library, Office of Surface Mining, Region V, Room 207, Post Office Building, 1823 Stout Street, Denver, Colorado.

This Notice is issued at this time for the convenience of the public. No action with respect to approval of the plan shall be taken by the Regional Director until February 20, 1979. The Office of Surface Mining has not yet determined whether the plan is technically adequate. Therefore, OSM may request additional information during its review. Any additional information so obtained will also be available for public review. Prior to a final decision on this plan, the Office of Surface Mining will issue a Notice of Pending Decision pursuant to § 211.5(c)(2) of Title 30, Code of Federal Regulations.

WALTER N. HEINE,
Director, Office of Surface Mining, Reclamation and Enforcement.

DEPARTMENT OF JUSTICE

National Institute of Corrections

ADVISORY BOARD

Public Hearings

The Advisory Board of the National Institute of Corrections (NIC) will hold four public hearings, during which selected practitioners and others involved in corrections will identify the priorities to which the agency's funding resources could be directed. Testimony will guide the Institute's program planning for Fiscal Year 1980.

Thirty-two people are expected to testify at each hearing. Statements will focus on the needs of corrections that can be addressed through NIC's legislatively mandated activities of training, technical assistance, research/evaluation, policy formulation/implementation, and clearinghouse. At the conclusion of each day's formal proceedings, time may be available for statements by members of the audience.

The hearings will be conducted from 8:30 a.m. to 5:00 p.m. each day, as follows:

JANUARY 29 AND 30, 1979

Museum of Modern Art, War Memorial Building, Corners of Van Ness and Macalaster Sts., San Francisco, CA, Board Room.

FEBRUARY 5 AND 6, 1979

Atlanta Regional Commission, 230 Peachtree St., N.W., Atlanta GA, Board Room.

FEBRUARY 12 AND 13, 1979

U.S. Department of Justice, Main Building, 10th and Pennsylvania Ave., N.W., Washington, D.C., Conference Rooms A and B.

FEBRUARY 15 AND 16, 1979

Houston City Council Chambers, City Hall, 901 Bagby, Houston, Texas.

FOR FURTHER INFORMATION CONTACT:

Nancy Sabanosh, National Institute of Corrections, 320 First Street, N.W., Room 970, Washington, D.C. 20534.

ROBERT L. SMITH,
Assistant Director, National Institute of Corrections.

DEPARTMENT OF LABOR

Bureau of Labor Statistics

BUSINESS RESEARCH ADVISORY COUNCIL'S COMMITTEE ON FOREIGN LABOR AND TRADE

Meeting

The BRAC Committee on Foreign Labor and Trade will meet on Wednesday, January 31, 1979, at 1:30 p.m. in Room 4454 of the General Accounting Office Building, 441 G Street NW., Washington, D.C. The agenda for the meeting is as follows:

1. Development of international comparisons of hourly compensation.
2. International comparisons of unemployment rates.
3. Implications of the recommendations of the National Academy of Sciences' Panel to review productivity statistics for the international comparisons program.

This meeting is open to the public. It is suggested that persons planning to attend this meeting as observers contact Kenneth G. Van Auken, Executive Secretary, Business Research Advisory Council on Area Code (202) 523-1559.

Signed at Washington, D.C., this 12th day of January 1979.

JANET L. NORWOOD,
Acting Commission of Labor Statistics.

[4510-24-M]

BUSINESS RESEARCH ADVISORY COUNCIL'S COMMITTEE ON PRODUCTIVITY AND TECHNOLOGICAL DEVELOPMENTS

Meeting

The BRAC Committee on Productivity and Technological Development will meet on Wednesday, January 31, 1979, at 9:30 a.m. in Room N-4437 (A,B,&C) of the New Department of Labor Building, 200 Constitution Avenue NW., Washington, D.C. The agenda for the meeting is as follows:

1. The implications for the BLS Productivity Program of the recommendations of the National Academy of Sciences' Panel to review productivity statistics (Al Rees, Chairman).
2. The role of capital formation in the productivity slowdown.
3. Measures of unit labor cost for selected industries.

This meeting is open to the public. It is suggested that persons planning to attend this meeting as observers contact Kenneth C. Van Auken, Executive Secretary, Business Research Advisory Council on Area Code 202-523-1559.

Signed at Washington, D.C., this 12th day of January.

JANET L. NORWOOD,
Acting Commissioner of Labor Statistics.

Employment and Training Administration

EMPLOYMENT TRANSFER AND BUSINESS COMPETITION DETERMINATIONS UNDER THE RURAL DEVELOPMENT ACT

Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed for the purposes given in the attached list. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 USC 1924(b), 1932 or 1942(b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75. In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.
2. Employment trends in the same industry in the local area.
3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.
4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).
5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertinent to the determinations which must be made regarding these applications are invited to submit such information in writing within two weeks of publication of this notice. Comments received after the two-week period may not be considered. Send comments to: Administrator, Employment and Training Administration, 601 D Street, N.W., Washington, D.C. 20213.

Signed at Washington, D.C. this 16th day of January 1979.

ERNEST G. GREEN,
Assistant Secretary for Employment and Training.

APPLICATIONS RECEIVED DURING THE WEEK ENDING JANUARY 11, 1979

Name of applicant and location of enterprise and principal product or activity

Outers Laboratories, Inc., La Crosse County, Wisconsin, Manufacture of sporting goods, farming operations and custom job shop work.
Gran Parque del Caribe, Inc., Municipalities of Dorado and Toa Alta, Puerto Rico, Zoo, theme park and amusement park.
Southland Mower Company, Selma, Alabama, Manufacture of rotary lawn mowers and grey iron castings.
Eastern Milk Producers Cooperative Association, Inc., Waverly, New York, Manufacture of cheese.

[4510-43-M]

Mine Safety and Health Administration

[Docket No. M-79-1-M]

CLIMAX MOLYBDENUM CO.

Petition for Modification of Application of Mandatory Safety Standard

Climax Molybdenum Co., 13949 West Colfax Avenue, Golden, Colorado 80401, has filed a petition to modify the application of 30 CFR 57.9-22 (berms) to its Climax Mill in Climax, Colorado. The petition if filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977, Pub. L. 95-164.

The substance of the petition follows:

(1) The petition concerns a roadway extending behind the petitioner's No. 3 and 4 mill building and regrind plant.

(2) The roadway is approximately 330 feet long and varies in width from 22 feet to 45 feet.

(3) The roadway is used infrequently by vehicles.

(4) The petitioner states that the installation of berms or guards on the outer bank of the roadway would create the following hazards:

(a) The roadway would become so narrow that safe passage could not be guaranteed for the movement of vehicular and pedestrian traffic.

(b) Approximately 258 inches of snow fall annually in the area. Berms or guards would prevent effective and efficient removal of snow and ice.

(c) Inability to engage in proper snow removal would also create a drainage problem because water would run off directly into the No. 3 and 4 mill and the regrind plant. In addition to cleanup and slippage hazards, water would enter the electrical substations in the mill, creating a potential for electrical accidents.

(d) This inability to remove snow and ice would also result in material being deposited onto the railroad track, which is situated below the roadway.

(e) Installation of a berm along the roadway would reduce visibility of the train traffic located on a lower level and increase the potential for an accident involving vehicular traffic on the road and rail traffic.

(5) As an alternative to the installation of berms or guards, the petitioner proposes the following:

(a) Warning signs consisting of 15 foot lengths of pipe covered with flourescent paint will be installed at regular intervals along the outer edge of the roadway so that men and equipment do not proceed over that edge.

(b) Traffic flow control signs as outlined in the petition will be installed at appropriate locations along the roadway.

(c) A "helper" will be present any time vehicles larger than a pickup truck (with the exclusion of snow removal equipment) travel along the roadway, to prevent accidental maneuvering over the outer edge of the roadway.

(d) The petitioner's vehicles which use the roadway will be inspected every 100 hours of operation. This in-

spection will include such items as defrosters, windshield wipers, back-up alarms, brakes, steering and other items whose proper maintenance help prevent the occurrence of accidents along the roadway.

(6) The petitioner states that this alternative will achieve no less protection than that provided by the standard.

REQUEST FOR COMMENTS

Persons interested in this petition may furnish written comments on or before February 20, 1979. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203.

Copies of the petition are available for inspection at that address.

Dated: January 10, 1979.

ROBERT B. LAGATHER,
Assistant Secretary for Mine Safety and Health.

[4510-43-M]

[Docket No. M-78-61-C]

EASTERN ASSOCIATED COAL CORP.

Final Action Granting a Petition for Modification of Application of Mandatory Safety Standard

The Mine Safety and Health Administration (MSHA) has granted in part the petition (43 FR 19928) of Eastern Associated Coal Corp. to modify the application of 30 CFR 75.1105 to its Harris No. 2 Mine located in Boone County, W. Va., in accordance with Section 101(c) of the Federal Mine Safety and Health Act of 1977, Pub. L. 95-164. MSHA has determined that an alternative method exists that will guarantee at all times no less than the same measure of protection given miners of the mine by the standard.

MSHA based its determination on the following findings:

1. The ten horsepower Gorman Rupp water pump listed in the petition is essential to prevent water from accumulating over the rails of No. 3 Pass sidetrack, off the north mains trolley haulageway.

2. The No. 3 pass sidetrack, 450 feet in length, is primarily used for parking mine supply cars and/or switching other track equipment. The water pump housed in a stacked masonary block enclosure was located approximately 650 feet from the 4 right main fan return airways with an automatic fire suppression system activated automatically by a rise in temperature.

Because of these findings, the Administrator for Coal Mine Safety and Health, under authority delegated by the Secretary of Labor, ordered that the petition be granted, conditioned on the terms of the petition and MSHA's findings.

A copy of the decision is available for inspection by the public at the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Va, 22203.

Dated: January 9, 1979.

ROBERT B. LAGATHER,
Assistant Secretary for Mine Safety and Health.

[Docket No. M-77-205]

ELRO COAL CORP.

Final Action Granting a Petition for Modification of Application of Mandatory Safety Standard

The Mine Safety and Health Administration (MSHA) has granted in part the petition (42 FR 37455) of Elro Coal Corp. to modify the application of 30 CFR 75.1710 to its No. 2 Mine located in Wise County, Virginia, in accordance with Section 101(c) of the Federal Mine Safety and Health Act of 1977, Pub. L. 95-164. MSHA has determined that the application of the standard to the mine will result in a diminution of safety to the miners of the mine.

MSHA based its determination on the following findings:

1. The minimum height from the mine floor to the bottom of the roof supports is 44 inches.

2. Joy Continuous Mining Machine (Model 14CM1-11A) height (mine floor to top of machine) is 31 inches.

3. Galis Roof Bolting Machine (Model 300) frame height is 24 inches.

4. Galis Shuttle Cars (Model 6L-56) have frame heights of 33 inches with a 6½ inch side-board added.

5. S and S Scoop Tractor (Model 488) frame height is 34 inches.

Because of these findings, the Administrator for Coal Mine Safety and Health, under authority delegated by the Secretary of Labor, ordered that the petition be denied as it relates to the Joy continuous mining machine and the Galis roof bolting machine, and granted as it relates to the Galis shuttle cars and the S and S scoop tractor.

A copy of the decision is available for inspection by the public at the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203.

Dated: January 9, 1979.

ROBERT B. LAGATHER,
Assistant Secretary for Mine Safety and Health.

[4510-43-M]

[Docket No. M-78-12]

IMPERIAL COLLIERY CO.

Final Action Granting a Petition for Modification of Application of Mandatory Safety Standard

The Mine Safety and Health Administration (MSHA) has granted in part the petition (42 FR 60231) of Imperial Colliery Co. to modify the application of 30 CFR 75.305 to its No. 11 Mine located in Kanawha County, W.Va., in accordance with Section 101(c) of the Federal Mine Safety and Health Act of 1977, Pub. L. 95-164. MSHA has determined that an alternative method exists that will guarantee at all times no less than the same measure of protection given miners of the mine by the standard.

MSHA based its determination on the following findings:

1. An attempt to travel the airway in question by MSHA's investigator resulted in reaching a point approximately 300 feet into the 1 left section return, 200 feet into the No. 11 mains inby the empty track, and 300 feet inby the No. 1 Fan. The condition of the entries is very poor. The entries were developed in the 1940's and 1950's and no roof bolts were installed. The wooden roof support has deteriorated. The floor is badly hooved and hazardous roof conditions are present. The MSHA investigator agreed that examination of the return airway would result in a diminution of safety.

2. The projected life of the mine, according to management, is approximately 2 years. To rehabilitate the return airway from the 1 left barriers section to the No. 1 Fan would not be economically feasible and would not add any degree of safety for the workmen. The No. 2 Fan, as mentioned in the alternate method section of the petitioner's request, has been installed and is operating. More than adequate air quantity to supply the one working unit was available at the time of the investigation. The abandoned areas of the mine appear to be well ventilated and records do not indicate any ventilation problems.

3. The "alternate method" set forth in the petitioner's request of installing the No. 2 Fan, examining the air quantities and velocities in the working section and at the No. 1 Fan has been instituted and is being carried out.

4. It was the opinion of the investigator that if the following recommendations were included with the tests set forth by the petitioner that the results would serve the purpose intended by the examination requirement:

a. Air quantity measuring stations should be established in the isolated intake airway outby the 1 left barriers section and in the track intake airway. Air measurements should be taken on a daily basis by a certified person and the results of these measurements be recorded in a book approved by the Secretary and made available to all interested persons.

b. If the measurements indicate that an unplanned change in air quantity of more than 25 percent exists, an immediate examination of the other areas of the mine should be conducted to determine the cause and corrective actions should be taken immediately. Corrective actions taken should be recorded in an approved book and made available to interested persons.

Because of these findings, the Administrator for Coal Mine Safety and Health, under authority delegated by the Secretary of Labor, ordered that the petition be granted, conditioned upon compliance with the recommendations stated above.

A copy of the decision is available for inspection by the public at the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203.

Dated: January 9, 1979.

ROBERT B. LAGATHER,
Assistant Secretary for Mine Safety and Health.

[FR Doc. 79-1843 Filed 1-18-79; 8:45 am]

[4510-43-M]

[Docket No. M-78-24]

STANSBURY COAL CO.

Final Action Granting a Petition for Modification of Application of Mandatory Safety Standard

The Mine Safety and Health Administration (MSHA) has granted in part the petition of Stansbury Coal Co. to modify the application of 30 CFR 75.902 to its Stansbury Mine located in Sweetwater County, Wyoming, in accordance with Section 101(c) of the Federal Mine Safety and Health Act of 1977, Pub. L. 95-164. MSHA has determined that an alternative method exists that will guarantee at all times no less than the same measure of protection given miners of the mine by the standard.

MSHA based its determination on the following findings:

MSHA conducted an investigation which consisted of reviewing blueprints, walking the two slopes in question, inspecting the supply transformer, protective devices and lighting installation, and discussing the petition with mine personnel.

The MSHA investigators recommended that the petition for modification be approved for the circuit described in the petition, if the following additional recommendations are complied with:

1. The lighting circuits and fixtures must be examined weekly and examinations recorded as required by § 75.512.

2. Any broken or damaged lighting fixture or flexible fixture hanger or any other potentially dangerous condition must be properly repaired or corrected with minimum delay by a qualified electrician. The broken, damaged or dangerous components must be deenergized until such repairs or corrections are made.

3. All repair work, maintenance, and bulb changing must be done by a qualified electrician after he assures himself the circuit is safe to work on.

4. At least one flexible fixture hanger and one lamp globe shall be in stock or on order at all times to minimize delay of any necessary repairs.

The investigators stated that the manner of installation and additional safeguards provided by the following will provide equivalent safety:

1. The installation of rigid steel conduit, flexible fixture hangers, and substantially constructed waterproof light fixtures significantly reduces the probability of broken grounds or ground faults caused by physical damage.

2. The rock slopes are well supported and maintained, thereby further reducing probability of broken grounds or ground faults.

3. Individual grounding conductors run to each light fixture, as well as parallel grounding paths through the conduits, and flexible fixture hangers assure reliable grounding means.

4. The lighting fixtures are the most likely place for an open ground or ground fault. By elevation 10 feet above the floor and well above normal slope traffic, exposure to these hazards can be restricted to only qualified electricians made aware of the special safety requirements listed in MSHA's report.

Because of these findings, the Administrator for Coal Mine Safety and Health, under authority delegated by the Secretary of Labor, ordered that the petition be granted, conditioned upon proper installation and maintenance of the lighting system in accordance with the safeguards described in the petition and the recommendations made by MSHA's investigators.

A copy of the decision is available for inspection by the public at the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203.

Dated: January 10, 1979.

ROBERT B. LAGATHER,
Assistant Secretary for Mine Safety and Health.

[FR Doc. 79-1844 Filed 1-18-79; 8:45 am]

[4510-43-M]

[Docket No. M-76-422]

WESTMORELAND COAL CO.

Final Action Granting a Petition for Modification of Application of Mandatory Safety Standard

The Mine Safety and Health Administration (MSHA) has granted in part the petition (41 FR 21252) of Westmoreland Coal Co. to modify the application of 30 CFR 75.1710-1 to its Wentz No. 1 Mine located in Wise County, Virginia, in accordance with Section 101(c) of the Federal Mine Safety and Health Act of 1977, Pub. L. 95-164. MSHA has determined that the application of the standard to the mine will result in a diminution of safety to the miners of the mine.

MSHA based its determination on the following findings:

1. The mine's roof is supported utilizing 48 inch roof bolts installed on not more than 4 foot centers. Except for the 2 sections at "B" Portal, the remaining sections are similar, generally damp and having extremely undulated mine floors.

2. During operations, the mine experienced two roof fall fatalities: March 11, 1969 and December 29, 1970, and has had 21 unintentional roof falls since 1970 when a record was started listing such occurrences.

3. On the 1 Right off 4 North Section, the minimum height floor to roof measurement was 48 inches.

4. On A Right Section, minimum height floor to roof measurement was 48 inches.

5. On Main North Section, minimum height floor to roof measurement was 47 inches.

6. Due to the extremely undulating mine floor and limited space available between the equipment frames and the mine roof, the MSHA investigator found that a diminution of safety would exist for the following equipment in the sections listed below.

a. 1 Right off 4 North Sections: One Lee Norse continuous mining machine (Model CM32) with a height of 37 inches, two Joy shuttle cars (Model 16SC) with heights of 36 inches.

b. "A" Right Section: One Lee Norse continuous mining machine (Model CM32) with a height of 39 inches, two Joy shuttle cars (Model 16SC) with heights of 36 inches.

V 4 4 / 1 4 J A 1 9 7 9 UMI

c. Main North Section: One Lee Norse continuous mining machine (Model CM32) with a height of 37 inches, two Joy shuttle cars (Model 16SC) with heights of 35 inches.

Because of these findings, the Administrator for Coal Mine Safety and Health, under authority delegated by the Secretary of Labor, ordered that the petition be granted in part for the continuous mining machines and shuttle cars listed above in 1 Right off 4 North section, "A" Right section and Main North section. If conditions or circumstances change in these sections which would allow canopies to be installed which would not result in a diminution of safety, then compliance with section 75.1710-1 should be accomplished.

A copy of the decision is available for inspection by the public at the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203.

Dated: January 9, 1979.

ROBERT B. LAGATHER,
Assistant Secretary for Mine Safety and Health.

[4510-26-M]

Occupational Safety and Health Administration

FEDERAL ADVISORY COUNCIL ON OCCUPATIONAL SAFETY AND HEALTH

Meeting

Notice is hereby given that the Federal Advisory Council on Occupational Safety and Health, established under Section 4(a) of Executive Order 11807 of September 28, 1974 (39 FR 35559), Occupational Safety and Health Programs for Federal Employees, will meet on February 6 starting 9:30 a.m. in Room N4437 ABC, New Department of Labor Building, 200 Constitution Avenue, N.W., Washington, D.C. The meeting will be open to the public.

The agenda provides for:

I. Announcements.
II. Appointments and Reappointments of FACOSH members.
III. Government—Industry Data Exchange Program (GIDEP)—Status of SAFALERT SYSTEM.
IV. Standing Committee on FARS—Status of the Standardized Reporting System.
V. Standing Committee on Occupational Noise discussion and approval of Operational Plan.
VI. Standing Committee on Safety and Health Conferences, discuss 1979 Conferences.
VII. Status of Noise Standard.

The Council welcomes written data, views or comments concerning safety and health programs for Federal employees, including comments on the agenda items. All such submissions received by close of business February 2, 1979, will be provided to the members of the meeting.

The Council will consider oral presentation relating to agenda items. Persons wishing to orally address the Council at the meeting should submit a written request to be heard by close of business February 2, 1979. The request must include the name and address of the person wishing to appear, the capacity in which appearance will be made, a short summary of the intended presentation and an estimate of the amount of time needed.

All communications regarding this Advisory Council should be addressed to Ms. Annie Asensio, Executive Director, FACOSH, Department of Labor, OSHA, First Floor South, 2100 M Street, N.W., Washington, D.C. 20210, telephone (202) 653-5500.

Signed at Washington, D.C. this 16th day of January, 1979.

EULA BINGHAM,
Assistant Secretary of Labor.

[FR Doc. 79-2063 Filed 1-18-79; 8:45 am]

[4510-26-M]

WYOMING STATE STANDARDS

Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under Section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Regional Administrator for Occupational Safety and Health (hereinafter called the Regional Administrator) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State Plan which has been approved in accordance with Section 18(c) of the Act and 29 CFR Part 1902. On May 3, 1974, notice was published in the FEDERAL REGISTER (39 FR 15394) of the approval of the Wyoming Plan and the adoption of Subpart BB to Part 1952 containing the decision.

The Wyoming Plan provides for the adoption of Federal standards as State standards after public hearings. Section 1953.23(a)(2) of 29 CFR provides that whenever a Federal standard is promulgated, the State must adopt or promulgate a standard or standard change which will make the State standard at least as effective as the Federal standard or change within six months of the Federal promulgation or change. In response to Federal standard changes, the State has submitted by letter dated July 14, 1978, from Donald D. Owsley, Health and Safety Administrator, to Curtis A. Foster, Regional Administrator, and incorporated as part of the plan, State standards comparable to the 29 CFR 1910.1044 Occupational Exposure to 1,2-Dibromo-3-Chloropropane (DBCP), which were published in Federal Register (43 FR 11514), Friday, March 17, 1978. This standard, which is contained in Wyoming Occupational Safety and Health Rules and Regulations for General Industry, was promulgated after hearings held on May 11, 1978, and by resolutions adopted by the Wyoming Occupational Health and Safety Commission on May 11, 1978, and became effective on July 6, 1978, pursuant to Section 27-278 Wyoming Statutes 1957 as amended 1973.

2. *Decision.* Having reviewed the State submission in comparison with the Federal standards, it has been determined that the State standards are at least as effective as the comparable Federal standards.

3. *Location of supplements for inspection and copying.* A copy of the standards supplements, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Regional Administrator, Occupational Safety and Health Administration, Room 1554, Federal Building, 1961 Stout Street, Denver, CO 80294; the Occupational Health and Safety Deprtment, 200 East Eighth Avenue, Cheyenne, WY 82001; and the Technial Data Center, Room N2439R, Third and Constitution Avenue, N.W., Washington, DC 20210.

4. *Public participation.* Under § 953.2(c) of 29 CFR Part 1953, the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Wyoming State Plan as a proposed change and making the Regional Administrator's approval effective upon publication for the following reason:

The standards were adopted in accordance with the procedural requirements of State law, which included public comments, and further public participation would be unnecessary.

This decision is effective January 19, 1979.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at Denver, Colorado, this eighth day of August, 1978.

CURTIS A. FOSTER,
Regional Administrator.

[FR Doc. 79-2058 Filed 1-18-79 8:45 am]

[4510-29-M]

Pension and Welfare Benefit Programs

EMPLOYEE BENEFIT PLANS

Proposed Class Exemption To Permit Certain Transactions Involving Employee Benefit Plans Maintained by Insurance Agents and Brokers (Application Nos. D-985 and D-040)

AGENCY: Department of Labor.

ACTION: Notice of proposed class exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor (the Department) of a proposed class exemption from certain taxes imposed by the Internal Revenue Code of 1954 (the Code) and from the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act). The proposed class exemption, if granted, would permit the effecting of a sale of an insurance or annuity contract to an employee benefit plan and the receipt of a sales commission with respect to such sale by an agent or broker who is the employer maintaining the plan or a related person. The proposed exemption, if granted, would affect participants and beneficiaries of plans to which such insurance products are furnished, employers maintaining these plans, certain related persons that are covered by the exemption, and other persons participating in the transactions.

DATES: Written comments and requests for a public hearing must be received by the Department of Labor on or before March 20, 1979.

ADDRESSES: All written comments and requests for a hearing (preferably six copies) should be addressed to the U.S. Department of Labor, Pension and Welfare Benefit Programs, Office of Fiduciary Standards, Room C-4526, 200 Constitution Avenme, N.W., Washington, D.C. 20216, Attention: "Insurance In-House Plans." All the applications for exemption which form the basis of this class exemption and all comments relating to this proposed exemption will be available for public inspection at the Public Documents Room of the Pension and Welfare Benefit Programs, Room N-4467, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216.

FOR FURTHER INFORMATION CONTACT:

Richard Small, U.S. Department of Labor, Pension and Welfare Benefit Programs, Office of Fiduciary Standards, Room C-4526, 200 Constitution Avenue, N.W., Washington, D.C. 20216, (202) 523-8195. This is not a toll free number.

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Department of a class exemption from the taxes imposed by section 4975(a) and (b) of the Code by reason of section 4975(c)(1) of the Code and from the restrictions of sections 406(a) and 406(b) of the Act. Two applications were filed requesting a class exemption for the subject transactions. One was filed jointly by the National Association of Life Underwriters (NALU) and the Association for Advanced Life Underwriting (AALU) (D-985). The other application was filed by Connecticut General Life Insurance Company (D-040).

The applications for class exemption were filed pursuant to section 4975(c)(2) of the Code and section 408(a) of the Act and in accordance with the procedures set forth in Rev. Proc. 75-26, C.B. 722 and ERISA Procedure 75-1 (40 FR 18471), April 28, 1975).

Numerous applications have also been received for individual exemptions concerning transactions of the type described in this proposed class exemption. All such transactions will be exempted if they satisfy the terms and conditions of the proposed class exemption. As stated in ERISA Proc. 75-1, an application for an individual exemption will not ordinarily be considered separately if a class exemption which may encompass the transaction described in the application is under consideration by the Department. Accordingly, the Department is notifying directly each applicant for an individual exemption of the fact that such applicant's application is not being considered separately from this proposed class exemption, that such application will ordinarily be closed, and, therefore, that such applicant's comments with respect to this pending class exemption are sought by the Department.

The applications were filed with both the Department and the Internal Revenue Service. However, effective December 31, 1978 (44 FR 1065, January 3, 1979), section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, this notice of pendency is issued solely by the Department.

SUMMARY OF FACTS AND REPRESENTATIONS

The applications contain representations with regard to the proposed class exemption which are summarized below. Interested persons are referred to the applications on file with the Department for the complete representations of the applicants.

1. It is common practice for insurance agents and brokers who are not employees of the insurance companies which they represent to establish employee benefit plans for themselves and their employees. Further, many agents and brokers have substantial economic interests in corporate and other entities which maintain plans for their employees. These plans are usually funded either wholly or partially with insurance or annuity contracts in order to provide pre-retirement death benefits and guaranteed payouts at retirement. Since the insurance agency or a member of such firm is licensed to effect sales of insurance and annuity contracts, commissions generated in connection with plan funding transactions are paid to the insurance agency or licensed member.

2. The provision of insurance and annuity contracts to the plan by the agent or broker which, within the meaning of section 4975(e)(2) of the Code and section 3(14) of the Act, is a disqualified person or party in interest with respect to a plan, and the receipt of commissions therefor, may be prohibited transactions under section 4975(c)(1) of the Code and section 406 of the Act.

3. Transactions described in the applications for exemption have occurred continually since the effective date of the prohibited transaction restrictions of the Code and the Act. Although the Applicants state that the transitional provisions of sections 414(c)(4) and 2003(c)(2)(D) of the Act applied to the transactions, such relief expired on June 30, 1977, and was not available for agents and brokers who were not considered to have furnished the type of services involved as of June 30, 1974. Furthermore, neither Prohibited Transaction Exemption 77-9 [1] nor any other administrative exemption granted heretofore has covered all the transactions effected by the disqualified persons/parties in interest which are the subject of this proposed exemption. Accordingly, the applicants have requested that the proposed class exemption be effective as of January 1, 1975, the effective date of the Prohibited Transactions provisions of the Code and Act.

4. It would be contrary to normal business practices and unnecessarily restrictive, to require an employee benefit plan maintanined by an employer-agent or broker to have its purchases of insurance and annuity contracts effected by an unrelated person. Moreover, with respect to the pur-

[1] Notice of the granting of the exemption was published in the FEDERAL REGISTER on June 24, 1977 (42 FR 32395). See also the Proposed Amendment of Prohibited Transaction Exemption 77-9 published in the FEDERAL REGISTER on April 28, 1978 (43 FR 18354) for further clarification of section V(a) of that exemption.

V 4 4 / 1 4

chase of individual insurance policies for the plan, the cost to the plan would be unaffected by the identity of the agent or broker, since commissions received by the agent or broker on such sales to the plan are determined under a scale of compensation which is uniformly applied to all agents and brokers similarly situated with the same insurance company and are not subject to negotiation.

5. The benefit received by the agent or broker in the form of sales commissions is paid for, directly or indirectly, by the agent or broker as the employer maintaining the plan. The receipt of sales commissions by the employer who is an agent or broker represents a direct reduction in cost to the employer which would not be available if the employer was precluded from furnishing insurance or annuity contracts to the plan and was, instead, required to purchase it from a third person whose commission income on the sale could not be credited against the employer's cost. Consequently, the agent or broker can furnish insurance to the plan at a lower overall cost thereby providing an incentive for the agent or broker to secure better coverage for the plan than if the insurance or annuity contracts were to be purchased from an unrelated third person.

6. In support of the class request that agents and brokers be permitted to receive and retain the commissions derived from sales effected for their in-house plans, the applicants represent that the rebating of commissions by the agent or broker to the plan is illegal by specific statute in every state and the District of Columbia. All of these jurisdictions have passed the Model Unfair and Deceptive Practices Act which was promulgated by the National Association of Insurance Commissioners. Thus, the assignment, transfer or "return" to the plan of commissions attributable to sales effected on behalf of that plan would constitute violations of state insurance laws. The applicants further contend that state laws prohibited the payment of commissions except to licensed agents or brokers. Accordingly, these state laws would preclude the direct payment of commissions to the plan by the insurance company in connection with the sale of insurance to the plan which is effected by a licensed agent or broker.

In addition, the applicants also represent that many states have statutes prohibiting discrimination as to rates, premiums, dividends or benefits between individuals or risks of the same class, or of equal expectation of life. In view of these state law restrictions, the applicants content that the plan would be prohibited from obtaining insurance on a "net basis", i.e., without the cost element contained in the insurance company premium which is attributable to the commission otherwise payable to the agent or broker, since this practice would result in discrimination between persons of similar risk or classification.

GENERAL INFORMATION

It should be noted that the exemption, as proposed, only would be available if the total commissions received by the agent or broker in each taxable year as a result of effecting transactions under the exemption do not exceed five percent of the total commissions received in that taxable year by such agent or broker. This condition is designed to ensure that the sale of insurance to an "in-house" plan does not represent more than an incidental part of the agents' or brokers' insurance business.

It should also be noted that the term "insurance or annuity contract", as used in the exemption, is intended to cover contracts issued by insurance companies including those which provide only for the provision of administrative services. It should be further noted that under section 408(d) of the Act, no exemption may be granted under section 408(a) for transactions of the type described herein between a plan and certain persons such as an owner-employee as defined in section 401(c)(3) of the Code, or a shareholder-employee as defined in section 1379 of the Code. The proposed exemption is intended, however, to be applicable to such persons for purposes of section 4975 of the Code.

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 4975(c)(2) of the Code and section 408(a) of the Act does not relieve a fiduciary or disqualified person or other party in interest with respect to a plan to which the exemption is applicable from certain other provisions of the Code and the Act, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act which, among other things, require a fiduciary to discharge his duties respecting the plan solely in the interest of the plan's participants and beneficiaries and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) Before an exemption may be granted under section 4975(c)(2) of the Code and section 408(a) of the Act, the Department must find that the exemption is administratively feasible, in the interests of the plan or plans and of their participants and beneficiaries, and protective of the rights of such participants and beneficiaries of such plan or plans;

(3) The Class exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Code and the Act, including statutory exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is in fact a prohibited transaction;

(4) If granted, the pending class exemption will be applicable to a particular transaction only if the transaction satisfies the conditions specified in the class exemption; and

WRITTEN COMMENTS AND HEARING REQUEST

All interested persons are invited to submit written comments on this proposed class exemption to the address and within the time period set forth above. In addition, any interested person may submit to the address and within the time period set forth above, a written request that a hearing be held relating to the pending class exemption. Such written request should state the reasons for such person's interest in the proposed class exemption.

A list of individual applications which involve the subject transactions as well as the individual and class applications for exemption, all written comments and all requests for a hearing (preferably six copies) will be made part of the record and will be available for public inspection at the addresses set forth above.

PROPOSED EXEMPTION

Based on the applications hereinabove described, the Department has under consideration the granting of the following class exemption under the authority of section 4975(c)(2) of the Code and section 408(a) of the Act and in accodance with the procedures set forth in.

ERISA Procedure 75-1: Effective January 1, 1975, the restrictions of sections 406(a), and 406(b) of the Act and the taxes imposed by section 4975(a) and (b) of the Code, by reason of section 4975(c)(1) of the Code, shall not apply to sales of insurance or annuity contracts effected for an employee benefit plan and to the receipt of sales commissions in connection with such sales by an agent or broker who is the employer maintaining the plan or a person related to the employer if the following conditions are met:

(a) The insurance agent or broker effecting the sale:

(1) Is an employer any of whose employees are covered by the plan;

(2) Is a 10 percent or more partner in capital or profits of an employer described in subparagraph (1); or

(3) Is a disqualified person or party in interest with respect to the plan by reason of an affiliation with the employer establishing or maintaining the plan that is described in section 4975(e)(2)(E), (G) or (H) of the Code and section 3(14)(E), (G) or (H) of the Act. For purposes of the condition set forth in paragraph (a)(1), an "employer" includes a sole proprietor maintaining a plan in which he or she is the only participant.

(b) The plan pays no more than adequate consideration for the insurance contracts or annuities;

(c) Effective (one year from date of granting of this exemption), the total commissions received in each taxable year of the insurance agent or broker as a result of effecting transactions under this exemption do not exceed 5 percent of total insurance commission income received in that taxable year by such agent or broker.

Signed at Washington, D.C., this 15th day of January, 1979.

IAN D. LANOFF,
Administrator for Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

Office of the Secretary

WORKER ADJUSTMENT ASSISTANCE

Investigations Regarding Certifications of Eligibility To Apply

Petitions have been filed with the Secretary of Labor under Section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted investigations pursuant to Section 221(a) of the Act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than January 26, 1979.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than January 26, 1979.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 8th day of January 1979.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

[TA-W-4438]

BRENEMAN, INC.

Certification Regarding Eligibility to Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4438: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 29, 1978 in response to a worker petition received on November 27, 1978 which was filed by the United Automobile, Aerospace and Agricultural Implement Workers of America on behalf of workers and former workers producing plastic window shades at the Madison, Indiana plant of Breneman, Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on December 5, 1978 (44 FR 56953). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Breneman, Inc., a major customer, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

Imports of window shades increased absolutely in 1977 compared to 1976 and in the first nine months of 1978 compared to the first nine months of 1977.

The Madison plant produced plastic window shades exclusively for one customer. In late 1978, that customer ceased all orders for one style produced by the Madison plant and began purchasing that style from a foreign manufacturer. The style represented a major portion of the output by the Madison plant during 1977 and 1978.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with plastic window shades produced by the Madison, Indiana plant of Breneman, Inc. contributed importantly to the decline in sales or production and to the total or partial separation of workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers of the Madison, Indiana plant of Breneman, Inc., who became totally or partially separated from employment on or after September 1, 1978 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 9th day of January 1979.

C. MICHAEL AHO,
Director, Office of Foreign Economic Research.

[TA-W-3943 TA-W-3945]

DUPLAN KNITS WEST DUPLAN KNITS WEST

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3943 and 3945: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on July 5, 1978, in response to a worker petition received on July 5, 1978, which was filed on behalf of workers and former workers engaged in employment related to the production of knitted fabrics and printed fabrics at the Compton, California plant and the Los Angeles, California sales office of Duplan Knits West. The investigation revealed that the Compton plant did not produce printed fabrics.

The Notice of Investigation was published in the FEDERAL REGISTER on July 18, 1978 (43 FR 30928-29). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Duplan Knits West, its customers, Duplan Corporation, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

A Department of Labor survey revealed that none of the customers of Duplan Knits West had purchased imported finished fabrics in 1976, 1977 or the first half of 1978. Another survey revealed that none of Duplan Knits West customers had any commissioned fabric dyeing or finishing performed by foreign sources in 1976, 1977 or the first half of 1978.

Conclusion

After careful review, I determine that all workers of the Compton, California plant and the Los Angeles, California sales office of Duplan Knits West are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 9th day of January 1979.

C. MICHAEL AHO,
Director, Office of Foreign Economic Research.

[TA-W-4281]

HANNA FURNACE CORP.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4281: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 20, 1978 in response to a worker petition received on October 17, 1978 which was filed by the United

V 4 4 / 1 4

Steelworkers of America on behalf of workers and former workers producing merchant pig iron at the Buffalo, New York plant of the Hanna Furnace Corporation. The investigation revealed that the company also operates sales offices in West Seneca, New York; Greenwich, Connecticut; Detroit, Michigan and Philadelphia, Pennsylvania.

The investigation was expanded to include the West Seneca, New York; Greenwich, Connecticut; Detroit, Michigan and Philadelphia, Pennsylvania sales offices of the Hanna Furnace Corporation.

The Notice of Investigation was published in the FEDERAL REGISTER on October 31, 1978 (43 FR 50758). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of the Hanna Furnace Corporation, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

Imports of merchant pig iron declined each year from 478,000 tons in 1975 to 373,000 tons in 1977 before increasing from 218,000 tons in the three quarters of 1978. The ratio of imports to the domestic production of merchant pig iron declined each year from 51.5 percent in 1975 to 38.8 percent in 1977 before increasing from 29.8 percent in the first three quarters of 1977 to 80.0 percent in the first three quarters of 1978.

The Department conducted a survey of some of the customers of merchant pig iron of the Hanna Furnace Corporation. Customers accounting for a significant percent of the company's in both 1977 and in the first ten months of 1978 increased purchases of imported pig iron in 1977 compared to 1976 and in the first ten months of 1978 compared to the like 1977 period while decreasing purchases from the Hanna Furnace Corporation in the first 10 months of 1978 compared to the same period in 1977.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with the merchant pig iron produced at the Buffalo, New York plant of the Hanna Furnace Corporation contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of the Buffalo, New York plant and of the Greenwich, Connecticut; Detroit, Michigan; West Seneca, New York and Philadelphia, Pennsylvania sales offices of the Hanna Furnace Corporation, who became totally or partially separated from employment on or after October 13, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 9th day of January 1979.

HARRY. J. GILMAN,
Supervisory International Economist, Office of Foreign Economic Research.

[FR Doc. 79-1523 Filed 1-18-79; 8:45 am]

[4510-28-M]

[TA-W-4206]

KAISER STEEL CORP.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4206: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 21, 1978 in response to a worker petition received on September 18, 1978 which was filed on behalf of workers and former workers engaged in mining and concentrating of iron ore at the Eagle Mountain, California mine of the Kaiser Steel Corporation.

The Notice of Investigation was published in the FEDERAL REGISTER on October 10, 1978 (43 FR 46591). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Kaiser Steel Corporation, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

that sales or production, or both, of the firm or subdivision have decreased absolutely.

All of the iron ore mined and processed at Eagle Mountain is used solely to supply Kaiser's Fontana steel mill, as part of the vertically integrated steel-making process. Production of iron ore did not decline from 1976 to 1977, in quantity, and increased in the first nine months of 1978 compared to the first nine months of 1977.

Employment at the Eagle Mountain mine was higher in 1977 than in 1976. Worker separations in September, 1978, were due to the conversion of the Fontana plant to the basic oxygen process which resulted in a production slow-down at the plant.

Conclusion

After careful review, I determine that all workers of the Eagle Mountain, California, mine of the Kaiser Steel Corporation are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 9th day of January 1979.

HARRY J. GILMAN,
Supervisory International Economist, Office of Foreign Economic Research.

[TA-W-3496]

LORING COAT COMPANY INCORP.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3496: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on April 11, 1978 in response to a worker petition received on March 31, 1978 which was filed by the International Ladies' Garments Workers' Union on behalf of workers and former workers producing rainwear at Loring Coast Company, Incorporated, Newburgh, New York. The investigation revealed that the plant primarily produces women's rain and cloth coats.

The Notice of Investigation was published in the FEDERAL REGISTER on May 2, 1978 (43 FR 8790). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Loring Coat Company, Incorporated, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met.

that sales or production, or both, of the firm or subdivision have decreased absolutely.

Sales of women's rain and cloth coats increased in 1977 compared to 1976 and increased in 1978 compared to 1977.

Conclusion

After careful review, I determine that all workers of Loring Coat Company, Incorporated, Newburgh, New York are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 9th day of January 1979.

HARRY J. GILMAN,
Supervisory International Economist, Office of Foreign Economic Research.

[TA-W-4188]

ORANGE COUNTY COAT COMPANY, INC.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4188: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 20, 1978 in response to a worker petition received on September 19, 1978 which was filed by the International Ladies' Garment Workers' Union, Locals 156-165 on behalf of workers and former workers producing women's sportswear, jackets and vests at Orange County Coat Company, Incorporated, Newburgh, New York. The investigation revealed that the firm primarily produces women's jackets and vests.

The Notice of Investigation was published in the FEDERAL REGISTER on October 31, 1978 (43 FR 50758). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Orange County Coat Company, Incorporated, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

that a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated.

The average number of production workers increased in each quarter compared to the previous quarter from the third quarter of 1977 through the third quarter of 1978. Average production employment increased in the last half of 1977 compared to the same period of 1976 and increased in the first nine months of 1978 compared to the same period of 1977.

Average monthly production hours increased in the second half of 1977 compared to the same period of 1976, and increased in the first three quarters of 1978 compared to the same period of 1977.

There is no immediate threat of separation to workers at Orange County Coat.

Conclusion

After careful review, I determine that all workers of Orange County Coat Company, Incorporated, Newburgh, New York are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 9th day of January 1979.

HARRY J. GILMAN,
Supervisory International Economist, Office of Foreign Economic Research.

[TA-W-4315]

S.M.R. ASSOCIATES

Termination of Investigation

Pursuant to section 221 of the Trade Act of 1974, an investigation was initiated on October 30, 1978 in response to a worker petition received on October 27, 1978 which was filed by the Industrial Union of Marine and Shipbuilding Workers of America on behalf of workers and former workers producing semi-trailers and metal containers for air freight at Air support Industries, Glassboro, New Jersey. During the course of the investigation it was determined that the name of the company is S.M.R. Associates.

The Notice of Investigation was published in the FEDERAL REGISTER on November 7, 1978 (43 FR 51866). No public hearing was requested and none was held.

The petitioner requested withdrawal of the petition. On the basis of the withdrawal, continuing the investigation would serve no purpose. Consequently, the investigation has been terminated.

Signed at Washington, D.C. this 9th day of January, 1979.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

[TA-W-4323]

SAN JUAN MILLING CO.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4323: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 31, 1978 in response to a worker petition received on October 23, 1978 which was filed on behalf of workers and former workers mining gold, silver, lead and zinc and producing lead and zinc concentrates at San Juan Milling Company, Sliverton, Colorado. The investigation revealed that the mining predominantly yielded lead and zinc ore with minute amounts of silver, gold and copper.

The Notice of Investigation was published in the FEDERAL REGISTER on November 7, 1978 (43 FR 51865). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of San Juan Milling Company, *American Metal Market*, the American Bureau of Metal Statistics, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of refined and recovered lead increased absolutely from 1976 to 1977 and from January through September in 1977 to the same period in 1978. The import to domestic production ratio increased from 10.7 percent in 1976 to 18.4 percent in 1977. The import to domestic production ratio again increased from 19.2 percent for the first half of 1977 to 19.8 percent for the first half of 1978.

A 19 79 UMI

V 4 4 / 1 4 J A 1 9 7 9 UMI

Imports of lead are affected by the differential between the domestic producers' price and the price of lead on the London Metal Exchange (LME). Generally, the price charged by domestic producers ranges from two to four cents per pound above the LME price. When the LME price drops more than two to four cents per pound below the domestic producers' price, there is increased demand for imported lead. From October, 1977 through September 1978, the LME price of lead averaged more than four cents less than the U.S. producers' price.

U.S. imports of slab zinc increased relative to domestic production from 127.0 percent in 1976 to 127.9 percent in 1977. Imports increased absolutely in the first three quarters of 1978 compared to the same period in 1977. The import to domestic production ratio increased from 122.2 percent for the first three quarters in 1977 to 159.0 percent for the same period in 1978.

Imports of zinc are affected by the differential between the domestic price of zinc established by U.S. producers and the price established by the London Metal Exchange. When the LME price drops more than the estimated transportation cost of five cents per pound below the producers' price, the demand for imported zinc increases. From October, 1977 through September, 1978, the price differential averaged more than five cents per pound.

Lead and zinc were mined together at San Juan, since both were extracted from the same ore. Because the price San Juan receives for both lead and zinc concentrates is tied to the domestic producers' price, the San Juan price is closely affected by the difference between the U.S. producers' price and the London Metal Exchange price.

In addition, because San Juan is not fully integrated with a lead smelting operation as is the case for the major U.S. producers, the demand for San Juan's lead concentrate is highly vulnerable to competition from imported lead. Because San Juan is a small and sporadic supplier of zinc, the company is also highly vulnerable to competition from imported zinc.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with the lead and zinc ore mined and lead and zinc concentrates produced at San Juan Milling Company, Silverton, Colorado, contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of San Juan Milling Company, Silverton, Colorado, who became totally or partially separated from employment on or after January 1, 1978 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 9th day of January 1979.

C. MICHAEL AHO
Director, Office of Foreign Economic Research.

[4510-28-M]

[TA-W-4224]

WILLIAM ORNSTEEN HEEL CO., INC.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4224: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 29, 1978 in response to a worker petition received on September 25, 1978 which was filed on behalf of workers and former workers producing wood heels and plastic heels for women's novelty shoes and dress shoes at William Ornsteen Heel Company, Inc., Bradford, Massachusetts.

The Notice of Investigation was published in the FEDERAL REGISTER on October 17, 1978 (43 FR 44795-6). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of William Ornsteen Heel Company, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

The petitioners allege that the liquidation of Ornsteen's customers, which are shoe manufacturers, has adversely affected production and employment levels at the subject firm. However, imports of finished shoes cannot be considered like or directly competitive with shoe heels.

Customers of William Ornsteen Heel Company, Inc., who were surveyed, indicated that they did not purchase imported heels in 1976, 1977 or during the first three quarters of 1978.

Conclusion

After careful review, I determine that all workers of William Ornsteen Heel Company, Inc., Bradford, Massachusetts are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 9th day of January 1979.

HARRY J. GILMAN,
Supervisory International Economist, Office of Foreign Economic Research.

TA-W-4268	Detroit, Michigan
TA-W-4286	Brisbane, California
TA-W-4296	Long Island City, New York
TA-W-4300	San Antonio, Texas
TA-W-4301	Houston, Texas
TA-W-4321	West Babylon, New York
TA-W-4350	Rosemont, Illinois

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4244, 4246, 4246b-4246k, 4252-4254, 4268, 4286, 4296, 4300, 4301, 4321, and 4350: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on the dates listed in Appendix I in response to worker petitions which were filed on behalf of workers and former workers distributing, selling and servicing Admiral-produced color and monochrome televisions at locations of the Admiral Group, Rockwell International Corporation listed in Appendix I. The investigation revealed that these facilities also distribute, sell and service the refrigerators and freezers

which are also produced by Rockwell's Admiral Group.

The Notice of Investigation was published in the FEDERAL REGISTER on the dates listed in Appendix II. No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of the Admiral Group, Rockwell International Corporation, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. With respect to workers distributing, selling and servicing refrigerators and freezers, without regard to whether any of the other criteria have been met, the following criterion has not been met:

that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threats thereof, and to the absolute decline in sales or production.

The investigation revealed that all of the refrigerators and freezers distributed, sold and serviced by the subject locations of Rockwell's Admiral Group are produced by Admiral's plant in Galesburg, Illinois. The Department issued a notice of negative determination regarding eligibility to apply for adjustment assistance for all workers of Admiral's Galesburg, Illinois plant (TA-W-4246a).

With respect to workers distributing, selling and servicing color and monochrome televisions, all of the group eligibility requirements of Section 222 of the Act have been met.

U.S. imports of color televisions decreased from 2856.3 thousand units in 1976 to 2538.7 thousand units in 1977. Imports increased from 1971.6 thousand units in the first three quarters of 1977 to 1999.7 thousand units in the like period of 1978. The ratio of imports to domestic production decreased from 45.5 percent in 1976 to 38.3 percent in 1977. The ratio decreased from 40.6 percent in the first three quarters to 35.5 percent in the like period of 1978.

U.S.A. imports of monochrome televisions increased from 4326.9 thousand units in 1976 to 4907.8 thousand units in 1977. Imports increased from 3504.0 thousand units in the first three quarters of 1977 to 4338.0 thousand units in the like period of 1978. The ratio of imports to domestic production increased from 266.3 percent in 1976 to 413.7 percent in 1977. The ratio increased from 401.1 percent in the first three quarters of 1977 to 452.3 percent in the like period of 1978.

A Department survey of customers of Rockwell's Admiral Group indicated that Admiral's largest customers increased purchases of imported color televisions and decreased purchases of color sets from Admiral in 1977 compared with 1976 and in the first three quarters of 1978 compared with the like period of 1977.

The major customers of Admiral's monochrome televisions increased purchases of imports while decreasing purchases of monochrome sets from Admiral from 1976 to 1977 and the first three quarters of 1978 compared with the like period of 1977.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with the color and monochrome televisions produced, distributed, sold and serviced by the Admiral Group, Rockwell International Corporation contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of the locations of the Admiral Group, Rockwell International Corporation listed in Appendix II engaged in employment related to the distribution, sales and service of Admiral-produced color and monochrome televisions who became totally or partially separated from employment on or after the respective impact dates listed in Appendix II are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

I further determine that the workers at the subject locations who were solely engaged in employment related to the distribution, sales and service of Admiral-produced refrigerators and freezers are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 8th day of January 1979.

HARRY J. GILMAN,
Supervisory International Economist, Office of Foreign Economic Research.

Office of the Secretary

[TA-W-3563]

AMAX SPECIALTY METALS CORP., AKRON, N.Y.

Negative Determination Regarding Application for Reconsideration

On December 23, 1978, the petitioner requested administrative reconsideration of the Department of Labor's negative determination regarding eligibility to apply for worker adjustment assistance in the case of former workers of Amax Specialty Metals Corporation's plant at Akron, New York. The determination was published in the FEDERAL REGISTER on December 8, 1978. (43 FR 57674).

Pursuant to 29 CFR 90.18(c), reconsideration may be granted under the following circumstances:

(1) if it appears, on the basis of facts not previously considered, that the determination complained of was erroneous.

(2) if it appears that the determination complained of was based on a mistake in the determination of facts previously considered; or

(3) if, in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justifies reconsideration of the decision.

The petitioner cited new evidence that Amax sold zirconium to customers in France, England, Japan and Canada and feels that foreign customers will fabricate articles for reentry back into the United States from the subject firm's exported zirconium.

The Department learned that the subject firm, a raw material supplier, sold small amounts of zirconium ingots and scrap to France after production ceased in April 1978. Lesser amounts of zirconium ingots were sold to Canada, England and Japan. The impact of increased or decreased export sales is not relevant to the certification test of Section 222 of the Trade Act of 1974, whether increased imports of articles like or directly competitive with articles produced by the petitioning workers can be regarded as contributing importantly to employment and sales or production declines. Furthermore, imported fabricated zirconium, even when fabricated from exported zirconium ingots and scrap, would not be an article that is "like or directly competitive with" the zirconium metal produced by Amax.

CONCLUSION

After review of the application and the investigative file, I conclude that there has been no error or misinterpretation of fact or misinterpretation of the law which would justify reconsideration of the Department of Labor's prior decision. the application is, therefore, denied.

Signed at Washington, D.C., this 12th day of January 1979.

JAMES F. TAYLOR,
Director, Office of Management Administration and Planning.

[4510-28-M]

[TA-W-4184]

AVTEX FIBERS, INC., FRONT ROYAL, VA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4184: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 20, 1978 in response to a worker petition received on September 18, 1978 which was filed by the Amalgamated Clothing and Textile Workers' Union on behalf of workers and former workers producing rayon tire and industrial yarn and rayon staple fiber.

The Notice of Investigation was published in the FEDERAL REGISTER on October 31, 1978 (43 FR 50758). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of AVTEX Fibers, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. The Department's investigation revealed that all of the requirements have been met.

U.S. imports of rayon and acetate staple fibers and yarns increased from 69 million pounds in 1976 to 82 million pounds in 1977. Imports declined from 61 million pounds in the first three quarters of 1977 to 57 million pounds in the like quarters of 1978. The ratio of imports to domestic production increased from 7.8 percent in 1976 to 11.7 percent in 1977.

The Department conducted a survey of the principal customers for which AVTEX Fibers, Inc. supplied rayon staple fiber for in 1977. The survey revealed that major customers decreased their purchases of rayon staple fiber from the subject firm and increased purchases of imported rayon staple fiber in 1977 compared to 1976. This survey is from TA-W-2645, AVTEX's Nitro, West Virginia plant. Customers of rayon staple fiber for both Nitro and Front Royal are the same. Workers at the Nitro plant were certified eligible to apply for Trade Adjustment Assistance on May 9, 1978.

The Department conducted an additional survey of the principal customers AVTEX Fibers, Incorporated supplied rayon tire and industrial yarn in 1977 and 1978. Customers representing a significant portion of the subject firms sales in 1977 decreased purchases of rayon tire and industrial yarn from the subject firm and increased purchases of imported rayon tire and industrial yarn in the first three quarters of 1978 compared to the like quarters of 1977.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with rayon staple fiber and rayon tire and industrial yarn produced at AVTEX Fibers, Inc., Front Royal, Va. contributed importantly to the decline in sales and to the separation of workers at that plant. In accordance with the provisions of the Act, I make the following certification:

All workers at the Front Royal, Virginia plant of AVTEX Fibers, Incorporated engaged in employment related to the production of rayon staple fiber and rayon tire and industrial yarn who became totally or partially separated from employment on or after March 5, 1978 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 12th day of January 1979.

HARRY J. GILMAN,
Supervisory International Economist, Office of Foreign Economic Research.

[4510-28]

[TA-W-4277]

BROCKTON SOLE AND PLASTICS CO., WINCHESTER, TENN.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4277: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 20, 1978 in response to a worker petition received on October 18, 1978 which was filed on behalf of workers and former workers producing heel bases, soles and shanks for shoes and boots at the Winchester, Tennessee plant of Brockton Sole and Plastics Company. The investigation revealed that the plant also produces rands.

The Notice of Investigation was published in the FEDERAL REGISTER on October 31, 1978 (43 FR 50758-50759). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Brockton Sole and Plastics, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Total company sales and production of each product, heel bases, steel shanks and rands, increased in the fourth quarter of 1977 compared with the same period of 1976 and in the first nine months of 1978 compared with the same period of 1977. Although sales of unit soles were down in 1977, average employment in that year was higher than in 1976.

The Department conducted a customer survey for unit soles. The survey indicated that in 1978 decreased purchases of unit soles from Brockton Shoe and Plastics Company were not associated with increased customer reliance on foreign sources.

CONCLUSION

After careful review, I determine that all workers of the Winchester, Tennessee, plant of Brockton Sole and Plastics Company are denied eligibility to apply for adjustment assistance under title II, chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 12th day of January 1979.

HARRY J. GILMAN,
Supervisory International Economist, Office of Foreign Economic Research.

[TA-W-4380]

COMET MANUFACTURING CO., PHILADELPHIA, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4380: investigation regarding certitication of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 14, 1978 in response to a worker petition received on November 9, 1978 which was filed by the Knitgoods Union, International Ladies' Garment Workers' Union on behalf of workers and former workers producing men's swimwear and sportswear and some ladies' blouses and skirts at Comet Manufacturing Company, Philadelphia, Pennsylvania. The investigation revealed that the plant primarily produces men's swimwear and men's robes, and a limited number of other items, such as terry cloth jackets and men's swimwear ensembles.

The Notice of Investigation was published in the FEDERAL REGISTER on November 24, 1978 (43 FR 55013). No public hearing was requested and none was held.

The determination was based upon informaton obtained principally from officials of Comet Manufacturing Company, its manufacturer, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That sales or production, or both, of the firm or subdivision have decreased absolutely.

Production of men's swimwear and men's robes, in both quantity and value, increased at Comet Manufacturing Company in 1977 compared with 1976 and in the first eleven months of 1978 compared with the same period in 1977. Production and sales are equivalent at Comet.

CONCLUSION

After careful review, I determine that all workers of Comet Manufacturing Company, Philadelphia, Pennsylvania are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of January 1979.

HARRY J. GILMAN,
Supervisory International Economist, Office of Foreign Economic Research.

CONSOLIDATED METALS CORP., DOVER, N.J.

Termination of Investigation

Pursuant to Section 221 of the Trade Act of 1974, an investigation was initiated on December 14, 1978 in response to a worker petition received on December 12, 1978 which was filed on behalf of workers and former workers producing welded austinetic stainless steel pipe at the Dover, New Jersey plant of Consolidated Metals Corporation.

The Notice of Investigation was published in the FEDERAL REGISTER on December 26, 1978 (43 FR 60243). No public hearing was requested and none was held.

The petitioner requested withdrawal of the petition in a letter. On the basis of the withdrawal, continuing the investigation would serve no purpose. Consequently the investigation has been terminated.

Signed at Washington, D.C., this 11th day of January 1979.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

[TA-W-4466]

DEANNA DEE, INC., LOS ANGELES, CALIF.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4466: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on December 6, 1978 in response to a worker petition received on November 27, 1978 which was filed by the International Ladies' Garment Workers Union on behalf of workers and former workers producing women's coats at Deanna Dee, Incorporated, Los Angeles, California. The investigation revealed that Deanna Dee manufactures wool and cahsmere women's coats.

The Notice of Investigation was published in the FEDERAL REGISTER on December 19, 1978 (43 FR 59165-66). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Deanna Dee, Incorporated, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That sales or production, or both, of the firm or subdivision have decreased absolutely.

Evidence developed during the course of the investigation indicated that sales and production did not decrease. Sales of women's coats in dollars, adjusted by utilizing the wholesale price index for women's apparel, increased in 1977 compared to 1976 and increased in the first eleven months of 1978 compared to the same period in 1977.

CONCLUSION

After careful review, I determine that all workers of Deanna Dee, Incorporated, Los Angeles, California are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 12th day of January 1979.

C. MICHAEL AHO,
Director, Office of Foreign Economic Research.

[4510-28-M]

[TA-W-4368]

DOWNEN ZIER KNITS, INC., ROCKVILLE CENTER, LONG ISLAND, N.Y.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4368: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 13, 1978 in response to a worker petition received on November 6, 1978 which was filed on behalf of workers and former workers producing knit and finished fabric at the Rockville Center, Long Island, New York plant of Downen Zier Knits, Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on November 24, 1978 (43 FR 55012-13). No public hearing was requested and none was held.

The determination was based upon information obtained principally from the Accountant for the Trustee in Bankruptcy for Downen Zier, the company's customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Downen Zier Knits, Rockville Center, Long Island, New York produced and finished knit fabrics. The petition alleges that increased imports of apparel adversely affected production and employment at Downen Zier Knits. Imported apparel can not be considered to be like or directly competitive with finished fabrics. Imports of finished fabrics must be considered in determining import injury to workers producing finished knit fabrics.

Imports of finished fabric declined from 464 million square yards in 1976 to 453 million square yards in 1977 and increased from 341 million square yards in the first nine months of 1977 to 386 million square yards in the first nine months of 1978. The ratio of imports to domestic production of finished fabric has been less than 2 percent in each of the past four years.

Most of the customers surveyed, who accounted for the bulk of Downen Zier's business, did not purchase any imported finished fabric from 1976 through October 1978.

CONCLUSION

After careful review, I determine that all workers of Downen Zier Knits, Inc., Rockville Center, Long Island, New York are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 12th day of January 1979.

JAMES F. TAYLOR,
Director, Office of Management Administration and Planning.

[4510-28]

[TA-W-4381]

FAG BEARINGS CORP., STAMFORD, CONN.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4381: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 14, 1978 in response to a worker petition received on November 14, 1978 which was filed by the International Association of Machinists and Aerospace Workers on behalf of workers and former workers producing base bearings at the Stamford, Connecticut of FAG Bearings Corporation.

The Notice of Investigation was published in the FEDERAL REGISTER on November 24, 1978 (43 FR 55013). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of FAG Bearings Corporation, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

From 1976 to 1977 imports of ball bearings increased in quantity from 111.9 million to 127.9 million. the ratio of imports to domestic production increased from 45.6 percent to 49.2 percent. The ratio of imports to domestic consumption increased from 33.6 percent to 34.9 percent. For the first nine months of 1978 compared to the same period of 1977 imports increased from 97.1 million to 138.4 million. The ratio of imports to domestic production increased from 49.8 percent to 66.2 percent. Imports in relation to U.S. consumption increased from 35 percent to 42.9 percent.

The company has formally announced that the Stamford plant will be permanently closed by the end of 1979. Company imports of ball bearings in the range of sizes produced at the Stamford plant increased from 1977 to 1978 and will totally replace domestic production by the end of 1979.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with ball bearings produced at the Stamford, Connecticut plant of the FAG Bearing Corporation contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of FAG Bearings Corporation, Stamford, Connecticut who became totally or partially separated from employment on or after March 1, 1978 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 8th day of January 1979.

C. MICHAEL AHO,
Director, Office of Foreign Economic Research.

[4510-28-M]

[TA-W-4250]

GRUNART, INC., PATERSON, N.J.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4250: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 10, 1978 in response to a worker petition received on October 2, 1978 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' sportswear at Grunart, Incorporated, Paterson, New Jersey. The investigation revealed that most of production is tops and skirts.

The Notice of Investigation was published in the FEDERAL REGISTER on October 20, 1978 (43 FR 49061). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Grunart, Incorporated, its manufacturer, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of women's, misses' and children's skirts increased from 442,000 dozen in the first nine months of 1977 to 1,068,000 dozen in the first nine months of 1978. U.S. imports of women's, misses' and children's blouses and shirts increased from 30,273,000 dozen in 1976 to 30,849,000 dozen in 1977, and from 24,036,000 dozen in the first nine months of 1977 to 28,505,000 dozen in the first nine months of 1978.

Grunart is a contractor producing junior sportswear for a single manufacturer. This manufacturer is experiencing declining sales in the current fiscal year (year ending January 31, 1979). The Department surveyed some of this manufacturer's customers. Several of the respondents reported that they reduced purchases from the manufacturer and increased purchases of imports in 1977 and the first nine months of 1978.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with ladies' tops and skirts produced at Grunart, Incorporated, Paterson, New Jersey contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Grunart, Incorporated, Paterson, New Jersey who became totally or partially separated from employment on or after September 26, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 11th day of January 1979.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

INVESTIGATIONS REGARDING CERTIFICATIONS OF ELIGIBILITY TO APPLY FOR WORKER ADJUSTMENT ASSISTANCE

Petitions have been filed with the Secretary of Labor under Section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted investigations pursuant to Section 221(a) of the Act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened

A 19 79 UMI

total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than January 29, 1979.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than January 29, 1979.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 10th day of January 1979.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

INVESTIGATIONS REGARDING CERTIFICATIONS OF ELIGIBILITY TO APPLY FOR WORKER ADJUSTMENT ASSISTANCE

Petitions have been filed with the Secretary of Labor under Section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted investigations pursuant to Section 221(a) of the Act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than January 29, 1979.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than January 29, 1979.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4261: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 16, 1978 in response to a worker petition received on October 4, 1978 which was filed on behalf of workers and former workers cutting ladies' and girls' coats as Jersey Fashions Inc., Jersey City, New Jersey.

The Notice of Investigation was published in the FEDERAL REGISTER on October 27, 1978 (43 FR 50268-70). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Jersey Fashions, Inc., its manufacturers, the National Cotton Council of America, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. With respect to workers in the warehousing and shipping departments, without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with those produced by the firm or appropriate subdivision have contributed importantly to the total or partial separations, or threat thereof, and to the decline in sales and/or production.

Evidence developed during the course of the Department's investigation revealed that Jersey Fashions, Inc. warehouses and ships both domestically produced coats and imported coats for the manufacturer with which it is affiliated. An increase in imports by the affiliated manufacturer would result in increased income for the warehouse and shipping departments.

Futhermore, the average number of workers per week increased every quarter from the first quarter of 1977 through the third quarter of 1978 compared to the same quarter of the previous year. Fluctuations in employment from quarter to quarter are attributable to seasonal factors.

With regard to workers in the cutting departments fo Jersey Fashions, Inc. it is concluded that all of the requirements have been met.

U.S. imports of women's, misses' and children's coats and jackets increased from 2,252 thousand dozens in 1976 to 2,723 thousand dozens in 1977. In the first three quarters of 1978 imports decreases slightly to 1,906 thousand dozens compared to 2,081 thousand dozens in the same period of 1977. The ratio of imports to domestic production increased from 48.3 percent in 1976 to 54.9 percent in 1977.

The manufacturer with which Jersey Fashions is affiliated decreased contract work with the subject firm in fiscal year 1978 (May 1977 through April 1978) compared to fiscal year 1977 and increased purchases of imported ladies' and girls' coats.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with women's and girls' coats produced at Jersey Fashions, Inc., Jersey City, New Jersey contributed importantly to the decline in sales or production and to the total or partial separation of workers of the cutting departments of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Jersey Fashions, Inc., Jersey City, New Jersey engaged in employment related to the cutting of women's and girls' coats who became totally or partially separated from employment on or after October 2, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

I further determine that workers engaged in employment related to the warehousing and shipping of women's and girls' coats at Jersey Fashions, Inc., Jersey City, New Jersey are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of January 1979.

C. MICHAEL AHO,
Director, Office of Foreign Economic Research.

[TA-W-4228]

THE LAMSON & SESSIONS CO., BEDFORD HEIGHTS, OHIO

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4228: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was inititated on September 29, 1978 in response to a worker petition received on September 25, 1978 which was filed on behalf of workers and former workers producing threaded screws and nuts at the Bedford Heights, Ohio plant of the Lamson and Sessions Company. The investigation revealed that the plant produced only specialty threaded screws.

The Notice of Investigation was published in the FEDERAL REGISTER on October 17, 1978 (43 FR 44795-44796). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of the Lamson and Sessions Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the criteria have been met.

U.S. imports of bolts and large screws increased from 474,084 thousand pounds in 1976 to 491,140 thousand pounds in 1977 and increased from 255,849 thousand pounds in the first six months of 1977 to 287,314 thousand pounds in the first six months of 1978. The ratio of imports to domestic production increased from 53.8 percent in 1976 to 54.7 percent in 1977 and increased from 53.6 percent in the first six months of 1977 to 60.7 percent in the first six months of 1978.

A Departmental survey of the customers of Lamson and Sessions Company revealed that some customers reduced purchases from the subject firm and increased purchases of imported specialty threaded screws in 1977 compared to 1976 and in the first nine months of 1978 compared to the first nine months of 1977.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with specialty threaded screws produced at the Bedford Heights, Ohio plant of Lamson and Session Company contributed importantly to the decline in sales and production and to the separation of workers at that facility. In accordance with the provisions of the Act, I make the following certification:

All workers of the Bedford Heights, Ohio plant of Lamson and Sessions Company who became totally or partially separated from employment on or after June 24, 1978 be certified eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 12th day of January 1979.

C. MICHAEL AHO,
Director, Office of Foreign Economic Research.

[TA-W-4480]

LEVI STRAUSS & CO., LUBBOCK, TEX.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4480: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on December 6, 1978 in response to a worker petition received on December 4, 1978 which was filed on behalf of workers and former workers producing men's jeans at the Lubbock, Texas plant of Levi Strauss & Company.

The Notice of Investigation was published in the FEDERAL REGISTER on December 19, 1978 (43 FR 59165-66). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Levi Strauss & Company, its customers, the National Cotton Council of America, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

Imports of men's and boys' woven cotton and man-made jeans and dungarees increased from 14 million pairs in 1976 to 23 million pairs in 1977 and from 16.7 million pairs in the first nine months of 1977 to 24.8 million pairs in the first nine months of 1978.

Customers who reduced purchases of jeans from Levi Strauss were surveyed. The survey revealed that customers increased purchases of imported jeans in the first six months of 1978 compared to the same period in 1977.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's jeans produced by Levi Strauss & Company contributed importantly to the decline in sales or production and to the total or partial separation of workers of the Lubbock, Texas plant. In accordance with the provisions of the Act, I make the following certification:

All workers of the Lubbock, Texas plant of Levi Strauss & Company who became totally or partially separated from employment on or after February 26, 1978 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 12th day of January 1979.

HARRY J. GILMAN,
Supervisory International Economist, Office of Foreign Economic Research.

[TA-W-4492]

LEWNER FASHIONS, LTD., NEW YORK, N.Y.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4492: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on December 8, 1978 in response to a worker petition received on December 4, 1978 which was filed by the Amalgamated Clothing and Textile Workers' Union on behalf of workers and former workers producing ladies' leather and suede coats at Lewner Fashions, Ltd., New York, New York.

The Notice of Investigation was published in the FEDERAL REGISTER on December 19, 1978 (43 FR 59179-59180). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Lewner Fashions, its major customer, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

Imports of men's, women's and children's leather coats and jackets increased absolutely in 1977 from 1976 and in January-September 1978 compared to the same period in 1977.

Imports of coats by Lewner's major customer increased in 1977 from 1976 and in January-July 1978 from the same period in 1977 while purchases

V 4 4 / 1 4 J A 19 79

from Lewner decreased in the same periods.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with ladies' leather and suede coats produced at Lewner Fashions, Ltd., New York, New York contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Lewner Fashions, Ltd., New York, New York who became totally or partially separated from employment on or after November 28, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 11th day of January 1979.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[TA-W-4039]

MARSHAL RAY CORP., TROY, N.Y.

Revised Determination of Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 and in accordance with Section 223(a) of such Act, on November 7, 1978 the Department of Labor issued a Notice of Negative Determination of Eligibility to Apply for Adjustment Assistance applicable to workers and former workers of Marshall Ray Corporation, Troy, New York.

The Notice of Negative Determination was published in the FEDERAL REGISTER on November 17, 1978 (43 FR 53860).

Subsequent to the publication of the original determination, the Office of Trade Adjustment Assistance received an inquiry on behalf of workers and former workers who were separated from Marshall Ray Corporation. Further investigation revealed that all of the group eligibility requirements of Section 222 of the Act have been met.

Imports of men's and boys' tailored dress coats and sportcoats increased from 2,567,000 units in the first six months of 1977 to 3,237,000 units in the same period of 1978.

The Department conducted a survey of customers of Marshall Ray. The survey revealed that some customers decreased purchases from Marshall Ray and increased purchases of imported sportcoats.

CONCLUSION

Based on the additional evidence, a review of the entire record, and in accordance with the provisions of the Act, I have determined that the following certification is hereby made as follows:

All workers at Marshall Ray Corporation, Troy, New York who became totally or partially separated from employment on or after July 27, 1978 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 11th day of January 1979.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[TA-W-3315]

MAVEST, INC. AND MODERN MANUFACTURING CORP., TIMONIUM, MD.

Revised Determination of Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 and in accordance with Section 223(a) of such Act, on October 24, 1978 the Department of Labor issued a Notice of Negative Determination of Eligibility to Apply for Adjustment Assistance applicable to workers and former workers of Mavest, Incorporated and Modern Manufacturing Corporation, Timonium, Maryland.

The Notice of Negative Determination was published in the FEDERAL REGISTER on October 31, 1978 (43 FR 50755).

Subsequent to the publication of the original determination, the Office of Trade Adjustment Assistance received an inquiry on behalf of workers and former workers who were separated from Mavest and Modern Manufacturing. Further investigation revealed that all of the group eligibility requirements of Section 222 of the Act have been met.

Imports of men's and boys' tailored dress coats and sportcoats increased from 2,567,000 units in the first six months of 1977 to 3,237,000 units in the same period of 1978.

The Department conducted a survey of customers of Mavest and Modern Manufacturing. The survey revealed that some customers decreased purchases from Mavest and Modern Manufacturing and increased purchases of imported sportcoats.

CONCLUSION

Based on the additional evidence, a review of the entire record, and in accordance with the provisions of the Act, I have determined that the following certification is hereby made as follows:

All workers at Mavest, Incorporated and Modern Manufacturing Corporation, Timonium, Maryland who became totally or partially separated from employment on or after July 7, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 11th day of January 1979.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-4310]

NABISCO, INC., FAIR LAWN, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4310: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 30, 1978 in response to a worker petition received on October 26, 1978 which was filed by the Bakery and Confectionery Workers' International Union of America on behalf of workers and former workers producing cookies and crackers at Nabisco, Inc., Fair Lawn, New Jersey.

The Notice of Investigation was published in the FEDERAL REGISTER on November 7, 1978 (43 FR 51866). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Nabisco, Inc., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or subdivision have contributed importantly to the total or partial separation, or threat thereof, and to the absolute decline in sales or production.

Evidence developed in the course of the investigation revealed that the declines in production and employment at the Fairlawn plant are attributable to the fact that Nabisco, Inc., transferred some of the production of cookies and crackers from its Fair Lawn, New Jersey facility to a modern plant in Richmond, Virginia.

The Richmond facility was opened in 1974. Production at the Richmond plant has increased steadily from year to year since its opening; production at some of the less efficient plants (Fair Lawn, Pittsburgh, and Philadelphia) has been reduced. Productivity figures show that the Richmond plant is much more efficient than the Fair Lawn facility. Nabisco, Inc., is currently upgrading some of the equipment at the Fair Lawn facility.

Sales by Nabisco's Bisquit Division, of which the Fair Lawn facility is a part, have increased in 1977 compared to 1976. Sales increased in the first three quarters of 1978 compared to the like period of 1977. Production by Nabisco's Bisquit Division remained approximately constant in the first three quarters of 1978 compared to the first three quarters of 1977.

CONCLUSION

After careful review, I determine that all workers of Nabisco, Inc., Fair Lawn, New Jersey are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 12th day of January 1979.

C. MICHAEL AHO,
Certifying Officer.

[TA-W-3692]

NEW BRUNSWICK CHILDREN'S COAT CO., HIGHLAND PARK, N.J.

Affirmative Determination Regarding Application for Reconsideration

On December 8, 1978, the Central District Council of New Jersey, International Ladies' Garment Workers' Union, AFL-CIO, requested administrative reconsideration of the Department of Labor's negative determination regarding eligibility to apply for worker adjustment assistance. This determination was published in the FEDERAL REGISTER on November 17, 1978, (43 FR 53861).

The petitioning union raises one basic issue in the application; namely, that the manufacturer who supplied the New Brunswick Children's Coat Company with orders and material during the base period was approved for trade adjustment assistance.

CONCLUSION

After review of the application, I conclude that this claim of the petitioning union is of sufficient weight to justify reconsideration of the Department of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, D.C., this 12th day of January 1979.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[4510-26-M]

[TA-W-4312]

PERVEL INDUSTRIES, INC., PLAINFIELD, CONN.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4312: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 30, 1978 in response to a worker petition received on October 26, 1978 which was filed on behalf of workers and former workers producing vinyl-coated fabrics at Pervel Industries, Inc., Plainfield, Conn. The investigation revealed that Pervel Industries, Incorporated produced vinyl and urethane-coated fabric, flocked fabrics and printed textiles.

The Notice of Investigation was published in the FEDERAL REGISTER on November 7, 1978 (43 FR 51866). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Pervel Industries, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separation, or threat thereof, and to the absolute decline in sales or production.

Pervel Industries, Incorporated produced coated fabrics, printed textiles and flocked fabric. The petition alleges that increased imports of shoes, handbags and linens have adversely affected sales and production at Pervel Industries, Incorporated.

Imported shoes, handbags and linens cannot be considered to be like or directly competitive with coated fabrics, printed textiles and flocked fabrics. Imports of coated fabrics, printed textiles and flocked fabric must be considered in determinihg injury to workers producing coated fabrics, printed textiles and flocked fabric at Pervel Industries, Incorporated.

The ratio of imports to domestic production and consumption for coated fabrics remained below 5.0 percent during the period from 1974 to 1977.

The Department's survey of customers who purchased coated fabrics from Pervel revealed that customers did not decrease their purchases from Pervel and increase their purchases of imported coated fabrics.

The ratio of imports to domestic production and consumption for finished fabric remained below 2.0 percent from 1974 to 1977.

The Department's survey of customers for whom Pervel printed textiles revealed that customers did not decrease their business with Pervel and increase their business with foreign suppliers of finished fabric.

Industry sources indicate that there are no significant imports of flocked fabrics.

CONCLUSION

After careful review, I determine that all workers of Pervel Industries, Inc., Plainfield, Conn. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 12th day of January 1979.

ROCKWELL INTERNATIONAL CORP., ADMIRAL SERVICE DIVISION, ROSEMONT, ILL.

Termination of Investigation

Pursuant to Section 221 of the Trade Act of 1974, an investigation was initiated on November 29, 1978 in response to a worker petition received on November 17, 1978 which was filed by the International Brotherhood of Electrical Workers on behalf of workers and former workers providing service repairs for televisions, stereos, refrigerators and freezers at Rockwell International Corporation, Admiral Service Division, Rosemont, Illinois.

The Notice of Investigation was published in the FEDERAL REGISTER on December 5, 1978 (43 FR 56953). No public hearing was requested and none was held.

The petitioning group of workers in this case was included in a determination (TA-W-4350) issued on January 8, 1978 which certified as eligible to apply for adjustment assistance all workers engaged in sales and service of televisions and denied eligibility to all workers engaged in the sales and service of refrigerators and freezers. Since all workers separated, totally or partially, from the Rosemont, Illinois plant of Rockwell International Corporation, Admiral Service Division on or after December 24, 1977 (impact date) and before Januray 28, 1981 (expiration date of the determination) are covered by an existing determination, a new investigation would serve no purpose. Therefore, it is recommended that this investigation be terminated.

Signed at Washington, D.C. this 11th day of January, 1979.

[TA-W-4264]

TEXACO, INC., PITTSBURGH DIVISION OFFICE, CORAOPOLIS, PA.

Negative Determination Regarding Application for Reconsideration

On December 4, 1978, the petitioners requested administrative reconsideration of the Department of Labor's Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance in the case of all workers of Texaco, Inc., at the Pittsburgh Division Office in Coraopolis, Pennsylvania. The determination was published in the FEDERAL REGISTER on December 8, 1978, (43 FR 57690).

Pursuant to 29 CFR 90.18(c), reconsideration may be granted under the following circumstances:

(1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;

(2) If it appears that the determination complained of was based on a mistake in the determination of facts previously considered; or

(3) If, in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justifies reconsideration of the decision.

The petitioners ask if imports of petroleum products have increased, then why has their industry suffered and why is it necessary for five of the largest oil companies to go on all allocations due to the shortage of petroleum products.

The Department would make a distinction between crude oil and refined petroleum products such as the various grades of gasoline, kerosene, diesel fuel, jet fuel, aviation gasoline, and fuel oil. The petitioners are not claiming that increased imports of refined products led to their separations but rather that the scarcity of crude oil was responsible. The Trade Act certification test, however, is whether increased imports of an article contributed importantly to worker separations and production or sales declines. Furthermore, increased imports of crude oil promote, rather than inhibit, the employment in marketing since increased crude oil imports enable the company to maintain or increase its domestic production of refined petroleum products which were marketed by the Pittsburgh Division Office of Texaco.

The shortage of refined petroleum products by some oil companies is the result of many factors, chiefly, inadequate refinery capacity, increased demand for winter heating oil, temporary refinery shutdowns and the continued demand for gasoline even in the slower winter driving months.

CONCLUSION

After review of the application and the investigative file, I conclude that there has been no error or misinterpretation of fact or misinterpretation of the law which would justify reconsideration of the Department of Labor's prior decision. The application is, therefore, denied.

Signed at Washington, D.C., this 12th day of January 1979.

C. MICHAEL AHO,
Director, Office of Foreign Economic Research.

[TA-W-4190]

VICKI CLOTHING CO., INC., NEWBURGH, N.Y.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4190: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 20, 1978 in response to a worker petition received on September 19, 1978 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing women's storm coats at Vicki Clothing Company, Incorporated, Newburgh, New York.

The Notice of Investigation was published in the FEDERAL REGISTER on October 31, 1978 (43 FR 50758). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Vicki Clothing Company, Incorporated, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That sales or production, or both, of the firm or subdivision have decreased absolutely.

Evidence developed in the course of the investigation indicated the firm is an apparel contractor whose sales equal production.

Company production increased in the second and third quarters of 1977 compared to the same quarters in 1976, and increased in the first nine months of 1978 compared to the same period of 1977.

The value of company production increased in each quarter, compared to the same quarter in the previous year, from the third quarter of 1977 through the third quarter of 1978.

CONCLUSION

After careful review, I determine that all workers of Vicki Clothing Company, Incorporated, Newburgh, New York are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 11th day of January 1979.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[TA-W-4328]

VICTOR GOLF EQUIPMENT CO., ELYRIA, OHIO

Negative Determination Regarding Eligibility To Apply for Work Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4328: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 2, 1978 in response to a worker petition received on October 27, 1978 which was filed by the International Association of Machinists and Aerospace Workers on behalf of workers and former workers producing golf balls and solid balls at Victor Comptometer Corporation, Worthington Golf Ball Plant, Elyria, Ohio. The investigation revealed that the plant primarily produces wound and solid golf balls. The plant is a facility of the Victor Golf Equipment Company which is a division of Victor Comptometer Corporation.

The Notice of Investigation was published in the FEDERAL REGISTER on November 13, 1978 (43 FR 52564). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Victor Golf Equipment Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

None of the customers of balls produced by the Elyria plant purchased imported golf balls. Reduced purchases by the customers in the first eleven months of 1978 reflect a general decline in demand for golf balls by those customers.

CONCLUSION

After careful review, I determine that all workers of the Elyria, Ohio plant of the Victor Golf Equipment Company, a division of Victor Comptometer Corproation are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 11th day of January 1979.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[TA-W-4361]

BARRY KNITTING MILLS, INC., PHILADELPHIA, PA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4361: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 13, 1978 in response to a worker petition received on November 6, 1978 which was filed by the Knitgoods Union, International Ladies' Garment Workers Union on behalf of workers and former workers producing men's and ladies' sweaters at Barry Knitting Mills, Incorporated in Philadelphia, Pennsylvania. The investigation revealed that the plant primarily produces men's sweaters.

The Notice of Investigation was published in the FEDERAL REGISTER on November 24, 1978 (43 FR 55011). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Barry Knitting Mills, Incorporated, its manufacturers, the U.S. Department of Commerce, the U.S International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of men's and boys' sweaters, knit cardigans and pullovers increased from 20.4 million units in 1975 to 26.5 million units in 1976 and to 28.3 million units in 1977. Imports increased to 33.2 million units in the first three quarters of 1978 as compared to 22.6 million units in the first three quarters of 1977.

U.S. imports of women's, misses' and children's sweaters increased from 1975 to 1976. In 1977, imports of sweaters increased by 9.0 percent over the average level of imports for the years 1973 through 1976. The ratio of imports of sweaters to domestic production in 1977 was above the import to domestic production ratio recorded in each year in the 1973 to 1975 time period.

The Department conducted a survey of the customers of Barry Knitting Mills, Incorporated. Customers accounting for a substantial portion of Barry's sales in the first ten months of 1977 reduced purchases of sweaters from Barry and increased purchases of imported sweaters in the first ten months of 1978 compared to the same period in 1977.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's and ladies' sweaters produced at Barry

Knitting Mills, Incorporated, Philadelphia, Pennsylvania contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Barry Knitting Mills, Incorporated, Philadelphia, Pennsylvania who became totally or partially separated from employment on or after September 15, 1978 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of January 1979.

JAMES F. TAYLOR,
Director, Office of Management Administration and Planning.

[4510-28-M]

[TA-W-4362]

BERGMAN KNITTING MILLS, INC., PHILADELPHIA, PENNSYLVANIA

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4362: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 13, 1978 in response to a worker petition received on November 6, 1978 which was filed by the Knitgoods Union, International Ladies Garment Workers' Union on behalf of workers and former workers producing knit sweaters for men, women and boys at Bergman Knitting Mills, Incorporated in Philadelphia, Pennsylvania. The investigation revealed that the plant produces only men's and boys' sweaters.

The Notice of Investigation was published in the FEDERAL REGISTER on November 24, 1978 (43 FR 55012). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Bergman Knitting Mills, Incorporated, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of men's and boys' sweaters, knit cardigans and pullovers increased from 20.4 million units in 1975 to 26.5 million units in 1976 and to 28.3 million units in 1977. Imports increased to 33.2 million units in the first three quarters of 1978 as compared to 22.6 million units in the first three quarters of 1977.

A Departmental survey was conducted with Bergman's major customers to determine whether their anticipated 1979 purchases would be from domestic of foreign sources. Most of the customers surveyed indicated that they currently import men's sweaters and that they are increasing their imports of sweaters. In addition, one of the major manufacturers who contracted sweater production to Bergman was itself affected by imports. The manufacturer had experienced decreasing sales in 1978 compared to 1977. Retailers had decreased their purchases from the manufacturer and had increased purchases of imported sweaters from 1977 to 1978.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's and boys' sweaters produced at Bergman Knitting Mills, Incorporated, Philadelphia, Pennsylvania contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Bergman Knitting Mills, Incorporated, Philadelphia, Pennsylvania who became totally or partially separated from employment on or after August 5, 1978 are eligible to appiy for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of January 1979.

C. MICHAEL AHO,
Director, Office of Foreign Economic Research.

[TA-W-4363]

CAPITOL KNITTING MILLS, INC., LITTLE FALLS, NEW JERSEY

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4363: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 13, 1978 in response to a worker petition received on November 8, 1978 which was filed by the Amalgamated Clothing and Textile Workers' Union of behalf of workers and former workers producing knit sweaters at Capitol Knitting Mills, Incorporated, Little Falls, New Jersey. The investigation revealed that the plant primarily produced men's and women's sweaters and knitted fabric.

The Notice of Investigation was published in the FEDERAL REGISTER on November 24, 1978 (43 FR 55012). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Capitol Knitting Mills, Incorporated its manufacturers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of men's and boys' sweaters, knit cardigans and pullovers increased from 20.4 million units in 1975 to 26.5 million units in 1976 and to 28.3 million units in 1977. Imports increased to 33.2 million units in the first three quarters of 1978 as compared to 22.6 million units in the first three quarters of 1977.

U.S. imports of women's, misses' and children's sweaters increased both absolutely and relative to domestic production from 1975 to 1976. Imports of sweaters in 1977 were greater than average level of imports for the years 1973 through 1976. The ratio of imports of sweaters to domestic production exceeded 140 percent in 1976 and in 1977. The IP ratio in 1977 was higher than the average IP ratio for the period 1973 through 1976.

U.S. imports of finished fabric (bleached, dyed, and printed) increased in the first three quarters of 1978 compared to the first three quarters of 1977. The ratio of imports to domestic production increased in each year from 1975 through 1977.

In a Departmental survey the customers of Capitol Knitting Mills, Incorporated indicated that they increased their reliance of imported men's and women's sweaters and decreased their purchases from Capitol Knitting Mills, Incorporated during the first eleven months of 1978 compared to the same period of 1977.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increase of imports of articles like or directly competitive with men's and women's sweaters and knitted fabric produced at Capitol Knitting Mills, Incorporated, Little Falls, New Jersey contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Capitol Knitting Mills, Incorporated, Little Falls, New Jersey who become totally or partially separated from employment on or after June 25, 1978 and before November 20, 1978 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of January 1979.

JAMES F. TAYLOR,
Director, Office of Management Administration and Planning.

[TA-W-4391]

CHALFONT MILLS, INC., QUAKERTOWN, PENNSYLVANIA

[TA-W-4391A]

CHALFONT MILLS, INC., NEW YORK, NEW YORK

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4391 and TA-W-4391A: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 16, 1978 in response to a worker petition received on November 14, 1978 which was filed by the Knitgoods Union, International Ladies' Garment Workers' Union on behalf of workers and former workers producing men's and ladies' sweaters at Chalfont Mills, Incorporated, Quakertown, Pennsylvania. The investigation revealed that the plant primarily produced men's sweaters.

The investigation was expanded to include the New York, New York sales office of Chalfont Mills, Incorporated.

The Notice of Investigation was published in the FEDERAL REGISTER on November 24, 1978 (43 FR 55011-55012). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Chalfont Mills, Incorporated, its manufacturers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of men's and boys' sweaters, knit cardigans and pullovers increased from 20.4 million units in 1975 to 26.5 million units in 1976 and to 28.3 million units in 1977. Imports increased to 33.2 million units in the first three quarters of 1978 as compared to 22.6 million units in the first three quarters of 1977.

A Departmental survey of a major manufacturer that contracted work to Chalfont revealed that this manufacturer substantially increased its purchases of imported men's sweaters and decreased its utilization of Chalfont Mills, Incorporated during the first ten months of 1978 compared to the same period of 1977.

CONCLUSION

After careful review of the facts obtained in the investigation; I conclude that increases of imports of articles like or directly competitive with men's sweaters produced at Chalfont Mills, Incorporated, Quakertown, Pennsylvania contributed importantly to the decline in sales or production and to the total or partial separation of workers of that plant and at the New York, New York sales office of Chalfont Mills, Incorporated. In accordance with the provisions of the Act, I make the following certification:

All workers of the Quakertown, Pennsylvania plant and the New York, New York sales office of Chalfont Mills, Incorporated who became totally or partially separated from employment on or after January 14, 1978 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of January 1979.

JAMES F. TAYLOR,
Director, Office of Management Administration and Planning.

[TA-W-4366]

DEVON APPAREL, INC., PHILADELPHIA, PENNSYLVANIA

[TA-W-4366a]

DEVON APPAREL, INC., NEW YORK, NEW YORK

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4366 and TA-W-4366a: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 13, 1978 in response to a worker petition received on November 6, 1978 which was filed by the Knitgoods Union, International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' coordinated sportswear: slacks, jackets, vests, sweaters, blouses, skirts, etc. at Devon Apparel, Incorporated in Philadelphia, Pennsylvania. The investigation revealed that the plant also produces women's walking shorts but does not produce vests. The investigation was expanded to include Devon's New York, New York sales office.

The Notice of Investigation was published in the FEDERAL REGISTER on November 24, 1978 (43 FR 55012-3). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Devon Apparel, Incorporated, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met.

That sales or production, or both, of the firm or subdivision have decreased absolutely.

Sales and production of ladies' coordinated sportswear increased at Devon Apparel, Incorporated from 1976 to 1977 and during the first ten months of 1978 compared to the same period of 1977.

CONCLUSION

After careful review, I determine that all workers of the Philadelphia, Pennsylvania facilities and the New York, New York sales office of Devon Apparel, Incorpoated are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of January 1979.

C. MICHAEL AHO,
Director, Office of Foreign Economic Research.

[TA-W-4145]

FORMAKER FOUNDATIONS, INC., WEST PATERSON, NEW JERSEY

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section. 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4145: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 13, 1978 in response to a worker petition received on September 11, 1978 which was filed on behalf of workers and former workers producing brassieres at Formaker Foundations, Inc., West Paterson, New Jersey. The investigation revealed that the company was closed in December 1977.

The Notice of Investigation was published in the FEDERAL REGISTER on September 26, 1978 (43 FR 43588). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Formaker Foundations, Incorporated, its customers, The New Jersey Bank, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. The Department's investigation revealed that all of the requirements have been met.

U.S. imports of brassieres, bralettes, and bandeaux increased from 8.75 million dozen in 1976 to 9.51 million dozen in 1977. The Import/Production ratio (I/P) increased from 51.7 percent in 1976 to 59.3 percent in 1977.

The Department conducted a survey of customers purchasing brassieres from the subject firm during 1976 and 1977. Customers responding to the survey indicated declines in purchases from Formaker Foundations, Incorporated and increased purchases of imported brassieres from 1976 to 1977.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with brassieres produced at Formaker Foundations, Incorporated, West Paterson, New Jersey contributed importantly to the decline in sales and to the separation of workers at that plant. In accordance with the provisions of the Act, I make the following certification:

All workers of Formaker Foundations, Incorporated, West Paterson, New Jersey engaged in employment related to the production of brassieres who became totally or partially separated from employment on or after September 1, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of January 1979.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[FR Doc. 79-2052 Filed 1-18-79; 8:45 am]

[4510-28-M]

[TA-W-4422]

GARMENT MAKERS, INC., BROOKLYN, NEW YORK

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4422: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 27, 1978 in response to a worker petition received on November 20, 1978 which was filed on behalf of workers and former workers producing women's coats at Garment Makers, Incorporated, Brooklyn, New York.

The Notice of Investigation was published in the FEDERAL REGISTER on December 5, 1978 (43 FR 56952). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Garment Makers, Incorporated, its manfacturers, the National Cotton Council of America, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That sales or production, or both, of the firm or sibdivision have decreased absolutely.

Evidence developed during the course of the investigation revealed that company production increased in the fourth quarter of 1977 compared with the same period of 1976 and in 1978 compared with 1977. Production increased in each quarter of 1978 compared with the same quarter of 1977. The subject firm is an apparel contractor; therefore sales and production are equivalent.

CONCLUSION

After careful review, I determine that all workers of Garment Makers, Incorporated, Brooklyn, New York are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of January 1979

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[4510-28-M]

[TA-W-4474]

NEW ENGLAND BOBBIN, INC., NASHUA, NEW HAMPSHIRE

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4474: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on December 6, 1978 in response to a worker petition received on November 29, 1978 which was filed on behalf of workers and former workers producing textile bobbins for weaving at New England Bobbin, Incorporated, Nashua, New Hampshire.

The Notice of Investigation was published in the FEDERAL REGISTER on December 19, 1978 (43 FR 59165-59166). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of New England Bobbin, Incorporated, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

New England Bobbin, Incorporated produced bobbins. The petition alleges that increased imports of textiles and finished wearing apparel affected production and employment at New England Bobbin, Incorporated, Nashua, New Hampshire. Imported textiles and finished apparel can not be considered to be like or directly competitive with bobbins. Imports of bobbins must be considered in determining import injury to workers producing bobbins.

Imports of bobbins are negligible and supply only a very small percentage of the domestic bobbin market. Moreover, demand in general for bobbins has declined as a result of technological change in the textile industry. Shuttle looms using bobbins are now being replaced by imported shuttleless looms which do not require bobbins. In fact, in 1977, the ratio of imports to U.S. production of shuttleless looms was 650 percent. The imported shuttleless looms have proven to be more efficient than the older shuttle looms or domestically produced shuttleless looms.

CONCLUSION

After careful review, I determine that all workers of New England Bobbin, Incorporated, Nashua, New Hampshire are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of January 1979.

JAMES F. TAYLOR,
Director, Office of Management Administration and Planning.

[TA-W-4062]

PUTNAM MANUFACTURING CO., NORTH GROSVENORDALE, CONNECTICUT

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 233 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4062: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on August 15, 1978 in response to a worker petition received on August 10, 1978 which was filed on behalf of workers and former workers producing children's and some ladies' outerwear at Putnam Manufacturing Company, North Grosvenordale, Connecticut. The investigation revealed that the firm primarily produces children's snowsuits

The Notice of Investigation was published in the FEDERAL REGISTER on August 29, 1978 (43 FR 38635). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of the Putnam Manufacturing Company, its manufacturers, their customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

Imports of ski/snow suits and coat/legging sets increased absolutely and relative to domestic production from 1976 to 1977 and increased absolutely in the first nine months of 1978 compared with the same period of 1977.

The Department conducted a survey of customers of children's snowsuits produced by Putnam Manufacturing. The survey indicated that some customers decreased purchases from Putnam Manufacturing and increased purchases of imported children's snowsuits.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with children's snowsuits produced at Putnam Manufacturing Company, North Grosvenordale, Connecticut contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Putnam Manufacturing Company, North Grosvenordale, Connecticut who became totally or partially separated from employment on or after August 10, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of January 1979.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[4510-28-M]

[TA-W-4399]

SAND N' SURF INC., PHILADELPHIA, PENNSYLVANIA

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4399: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 16, 1978 in response to a worker petition received on November 14, 1978 which was filed by the knitgoods Union ILGWU on behalf workers and former workers producing bathrobes and bathing suits for men and women at Sand N' Surf Incorporated, Philadelphia, Pennsylvania. The investigation revealed that the plant produces men's swim trunks and athletic shorts.

The Notice of Investigation was published in the FEDERAL REGISTER on November 24, 1978 (43 FR 55011). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Sand N' Surf, Incorporated, its customers (manufacturers), the Knitgoods Union, the U.S. Department of Commerce, the U.S. international Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

The Department conducted a survey of manufacturers which accounted for a major portion of sales of Sand N' Surf. The survey indicated that these manufacturers did not purchase imported garments or use foreign contractors. The manufacturers which decreased orders with Sand N' Surf indicated that total sales increased from 1977 to 1978. Most manufacturers indicated that they had increased contract work with Sand N' Surf.

CONCLUSION

After careful review, I determine that all workers of Sand N' Surf Incorporated, Philadelphia, Pennsylvania are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of January 1979.

C. MICHAEL AHO,

[TA-W-4415]

SPATOLA BROTHERS SHOE CO., WAYCROSS, GEORGIA

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4415: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 21, 1978 in response to a worker petition received on November 17, 1978 which was filed on behalf of workers formerly producing cold cure casuals for women, jogging shoes, and dress shoes for men at the Spatola Brothers Shoe Company, Waycross, Georgia. The investigation revealed that the firm produced men's and women's nonrubber and athletic footwear.

The Notice of Investigation was published in the FEDERAL REGISTER on December 5, 1978 (43 FR 56951-52). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of the Spatola Brothers Shoe Company, its manufacturer, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of women's nonrubber footwear increased from 152.1 million pairs during January—September of 1977 to 160.4 million pairs during January—September of 1978. The ratio of imports to domestic production increased from 131.6 percent in 1976 to 137.3 percent in 1977 and from 143.4 percent during January—September of 1977 to 150.5 percent during January—September of 1978.

U.S. imports of men's nonrubber footwear increased from 62.9 million pairs in 1976 to 63.2 million pairs in 1977. The ratio of imports to domestic production increased from 75.4 percent in 1976 to 78.5 percent in 1977.

U.S. imports of men's and women's athletic footwear increased from 34.7 million pairs in 1976 to 51.4 million pairs in 1977. The ratio of imports to domestic production increased from 343.6 percent in 1976 to 407.6 percent in 1977.

From August 1976 to October 1978, contract work with one manufacturer accounted for virtually all of Spatola Brothers' production. This manufacturer, when contacted by the Department, verfied that it had ceased contract work with Spatola Brother in October 1978. During the period from January to November of 1978 compared to the same period of 1977, the manufacturer had decreased its reliance on domestic sources for footwear and increased its reliance on foreign sources to the extent that imports represented the preponderance of the manufacturer's total footwear sales.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's and women's nonrubber and athletic footwear produced at the Spatola Brothers Shoe Company, Waycross, Georgia contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of the Spatola Brothers Shoe Company, Waycross, Georgia who became totally or partially separated from empioyment on or after May 30, 1978 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of January 1979.

JAMES F. TAYLOR,
Director, Office of Management Administration and Planning.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Arts

ARCHITECTURE, PLANNING, AND DESIGN ADVISORY PANEL

Renewal

In accordance with the provision of the Federal Advisory Committee Act (Pub. L. 92-463), Section 10(a)(4) of the National Foundation on the Arts and the Humanities Act of 1965, as amended (20 U.S.C. 959(a)(4) and Paragraph 9 of Office of Management and Budget Circular A-63) notice is hereby given that renewal of the Architecture, Planning and Design Advisory Panel has been approved by the Chairman of the National Endowment for the Arts for a period of 2 years until January 15, 1981. The Committee's objectives and scope of activities include the formulation of expert advice and recommendations to the Chairman, National Endowment for the Arts and the National Council on the Arts with respect to: a) applications submitted to the National Endowment for the Arts for Federal grant assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, and b) policies and programs of the National Endowment for the Arts. This Committee shall report to the National Endowment for the Arts, National Foundation on the Arts and the Humanities.

This charter will be filed with the standing Committees of the Senate and the House of Representatives having legislative jurisdiction over the Endowment and to the Library of Congress.

Dated: January 15, 1979.

JOHN H. CLARK,
Director, Office of Council and Panel Operations, National Endowment for the Arts.

National Endowment for the Humanities

HUMANITIES PANEL ADVISORY COMMITTEE

Meeting

JANUARY 10, 1979.

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, as amended), notice is hereby given that a meeting of the Humanities Panel will be held at 806 15th Street, NW, Washington, D.C. 20506, in room 1134, from 9 a.m. to 5:30 p.m. on February 5, 1979.

The purpose of the meeting is to review the applications submitted to the Research Tools Program of the National Endowment for the Humanities, for projects in the fields of Linguistics and Lexicography beginning June 1, 1979.

Because the proposed meeting will consider financial information and disclose information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated January 15, 1978, I have determined that the meeting would fall within exemptions (4) and (6) of 5 U.S.C. 552b(c) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with operation of the Committee.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. Stephen J. McCleary, 806 15th Street, NW, Washington, D.C. 20506, or call area code 202-724-0367.

STEPHEN J. MCCLEARY,
Advisory Committee Management Officer.

[7555-01-M]

NATIONAL SCIENCE FOUNDATION

ADVISORY COMMITTEE FOR ATMOSPHERIC SCIENCES

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Committee for Atmospheric Sciences.
Date: February 1 and 2, 1979.
Time: 9:00 a.m.—5:00 p.m.
Place: Room 543, National Science Foundation, 1800 G. Street, NW., Washington D.C. 20550
Type of meeting: Open.
Contact person: Dr. Alan J. Grobecker, Division Director, Division of Atmospheric Sciences, Room 644, National Science Foundation, Washington, D.C. 20550, telephone (202) 634-1490.
Summary minutes: May be obtained from the Committee Management Coordinator, Division of Financial and Administrative Management, Room 248, National Science Foundation, Washington, D.C. 20550.
Purpose of committee: The Advisory Committee for Atmospheric Sciences provides advice, recommendations, and oversight concerning support for research and research-related activities in the atmospheric sciences area.

Agenda:

February 1, 1979:

0900—Welcome.
0915—Introduction of New Members, Approval of Agenda, Minutes of October 1978 ASAC Meeting, Annual Report of ASAC, 1978.
1000—Discussion of NSF Atmospheric Sciences Division. Funding Priorities.

February 2, 1979:

0900—Discussion of NSF Support of Graduate Students, Postdoctoral Scientists, etc.
1600—Future Activities of the Advisory Committee for Atmospheric Sciences.
1700—Adjourn.

M. REBECCA WINKLER,
Committee Management Coordinator.

JANUARY 16, 1979.

Reason for late notice: 5 new members were recently appointed to the Advisory Committee. Due to this, it was difficult to get a date that was acceptable to both the old and new members. Normally, during the regular meeting of the Advisory Committee, future meeting dates are determined.

SUBCOMMITTEE ON ANTHROPOLOGY

Meeting

In accordance with the Federal Advisory Committee Act, as amended, Pub. L. 92-463, the National Science Foundation announces the following meeting.

Name: Subcommittee on Anthropology of the Advisory Committee for Behavioral and Neural Sciences. (Physical/Archaeology).
Date and time: February 8 and 9, 1979: 9:00 a.m. to 5:00 p.m. each day.
Place: Room 628, National Science Foundation, 1800 G Street, NW., Washington, D.C. 20550.
Type of meeting: Closed.
Contact person: Dr. John E. Yellen, Program Director, Anthropology Program, Room 320, National Science Foundation, Washington, D.C. 20550, telephone (202) 632-4208.
Purpose of subcommittee: To provide advice and recommendations concerning support for research in physical anthropology/archaeology.
Agenda: To review and evaluate research proposals as part of the selection process for awards.
Reason for closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.
Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

M. REBECCA WINKLER,

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Proposed Meetings

In order to provide advance information regarding proposed meetings of the ACRS Subcommittees and Working Groups, and of the full Committee, the following preliminary schedule reflects the current situation, taking into account additional meetings which have been scheduled and meetings which have been postponed or cancelled since the last list of proposed meetings published December 20, 1978 (43 FR 59448). Those meetings which are definitely scheduled have had, or will have, an individual notice published in the FEDERAL REGISTER approximately 15 days (or more) prior to the meeting. Those Subcommittee and Working Group meetings for which it is anticipated that there will be a portion or all of the meeting open to the public are indicated by an asterisk (*). It is expected that the sessions of the full Committee meeting designated by an asterisk (*) will be open in whole or in part to the public. ACRS full Committee meetings begin at 8:30 a.m. and Subcommittee and Working Group meetings usually begin at 8:30 a.m. The exact time when items listed on the agenda will be discussed during full Committee meetings and when Subcommittee and Working Group meetings will start will be published approximately 15 days prior to each meeting. Information as to whether a meeting has been firmly scheduled, cancelled, or rescheduled, or whether changes have been made in the agenda for the February 1979 ACRS full Committee meeting can be obtained by a prepaid telephone call to the Office of the Executive Director of the Committee (telephone 202/634-3267, ATTN: Mary E. Vanderholt) between 8:15 a.m. and 5:00 p.m., EST.

SUBCOMMITTEE AND WORKING GROUP MEETINGS

**Salem Nuclear Power Station, Unit No. 2*, January 24, 1979, rescheduled from December 19, 1978, Washington, DC. The Subcommittee will review the application of the Public Service Electric and Gas Company for a license to operate Unit No. 2 of this Station. Notice of this meeting was published December 20, 1978 and January 9, 1979 (43 FR 59448 and 44 FR 2044, respectively). A notice of change of time only, also appears elsewhere in this issue.

**Architect-Engineer Balance of Plant*, January 26, 1979, rescheduled from December 18, 1978, Washington, DC. The Subcommittee will review the Fluor Power Services, Inc. Balance of Plant Standard Safety Analysis Report (BOPSSAR) and its relationship to the Babcock and Wilcox Standard Reference System B-SAR-205 for a preliminary design approval. Notice of this meeting was published December 20, 1978 (43 FR 59448) and January 11, 1979 (44 FR 2439).

**Power and Electrical Systems*, January 31, 1979, Washington, DC. RESCHEDULED for February 28, 1978.

V 4 4 / 1 4 J A 1 9 7 9 UMI

Notice of this meeting was published December 20, 1978 (43 FR 59448).

**Anticipated Transients without Scram (ATWS)*, January 31, 1979, Washington, DC. The Subcommittee will continue its discussions of vol. 3, NUREG-0460, "Anticipated Transients without Scram for Light-Water Reactors." Notice of this meeting was published January 16, 1979.

**Regulatory Activities*, February 7, 1979, Washington, DC. CANCELLED. Notice of this meeting was published December 20, 1978 (43 FR 59448).

**Plant Arrangements*, February 7, 1979, Washington, DC. RESCHEDULED for March 7, 1979, Washington, DC. Notice of this meeting was published December 20, 1978 (43 FR 59448).

**Evaluation of Licensee Event Reports*, February 7, 1979, Washington, DC. The Subcommittee will meet in Executive Session to plan its review of Licensee Event Reports submitted during the period 1976-1978.

**Procedures and Administration*, February 7, 1979, Washington, DC. The Subcommittee will discuss work assignments of ACRS fellows and appointments of individuals as ACRS fellows.

**Power and Electrical Systems*, February 28, 1979, Washington, DC. Rescheduled from January 31, 1979. The Subcommittee will review the potential adverse interactions through the interconnection of protection and safety systems with reactor control systems on the Westinghouse RESAR-414 design.

**Regulatory Activities*, March 7, 1979, Washington, DC. The Subcommittee will review working papers and future regulatory guides; also, it will discuss pertinent activities which affect the current licensing process and/or reactor operations. Notice of this meeting was published December 20, (43 FR 59448).

**Plant Arrangements*, March 7, 1979 (Tentative), Washington, DC. Rescheduled from February 7, 1979. The Subcommittee will continue its review of NRC Task Action Plan A-17, Systems Interactions in Nuclear Power Plants.

**San Onofre Nuclear Generating Station, Units 2 and 3*, March 21-22, 1979, Los Angeles, CA. The Subcommittee will review the application of the Southern California Edison Company for a license to operate Units 2 and 3 of this Station. Notice of this meeting was published December 20, 1978 (43 FR 59448).

**Palo Verde Nuclear Generating Station, Units 4 and 5*, March 27, 1979, Phoenix, AZ. The Subcommittee will review the application of the Arizona Nuclear Power Company for a permit to construct Units 4 and 5 of this Station. Notice of this meeting was published December 20, 1978 (43 FR 59448).

ACRS FULL COMMITTEE MEETINGS

February 8-10, 1979

A. *Salem Nuclear Generating Station, Unit No. 2—Operating License Review

B. *Fluor Pioneer, Inc. Balance of Plant Standard Safety Analysis Report (BOPSSAR)/Babcock and Wilcox Standard Reference System B-SAR-205—Preliminary Design Approval.

March 8-10, 1979—Agenda to be announced.

April 5-7, 1979—Agenda to be announced.

Dated: January 15, 1979.

JOHN C. HOYLE,
Advisory Committee Management Officer.

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON THE SALEM NUCLEAR POWER STATION

Change

The meeting of the ACRS Subcommittee on the Salem Nuclear Station scheduled to be held on January 24, 1979, in Washington, D.C. will start at 8:30 a.m. instead of 1 p.m. on that date.

Notice of this meeting was published on January 9, 1979 (44 FR 2044). All other matters pertaining to this meeting remain the same as previously announced.

Dated: January 15, 1979.

JOHN C. HOYLE,
Advisory Committee Management Officer.

[Docket No. 40-299]

UNION CARBIDE CORP.

Availability of Draft Environmental Statement for Gas Hills, Wyoming, Uranium Mill

Notice is hereby given that a Draft Environmental Statement has been prepared by the Commission's Office of Nuclear Material Safety and Safeguards related to license renewal for the operation of the Union Carbide Gas Hills Uranium Mill located in Natrona County, Wyoming. The Draft Statement also covers a proposed uranium heap leaching project located about 10 miles from the mill. The Draft Environmental Statement is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C. 20555. The Draft Statement is also being made available at the State Clearinghouse, State Planning Coordinator, Office of the Governor, Capitol Building, Cheyenne, Wyoming 82001. Requests for copies of the Draft Environmental Statement (identified as NUREG-0441) should be addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Division of Technical Information and Document Control.

The Applicant's Environmental Report, as supplemented, submitted by Union Carbide Corporation is also available for public inspection at the above-designated locations. Notice of availability of the Applicant's Environmental Report was published in the FEDERAL REGISTER on February 14, 1977 (42 FR 9069).

Interested persons may submit comments on the Draft Environmental Statement for the Commission's consideration. Federal and State agencies are being provided with copies of the Draft Environmental Statement (local agencies may obtain these documents upon request). Comments by Federal, State, and local officials, or other persons received by the Commission will be made available for public inspection at the Commission's Public Document Room in Washington, D.C. Comments are due by March 5, 1979. Upon consideration of comments submitted with respect to the Draft Environmental Statement, the Commission's staff will prepare a Final Environmental Statement, the availability of which will be published in the FEDERAL REGISTER.

Comments on the Draft Environmental Statement from interested persons of the public should be addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Fuel Cycle and Material Safety.

Dated at Silver Spring, Maryland, this 9th day of January, 1979.

For The Nuclear Regulatory Commission.

ROSS A. SCARANO,
Section Leader, Uranium Mill Licensing Section, Fuel Processing and Fabrication Branch, Division of Fuel Cycle and Material Safety.

[Docket Nos. 50-280 and 50-281]

VIRGINIA ELECTRIC AND POWER CO.

Proposed Issuance of Amendments to Facility Operating Licenses

The United States Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating License Nos. DPR-32 and DPR-37 issued to Virginia Electric and Power Company (the Licensee), for operation of the Surry Power Station, Unit Nos. 1 and 2 located in Surry County, Virginia.

The amendments would revise the provision in the Technical specifications related to a reevaluation of the ECCS using an approved model as required by Order for Modification of License Dated April 7, 1978 for Unit 2 and Exemption dated June 30, 1978 for Unit 1. The ECCS evaluation includes an increase in the steam generator tube plugging levels from 25% to 28% in accordance with the licensee's application for amendment dated December 26, 1978.

Prior to issuance of the proposed license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

By February 20, 1979, the licensee may file a request for a hearing with respect to issuance of the amendments to the subject facility operating licenses and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written petition for leave to intervene. Requests for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR § 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) the nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend his petition, but such an amended petition must satisfy the specificity requirements described above.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, the petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter, and the bases for each contention set forth with reasonable specificity. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

A request for a hearing or a petition for leave to intervene shall be filed with the Secretary of the Commission United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, or may be delivered to the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. by the above date. Where petitions are filed during the last ten (10) days of the notice period, it is requested that the petitioner or representative for the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at (800) 325-6000 (in Missouri (800) 342-6700). The Western Union operator should be given Datagram Identification Number 3737 and the following message addressed to A. Schwencer: (petitioner's name and telephone number); (date petition was mailed); (plant name); and (publication date and page number of this FEDERAL REGISTER notice). A copy of the petition should also be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Michael W. Maupin, Hunton and Williams, Post Office Box 1535, Richmond, Virginia 23213, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board designated to rule on the petition and/or request, that the petitioner has made a substantial showing of good cause for the granting of a late petition and/or request. That determination will be based upon a balancing of the factors specified in 10 CFR § 2.714(a)(i)-(v) and § 2.714(d).

For further details with respect to this section, see the application for amendment dated December 26, 1978, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Swem Public Library, College of William and Mary, Williamsburg, Virginia 23185.

Dated at Bethesda, Maryland this 15th day of January, 1979.

For the Nuclear Regulatory Commission.

A. SCHWENCER,
Chief, Operating Reactors Branch #1, Division of Operating Reactors.

[7590-01-M]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON ANTICIPATED TRANSIENTS WITHOUT SCRAM (ATWS)

Meeting

The ACRS Subcommittee on Anticipated Transients without Scram (ATWS) will hold an opening meeting on January 31, 1979, in Room 1046, 1717 H Street, N.W., Washington, DC 20555 to continue its discussion of Vol. 3, NUREG-0460, "Anticipated Transients without Scram for Light-Water Reactors."

In accordance with the procedures outlined in the FEDERAL REGISTER on October 4, 1978, (43 FR 45926), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

V 4 4 / 1 4 J A 1 9 7 9 UMI

The agenda for subject meeting shall be as follows: *Wednesday, January 31, 1979. 8:30 a.m. until the conclusion of business.*

The Subcommittee may meet in Executive Session, with any of its consultants who may be present, to explore and exchange their preliminary opinions regarding matters which should be considered during the meeting and to formulate a report and recommendations to the full Committee.

At the conclusion of the Executive Session, the Subcommittee will hear presentations by and hold discussions with representatives of the NRC Staff, various industries, and their consultants, pertinent to this review. The Subcommittee may then caucus to determine whether the matters identified in the initial session have been adequately covered and whether the project is ready for review by the full Committee.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the Designated Federal Employee for this meeting, Dr. Thomas G. McCreless, (telephone 202/634-3267) between 8:15 a.m. and 5:00 p.m., EST.

Background information concerning items to be considered at this meeting can be found in documents on file and available for public inspection at the NRC Public Document Room, 1717 H Street, N.W., Washington, DC 20555.

Dated: January 9, 1979.

JOHN C. HOYLE,
Advisory Committee Management Officer.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 10556; 812-4380]

CWC HOUSING INVESTMENT GROUP AND CONTINENTAL WINGATE CO., INC.

Filing of Application for Exemption From All Provisions of the Act

JANUARY 12, 1979.

Notice is hereby given that CWC Housing Investment Group ("Group"), 20 Kilby Street, Boston, Massachusetts 02109, a Massachusetts limited partnership, and its general partner, Continental Wingate Company, Inc. ("General Partner") (collectively, "Applicants"), filed an application on October 20, 1978, and amendments thereto on November 17, 1978, December 29, 1978, and January 12, 1979, pursuant to Section 6(c) of the Investment company Act of 1940 ("Act"), for an order exempting the Group from all provisions of the Act and rules thereunder. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicants state that the Group was formed under the Massachusetts Limited Partnership Act on June 28, 1978. The Group is designed to implement the policy of Title IX of the Housing and Urban Development Act of 1968 that private investors be provided a means and an incentive to acquire equity interests in, and thereby provide equity financing for, government-assisted rental housing projects for low and moderate income persons.

The Group will operate as a "two-tier" partnership, i.e., the Group, a limited partnership, will invest in other limited partnerships (hereinafter referred to as "operating partnerships") which, in turn, will be engaged in the development, rehabilitation, ownership and operation of housing for low and moderate income persons. The Group is organized as a limited partnership because a limited partnership is the only form of organization which provides investors with both (1) the ability to claim on their individual tax returns the deductions, losses, credits, and other tax items arising from the rehabilitation and operation of the real estate projects, and (2) liability limited to their capital investment.

One of the Group's primary objectives is to pass through to its limited partners net losses which may be used to offset other taxable income. Rehabilitated governmentally-assisted housing projects, according to Applicants, generally incur substantial net losses, for tax purposes, particularly in their early years.

Applicants state that the Group has filed and amended a registration statement under the Securities Act of 1933 covering the sale of 350 to 1,090 units ("Units"), each consisting of one limited partnership interest. These interests are to be sold only to qualified investors with a minimum subscription of one Unit costing $5,000. The total capital of the Group, assuming all Units are sold, will be $5,450,000 before deductions for organization expenses, sales commissions, and expenses of the offering. This amount includes $75,000 from the initial Limited Partner, which is an affiliate of the General Partner, and $5,375,000 from public investors. The Group will pay selling commissions of up to $450 per Unit. The Group will have a minimum of $1,497,500 and a maximum of $4,796,000 available for investment after deductions for sales commissions and offering expenses.

Applicants further state that sales of Units to the public are proposed to be effected through Shearson Hayden Stone Inc., Continental Wingate Capital Corporation ("CWCC"), and other registered broker-dealers. CWCC is a wholly owned subsidiary of the General Partner. No subscription for units will be accepted unless it is approved by the General Partner, which approval shall be conditioned upon representations as to suitability of the investment for each subscriber. Units will be offered and sold only to investors who represent, among other things, (1) that the Federal income tax bracket at which a substantial portion of losses from this investment will be applied is at least 50% (46% for corporations) and is expected to continue to be at such level for six years; (2) that they have a net worth of at least $50,000 (exclusive of home, furnishings, and automobiles); and (3) that they are aware of the risks involved in investing in the Group. Each transferee of Units must, as a condition to being admitted to the Group as a substituted Limited Partner, represent that he meets the same suitability standards as those applicable to original investors.

Applicants state that the Group will be controlled by the General Partner pursuant to the partnership agreement. However, the partnership agreement provides that a majority in interest of the Limited Partners may dissolve the Partnership, amend the partnership agreement, and subject to (a) the receipt of an opinion of counsel that the Group will not (i) lose its status as a Limited Partnership under Massachusetts law or (ii) be treated for Federal income tax purposes as an association taxable as a corporation, and (b) the receipt of required government consents, remove the General Partner and/or elect substitute general partners. The opinion as to loss of status as a limited partnership under Massachusetts law will not be required to remove the General Partner for a material violation of the Group's partnership agreement. Also under the partnership agreement, each Limited Partner is entitled to review the records of the Group at reasonable times, including the register of the names, addresses, and number of Units owned by each other Limited Partner.

The Group's capital contributions to the operating partnerships will be made in stages and will be contingent, in each case, upon the occurrence of certain events, such as closing of construction, financing arrangements, completion of construction, receipts of certificates of occupancy, achievement of certain occupancy levels, and closing of permanent financing arrangements.

Because the Group will invest only in limited partnership interests, both the Group and the General Partner will have only limited control over the management of the operating partnerships. However, the general partners of each operating partnership are Gerald Schuster and A. Carleton Dukess, who, in turn, are directors, officers and principal shareholders of the General Partner. Each operating partnership agreement provides for (1) the right of the Group to approve or disapprove the sale or refinancing of its project (until January 1, 1999, the requirement for such consent will exist in all cases; after that date, such consent will not be required if the net proceeds will be sufficient to pay off all Partnership debt other than Mortgage Loans and to return the Group's capital contributions, less all prior cash distributions from cash flow or otherwise); and (2) upon the occurrence of certain events, the right to demand the resignation of the general partners.

Applicants state the General Partner and its affiliates will receive substantial reimbursements, fees and other compensation from the proceeds of the sale of the Units and from operations of the operating partnerships.

In addition, the General Partner will be entitled to receive 1% of the Group's profits, losses, and net cash receipts, and upon liquidation of the Group, 1% of the net proceeds available for distribution after return to the Limited Partners of their cash contributions to the Group plus a cumulative six percent annual return on such contributions minus any prior cash flow contributions. The general partners of the operating partnerships will be entitled to receive a 3% interest in the profits, losses, and net cash receipts from each operating partnership, and upon liquidation of any operating partnership, 14% of the net proceeds available for distribution after return to the Group of its capital contribution to such operating partnership plus a cumulative six percent annual return on such contributions, minus any prior cash distributions to the Group from such operating partnership's cash flow.

Applicants further state that in the initial period, the General Partner will be paid a builders and developers fee and will be reimbursed for costs not funded by project mortgage proceeds, building fees to general contractors, and anticipated GNMA discounts. Moreover, during the Group's operational period, affiliates of the General Partner will receive in consideration for their management services, a five year rent-up and additional management fee. The General Partner believes and represents that the reimbursements, compensation, fees and expenses receivable by it and its affiliates from the Group and/or the operating partnerships in which the Group will invest are reasonable, fair, and do not involve overreaching, and are competitive from the point of view of the Group, the operating partnerships in which the Group will invest and investors in the Group.

The Group states that it will file with the Commission pursuant to Section 15(d) of the Securities Exchange Act of 1934 all required annual reports, quarterly reports, and current reports on Forms 10-K, 10-Q and 8-K, as well as any other reports required by such Act. The General Partner will also distribute to each Limited Partner within 75 days after the end of each fiscal year an annual report containing a balance sheet, statement of income, partner's equity, and changes in financial position for such fiscal year. Such annual report shall include a report of the Group's activities during the year and a cash flow statement setting forth distributions to Limited Partners and specifying the specific sources of such cash. Within 75 days of the close of each fiscal year, each Limited Partner also will be sent a schedule containing all information from the Group necessary for the preparation of his federal and state income tax returns.

The General Partner expressly recognizes that it has a fiduciary obligation to the Group and will act in accordance with such fiduciary obligation in publicly or privately offering and selling limited partnership interests in other limited partnerships which it may sponsor. The General Partner will also act in accordance with such fiduciary obligations to the Group in choosing which operating partnerships the Group will invest in, if it does not invest in all of the operating partnerships described in the Group's prospectus.

Applicants maintain that the Group is not an investment company as defined in the Act, but request that, in any event, the Group be exempted from all provisions of the Act pursuant to Section 6(c) thereof. Section 6(c) of the Act provides that the Commission may exempt any person, security, or transaction from any provision of the Act and rule thereunder if, and to the extent that, such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicants contend that the exemption of the Group from the provisions of the Act is both necessary and appropriate in the public interest. It is asserted that the form of organization of the Group, i.e., a limited partnership, which is necessary to limit the liability of private investors investing in subsidized and low and moderate income housing, is incompatible with the regulatory framework of the Act. Applicants contend that to discourage the two-tier limited partnership arrangement by application of the Act would eliminate the primary means of attracting equity capital into government-assisted housing and would frustrate the national policy declared by Congress "to encourage the widest possible participation by private enterprise in the provision of housing for low and moderate income persons."

Applicants further state that the exemption would be consistent with the protection of investors and the purposes and policies of the Act. Sales of the Units will be restricted to specially qualified investors, who will be apprised of the management and operations of Group through reports sent to the Limited Partners and filed with the Commission and who must make representations as to income, net worth and present and projected income tax rate. With the exception of funds which the Group may hold in bank accounts or other interim investments, pending contribution to the capital of the operating partnerships, all of the proceeds of the sale of the Units will be invested in the operating partnerships. Such operating partnerships are specifically identified and described in the Group's registration statement under the Securities Act of 1933. Each such operating partnership is engaged in the development and construction of housing for low and moderate income tenants.

Applicants point out, in addition, that the Group's stated investment policies and objectives circumscribe the General Partner's discretion to invest the Group's assets. Likewise, the discretion of the general partners of the operating partnerships is limited by the governmental regulations to which each such entity is subject. The General Partner also represents that until the net proceeds of the offering by the Group have been invested or committed to investment, no partnership of the same objectives for which it acts as general partner wil make a public offering of its securities. Finally the General Partner represents that all transactions between it and its affiliates, on one hand, and the Group and the operating partnerships, on the other hand (including the reimbursements, compensation, fees and expenses receivable in connection therewith), will be made only on terms that are reasonable and fair and consistent with the policies and purposes of the Group, do not involve any overreaching, and are no less favorable to the Group than those offered by others in the same vicinity.

V 4 4 / 1 4 A 1 9 7 9 UMI

Notice is further given that any interested person may, not later than February 5, 1979, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication, should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of such service (by affidavit or, in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 15490; SR-CBOE-78-23]

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Order Approving Proposed Rule Change

JANUARY 11, 1979.

I. BACKGROUND

On June 28, 1978, the Chicago Board Options Exchange, Incorporated, LaSalle at Jackson, Chicago, Illinois 60604, (the "CBOE" or "Exchange") filed with the Commission, pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(s)(b)(1) (the "Act") and Rule 19b-4 (17 CFR 240.19b-4) thereunder, copies of a proposed rule change which would permit the CBOE to provide for the maintenance of limit order books by Exchange employees to be known as "order book officials" or "OBO's," rather than by CBOE members.[1] This rule change proposal is intended by the CBOE to replace an earlier proposal which would have permitted CBOE members to continue to function as board brokers, but would have provided for the appointment of board brokers by a competitive bidding system, known as "bid-a-book."[2]

Under the competitive bidding proposal, an applicant would state the level of compensation for which he would be willing to act as a board broker in a particular class of options. That compensation would be received by the board broker from the CBOE which, in turn, would assess fees upon brokers using board broker services. The Commission approved the "bid-a-book" rule change on June 24, 1977,[3] but noted that the rule was not self-executing and that its implementation would require the CBOE to submit additional rules delineating the specific terms governing board broker appointments and the precise level of fees to be charged by the CBOE for providing limit order book services.[4]

On April 4, 1978, the CBOE filed rule proposals with the Commission that were designed to implement the "bid-a-book" system, *i.e.*, rules delineating the operating details of the proposed system, including how board broker assignments were to be awarded[5] and a proposed fee schedule.[6] At the request of the CBOE, however the Commission has taken no action on the "bid-a-book" implementation proposals because the CBOE, if the instant proposal is approved, will withdraw its "bid-a-book" implementation proposals.[7] Accordingly, the only proposal which this order addresses is SR-CBOE-78-23, which proposes an OBO system for the maintenance of limit order books on the CBOE.

II. BOARD BROKER FUNCTIONS

The CBOE, since its inception in 1973, has used CBOE members, known as "board brokers,"[8] to perform the functions associated with maintenance of the limit order book. Thus, the board broker acts as a central repository for the limit orders of public investors and executes those orders on the book if the current market renders them capable of execution. For each class of options[9] there is one limit order book and one board broker appointed by the Exchange to maintain the book.[10] In performing these functions the board broker acts solely in an agency capacity and is prohibited from trading for his own account in those options in which he is registered as a board broker.[11] As a member, the board broker is also financially responsible for any errors which may result from his mishandling of agency orders entrusted to him.

Each appointed board broker oversees a trading station staffed by at least two clerical assistants and every two stations share the services of an assistant board broker.[12] Active stations employ additional clerks and assistant board brokers. Each of the 28 board brokers on the floor is exclusively assigned from one to five classes of options. The board broker also is responsible for controlling the trading crowd at his station and is further obligated to report any unusual activities or market conditions involving his assigned options classes.[13]

The board broker also must conduct "opening trading rotations", (*i.e.*, a call market) in each series[14] of his assigned options classes, during which certain orders accumulated since the previous close are executed and opening trading prices are established,[15] and "closing trading rotations," during which closing prices are established at the end of each trading day.[16] The board broker also must conduct trading rotations when called upon to do so by a floor official during a "fast" market.[17]

All current board brokers have been appointed under CBOE rules which took into account board broker vacancies and the skill and experience of the applicants, as well as that of their prospective staffs. Board broker appointments may be terminated under CBOE Rule 7.3(b), after notice and opportunity for hearing, for "financial or operating difficulty," for the "protection of investors," or where it "would further the interests of the Exchange or its members in maintaining fair and orderly markets."[18] Finally, a board broker is compensated directly by CBOE members for orders placed on a CBOE limit order book and executed by that board broker.[19]

III. SR-CBOE-78-23: THE CURRENT RULE CHANGE PROPOSAL

During April, 1978, when options trading on the CBOE and other options exchanges reached record volumes, the CBOE experienced difficulty in handling its order flow. In response to perceived competitive disadvantages stemming from these operational difficulties, the CBOE's Executive Committee reexamined the Exchange's board broker system. That Committee concluded that the existing board broker system is the CBOE's "greatest weakness" and that the only way the Exchange could maintain "optimum efficiency" and "timely control over the quality of service" would be to "implement an Order Book Official system . . . to perform the Board Broker functions."[20] Consequently, pursuant to a unanimous vote of its Board of Directors, the CBOE filed with the Commission the instant rule proposal that would authorize the Exchange to replace its board broker system with an OBO system.[21]

The CBOE has also filed, pursuant to Section 19(b)(3)(A) of the Act, two additional rule proposals which relate to SR-CBOE-78-23. First, on December 4, 1978, the CBOE filed a proposal that would establish a schedule of exchange fees for limit orders executed on the CBOE floor by the Exchange's OBO's.[22] The Proposal would establish a uniform fee schedule for all options orders handled by OBO's and would not differentiate among options series or classes in any manner.[23] These rates will not be implemented unless and until the Commission first approves the instant OBO proposal (SR-CBOE-78-23).[24]

Second, on January 5, 1979, the CBOE filed a proposal which would amend its constitution by inclusion of an interpretation which clarifies that the article prohibiting employees and salaried officers from purchasing or selling options on the CBOE does not apply to employees or officers who do so in the performance of their duties and responsibilities as assigned by the CBOE.[25] This proposal, approved by a membership vote on January 8, 1978, was appropriately filed pursuant to Section 19(b)(3)(A) of the Act, and became effective, pursuant to that Section, upon receipt by the Commission of notice that such final Exchange action has been taken.[26]

Under CBOE's proposal to convert to an OBO system, the functions now

[4] *Id.*, 12 SEC Docket, note 1 at 1014. Prior to the Commission's order approving the "bid-a-book" rule change, CBOE board brokers sued the CBOE in Illinois state court seeking a declaratory judgment that the rule's implementation would deprive board brokers of certain rights under state law. (*Belenke et al* v. *Chicago Board Options Exchange, Inc.*, No. 77L 11428 (Cir. Ct. of Cook Co., Ill., filed June 15, 1977)).

On July 11, 1977, essentially the same board brokers filed a petition in the United States Court of Appeals for the Seventh Circuit for review of the Commission's June 24, 1977 approval order. (*Carey* v. *Securities and Exchange Commission*, Civil Action No. 77-1704 (C.A. 7, filed July 11, 1977)). The board brokers also requested the Commission to stay its "bid-a-book" approval order, pending judicial review. The Commission denied this request, in part, because the "bid-a-book" rule change was not self-executing and thus could not be implemented unless and until the CBOE filed additional rules with the Commission, ("Order Denying Stay," Securities Exchange Act Release No. 13869 (August 18, 1977), 12 SEC Docket 1530 (August 30, 1977)).

[5] File No. SR-CBOE-78-9 (filed April 4, 1978). Notice of the proposal was provided in Securities Exchange Act Release No. 14688 (April 20, 1978), 14 SEC Docket 834 (May 2, 1978) and the terms of substance were published in 43 FR 18374 (April 28, 1978).

[6] File No. SR-CBOE-78-10 (filed April 4, 1978). Notice of the proposal was provided by Securities Exchange Act Release No. 14687 (April 20, 1978), 14 SEC Docket 834 (May 2, 1978), and the terms of substance were published in 43 FR 18373 (April 28, 1978).

[7] Letter from Joseph W. Sullivan, President of the CBOE, to Kathryn B. McGrath, Associate Director, Division of Market Regulation (July 26, 1978) at 2 (File No. SR-CBOE-78-23). The CBOE also consented to an indefinite extension of the statutory time for the Commission's consideration of the bid-a-book implementation rules. *See*, Amendment No. 1 to File No. SR-CBOE-78-9, Form 19b-4A, Item 7, (filed July 28, 1978); and Amendment No. 1 to File No. SR-CBOE-78-10, Form 19b-4A, Item 7 (filed July 28, 1978).

[8] CBOE Rule 7.1 (*CBOE Guide* (CCH) Para. 2221, at 2111) defines a "board broker" as: ". . . an individual member, a nominee of a member organization or a member organization who or which is registered with the Exchange for the purposes of (i) acting as a 'broker's broker' for specified classes of options, at the post at which such classes of options are traded, by accepting and attempting to execute orders placed with him by other members, and (ii) monitoring the market for such classes of options at the post, all in accordance with the provisions of this Chapter."

CBOE Rule 7.1 also provides that a member organization that is doing business with the public in accordance with Chapter IX of the CBOE Rules, or any individual member or nominee employed by or otherwise associated with such a member organization, shall be ineligible to become associated as a board broker.

[9] A "class" consists of options of the same type (*i.e.*, put or call) covering the same underlying security.

[10] There is no hard copy "specialist's book" in the traditional sense. The book on the CBOE consists of: (a) the data on an electronic overhead screen (which displays the best bid and offer from the board broker's order file in each option series and the market size of those best bids and offers) and (b) the board broker's order file. *See* CBOE Rule 7.7, *CBOE Guide* (CCH) Para. 2227, at 2116. The screen also displays the best quotation in the trading crowd, which is transmitted to brokerage firms. *See* CBOE *Reference Manual*, 2d ed., March 1978, at 29.

[11] CBOE reference Manual, 2d ed., March 1978, at 27. The policy against board brokers trading for their own accounts is based on the floor Procedure Committee's interpretation of CBOE Rule 7.50, *CBOE Guide* (CCH) Para. 2250, at 2118.

[12] Both board brokers and assistant board brokers must be members of the CBOE and registered on the CBOE as board brokers, but assistant board brokers (a) lack formal appointments by the Exchange to take charge of the book for specific classes of options at an assigned trading station and (b) are salaried employees of appointed board brokers.

[13] CBOE Rule 7.6, *CBOE guide* (CCH) Para. 2226, at 2116.

[14] A "series" consists of options of the same class having the same exercise price and expiration date.

[15] CBOE Rule 6.2 and 6.201, *CBOE Guide* (CCH) Para. 2132, at 2081.

[16] The practice of conducting "closing rotations" has been temporarily eliminated for four months from October 23, 1978, through February 28, 1979. For this period the Commission has authorized the CBOE and other options exchanges to extend their trading hours until 4:10 p.m. (E.S.T.). *See* Securities Exchange Act Release No. 15241 (October 18, 1978), 15 SEC Docket 1319 (October 31, 1979).

[17] CBOE Rule 6.6(a,b), *CBOE Guide* (CCH) Para. 2136, at 2083.

[18] *CBOE Guide* (CCH) Para. 2223, at 2112-13.

[19] Prior to May 1, 1976, these intra-member rates were fixed by the CBOE. Since that date, Section 6(e) of the Act and Securities Exchange Act Rule 19b-1 (17 CFR 240.19b-1) have prohibited an exchange from fixing intra-member rates.

[20] Letter from CBOE Executive Committee, by Edward F. Neild, III, Chairman, to CBOE Board of Directors (June 22, 1978), at 1. *See* File No. SR-CBOE-78-23, Exhibit 3.

[21] In proposing an OBO system, the CBOE also proposed in SR-CBOE-78-23 to rescind its authority to establish a competitive bidding system for the appointment of members as board brokers.

[22] File No. SR-CBOE-78-31. Notice of the proposal was provided in Securities Exchange Act Release No. 15429 (December 22, 1978), and the terms of substance were published in 44 FR 1808 (January 8, 1979).

[23] The CBOE states that the basis for its uniform fee schedule is that "the schedules of charges it establishes from time to time will not provide a separate profit center for the Exchange, but will to the extent practicable, be designed to recover the Exchange's estimated costs in operating its OBO and Order Support Systems." File No. SR-CBOE-78-31, Form 19b-4A at 2-3.

[24] This proposal, since it is a fee proposal appropriately filed under Section 19(b)(3)(A) of the Act, generally would be effective upon filing. As noted, however, the proposal is expressly conditioned on the Commission's approval of the OBO proposal and would become effective concurrently with that approval. Moreover, under Section 19(b)(3)(B) of the Act, the Commission may summarily abrogate the fee proposal at any time within 60 days of its filing with the Commission and require the proposal to be refiled and reviewed pursuant to the advance approval requirement of Section 19(b)(2) of the Act (15 U.S.C. 78s(b)(2)).

[25] File No. SR-CBOE-78-37. Notice of the proposal was provided in Securities Exchange Act Release No. 15482 (January 9, 1979).

[26] *See* Amendment No. 1 to File No. SR-CBOE-78-37. As with proposed exchange fees, under Section 19(b)(3)(C) of the Act, 15 U.S.C. 78s(b)(3)(C), the Commission has 60 days from the date an interpretation to an existing exchange rule has been filed to consider whether the interpretation should be abrogated and subjected to the advance approval procedures of Section 19(b)(2) of the Act (15 U.S.C. 78s(b)(2)).

V 4 4 / 1 4

performed by board broker members would be performed by OBO's who, as salaried employees of the Exchange, would be subject to the direct supervision and control of the CBOE. The CBOE states that "[b]y changing to an OBO system, the Exchange will be able to exercise day to day personnel management control, will have the needed flexibility to reassign options classes and personnel as circumstances warrant and will have direct and timely control over the nature and quality of service provided to Exchange members and the public."[27]

The CBOE stated in its filing that it intends to implement the OBO system at the "approximate rate of one post per month, commencing approximately thirty days following the effectiveness of this proposed rule change."[28] The Commission understands, however, that the CBOE may proceed more rapidly depending upon its ability to implement the transition with the least amount of disruption to its trading floor.[29] Further, to aid in the transition and provide the CBOE with the broadest supply of potential OBO employees, the proposal would permit the CBOE to hire members as OBO's. Any members of the Exchange who accept employment as OBO's would be allowed to retain their memberships but would be required to assume "inactive" membership status, thereby suspending the privileges of membership, including voting and trading privileges, as long as they serve as OBO's.[30]

As noted above, board brokers are themselves currently liable for their errors in performing the board broker function. Under this proposal, the CBOE would assume limited liability to its members for errors or omissions by OBO's, their assistants or clerks. As to any single claim,[31] the Exchange would not be liable in excess of the larger of $100,000 or the amount recovered under any applicable insurance. As to any number of single claims on a single trading day, the Exchange would not be liable to its members in excess of the larger of $200,000 or the amount of recovery under any applicable insurance. If the number of single claims on a single trading day could not be fully satisfied because of the $200,000 limitation on the Exchange's liability, then recovery of all such claims would be limited to a pro rata share of the $200,000. The CBOE states that these limitations are in substance the same as those of the two other options exchanges having an OBO system, (*see* Midwest Stock Exchange (Art. XLVI, Rule 8) and Pacific Stock Exchange (Rule VI, Section 72)).[33]

Further, the CBOE would not be liable to members for errors or omissions resulting from failures by a member to enter or cancel an order on a timely basis or clearly and accurately to communicate information material to the transaction.[33] Finally, the CBOE does not propose to limit its liability to *non-members* for claims arising from the negligence of its OBO's.

In explaining the basis and purpose of its proposed conversion to an OBO system, the CBOE states that its exercise of day-to-day managerial control will enable it "to meet the needs of member firms and their customers with optimum efficiency."[34] The CBOE believes that the efficiencies achieved by implementation of this proposal will enhance the competitive position of the CBOE in relation to other market centers trading options and improve the overall services provided by the Exchange to its members and the public. Finally, the CBOE states that its proposal finds its statutory basis in, and is in accordance with, Section 6(b)(5) of the Act, which provides that the rules of an Exchange shall promote just and equitable principles of trade and protect investors and the public interest. The CBOE also states that this proposal would further the maintenance of a fair and orderly market and assure fair competition among markets in furtherance of the purposes of Section 11A(a)(1)(C) of the Act (15 U.S.C. 78k-1(a)(1)(C)).[35]

IV. Comments Received

The Commission received two comment letters concerning the CBOE proposal. On October 2, 1978, the Board Brokers Association ("BBA"), an organization representing certain CBOE board brokers, filed extensive written comments in opposition to the OBO proposal.[36] The comment letter incorporates by reference three prior BBA comment letters which were filed with the Commission in response to previous CBOE rule proposals which would have affected CBOE board brokers.[37] In addition, on November 29, 1978, the American Stock Exchange, Inc. (the "Amex)" filed a comment letter concerning the fees which the

[27] File No. SR-CBOE-78-23, Form 19b-4A at 52. The CBOE notes in comparison that, "[u]nder a system of competitive bidding by member Board Brokers, the Exchange could only specify minimum staffing levels, could only terminate or suspend appointments for substandard performance, would be inhibited (by the need to renegotiate contracts) in its ability to relocate options classes on the trading floor in response to changing trading conditions and would not have direct control over the quality of services provided." *Id.*

[28] *Id.* at 53.

[29] The Commission understands that the CBOE intends to phase-in its OBO stations in simple geographic order starting from the trading posts at the south end of the trading floor and proceeding north. By this systematic procedure, the CBOE expects to avoid any further exercise of discretion as to the sequence by which current board brokers will be replaced.

[30] *See* File No. SR-CBOE-78-23, letter from Scott L. Lager, CBOE's First Vice President and General Counsel, to Theodore W. Urban, Division of Market Regulation (November 27, 1978).

[31] The CBOE defines the term "single claim" to mean a claim arising out of all errors and omissions made by an OBO with respect to any single transaction. The term "transaction" is defined in paragraph (b)(1) of proposed CBOE Rule 7.11 to mean any order or instruction, or series of orders or instructions, which is placed with an OBO at substantially the same time by the same member and which relates to any one or more series of options of the same class.

[32] *MSE Guide* (CCH) ¶2086, at 2174; *PSE Guide* (CCH) ¶4271, at 3107-22. OBO systems similar to that proposed by CBOE have been in place on the options floors of the Pacific Stock Exchange ("PSE") and Midwest Stock Exchange ("MSE") since those exchanges commenced options trading. The PSE and the MSE received express Commission authority to commence option trading using OBO systems on March 30, 1976, and December 8, 1976, respectively. Securities Exchange Act Release No. 12283, 9 SEC Docket 317 (April 13, 1976); Securities Exchange Act Release No. 13045, 11 SEC Docket 1120 (December 21, 1976).

[33] Proposed CBOE Rule 7.11 also requires any claim against the Exchange for losses arising from errors or omissions of an OBO to be presented to the Exchange in writing not later than the next business day following the transaction giving rise to the claim. Where the error or omission results in an unmatched trade, the claim must be presented no later than the next business day after the unmatched trade has been closed out in accordance with CBOE Rule 10.1. Paragraph (b)(3) of CBOE Rule 7.11 provides for binding arbitration on all disputed claims.

[34] File No. SR-CBOE-78-23, Form 19b-4A, at 53.

[35] *Id.* at 60-61. In addition, the CBOE states that its proposed Interpretation .01 to Rule 2.22, which would permit the Exchange to charge fees for services provided by OBO's, is based upon Section 6(b)(4) of the Act, which permits an exchange's rules to provide for the equitable allocation of reasonable charges among its members. *Id.*

[36] The BBA's October 2, 1978, comment letter is entitled "Statement of the Board Brokers Association, Chicago Board Options exchange, Incorporated, in opposition to proposed CBOE rules changes filed July 28, 1978," (*i.e.*, File No. SR-CBOE-78-23) ("BBA October Comments"). The letter states (p.1) that the BBA represents 19 of the 53 CBOE board brokers.

An omission from the comment letter was corrected by the BBA by letter dated December 19, 1978. The BBA provided supplemental information concerning their comments by letter dated December 18, 1978, from David V. Kahn, Altheimer & Gray, counsel to the BBA, to Thomas Etter, Division of Market Regulation. *See* File No. SR-CBOE-78-23.

[37] The letters incorporated by reference in the BBA October Comments (note *, p.10) are from the following files: File No. SR-CBOE-76-2 (April 12, 1976); File No. SR-CBOE-77-8 (May 13, 1977); File No. SR-CBOE-78-9 (April 4, 1978) and File No. SR-CBOE-78-10 (April 4, 1978).

CBOE might charge for OBO services.[38]

In summary, the BBA asserts that the proposed rule changes "will profoundly alter the structure and operation of the CBOE floor in respects that have not been revealed by the CBOE in its filings and that are counterproductive to the interests of the public, CBOE and its members."[39] The BBA contends that the OBO proposal was submitted to the Commission without any member input or comment and that the proposal rejects the concept that trading on the CBOE floor should occur exclusively between members. The BBA states that the proposal is a repudiation by the CBOE of a basic recommendation of both the CBOE Task Force which initially recommended the bid-a-book system and the CBOE Board, both of which previously had declared that the concept of trading exclusively between members is vital to CBOE's well-being.

The BBA submits that it would be contrary to law for the Commission to permit an exchange, through its OBO employees or otherwise, to act as a broker. It notes that, under the OBO plan, the CBOE will have a direct economic interest in limit order trading. The BBA asserts that the OBO's are "members" within the meaning of that term as defined in the Act and that the proposed rule changes call for OBOs whose compensation is to be fixed by the Exchange and whose brokerage services are to be paid for by the charges to be fixed by the Exchange. The BBA believes that in light of these factors, the proposals should not be approved without proceedings which it contends are required under Section 6(e) of the Act (15 U.S.C. 78f(e)).

Further, the BBA contends that the proposals will impose burdens on competition not necessary or appropriate in furtherance of the purposes of the Act in contravention of the requirement of Section 6(b)(8) of the Act (15 U.S.C. 78f(b)(8)).[40] In its view, the CBOE submission demonstrates that the Exchange's proposed rules changes "are by no means supported by the bases nor do they serve the purposes set forth for them by CBOE."[41] The BBA concludes that the CBOE proposals "therefore should not be approved—certainly not without proceedings for factfinding by the Commission and oral presentations by all parties affected."[42]

The comment letter by the Amex is concerned solely with the fees which the CBOE might charge for its OBO services. The Amex expresses concern that if the CBOE uses a fee schedule that permits fees to vary among trading stations, the CBOE would be in a position to trade below cost in any of its options that were also traded on rival exchanges and to subsidize such trading by profits generated from those options traded exclusively on the CBOE. The Amex contends that such differences in pricing for OBO services would be inconsistent with Section 6(b)(4) of the Act (15 U.S.C. 78f(b)(4)).

V. Discussion

For the reasons discussed below, the Commission finds that the proposed rule change of the CBOE to establish an OBO system is consistent with the requirements of the Act, in particular, Sections 6(b)(1),[43] 6(b)(5),[44] 11A(a)(1)(C)(i),[45] 11A(a)(1)(C)(ii),[46] and 19(g)(1),[47] and accordingly should be approved.

Section 6(b)(5) requires that the rules of an exchange be designed "to foster cooperation and coordination with persons engaged in * * * facilitating transactions in securities" and Section 11A(a)(1)(C)(i) expresses a Congressional finding that "it is in the public interest and appropriate for the protection of investors and the maintenance of fair and orderly markets to assure * * * economically efficient execution of securities transactions." The CBOE proposal appears consonant with these statutory goals. Since trading volume and activity may differ greatly in different options traded on its floor, the CBOE has a strong interest in structuring its market in a way which will meet the demands of public investors and their brokers for prompt and efficient limit order book services. Thus, the CBOE states in support of its proposed rule change that:

> "By changing to an OBO system, the Exchange will be able to exercise day to day personnel management control, will have the needed flexibility to reassign options classes and personnel as circumstances warrant and will have direct and timely control over the nature and quality of service provided to Exchange members and the public."[48]

The Commission finds that the CBOE's proposal to assume responsibility for maintenance of the limit order book as an Exchange-offered service should enable the Exchange to standardize further the operation of all limit order books, to deploy its employees efficiently from stations of light volume to stations of heavy volume in response to shifting market conditions and to hire additional staff to meet additional market demands.

Second, the Commission finds that the CBOE's proposal to use Exchange employees to oversee trading activities at different stations on the floor appears likely to enhance the CBOE's capacity to enforce compliance by its members and persons associated with its members with the requirements of the federal securities laws and the CBOE's own rules. The use of exchange employees rather than members in this capacity should enable the CBOE to control more effectively and directly its on-floor surveillance responsibilities. Moreover, because OBO's, as Exchange employees, are not dependent for their compensation upon brokerage commissions paid them by members, their independence as regulatory agents of the Exchange may thereby be strengthened. Accordingly, the CBOE proposal furthers the purposes of Sections 6(b)(1), 6(b)(5) and 19(g)(1) of the Act.[49]

Finally, the Commission finds that the CBOE proposal may enhance competition between the CBOE and other options exchanges in options traded on more than one exchange and is thus consistent with Section 11A(a)(1)(C)(ii) of the Act.[50] In an OBO System, the CBOE may be able, through its standardization of operating procedures and the use of salaried employees, to incur lower costs in providing limit order book services than those currently incurred by board brokers in providing those services. In assessing fees for its limit order book services, the CBOE intends to use these anticipated cost savings to finance technological improvements in receiving, storing and executing limit orders through the CBOE's "Order

[38] Letter from William J. Brodsky, Vice President, Trading and Markets, Amex, to Theodore W. Urban, Division of Market Regulation (November 29, 1978).

[39] BBA October Comments, at 6.

[40] The BBA also asserts that the CBOE proposal is deficient in certain other respects. *See* BBA October Comments at 52-56. While not reiterated here, these additional assertions have been considered fully by the Commission.

[41] *Id.* at 7.

[42] *Id.*

[43] 15 U.S.C. 78f(b)(1).

[44] 15 U.S.C. 78f(b)(5).

[45] 15 U.S.C. 78k-1(a)(1)(C)(i).

[46] 15 U.S.C. 78k-1(a)(1)(C)(ii).

[47] 15 U.S.C. 78s(g)(1).

[48] Exhibit 1 to Form 19b-4A, File No. SR-CBOE-1978-23, at 53.

[49] Section 6(b)(1) requires an exchange, as a condition of registration, to be "so organized and [have] the capacity * * * to enforce compliance by its members and persons associated with its members, with the provisions of [the Act], the rules and regulations thereunder and the rules of the exchange." Section 19(g)(1) makes this a continuing duty for an exchange after registration. Finally, Section 6(b)(5) requires that an exchange have rules designed "to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade * * * and, in general, to protect investors and the public interest."

[50] Section 11A(a)(1)(C)(ii) states the Congressional finding that "it is in the public interest and appropriate for the protection of investors and the maintenance of fair and orderly markets to assure * * * fair competition *among brokers and dealers* [and] *among exchange markets*" (emphasis supplied).

JAN 19 79 UMI

Support System." [51] In achieving cost reductions and by improving upon the prompt and efficient execution of customers' limit orders, the CBOE may thereby strengthen its ability to compete with other options exchanges in multiply-traded options.

The Commission has fully considered the adverse comments filed in this proceeding by the BBA,[57] and has concluded that these comments provide no basis to preclude a finding that the CBOE's proposal is consistent with the requirements of the Act and rules and regulations thereunder.

At the outset, the Commission rejects the BBA's contention that a national securities exchange is prohibited under the Act from using employees to carry out the functions associated with maintenance of the limit order book. The CBOE proposal to establish an OBO system, of course, is not the first of its kind. The Commission has previously approved such systems for the options markets of two other national securities exchanges.[53] Indeed, the Commission has found consistent with the requirements of the Act the proposal of another exchange to use automated technology to maintain the limit order book and provide for the matching and execution of orders according to price and time priority.[54]

Nothing in the Act prohibits the establishment of an OBO system by which the function of maintaining a limit order book is performed by exchange employees. Rather, the Act simply requires that an exchange be "so organized and [have] the capacity to be able to carry out the purposes of [the Act] and to comply, and • • • to enforce compliance by its members and persons associated with its members with the provisions of [the Act], the rules and regulations thereunder, and the rules of the exchange." [55] As discussed above, the Commission finds that the CBOE's proposal meets this standard.[56]

Further, the BBA's contention that the legislative history of the Act affords no support for an OBO system is simply erroneous. In explaining its grant to the Commission of broad regulatory authority over the activities of specialists, Congress, focusing upon the specialist's execution of orders in the limit order book, stated in 1934 that:

"There are many who believe that the exchange mechanism would function better without the specialist, that the work done by the specialist *could be done more effectively by a clerk or official of the exchange clearing the orders in a purely mechanical way, much as they are cleared today on the New York Stock Exchange in the 'bond crowd'*" (*emphasis supplied.*)[57]

As another alternative to the specialist system, Congress also discussed segregating the specialist's agency and dealer functions, and assigning those functions to different members on an exchange.[58] While Congress in adopting Section 11(b) of the Act did not require that exchanges replace their specialist systems with either an exchange-operated limit order book system or a segregated system,[59] Congress can hardly be said to have withheld from exchanges the authority to use employees to maintain the limit order book, particularly since Congress noted, without disapproval, use of that approach in the New York Stock Exchange's bond market.

The Commission also rejects the BBA's contention that the CBOE's OBO proposal will impose fixed commission rates in violation of Section 6(e) of the Act. That Section provides, in relevant part, that "no national securities exchange may impose any schedule or fix rates of commissions • • • or other fees *to be charged by its members*," except where the Commission makes specified findings (emphasis supplied). Under the instant proposal, the fees for OBO services will be assessed by and paid to the Exchange itself, not CBOE's members.[60]

The BBA strains the statutory definition of "member" in an attempt to characterize exchange employees as "members" under the Act, thereby invoking the prohibition of Section 6(e). Thus, the BBA cites Section 3(a)(3)(A) of the Act, 15 U.S.C. 78c(a)(3)(A), which defines a "member" of a national up securities exchange to include "any natural person permitted to effect transactions on the floor of the exchange without the services of another person acting as broker." But, under CBOE's proposal, the Exchange itself, not its employees, "effects transactions." OBO's are simply acting within the scope of their employment with the exchange, not in any proprietary capacity. In any event, definitions under Section3(a) of the Act apply "unless the context otherwise requires." Accordingly, because the Exchange, and not its employees, will assume financial and operational responsibility for the OBO System, the Commission finds in this context that employees of an exchange hired as order book officials are not "members" of that exchange for purposes of the Act solely by reason of their employment as OBO's.

The BBA also contends that the CBOE proposal will compromise the self-regulatory capabilities of the Exchange because an OBO system must necessarily attract persons less qualified than current board brokers and because the CBOE, while required to oversee trading in its market, at the same time will be dependent upon trading volume to generate revenues to support the OBO System. The appropriate standard for measuring the proposal's consistency with the Act is not whether persons hired as OBO's may perhaps prove to be more or less qualified than current board brokers, but rather whether an exchange under an OBO system can effectively discharge its self-regulatory responsibilities under Section 6(b) of the Act. In approving the OBO proposals of other exchanges, the Commission found that an exchange can meet its statutory obligations under an OBO

---

[51] *See* File No. SR-CBOE-78-31 (filed Dec. 4, 1978), note 22, *supra.*

[52] Although comments have been received from the AMEX and the BBA on the OBO fee structure, the fees to be charged by the CBOE are included not in the instant proposal but in a separate rule change filing by the CBOE, File No. SR-CBOE-78-31 (*see* note 22, *supra*). The public comment period on the CBOE's proposed fee schedule extends until February 7, 1979. Thus, while the comments of the BBA and the AMEX on the fees to be assessed by the CBOE are not pertinent here, the Commission will consider them in determining whether to exercise its authority under Section 19(b)(3)(C) to abrogate the CBOE's filing made in SR-CBOE-78-31.

[55] Section 6(b)(1) of the Act, 15 U.S.C. 78f(b)(1).

[56] Moreover, as discussed *supra*, the CBOE membership has approved an interpretation to the CBOE's constitution to make explicit the exchange's authority to use an OBO system.

[57] *Report of the House Comm. on Interstate and Foregin Commerce to Accompany H.R. 9323, H.R. Report No. 1383, 73d Cong., 2d Sess. 14-15 (1934)* ("*House Report on H.R. 9323*".)

[58] House Report on H.R. 9323, *supra*, at 14.

[59] Section 11(b) of the Act, Pub. L. 73-291, § 11b), 48 Stat. 891-92, as originally enacted provided, in relevant part: "When not in contravention of such rules and regulations as the Commission may prescribe as necessary or appropriate in the public interest or for the protection of investors, the rules of a national securities exchange may permit • • • a member to be registered as a specialist. If under the rules and regulations of the Commission a specialist is permitted to act as a dealer, or is limited to acting as a dealer, such rules and regulations shall restrict his dealings so far as practicable to those reasonably necessary to permit him to maintain a fair and orderly market • • •."

[60] The prospect under an earlier proposed rule change that CBOE members who handled the limit order book might ultimately receive fees collected by the CBOE for limit order book services prompted the Commission to institute proceedings under Section 19(b)(2) of the Act to determine whether to disapprove the CBOE proposal. *See* Securities Exchange Act Release No. 12358 (April 22, 1976), 9 SEC Docket 479 (May 11, 1976). The CBOE subsequently withdrew that proposal.

System and the Commission perceives no basis to find otherwise here. Indeed, the CBOE proposal appears to enable the exchange to strengthen its regulatory program since persons with surveillance responsibilities will be subject to direct supervision and control by the Exchange. Moreover, the Commission retains broad and flexible authority under the act to take remedial action if it determines that the CBOE, after implementing its OBO system, is failing to carry out an effective surveillance and enforcement program for trading occurring on its floor.[61]

Similarly, the Commission finds no basis to conclude that the receipt by the CBOE of fees from members will lead, or is likely to lead, the CBOE to ineffective performance of its self-regulatory duties. Indeed, the CBOE is currently dependent upon trading volume as a source of operating revenues.[62] This has not been shown, however, to have had any detrimental effect upon the CBOE's self-regulatory capabilities. In any event, as noted above, the Commission has authority to take effective remedial action if the CBOE, for any reason, fails to satisfy its self-regulatory obligations.

The Commission also finds unpersuasive assertions by the BBA that the OBO proposal "unfairly discriminates" against board broker members in violation of Section 6(b)(5) of the Act [63] and of the alleged "fiduciary obligation" owed by the CBOE to its members.[64] In denying the motion of the BBA for a stay of its order approving the CBOE's earlier competitive bidding proposal,[65] the Commission stated that:

> "'Unfair discrimination' • • • is found where other groups *similarly situated* are accorded different treatment, without any *rational basis* (footnote omitted). The members of no group other than the board brokers, however, occupy a monopoly position on the CBOE floor." [66] (Emphasis supplied)

First, the CBOE proposal to change from a board broker system to an OBO system does have a rational basis. As discussed above, the CBOE's adoption of an OBO system is an attempt by the Exchange, consistent with specific provisions of the Act, to increase the efficiency of its market in providing limit order book services to public customers, to strengthen the Exchange's on-floor surveillance capabilities, and to foster competition for public order flow between the CBOE and other options exchanges in options traded in more than one market.

Second, the Commission reiterates its earlier findings that board brokers, as a group, are distinctly dissimilar from other CBOE members. A board broker's exclusive operation of the limit order book in one or more options classes is reinforced by the CBOE's "public order priority" rule. That rule grants priority to non-broker-dealer limit orders over the orders of others at the same price, but only if these public limit orders are placed with the board broker in the appropriate options class [67] and are not instead placed with a floor broker.[68] Moreover, as discussed above, the board broker is solely responsible for conducting opening and closing "rotations" in the options to which he is assigned and is entrusted with the unique responsibility of monitoring trading activities at his station.

In rejecting the claim of unfair discrimination, the Commission also notes that the CBOE memberships held by persons now acting as board brokers are not confined to the performance of any particular member function.[69] Accordingly, persons now acting as board brokers, like others currently acting as floor brokers, market makers or "upstairs" members, are eligible to engage in any membership function on the CBOE.[70] By adoption of an OBO system, the CBOE has simply restructured its market so that maintenance of the limit order book will now be an Exchange function, not a member function. And, if any member now acting as a board broker does not wish to engage in any other function on or off the CBOE floor, he or she may choose to apply for an OBO position with the Exchange.

The Commission is, of course, mindful that elimination of the board broker function may have an adverse effect, however transitory, upon some members now acting as board brokers.[71] Nonetheless, where an exchange's proposed rule change furthers valid statutory purposes, as the Commission has found the CBOE proposal to do, these collateral effects do not establish "unfair discrimination" under the Act. In measuring an exchange's proposed rule change against the requirements of the Act, the Commission must consider not only the interests of an exchange's own membership or a particular group of members, but must also take into account the public interest,[72] the protection of investors,[73] the self-regulatory responsibilities of the exchange,[74] and the effect upon competition among exchange markets and between exchange markets and other markets.[75] In doing so, the Commission is mindful that a national securities exchange is not simply a private corporation or association existing solely, or even primarily, for the pecuniary gain of its members. Rather, exchanges are quasi-public organizations "affected with a public interest" [76] and, as self-regulatory organizations, are accorded governmental-type powers to carry out the purposes of the Act." Thus, while finding unpersuasive the BBA's claim that the CBOE has breached a "fiduciary obligation" by treating board brokers unfairly, the Commission also believes that according undue weight to these claims would disrupt the careful balancing of different interests required by the federal statutory scheme.

Nor is the Commission persuaded that the CBOE's "phase-in" of the OBO System on a station-by-station basis determined by geographic location on the floor unfairly discriminates against those board brokers who are replaced in the early months of the phase-in period. A gradual transition to an OBO System appears calculated to ameliorate the potential for

[68] Unlike a board broker who is given sole control over the limit order book in his options class, a floor broker is not assigned any particular options class and, accordingly, must compete with other floor brokers on the CBOE for agency orders to be handled in the trading crowd.

[69] While most memberships on other exchanges are also unrestricted as to the functions in which a member may engage, there are exceptions. Thus, the Amex has offered a limited membership allowing a person to function only as a market maker (a "registered options trader") on the Amex options floor. *See* Amex Constitution, Art. IV. Sec. 1(b).

[70] Of course, all applicable financial and other standards must be met by any member who seeks to act in a particular capacity on the CBOE floor.

[71] As members of the CBOE, however, current board brokers are eligible to engage in any recognized member function on the Exchange. *See* text accompanying note 70, *supra.*

V 4 4 / 1 4 J A 1 9 7 9 UMI

temporary disruption to the trading floor and thus serves the purposes of the Act in promoting the efficiency of an exchange's operations.[78] Accordingly, the Commission finds that the CBOE has a rational basis for achieving a gradual transition to an OBO System so that displacement of some board brokers before others would not constitute "unfair" discrimination.

The BBA further contends that the CBOE proposal is inconsistent with Section 6(b)(8) of the Act which proscribes exchange rules that impose a burden on competition unless "necessary or appropriate in furtherance of the purposes of [the Act.]" In comparison to the current board broker structure, however, the Commission cannot find that the proposed OBO System imposes an inappropriate burden on competition. While different board brokers may operate on the CBOE floor in different options classes, only one board broker is appointed for each class of options. Thus the current environment does not foster competition among board brokers.

In earlier comments, the BBA, in reliance upon *United States* v. *E. I. duPont*, 351 U.S. 377 (1956), asserted that the services of board brokers and floor brokers are "interchangeable" and, thus, board brokers should not be deemed to have monopoly-type franchises in their exclusive options classes. First, the holding in *duPont* has no application to Commission proceedings under Section 19(b) to determine the consistency of an exchange's proposed rule change with the requirements of the Securities Exchange Act. In any event, assuming the relevance of *duPont*, the Commission finds that the services provided by floor brokers and CBOE board brokers are not "interchangeable". Public limit orders may gain priority over other orders at the same price *only* if they are placed with the board broker for execution; a limit order held by a floor broker in the trading crowd is ineligible for public order priority. Also, only the board broker conducts opening and closing rotations in his assigned options and is entrusted with overseeing the trading activities occuring at his station.

Moreover, the change to an OBO System has the potential of enhancing intermarket competition. By assuming direct control over the costs of providing limit order book services to public investors, the CBOE may be able to reduce those costs. In addition, the Commission notes that revenues collected by the CBOE will be used not only to pay employees and meet other operating expenses but will also be used to finance technological improvements in providing limit order book services through the CBOE's automated "Order Support System" which is now being implemented.[79]

The Commission believes that the CBOE proposal does not impose any burden upon competition not necessary or appropriate in furtherance of the purposes of the Act, but rather furthers the public policy goals of enhancing the potential for competition among markets as set forth under the Act. To the extent that centralization of limit order book services in the CBOE may impose any specific burden on competition, the Commission finds that any potential anti-competitive effect is outweighed by the CBOE proposal's furtherance of the purposes of the Act in fostering economically efficient executions of securities transactions, and by enhancing the regulatory capabilities of the CBOE to monitor and enforce compliance by its members with the Act, rules thereunder, and rules of the Exchange.

The BBA's assertion that the CBOE proposal cannot be approved without holding an evidentiary hearing is without merit. No evidentiary hearing is required under Section 19(b) of the Act. In connection with the initial filing of a proposed rule change under Section 19(b)(1), the Commission is required simply to publish notice and give interested persons an opportunity to submit written data, views, and arguments, an opportunity which the BBA has been provided. Section 19(b) provides that the Commission shall approve a proposed rule change if it makes the findings enumerated in that Section; upon making those findings, the Commission is to grant approval under Section 19(b)(2)(A) without further proceedings. On the other hand, if the Commission does not make such findings, it is required to initiate a proceeding pursuant to Section 19(b)(2)(B) of the Act to determine whether to disapprove a proposed rule change.[80]

With respect to the CBOE's OBO proposal, the Commission is able to make the requisite findings, without initiating such further proceeding, on the basis of the CBOE's proposed rule change filing on Form 19b-4A, 17 CFR 249.19a; the submission of written data, views, and arguments; and the Commission's own expertise in overseeing the operation of the national securities exchanges.

In regard to Commission procedures to review proposed rule changes by self-regulatory organizations, the Senate Report on S. 249 (the predecessor of the Securities Act Amendments of 1975) explained:

> "Section 19(B)(2) would give the SEC sufficient flexibility to fashion a proceeding appropriate to the particular self-regulatory proposal being considered. In many, perhaps most, situations, notice and an opportunity for written comment would be sufficient and there would undoubtedly be few, if any, comments. In cases in which fundamental policy issues are involved, however, oral hearings or publicly announced conferences might be most appropriate."[81]

The Commission believes that no fundamental policy issues are posed by the CBOE's rule change. As noted, on two previous occasions the Commission has found that establishment of an OBO system is a valid exercise of an exchange's authority. The BBA has filed extensive written comments on this and previous CBOE rule proposals and the Commission has fully reviewed and considered them. The Commission believes that an oral or evidentiary hearing on the CBOE proposal will not appreciably further any purpose and, accordingly, denies BBA's request for such hearing.

Finally, the BBA contends that the fees to be charged by the CBOE for providing OBO services will be unreasonable and inequitbly allocated among CBOE members, in violation of Section 6(b)(4) of the Act, 15 U.S.C. 78f(b)(4). The proposed rule change before the Commission, however, does not set forth any specific level or schedule of fees.[82] The BBA takes the position, however, that any fees charged by the CBOE would violate Section 6(b)(4) because the CBOE would thereby be "appropriating" the income of board brokers. Thus, the BBA's argument is bottomed upon the premise that CBOE members who act as board brokers have some vested right or a reasonable expectation that they may continue to act in that capacity indefinitely, notwithstanding the CBOE's authority to amend its rules to improve its market in a manner consistent with the requirements of the Act. As the Commission stated in its August Order:

> "[A]ny [vested] 'right' [of a board broker], if it exists, is acquired under, and remains subject to, the governing rules of [the CBOE], as they may be amended from time to time, insofar as those rules and amendments thereto are consistent with the Act and the rules and regulations promulgated thereunder."[83]

The Commission notes that the BBA has not asserted any written contract in which the CBOE has agreed to refrain from proposing changes to its rules to alter the current board broker structure. And, as mentioned above, the memberships held by the board brokers have never been confined to the board broker function; persons who acquire CBOE memberships may perform any member function of the CBOE. Moreover, given the authority of exchanges as self-regulatory organizations under the Act, the Commission finds it unreasonable for an exchange member to expect that the *status quo* will not change in a manner which may affect his current economic interests. In accepting Exchange membership, and thereby subjecting themselves to the self-regulatory authority of the CBOE, board brokers must be deemed to have accepted the possibilities that have, in this case, come to pass.[84]

* * * * *

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the above-referenced rule change be, and it hereby is, approved.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc. 79-2012 Filed 1-18-79; 8:45 am]

---

[78] *See* Sections 6(b)(5) and 11A(a)(1)(C)(i) of the Act.

[79] *See* File No. SR-CBOE-78-31 (filed Dec. 4, 1978), note 22, *supra*.

[80] As explained above, the CBOE proposal does not constitute the imposition of fixed rates of commission to be charged by members. Accordingly, the hearing procedures outlined under Section 6(e)(4), 15 U.S.C. 78f(e)(4), of the Act are inapplicable here.

[81] Senate Report, *supra*, at 30.

[82] The CBOE's fee schedule is the subject of a separate proposed rule change filing by the CBOE. *See* note 22, *supra*. In that filing, the CBOE states that "the Exchange may, in the event it should deem it advisable for competitive reasons, lower its charges for particular classes of options". The current fee filing, however, sets forth a uniform fee schedule applicable to all classes of options. Under Section 19(b)(3)(A) of the Act, the CBOE, if it seeks to change its fees in any respect, must file a subsequent proposed rule change with the Commission. Accordingly, the question whether the CBOE, consistent with Section 6(b)(4) of the Act, may prescribe different OBO fees for different classes of options need not be addressed here.

[83] *See* August Order, *supra*, 12 SEC Docket at 1531.

[File No. 1-7512]

MANHATTAN LIFE CORP.

Application To Withdraw from Listing and Registration

JANUARY 15, 1979.

In the matter of The Manhattan Life Corporation, Common Stock, Par Value $2.00.

The above named issuer has filed an application with the Securities and Exchange Commission, pursuant to Section 12(d) of the Securities Exchange Act of 1934 and Rule 12d2-2(d) promulgated thereunder, to withdraw the specified security from listing and registration on the AMERICAN STOCK EXCHANGE, INC. ("Amex").

The reasons alleged in the application for withdrawing this security from listing and registration include the following:

The common stock of The Manhattan Life Corporation (the "Company") has been listed for trading on the Amex since March 31, 1975. On January 2, 1979, the stock was listed for trading on the New York Stock Exchange, Inc. ("NYSE") and concurrently therewith, such stock was suspended from trading on the Amex. In making the decision to withdraw its common stock from listing on the Amex, the Company considered the direct and indirect costs and expenses attendant to maintaining a dual listing on both exchanges. The Company does not see any particular advantage in the dual trading of its stock and believes that dual listing would fragment the market for such stock.

The application relates solely to the withdrawal from listing and registration on the Amex and shall have no effect on the continued listing of such common stock on the NYSE. The Amex has posed no objection in this matter.

Any interested person may, on or before February 16, 1979, submit by letter to the Secretary of the Securities and Exchange Commission, Washington, D.C. 20549, facts bearing upon whether the application has been made in accordance with the rules of the Exchange and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission will, on the basis of the application and any other information submitted to it, issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 10557]

NATIONWIDE LIFE INSURANCE CO. AND MFS VARIABLE ACCOUNT

Filing of Application

JANUARY 15, 1979.

Notice of filing of application pursuant to section 11 of the Act for an order approving certain offers of exchange and pursuant to section 6(c) of the Act for an order exempting proposed transactions from sections 2(a)(32), 2(a)(35), 22(c), 26(a)(2)(C), 27(c)(1), 27(c)(2), 27(d), and Rule 22c-1.

Notice is hereby given that Nationwide Life Insurance Company ("Nationwide"), a stock life insurance company organized under the laws of the State of Ohio, and MFS Variable Account ("MFS"), One Nationwide Plaza, Columbus, OH 43216 (812-4378), a separate account of Nationwide registered under the Investment Company Act of 1940 ("Act") as a unit investment trust (collectively "Applicants"), filed an application on October 16, 1978, and an amendment thereto on December 11, 1978, pursuant to Section 11 of the Act for an order approving certain offers of exchange, and pursuant to Section 6(c) of the Act, for an order exempting from Sections 2(a)(32), 2(a)(35), 22(c), 26(a)(2)(C), 27(c)(1), 27(c)(2), 27(d), and Rule 22c-1 of the Act, to the extent necessary, a proposed change in the pricing of one of their existing variable annuity contracts. All interested persons are referred to the Application on file with the Commission for a statement of the representations contained therein, which are summarized below.

MFS, a separate account of Nationwide, was organized as a unit investment trust pursuant to a custodian agreement between Nationwide, as sponsor-depositor, and The State Street Bank and Trust Company ("State Street"), as custodian, and registered under the Act. MFS was established for the purpose of funding Individual Deferred Variable Annuity Contracts ("Contracts") issued by Nationwide. Presently Applicants assess an initial sales charge on the gross purchase payments under the Contracts. However, Applicants propose to implement a change in pricing of the Contracts. In lieu of the customary initial sales load, Applicants propose to assess a contingent deferred sales charge ("Contingent Charge").

Under the proposed Contracts a purchaser may make a single purchase payment, an irregular series of periodic purchase payments, or a regular series of periodic purchase payments. The amount and frequency of purchase payments is discretionary with the purchaser, and no requirements are imposed except for minimum amounts of the initial purchase payments ($1,500 for non-tax-qualified contracts and $300 on an annualized basis for the first contract year for contracts funding tax-qualified pension or profit-sharing plans). The purchaser may allocate all or a portion of each purchase payment among one or more of eight sub-accounts of the MFS, each of which invests in the shares of one of eight mutual funds managed by Massachusetts Financial Services Company, or to the general account of Nationwide. The Contracts provide for the accumulation of such purchase payments with any accrued

earnings until the annuity commencement date selected by the purchaser, at which time annuity payments begin as designated by the contract owner.

Under the proposed Contracts the contract owner may, at any time prior to the annuity commencement date, withdraw some or all of the accumulated contract value. However, Applicants would assess a Contingent Charge, which would be applied in the case of certain withdrawals by a contract owner from the contract value. The Contingent Charge would equal 5% of the lesser of: (1) all purchase payments received during the 96 months immediately prior to the valuation period during which the surrender is requested; or (2) the amount surrendered. The cumulative sum of all such charges, per contract owner, would never exceed 5% of that owner's purchase payments received during the 96 months immediately prior to the valuation period during which the surrender is requested.

An exception to the assessment of a Contingent Charge would permit certain surrenders without the imposition of a sales charge. This exception would apply to redemptions after the end of the second contract year. Under the exception, a contract owner would be able to redeem up to 10% of purchase payments made within 96 months immediately prior to the valuation period during which the redemption is requested without imposition of the Contingent Charge.

When a redemption is requested to effect a cash withdrawal prior to the annunity commencement date, State Street would surrender to the depositor cash equal to the amount of the cash withdrawal requested by the contract owner, plus the applicable Contingent Charge. The requested cash withdrawal would then be remitted to the contract owner. The Contingent Charge would be paid by State Street to Nationwide to reimburse it for the expenses incurred in connection with the sale of the Contracts. These expenses include commissions, promotional costs, sales administration, and similar sales related expenses.

Other charges which would be assessed by Nationwide under the Contracts include an annual contract maintenance charge of $30 per Contract and an asset charge equal, on an annual basis, to 1.3% of the daily net asset value of the assets of the MFS. The asset charge is composed of a mortality risk premium, equal to approximately .8%, and an expense risk charge, equal to approximately .5%. Applicants state that these charges are calculated to reimburse Nationwide for costs related to administration of the Contracts and the assumption of mortality and expense risks.

Applicants submit that the proposed pricing change in the Contracts is consistent with all provisions of the Act and that no exemptive relief is required in order to implement the transaction. However, to avoid any possibility that questions may be raised as to the potential applicability of various definitional and regulatory sections of the Act, Applicants have requested an order of the Commission exempting the proposed transaction, to the extent necessary, from the provisions of the Act detailed below.

Section 2(a)(35)

Section 2(a)(35) of the Act defines "sales load" as the difference between the price of a security to the public and that portion of the proceeds from its sale which is received and invested or held for investment by the issuer, less and portion of such difference deducted for trustee's or custodian's fees, insurance premiums, issue taxes or administrative expenses or fees which are not properly chargeable to sales or promotional activities. Applicants assert that the proposed Contingent Charge is consistent with the intent of the definition of "sales load" contained in the Act. While eliminating the usual initial sales load deduction from purchase payments Nationwide would continue to incur expenses related to the sale of the Contracts, including commissions paid to sales personnel and the costs of promotion and sales administration. The Contingtent Charge would be retained by Nationwide to reimburse it solely for expenses related to the sale of the Contracts, which Applicants maintain is within the Section 2(a)(35) definition of sales load, but for the timing of the imposition of the charge. Applicants assert that the deferral of the sales charge, and its contingency upon the occurrence of an event which might not occur, does not change the basic nature of this charge, which is in every other respect a sales charge. However, Applicants have requested an exemption from the provisions of Section 2(a)(35), to the extent necessary, to implement their proposed change in the pricing of the Contracts.

Sections 27(c)(2) and 26(a)(2)(C)

Section 27(c)(2) of the Act, in pertinent part, makes it unlawful to sell any periodic payment plan certificate unless the proceeds of all payments on such certificates are deposited with a custodian having the qualifications described in Section 26(a)(1), and are held by such custodian under an agreement containing substantially the provisions required in Sections 26(a)(2) and (3) of the Act. Section 26(a)(2)(C) provides essentially that no payment to the depositor of, or a principal underwriter for, a registered unit investment trust shall be allowed the trustee or the custodian as an expense except a fee, not exceeding such reasonable amount as the Commission may prescribe, as compensation for performing bookkeeping and other administrative duties normally performed by the custodian.

Applicants assert that the proposed Contingent Charge is not the typical kind of expense contemplated by Section 26(a)(2). Applicants submit that Section 26 of the Act was enacted to deal with certain abuses by requiring the trust instrument of a unit investment trust to: (1) designate as trustee or custodian a bank of a specified minimum size; (2) require that all funds and property of the trust be held by a trustee; and (3) provide that the trustees is entitled to reimburse itself out of the trust property for its expenses incurred and fees actually earned. Applicants submit that these requirements were not intended to preclude the depositor of a unit investment trust from taking a sales load. They assert that the Contingent Charge is intended specifically and solely to reimburse Applicants for sales related expenses. Applicants maintain that the deferral of the imposition of this charge, and making it contingent upon an event which may never occur, do not change the basic nature of this charge as a sales charge to which Section 26(a)(2)(C) was not intended to apply. Furthermore, Applicants contend that Section 27(c)(2) excepts deductions for sales load from the requirement that the proceeds be deposited with a custodian. Applicants assert that the Contingent Charge is a sales load to which this exception should apply, and that deferring the imposition of the charge and making it contingent upon an event which might never occur should in no way be construed as violative of Section 27(c)(2). However, Applicants have requested an exemption from the provisions of Sections 27(c)(2) and 26(a)(2)(C), to the extent necessary, to implement their proposed change in the pricing of the Contracts.

Applicants have consented that the foregoing requested exemption may be made subject to the following conditions: (1) that the deductions under the Contract for administrative services shall not exceed such reasonable amounts as the Commission shall prescribe and the Commission may reserve jurisdiction for such purpose; and (2) that the payment of sums and charges out of the assets of MFS shall not be deemed to be exempted from regulation by the Commission by reason of the requested order, provided that Applicants consent to this condition shall not be determined to be a concession to the Commission of authority to regulate the payment of sums and charges out of such assets, other than the charges for administrative services, and Applicants reserve the right in any proceeding before the Commission, or in any suit or action in any court, to assert that the Commission has no authority to regulate the payment of such other sums and charges.

Section 2(a)(32) and 27(d)

Section 2(a)(32) of the Act, in pertinent part, defines "redeemable security" as any security under the terms of which the holder, upon its presentation to the issuer, is entitled to receive approximately his proportionate share of the issuer's current net assets, or the cash equivalent thereof. Section 27(d) of the Act, in pertinent part, requires that the holder of a periodic payment plan certificate be able to surrender the certificate under certain circumstances with the recovery of certain initial sales charges. Applicants submit that the imposition of the Contingent Charge does not violate Section 2(a)(32) or Section 27(d). Applicants assert that Sections 2(a)(32) and 27(d) both contemplate the assessment of an initial sales load. However, Applicants assert that, with a Contingent Charge, the net amount invested is the gross purchase payments. Thus, the owner's proportionate share or account value would be the gross purchase payments, plus or minus any increase or decrease in value, less the Contingent Charge. Applicants assert that deferring the imposition of the sales charge in no way restricts the contract owner from receiving his proportionate share or the value of his account on redemption. Rather, Applicants maintain that the Contingent Charge will merely be deducted at the time of redemption in determining that proportionate share, instead of being deducted from purchase payments. Applicants contend that the Contingent Charge merely defers the timing of the imposition of the sales charge and makes the charge contingent upon an event which might never occur. Applicants submit that this method of assessing sales charges permits the purchaser's net amount invested to be increased, thus providing a benefit to the purchaser. However, Applicants have requested an exemption from the provisions of Section 2(a)(32) and 27(d), to the extent necessary, to implement their proposed change in the pricing of the Contracts.

Section 27(c)(1)

Section 27(c)(1) of the Act, in pertinent part, makes it unlawful for any registered investment company issuing periodic payment plan certificates, or for any depositor or underwriter of such company, to sell any such certificate unless such certificate is a redeemable security. Applicants submit that the assessment of a Contingent Charge upon certain redemptions, which is fully disclosed in the prospectus, should not be construed as such a restriction on redemption. Applicants assert that the Contracts are sill redeemable securities, whether the sales charge is imposed against the purchase payment at the time of purchase, or whether such charge is deferred and made contingent upon an occurrence at a later instant during the contract period. Applicants assert that this is particularly true where the deferral of the Contingent Charge until a redemption is effected has the general effect of increasing the contract value that is available for redemption, as compared with the contract value that would be available for redemption were the sales charge deducted from the purchase payment before investment on behalf of the owner. However, Applicants have requested an exemption from the provisions of Section 27(c)(1), to the extent necessary, to implement their proposed change in the pricing of the Contracts.

Applicants further assert that the proposed transfers involve only a change in the Contracts' underlying accumulation units, which are merely accounting units of measure to quantify contract value, and, thus, do not involve an exchange of a unit investment trust security for the security of any other investment company. However, to avoid any questions that might be raised as to the applicability of Section 11, Applicants are requesting an Order pursuant to Section 11, to the extent necessary, to permit the proposed offer of transfer rights described above.

Section 6(c)

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities or transactions from any provision of the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than February 9, 1979, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following February 9, 1979, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 10558]

NATIONAL LIQUID RESERVES, INC.

Filing of Application

JANUARY 15, 1979.

Notice of filing of application pursuant to section 6(c) of the Act for an order of exemption from rules 2a-4 and 22c-1 thereunder.

Notice is hereby given that National Liquid Reserves, Inc. ("Applicant"), 605 Third Avenue, New York, New York 10016, (812-4402), a no-load, open-end diversified management investment company registered under the Investment Company Act of 1940 ("Act"), filed an application on December 8, 1978, and an amendment thereto on January 4, 1979, pursuant to Section 6(c) of the Act for an order of the Commission exempting Applicant from the provisions of Rules 2a-4 and 22c-1 thereunder to the extent necessary to permit Applicant to calculate its price per share for the purposes of sales and redemptions of its shares, to the nearest one cent on a share value of one dollar. In all other respects, portfolio securities held by the Company will be valued in accordance with the views set forth in Investment Company Act Release No. 9786 (May 31, 1977) ("IC-9786"). All interested persons are referred to the application on file with the Commission for a statement of representations contained therein, which are summarized below. Applicant states that it is a money market fund designed as an investment vehicle for institutional and

V 4 4 / 1 4 J A 1 9 7 9 UMI

individual investors who seek liquidity for their investment. The application states that its portfolio is invested primarily in short-term marketable obligations issued or guaranteed as to principal and interest by the U.S. Government (or its agencies or instrumentalities), obligations of U.S. banks, commercial paper, and short-term corporate obligations. Application asserts that since its inception in 1974 and in keeping with its policies, its portfolio has been invested largely in certificates of deposit of domestic banks, which are members of the Federal Reserve System and which have capital, surplus, and undivided profits in excess of $100,000,000, and commercial paper rated A-1 by Standard & Poor's Corporation or Prime-1 by Moody's Investor Services, Inc.

Applicant states that it does not presently have nor does it intend to have investments in instruments having a remaining maturity of greater than one year. Applicant states that it values its portfolio at market and asserts that because of the short maturities of its portfolio, its net asset value per share has varied between $9.96 and $10.02 from its inception on May 28, 1974. Applicant states that its Board of Directors has authorized, subject to shareholder approval, a split-up of Applicant's common stock approximately 10 for 1 through a stock dividend of approximately 9 shares for each share outstanding, so that after the split-up, each new share will have a net asset value of $1.00. Applicant asserts that it expects that as a result of rounding the net asset value per share to the nearest $.01 on a $1.00 price, Applicant's price per share for the purpose of sales and redemptions will remain at $1.00.

Applicant states that its Board of Directors believes that this split and consequent $1.00 price per share will benefit Applicant and its shareholders. Applicant, designed as an investment vehicle for institutional and individual investors who seek liquidity for their investment, has as its investment objectives maximum current income and preservation of capital. Applicant's investors, the Applicant asserts, want the daily income dividends declared by the Applicant to reflect income as earned, and the sales and redemption price not to change. Applicant represents that its Board of Directors has therefore reached the conclusion that stability of capital and a steady flow of investment income would be of benefit to existing shareholders and a helpful tool in attracting potential investors to Applicant. Applicant asserts that its shareholders would have the convenience of being able to determine the value of their holdings simply by knowing the number of shares they own. Also, the task of maintaining an investment record would be made easier for Applicant's shareholders. Applicant also states that this change is expected to avoid the periodic changes in Applicant's net asset value per share as a result of which investors have realized nominal capital gains and losses upon redemption.

Rule 22c-1 adopted under the Act provides, in part, that no registered investment company issuing any redeemable security shall sell, redeem, or repurchase any security except at a price based on the current net asset value of such security which is next computed after receipt of a tender of such security for redemption or of an order to purchase or sell such security. In IC-9786 the Commission issued an interpretation of Rule 22c-1 expressing its view that Rule 22c-1 which would require a fund using a "floating" net asset value to maintain an accuracy in computing its price of one percent (equivalent to the nearest one cent on a net asset value of $10.00). Rule 2a-4 adopted under the Act provides, as here relevant, that the "current net asset value" of a redeemable security issued by a registered investment company used in computing its price for the purposes of distribution and redemption shall be determined with reference to current market value for portfolio securities with respect to which market quotations are readily available and for other securities and assets fair value as determined in good faith by the board of directors of the registered company. In IC-9786 the Commission issued an interpretation of Rule 2a-4 expressing its view that it was inconsistent with Rule 2a-4 for certain money market funds to "round off" calculations of their net asset value per share to the nearest one cent on a share value of $1.00, because such a calculation might have the effect of masking the impact of changing values of portfolio securities and therefore might not "reflect" its portfolio valuation as required by Rule 2a-4.

Section 6(c) of the Act provides, in part, that the Commission may, upon application, exempt any person, security or transaction or any class or classes of persons, securities or transactions, from any provision or provisions of the Act and rules thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicant submits that the requested exemptions are appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. Applicant asserts that a substantial number of money market funds now offer the public a $1.00 price for their shares. Applicant represents that, to the extent necessary, the Applicant's Board of Directors will consider the advisability of temporarily suspending payment of dividends, or making a capital gains or other distribution, to maintain a $1.00 price per share, if the net asset value per share declines to a value below $.997 or rises to a value of above $1.003, respectively. Applicant states that in order to attempt to assure the stability of Applicant's price it will also adhere to the following conditions:

1. Applicant's Board of Directors, in supervising Applicant's operations and delegating special responsibilities involving portfolio management to Applicant's investment adviser, undertakes—as a particular responsibility within its overall duty of care owed to the shareholders of Applicant—to assure to the extent reasonably practicable, taking into account current market conditions affecting Applicant's investment objectives, that Applicant's price per share as computed for the purpose of sales and redemptions, rounded to the nearest cent, will not deviate from one dollar.

2. Applicant will maintain a dollar-weighted average portfolio maturity appropriate to its objective of maintaining a stable price per share. Applicant will not purchase a portfolio security with a remaining maturity of greater than one year, nor will it maintain a dollar-weighted average portfolio maturity in excess of 120 days. Applicant states that, in addition, in the future to help maintain a $1.00 net asset value, the Board of Directors has resolved that unless particular circumstances dictate otherwise, portfolio securities having maturities of 60 days or less when purchased shall be valued at cost adjusted for amortization of premiums and accretion of discounts and that securities originally purchased with maturities in excess of 60 days should be valued beginning on the 60th day prior to maturity using market quotations on the 61st day prior to maturity with unrealized appreciation or depreciation of the 61st day, if any, amortized to maturity.

3. Applicant will invest in a portfolio of money market instruments consisting of U.S. Government obligations issued or guaranteed as to principal and interest by the U.S. Government or its agencies or instrumentalities (whether or not subject to repurchase agreements), U.S. bank obligations, high grade commercial paper, and short-term corporate obligations. Investments in U.S. bank obligations (including certificates of deposits, letters of credit, and bankers' acceptances) will be limited to domestic banks and their foreign branches provided such domestic banks are members of the Federal Reserve System and have capital, surplus, and undivided profits (as published in their most recently published financial statements prior to the date of the investment) in excess of $100,000,000. The commercial paper purchased by Applicant will be (i) rated A-1 by Standard & Poor's or Prime-1 by Moody's Investor Services, Inc., or (ii) issued by companies which at the time of purchase have an outstanding debt issue rated AA or better by Standard & Poor's or Aa or better by Moody's. The short-term obligations of corporations purchased by Applicant will be rated when purchased, AA or better by Standard & Poor's or Aa or better by Moody's.

Notice is further given that any interested person may, not later than February 7, 1979, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant(s) at the address(es) stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 10560]

PILGRIM FORMULA SHARES, INC.

Filing of Application

JANUARY 15, 1979.

Notice of filing of application pursuant to section 8(f) of the Act for an order declaring that company has ceased to be an investment company

Notice is hereby given that Pilgrim Formula Shares, Inc. ("PFS"), 185 Cross Street, Fort Lee, New Jersey 07024, registered under the Investment Company Act 1940 ("Act") as a diversified, open-end, management investment company, filed an application on November 13, 1978, for an order of the Commission, pursuant to Section 8(f) of the Act, declaring that PFS has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The application states that PFS was incorporated under the laws of the State of Maryland on July 13, 1973, and that it has been registered under the Act since 1973. Pursuant to a Plan and Agreement of Reorganization dated July 12, 1978 between PFS and Pilgrim Fund Inc. ("Pilgrim"), substantially all of the net assets of PFS were transferred to Pilgrim in exchange for shares of capital stock of Pilgrim, which shares were then distributed to the shareholders of PFS on a prorata basis pursuant to a Plan of Liquidation and Dissolution. The effective date of said transactions pursuant to the Plan and Agreement of Reorganization was October 31, 1978, and as of November 7, 1978, PFS had cash assets of less than $3,000, which amount was maintained as a reserve to pay accrued expenses and expenses to be incurred in the final liquidation and dissolution of PFS.

The Board of Directors of PFS, on October 26, 1978, authorized PFS to file an application pursuant to Section 8(f) of the Act, inasmuch as PFS does not have any current operations and has no plans or intentions to continue as either an investment company or a corporation, and further authorized PFS to file for dissolution under Maryland law.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and that, upon the taking effect of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than February 9, 1979, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant(s) at the address(es) stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Secretary.

RLC CORP.

Application To Withdraw From Listing and Registration

[File No. 1-5728]

JANUARY 15, 1979.

In the matter of RLC Corp., Common Stock, Par Value $1.

The above named issuer has filed an application with the Securities and Exchange Commission, pursuant to Section 12(d) of the Securities Exchange Act of 1934 and Rule 12d2-2(d) promulgated thereunder, to withdraw the specified security from listing and registration on the AMERICAN STOCK EXCHANGE, INC. ("Amex").

The reasons alleged in the application for withdrawing this security from listing and registration include the following:

The common stock of RLC CORP. (the "Company") has been listed for trading on the Amex since October 1, 1968. On February 21, 1978, the stock was also listed for trading on the New York Stock Exchange, Inc. ("NYSE") and concurrently therewith, such stock was suspended from trading on the Amex. In making the decision to withdraw its common stock from listing on the Amex, the Company considered the direct and indirect costs and expenses attendant to maintaining a dual listing on both exchanges. The Company does not see any particular advantage in the dual listing of its stock and believes that dual listing would fragment the market for such stock.

The application relates solely to the withdrawal from listing and registration on the Amex and shall have no effect on the continued listing of such common stock of the NYSE. The Amex has posed no objection in this matter.

Any interested person may, on or before February 16, 1979, submit by letter to the Secretary of the Securities and Exchange Commission, Washington, D.C. 20549, facts bearing upon whether the application has been made in accordance with the rules of the Exchange and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission will, on the basis of the application and any other information submitted to it, issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01-M]

Release No. 34-15491/File No. SR-Amex-78-29]

AMERICAN STOCK EXCHANGE, INC.

Self-Regulatory Organization

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"), 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on December 28, 1978 the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

Exchange's Statement of the Terms of Substance of the Proposed Rule Change

The Board of Governors of the American Stock Exchange has approved the rescission of Rule 929 which prohibits member firms from carrying options accounts for Exchange employees.

(Brackets indicate deletions; italics indicate new material)

[Accounts of Exchange Employees

Rule 929. No member or member organization shall approve for options trading any account in which an employee of the Exchange or of any corporation in which the Exchange owns the majority of the capital stock, is directly or indirectly interested.]

Exchange's Statement of Basis and Purpose

At present, Exchange policy prohibits its employees from effecting certain securities transactions, including transactions in any option, whether or not listed on the Amex. Rule 929 prohibits member firms from carrying options accounts for Exchange employees. The basic purpose of the Exchange's policy is to avoid conflicts of interest and the misuse of non-public information. However, there is no risk that Amex employees will misuse non-public information obtained in the performance of their duties in transactions in options where neither the option nor its underlying security is listed on the Amex. Therefore, the Exchange has modified its policy to permit its employees to effect options transactions where neither the option nor the underlying security is traded on the Amex.* Rule 929 has been rescinded to accommodate this change in policy.

The rescission of Rule 929 relates to the administration of the Exchange, and is consistent with Section 6(b)(1) of the Act.

Comments Received From Members, participants, or Others on Proposed Rule Change

No comments were solicited or received with respect to the proposed rule change.

Burden on Competition

The Amex has determined that no burden on competition will be imposed by the proposed rule change.

The foregoing rule change has become effective, pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file six (6) copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W. Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted within 21 days of the date of this filing.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

JANUARY 12, 1979.

[FR Doc. 79-2020 Filed 1-18-79; 8:45 am]

*All other options exchanges permit their employees to effect such options transactions.

[8010-01-M]

[Release No. 34-15492 File No. SR-CBOE-1978-35]

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Self-Regulatory Organizations

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1) as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on December 22, 1978 the above-mentioned self-regulatory organization filed with the Securities and Exchange Comission a proposed rule change as follows:

EXCHANGE'S STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

(Brackets indicate deletions; italics indicate new material)

FINANCIAL REPORTS

Rule 15.5 No change.

Interpretations and Policies

.01 Each member shall file with the Exchange a report of financial condition on SEC Form X-17A-5 as required by Securities and Exchange Commission Rule 17a-10. Any member who fails to file in a timely manner such report of financial condition pursuant to SEC Rule 17a-10 shall be subject to late filing charges as follows:

Days late and amount

01-30	$100
31-60	$200
61-90	$400

Repeated or aggravated failure to file in a timely manner a report of financial condition on Form X-17A-5 will be referred to the Business Conduct Committee. A failure to file such financial report of more than 90 days will be referred to the Business Conduct Committee.

EXCHANGE'S STATEMENT OF BASIS AND PURPOSE

The purpose of the proposed rule change is to make explicit in the CBOE Rules the obligation of Exchange members subject to Rule 17a-10 filing requirements to file in a timely manner reports of finanical condition on Form X-17A-5 and to establish a schedule of late filing charges to encourage prompt compliance with such filing requirement. It is believed that these late filing charges will serve to communicate to the membership the necessity of prompt compliance and eliminate the necessity for more formal disciplinary action; however formal disciplinary action remains an available alternative, especially in case of aggravated or repeated failures to file required financial reports in a timely manner. The proposed late filing charge would also serve to defray the cost to the CBOE of dealing with members who have been delinquent in their filings.

The basis under the Act for the proposed rule interpretation is Section 6(b)(5) of the Securities Exchange Act which requires that the Exchange's rules be designed to promote just and equitable principles of trade and to protect investors and the public interest.

Comments have not been solicited or received respecting this proposed rule interpretation.

The Exchange does not believe the proposed rule interpretation will impose any burden on competition.

The foregoing rule change has become effective, pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted within 21 days of the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: January 12, 1979.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc. 79-2021 Filed 1-18-79; 8:45 am]

[8010-01-M]

[Release No. 34-15495; File No. SR-CBOE-78-34]

CHICAGO BOARD OPTIONS EXCHANGE, INCORPORATED

Self-Regulatory Organizations

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975) (the "Act"), notice is hereby given that on December 20, 1978 the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as folows:

INTRODUCTORY STATEMENT OF THE CHICAGO BOARD OPTIONS EXCHANGE, INC.

The Chicago Board Options Exchange, Incorporated ("CBOE") and the Midwest Stock Exchange, Incorporated ("Midwest") have entered into an agreement dated August 15, 1978 (the "Agreement"), to combine the options market of the two exchanges. (A copy of the Agreement has been filed as an exhibit to the form 19b-4A.) The Agreement contemplates the possibility that the transaction might occur in two stages: first, a relocation of Midwest's options market so as to be physically adjacent to CBOE's trading floor (the "Relocation"); and second, a full combination of the two options markets such that Midwest ceases to have responsibility for or connection with an options market, the options listed on Midwest become listed on CBOE and the Midwest options members become special members of CBOE (the "Combination").

The two-stage approach was agreed to in recognition that the Combination involved amendments to the rules of both exchanges, approval of which could take six or more months from the date of the Agreement, whereas some important benefits might be gained considerably earlier through a mere physical move of the Midwest options market without the necessity for rule amendments. In this filing, not only the proposed amendments to CBOE's rules necessary for accomplishing the full Combination but also CBOE's request for separate approval of the Relocation are presented as a proposed rule change, pursuant to a suggestion of the Staff, even though the Relocation itself does not require formal rule amendments. Concurrently herewith Midwest is also filing a proposed rule change covering both the formal amendments to its rules needed to accomplish the Combination and its request for approval of the Relocation.[1] In order to avoid unnecessary duplication in these filings, CBOE and Midwest have prepared a joint memorandum in support of the combination of the CBOE and Midwest options markets (the "Joint Memorandum"), which has been filed as an exhibit to each Form 19b-4A and incorporated by reference at various places in response to the appropriate items of the Form.[2]

For all the reasons set forth herein and in the Joint Memorandum, CBOE hereby requests that its filing and the concurrent filing of Midwest be processed on the most expeditious schedule possible (with minimum intervals between dates of filing, publication of notices, deadline for comments, and the Commission's final action) so that approval of the full Combination may be possible by not later than March 16; in that case the parties would forego the two-stage approach and therefore separate consideration of the Relocation (Stage I) would be unnecessary. If, however, it appears presently or in the course of consideration of this filing that approval of the full Combination (Stage II) is likely not to be possible by March 16 for any reason, CBOE hereby reqests that State I be separately considered and approved as expeditiously as possible, so that the Relocation may occur at the earliest possible date in view of the important (even though partial) benefits that can be achieved by proceeding with Stage I, as set forth in the Form 19b-4A and in the Joint Memorandum.[3]

The full Combination will of course result in a modest increase in the size of CBOE's market. it will not, however, expand options trading in the ag-

[1] Release No. 34-15494; File No. SR-MSE-78-30.

[2] Although both CBOE and Midwest are in full accord with the basic arguments and conclusions expressed in the "Joint Memorandum" it should be understood that statements specifically relating to Midwest's past experience, expectations, reasons, etc., are those of Midwest and that statements specifically relating to CBOE's plans, reasons, etc., are those of CBOE.

[3] If at all possible, CBOE and Midwest would like to complete the Relocation by not later than the weekend of March 24 in the event that approval of the full Combination appears not to be possible by March 16. As a practical matter the parties (i) will need an interval of approximately sixty days between approval of the Relocation and its actual effectuation and (ii) will want to avoid moving during any weekend related to expiration of any option series.

gregate, will not expand combined options-stock trading in the same market, and will not involve any new product or new form of options trading. Nor will it present any moratorium-related issues; the only relevant issue is market surveillance and regulation and, as will be seen below and in the Joint Memorandum, these will clearly be enhanced, not impaired, by the Combination.

Even less will the Relocation alone present moratorium-related issues. It will amount to a mere physical move of Midwest's options market, with no change in its operation and no diminution of Midwest's regulatory responsibility, but with an enhancement of Midwest's capacity to carry out both operational and regulatory functions through new contractual arrangements with CBOE.

At the time of agreeing to the voluntary moratorium, CBOE and Midwest informed the Chairman of the proposed transaction and of their intent to ask for prompt consideration during the moratorium. The two exchanges had in mind then, and again emphasize (i) Midwest's business reasons for terminating its options program and (ii) the obvious desirability of transferring the entire program to a location in Chicago in order to avoid unnecessarily harsh impacts on Midwest's members and employees whose livelihoods were involved in the Midwest options program. These considerations sharply distinguish the proposed Combination (and *a fortiori* the proposed Relocation considered separately) from other types of proposed rule changes that occasioned the moratorium. Accordingly, CBOE believes that the proposed rule changes should not be deemed expansionary within the meaning of the Points of Agreement with respect to the moratorium and should not be the basis for a general opening up of the right to file expansionary rule change proposals.

STATEMENT OF THE TERMS AND SUBSTANCE OF THE PROPOSED RULE CHANGE

The proposed rule change would implement the Agreement by making the amendments to CBOE's rules necessary in order to accomplish the full Combination of the CBOE and Midwest options markets. No amendments to CBOE's rules would be required in order to accomplish the relocation of the Midwest options market. The text of the formal amendment to CBOE's rules is set forth in Exhibit A hereto.

STATEMENT OF BASIS AND PURPOSE BY THE CHICAGO BOARD OPTIONS EXCHANGE, INCORPORATED.

The basis and purpose of the proposed rule change is as follows:

PURPOSE OF PROPOSED RULE CHANGE

The general purpose of this proposed rule change is to implement the Agreement with respect to the Combination of the options markets of CBOE and Midwest. The business reasons in support of the Combination and the public benefits that would be gained from the Combination are set forth in the Joint Memorandum (Exhibit 3 to the Form 19b-4A). The purpose of the proposed Relocation stage is to make possible the prompt achievement of certain of the benefits to be gained from the full Combination, in the event that the Commission's consideration of the full Combination becomes prolonged. The benefits to be gained from the Relocation are also set forth in the Joint Memorandum.

The specific purpose of each proposed amendment to CBOE's rules is as follows:

CERTIFICATE OF INCORPORATION

Article Fifth: This proposed amendment would enable CBOE to create different classes of membership (in this case, regular memberships for present CBOE members and special memberships for present Midwest options members) and provides that each regular member would have one vote. The amendment further provides that authority over the voting rights relating to other classes of membership would be contained in CBOE's by-laws (i.e., its Constitution and Rules) instead of its corporate charter, as permitted by Section 102 of the Delaware Corporation Law, with the result that the amending process would be less cumbersome.

Article Sixth: The first paragraph of this proposed amendment provides that, to the extent not set forth in the Certificate of Incorporation, authority over the conditions of membership and all matters relating to the membership, including limitations upon or qualifications of voting power of members, would be contained in the by-laws. The second paragraph of this proposed amendment provides that the by-laws would contain authority over matters relating to CBOE's internal management, organization, business and affairs. The Second paragraph does not relate to the combination of the two options markets, but is being made at this time for reasons of convenience and efficiency. Both paragraphs are consistent with Section 102 of the Delaware Corporation Law which permits authority over such matters to be contained in either the corporate charter or the by-laws, and are intended to give CBOE more flexibility in the conduct of its affairs than would be the case if all such matters were delineated in the Certificate of Incorporation, with its attendant cumbersome amending process.

Article Eighth: This proposed amendment provides that authority for the classification of CBOE's Board of Directors would be contained in its by-laws and is intended to confirm the classification which is now set forth in CBOE's Constitution. This proposed amendment does not relate to the combination of the two options markets, but is being made at this time for reasons of convenience and efficiency. This proposed amendment is consistent with Section 141 of the Delaware Corporation Law, which permits the corporate charter of a non-stock corporation to authorize the creation of classifications of its board of directors that are different from those specified for stock corporations.

CONSTITUTION

Section 1.1(b): This proposed amendment would define the term "member" to include a regular member and a special member, or their registered nominees, thereby taking account of the proposed new class of membership, and is intended to make the rules of CBOE generally applicable to special members as well as regular members.

Section 2.1(b): Because CBOE proposes to create a new class of membership, this proposed amendment would specify that the terms of eligibility for an existing CBOE membership apply only to regular memberships; the terms of eligibility for a special membership would be stated in proposed Section 2.1(d).

Section 2.1(d). This proposed amendment would establish and define the terms of eligibility for a new class of members of CBOE (ie., "special members") that would be available to Midwest options members in good standing on the effective date of the Combination and would also establish the right of those special members to act as market makers or floor brokers in those Midwest options classes which continue to be open for trading on CBOE. Special members would be subject to all the obligations of regular CBOE members, and the rights of special members would terminate ten years after CBOE assumes full responsibility for the Midwest options market. The Midwest options classes available for trading by special members would be (i) those classes of call options which were open for trading on Midwest on the last business day prior to the effective date of the Combination, and (ii) put classes on the securities underlying the classes of eligible call options, regardless of when trading commences in such put classes. Special members would be in a minority among CBOE members; for that reason, certain rights of special members would be detailed in this Section 2.1(d) and in proposed Section 2.6 (b) and (c) of the Constitution as a means of protecting against restriction of those rights by a majority vote of regular CBOE members. As proposed in Section 12.1, Sections 2.1(d), 2.6(b) and (c) and 12.1 could not be amended in a manner adversely affecting the rights of special members without the affirmative vote of a majority of the special members, voting as a separate class.

Section 2.6 This proposed amendment would establish the voting rights of a regular member (one vote) and a special member (one-sixth vote, except as otherwise provided by law) and would establish that a special member would have the same eligibility as a regular member to serve as a director or member of any committee of CBOE. The provisions with respect to the rights of special members are intended to provide the means by which such members participate in the selection of CBOE's directors and in the administration of its affairs and, as noted in the discussion with respect to proposed Section 2.1(d), would be included as Section 2.6(b) and (c) in the Constitution as a means of protecting against the restriction of those rights by a majority vote of regular CBOE members. The section would specify that a special member would have no interest in or right to share in any distribution of the assets of CBOE in the event of any liquidation or dissolution of CBOE. This provision restates a portion of CBOE's corporate charter that denies to special members any right to a distribution on liquidation or dissolution of CBOE.

Section 12.1. This proposed amendment would provide a means of protecting against the restriction of certain rights of special members (who would be in a minority on CBOE) by requiring that any amendment to Sections 2.1(d), 2.6 (b) and (c) and 12.1 of the Constitution adversely affecting the special members would require the affirmative vote of a majority of the special members eligible to vote, voting as a separate class.

RULES

Rule 2.23. This proposed amendment would permit the sale or cancellation by CBOE of a special membership in accordance with the provisions of Rule 3.14(b) [1] when amounts due to CBOE are more than six months past due. Regular memberships may now be sold under such circumstances, and special memberships would be included within that procedure. The provision with respect to cancellation of a special membership is intended to be used when the secondary market for special memberships ceases to exist, e.g., as the end of the ten-year life of the special memberships approaches.

Rule 3.10. This proposed amendment would provide a mechanism for establishing CBOE membership records with respect to special members and declaring an original application for special membership effective by tying such effectiveness to the filing by the special member of the usual documents and information required for membership on CBOE.

Rule 3.12. This proposed amendment would make clear that a special member would have no interest in or right to share in any distribution of the property of CBOE in the event of a dissolution or liquidation of CBOE.

Rule 3.13(b). This proposed amendment would include special memberships within the existing CBOE procedure for purchasing a membership.

Rule 3.14 (a) and (c). This proposed amendment would include special memberships within the existing CBOE procedure for sale or other transfer of a membership by an owner.

Rule 3.14(b). This proposed amendment would include special memberships within the existing CBOE procedure for the sale of a membership by CBOE where a member has died or been declared legally incompetent and his legal representative has not consummated a transfer within six months, or where a member's good standing has been suspended and has failed to be reinstated at the end of the period of suspension, or where a member's good standing has been terminated. In addition, the amendment would establish a procedure by which CBOE could cancel a special membership under such circumstances where it determines not to offer the special membership for sale. The provision with respect to cancellation of a special membership is intended to be used when the secondary market for special memberships ceases to exist, e.g., as the end of the ten-year life of the special memberships approaches.

Rule 3.15(a). This proposed amendment would include holders of special memberships within the existing CBOE procedure that is available to holders of non-transferable regular memberships for surrender of such a membership and would permit the holder of a special membership to surrender that membership in order to terminate his future obligations to CBOE. Such surrender might take place if the secondary market for such memberships ceases to exist, e.g., as the end of the ten-year life of the special membership approaches.

Rule 3.16(d). This proposed amendment would generally prohibit the leasing of special memberships, but would also establish the limited right of certain special members to continue leasing their memberships to persons who had been their lessees on Midwest continuously since July 18, 1978, and would subject all such lease arrangements to the existing requirements for leasing, and terminating the lease of, a regular membership. Further, the transfer of a special membership would terminate any lease arrangement with respect to that special membership. The exception to the general prohibition on leasing special memberships was included so that the limited number of leasing agreements in effect on Midwest at the time the exchanges reached an agreement in principle for the Combination could be continued following the Combination.

Rule 6.5. This proposed amendment would draw a distinction between the classes of options available for trading by regular members and those available for trading by special members (referred to as "MSE Options"), and is intended to call attention in the Rules (which tend to be more widely known by members than the Constitution) to the definition of MSE Options that is contained in proposed Section 2.1(d) of the Constitution. By utilizing a guideline under Rule 6.5, the listing of securities underlying the MSE Options could be updated readily as necessary by means of a filing under Section 19(b)(3) of the Act.

Rule 9.1. This proposed amendment is necessary because of the proposed new class of membership. The amendment would make clear that special members, in contrast to regular members, could act only as floor brokers or market makers on CBOE and could not transact business with the public.

BASIS UNDER THE ACT FOR PROPOSED RULE CHANGE

Section 6(b)(1) of the Act requires that an exchange have the capacity to be able to carry out the purposes of the Act and to comply and to enforce compliance by its members and persons associated with its members, with the provisions of the Act, the rules and regulations thereunder, and the rules of the exchange. The Joint Memorandum contains a discussion of CBOE's market and regulatory capacity. Given CBOE's present capacity and its current and planned programs for expansion, CBOE is confident that it can readily accommodate the Midwest options market.

The Agreement contemplates the possibility that the Relocation would take place prior to the effective date of the Combination, with CBOE providing most of the facilities and services necessary for the operation of the Midwest options market at that time. Upon the effective date of the Combination, except for incremental additions needed for CBOE to assume responsibility for surveillance with respect to its new special members (the

[1] The reference to Rule 3.13(b) in the current rule is a typographical error.

V 4 4 / 1 4 JAN 19 79 UMI

former Midwest options members), no additional market or regulatory capacity would be needed by CBOE. Should the Relocation not precede the Combination, CBOE would of course take over responsibility for the entire Midwest options program at one time. CBOE's market and regulatory capabilities are more than adequate for that task.

Section 6(b)(2) of the Act requires that the rules of an exchange provide that any registered broker or dealer or natural person associated with a registered broker or dealer may become a member of such exchange. After the effective date of the Combination, special memberships will be freely transferable [3] and may be purchased by any registered broker or dealer or natural person associated with a broker or dealer who otherwise meets the existing requirements for membership on CBOE.

Section 6(b)(3) of the Act requires in part that the rules of an exchange assure a fair representation of its members in the selection of its directors and administration of its affairs. The Agreement and the formal amendments to CBOE's rules set forth the rights of special members in this regard.

Section 6(b)(4) of the Act requires that the rules of an exchange provide for the equitable allocation of reasonable dues, fees and other charges among the members of the exchange. Section 6(b)(5) of the Act requires that the rules of an exchange be designed in part to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade and, in general, to protect investors and the public interest. Section 6(b)(6) of the Act requires that the rules of an exchange provide that its members be appropriately disciplined for violation of the provisions of the Act, the rules and regulations thereunder or the rules of the exchange. Section 6(b)(7) of the Act requires in part that the rules of an exchange provide a fair procedure for the disciplining of members, and for the denial of membership or the prohibition or limitation with respect to access to the services of the exchange or a member thereof. With respect to each of the foregoing statutory matters, special members of CBOE will be treated as regular CBOE members and will be fully subject to the existing rules of CBOE, as they are amended from time to time, governing such matters. In the event that the full Combination is preceded by the Relocation stage, the members of each exchange will continue to be fully subject to the existing rules of each exchange governing such matters, as they are amended from time to time, until the full Combination is accomplished.

CBOE did not solicit and has not received comments on the proposed rule change.

CBOE does not believe that the Combination will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Joint Memorandum sets forth the basis for such conclusion. For additional reasons, set forth in the Joint Memorandum, CBOE does not believe that the Relocation considered separately would impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. The Commission encourages those submitting comments on the proposed rule change to address (i) whether the proposed action is an expansion or material alteration of an existing options programs within the meaning of the options moratorium [4] and (ii) whether the proposed action imposes any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. [5] Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted within 30 days of the date of this publication.

By the Commission.

Dated: January 12, 1979.

GEORGE A. FITZSIMMONS,
Secretary.

EXHIBIT A TO (FILE NO. SR-CBOE-78-34)

(Additions are italicized; deletions are bracketed.)

The formal amendments to CBOE's rules necessary for implementation of the Combination [1] are as follows:

PROPOSED AMENDMENTS TO CERTIFICATE OF INCORPORATION

FIFTH: (a) The Corporation shall have members, and the [conditions of] membership of the Corporation [to the extent not stated in this certificate of incorporation, shall be stated] *shall consist of regular members and such other classes (if any) as may be provided* in the by-laws of the Corporation. *Each regular member shall be entitled at every meeting of members to one vote in person or by proxy. Members of each other class shall have only such voting rights and power (which may vary as between classes) as may be provided to such class in the by-laws of the Corporation, it being intended that, for each class, the by-laws, to the fullest extent permitted by law, may entirely withhold voting rights or grant voting rights only with respect to certain matters or generally with respect to all matters submitted to a vote by members, and, for each class granted voting rights, may grant voting power equal to, or more or less than, one vote per member of the class. Every reference in this Certificate of Incorporation to "members" or "membership" shall mean all classes of members and membership except as otherwise expressly provided in the text in which such words appear and except in paragraph (b) of Article FIFTH and in Article TENTH where the words "members" and "membership" mean regular members and regular membership only. Each reference in this Certificate of Incorporation to a majority or other proportion of the members entitled to vote on any matter shall mean such majority or other proportion of the votes of such members.* Subject to any limitation on the number of members which may be provided for in the by-laws *of the Corporation*, and except as provided in paragraph (b) of this Article FIFTH, membership in the Corporation shall be open to all individuals and organizations who qualify for membership pursuant to the by-laws.

(b) No Change

SIXTH: The By-laws of the Corporation shall consist of its Constitution and Rules, each as amended from time to time. The original By-laws shall be adopted by the initial Board of Directors of the Corporation, and thereafter the power to make, alter or repeal the Constitution shall be vested in the members of the Corporation entitled to vote thereon, and shall be exercisable by such vote of those members, subject to such condition (if any) of prior approval by the Board of Directors, as the Constitution may provide, while the power to make, alter or appeal the Rules shall be vested in the Board of Directors and shall be exercisable by such vote of Directors as the Constitution may provide.

To the extent that the conditions of membership are not stated in this Certificate of Incorporation, they shall be stated in the by-laws. In addition, the by-laws may contain provisions not inconsistent with this Certificate of Incorporation, as amended from time to time, governing any or all matters relating to the membership of the Corporation, including (without limiting the foregoing) the method of admission, the number, qualifications and classifications of members, the limitations, rights, powers, and duties of members, provisions relating to the transferability of memberships, the method of expulsion from and other termination of membership and limitations upon or qualifications of voting power by members. The by-laws may prescribe standards to determine good standing of members and if standards are so prescribed only members in good standing shall be entitled to vote on matters presented to members for their vote.

In addition, the by-laws may cover any and all other matters relating to the Corporation, including (without limiting the foregoing) its internal organization, management, business and affairs, in a manner not inconsistent with this Certificate of Incorporation, as amended from time to time. Such matters may be covered by the Constitution, or may be assigned expressly or impliedly (by absence of a provision in the Constitution) to the Rules.

EIGHTH: The governing body of the Corporation shall be its Board of Directors. The business and affairs of the Corporation shall be managed by the Board of Directors except to the extent that the authority, powers and duties of such management shall be delegated to a committee or committees of the Corporation established pursuant to the by-laws as hereafter provided. In addition to any committees of the Board of Directors which may be established as permitted by law, the by-laws of the corporation may provide for the establishment of one or more committees (the members of which shall be selected as provided in the by-laws and need not be either members of the Board of Directors or members of the Corporation), each of whom shall have the authority, powers and duties, including such authority, powers and duties in the management of the business and affairs of the Corporation, as the by-laws shall provide.

The number of Directors shall be as fixed in the Constitution and, to the extent provided in the Constitution, shall include non-member Directors appointed to represent the public. The Chairman of the Board, the Vice-Chairman of the Board and the President of the Corporation shall by virtue of their offices be members of the Board of Directors. *The members of the Board of Directors may be divided into such number of classes as may be provided in the by-laws of the Corporation, provided that the provision in such by-laws establishing such classes must be adopted by a vote of the members entitled to vote thereon.*

* * * * *

PROPOSED AMENDMENTS TO CONSTITUTION

ARTICLE I—DEFINITIONS

Section 1.1 Definitions.

(b) The term "member" means an individual member or a member organization of the Exchange (*or a registered nominee of such a member organization*) *that is a regular member* in good standing [in accordance with the Constitution and Rules, or a registered nominee of such a member organization] *described in Section 2.1(b) of Article II of the Constitution, or that is a special member in good standing described in Section 2.1(d) of Article II of the Constitution to the extent that such special members are entitled to the rights and are subject to the obligations of members under the Certificate of Incorporation, the Constitution, or the Rules.*

ARTICLE II—MEMBERSHIP

SECTION 2.1 NUMBER OF MEMBERSHIPS

(b) The *regular* membership of the Exchange shall consist of persons who acquire memberships made available by the Exchange in accordance with the Rules and shall also consist of those members of the Board of Trade of the City of Chicago who, pursuant to paragraph (b) of Article FIFTH of the Certificate of Incorporation, elect to apply for membership and are approved for membership in accordance with the Rules. Except as otherwise expressly provided in the Certificate of Incorporation, the Constitution or the Rules, every *regular* member of the Exchange shall be entitled to the same rights and privileges, and shall be subject to the same obligations, as every other *regular* member.

(c) No Change

(d) *The special membership of the Exchange shall consist of persons who were options members in good standing of the Midwest Stock Exchange, Incorporated ("Midwest"), as of ———— [2] and, subject to the conditions of approval for membership as stated in the Constitution and Rules, transferees of such persons. Special members in good standing, or lessees of such special members under lease arrangements that have been in effect continuously from July 18, 1978, shall be entitled to act as Market-Makers or Floor Brokers in accordance with Chapters VI and VIII of the rules in and only in those classes of MSE Options which continue to be open for trading on the Exchange; provided that all special memberships shall expire and all rights of special members shall cease, ten years after the date stated in the first sentence of this paragraph (d), and provided further, that a special membership may be cancelled by the Exchange at an earlier date under the circumstances, and with the effect, as provided in the Rules. Special members shall as a condition of their membership be subject to all of the obligations of regular members under the Constitution and the Rules, except as may be otherwise expressly provided in the Constitution or the Rules. For purposes of this paragraph (d), the term "MSE Options" shall mean (i) those classes of call options which were open for trading on Midwest at the close of business on the last business day prior to the date defined in the first sentence of this paragraph (d) other than classes of call options which, on the day Midwest commenced trading in such classes, also were open for trading on the Exchange, and (ii) all classes of put options on the securities underlying the classes of call options covered by (i).*

Voting and Other Rights and Powers

Section 2.6

(a) *Each regular member shall have the voting rights and power provided by law and by the Certificate of Incorporation.*

(b) *Except as otherwise provided by law and by Section 12.1, each special member shall be entitled at every meeting of members to one-sixth of one vote in person or by proxy, voting together with regular members and not as a separate class, and shall count as one-sixth of a member in all other instances when reference is made in the Constitution to a majority or other proportion or number of members (in-*

[1] Special memberships are not leasable, except to a lessee to whom the lessor had leased a Midwest options membership continuously from July 18, 1978.

[4] *See* Securities Exchange Act Release No. 14878 (June 22, 1978.)

[5] 15 U.S.C. 78f(b)(8) and Form 19b-4A.

[1] Implementation of the Relocation does not require any formal amendments to CBOE's rules.

[2] The date to be inserted in this blank is the thirtieth day after the conditions set out in paragraph 3.6 of the Agreement dated August 15, 1978 between the Exchange and Midwest have been satisfied, or such other date as to which the Exchange and Midwest shall agree in writing pursuant to paragraph 3.2 of such agreement.

cluding, without limiting the generality of the foregoing, reference to calling meetings of members, nominating by petition of members, determining a quorum of members or voting by members).

(c) Special members shall have the same eligibility as regular members to serve as directors of the Exchange and to serve on any committee of the Exchange.

(d) Special members shall have no interest in or right to share in any distribution of the property and assets of the Exchange in the event of any liquidation or dissolution of the Exchange.

ARTICLE XII—AMENDMENTS

CONSTITUTION

Section 12.1. The Constitution may be amended at any regular or special meeting of members by the affirmative vote of a majority of the members present in person or represented by proxy at the meeting; *provided, however, that any amendment to Section 2.1(d), Section 2.6 (b) and (c), or to this Section 12.1 having an adverse effect on special members must be approved by the affirmative vote of a majority of both the special members eligible to vote and the regular members present in person or represented by proxy at the meeting, voting as separate classes.* [The notice of the meeting shall state that such a proposed amendment will be considered.]

* * * * *

PROPOSED AMENDMENTS TO RULES

CHAPTER II—ORGANIZATIONS AND ADMINISTRATION

LIABILITY FOR PAYMENT

Rule 2.23. A member that does not pay any dues, fees, assessments, charges or other amounts due to the Exchange within 30 days after the same has become payable shall be reported to the Chairman, who may, after giving reasonable notice to the member of such arrearages, suspend the member until payment is made. Should payment not be made within 6 months after payment is due, [the] *a regular* membership may be disposed of by the Exchange *or a special membership may be disposed of or cancelled by the Exchange,* in accordance with Rule [3.13(b)] *3.14(b).*

CHAPTER III—MEMBERSHIP

EFFECTIVENESS OF MEMBERSHIP APPLICATIONS

Rule 3.10. (a) An application which has been approved by the Membership Committee shall become effective as follows:

[(a)] (*i*) An application for membership pursuant to paragraph (b) of Article FIFTH of the Certificate of Incorporation shall become effective upon payment to the Secretary of a registration fee in such amount as may be provided in Part C of Chapter II of the Rules.

[(b)] (*ii*) Except as provided in Rule 3.14(c) with respect to transferees of memberships, and except as provided in Rule 3.16(d) with respect to lessees of memberships, all other applications for membership (excluding applications for approval as the nominee of a member organization, or applications for the registration of an individual member on behalf of an organization) shall become effective upon the purchase of a membership and payment to the Secretary of the purchase price therefor and a registration fee in such amount as may be provided in Part C of Chapter II of the Rules.

[(c)] (*iii*) An application for registration as a nominee of a member organization shall become effective upon the effectiveness of the membership of the member organization and payment of a registration fee in such amount as may be provided in Part C of Chapter II of the Rules. Payment shall be made within 2 business days following the later of the receipt of the notice of approval by the applicant or the effectiveness of the membership of the member organization.

[(d)] (*iv*) An application for registration of an individual membership on behalf of an organization shall become effective upon the effectiveness of the individual membership and payment of a registration fee in such amount as may be provided in Part C of Chapter II of the Rules. Payment shall be made within 2 business days following the later of the receipt of the notice of approval by the applicant or the effectiveness of the individual membership.

(b) *An original application for special membership made by an options member of the Midwest Stock Exchange, Incorporated, pursuant to paragraph (d) of Section 2.1 of the Constitution shall become effective upon the filing with the Secretary of the documents and information required to be filed under Rules 3.5, 3.6, 3.7 and 3.8.*

OWNERSHIP OF MEMBERSHIP

Rule 3.12. The Exchange shall not recognize any interest in the property or other rights represented by a membership except that of its owner as registered with the Exchange. A nominee is not an owner, nor is a member organization on whose behalf an individual membership is registered nor is a lessee of a membership pursuant to Rule 3.16(d). No rights shall be acquired by the ownership of a *regular* membership except the right to an aliquot part of the net assets, if any, remaining after the payment of all debts and obligations of the Exchange in the event of its dissolution and winding-up and, if the owner of the membership is in good standing, such rights as may be provided by the Constitution and Rules to members in good standing. *Special members shall have no interest in or any right to share in any distribution of the property and assets of the Exchange in the event of its dissolution and winding-up.*

PURCHASE OF MEMBERSHIP

Rule 3.13.

(a) No Change.

(b) Outstanding Memberships. Outstanding transferable memberships with respect to which notices of sale have been filed under Rule 3.14 may be purchased by approved applicants, through the office of the Secretary, in accordance with the following procedures. All bids from approved applicants must be submitted in writing to the Secretary of the Exchange. The Secretary will file all bids *by class of membership* according to the highest price and the earliest submission date. The highest bid with the earliest filing date will be posted on the Exchange bulletin board. All bids remain in effect until written revocation thereof is received by the Secretary. When a bid filed in accordance with the procedures of this Paragraph (b) is matched with an offer filed in accordance with the provisions of Rule 3.14(a), then a binding sale will occur. Memberships purchased under this Paragraph (b) shall be acquired and paid for within 60 days of the applicant's receipt of the Notice of Approval issued pursuant to Rule 3.8.

(c) No Change.

SALE AND TRANSFER OF MEMBERSHIP

Rule 3.14 (a) Sale by Owner. The owner of a transferable membership who desires to sell his membership shall submit a written offer of sale to the Secretary of the Exchange. The Secretary will file all such offers *by class of membership* according to the lowest price and the earliest submission date. The lowest offer with the earliest filing date will be posted on the Exchange bulletin board. All offers remain in effect until written revocation thereof is received by the Secretary. When an offer filed in accordance with this paragraph (a) is matched with a bid filed in accordance with the provisions of Rule 3.13(b) then a binding sale will occur. In the case of a proposed transfer of all of the memberships of a member organization, the member organization's written offer shall include a representation that the customer's accounts, if any, held by such member have been transferred to other members. A member who has filed an offer of sale shall, so long as he remains in good

standing and until a confirmation of the purchase of his membership has been filed with the Secretary, continue to have all of the rights and privileges, and shall remain subject to all of the duties and obligations, of membership.

(b) Sale *or Cancellation* by Exchange. Whenever one or more of the following conditions exist with respect to a transferable *regular membership or a special* membership, the Exchange *may* [shall] offer the membership for sale *by filing with the Secretary of the Exchange* [and] a written notice of transfer specifying the price at which the membership is to be sold: [shall be filed with the Secretary of the Exchange].

(a) No change

(b) No change

(3) No change

Whenever one or more of such conditions exist with respect to a special membership and the Exchange determines not to offer such special membership for sale, the Exchange may cancel such special membership by filing a cancellation of special membership form with the Secretary of the Exchange. Notice of each such cancellation shall be mailed to all members and shall be posted on the bulletin board of the Exchange. Following such cancellation, the individual or organization having its special membership cancelled shall cease to have any of the rights, privileges or obligations of membership.

(c) No Change

(1) No Change

(2) No Change

(3) No Change

(4) No Change

Notwithstanding the foregoing, transfers pursuant to this Paragraph (c) shall not become effective until there has been deposited with the Secretary of the Exchange an amount equal to the weighted average [of all membership sales that] *of the price at which all sales of membership of the same class as the membership being transferred* took place during the ninety days immediately preceding the date on which the transferee is approved for membership (or if no sales took place during such ninety day period, then an amount equal to the price at which the last prior sale took place) or an acceptable Letter of Guarantee from a Clearing Member for such amount, which amount shall be applied as though it were proceeds of the sale of membership for the purposes of Rule 3.15 hereof; provided, however, that where the owner of a transferable membership is subject to an effecive performance obligation agreement with the Exchange, but has received Exchange approval to transfer such membership, the amount to be deposited with the Secretary of the Exchange or represented by an acceptable Letter of Guarantee from a Clearing Member as the final condition to be met prior to the effectiveness of the transfer shall be held for the purposes of Rule 3.15, as described above.

SPECIAL PROVISIONS REGARDING MEMBERSHIPS

Rule 3.16. (a) Surrender of [Non-transferable] Memberships. Individuals or organizations owning non-transferable memberships acquired pursuant to paragraph (b) of Article FIFTH of the Certificate of Incorporation *or owning special memberships* may surrender such memberships by giving notice thereof to the Secretary of the Exchange on a form provided by the Exchange. Upon receipt of such notice, the Secretary shall post a notice of proposed surrender of membership on the bulletin board of the Exchange. After such notice has been posted for at least 20 days, and after determining that the membership being surrendered is in good standing, has provided for the orderly transfer of its customers' accounts, if any, and has no outstanding debts or obligations to the Exchange, the Clearing Corporation, or members, the Secretary shall terminate such membership. Notice of each such termination shall be mailed to all members and shall be posted on the bulletin board of the Exchange. Following such termination, the individual or organization surrendering its membership shall cease to have any of the rights [or], privileges *or obligations* of membership.

(b) No Change

(c) No Change

(d) Leased Memberships. (i) The owner of a transferable *regular* membership in good standing that is not subject to disciplinary proceedings under Chapter XVIII of the Rules may lease such membership to an individual or organization, provided the lessee is approved for membership in accordance with the Rules of the Exchange. Lease agreements, which must be approved by the Exchange in accordance with Rule 3.6, shall include provisions covering (A) the duration of the lease arrangement; (B) the consideration to be paid by the lessee; (C) the assignability of the respective interests of the lessee and lessor in such lease agreement; and (D) as between the parties, which party shall exercise the voting rights of the membership and which party shall provide the funds necessary to satisfy all applicable Exchange dues, fees and other charges. Any division of rights and responsibilities between lessor and lessee shall not affect the obligation of the lessor to pay all amounts due the Exchange in accordance with its applicable Rules. The Exchange shall recognize the lessee as having the right to exercise all voting rights with respect to the membership, provided that the lease agreement may provide for the lessor to exercise voting rights through the use of a proxy as provided for in Section 5.2 of Article V of the Constitution.

(ii)[1] The lease of a *regular* membership or the reversion of a previously leased membership *of any class* to the lessor upon termination of the lease agreement shall not become effective until there has been deposited with the Secretary of the Exchange an amount equal to the weighted average of all membership sales *of the same class as the leased membership* that took place during the ninety days immediately preceding the date on which, in the case of a lease, the lessee is approved for membership or in the case of a reversion to a lessor, the lease terminates (or if no *such* sales took place during such ninety day period, then an amount equal to the price at which the last prior sale *of the same class of membership* took place) or an acceptable Letter of Guarantee from a Clearing Member for such amount, which amount shall be applied to claims of creditors of the previous lessee which arose in the course of that previous lease arrangement or of the lessor as though it were proceeds of the sale of a membership for the purposes of Rule 3.15 hereof.

(iii) No Change

(iv) No Change

(v) *Special memberships shall not be leasable, except that on the effective date of his special membership the original owner of a special membership may lease such membership to an individual or organization who has been his lessee on the Midwest Stock Exchange, Incorporated, continuously from July 18, 1978. The lease arrangement shall be subject to the provisions of subparagraphs (i) through (iv) of this paragraph (d). The sale of a special membership which is subject to a lease arrangement shall terminate that lease arrangement.*

CHAPTER VI—DOING BUSINESS ON THE EXCHANGE FLOOR LIMITATION ON DEALING

Rule 6.5 No *regular* member shall bid, offer, purchase or write (sell) on the Exchange any security other than an option contract that is currently open for trading in accordance with [Rule 5.5] *the provisions of Chapter V. No special member shall bid, offer, purchase, or write on the Exchange any security other than an option contract relating to one of the underlying*

securities listed in a guideline under this Rule 6.5 (MSE Options, as that term is defined in Section 2.1(d) of the Constitution) and currently open for trading in accordance with the provisions of Chapter V.

0.1 Special members may bid, offer, purchase, or write on the Exchange option contracts currently open for trading only with respect to the following underlying securities:

Bristol-Meyers Company
Carrier Corporation
Champion International Corporation
Coastal States Gas Corporation
Evans Products Co.
Freeport Minerals Company
Corning Glass Works
Hughes Tool Co.
Litton Industries, Inc.
Middle South Utilities, Inc.
Northwest Industries, Inc.
Owens-Illinois, Inc.
Ralston Purina Co.
Revlon, Inc.
Rockwell International Corp.
Safeway Stores, Incorporated

CHAPTER IX—DOING BUSINESS WITH THE PUBLIC

RULE 9.1 EXCHANGE APPROVAL

An individual *regular* member or any *special member* may not transact business with the public. A *regular* member organization may transact business with the public after an application, submitted on a form prescribed by the Exchange, has been approved by the Membership Committee. Approval to transact business with the public shall be based on a member organization's meeting the general requirements set forth in this Chapter and the net capital requirements set forth in Chapter XIII of the Rules, and such approval may be withdrawn if any of the requirements cease to be met.

[FR Doc. 79-2-22 Filed 1-18-79; 8:45 am]

[8010-01-M]

[Release No. 34-15494; File No. SR-MSE-78-30]

MIDWEST STOCK EXCHANGE, INCORPORATED

Self-Regulatory Organizations

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on December 21, 1978, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

THE MIDWEST STOCK EXCHANGE'S STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The Midwest Stock Exchange, Incorporated ("Midwest") and the Chicago Board Options Exchange, Incorporated ("CBOE") have entered into an agreement dated August 15, 1978 (the "Agreement"), to combine the options markets of the two exchanges. (A copy of the Agreement has been filed as an exhibit to the Form 19b-4A). The Agreement contemplates the possibility that the transaction might occur in two stages: first, a relocation of Midwest's options market so as to be physically adjacent to CBOE's trading floor (the "Relocation") on the terms and conditions set forth in Article II, pp. 3 to 12, of the Agreement; and second, a full combination of the two options markets such that Midwest ceases to have responsibility for or connection with an options market, the options listed on Midwest become listed on CBOE and the Midwest options members become special members of CBOE (the "Combination"), on the terms and conditions set forth in Article III, pp. 13 to 19, of the Agreement.

The two-stage approach was agreed to in recognition that the Combination involved amendments to the rules of both exchanges, approval of which could take six or more months from the date of the Agreement, whereas some important benefits might be gained considerably earlier through a mere physical move of the Midwest options market without the necessity for rule amendments. If this filing, not only the proposed amendments of Midwest's rules necessary for accomplishing the full Combination but also Midwest's request for separate approval of the Relocation are presented as a proposed rule change, pursuant to a suggestion of the Staff, even though the Relocation itself does not require formal rule amendments. Concurrently herewith CBOE is also filing a proposed rule change covering both the formal amendments to its rules needed to accomplish the Combination and its request for approval of the Relocation. In order to avoid unnecessary duplication in these filings, CBOE and Midwest have prepared a joint memorandum (the "Joint Memorandum") which is attached to each filing as Exhibit 3 and incorporated by reference at various places in response to the appropriate items of the Form.[1]

For all the reasons set forth herein and in the Joint Memorandum, Midwest hereby requests that its filing and the concurrent filing of CBOE be processed on the most expeditious schedule possible (with minimum intervals between dates of filing, publication of notices, deadline for comments, and the Commission's final action) so that approval of the full combination may be possible by not later than March 16; in that case the parties would forego the two-stage approach and therefore separate consideration of the relocation (Stage I) would be unnecessary. If, however, it presently or in the course of consideration of this filing appears that approval of the full Combination (Stage II) is likely to be more prolonged for any reason, Midwest hereby requests that Stage I be separately considered and approved as expeditiously as possible so that the Relocation may occur at the earliest possible date in view of the important (even though partial) benefits that can be achieved thereby, as set forth herein and in the Joint Memorandum.[2]

To facilitate the Commission's consideration of the filing on the foregoing basis, the reasons, benefits and statutory justifications for the full Combination are set forth under appropriate headings herein and in the Joint Memorandum, with separate comments where appropriate with regard to the Relocation considered separately.

The formal amendments to Midwest's rules necessary for the implementation of the Combination are as follows:

PROPOSED CONSTITUTIONAL AMENDMENTS

Additions Italicized [Deletions-Bracketed]

ARTICLE I—NO CHANGE

ARTICLE II

[Types of Memberships

Sec. 1. There shall be three types of memberships:

a. Midwest Stock Exchange Memberships (also hereinafter referred to as "equity memberships without options privileges").

b. Midwest Stock Exchange Memberships With Options Privileges (also hereinafter referred to as "equity memberships with options privileges").

[1] Although both CBOE and Midwest are in full accord with the basic arguments and conclusions expressed in the "Joint Memorandum" it should be understood that statements specifically relating to Midwest;s past experience, expectations, reasons, etc., are those of Midwest and that statements specifically relating to CBOE's plans, reasons, etc., are those of CBOE.

[2] If at all possible, CBOE and Midwest would like to complete the Relocation by not later than the weekend of March 24 in the event that approval of the full Combination appears not to be possible by March 16. As a practical matter the parties (i) will need an interval of approximately sixty days between approval of the Relocation and its actual effectuation and (ii) will want to avoid moving during any weekend related to expiration of any option series.

c. Midwest Options Memberships (also hereinafter refered to as "options-only memberships").

A Midwest Stock Exchange Membership may be converted into a Midwest Stock Exchange Membership With Options Privileges any time up to and including December 31, 1979, by the payment of a fee as determined by the Board of Governors.

A Midwest Options Membership may be converted into a Midwest Stock Exchange Membership With Options Privileges upon the payment of a fee, as determined by the Board of Governors, at any time up to and including December 31, 1979. Upon conversion, such Midwest Options Membership will be cancelled.

Except as otherwise provided, the words "membership" or "member" when not preceded by the words equity or options shall include all three types of memberships. The words "equity membership" (or member) unless followed by the words "with options privileges" or "without options privileges" shall include both types of equity memberships (or members). The words "options memberships" (or member) unless preceded by the words, "Midwest," shall include both the equity memberships (or member) with options privileges and the options-only memberships (or member).

In those section of the By-Laws or in those Rules that are specifically designated as applicable to equity trading of equity members, the word member shall mean only equity members. In those sections of the By-Laws or in those rules specifically designated as applicable to options trading or options members, the word member shall mean only options members.]

NUMBER AND OWNERSHIP OF MEMBERS

Sec. [2.] *1* [(a)] The number of equity memberships in the Exchange shall not exceed *465* [635]. [Of such memberships, 200 may be issued only upon conversion of a Midwest Options Membership as provided in Sec. 1 of this Article. At December 31, 1979, any of the 200 memberships so reserved that have not been issued, will be cancelled.

(b) The number of Midwest Options Memberships shall not exceed 2-0. The number of Midwest Options Memberships authorized herein shall be reduced by the number of such memberships converted to equity memberships as provided in Sec. 1 of this Article.]

[(c)] Memberships may be owned by individuals, partnerships and corporations, under such conditions and qualifications as shall be prescribed in the Rules of the Exchange (these and all other Rules of the Exchange adopted by the Board of Governors being hereinafter referred to as the "Rules").

RIGHTS AND PRIVILEGES OF MEMBERSHIP

Sec. [3.] *2* (a) [Equity members have full rights and privileges with respect to equity trading on the Exchange but are not to be entitled to the rights and privileges of options trading unless also options members.

(b) Options members have full rights and privileges with respect to options trading on the Exchange but are not to be entitled to the rights and privileges of equity trading unless also equity members.

(c) Options-only members have no right to vote in any election for Governors of the Exchange or any other elected official, trustee or person authorized under the Constitution of the Exchange or upon any amendments to the Constitution or any other matter which may be submited to a vote of the members of the Exchange or in any other matter whatsoever, except:

(1) Options-only members may vote with respect to the selection of one individual to serve on the Board of Governors.]

[(2)(i)] [The consent of a majority of options-only members shall be necessary for effecting or validating any amendment, alteration or repeal of any provision of the Certificate of Incorporation or the By-Laws of the Exchange which adversely affects the rights of options-only members upon dissolution, final liquidation or winding up of the affairs of the Exchange to which such members may be entitled. However, any amendment of the provisions of the Certificate of Incorporation or by By-Laws of the Exchange which authorizes (a) any additional classes of membership which have no rights upon dissolution, final liquidation or winding up of the Exchange, or such rights as are expressly subordinate to the rights of the equity members and the options-only members to receive the distributions as provided in Sec. 2 (a) and (b) of Article IX of the Constitution of the Exchange, and (b) additional members of any existing classes of memberships, shall not be deemed to affect adversely the rights of the options-only members upon dissolution, final liquidation or winding up of the Exchange.

(ii) In any merger or consolidation of the Exchange or any sale, lease or conveyance of all or substantially all of its assets which would materially adversely affect the rights of options-only members upon dissolution, final liquidation or winding up of the Exchange, or of the corporation or entity resulting from such merger or consolidation, the options-only members shall be entitled to vote thereon together with the equity members of the Exchange as a single class.

(3) Options-only members may vote with respect to any matters upon which voting rights are granted by the Board of Governors.]

[(d)] Unless the owner of a membership has been approved by and is in good standing with the Exchange as provided in the Rules, such owner shall have no right to exercise any right or privilege of membership, to hold himself or itself out for any purpose as a member or otherwise affiliated with the Exchange, or to deal on or with the Exchange on any basis other than as a non-member, except as otherwise specifically provided in the Rules. When used in the Certificate of Incorporation, Constitution and Rules, unless the context otherwise requires, the terms "member," "member firm," "member corporation" and "member organization" refer exclusively to persons and organizations approved by and in good standing with the Exchange.

NOMINEES AND VOTING DESIGNEES

Sec. [4] *3* A member firm or member corporation (hereinafter referred to as a "member organization") owning a membership in the Exchange shall designate in writing filed with the Secretary of the Exchange:

(a) A nominee [(or in the case of an equity membership with options privileges, nominees as provided in the Rules)] to represent and act for it in all matters pertaining to the Exchange (except for those matters upon which the vote, consent or similar formal expression of the member organization is required or permitted or in connection with meetings or the obtaining of any such consent or similar formal expression) and business conducted by such member organization on the Exchange; a nominee of a member organization shall be one of its general partners or its Chairman of the Board, Vice-Chairman of the Board, President, one of its Vice-Presidents or, with the approval of the Board of Governors, another person affiliated with such member organization; and,

(b) A voting designee to represent and act for the member organization with respect to any matter upon which the vote, consent or similar formal expression of the member organization is required or permitted and in connection with all meetings of members and the obtaining of any such consent or similar formal expression; a voting designee of a member organization shall be one of its general partners or its Chairman of the Board, Vice-Chairman of the Board, President or one of its Vice-Presidents.

The nominee[(s)] and voting designee may be the same or different persons, provided that the voting designee must be a general partner, the Chairman or Vice-Chairman of the

V 4 4 / 1 4 J A 1 9 7 9 UMI

Board, the President or a Vice-President of a member organization and *the* [a] nominee may be one of such persons or, with the approval of the Board of Governors, another person affiliated with the member organization. Designations of nominees and voting designees of member organizations and any changes thereof shall be subject to the approval of the Exchange. Except as specifically provided otherwise, the word "member" wherever used in the Certificate of Incorporation, Constitution and Rules shall include and also mean the nominee of a member organization but shall not include the voting designee if a different person.

Old Sec. 4. becomes Sec. 5 with no change in text.

Old Sec. 5. becomes Sec. 6 with no change in text.

ARTICLE III

No change, except as follows:

MEMBERS OF THE BOARD OF GOVERNORS

Sec. 2. The Board of Governors shall be composed of the Chairman of the Board, the Vice Chairman of the Board, the President and *21* [22] Governors. The Chairman and Vice chairman of the Board and at least a majority of the *21* [22] Governors shall be members, general partners of member firms or officers of member corporation (such Governors sometime hereinafter referred to as "member Governors"), and at least six Governors (other than the President) shall be unaffiliated with the Exchange or any broker or dealer in securities (such Governors sometimes hereinafter referred to as "non-member Governors"). The Chairman, Vice chairman and President shall serve one year terms. The members of the Board of Governors [elected by the Equity members of the Exchange in accordance with Article IV of the Constitution] (other than the Chairman of the Board, the Vice Chairman of the Board and the President) shall be divided into classes; there shall be seven Governors in class I, seven Governors in Class II and seven Governors in Class III. At least two members of each class [I, II, & III] shall be non-member Governors. The Term of the Class I Governors elected at the first annual meeting of the Exchange shall expire at the annual meeting of the Exchange in 1974, the term of the Class II Governors then elected shall expire at the annual meeting of the Exchange in 1975, and the term of the Class III Governors then elected shall expire at the annual meeting of the exchange in 1976, or thereafter in each case when their respective successors are elected and qualified. [With respect to the Class I, II and III Governors,] at the annual meeting of the Exchange held in 1974 and at each annual meeting held thereafter, seven Governors, at least a majority of whom are member Governors and at least two of whom are non-member Governors, shall be elected to succeed those whose terms then expire. The Governors so elected shall be identified as being of the same class as the Governors they succeed and shall be elected for a term expiring at the third succeeding annual meeting of the Exchange or until their respective successors in each case are thereafter elected and qualified. [In addition, there shall be a member Governor elected by the options-only members. Such Governor shall be elected in accordance with Section 22(b) of Article IV of the Constitution for the one year term or portion thereof expiring at the annual meeting of the Exchange in 1978 or thereafter when a successor is elected and qualified. Such governor shall thereafter be elected in accordance with the provisions of Part II of Article IV of the Constitution for one year terms commencing with the conclusion of the annual meeting of the Exchange that follows such election.]

ARTICLE IV

PART I

MEETINGS OF [EQUITY] MEMBERS, NOMINATIONS AND ELECTIONS

PLACE OF MEETINGS

Sec. I. Meetings of [equity] members of the Exchange shall be held at such place, within or without the State of Delaware, as the Board of Governors may designate prior to the giving of notice of such meeting, but if no such designation is made, then at the principal business office of the Exchange.

ANNUAL MEETING

Sec. 2. The annual meeting of the Exchange shall be held on the second Monday in January each year, unless such day be a holiday, when the meeting shall be held on the next day following which is not a holiday. At each annual meeting there shall be elected a Chairman and a Vice-Chairman of the Board, to hold office for one year, not less than the required number of Governors to fill expiring terms and any vacancies in unexpired terms and three members of the Nominating Committee to act in connection with the following annual meeting.

NOMINATING COMMITTEE

Sec. 3. There shall be a Nominating Committee composed of three [equity] members elected at each annual meeting of the Exchange from among [equity] members, general partners of [equity] member firms and officers of [equity] member corporations who do not hold any office in the Exchange. Any vacancy upon the Nominating Committee shall be filled by the remaining members of the Nominating Committee from among persons who would have been eligible for election to such position at the preceding annual meeting. No member of the Nominating Committee in any year shall be eligible for election to any office or position in the Exchange for the ensuing year nor shall he serve as a member of the Nominating Committee for two successive years.

REPORTING OF NOMINATING COMMITTEE

Sec. 4(a). After consulting with the President and the Chairman of the Board with respect to the current developments and needs of the Exchange which should be considered in connection with nominations not later than 30 days preceding each annual meeting, the Nominating Committee shall report to the Secretary nominations to be voted on at the annual meeting as follows:

(i) A Chairman of the Board and a Vice Chairman of the Board, each to serve for one year;

(ii) Seven Governors, at least a majority of whom shall be member Governors, and at least two of whom shall be non-member Governors to serve for a term of three years;

(iii) That number of Governors required to fill any vacancies on the Board of Governors to serve for any unexpired terms. Any person nominated to fill a vacancy on the Board of Governors shall be of the same category (from the Chicago area or elsewhere, member or non-member) as the Governor he is nominated to succeed;

(iv) Three members of the Nominating Committee to act in connection with the next following annual meeting;

Sec. 4(b). The Nominating Committee shall make its nominations so as to accomplish the following:

(i) Having the 15 member Governors in Classes I, II and III consist of eight from the Chicago area (at least two of whom shall be active on the Floor of the Exchange) and seven from elsewhere in the United States or Canada, selected with a view to providing, over time, representation on the Board to all geographical areas in which there are member organizations which support and significantly contribute to the strength and growth of the Exchange; provided that, in the event that the number of non-member Governors of the Exchange exceeds six, the number of member Governors from each area (the Chicago area and elsewhere) shall be proportionately reduced (the number of member Governors not from the Chicago area being subject to the first reduction).

(ii) Having a Chairman of the Board, a Vice Chairman of the Board and member Governors who, if affiliated with member organizations, occupy senior management positions having substantial responsibility in such member organizations.

(iii) Having persons on the Board of Governors and the Nominating Committee who are interested in and knowledgeable about the various aspects of Exchange operations and of the securities business and the activities of the Midwest Clearing Corporation and the Service Corporation.

LIMITATION ON SERVICE

Sec. 5. No Governor [in Class I, II and III] who has served all or part of two consecutive terms as Governor (excluding terms expiring at the first annual meeting of the Exchange) shall be eligible for election as a Governor of the Exchange except after an interval of at least one year. This disqualification shall not apply to [any person who upon completion of one or more terms as a Class I, II or III Governor shall become] the Chairman or Vice Chairman of the Board or the President. [The Governor chosen by the options-only members in accordance with the provisions of Part II of this Article shall be eligible to serve six consecutive one-year terms. Such Governor will not be eligible to serve as a Governor after six consecutive one-year terms except after an interval of at least one year.]

Sec. 6. No change.

NOMINATIONS BY [EQUITY] MEMBERS

Sec. 7. [Equity] members may nominate other canidates for the same office or offices as the candidates nominated by the Nominating Committee. Such nominations shall be by written petition which shall designate the candidate by name and office and shall be signed by the equity members so nominating. The petition must be filed with the Secretary at least 20 days prior to the annual meeting. A petition shall not be valid unless signed by not less than 10 [equity] members. No [equity] member may endorse more than one candidate for the same office, excepting candidates for members of the Board of Governors and of the Nominating Committee, in which case as many candidates as there are offices to be filled may be filled may be endorsed. In case of any nomination of a candidate for election to the Board of Governors pursuant to this Section 7, the election of member Governors from the Chicago area, member Governors from elsewhere in the Unites States or Canada and non-member Governors shall be separate so that the candidate or candidates so nominated will be opposing only the candidate or candidates of the same category nominated by the Nominating Committee.

PROCEDURE OF ANNUAL MEETINGS

Sec. 8. Annual meetings shall be conducted in the following manner:

(a) The Secretary of the Exchange and two [equity] members appointed by the Chairman of the Board shall constitute a committee to conduct the election held at the annual meeting of the Exchange. The Committee shall have authority to decide all questions pertaining to the election (except tie votes) and its decision shall be final.

(b)At each annual meeting each [equity] member shall be entitled to one vote for each Governor, officer and committee member to be elected, which may cast in person or by proxy. Proxies shall be [equity] members or officers of the Exchange.

(c) Promptly after the expiration of the time within which nominations may be made by petition, the Secretary shall mail to each [equity] member a notice of the exection, and a ballot containing the names of all candidates listed under the offices for which they have been severally nominated and a proxy card. Candidates nominated by the Nominating Committee and those nominated by petition shall be so designated on the ballot. An envelope marked "For Ballot Only" and a copy of this article of the Constitution, or instructions for voting based thereon, shall be enclosed with the notice. Each member desiring to vote by proxy shall mark his ballot and seal the same in the envelope marked "For Ballot Only." The envelope containing the ballot shall not be marked in any way to identify the member voting. He shall sign the proxy card and mail or deliver it, accompanied by the envelope containing his marked ballot, to the proxy designated in the proxy card. At the annual meeting such proxy shall deliver the proxy card to the Secretary (who shall file the proxy card and check the name of the member so voting on the voting list) and shall vote by placing the envelope containing the ballot in the ballot box. Voting in person shall be by secret ballot deposited in the ballot box by the member so voting. The execution of the proxy card or the deposit of the ballot in the ballot box by a voting designee of a member organization shall constitute a representative by such voting designee that he is duly authorized to vote on behalf of such member organization and that such vote is not contrary to instructions received by him from such member organization.

(d) No Change.

SPECIAL MEETINGS OF [EQUITY] MEMBERS

Sec. 9. Special meetings of [equity] members, for purpose or purposes, unless otherwise prescribed by statue or by the Certificate of Incorporation, may be called by the President or by the Chairman of the Board at the direction of Board of Governors and shall be called by the Secretary at the written request of 25 [equity] members stating the purpose or purposes of the proposed meeting.

Sec. 10. Unless otherwise prescribed by statue or by the Certificate of Incorporation or Constitution notice of each annual or special meeting of [equity] members, stating the date time and place thereof and the purpose or purposes for which such meeting is called, shall be given to each member entitled to vote thereat not more than 30 days and at least 10 days before the date of the meeting. Only matters stated in the notice of a meeting of members shall be brought before such meeting. Any [equity] member desiring that any matter be brought before an annual meeting of members shall so notify the Secretary at least 35 days prior to the date of such meeting, and the consideration of such matter shall be stated in the notice of such meeting as one of the purposes of such meeting.

QUORUM

Sec. 11. A majority of the [equity] members, when present in person or represented by proxy shall constitute a quorum at all meetings of [equity] members for the transaction of business except as otherwise provided by statute, the Certificate of Incorporation or the Constitution.

VOTING BY [EQUITY] MEMBERS

Sec. 12. When a quorum is present at any meeting, a majority of members present in person or represented by proxy shall decide any question properly brought before such meeting, unless the question is one upon which by express provision of statute, the Certificate of Incorporation or the Constitution a different vote is required, in which case such express provision shall control. Voting on any question brought before any meeting of [equity] members shall be in accordance with the procedure provided by the Constitution for the election conducted at each annual meeting of the Exchange.

ACTION BY [EQUITY] MEMBERS WITHOUT A MEETING

Sec. 13. Any corporate action which might properly be brought before a meeting of [Equity] members upon which a vote of [equity] members is required or permitted may be taken without a meeting without prior notice and without a vote, with the written consent of [equity] members having not less than the minimum number of votes that would be neces-

V 4 4 / 1 4

sary to authorize or take such action at a meeting at which all [such] members having a right to vote thereon were present and voted; provided that prompt notice be given to those members who have not consented in writing to the taking of corporate action without a meeting by less than unanimous written consent.

Sec. 14. No change.

[PART II]

[Meetings, Nominations and Elections—Options—Only Members

Sec. 15. Meetings of options-only members shall be held at such place as the Board of Governors may designate prior to the giving of notice of such meeting, but if no such designation is made, then at the principal business office of the Exchange.

ANNUAL MEETING

Sec. 16. Annual meetings of options-only members will be held on the first Monday in October of each year commencing in 1977, unless such day shall be a holiday, in which case the meeting will be held on the next day following which is not a holiday. At each such annual meeting there shall be elected one member for the Midwest Stock Exchange Board of Governors, three members of an Options Nominating Committee to act in connection with the next following annual meeting and one options-only member to preside at the next annual meeting of options-only members and any special meetings convened prior to the next annual meeting. If the member designated to preside at the next annual meeting shall be unable to preside at such meetings or at any special meetings, such presiding officer may designate another options-only member as a replacement.

OPTIONS NOMINATING COMMITTEE

Sec. 17. There shall be an Options Nominating Committee composed of three options-only members elected at each annual meeting of options-only members from among options-only members, general partners of member firms owning options-only memberships and officers of member corporations owning options-only memberships who do not hold any other office in the Exchange. Any vacancy upon the Options Nominating Committee shall be filled by the remaining members of the Nominating Committee from among persons who would have been eligible for selection to such position at the preceding annual meeting. No member of the Options Nominating Committee in any year shall be eligible for election to any office or position in the Exchange for the ensuing year nor shall he serve as a member of the Options Nominating Committee for two successive years.

REPORTING OF OPTIONS NOMINATING COMMITTEE

Sec. 18. After consulting with the President and Chairman of the Exchange with respect to current developments which should be considered in connection with nominations and no later than 30 days preceding each annual meeting of options-only members, the Options Nominating Committee shall report to the Secretary nominations to be voted on at the annual meeting as follows:

(a) A nominee to be placed in nomination for election to the Board of Governors of the Exchange by the options-only members.

(b) Three members of the Options Nominating Committee to act in connection with the next following annual meeting of options-only members.

(c) A member to preside at the next following annual meeting of options-only members and any intervening special meetings.

RECOMMENDATIONS OF CANDIDATES

Sec. 19. At any time prior to the filing of the report of the Options Nominating Committee with the Secretary of the Exchange, any options-only member may recommend candidates for any office to the Committee, either in writing or in person. The Options Nominating Committee shall hold at least two open meetings for the purpose of receiving recommendations as to candidates from the options-only members and member organizations.

NOMINATIONS BY OPTIONS-ONLY MEMBERS

Sec. 20. Options-only members may nominate other candidates for the same office as the candidates nominated in accordance with Section 18 of this Article. Such nominations shall be by written petition which shall designate the candidate by name and office and shall be signed by the members so nominating. The petition must be filed with the Secretary at least 20 days prior to the annual meeting of options-only members. A petition shall not be valid unless signed by not less than 10 options-only members. No options-only member may endorse more than one candidate for the same office, exception candidates for members of the Options Nominating Committee, in which case as many candidates as there are offices to be filled may be endorsed.

PROCEDURES OF ANNUAL MEETINGS

Sec. 21. Annual meetings of the options-only members shall be conducted in the following manner:

(a) The Secretary of the Exchange and two options-only members appointed by the Chairman of the Board shall constitute a committee to conduct the election held at the annual meeting of the options-only members. The Committee shall have authority to decide all questions pertaining to the election (except tie votes) and its decision shall be final.

(b) At each such annual meeting each options-only member shall be entitled to one vote for each position or committee member to be elected, which may be cast in person or by proxy. Proxies shall be options-only members or officers of the Exchange.

(c) Promptly after the expiration of the time within which nominations may be made by petition, the Secretary shall mail to each options-only member a notice of the election, and a ballot containing the names of all candidates listed under the offices for which they have been severally nominated and a proxy card. Candidates nominated by the Options Nominating Committee and those nominated by petition shall be so designated on the ballot. An envelope marked "For Ballot Only" and a copy of this Article of the Constitution, or instructions for voting based thereon, shall be enclosed with the notice. Each options-only member desiring to vote by proxy shall mark his ballot and seal the same in the envelope marked "For Ballot Only." The envelope containing the ballot shall not be marked in any way to identify the member voting. He shall sign the proxy card and mail or deliver it, accompanied by the envelope containing his marked ballot, to the proxy designated in the proxy card. At the annual meeting of the options-only members, such proxy shall deliver the proxy card to the Secretary (who shall file the proxy card and check the name of the member so voting on the voting list) and shall vote by placing the envelope containing the ballot in the ballot box. Voting in person shall be by secret ballot deposited in the ballot box by the member so voting. The execution of the proxy card or the deposit of the ballot in the ballot box by a voting designee of a member organization shall constitute a representation by such voting designee that he is duly authorized to vote on behalf of such member organization and that such vote is not contrary to instructions received by him from such member organization.

(d) Upon completion of the vote, the Committee shall open the ballot box and the envelopes containing the ballots. The ballots shall be counted by the Committee and the candidate or candidates receiving the largest number of votes shall be declared to have been elected. Tie votes shall be decided by secret ballot of the Board of Governors at its first meeting following the election at which the tie occures.

SPECIAL MEETINGS

Sec. 22(a) Special meetings of options-only members, for any purpose or purposes, unless otherwise prescribed by statute or by the Certificate of Incorporation, may be called by the President, by the Chairman of the Board at the direction of the Board of Governors or by the options-only member elected to preside at the annual meeting of options-only members, and shall be called by the Secretary at the written request of 25 options-only members stating the purpose or purposes of the proposed meeting.

(b)(1) An initial special meeting of options-only members shall be held, at a date to be determined by the Chairman of the Board, prior to the initiation of options trading, to elect one member of the Board for the term expiring at the annual meeting of equity members in 1978, the Options Nominating Committee to act in connection with the initial annual meeting of options-only members, and the member who will preside at the initial special meeting and initial annual meeting of options-only members. Nominations for such officers and committee memberships shall be made from the floor of the meeting. An options-only member will be entitled to nominate one candidate for each of the offices or committee memberships to be filled. Each member present, in person or by proxy shall be entitled to one vote for each of the offices or committee memberships to be filled. Voting shall be by secret ballot deposited in the ballot box by the member or a member's proxy so voting. The execution of a proxy card, as provided in paragraph (b)(2) of this section or the deposit of the ballot in the ballot box by a voting designee of a member organization shall constitute a representation by such voting designee that he is duly authorized to vote on behalf of such member organization and that such vote is not contrary to instructions received by him from such member organization.

(2) The Secretary shall provide notice of the initial special meeting in accordance with Sec. 23 of this Article. A proxy form will be provided with such notice enabling the member to name any other options-only member to vote on behalf of the member at such meeting.

NOTICE

Sec. 23. Unless otherwise prescribed by statute or by the Certificate of Incorporation or Constitution notice of each annual or special meeting of options-only members, stating the date, time and place thereof and the purpose or purposes for which such meeting is called, shall be given to each member entitled to vote thereat not more than 30 days and at least 10 days before the date of the meeting. Only matters stated in the notice of a meeting of options-only members shall be brought before such meeting. Any member desiring that any matter be brought before an annual meeting of options-only members shall so notify the Secretary at least 35 days prior to the date of such meeting, and the consideration of such matter shall be stated in the notice of such meeting as one of the purposes of such meeting.

QUORUM

Sec. 24. A majority of the options-only members when present in person or represented by proxy, shall constitute a quorum at all meetings of options-only members for the transaction of business except as otherwise provided by statute, the Certificate of Incorporation or the Constitution.

VOTING BY OPTIONS-ONLY MEMBERS

Sec. 25. When a quorum is present at any meeting, a majority of options-only members present in person or represented by proxy shall decide any questions properly brought before such meeting, unless the question is one upon which by express provision of statute, the Certificate of Incorporation or the Constitution a different vote is required, in which case such express provision shall control. Voting on any question brought before any meeting of options-only members shall be in accordance with the procedure provided by the Constitution for the election conducted at each annual meeting of the exchange.

ACTION BY OPTIONS-ONLY MEMBERS WITHOUT A MEETING

Sec. 26. Any corporate action which might properly be brought before a meeting of options-only members upon which a vote of options-only members if required or permitted may be taken without a meeting, without prior notice and without a vote, with the written consent of options-only members having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all such members having a right to vote thereon were present and voted; provided that prompt notice be given to those members who have not so consented in writing to the taking of corporate action without a meeting by less than unamious written consent.

TERM "MEMBER" INCLUDES VOTING DESIGNEE

Sec. 27. The word "member" wherever used in this Article IV shall include and also mean the "voting designee" of a member organization but shall not include or mean the "nominee" of a member organization.]

ARTICLE V—NO CHANGE

ARTICLE VI—NO CHANGE

ARTICLE VII

BUSINESS CONDUCT

SUMMARY SUSPENSION

Sec. 1—No Change.

Sec. 2. The Exchange shall have the authority to discipline any member organization violating any provision of the Constitution or Rules or the By Laws or Rules of the Midwest Clearing Corporation, or Midwest Securities Trust Company [or the Options Clearing Corporation] as provided in the Rules. Discipline may be by censure, fine, suspension, expulsion or as the Board of Governors may determine. The Exchange, as and to the extent provided in the Rules, shall have regulatory and disciplinary jurisdiction over partners of member firms; officers, directors and principal stockholders of member corporations; employees of members and member organizations; subsidiaries of member organizations; parent firms and principal officers and subsidaries of parent firms. As and to the extent provided in the Rules, the disciplinary authority of the Exchange over any person or organization occupying a status described by this section shall continue after the termination of such status with respect to acts or omissions occurring prior to such termination. Disciplinary proceedings shall be in accordance with the Rules.

ARTICLE VIII

EXCHANGE CONTRACTS AND CLEARING CORPORATION[S]

EXCHANGE CONTRACTS

Sec. 1. All contracts pertaining to securities listed or admitted to unlisted trading privileges on the Exchange between member or member organizations for the purchase, sale, borrowing, loaning or hypothecation of such securities, or for the borrowing, loaning or payment of money in connection with a transaction in such securities, whether occurring on the Floor[s] of the Exchange or elsewhere, shall be Exchange contracts, unless made subject to the rules of another exchange. Contracts pertaining to other securities may be made Exchange Contracts by agreement of the parties.

TERMS AND CONDITIONS

Sec. 2. The provisions of the Certificate of Incorporation; Constitution and of the Rules shall be a part of the

JAN 19 79 UMI

V 4 4 / 1 4

terms and conditions of all Exchange Contracts and the By-Laws and the Rules of the Midwest Clearing Corporation and [the Options Clearing Corporation] shall be a part of the terms and conditions of every contract which is to be cleared or settled through *the* such Midwest Clearing Corporation[s] and all such contracts shall be subject to the exercise by the Board of Governors and the [appropriate] clearing corporation of the powers with respect thereto vested in them by the Certificate of Incorporation, Constitution and Rules of the Exchange and by the By-Laws and Rules of [either] *the Midwest* [or the appropriate] clearing corporation[s], respectively.

DELIVERY AND PAYMENT

Sec. 3. On every Exchange Contract delivery and payment shall be made through the Midwest Clearing Corporation [or Options Clearing Corporation] as required by the By-Laws and Rules of the Midwest Clearing Corporation [or Options Clearing Corporation], unless it is otherwise mutually agreed by the parties to the contract, or the *Midwest* [appropriate] Clearing Corporation, either in the particular instance or in pursuance of its By-Laws and Rules, refuses to act in the matter.

A party to an Exchange Contract who is not a clearing member of the Midwest Clearing Corporation [or Options Clearing Corporation] shall cause the transaction to be cleared and settled for him or it by a clearing member of the *Midwest* [appropriate] Clearing Corporation; however, such non-clearing member having both the purchase and selling orders of a proposed transaction may have such transaction completed on the Exchange without the services of a clearing member, provided it is duly reported to the Exchange and the *Midwest* [appropriate] Clearing Corporation.

ARTICLE IX

DISSOLUTION AND LIQUIDATION

DISSOLUTION OF EXCHANGE

Sec. 1. The affirmative vote of at least three-quarters of the [equity] members shall be required in order to dissolve the Exchange; in all other respects, the procedure to propose and vote upon dissolution shall be as required by the General Corporation Law of Delaware.

LIQUIDATION OF ASSETS

Sec. 2. After payment of all obligations of the Exchange, any remaining assets shall be sold and the net proceeds distributed *in aliquot parts* to the persons and organizations owning memberships at the time of the vote to dissolve the Exchange irrespective of whether such persons and organizations were entitled to vote on such dissolution [in the following manner]:

[a.] [Equity memberships will be entitled to equal distributions until each such member has received $13,500 for each membership owned less any indebtedness due to the Exchange, any unpaid fees, fines, dues, assessments or other charges.]

[b.] [If there should be any funds or assets remaining after the $13,500 payment (or provision therefor) to equity members, such remaining funds shall be distributed equally to the persons and organizations owning options-only memberships until each such member has received $10,000 for each membership owned, less any indebtedness due to the Exchange, any unpaid fees, fines, dues, assessments or other charges.]

[c.] [If there should be any funds or assets remaining after the $10,000 payment (or provision therefor) to options-only members, then such remaining funds or assets shall be divided equally among all memberships and distributed to all owners of memberships in aliquot parts.]

[d.] [Neither the consolidation or merger of the Exchange nor the sale, lease or conveyance of all or a part of its assets shall be deemed a final liquidation, dissolution or winding up of the affairs of the Exchange for the purpose of the foregoing provisions.]

* * * * *

As stated in the Introduction Statement, the general purpose of this proposed rule change is to effect a combination of the options markets of the COBE and Midwest. The business reasons in support of the combination are set forth in Part II, pp. 6-16, of the Joint Memorandum (Exhibit to Form 19b-4A) and are incorporated herein be reference. The public benefits that would be gained from the combination are set forth in Part III, pp. 17-20, of the joint Memorandum and also incorporated herein by reference.

The purpose of the proposed Relocation step is to make possible the prompt achievement of certain of the benefits to be gained from the full Combination, in the event that the Commission's consideration of the full Combination becomes unduly prolonged. The benefits to be gained from the Relocation are set forth at page 20 of the Joint Memorandum and are incorporated herein by reference.

The specific purpose of the proposed amendments to Midwest's rules is to eliminate all references to Midwest's organization, operation and regulation of an options market. This is accomplished by simply deleting from Midwest's rules those rules with respect to options that have been adopted since November 15, 1976, when the Commission approved Midwest's establishment of an options market.

With respect to the Combination, the proposed amendments to Midwest's rules would effect the termination of Midwest's operation and regulation of an options market. As such, the provisions of Section 6(b)(1)-(4), (6) and (7) of the act are not applicable. However, insofar as the proposed amendments reflect Midwest's judgment as to the best interests of its members and the public, they are designed "to protect investors and the public interest" in accordance with Section 6(b)(5) of the act. (See Parts I and II of the Joint Memorandum with respect to Midwest's business reasons for the transactions contemplated by the proposed rule changes and the public benefits to be gained therefrom.)

During the Relocation, Midwest will continue to oversee and regulate its options market in full compliance with its obligations under the Act. See Part III, pp 17-20, of the Joint Memorandum with regard to the upgrading of Midwest's surveillance capabilities upon the Relocation.

The Agreement contemplates the possibility that the Relocation would take place prior to the effective date of the Combination, with CBOE taking over certain of the responsibilities for the operation of the Midwest options markets at that time. Part IV, pp. 20-22, of the Joint Memorandum discusses CBOE's market and regulatory capacity. Given CBOE's present capacity and its current and planned programs for expansion, Midwest is confident that CBOE can readily accommodate the Midwest options market.

The Midwest Stock Exchange, Incorporated has neither solicited nor received any comments.

The Midwest Stock Exchange, Incorporated believes that no burdens have been placed on competition.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organizations consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. The Commission encourages those submitting comments on the proposed rule change to address (i) whether the proposed action is an expansion or material alteration of an existing options program within the meaning of the options moratorium[3] and (ii) whether the proposed action imposes any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.[4] Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted within 30 days of the date of this publication.

Dated: January 12, 1979.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 34-15497; File No. SR-NSCC-78-13]

NATIONAL SECURITIES CLEARING CORPORATION

Self-Regulatory Organizations

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended ("the Act") by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on January 2, 1979, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

TEXT OF PROPOSED RULE CHANGE

Amend Rule 11, Section 7 of the SCC Division of National Securities Clearing Corporation (the Corporation) as follows: (italics indicate new material and brackets indicate deletions)

Rule 11. Sec. 7. (a) In the event a Member has a Long Position in a CNS Security, the Member (the "originator") may demand immediate delivery thereof by filing, at or before the time specified in the Procedures, with the Corporation a Notice of Intention to Buy-In in the form prescribed by the Procedures. *For the purposes of this Section of these Rules and Section VI (K) and IX of the Procedures, the term "listed security(ies)" shall be deemed to mean a security(ies) traded on the New York Stock Exchange, Inc. and/or The American Stock Exchange, Inc., and the term "OTC security(ies)" shall be deemed to mean a security(ies) traded other than on The New York Stock Exchange, Inc. or The American Stock Exchange, Inc.* The originator may be given priority in the manner prescribed by the Procedures, in respect of the allocation by the Corporation of securities covered by the Notice of Intention to Buy-In in the settlement on the business day after the Notice of Intention to Buy-In is received by the Corporation and if the securities are not allocated to the originator in that settlement, in the settlement on the second business day after the Notice of Intention to Buy-In is received by the Corporation.

(b) In the event that less than all the securities covered by the Notice of Intention to Buy-In are received by the originator prior to the time specified in the Procedures, the Corporation shall as promptly as possible, but not later than the business day after the Notice of Intention to Buy-In is filed with the Corporation, deliver to the Member or Members, determined in accordance with the priorities specified in the Procedures, Retransmittal Notices specifying the total amount called for in the Notice of Intention to Buy-In which has not been received by the originator pursuant to said paragraph (a) (the "remaining securities") and demanding delivery from each such Member of a specified quantity of securities determined in accordance with the Procedures.

(c) Prior to the execution of a Buy-In *of either a listed security or an OTC security,* the originator must accept and pay for any portion or all the remaining securities delivered to the originator. [and if] *If* the originator *of a Notice of Intention to Buy-In a "listed security"* does not so receive all the remaining securities at the opening of business on the business day after which the Corporation delivers Retransmittal Notices pursuant to paragraph (b) of this Section, the originator may order the purchase of the portion remaining undelivered in the manner specified in the Procedures. *Extensions of the execution date for a Buy-In of a "listed security" will not be granted by the Corporation.*

[(d) In the event that a Notice of Intention to Buy-In is presented and sufficient securities are not delivered as provided in paragraph (b) of this Section and subsequently the originator does not order the purchase of the remaining securities, a charge may be levied against the originator in the amount of $250.]

(d) *If the originator of a Notice of Intention to Buy-In for an "OTC security" does not so receive all the remaining securities by the time specified in the Procedures, the originator may execute the Buy-In in the market of his choice and the originator must be prepared to defend the price at which the Buy-In is executed relative to the current market at the time of the Buy-In.*

(e) *Members who received Retransmittal Notices, which are the result of a Notice of Intention to Buy-In for a position in "listed securities" and do not deliver securities sufficient to satisfy such, shall assume liability for the loss, if any, which occurs as a result of the Buy-In.*

(f) *Members who received deliver security orders pursuant to the Procedures as a result of a Notice of Intention to Buy-In for a position in "OTC securities" and do not deliver securities sufficient to satisfy such, shall assume liability for the loss, if any, which occurs as a result of the Buy-In.*

(g) *Since Buy-Ins create the highest priority in the CNS Allocation System, to protect against improper use of the Buy-In Procedure, the Corporation, in its discretion, may levy a charge in the amount of $250 against the originator of a Buy-In in a listed security, who fails to order the purchase of securities representing the undelivered portion of the Buy-In request, if the Corporation determines that such failure to order or failure to execute was an abuse of the Buy-In Procedures.*

Amend Section VI. K. of the SCC Division Procedures as follows:

K. Recording of CNS Buy-Ins

LISTED SECURITIES

A member having a Long Position at the end of any day may submit to the Corporation a Notice of Intention to Buy-In (Buy-In Notice) specifying a quantity of securities not exceeding such Long Position which it intends to buy/in (Buy-In Position). For the purpose of this section, the day the Buy-In Notice is submitted is referred to as N, and N+1 and N+2 refer to the succeeding days. Each day commences in the evening and includes an evening allocation of securities and a daytime allocation. The Buy-In Position is given high priority for allocation through N+2.

NOTE: Same day and next day Buy-Ins against CNS positions are not permitted.

If a Buy-In Position remains unfilled after the evening allocation on N+1 the Corporation issues Retransmittal Notices on the morning of N+1 to Members with the oldest Short Positions. Age is defined as the number of consecutive days during which the Member has been short, irrespective of quantity. Retransmittal Notices are issued in an aggregate quantity at least equal to the Buy-In Position. In no case will the Buy-In Liability of a Member exceed the Buy-In Position or

[3] *See* Securities Exchange Act Release No. 14878 (June 22, 1978).

[4] 15 U.S.C. 78f(b)(8) and Form 19b-4A.

JAN 19 79 UMI

V 4 4 / 1 4 JAN 19 79 UMI

the total Short Position of the Member. If several Members have Short Positions with the same age, all such Members are issued Retransmittal Notices, even if the total of their Short Positions exceeds the Buy-In Position.

The quantity specified on each Member's restransmittal notice is its Buy-In Liability.

A Member's Buy-In Liability may be satisfied by the actual settlement of the Short Position up to the completion of the evening allocation on N+2. If a deposit of securities is required to satisfy the Short Position, that deposit should be made prior to the Designated Depository evening deposit cutoff time on N+1. Going from a Short Position to a flat or Long Position due to Settling Trades, stock dividends, or other activity on N+2 does not free a Member from Buy-In Liability. If the Buy-In Position is not satisfied at the end of the evening cycle on N+2, the Buy-In may be executed. See Section IX for execution procedures.

If a Member satisfies its Short Position during the daytime cycle on N+2, and the Buy-In is, in fact, executed on that day, the Member's Buy-In Liability will not be satisfied.

OTC Securities

Submission of OTC Buy-Ins. The Clearing Member with a long CNS position in an OTC issue would submit a Notice of Intention to Buy-In to the Clearing Corporation on or after the evening of Settlement day.

OTC Buy-In Retransmittals. If the Clearing Member's long position is not filled during the night cycle processing on N+1 (note: night cycle processing precedes day cycle), retransmittal Buy-In Notices will be sent to the oldest short Clearing Member(s) the following morning (N+1).

OTC Buy-In Receive and Deliver Security Orders. If the long position is not filled during the day cycle on N+1, at the end of that day's CNS processing, the Corporation will be substituted in the CNS system for the long Clearing Member and a receive security order will be issued to the long Clearing Member with the Corporation as the deliver side. At the same time, using a separate NSCC account, the Corporation will be substituted for the one or more short Clearing Members, who have received the retransmittal notices on the morning of N+1 and who have not, during the day cycle processing, covered their short positions by deliveries. The short Clearing Members will receive a deliver security order with the Corporation as the receive side. Deliver security orders will require physical delivery to the Corporation unless the Corporation waives such requirement.

Satisfaction of OTC Buy-Ins. If short Clearing members deliver the securities to the Corporation, the Corporation will redeliver the securities to the buying-in Clearing Member in satisfaction of the deliver security order and the entries substituting the Corporation in the CNS system will be reversed. Absent delivery by the short Clearing Member, if the Corporation's long position in the CNS system is allocated the securities, the Corporation will deliver the securities to the buying-in Clearing Member, cancel any remaining short Clearing Members' deliver security orders not needed to satisfy the Buy-In and re-establish these as shorts in the CNS system.

Extension of Time for OTC Buy-Ins. Extensions of time for execution will be granted by the Corporation under the following conditions:

1. *Non-Clearing Member Originated Buy-In. The execution date for an OTC Buy-In submitted by a Clearing Member to the Corporation, which results from a non-Clearing Member originated Buy-In, which has been extended pursuant to 859(g) of the NASD's Uniform Practice Code (UPC), would be the extended date (i.e., seven calendar days from the original execution date prior to extension). This execution date must be indicated on the Buy-In Intent Notice as well as the fact that the Buy-In is a UPC transmittal. This date will also be indicated on the retransmittal notice and any receive or deliver orders issued as a result of Buy-In Intent Notices. Further extensions (i.e., extensions for transfer or transit) would not be given.*

2. *Clearing Member Originated Buy-In. A short Clearing Member who has received a retransmittal notice as the result of a Clearing Member originated Buy-In may take a seven (7) calendar day extension due to transit or transfer consistent with the UPC. Upon request, certificate numbers will be furnished by the short Clearing Member requesting the extension. If the securities are in transfer and due to the transfer agent, transfer is delayed, the Corporation may grant an additional seven (7) calendar days. If the short Clearing Member cannot take the extension but retransmits a Clearing Member originated Buy-In to a non-Clearing UPC Member and the UPC broker takes a UPC transfer or transit delay, the short Clearing Member can pass the extension back to the Corporation who will extend the execution date for the same period of time.*

Amend Section IX of the SCC Division Procedures as follows:

IX. Execution of Buy-Ins

A. CNS System

A Member who has submitted a Buy-In Notice under subsection K of Section VI and not received the Buy-In Position shown on his Notice by the end of the evening cycle on N+2, unless extensions have been granted, may instruct the Corporation to buy-in the remaining position by delivering a Buy-In Order to the Corporation prior to time therefor on N+2 specified by the Corporation.

Members who receive Retransmittal Notices and do not satisfy them (Subject Members) assume liability for the loss, if any, which occurs as a result of the Buy-In.

Listed Securities

The Buy-In Order is executed by the Corporation in such marketplace and through such agents as it shall elect. The quantity bought-in is pro-rated among the Subject Members.

N.B. If the Buy-In Order is not executed on N+2, the Buy-In Order will not be executed thereafter, and it will be necessary for the originator to recommence the Buy-In Procedure in order to have his Long Position bought-in.

When a Buy-In Order has been executed, the quantity bought-in will be removed from the Long Position of the originating Member and the contract money will be credited to his account by journal entry. The Short Positions of the Subject Members will be reduced by the portion of the quantity bought-in allocated to each, and the appropriate portion of the contract money will be debited to their accounts, by journal entry. These journal entries will be processed the evening the Buy-In Order is executed and will affect the CNS records on the following day and be reported in the Miscellaneous Activity Report for such day.

Note: At the time the originator submits a Buy-In Order to the Corporation under the CNS System, the Buy-In Order should contain instructions for execution on a cash, next day or regular way ex-CNS basis (Special Trade).

OTC Securities

Execution of the Buy-In will be performed by the originator of the Buy-In, either Clearing Member or UPC broker. The short Clearing Member's Buy-In liability would be fixed on the day he receives the retransmittal notice (N+1). Any security delivery orders which have not been completed and on which a Buy-In is executed will be the liability of the failing to deliver Clearing Member. The long Clearing Menber must report a Buy-In Execution price to NSCC along with any profit or loss. NSCC will debit and credit the accounts of the Clearing Members involved in the Buy-In. In the event all or part of the long Clearing Member's Buy-In requirement is not met through execution, on the day after the established execution date, the receive and deliver orders issued on the evening of N+1 will be voided and the respective positions re-established in CNS. (In the event of a partial execution, this will be on a pro-rata basis.) At the same time, the remaining positions established in the NSCC Buy-In account in CNS will be cancelled.

Balance Order Systems

A member (the originator) holding a receive balance order in respect of which securities are not delivered by the time on the Settlement Date specified by the Corporation may cause such securities to be bought-in; provided, however, that the Buy-In shall not be effected prior to the third business day following the Settlement Date.

The originator submits to the Member holding the deliver balance order (the Subject Member) a Buy-In Notice, attaching a copy of his receive balance order thereto and specifying the proposed execution date and the quantity of securities, not exceeding the quantity specified in the receive balance order, which he intends to buy-in (Buy-In Position). The Buy-In Notice shall be delivered not later than the time specified by the Corporation at least two business days before the proposed execution of the buy-in.

An originator who has not received the Buy-In Position shown on his Buy-In Notice by the time specified by the Corporation on the business day of the proposed execution of the buy-in may buy-in the Buy-In Position in such market as he shall elect. In the event the buy-in is not executed on the day proposed, the Buy-In Notice shall expire at the close of business such day.

The originator must be prepared to defend the price at which the buy-in is executed relative to the current market at the time of the buy-in. Upon the execution of a Buy-In Order, the Subject Member shall be liable for any damages which may accrue to the originator. All claims for such damages shall be made promptly.

If the balance order is for warrants, rights, convertible securities or other securities which have been called for redemption or are due to expire or on which a call or expiration date is impending or which is subject to a tender or exchange offer or other event which will expire, and the last day on which the securities must be delivered or surrendered (the "expiration date") is the Settlement Date for the balance order or any day after the Settlement Date, the Member holding the receive balance order may deliver a notice to the contra party by the time specified by the Corporation on the business day preceding the expiration date (a Liability Notice). If a Liability Notice is so delivered to the contra party, and the contra party fails to deliver the securities on expiration date, the contra party shall be liable for any damages which may accrue thereby. All claims for such damages shall be made promptly.

Receive and deliver instructions issued upon the removal of eligible securities from the CNS system (see Section VII (I)) shall be deemed to be balance orders for the purpose of this subsection B.

Extensions of Time for OTC Buy-Ins. Extensions of time for execution will be granted by the Corporation under the following conditions:

Clearing Member Originated Buy-In. A short Clearing Member who has received a buy-in notice from a Clearing Member for a balance order issued by the Corporation may taken a seven (7) calendar day extension due to transit or transfer consistent with the UPC. Upon request, certificate numbers will be furnished by the short Clearing Member requesting the extension. If the securities are in transfer and due to the transfer agent, transfer is delayed, the Corporation may grant an additional seven (7) calendar days. If the short Clearing Member cannot take the extension but retransmits a Clearing Member originated Buy-In to a non-Clearing UPC Member and the UPC broker takes a UPC transfer or transit delay, the short Clearing Member will advise the Corporation which will extend the execution date for the same period of time.

Statement of Basis and Purpose

The basis and purpose of the foregoing proposed rule change is as follows:

The proposed rule change permits certain aspects of the operation of Buy-Ins of securities transactions executed in the over-the-counter market (OTC transactions) to be accomplished in the SCC Division in a similar manner as these operations were formerly accomplished in the Corporation's NCC Division. When the SCC Division Rules were amended by filing SR-NSCC-77-10 (at Release No. 34-15142), operational features of the NCC Division and of the Corporation's ASECC Division were made available in the SCC Division. The differences in procedures between buy-ins in the SCC Division and buy-ins in the NCC Division were not reconciled at that time.

Current SCC procedures, for example, do not allow for a "short" broker to receive an extension of the execution date of the buy-in under any circumstances. Such extensions were available under NCC rules and currently are available under the Uniform Practice Code of the National Association of Securities Dealers, Inc.

Pursuant to current SCC Division procedures, buy-ins are executed by the Corporation, which would employ an agent broker to perform any such trade execution. NCC Division rules provided that buy-ins were executed by the "long" broker who initiated the buy-in (subject to the requirement that such broker be able to defend the price obtained upon execution). Additionally, a shorter time period imposed for buy-in liability is provided in the SCC Division than was provided in the NCC Division.

Several potential inequities could result if the proposed rule change is not adopted. For example, if a short SCC Division Member retransmits a Clearing Member originated buy-in to a UPC non-Clearing Member, to whom he is long, the short UPC non-Clearing Member can prevent the execution against himself for seven or even fourteen days because of transfer or transit, yet the short Clearing Member cannot prevent the execution against himself and, accordingly, would be liable for the full costs of execution by the buy-in originator.

Additionally, under the present rules, if a buy-in is received by a Clearing Member from a UPC non-Clearing Member outside the system, he must execute the buy-in in the system against a Short Clearing Member who owes him the stock even though the Long Clearing Member may never be executed against by the UPC non-Clearing Member who originated the buy-in.

Accordingly, the proposed rule change adopts certain limited procedures for by-ins, regarding OTC transactions only, which will be in conformity with provisions of the Uniform Practice Code in the same manner as NCC Division Rules formerly provided. The specific provisions of the proposed rule change are: the availability of buy-in extensions for transfer or transit delays, execution of the OTC buy-in by the initiating long broker (subject to his requirements to justify the execution price) and technical conforming changes to the CNS accounts of the long and short brokers who initiate and receive OTC Buy-In Notices so as to allow the substantive changes to operate in the SCC Division CNS system as well as in the SCC Division Balance Order System.

The proposed rule change will facilitate the prompt and accurate clearance and settlement of securities transactions for which the Corporation is responsible by continuing existing appropriate Buy-In procedures for transactions in securities executed in the over-the-counter market.

Comments concerning the proposed rule change were not solicited by NSCC.

NSCC does not perceive that the proposed rule change would constitute a burden on competition.

NSCC has requested the Commission to exercise its authority under Section 19(b)(2) of the Act to approve the proposed rule change prior to the thirtieth day after the date of publication of this notice in the FEDERAL REGISTER. Section 19(b)(2) of the Act requires the Commission to find good cause for so doing and to publish its reasons for so finding. NSCC believes that accelerated treatment is necessary because of the significant exposure which SCC Division participants face until the rule change can become effective.

With 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file six (6) copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization.

All submissions should refer to the file number referenced in the caption above and should be submitted within twenty-one days after the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: January 15, 1979.

GEORGE A. FITZSIMMONS,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Ex Parte No. 241, Rule 19, 55th Revised Exemption No. 901]

ABERDEEN & ROCKFISH RAILROAD CO., ET AL.

Exemption Under Mandatory Car Service Rules

To all railroads:

It appearing, That certain of the railroads named below own numerous 50-ft. plain boxcars; that under present conditions, there are substantial surpluses of these cars on their lines; that return of these cars to the owners would result in their being stored idle; that such cars can be used by other carriers for transporting traffic offered for shipments to points remote from the car owners; and that compliance with Car Service Rules 1 and 2 prevents such use of these cars, resulting in unnecessary loss of utilization of such cars.

It is ordered, That, pursuant to the authority vested in me by Car Service Rule 19, 50-ft. plain boxcars described in the Official Railway Equipment Register, I.C.C.-R.E.R. No. 409, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation "XM", and bearing reporting marks assigned to the railroads named below, shall be exempt from provisions of Car Service Rules 1, 2(a), and 2(b).

[Notice No. 10]

ASSIGNMENT OF HEARINGS

JANUARY 16, 1979.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 32882 (Sub-96F), Mitchell Bros. Truck Lines, now assigned for hearing on March 13, 1979, (9 days), at Los Angeles, California in a hearing room to be later designated.
MC 102616 (Sub-942F), Coastal Tank Lines, Inc., now assigned for hearing on January 16, 1979, at Louisville, Kentucky is postponed indefinitely.
MC 107012 (Sub-274F), North American Van Lines, Inc., now assigned February 7, 1979, at Washington, D.C., is postponed indefinitely.
MC 105045 (Sub-83F), R. L. Jeffries Trucking Co., Inc., now assigned under Modified Procedure is canceled and application dismissed.
MC 87689 (Sub-13), Inter-City Truck Lines, Limited, now assigned February 12, 1979 at Helena, Montana is canceled and reassigned to February 12, 1979 (1 week) at Great Falls, Montana and will be held at Conference Rm., No. 1 O'Haire Manor, One Avenue South & 7th St.
MC 116915 (Sub-52F), Eck Miller Transportation Corp., now assigned May 8, 1979 at Birmingham, Alabama is canceled and application dismissed.
MC 144604F, John Haley, DBA J & R Auto Transport, now assigned February 21, 1979 at Kansas City, Missouri is canceled and application dismissed.
MC 114457 (Sub-399F), Dart Transit Co., A Corporation, now assigned for hearing on February 12, 1979, at New Orleans, Louisiana and will be held in Fifth Circuit Court of Appeals, East Courtroom 223.
MC 144469F, Ole South Dixieland Tours, Ltd., now assigned for hearing on February 7, 1979, at Natchez, Mississippi and will be held in City Hall Council Chamber.
MC 2908 (Sub-24F), Capital Motor Lines, dba Capital Trailways, now assigned February 12, 1979, at Montgomery, Ala., is postponed to March 19, 1979, (1 week), at Montgomery, Ala., in a hearing room to be later designated.
MC 138144 (Sub-30F), Fred Olson Co., Inc., now assigned February 28, 1979, at Chicago, Ill., is postponed to March 21, 1979 (3 days), at Chicago, Ill., in a hearing room to be later designated.
MC 139193 (Sub-74F), Roberts & Oake, Inc., now assigned February 13, 1979, at New Orleans, La., is postponed indefinitely.
MC 141550 (Sub-5F), Hoppy Lines, Inc., now assigned for continued hearing on February 21, 1979, (1 day), at Los Angeles, California in Room No. 324, U.S. Courthouse, 312 North Spring Street.
MC 109780 (Sub-76F), Trailways, Inc., now assigned for hearing on February 22, 1979 (2 days), at Los Angeles, California in Room No. 324, U.S. Courthouse, 312 North Spring Street.
FD-28910F, Denver & Rio Grande Western Railroad Company—Discontinuance of Passenger Trains Nos. 17 and 18 (The "Rio Grande Zephyr" Between Grand Junction, Co., and Salt Lake City, Ut., now assigned for hearing on February 26, 1979, (2 days), at Salt Lake City, Utah in a hearing room to be later designated.
FD-28910F, Denver & Rio Grande Western Railroad Company—Discontinuance of Passenger Trains Nos. 17 and 18 (The "Rio Grande Zephyr" Between Grand Junction, Co., and Salt Lake City, Ut., now assigned for hearing on February 28, 1979, (1 day), at Helper, Utah in a hearing room to be later designated.
FD-28910F, Denver & Rio Grande Western Railroad Company—Discontinuance of Passenger Trains Nos. 17 and 18 (The "Rio Grande Zephyr" Between Grand Junction, Co., and Salt Lake City, Ut., now assigned for continued hearing on March 1, 1979 (1 day), at Grand Junction, Colorado in a hearing room to be later designated.
FD-28910F, Denver & Rio Grande Western Railroad Company—Discontinuance of Passenger Trains Nos. 17 and 18 (The "Rio Grande Zephyr" Between Grand Junction, Co., and Salt Lake City, Ut., now assigned for continued hearing on March 2, 1979 (1 day), at Denver, Colorado in a hearing room to be later designated.

[Amt. No. 1 to Revised ICC Order No. 14 under Service Order No. 1344]

MICHIGAN NORTHERN RAILWAY CO. AND SOO LINE RAILROAD CO.

REROUTING OF TRAFFIC

Upon further consideration of Revised I.C.C. Order No. 14 (Michigan Northern Railway Company and Soo Line Railroad Company), and good cause appearing therefor:

It is ordered,

Revised I.C.C. Order No. 14 is amended by substituting the following paragraph (g) for paragraph (g) thereof:

(g) *Expiration date.* This order shall expire at 11:59 p.m., January 17, 1979, unless otherwise modified, changed or suspended.

Effective date. This amendment shall become effective at 11:59 p.m., January 10, 1979.

This amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association. A copy of the amendment shall be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., January 10, 1979.

5

FEDERAL RESERVE SYSTEM.

TIME AND DATE: 10 a.m., Wednesday, January 24, 1979.

PLACE: 20th Street and Constitution Avenue NW., Washington, D.C. 20551

STATUS: Open.

MATTERS TO BE CONSIDERED:

SUMMARY AGENDA

Because of their routine nature, no substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board requests that an item be moved to the discussion agenda.

1. Proposed extension of the Monthly Survey of Six-Month Money Market Time Deposits (FR 2042).
2. Proposed revision of the Report of Certain Eurodollar Transactions (FR 2011).
3. The Board's Annual Report to Congress for 1978 on The Equal Credit Opportunity Act.

DISCUSSION AGENDA

1. Proposed statement to be presented to the Senate Committee on Banking, Housing and Urban Affairs regarding simplification of the Truth in Lending Act.
2. Proposed regulation prescribing certain exceptions for interlocking relationships that would otherwise be prohibited by Title II of the Financial Institutions Regulatory and Interest Rate Control Act.
3. Any agenda items carried forward from a previously announced meeting.

NOTE.—This meeting will be recorded for the benefit of those unable to attend. Cassettes will be available for listening in the Board's Freedom of Information Office, and copies may be ordered for $5 per cassette by calling (202) 452-3684 or by writing to: Freedom of Information Office, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

CONTACT PERSON FOR MORE INFORMATION:

Mr. Joseph R. Coyne, Assistant to the Board, 202-452-3204.

Dated: January 16, 1979.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

SECURITIES AND EXCHANGE COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: To be published.

STATUS: Open meeting.

PLACE: Room 825, 500 North Capitol Street, Washington, D.C.,

DATE PREVIOUSLY ANNOUNCED: Thursday, January 11, 1979.

CHANGES IN THE MEETING: Additional item to be considered.

The following additional item was considered by the Commission at the open meeting on Monday, January 15, 1979, at 10 a.m.:

Consideration of proposed Rules 9b-3, 9b-4(A) and 9b-4(B) under the securities Exchange Act of 1934, regarding trading rotations in exchange-traded options and options exchange closing hours.

Chairman Williams and Commissioner Loomis, Evans, Pollack, and Karmel determined that Commission business required consideration of this matter and that no earlier notice thereof was possible.

[8010-01-M]

20

SECURITIES AND EXCHANGE COMMISSION.

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94-409, that the Securities and Exchange Commission will hold the following meetings during the week of January 22, 1979, in Room 825, 500 North Capitol Street, Washington, D.C

Closed meetings will be held on Tuesday, January 23, 1979, at 10 a.m. and on Thursday, January 25, 1979, after the 2:30 p.m. open meeting. Open meetings will be held on Wednesday, January 24, 1979 at 10 a.m. and on Thursday, January 25, 1979 at 2:30 p.m.

The Commissioners, their legal assistants, the Secretary of the Commission, and recording secretaries will attend the closed meetings. Certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the closed meetings may be considered pursuant to one or more of the exemptions set forth 5 in U.S.C. 552b(c) (4), (8), (9)(A), and (10) and 17 CFR 200.402(a) (8), (9)(i), and (10).

Chairman Williams and Commissioners Loomis, Evans, Pollack, and Karmel determined to hold the aforesaid meetings in closed session.

The subject matter of the closed meeting scheduled for Tuesday, January 23, 1979, will be:

Access to investigative files by Federal, State or self-regulatory authorities.
Amicus participation.
Chapter X
Formal orders of investigation.
Freedom of Information Act appeal.
Institution of criminal contempt proceeding.
Institution and settlement of administrative proceeding of an enforcement nature.
Litigation matters.
Settlement of administrative proceeding of an enforcement nature.
Subpoena enforcement action.

The subject matter of the closed meeting scheduled for Thursday, January 25, 1979, will be:

Post oral argument discussion.

The subject matter of the open meeting scheduled for Wednesday, January 24, 1979, at 10 a.m., will be:

1. Consideration of whether to: (1) issue a release adopting amendments to Forms S-1 and S-8 under the Securities Act, Rule 20a-2 under the Investment Company Act, and Forms N-1 and N-2 under the Securities Act and the Investment Company Act which would require disclosures to investors about brokerage placement policies and practices, relating to Section 28(e) of the Securities Exchange Act, and (2) incorporate similar disclosure requirements where investment managers have certain discretionary authority over clients' accounts into Rule 204-3 (the "brochure rule") and revised Form ADV under the Investment Advisers Act, which are before the Commission for simultaneous adoption. For futher information, please contact Sidney L. Cimmet at (202) 755-0211.

2. Consideration of whether to adopt new Rule 204-3 (the "brochure rule") under the Investment Advisers Act of 1940 (the "Act"); Amended Rules 204-1 and 204-2, Revised Form ADV and New Annual Form ADV-S under the Act; Revised Schedules A-D of Forms ADV and BD under the Securities Exchange Act of 1934 (the "Exchange Act"); and Revised Schedules E-G. For further information, please contact Eric Thompson at (202) 755-3507.

3. Consideration of whether to issue a temporary order, pursuant to Section 11A(a)(3)(B) of the Securities Exchange Act of 1934, extending for a period of twelve months the Commission's temporary approval of the joint industry plan governing the implementation and operation of the consolidated quotation system. For further information, please contact Andre Weiss at (202) 755-8970 or Brandon Becker at (202) 755-8749.

The subject matter of the open meeting scheduled for Thursday, January 25, 1979, at 2:30 p.m., will be:

Oral argument on an appeal by Robert A. Podesta, from the initial decision of an administrative law judge.

FOR FURTHER INFORMATION, CONTACT:

Michael P. Rogan at (202) 755-1638.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary For Community Planning and Development

■

INNOVATIVE GRANT—FISCAL YEAR 1979

Competitive Solicitation

V 4 4 / 1 4 JA 19 79 UMI

[4210-01-M]

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Community Planning and Development

[Docket No. N-79-908]

INNOVATIVE GRANT—FISCAL YEAR 1979

Competitive Solicitation

AGENCY: Department of Housing and Urban Development.

ACTION: Notice regarding Innovative Grant competition—Solicitation for Fiscal Year 1979.

SUMMARY: HUD is inviting proposals from units of general local government for Innovative Grants to: (1) assist low- and moderate-income residents to remain in neighborhoods which are in the process of revitilization, or (2) provide opportunities for low- and moderate-income residents to move outside cities, if they so desire, on an areawide, intergovernmental basis. An applicant may submit a proposal which addresses either (1) or (2). *If both (1) and (2) are to be addressed by one applicant, separate applications must be submitted.*

FOR FURTHER INFORMATION CONTACT:

Robert L. Blake, Director, Secretary's Fund Division, Office of Policy Planning, Room 7138, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410. Telephone number: (202) 755-6092. Program information kits are available upon request.

DATE: Applications are due by May 7, 1979.

General Information

Many factors such as increased property taxes, property acquisition by public and private entities, and the lack of adequate housing opportunities often force low- and moderate-income residents to move involuntarily out of neighborhoods undergoing revitilization. Further, when low- and moderate-income residents prefer to move out of a metropolitan area adequate and affordable housing with reasonable access to employment opportunities, as well as supportive social and commercial services, is often not available.

The President, in his March 27, 1978 message to the Congress on National Urban Policy, called for a new partnership, involving all levels of government, citizens and the private sector, aimed at making cities more healthy and improving the lives of people who live in them. In announcing the policy, the President indicated that it represents a comprehensive, long-term commitment to the Nation's urban areas.

The President identified five guiding principles of the urban policy as: (1) combining the resources of Federal, State, and local governments to conserve and strengthen cities and communities; (2) increasing access to opportunity for the disadvantaged; (3) simplifying and improving programs and policy at all levels of government; (4) flexibility in responding to the needs of communities; and (5) involving citizens in the efforts to meet the social and economic needs of their communities.

In accordance with the President's urban initiatives, HUD Secretary Patricia Roberts Harris has authorized a new competitive solicitation for Innovative Grants with special focus on public and private neighborhood revitalization activities causing displacement and relocation of low- and moderate-income households and the accompanying need for expanded housing opportunities on a neighborhood, as well as an areawide, intergovernmental basis for persons of low and moderate income.

For the purposes of this program notice, the following definitions will apply:

(1) The phrase "neighborhoods undergoing revitalization" refers to any specifically delineated geographic sector of a locality where public and/or private reinvestment is causing, or has the potential to cause, significant displacement and relocation of the households currently residing in the subject neighborhood.

(2) The term "displacement" refers to any direct or indirect action, whether publicly or privately initiated, which forces or encourages low- and moderate-income households to move.

(3) The term "relocation" refers to any move, voluntary or involuntary, as a result of publicly or privately caused displacement and the reestablishment of the household and/or business at a new location with appropriate financial or other assistance.

Proposal Objectives

HUD will consider for funding, on a competitive basis, proposals for Innovative Grants which relate to either one of the following subject purposes:

(1) To assist low- and moderate-income residents of neighborhoods undergoing revitalization to remain in the neighborhood, if they so desire, by improving neighborhood as well as individual housing resources. The assistance proposed should include a strategy for the use of Innovative Grant funds and other Federal, State, local and private assistance to minimize or avoid actions causing, or with the potential to cause, displacement and the subsequent relocation of neighborhood residents. If displacement is unavoidable and relocation is necessary, applicants must submit a plan for permanent and/or temporary relocation. This plan must contain a timetable which describes why, how, when and where relocation will take place and what steps will be taken to minimize hardship upon the residents. For permanent relocation, this assistance must include provision of housing which is (a) decent, safe and sanitary, (b) within their financial means and (c) as feasible, in locations which will include amenities which are an improvement over those in existence in the subject neighborhoods and areas. The plan must also insure that appropriate relocation assistance will be provided to displaced residents pursuant to the provisions of the Uniform Relocation Act of 1970 as applicable, but must not duplicate any services already being provided to such residents under the 1970 Uniform Relocation Act by the applicant or other public entity.

(2) To provide opportunities for low- and moderate-income residents of neighborhoods undergoing revitalization to move outside cities, if they so desire, to improved housing on an areawide, intergovernmental basis. The assistance proposed should include a strategy to insure that such moves will be coordinated in a manner as to foster neighborhood diversity, stability and expanded housing opportunities. The applicant must submit a plan with a timetable which describes why, how, when and where relocation is anticipated and what steps will be taken to minimize hardship on the residents. The plan must insure that counseling and other appropriate relocation assistance will be provided to the residents. This assistance must include provision of housing which is (a) decent, safe and sanitary, (b) within their financial means and (c) as feasible, in locations which will include amenities and supporting social and commercial services which are an improvement over those in existence in the subject neighborhoods and areas. The relocation assistance must not duplicate any services already being provided to such residents under the provisions of the Uniform Relocation Act of 1970.

Supplementary Information

The Innovative Grant Program is authorized by Section 107(a)(4) of the Housing and Community Development Act of 1974, as amended, (42 U.S.C. 5301 et seq.). The program funds projects which are untried, unique or advance the state of the community development art or which meet special needs. This notice informing eligible applicants of requirements for proposals is published pursuant to 24 CFR 570.406(b)(3)(i).

Eligible applicants are units of general local government as defined in the Community Development Block Grant regulations at 24 CFR 570.3(v). Proposals must be submitted by the Chief Executive of the Unit of general local government and must contain the certifications required by 24 CFR 570.307 with the exception of (d) and (f). Proposed activities must meet the eligibility requirements of 24 CFR Part 570, Subpart C and in addition, the applicant must certify that citizens likely to be affected by the proposed project, particularly low- and moderate-income persons, have been provided an opportunity to comment on the proposal.

It should be noted particularly that the Office of Management and Budget Circular A-95 must be followed as well as the provisions of the Uniform Relocation Act of 1970. Certifications, state and sub-state agency A-95 comments and additional supportive information as required by this notice and 24 CFR 570.406 must accompany the proposal and will not be accepted after May 7, 1979. Failure on the part of the applicant to comply with any one of these requirements will be sufficient cause for disqualification.

Award of Grant:

Grants of up to two years duration from the date of grantee signature on the grant agreement will be awarded on the basis of the following selection criteria:

1. The extent to which the proposal represents innovative approaches and techniques towards solving the urban problems identified in categories (1) or (2) under *Proposal Objectives;*

2. The extent to which the identified problem is common to a substantial number of communities and the extent to which the proposed approach can be adapted and replicated in a significant number of other communities;

3. If category (1) as described under *Proposal Objectives* is the objective of the applicant, the extent to which the proposed project avoids displacement of low- and moderate-income residents and small businesses;

4. If relocation is anticipated the specificity, completeness, and potential effectiveness of the relocation plan;

5. If category (2), as described under *Proposal Objectives* is the focus of the applicant, the extent to which the activities are areawide and intergovernmental must be explicit in the proposal;

6. The overall technical merit of the proposed project;

7. The assurance of timely public and private resource commitments to the project including commitments to continue the process described after completion of the proposed Innovative Grant;

8. The adequacy of the proposed plan for managing and evaluating the project; and

9. The financial and staff capacity of the applicant to effectively implement a project of the type and scope proposed.

Application Requirements:

Applications for Innovative Grants shall include all of the following required submissions:

1. A brief letter of transmittal containing the signature of the Chief Executive and the designated project leader who will be primarily responsible for execution of the project;

2. Standard Form 424;

3. A one-page abstract of the project summarizing the proposed activities;

4. A project narrative statement describing:

(a) The nature of the problem including a description of the physical economic and social characteristics of the project sites;

(b) The goals and objectives of the project;

(c) The proposed solution;

(d) Evidence of firm financial and staff resource commitments, both public and private, to be used;

(e) The management plan including a description of the professional experience and management capacity of key project personnel including those in cooperating agencies and organizations;

(f) The tasks to be carried out;

(g) The plan for evaluation including measurable planning and program criteria; and

(h) Other information necessary to describe the applicant's proposed project and to address the selection criteria described under *Award of Grants.*

5. A proposed budget clearly showing by line item, the expenditure of HUD and other public and private funds on HUD Form 7067;

6. The certifications required by 24 CFR 570.307 except (d) and (f);

7. Evidence of coordination with approved Housing Opportunity Plans for the applicant unit(s) of general local government as appropriate;

8. Cooperation agreements for multi-jurisdictional applications as appropriate;

9. Certification that the applicant agrees to comply with Innovative Grant reporting requirements which include at a minimum, quarterly and final project reports containing findings, conclusions and a description of progress towards achievement of project goals and objectives;

10. Certification that the applicant agrees to designate appropriate representatives to attend required meetings and conferences for Innovative Grant recipients.

Application Submission Procedures

Proposals must be delivered or postmarked no later than May 7, 1979. The original plus two copies of the proposal shall be submitted to the Office of Policy Planning, Room 7138, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410. Simultaneously, one informational copy of the proposal shall be sent to the HUD Regional Administrator and one complete copy with attachments shall be sent to the Area Office serving the jurisdiction of the applicant.

Applicant Notification

All applicants will be notified by mail of the final results of the competition after selections are made. Applications which do not meet all the requirements specified above by the deadline date will be returned and will not be considered in the competition. HUD reserves the right to decline to fund any or all proposals received under this solicitation if they are not deemed of sufficient quality and relevance to the objectives specified in this notice.

In connection with the environmental review of the notice, a Finding of Inapplicability has been made under HUD Handbook 1390.1, 38 FR 19183. A copy of the Finding is available for inspection in the Office of Rules Docket Clerk, Room 5218, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Issued at Washington, D.C., December 21, 1978.

ROBERT C. EMBRY,
Assistant Secretary for Community Planning and Development.

ACTION: Final regulations together with temporary regulations; request for comments on temporary regulations.

SUMMARY: This document provides final and temporary regulations relating to investment credit employee stock ownership plans ("TRASOP's"). Changes in the applicable tax law were made by the Tax Reduction Act of 1975 ("1975 TRA") and the Tax Reform Act of 1976 ("1976 TRA"). These final and temporary regulations are intended to provide guidance for the public in complying with the law. They affect all employees who participate in TRASOP's and employers who establish TRASOP's. This document does not reflect changes made by the Revenue Act of 1978.

DATE: Written comments on the temporary regulations and requests for a public hearing must be delivered or mailed by March 20, 1979. The regulations are generally effective for taxable years ending after January 21, 1975.

FOR FURTHER INFORMATION CONTACT:

Thomas Rogan of the Employee Plans and Exempt Organizations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, NW., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3589).

SUPPLEMENTARY INFORMATION:

BACKGROUND—1975 TRA MATTERS

On July 30, 1976, the Internal Revenue Service published proposals in the FEDERAL REGISTER to amend the Income Tax Regulations (26 CFR Part 1) under section 46(a) of the Internal Revenue Code of 1954 and section 301 (d) of the 1975 TRA (41 FR 31828).

By a notice published in the FEDERAL REGISTER on October 19, 1976, the public was invited to comment orally or in writing not only upon issues addressed in the proposals, but also upon issues addressed by section 803(h) of the Tax Reform Act of 1976 (90 Stat. 1590) and by the Conference Report of the Committee of Conference on H.R. 10612 (H.R. Rep. No. 94-1515, 94th Cong., 2d Sess. 539-542 (1976)). A public hearing was held on November 12, 1976.

After consideration of all comments, some of the proposals are revised and adopted as final regulations under this Treasury decision. Others are re-proposed elsewhere in today's FEDERAL REGISTER. However, most of the re-proposed provisions also appear as temporary regulations in this document.

The final regulations change the 1975 TRA proposals both substantively and structurally. Certain provisions are added. Others are restructured or deleted. However, many changes are designed solely to simplify the final regulations. Therefore, no substantive inference should be drawn solely from the fact that a particular proposal is either deleted or restructured.

1976 TRA MATTERS

Other provisions appearing as temporary regulations in this document amend the regulations to conform them to amendments made by section 803(b)(2), (c), (d), (h), and (j) of the 1976 TRA. The same notice of proposed rule making published elsewhere in today's FEDERAL REGISTER that contains re-proposals under the 1975 TRA provisions unaffected by the 1976 TRA also proposes that these 1976 TRA temporary amendments be adopted as final regulations. A separate document noting the adoption of these provisions as temporary regulations under 26 CFR Part 9, Temporary Regulations under the Tax Reduction Act of 1975, also appears in today's FEDERAL REGISTER.

INTEGRATION OF FINAL AND TEMPORARY REGULATIONS

The final and temporary regulations in this Treasury decision are published together as integrated provisions under 26 CFR Part 1, Income Tax Regulations. This format enables the public to see more clearly the effect of the 1976 TRA amendments on the 1975 TRA. Also, it facilitates the use of these regulations until the temporary provisions are superseded by final provisions.

It has been the practice in the past to publish temporary Internal Revenue Service regulations separately from final regulations both in the FEDERAL REGISTER and in the Code of Federal Regulations. Therefore, a separate document published elsewhere in today's FEDERAL REGISTER makes it clear that certain provisions in this Treasury decision under 26 CFR Part 1 are in fact adopted and effective only as temporary regulations under 26 CFR part 9. The following table shows which of these provisions relate to unamended 1975 TRA provisions and which relate to 1975 TRA provisions amended by the 1976 TRA. All of these temporary provisions are italicized in this Treasury decision.

INCLUSION OF STATUTORY MATERIAL AND CROSS-REFERENCE TABLE

Section 301(d) of the 1975 TRA and amendments under the 1976 TRA are consolidated in § 1.46-7 of the regulations. Also, section 301 (e) and (f), as added by the 1976 TRA, is included. Because this material is not available in consolidated form and does not appear in the Code, it is added to the regulations for the convenience of the public. The regulations also contain a cross-reference table indexing and coordinating §§ 1.46-7 and 8. Regulations under section 301(e) will be proposed at a later date.

DISCUSSION OF ISSUES

1. SPECIAL VALUATION RULES (FINAL REGULATIONS)

As suggested in the comments, the final regulations clarify in two respects the operation of the 20-day average valuation rule. First, the regulations state that the 20-day average takes into account closing prices only for trading days on which a transaction involving a publicly traded TRASOP security has occurred. Second, the 20-day average rule does not apply unless a transaction occurs on at least 10 of the 20 trading days during the 20-day period.

Under this clarification, the 20-day average rule requires a degree of active trading. Also, it applies in the case of a TRASOP security that is publicly traded for less than 20 days if the active trading requirement is met.

2. TRASOP FUNDING (TEMPORARY REGULATIONS)

The temporary regulations revise the procedural requirements for obtaining an additional credit to conform with the 1976 TRA amendments relating to TRASOP funding.

The term "applicable year" is used in the regulations to establish a reference point for a particular year's qualified investment. As a general rule, funding is geared to the year when a qualified investment is made. However, for taxable years beginning after December 31, 1976, in which a qualified investment is made, funding may be geared to each taxable year in which a credit carryover is claimed for the qualified investment.

The regulations identify the earliest time for funding a TRASOP with respect to each year's qualified investment. They also establish a priority rule for taking into account TRASOP securities that may be contributed for either of two taxable years.

3. IRREVOCABILITY OF TRASOP ELECTION (FINAL REGULATIONS)

Some comments suggest that a TRASOP election should be revocable by amended return. The proposals would have permitted revocation with the Commissioner's consent. Rather than follow the suggestion of the comments, the final regulations forbid all revocations after the last day for funding the TRASOP by eliminating revocation with the Commissioner's consent. The irrevocable election represents a commitment to employees by the employer that would be inappropriate for the Commissioner to reverse.

4. MAINTENANCE OF CASH RESERVE (TEMPORARY REGULATIONS)

The temporary regulations contain a provision permitting a plan to maintain a limited cash reserve fund when cash is transferred to the plan instead of TRASOP securities. The fund is limited to the amount of cash needed for cash distributions in lieu of fractional securities or for the payment of certain start-up and administrative expenses.

5. EFFECT OF BENEFIT OFFSET ARRANGEMENTS (FINAL REGULATIONS)

Revenue Ruling 76-259, 1976-2 C.B. 111, permits benefits under qualified defined contribution plans to offset accrued benefits under qualified defined benefit plans in certain circumstances. However, the Revenue Ruling does not take into account the Senate Finance Committee Report on the Tax Reduction Act of 1975, which requires TRASOP contributions to be "added on" to the benefits of other plans. See S. Rep. No. 94-36, 94th Cong., 1st Sess. 59 (1975); 1975-19 I.R.B. 94. Therefore, the final regulations add a rule that a TRASOP is underfunded to the extent that TRASOP securities are used in a defined benefit plan offset arrangement.

6. PRIORITY OF INVESTMENT CREDITS (FINAL REGULATIONS)

As requested by the comments, the final regulations make it clear that, with respect to a particular year's qualified investment, the basic ten-percent investment credit is claimed before any additional credit for TRASOP's.

7. CREDITS INCREASED BY REDETERMINATIONS (TEMPORARY REGULATIONS)

A question unanswered in the proposals was how to account for increases in the additional credit caused by a redetermination. The temporary regulations now provide that the increase is generally treated as an unused credit carryover.

8. DEDUCTIBILITY OF UNUSED CARRYOVERS (FINAL REGULATIONS)

The comments question whether a TRASOP contribution for which no credit is claimed during the 7-year carryover period is deductible at the expiration of the carryover period. The final regulations provide that such contributions are deductible for the year in which the carryover period expires.

9. PLAN YEAR (TEMPORARY REGULATIONS)

Technical Information Release (TIR) 1413, 1975-50 I.R.B. 16, questions and answers relating to ESOP's, provides that, in the case of a single employer plan, a TRASOP's plan year must be identical to the taxable year during which the qualified investment is made. (See question and answer R-5.) The proposals were silent on this point. The temporary regulations now simply provide that the plan year of a TRASOP must begin with or within the employer's taxable year.

10. TIMING OF ALLOCATIONS (FINAL REGULATIONS)

The comments suggest that the regulations should clearly state for what plan year TRASOP allocations must first be made. The final regulations adopt this suggestion. They now provide that TRASOP allocations must begin with the plan year beginning with or within the taxable year for which the election is made.

11. COMPENSATION CONSIDERED FOR ALLOCATIONS (TEMPORARY REGULATIONS)

Many comments ask what compensation must be taken into account for the purpose of allocating TRASOP securities. The 1976 TRA adopts the concept of compensation in section 415 of the Code, as contained in the proposals. The temporary regulations now make it clear that this compensation must include total compensation of participants while employed, not just while participating, in a particular plan year.

12. SECTION 415 AND ALLOCATIONS (FINAL REGULATIONS)

Section 415 deals with limitations on benefits and contributions under qualified plans. The final regulations clarify the effect of section 415 on TRASOP's and other plans. They require TRASOP securities to satisfy section 415 before allocations are made to other defined contribution plans.

Also, the regulations provide a first-in-first-out rule for releasing unallocated TRASOP securities from a suspense account.

13. TREATMENT OF UNALLOCATED AMOUNTS ON PLAN TERMINATION (TEMPORARY REGULATIONS)

The temporary regulations contain a new provision requiring the withdrawal upon plan termination of TRASOP securities that are unallocated because

V 4 4 / 1 4

of the application of section 415. These securities are treated as amounts withdrawn from the plan as a result of recapture.

14. PASSTHROUGH RIGHTS (FINAL REGULATIONS)

The passthrough of voting rights remains a requirement for TRASOP securities under the final regulations. However, the requirement for the passthrough of other rights is deleted.

The regulations continue to prohibit voting rights unexercised by participants to be exercised by a fiduciary. However, they permit proxy solicitations.

15. INFORMATION STATEMENTS FOR EXERCISE OF VOTING RIGHTS (FINAL REGULATIONS)

The proposals required that participants be supplied with the same information statements supplied to security holders in general prior to their exercising voting rights passed through to them under the plan. The comments suggest that this obligation rest not with the plan fiduciary, but with the employer. The final regulations adopt this suggestion.

16. CONTROLLED GROUP OF CORPORATIONS (FINAL REGULATIONS)

The comments raise questions concerning TRASOP's and members of a controlled group of corporations or an affiliated group filing a consolidated return.

The final regulations make it clear that a member of a controlled group may obtain an additional credit under the proper circumstances without having actual employees. Other principles generally applicable to members of a controlled group having a plan qualified under section 401(a) would apply to a plan that is a TRASOP, whether or not qualified under section 401(a).

General principles relating to members of a controlled group of corporations apply in cases involving employers filing a consolidated return involving an additional credit.

17. TREATMENT OF CERTAIN START-UP AND ADMINISTRATIVE EXPENSES (TEMPORARY REGULATIONS)

The temporary regulations provide rules for taking certain start-up and administrative expenses into account under a TRASOP. The regulations also give retroactive effect to these rules. They allow the plan to treat past expenses as if they were amounts reducing the corporation's additional credit because of a recapture in the first taxable year after publication of this Treasury decision.

18. INCOME DISTRIBUTION (TEMPORARY REGULATIONS)

The temporary regulations permit passthrough of dividends to all TRASOP participants who have been allocated employer securities. The provision is substantially identical to one that applies under § 54.4975-11(f)(3) to qualifying employer securities held by an ESOP.

19. REDUCTIONS IN INVESTMENT CREDIT (FINAL REGULATIONS)

The final regulations clarify a number of questions raised in comments regarding reductions in the investment credit by recapture or redetermination. Although it is clear under the regulations that the 10-percent credit must be claimed first before an additional credit can be claimed, the regulations also make it clear that the converse is not true when a claim is later reduced. On the contrary, to minimize the unraveling effect of investment credit reductions on established TRASOP's, the regulations generally require the ratable reduction of the 10-percent credit and the additional credit.

Also, the regulations provide rules for determining the date on which a reduction in the additional credit occurs. They provide further that this reduction must be taken into account in the earliest year possible under the applicable method available under the plan.

20. TERMS FOR WITHDRAWING TRASOP SECURITIES (TEMPORARY REGULATIONS)

The temporary regulations prohibit the withdrawal of TRASOP securities on recapture unless, when the securities are acquired by the plan, there is a plan provision permitting the withdrawal. However, this provision has prospective effect only. In the case of securities acquired before publication of this Treasury decision, they may not be withdrawn unless, when the securities are withdrawn, there is a plan provision permitting the withdrawal.

21. PRIOR DISTRIBUTION RULE (TEMPORARY REGULATIONS)

The temporary regulations contain a provision that protects later distributees from having plan assets drained off by earlier distributions followed by recaptures. The rule limits the extent to which a participant's account can be reduced by treating any previously distributed TRASOP securities as if the distribution had not occurred. It also restricts the use of recaptured amounts in decreasing future contributions.

22. SECTION 301(f) RULES (TEMPORARY REGULATIONS)

The temporary regulations spell out the requirements for withdrawing assets from the plan under section 301 (f) of the 1975 TRA. They make it clear that asset segregation is merely a bookkeeping requirement. Also, they permit withdrawals for taxable years beginning before October 4, 1976, if all these years' assets are accounted for in the aggregate apart from the separate accounts for later years.

23. CONVERTIBLE EMPLOYER SECURITIES (FINAL REGULATIONS)

Under the proposals, a convertible employer security had to be convertible at a "resonable conversion ratio."

As suggested in the comments, the final regulations refine the "reasonable conversion ratio" concept. This is done by providing that a convertible employer security must be convertible at a price no greater than the value of the common stock into which is is convertible when the convertible security is acquired.

24. DIVIDEND RIGHT RESTRICTIONS (FINAL REGULATIONS)

As suggested in the comments, the provision in the proposals relating to restrictions on dividend rights is modified. Under the final regulations, the "unrestricted dividend right" requirement is eliminated. In its place is a provision permitting dividend restrictions to which at least 50 percent of the employer's common stock is subject. Also, any dividend restriction is permitted if the same percentage of each outstanding class of common stock is acquired by the TRASOP at any time.

25. SHAREHOLDER ATTRIBUTION (FINAL REGULATIONS)

The comments note the absence of ownership attribution provisions under the 10-percent shareholder test for an employer security. In addressing this problem, the final regulations incorporate the constructive ownership rules of section 318.

26. DEFINITION OF FAILURE TO COMPLY (TEMPORARY REGULATIONS)

The temporary regulations revise the definition of failure to comply. They identify three all-inclusive classes of defects that apply to formal and operational plan deficiencies. Each class of defect triggers the operation of a specific formula for determining the amount involved.

27. CORRECTION OF FORMAL PLAN DEFECTS (FINAL REGULATIONS)

Instead of providing general transitional rules and retroactive amendment provisions, the final regulations state that the provisions relating to correction are applicable when a plan fails to meet a formal plan requirement of the regulations. Thus, to be a TRASOP, a plan's failure to satisfy the regulations must be corrected within the correction period.

28. EXTENSION OF CORRECTION PERIOD (FINAL REGULATIONS)

Under the final regulations, the provisions of the Foundation Excise Tax Regulations (§ 53.4941(e)-1) relating to the extension of the correction period are incorporated by reference.

29. GOOD FAITH EFFORT TO COMPLY (FINAL REGULATIONS)

The final regulations make it clear that compliance with TIR 1413 is a good faith effort to comply with the regulations.

30. CONTINUING FAILURE TO COMPLY (FINAL REGULATIONS)

Where the prior proposals were silent, the final regulations now provide that a number of separate failures to comply may occur if a failure to comply in a particular year goes uncorrected for more than one year. However, a cumulative civil penalty ceiling equal to 100 percent of the additional credit applies in such cases. This rule encourages correction when less than the maximum amount of civil penalty is involved initially, for example, when the failure to comply involves a formal plan defect.

31. AMOUNT INVOLVED (FINAL REGULATIONS)

The final regulations change the structure of the prior proposals relating to the definition of "amount involved". Any amount involved now falls within one of three categories to which an objective formula applies for determining the amount. Uncertainty as to the amount involved under the prior proposals is removed.

32. ESOP PROVISIONS (FINAL REGULATIONS)

The final regulations incorporate by reference provisions applicable to ESOP's under §§ 54.4975-7 (b) and -11. These provisions relate to the definition of "publicly traded", to rights of first refusal, and to put options. See the preamble to Treasury Decision 7506 (42 FR 44388) for a discussion of these provisions.

GUIDELINES AND PROCEDURES SUPERSEDED

Questions and answers published in Technical Information Release (TIR) 1413 on November 4, 1975, contain guidelines relating to the 11-percent investment credit. The final and temporary regulations under this Treasury decision supersede those questions and answers that have not already been superseded. (See preamble to Treasury Decision 7506 (42 FR 44388).) They also supersede section 4.01 of Rev. Proc. 75-48 (1975-2 C.B. 583), election of 11-percent credit.

DRAFTING INFORMATION

The principal author of this regulation was Thomas Rogan of the Employee Plans and Exempt Organizations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

ADOPTION OF AMENDMENTS TO THE REGULATIONS

Accordingly, 26 CFR Part 1 is amended by adding §§ 1.46-7 and 1.46-8 after § 1.46-6:

§ 1.46-7 Statutory provisions; plan requirements for taxpayers electing additional investment credit, etc.

As amended by sections 802(b)(7), and 803 (c), (d), and (e) of the Tax Reform Act of 1976 (90 Stat. 1520), section 301 (d), (e), and (f) of the Tax Reduction Act of 1975 (89 Stat. 38) provides as follows:

Sec. 301. Increase in investment credit.

• • •

(d) *Plan requirements for taxpayers electing additional credit.* In order to meet the requirements of this subsection—

(1) Except as expressly provided in subsections (e) and (f), a corporation (hereinafter in this subsection referred to as the "employer") must establish an employee stock ownership plan (described in paragraph (2)) which is funded by transfers of employer securities in accordance with the provisions of paragraph (6) and which meets all other requirements of this subsection.

(2) The plan referred to in paragraph (1) must be a defined contribution plan established in writing which—

(A) Is a stock bonus plan, a stock bonus and a money purchase pension plan, or a profit-sharing plan,

(B) Is designed to invest primarily in employer securities, and

(C) Meets such other requirements (similar to requirements applicable to employee stock ownership plans as defined in section 4975(e)(7) of the Internal Revenue Code of 1954) as the Secretary of the Treasury or his delegate may prescribe.

(3) The plan must provide for the allocation of all employer securities transferred to it or purchased by it (because of the requirements of section 46(a)(2)(B) of the Internal Revenue Code of 1954) to the account of each participant (who was a participant at any time during the plan year, whether or not he is a participant at the close of the plan year) as of the close of each year in an amount which bears substantially the same proportion to the amount of all such securities allocated to all participants in the plan for that plan year as the amount of compensation paid to such participant (disregarding any compensation in excess of the first $100,000) bears to the compensation paid to all such participants during that year (disregarding any compensation in excess of the first $100,000 with respect to any participant). Notwithstanding the first sentence of this paragraph, the allocation to participants' accounts may be extended over whatever period may be necessary to comply with the requirements of section 415 of the Internal Revenue Code of 1954. For purposes of this paragraph, the amount of compensation paid to a participant for a year is the amount of such participant's compensation within the meaning of section 415(c)(3) of such Code for such year.

(4) The plan must provide that each participant has a nonforfeitable right to any stock allocated to his account under paragraph (3), and that no stock allocated to a participant's account may be distributed from that account before the end of the eighty-fourth month beginning after the month in which the stock is allocated to the account except in the case of separation from the service, death, or disability.

(5) The plan must provide that each participant is entitled to direct the plan as to the manner in which any employer securities allocated to the account of the participant are to be voted.

(6) On making a claim for credit, adjustment, or refund under section 38 of the Internal Revenue Code of 1954, the employer states in such claim that it agrees, as a condition of receiving any such credit, adjustment, or refund—

(A) In the case of a taxable year beginning before January 1, 1977, to transfer employer securities forthwith to the plan having an aggregate value at the time of the claim of 1 percent of the amount of the qualified investment (as determined under section 46 (c) and (d) of such Code) of the taxpayer for the taxable year, and

(B) In the case of a taxable year beginning after December 31, 1976—

(i) To transfer employer securities to the plan having an aggregate value at the time of the claim of 1 percent of the amount of the qualified investment (as determined under section 46 (c) and (d) of such Code) of the employer for the taxable year,

(ii) Except as provided in clause (iii), to effect the transfer not later than 30 days after the time (including extensions) for filing its income tax return for a taxable year, and

(iii) In the case of an employer whose credit (as determined under section 46 (a)(2)(B) of such Code) for a taxable year beginning after December 31, 1976, exceeds the limitations of paragraph (3) of section 46(a) of such Code—

(I) To effect that portion of the transfer allocable to investment credit carrybacks of such excess credit at the time required under clause (ii) for the unused credit year (within the meaning of section 46(b) of such Code), and

(II) To effect that portion of the transfer allocable to investment credit carryovers of such excess credit at the time required under clause (ii) for the taxable year to which such portion is carried over.

For purposes of meeting the requirements of this paragraph, a transfer of cash shall be treated as a transfer of employer securities if the cash is, under the plan, used to purchase employer securities.

(7) Notwithstanding any other provisions of law to the contrary, if the plan does not

JAN 19 79 UMI

meet the requirements of section 401 of the Internal Revenue Code of 1954—

(A) Stock transferred under paragraph (6) or subsection (e)(3) and allocated to the account of any participant under paragraph (3) and dividends thereon shall not be considered income of the participant or his beneficiary under the Internal Revenue Code of 1954 until actually distributed or made available to the participant or his beneficiary and, at such time, shall be taxable under section 72 of such Code (treating the participant or his beneficiary as having a basis of zero in the contract).

(B) No amount shall be allocated to any participant in excess of the amount which might be allocated if the plan met the requirements of section 401 of such Code, and

(C) The plan must meet the requirements of sections 410 and 415 of such Code.

(8)(A) Except as provided in subparagraph (B)(iii), if the amount of the credit determined under section 46(a)(2)(B) of the Internal Revenue Code of 1954 is recaptured or redetermined in accordance with the provisions of such Code, the amounts transferred to the plan under this subsection and subsection (e) and allocated under the plan shall remain in the plan or in participant accounts, as the case may be, and continue to be allocated in accordance with the plan.

(B) If the amount of the credit determined under section 46(a)(2)(B) of the Internal Revenue Code of 1954 is recaptured in accordance with the provisions of such Code—

(i) The employer may reduce the amount required to be transferred to the plan under paragraph (6) of this subsection, or under paragraph (3) of subsection (e), for the current taxable year or any succeeding taxable years by the portion of the amount so recaptured which is attributable to the contribution to such plan,

(ii) Notwithstanding the provisions of paragraph (12), the employer may deduct such portion, subject to the limitations of section 404 of such Code (relating to deductions for contributions to an employees' trust or plan), or

(iii) If the requirements of subsection (f)(1) are met, the employer may withdraw from the plan an amount not in excess of such portion.

(C) If the amount of the credit claimed by an employer for a prior taxable year under section 38 of the Internal Revenue Code of 1954 is reduced because of a redetermination which becomes final during the taxable year, and the employer transferred amounts to a plan which were taken into account for purposes of this subsection for that prior taxable year, then—

(i) The employer may reduce the amount it is required to transfer to the plan under paragraph (6) of this subsection, or under paragraph (3) of subsection (e), for the taxable year or any succeeding taxable year by the portion of the amount of such reduction in the credit or increase in tax which is attributable to the contribution to such plan, or

(ii) Notwithstanding the provisions of paragraph (12), the employer may deduct such portion subject to the limitations of section 404 of such Code.

(9) For purposes of this subsection, the term—

(A) "Employer securities" means common stock issued by the employer or a corporation which is a member of a controlled group of corporations which includes the employer (within the meaning of section 1563(a) of the Internal Revenue Code of 1954, determined without regard to section 1563(a)(4) and (e)(3)(C) of such Code) and with voting power and dividend rights no less favorable than the voting power and dividend rights of other common stock issued by the employer or such controlling corporation, or securities issued by the employer or such controlling corporation, convertible into such stock, and

(B) "Value" means the average of closing prices of the employer's securities, as reported by a national exchange on which securities are listed, for the 20 consecutive trading days immediately preceding the date of transfer or allocation of such securities or, in the case of securities not listed on a national exchange, the fair market value as determined in good faith and in accordance with regulations issued by the Secretary of the Treasury or his delegate.

(10) The Secretary of the Treasury or his delegate shall prescribe such regulations and require such reports as may be necessary to carry out the provisions of this subsection and subsections (e) and (f).

(11) If the employer fails to meet any requirement imposed under this subsection or subsection (e) or (f) or under any obligation undertaken to comply with the requirement of this subsection or subsection (e) or (f), he is liable to the United States for a civil penalty of an amount equal to the amount involved in such failure. The preceding sentence shall not apply if the taxpayer corrects such failure (as determined by the Secretary of the Treasury or his delegate) within 90 days after notice thereof. For purposes of this paragraph, the term "amount involved" means an amount determined by the Secretary or his delegate, but not in excess of 1 percent of the qualified investment of the taxpayer for the taxable year under section 46(a)(2)(B) and not less than the product of one-half of one percent of such amount multiplied by the number of months (or parts thereof) during which such failure continues. The amount of such penalty may be collected by the Secretary of the Treasury in the same manner in which a deficiency in the payment of Federal income tax may be collected.

(12) Notwithstanding any provision of the Internal Revenue Code of 1954 to the contrary, no deduction shall be allowed under section 162, 212, or 404 of such Code for amounts transferred to an employee stock ownership plan and taken into account under this subsection.

(13) (A) As reimbursement for the expense of establishing the plan, the employer may withhold from amounts due the plan for the taxable year for which the plan is established, or the plan may pay, so much of the amounts paid or incurred in connection with the establishment of the plan as does not exceed the sum of 10 percent of the first $100,000 that the employer is required to transfer to the plan for that taxable year under paragraph (6) (including any amounts transferred under subsection (e)(3)) and 5 percent of any amount in excess of the first $100,000 of such amount.

(B) As reimbursement for the expense of administering the plan, the employer may withhold from amounts due the plan, or the plan may pay, so much of the amounts paid or incurred by the employer during the taxable year as expenses of administering the plan as does not exceed the smaller of—

(i) The sum of 10 percent of the first $100,000 and 5 percent of any amount in excess of $100,000 of the income from dividends paid to the plan with respect to stock of the employer during the plan year ending with or within the employer's taxable year, or

(ii) $100,000.

(14) The return of a contribution made by an employer to an employee stock ownership plan designed to satisfy the requirements of this subsection or subsection (e) (or a provision for such a return) does not fail to satisfy the requirements of this subsection, subsection (e), section 401(a) of the Internal Revenue Code of 1954, or section 403(c)(1) of the Employee Retirement Income Security Act of 1974 if—

(A) The contribution is conditioned under the plan upon determination by the Secretary of the Treasury that such plan meets the applicable requirements of this subsection, subsection (e), or section 401(a) of such Code.

(B) The application for such a determination is filed with the Secretary not later than 90 days after the date on which the credit under section 38 is allowed, and

(C) The contribution is returned within one year after the date on which the Secretary issues notice to the employer that such plan does not satisfy the requirements of this subsection, subsection (e), or section 401(a) of such Code.

(e) *Plan requirements for taxpayers electing additional one-half percent credit.*

(1) *General rule.* For purposes of clause (ii) of section 46 (a)(2)(B) of the Internal Revenue Code of 1954, the amount determined under this subsection for a taxable year is an amount equal to the sum of the matching employee contributions for the taxable year which meet the requirements of this subsection.

(2) *Election; basic plan requirements.* No amount shall be determined under this subsection for the taxable year unless the corporation elects to have this subsection apply for that year. A corporation may not elect to have the provisions of this subsection apply for a taxable year unless the corporation meets the requirements of subsection (d) and the requirements of this subsection.

(3) *Employer contribution.* On making a claim for credit, adjustment, or refund under section 38 of the Internal Revenue Code of 1954, the employer shall state in such claim that the employer agrees, as a condition of receiving any such credit, adjustment, or refund attributable to the provisions of section 46 (a)(2)(B)(ii) of such Code, to transfer at the time described in subsection (d)(6)(B) employer securities (as defined in subsection (d)(9)(A)) to the plan having an aggregate value at the time of the transfer of not more than one-half of one percent of the amount of the qualified investment (as determined under subsections (c) and (d) of section 46 of such Code) of the taxpayer for the taxable year. For purposes of meeting the requirements of this paragraph, a transfer of cash shall be treated as a transfer of employer securities if the cash is, under the plan, used to purchase employer securities.

(4) *Requirements relating to matching employee contributions.*

(A) An amount contributed by an employee under a plan described in subsection (d) for the taxable year may not be treated as a matching employee contribution for that taxable year under this subsection unless—

(i) Each employee who participates in the plan described in subsection (d) is entitled to make such a contribution,

(ii) The contribution is designated by the employee as a contribution intended to be used for matching employer amounts transferred under paragraph (3) to a plan which meets the requirements of this subsection, and

(iii) The contribution is in the form of an amount paid in cash to the employer or plan administrator not later than 24 months after the close of the taxable year in which the portion of the credit allowed by section 38 of such Code (and determined under clause (ii) of section 46 (a)(2)(B) of such Code which the contribution is to match) is allowed, and is invested forthwith in employer securities (as defined in subsection (d)(9)(A)).

(B) The sum of the amounts of matching employee contributions taken into account for purposes of this subsection for any taxable year may not exceed the value (at the time of transfer) of the employer securities transferred to the plan in accordance with the requirements of paragraph (3) for the year for which the employee contributions are designated as matching contributions.

(C) The employer may not make participation in the plan a condition of employment and the plan may not require matching employee contributions as a condition of participation in the plan.

(D) Employee contributions under the plan must meet the requirements of section 401 (a)(4) of such Code (relating to contributions).

(5) A plan must provide for allocation of all employer securities transferred to it or purchased by it under this subsection to the account of each participant (who was a participant at any time during the plan year, whether or not he is a participant at the close of the year) as of the close of the plan year in an amount equal to his matching employee contributions for the year. Matching employee contributions and amounts so allocated shall be deemed to be allocated under subsection (d)(3).

(f) *Recapture.*

(1) *General rule.* Amounts transferred to a plan under subsection (d)(6) or (e)(3) may be withdrawn from the plan by the employer if the plan provides that while subject to recapture—

(A) Amounts so transferred with respect to a taxable year are segregated from other plan assets, and

(B) Separate accounts are maintained for participants on whose behalf amounts so transferred have been allocated for a taxable year.

(2) *Coordination with other law.* Notwithstanding any other law or rule of law, an amount withdrawn by the employer will neither fail to be considered to be nonforfeitable nor fail to be for the exclusive benefit of participants or their beneficiaries merely because of the withdrawal from the plan of—

(A) Amounts described in paragraph (1), or

(B) Employer amounts transferred under subsection (e)(3) to the plan which are not matched by matching employee contributions or which are in excess of the limitation of section 415 of such Code.

nor will the withdrawal of any such amount be considered to violate the provisions of section 403 (c)(1) of the Employee Retirement Income Security Act of 1974.

[Sec. 301 (d) of the Tax Reduction Act of 1975 (89 Stat. 38) as amended by sec. 802 (b)(7) and sec. 803 (c) and (e) of the Tax Reform Act of 1976 (90 Stat. 1520); sec. 301 (e) and (f) of the Tax Reduction Act of 1975 as added by sec. 803 (d) of the Tax Reform Act of 1976]

§ 1.46-8 Requirements for taxpayers electing additional one-percent investment credit (TRASOP's).

(a) *Introduction*—(1) *In general.* A corporation may elect under section 46(a)(2)(B) of the Code to obtain an additional investment credit for property described in section 46(a)(2)(D). This section provides rules for electing to have the provisions of section 46(a)(2)(B) apply and for implementing an employee stock ownership plan under section 301(d) of the Tax Reduction Act of 1975 ("1975 TRA"). The plan must meet the formal requirements of paragraph (d), and the operational requirements of paragraph (e), of this section. An additional credit may be obtained for the periods described in section 46(a)(2)(D). Unless otherwise indicated, statutory references in this section are to the Internal Revenue Code of 1954.

(2) *Reports.* The returns required by section 6058 (a) must be filed on behalf of a plan established under paragraph (c)(7) of this section, whether or not the plan is qualifed under section 401(a).

(3) *Cross-references.* The following table indicates where in this section provisions appear relating to each provision of section 301 (d) and (f) of the 1975 TRA.

[4830-01-C]

Section 301	§ 1.46-8	SUBJECT
(d) (1)	(c) (7) (i) (c) (8) (i)	Establishing a TRASOP, in general Funding a TRASOP, in general
(2) (A)	(c) (7) (ii)	Type of plan
(B)	(d) (3)	Investment design
(C)	(d) (1)	Plan requirements, in general
(3)	(c) (6) (b) (8)	Allocation Compensation, definition
(4)	(d) (7) (d) (9)	Nonforfeitability Distributions
(5)	(d) (8)	Voting rights
(6)	(c)	Procedures for additional credit
(7) (A)	(c) (7) (ii)	Taxability, non-401 (a) TRASOP
(B)	(e) (3)	Allocations under 401 (a)
(C)	(e) (3)	Section 410 and section 415 requirements
(8)	(e) (9)	Reductions of investment credit
(9) (A)	(b) (4) (f)	Employer securities, definition Employer securities, requirements
(B)	(b) (7)	Value, definition
(10)	(a) (2)	Reporting requirements
(11)	(h)	Failure to comply
(12)	(c) (10)	Deductibility
(13)	(e) (6) and (7)	Reimbursement for expenses
(14)	(c) (8) (v) and (d) (7) (i)	Contingent contributions
(f)	(d) (7), (e) (8) (vii), (f)	Withdrawals of TRASOP securities

(4) *Temporary regulations.* There is need for immediate guidance with respect to certain provisions contained in this section. For this reason, they are not issued with notice and public procedure under subsection 553 of Title 5 of the United States Code. Accordingly, until superseded by final regulations, the following provisions in this section are deemed effective only as temporary regulations under § 9.2, Temporary Income Tax Regulations under the Tax Reduction Act of 1975:

(i) The last sentence of paragraph (b)(4)(i);

(ii) Paragraph (b)(8);

(iii) Paragraph (c) (1), (8), and (9) (iv);

(iv) Paragraph (d)(2);

(v) The last sentences of subparagraphs (5) and (6)(iv) of paragraph (d);

(vi) Paragraph (d)(6) (ix) and (xii);

(vii) The last sentence of paragraph (d)(7);

(viii) Paragraph (e) (6) and (7);

(ix) The last three sentences of paragraph (e)(8)(i);

(x) Paragraph (e)(8)(iii) and (9)(vii),(viii), and (ix);

(xi) Paragraph (f); and

(xii) Paragraph (h) (4).

(b) *Definitions.* When used in this section, the terms listed below have the indicated meanings:

(1) *TRASOP.* A "TRASOP" is an employee stock ownership plan that meets the requirements of section 301 (d) of the 1975 TRA. See § 1.46-7. It is a type of plan described in paragraph (d)(1) of this section and may, but need not, be an ESOP under § 54.4975-11 of this chapter (Pension Excise Tax Regulations).

(2) *Additional credit.* An "additional credit" is the additional one-percent investment credit under section 46(a)(2)(B)(i).

(3) *Employer.* An "employer" is a corporation that establishes a TRASOP.

(4) *Employer securities*—(i) *In general.* "Employer securities" are common stock, and securities convertible into common stock, of the employer or of a corporation that is a member of a controlled group of corporations including the employer. Employer securities must meet the requirements of paragraph (g) of this section. *Membership in a controlled group for purposes of this section is determined under section 414(b) of the Code.*

(ii) *Pre-1977 employer securities.* In addition, employer securities acquired by a TRASOP before January 1, 1977, include common stock, and securities convertible into common stock, of a corporation in control of the employer within the meaning of section 368(c).

(iii) *Caution.* An employer security under this section is not necessarily a qualifying employer security as defined in section 407(d)(5) of the Employee Retirement Income Security Act of 1974 (ERISA) or section 4975 (e)(8). Moreover, sections 406, 407, and 408 of ERISA in certain cases in effect limit the acquisition of qualifying employer securities as defined in section 407 (d)(5) of ERISA.

(5) *TRASOP securities.* "TRASOP securities" are employer securities that—

(i) Are transferred to a TRASOP, or acquired with cash transferred to a TRASOP, to obtain an additional credit, and

(ii) Except as provided under paragraph (g) (4) and (5) of this section or as required by applicable law, are subject to no other put, call, or other option, or buy-sell or similar arrangement while held by the plan.

(6) *Publicly traded.* The term "publicly traded" has the meaning specified in § 54.4975-7(b)(1)(iv) of this chapter.

(7) *Value*—(i) *In general.* With respect to the transfer of TRASOP securities by a corporation to a TRASOP or the acquisition of TRASOP securities with cash transferred by a corporation to a TRASOP, "value" means fair market value determined in good faith and based on all relevant factors as of the date of transfer or acquisition of the TRASOP securities. If the plan acquires TRASOP securities from other than a disqualified person within the meaning of section 4975(e)(2), a good faith determination of value includes a determination of fair market value based on an appraisal independently arrived at by a person who customarily makes such appraisals and who is independent of any person from whom the TRASOP securities are acquired.

(ii) *Twenty-day average rule.* A special 20-day average valuation rule applies to certain publicly traded securities transferred by a corporation to a TRASOP. It does not apply to securities acquired with cash transferred by a corporation to a TRASOP. Under the special rule, the term "value" refers to an average of daily closing prices for a security, as reported on any national securities exchange or as quoted on any system sponsored by a national securities association, over the 20 consecutive trading days immediately preceding the date on which a corporation files a claim for an additional credit. The average is based on the closing prices for each day when the security is in fact traded during the 20-day period. However, the special rule does not apply unless the security is in fact traded for at least 10 of the 20 days.

(iii) *20-day-average transitional exception.* If a TRASOP security is transferred before March 20, 1979, the plan may value the security on the basis of the 20 consecutive trading days preceding the date on which the security is transferred or the date as of which the security is allocated to a participant's account.

(8) *Compensation. "Compensation" means "participant's compensation" under section 415(c)(3). However, except for purposes of applying section 415, compensation must be determined for a plan year, not a limitation year.*

(c) *Procedures for additional credit—(1) Applicable year—(i) General rule. With respect to a qualified investment, the "applicable year" of a corporation is the taxable year in which the investment is made.*

(ii) Carryover option. A corporation may consistently determine the applicable years for all qualified investments made in taxable years beginning after December 31, 1976, under the following option: The first applicable year is the year the qualified investment is made or, if later, the first taxable year for which any additional credit is claimed for that qualified investment. If there is an investment credit carryover from the first applicable year, each taxable year to which any part of the additional credit for that qualified investment is carried over is also an applicable year.

(iii) Increased credit. A taxable year in which a corporation's additional credit is increased because of a redetermination is also an applicable year. See paragraph (c)(9)(iii) of this section.

(iv) Illustration. To illustrate the application of paragraph (c)(1) (i) and (ii) of this section, assume that a calendar year corporation makes a qualified investment in 1977 and that 1977 is not an unused credit year described in section 46(b)(1). If the general rule is applied, 1977 generally is an applicable year. However, if 1977 is an unused credit year, under section 46 (b)(1), if the corporation carries over its entire investment credit for 1977 to 1978, and if the corporation does not treat 1977 as an applicable year, then 1978 is an applicable year. If part of the investment credit is carried over further to 1979, the year 1979 is also an applicable year.

(2) *Time and manner of electing.* A corporation with a qualified investment must elect to be eligible for an additional credit by attaching a statement of election—

(i) To its income tax return, filed on or before the due date including extensions of time, for its first applicable year with respect to a qualified investment, or

(ii) In the case of a return filed before December 31, 1975, to an amended return filed on or before December 31, 1975.

(3) *Statement of election.* The statement of election must contain the name and taxpayer identification

V 4 4 / 1 4 J A 1 9 7 9 UMI

number of the corporation. Also, it must declare in the following words, or in words having substantially the same meaning, that:

(i) The corporation elects to have section 46(a)(2)(B)(i) of the Internal Revenue Code of 1954 apply; and

(ii) The corporation agrees to implement (or continue to implement, as appropriate) a TRASOP and to claim the additional credit as required by § 1.46-8 of the Income Tax Regulations.

(4) *Separate election.* A separate election must be made for each taxable year's qualified investment to obtain an additional credit for that qualified investment. If a corporation does not make a timely election to obtain an additional credit for a taxable year, it may not subsequently make the election on an amended return or otherwise.

(5) *No partial election.* An election to obtain an additional credit applies to a corporation's entire qualified investment for a taxable year. Thus, a corporation may not elect to obtain a partial additional credit for any year's qualified investment. However, the partial disallowance of an additional credit will not result in an election being treated as a partial election. Also an election by a member of a controlled group of corporations that applies only to the electing member's qualified investment is not a partial election.

(6) *No revocation of election.* After the time for electing the additional credit has expired for a taxable year, a corporation may not revoke its election for that year.

(7) *Establishing a TRASOP*—(i) *In general.* A corporation electing to obtain an additional credit must establish a TRASOP with accompanying trust on or before the last day for making the election regardless of when in fact the election is made. A TRASOP is considered to be in existence on a particular date if it meets the requirements of § 1.410(a)-2(c) (1). A new plan need not be established if an existing plan qualifies as a TRASOP, or is amended to meet the requirements of this section, on or before the last day for making the election. The requirements of this section are not satisfied merely by establishing and crediting a separate "TRASOP" account on the corporation's books.

(ii) *Type of plan.* A TRASOP need not meet the requirements of section 401(a). However, it must be a stock bonus plan, a combination stock bonus plan and money purchase pension plan, or a profit-sharing plan under § 1.401.-1(b)(1) of this chapter. See section 301(d)(7)(A) of the 1975 TRA for the tax consequences relating to a TRASOP that does not meet the requirements of section 401(a). See also Title I of ERISA for additional provisions applicable to a TRASOP as an employee pension benefit plan under section 3(2) of ERISA.

(8) *Funding a TRASOP*—(i) *In general. A corporation electing to obtain an additional credit must fund its TRASOP by transferring TRASOP securities or cash to it no later than 30 days after the applicable last day. That days is the last day for electing the additional credit. However, in the case of an investment credit that was carried over and claimed in a subsequent applicable year by reason of paragraph (c)(1)(ii) of this section, that day is the last day (including extensions) for filing its income tax return for the subsequent applicable year. TRASOP securities may be transferred to a plan at any time during the applicable year, but not before the first day of an applicable year. If TRASOP securities are transferred to the plan within the permissible time period after the close of the applicable year, they are treated as transferred during that applicable year first until all TRASOP securities required by this paragraph (c) for that applicable year are transferred to, and taken into account under, the TRASOP. Thus, for example, assume that a calendar-year corporation claims an additional credit of $5,000 for 1978, an applicable year under the TRASOP. The corporation also expects to be able to claim an additional credit of $10,000 for 1979. TRASOP securities transferred between January 1, 1979, and October 15, 1979, must be taken into account under the plan for 1978 before they are taken into account for 1979.*

(ii) Cash transfers. A corporation may transfer cash to the TRASOP instead of TRASOP securities only if the TRASOP uses the cash to acquire TRASOP securities no later than 30 days after the time for funding the TRASOP.

(iii) Valuation. The value of the TRASOP securities for an applicable year must equal one percent of the corporation's qualified investment for that year. However, if paragraph (c)(1)(ii) of this section is followed by a corporation, the value of TRASOP securities for an applicable year must equal the amount of additional credit claimed for that year.

(iv) Cash reserve. The value of TRASOP securities acquired with cash transferred by a corporation may be reduced by two items. The first item is an amount not more than the value of fractional shares allocable to participants entitled to receive an immediate distribution at the time of the transfer. The second item is start-up expenses and administrative expenses to the extent permitted under section 301(d)(13) of the 1975 TRA and paragraph (e)(6) and (7) of this section.

(v) Conditional funding. The funding of a TRASOP may be conditional if the TRASOP satisfies the provisions of section 301(d)(14) of the 1975 TRA. For purposes of section 301(d)(14), an investment credit is considered to be allowed on the date the election for the applicable year is made under paragraph (c)(2) of this section.

(vi) Certain benefit offset mechanisms. A TRASOP will be deemed to be underfunded to the extent that TRASOP securities are used to offset benefits under a defined benefit plan.

(9) *Claiming additional credit*—(i) *In general.* Section 46 (a)(3) subjects the amount of investment credit earned with respect to a taxpayer's qualified investment for a taxable year to a limitation based on the corporation's tax liability.

(ii) *Unused credit year.* Section 46 (a) (1) provides a first-in-first-out rule for the investment credit in a taxable year. Section 46(b)(1) provides for the carryback and carryover of unused credits. If less than all of a taxpayer's credit earned for a taxable year is allowed, the 10 percent credit determined under section 46(a)(2)(A) for a particular year is allowed first. Any portion of the additional credit for a taxable year that is not allowed may be carried back or carried over to the extent permitted by section 46(b)(1). However, an additional credit which is allowed for a taxable year is not reduced by a carryback to that year of an unused credit from a succeeding taxable year.

(iii) *Example.* paragraph (c)(9)(ii) of this section is illustrated by the following example:

Example. A calendar-year corporation begins operation and establishes a TRASOP in 1975. The facts and treatment relating to the corporation's qualified investments and investment tax credits for 1975 and 1976 are as follows:

[4830-01-C]

- 28 -

Facts:	1975	1976
1. Qualified investment	$500,000	$500,000
2. Credits earned		
a. 10% credit	50,000	50,000
b. Additional credit	5,000	5,000
c. Carryover of additional credit from prior year line 5	___	3,000
3. Sec. 46 (a) (3) limitation	52,000	47,000
Treatment of credits:		
4. Credits allowed		
a. Carryover of additional credit	___	3,000
b. Current 10% credit	50,000	44,000
c. Current additional credit	2,000	0
5. Unused credits		
a. 10% credit	0	6,000
b. Additional credit	3,000	5,000

Thus, in 1975 the section 46 (a) (3) limitation ($52,000) is applied first to allow all of the 10 percent investment credit ($50,000). Accordingly only $2,000 of the additional credit earned is allowed in 1975 and $3,000 of the additional credit is carried forward to 1976. In 1976, section 46 (a) (1) requires that this $3,000 of additional credit is allowed first, and then only $44,000 of the 10 percent credit earned in 1976 is allowed since the section 46 (a) (3) limitation for that year is $47,000. The unused credits from 1976 cannot be carried back since 1975, the only prior year, is an unused credit year.

(iv) Redeterminations increasing credit. If a corporation's allowable additional credit is increased because of a redetermination, the increase is treated as if it were an unused credit carryover for purposes of paragraph (c)(1)(ii) and (c)(8)(i) of this section. Thus, for example, assume that a calendar-year corporation claims an additional credit of $100,000 in 1978 because of a qualified investment in that year. In 1980 the additional credit is redetermined to be $110,000. With respect to the 1978 qualified investment, 1980 is also an applicable year to the extent of $10,000. The corporation must fund the TRASOP with this $10,000 under paragraph (c)(8) of this section. For purposes of this subdivision (iv), the date of the increase is determined under paragraph (e)(9)(iii) of this section as if it were the date of a reduction.

(10) *Deductions at expiration of carryover period.* Under paragraph (c)(1)(ii) of this section, a corporation that uses no additional credit in the year of a qualified investment may nonetheless treat the year in which the qualified investment is made as the first applicable year. If the 7-year carryover period under section 46(b)(1)(B) expires before the corporation uses the entire additional credit with respect to the qualified investment, contributions attributable to the unused credit are deductible, subject to the limitations of section 404(a), as if made in the taxable year when the carryover period expires.

(d) *Formal plan requirements*—(1) *In general.* To be a TRASOP, a plan must meet the formal requirements of this paragraph (d).

(2) Plan year. To be a TRASOP, a plan must specify a plan year that begins with or within the corporation's taxable year.

(3) *Designed to invest primarily in employer securities.* To be a TRASOP, a plan must state that it is designed to invest primarily in employer securities. A TRASOP intended to qualify as an ESOP under § 54.4975-11 must state that it is designed to invest primarily in employer securities that are qualifying employer securities.

(4) *Separate accounting.* To be a TRASOP, a plan must state that TRASOP securities are to be accounted for separately from other contributions to the plan.

(5) *Debts and expenses of the TRASOP.* To be a TRASOP, a plan must state that TRASOP securities cannot be used to satisfy a loan made to the TRASOP or be used as collateral for a loan made to a TRASOP. *However, if the plan so provides, to the extent permitted under section 301 (d) (13) of the 1975 TRA and paragraph (e) (6) and (7) of this section, certain amounts may be used for the TRASOP's start-up expenses and administrative expenses.*

(6) *Allocation of TRASOP securities*—(i) *General rules.* To be a TRASOP, a plan must provide for the allocation of TRASOP securities under section 301 (d) (3) of the 1975 TRA and this subparagraph (6).

(ii) *Timing.* TRASOP securities are allocated as of the last day of the plan year beginning with or within the appropriate applicable year.

(iii) *Participants.* Each employee who is a participant at any time during the plan year for which allocation is made must receive an allocation as of the end of that year even though not then employed by the employer. However, to receive allocations, employees must satisfy the minimum participation requirements of the plan (for example, 1000 hours of service).

(iv) *Compensation considered.* Compensation in excess of $100,000 must be disregarded in making these allocations. If the plan has a lower stated ceiling on compensation (from $0 to $100,000), compensation in excess of this ceiling must likewise be disregarded. *Also, allocations must be based on a participant's compensation while actually employed, not just while actually participating, in any year.*

(v) *Section 415 priority rule.* If a TRASOP security is not allocated to a participant's account because of section 415 and section 301 (d) (3) of the 1975 TRA, no other amount may be allocated for that participant under any defined contribution plan. This subdivision (v) applies to a TRASOP even when, under section 415 (f) (1) (B), the TRASOP is treated along with an employer's other defined contribution plans as one plan for purposes of section 415.

(vi) *Unallocated amounts.* Under section 301(d) (3) of the 1975 TRA, TRASOP securities unallocated to participants' accounts because of section 415 must be allocated proportionately to the accounts of other participants until the addition to the account of each participant reaches the limits of section 415.

(vii) *Suspense account.* If, after these allocations, TRASOP securities remain unallocated, they must be held in an unallocated suspense account under the TRASOP. Any income produced by these securities must also be held in the account. A plan with such an account will not fail to qualify under section 401 (a) merely because of the account. In each successive year (whether or not an applicable year), the unallocated assets are released from this account for allocation on a first-in-first-out basis. They are then allocated to the participants' accounts proportionately under paragraph (d) (6) (i)–(vi) of this section for each later year until no TRASOP securities remain unallocated. Value for this allocation is determined under paragraph (b)(7) of this section by treating the date as of which allocation occurs as either the date of transfer or, if the special 20-day average rule is otherwise applicable, the date on which the corporation files a claim for an additional credit.

(viii) *Escrow account.* A TRASOP may provide for the establishment of an escrow account instead of a suspense account. The escrow account must satisfy paragraph (d) (6) (vii) of this section. The beneficiary of the escrow account is to be the TRASOP. The corporation may establish the escrow account and contribute stock or cash to it. In such a case, the escrow agent must transfer assets to the plan each year equal to the amount to be allocated proportionately under paragraph (d) (6) (i)–(vi) of this section. Assets held in an escrow account are plan assets.

(ix) Treatment of certain plan terminations. To be a TRASOP, a plan must provide that, if a plan terminates because the corporation ceases to exist, unallocated amounts described in paragraph (d) (6) (vi) of this section must be allocated to the extent possible under section 415 for the year of termination. The remaining unallocated amounts must then be withdrawn. These unallocated amounts are treated as recaptured under all the rules of paragraph (e) (9) (vii) of this section except its last sentence. Section 301 (f) (2), but not (1), of the 1975 TRA applies to this withdrawal.

(x) *No integration.* Under section 301 (d) (3) of the 1975 TRA, no TRASOP may be integrated, directly or indirectly, with contributions or benefits under Title II of the Social Security Act or any other State or Federal law.

(xi) *Fractional securities.* Under section 301 (d) (3) of the 1975 TRA, participants' accounts are to be allocated fractional securities or fractional rights to securities.

(xii) Accounting for amounts withheld by employer or paid by plan as start-up or administrative expenses. An employer may withhold certain start-up and administrative expenses from TRASOP securities due the plan. Also, a plan may reduce amounts to be allocated to the extent that certain plan assets are used to reimburse the employer, for example for salaries of employees providing services to the plan, or to pay fees directly to independent contractors for expenses. These expenses do not reduce the amount of additional credit claimed and are not allowable as expenses in computing taxable income. Additional rules concerning these expenses are in paragraph (e) (6) and (7) of this section.

(7) *Nonforfeitability.* To be a TRASOP, a plan must state that each participant has a nonforeitable right to allocated TRASOP securities. For purposes of this section, forfeitures described in section 411 (a) (3) are not permitted. *However, amounts shall not fail to be considered to be nonforfeitable if the plan provides for their return to the corporation—*

(i) In the case of conditional contributions, under section 301 (d) (14) of the 1975 TRA, and

(ii) In the case of investment credit recapture or an event deemed to be a recapture, under section 301 (f) of the 1975 TRA.

(8) *Voting rights*—(i) *Provision for passthrough.* To be a TRASOP, a plan must state that each participant is entitled to direct a designated fiduciary how to exercise any voting rights on TRASOP securities allocated to the account of the participant. The plan need not permit participants to direct the voting of unallocated TRASOP or other securities held by the trust. It may authorize the designated fiduciary to exercise voting rights for unallocated securities.

(ii) *Notification by the employer.* To be a TRASOP, the plan must obligate the corporation to furnish the designated fiduciary and participants with notices and information statements when voting rights are to be exercised. The time and manner for furnishing participants with a notice or information statement must comply with both applicable law and the corporation's charter and by-laws as generally applicable to security holders. In general, the content of the statement must be the same for plan participants as for security holders in general.

(iii) *Fractional securities.* To be a TRASOP, the plan must allow the participants to vote any fractional securities or fractional rights to securities. This requirement is met if the designated fiduciary votes the combined fractional securities or rights to the extent possible to reflect the direction of the participants holding them.

(iv) *Unexercised voting rights.* To be a TRASOP, the plan may not permit the designated fiduciary to exercise voting rights which a participant fails to exercise. However, the plan may permit the solicitation and exercise of participants' voting rights by management and others under a proxy provision applicable to all security holders.

(9) *Distributions*—(i) *In general.* To be a TRASOP, a plan must permit the distribution of allocated TRASOP securities only as provided under section 301(d)(4) of the 1975 TRA. Also, under § 1.401-1(b)(1)(i) of this chapter, to the extent that a TRASOP is a money purchase pension plan, it can only provide for a distribution in the case of separation from service, death, or disability. No TRASOP may provide for the distribution of TRASOP securities upon plan termination within the 84-month holding period. For purposes of section 301(d)(4) of the 1975 TRA, the 84-month holding period begins on the date as of which TRASOP securities are allocated.

(ii) *Certain fractional securities.* A stock bonus TRASOP may distribute cash instead of fractional securities.

(e) *Operational plan requirements*—(1) *General rule.* To be a TRASOP, a plan in operation must meet the requirements of this paragraph (e). However, the provisions under paragraph (e)(8) of this section apply only to TRASOP's qualified under section 401(a).

(2) *Compliance with plan provisions.* To be a TRASOP, a plan must operate in compliance with its provisions.

(3) *Compliance with certain Code provisions.* To be a TRASOP, a plan must meet the requirements of section 301(d)(7) of the 1975 TRA. Thus, whether or not it is qualified under section 401(a), a TRASOP must meet the requirements of section 401(a) with respect to allocations, section 410 with respect to participation, and section 415 with respect to limitations on contributions and benefits. However, these requirements are modified by paragraph (d)(6) of this section, relating to allocations and section 415.

(4) *Employee contributions.* Under a TRASOP, the receipt of benefits attributable to TRASOP securities must not depend on contributions by participants. If a corporation has a plan in existence which requires employee contributions, a portion of the plan may be a TRASOP if employee contributions are not required with respect to that portion of the plan.

(5) *Controlled group of corporations, etc.* Whether or not a TRASOP is qualified under section 401(a), all employees who by reason of section 414 (b) and (c) are treated as employees of an electing corporation are treated as employed by the corporation in determining whether the plan satisfies the requirements of sections 301(d)(7) (B) and (C) of the 1975 TRA. A member of a controlled group under paragraph (b)(4)(i) of this section with a qualified investment but with no actual employees may obtain an additional credit even though the only participants in the corporation's TRASOP are actually employed by another member of the controlled group.

(6) Start-up expenses—(i) In general. For purposes of this section, the term "start-up expense" means any ordinary and necessary amount of a nonrecurring nature paid or incurred by the corporation or by the plan in connection with the establishment of a TRASOP under paragraph (c)(7) of this section. Thus, for example, start-up expenses may include expenses relating to: the drafting or amending of plan documents to establish a TRASOP under section 301 (d) or (e) of the 1975 TRA, the seeking of agency approval for these documents and related transactions, the obtaining of shareholder approval for establishing a TRASOP, and the registering of securities for initial funding of a TRASOP.

(ii) Treatment of start-up expenses. Start-up expenses may be withheld by the employer, from amounts that would otherwise be due the plan under paragraph (c)(8) of this section, to the extent that these amounts are known by the employer when funding first occurs for an applicable year. To the extent that these amounts are not withheld by the employer, the plan may pay remaining amounts from plan assets within a reasonable time after the amounts are known by the plan.

(iii) Ceiling on start-up expenses. Reimbursement for start-up expenses is limited to a ceiling. This ceiling is the sum of 10 percent of the first $100,000 that an employer is first required to transfer under paragraph (c)(8) of this section for an applicable year and 5 percent of that amount in excess of $100,000. If this first year is an unused credit year from which there is a carryover, amounts required to be transferred in subsequent years for claiming carryovers from this first year are considered in determining this ceiling. Thus, for example, assume that a calendar-year corporation first earns an additional credit in 1977 of $9,000 and that $3,000 of this amount is claimed on the income tax return for 1977, for 1978 and for 1979. The corporation's ceiling on start-up expenses is $300 when its 1977 return is filed. The ceiling increases to $600 when its 1978 return is filed and to $900 when its 1979 return is filed, with the claiming of an additional $3,000 credit for each of the three years.

(iv) Special rule for taxable years ending before January 1, 1977. Special treatment is available for expenses paid or incurred before January 1, 1977, that were not taken into account in the manner provided by section 301(d)(13) of the 1975 TRA. These expenses may be withdrawn under paragraph (e)(9)(vii) of this section as reductions in the corporation's additional credit caused by a recapture. This withdrawal may only be made during the first taxable year ending after March 20, 1979. It is subject to the ceilings of section 301(d)(13) of the 1975 TRA. Expenses previously deducted by a corporation must be reduced on a timely-filed amended return by the amount of this withdrawal.

(7) Administrative expenses—(i) In general. For purposes of this section,

V 4 4 / 1 4
J A 1 9 7 9
UMI

the term "administrative expense" means any amount, other than a start-up expense, paid or incurred by the corporation or by the plan that is ordinary and necessary in maintaining the TRASOP. Thus, for example, administrative expenses may include expenses relating to: the compensating of plan fiduciaries and administrators, the leasing of office space and equipment, the reproducing and mailing of information to participants and beneficiaries, and the filing of reports, returns, and amendments relating to a TRASOP. Paragraph (e)(6) (ii) and (iv), relating to treatment of start-up expenses and to a special rule for taxable years ending before January 1, 1977, also applies to administrative expenses.

(ii) Ceiling on administrative expenses. Reimbursement for administrative expenses under paragraph (e)(6)(ii) of this section is limited to the smaller of two amounts for each plan year. The first amount is $100,000. The second amount is the sum of 10 percent of the first $100,000 of dividend income paid with respect to TRASOP securities held by the plan during the plan year ending with or within the corporation's taxable year and 5 percent of any such dividend income in excess of $100,000.

(8) TRASOP qualification under section 401(a)—(i) Permanence. A TRASOP is not required to be a qualified plan under section 401(a). However, to meet the requirements of section 401(a), a TRASOP must be a permanent plan, as described in § 1.401-1(b)(2) of this chapter. *Under section 401(a)(21), a plan will not fail to be considered permanent merely because the amount of employer contributions under the plan is determined solely by reference to the amount of additional credit claimed under this section. Thus, for example, it will not fail to be considered permanent merely because employer contributions are not made for a year for which an additional credit is not available by reason of no qualified investment for which an additional credit can be obtained. Section 401(a)(21) applies only to the extent the TRASOP is funded with TRASOP securities and cash in lieu of TRASOP securities.*

(ii) Partial discontinuance of contributions. A plan that meets the requirements of section 401(a) may receive contributions of TRASOP securities as well as other contributions. If the other contributions continue on a permanent basis, the plan's qualification under section 401(a) will not be adversely affected merely because TRASOP securities cease to be contributed to it.

(iii) Income distribution. Income paid with respect to employer securities acquired by a TRASOP may be distributed at any time after receipt by the plan to participants on whose behalf such securities have been allocated without adversely affecting the qualified status of the plan under section 401(a). (See the last sentence of section 803(h), Tax Reform Act of 1976.) However, under a TRASOP that is a stock bonus or profit-sharing plan, income held by the plan for a 2-year period or longer must be distributed under rules generally applicable to stock bonus and profit-sharing plans qualified under section 401(a).

(9) Reductions in investment credit—(i) General rule. Certain reductions in a corporation's investment credit result from either a recapture under section 47 of the corporation's investment credit or a redetermination of the allowable credit. If these reductions are taken into account under a TRASOP, the plan may only use one or more of the methods described in paragraph (e) (9) (v), (vi), and (vii) of this section for taking into account these reductions. Thus, for example, more than one method is permitted upon a recapture with respect to a qualified investment made in a particular year. However, the method described in paragraph (e) (9) (vii) of this section applies only to a recapture and not to a redetermination.

(ii) Ratable reduction. A reduction is allocated ratably between the 10-percent credit and the additional credit. Thus, for example, if a calendar-year corporation claims a $33,000 investment credit for 1976, including a $3,000 additional credit, and $11,000 of the total credit is recaptured in 1978, the $3,000 additional credit is reduced by $1,000. This subdivision (ii) does not apply to a reduction solely of the additional credit as could occur, for example, in the case of a redetermination caused by a mathematical error in computing the additional credit or in the case of a recapture caused by a bad faith failure to comply under paragraph (h) of this section.

(iii) Date of reduction. A reduction in investment credit occurs under this paragraph (e) (9) on the earliest of these dates: (A) The date an income tax return (or an amended return) is filed reflecting the reduction; (B) the date a judicial determination affecting the amount of the reduction becomes final; and (C) the date specified in a closing agreement made under section 7121 is approved by the Commissioner. For purposes of this subdivision (iii), a judicial determination becomes final at the time prescribed in § 1.547-2 (b) (1) (ii) or (iii), relating to personal holding company tax.

(iv) Year for taking reduction into account. A reduction in investment credit must be taken into account in the earliest year or years possible under the applicable method beginning no later than the year in which the date of the reduction falls.

(v) Decrease future contributions. The reduction may be taken into account as a decrease in the value of TRASOP securities to be transferred to the plan.

(vi) Deduct under section 404. On the date of the reduction, the reduction may be treated an amount paid to the TRASOP for purposes of, and as a deduction to the extent allowed under, section 404.

(vii) Withdraw TRASOP securities. If an additional credit allowed for a taxable year is recaptured, the corporation may withdraw from the plan TRASOP securities transferred to, or acquired by, the plan for claiming that year's credit. If the plan has converted these securities into other assets, the withdrawal may be of these other assets. In either case, the withdrawal must only be from assets segregated under paragraph (f)(2) of this section and must be first from assets accounted for in an unallocated suspense account for the particular year. The amount of assets actually withdrawn bears the same proportion to the amount of assets subject to withdrawal as the amount of additional credit recaptured bears to the amount of additional credit claimed. Thus, for example, if the assets subject to withdrawal consist of 300 shares of one class of employer stock and one-third of the additional credit is recaptured, 100 shares of the stock are withdrawn. However, if the current value of the assets subject to withdrawal exceeds the dollar amount of the additional credit claimed, assets may be withdrawn only to the extent that their current value does not exceed the dollar amount of the recaptured portion of the additional credit. Thus, for example, if the 300 segregated shares in the prior example have a current value of $9,000 and the dollar value of the additional credit claimed is $4,500, when one-third of the additional credit is recaptured, only 50 shares, not 100 shares, are withdrawn. Current value is determined under paragraph (b)(7) of this section by treating the withdrawal date as either the date of transfer or, if the special 20-day average rule is otherwise applicable, the date on which the corporation files a claim for an additional credit. Withdrawals from an individual's account for the year with respect to which recapture occurs must bear the same ratio to the total amount withdrawn for that year as the individual's TRASOP account balance for that year bears to the total TRASOP account balance for that year. In the case of a TRASOP security acquired after March 20, 1979, the corporation may not withdraw it or assets into which it has been converted unless the plan meets the requirements of paragraph (d)(7)(ii) of this section when the plan acquires the TRASOP security.

(viii) Prior distribution rule. If a TRASOP distributes an amount allocated with respect to an investment credit for a taxable year and the credit for that year is later recaptured, withdrawals may not reduce participants' accounts below the level to which they would have been reduced had the prior distribution not occurred. Recaptured amounts above this level may only be deducted under paragraph (e)(9)(vi) of this section. They may not be used to decrease future contributions under paragraph (e)(9)(v).

(ix) Illustration. Paragraph (e)(9)(viii) of this section operates as follows:

Example. For 1977, a calendar-year corporation claims an additional credit of $10,000. The corporation's TRASOP meets the requirements of section 301(f) of the 1975 TRA. Each of 10 participants under the plan for that year receives an equal allocation of 10 shares valued at $1,000. In 1978, one participant terminates employment and receives a distribution of 10 shares. In 1979, a recapture reduces the 1977 additional credit by $2,000. If the 10 shares had not been distributed, 20 shares would be available for withdrawal, 2 shares from each participant's account. Since 9 participants remain from 1977, only 18 shares are available for withdrawal (2 shares × 9 remaining participants). If these 18 shares are withdrawn, the corporation may take into account 2 shares by deducting their value under paragraph (e)(9)(vi) of this section.

(f) Section 301(f) withdrawals—(1) In general. No assets may be withdrawn by a corporation under section 301(f) of the 1975 TRA unless the assets are either TRASOP securities or plan assets into which TRASOP securities have been converted ("withdrawal assets"). Withdrawal assets must meet the segregated accounting requirements of this paragraph. The physical segregation of assets is not required.

(2) Segregated accounting. The segregated accounting requirements are that—

(i) Withdrawal assets must be segregated from other plan assets on a taxable-year-by-taxable-year basis; and

(ii) Separate accounts must be maintained on a taxable-year-by-taxable-year basis for each participant on whose behalf withdrawal assets are allocated.

(3) Aggregate plan year accounting. Withdrawal assets for taxable years beginning before October 4, 1976, also meet the segregated accounting requirements if they are aggregated and accounted for in one separate account apart from withdrawal assets in separate accounts for later taxable years.

(g) *Requirements for employer securities—(1) General rules.* The term "employer security" does not include stock rights, warrants and options. An employer security that is not common stock must at all times be immediately convertible into common stock that is an employer security at a conversion price which is no greater than the fair market value of that common stock at the time the plan acquires the security.

(2) *Common stock—(i) In general.* To be an employer security, common stock must meet certain voting power and dividend right requirements. For purposes of this paragraph (g), stock held by the TRASOP is not treated as outstanding.

(ii) *Dividend right limitations.* If dividend rights are subject to a limitation, then at least 50 percent of the fair market value of the employer's outstanding common stock at the time the common stock is transferred must be subject to the same limitation. However, common stock that satisfies paragraph (g)(3)(ii) of this section is not subject to this subdivision (ii).

(3) *Voting power and dividend rights.* To be an employer security, common stock must have voting power and dividend rights which, when taken together, are "no less favorable" than the voting power and dividend rights of any other common stock issued by the employer. Common stock which meets one of the following tests is "no less favorable".

(i) *Ten-percent shareholder test.* The stock is part of, or identical to, a class of outstanding stock of which at least 50 percent is not owned by 10-percent shareholders. For this purpose, a 10-percent shareholder is one who owns at least 10 percent of the outstanding shares in a class, including shares constructively owned under section 318.

(ii) *Substantial proportionality test.* More than one class of common stock is outstanding and an identical percentage of shares from each class is transferred to the TRASOP.

(iii) *Voting power test.* The stock is part of, or identical to, the existing class of stock having the greatest number of votes per unit of fair market value. For example, assume there are only two classes of common stock, Class A and Class B. Their fair market values per share are $1 and $.50, respectively, and the owner of each share of each class is entitled to one vote per share. Thus, Class B has 2 votes per $1 and Class A has 1 vote per $1. Accordingly, the Class B stock has the greater number of votes per unit of fair market value.

(4) *Right of first refusal.* TRASOP securities may, but need not, be subject to a right of first refusal. However, whether or not the plan is an ESOP, any such right must meet the requirements of § 54.4975-7(b)(9) of this chapter.

(5) *Put option.* A TRASOP security that is transferred to a TRASOP after September 30, 1976, must be subject to a put option if it is not publicly traded when distributed or if it is subject to a trading limitation when distributed. The provisions of § 54.4975-7(b) (10)–(12) and § 54.4975-11(a)(3) of this chapter apply to such securities, whether or not the plan is ESOP.

(6) *Change of employer security status.* In general, a transaction changing the status of a corporation as an employer, or as a member of a controlled group of corporations including the employer, adversely affects the status as employer securities of common stock and securities held by a plan ("old employer securities"). However, common stock and securities ("new employer securities") substituted for old employer securities are treated as if they were the old employer securities if—

(i) The plan is not terminated;

(ii) The transaction causing the change in status of the old employer securities does not result in a recapture under section 47 of any investment credit underlying the transfer to, or acquisition by, the plan of the old employer securities;

(iii) The old employer securities and the new employer securities are of equal value at the time of the transaction changing the status of the old employer securities; and

(iv) The new employer securities otherwise meet the requirements of this section.

(h) *Failure to comply—(1) General rule—(i) Effect of failure.* If a corporation elects under paragraph (c) (2)–(5) of this section to obtain an additional credit and fails to comply with respect to that credit at any time, it is liable to the United States for a civil penalty equal to the amount involved in the failure to comply. If the corporation fails to comply with respect to an additional credit during the 84-month period described in section 301(d)(4) of the 1975 TRA, it also is not entitled to any portion of that credit. A separate failure to comply occurs for each taxable year in which a failure continues to exist.

(ii) *Illustration of continuing failure's effect.* Assume that in 1975 an additional credit is allowed and a failure to comply occurs in 1975 with respect to that credit. Assume also that in 1976 the 1975 failure continues uncorrected, another additional credit is allowed, and a failure to comply occurs with respect to the 1976 credit. Under these circumstances, on the last day of 1976 three separate failures to comply exist: (a) The 1975 failure with respect to the 1975 credit, (b) the 1976 failure with respect to the 1975 credit, and (3)

V 4 4 / 1 4 J A 1 9 7 9 UMI

the 1976 failure with respect to the 1976 credit.

(2) *Assessment and collection.* The civil penalty must be assessed and collected in the same manner in which a deficiency in the payment of Federal income tax is assessed and collected.

(3) *Exception.* If a failure to comply is corrected within the correction period described in paragraph (h) (5) of this section—

(i) The corporation is not liable for a civil penalty; and

(ii) If the corporation establishes that at the time of the failure a good faith effort to comply was made, its additional credit is not disallowed.

(4) *Failure to comply (penalty classifications)—(i) In general. An electing corporation fails to comply if a defect described in paragraph (h) (4) (ii)–(iv) of this section occurs with respect to an additional credit allowed for a particular taxable year. The characterization of the defect in this subparagraph (4) determines the amount involved under paragraph (h) (8) of this section for the purpose of assessing the civil penalty.*

(ii) Funding defect. A funding defect occurs if a corporation or its TRASOP fails to satisfy the requirements of paragraph (c) (8) or (9) of this section, relating to funding a TRASOP and claiming an additional credit.

(iii) Special operational defect. A special operational defect occurs if a TRASOP fails in operation to satisfy the requirements described in paragraph (d) (5)–(9) of this section, relating to debits and expenses of a TRASOP, allocation of TRASOP securities, nonforfeitability, voting rights, and distributions or paragraph (e) (3) of this section, relating to compliance with certain Code provisions.

(iv) De minimis defect. A de minimis defect occurs if a corporation or its TRASOP fails to satisfy any requirement of this section other than those enumerated either in paragraph (h) (4) (ii) and (iii) of this section or in paragraphs (a) (2) and (c) (2)–(5) of this section. A failure to comply under this subdivision (iv) may be formal or operational in nature.

(5) *Failure to comply (correction rules classifications)—(i) In general.* If for an electing corporation a defect described in paragraph (h) (4) of this section occurs, the procedure for correcting the failure to comply depends upon whether the failure is classified as a "formal" failure or an "operational" failure under this subparagraph (5).

(ii) *Formal failure to comply.* Formal failures are corrected by retroactive amendment. If a formal plan requirement is not met, the plan must be retroactively amended by no later than the expiration of the correction period under paragraph (h) (6) of this section. A plan fails to meet a formal plan requirement of paragraph (d) of this section if, for example, it does not state, as required by paragraph (d) (3) of this section, that it is designed to invest primarily in employer securities.

(iii) *Operational failure to comply.* Operational failures are corrected by undoing the defective transaction and by making the plan and the participants whole. If the value of TRASOP securities transferred to the TRASOP is less than the amount of the additional credit, the corporation must make up any resulting funding deficiency within the correction period. This is done, for example, by contributing additional TRASOP securities plus an amount equal to the dividends or interest that would have been paid between the time that the TRASOP securities should have been transferred and the actual time of the transfer. The contribution of additional TRASOP securities is based on their value under paragraph (b) (7) of this section as of the date by which they were required to be transferred to the plan. These further contributions are subject to the deduction limits of section 404. An electing corporation fails to meet an obligation undertaken under this section if, for example, it fails to comply with paragraph (c) (8) of this section.

(6) *Correction period—(i) In general.* For purposes of this paragraph (h), the "correction period" begins when the failure to comply occurs and ends 90 days after receipt by the corporation of a notice of deficiency under section 6212 with respect to the civil penalty and the investment credit.

(ii) *Extensions of correction period.* Extensions of the correction period are determined under § 53.4941 (e)–1 (d) (2) (i), (ii), and (iv) of this chapter (Foundation Excise Tax Regulations). For this purpose, a failure to comply is treated as an act of self-dealing, the corporation is treated as a foundation, and a civil penalty is treated as a tax under section 4941 (a) (1).

(7) *Good faith.* The corporation has the burden of establishing under paragraph (h) (3) (ii) of this section that it made a good faith effort to comply. For example, if a corporation shows that it has made a good faith effort to establish the fair market value of the employer securities transferred to the TRASOP, it may be entitled to the additional credit even if, on later examination of the return, it is determined that more securities should have been transferred. For purposes of this paragraph (h) (7), reasonable reliance on Technical Information Release 1413 (1975–50 I.R.B. 16), questions and answers relating to ESOP's, is a good faith effort to comply.

(8) *Amount involved—(i) In general.* The amount involved in a failure to comply is an amount described in this subparagraph (8). A maximum amount and a minimum amount are determined with respect to an additional credit allowed for a particular taxable year.

(ii) *Maximum amount involved.* Notwithstanding any other rule in this paragraph (h), all amounts involved with respect to an additional credit allowed for a particular taxable year may not exceed the amount of that credit.

(iii) *Minimum amount involved.* The minimum amount is ½ of one percent of the additional credit times the number of full months, or parts of full months, during which the failure to comply exists. "Full month" has the meaning assigned in § 1.1250-1 (d) (4) (Realty depreciation recapture).

(iv) *Funding amount involved.* The amount involved for a funding defect is the greater of the minimum amount involved or the amount required to place the plan in the position it would have been in if no funding defect had occurred.

(v) *Special operational amount involved.* The amount involved for a special operational defect is the maximum amount involved.

(vi) *De minimis amount involved.* The amount involved for a *de minimis* defect is the minimum amount involved.

(Sec. 301 (d) (2) (C) of the Tax Reduction Act of 1975 and sec. 7805 of the Internal Revenue Code of 1954 (89 Stat. 38, 68A Stat. 917 (26 U.S.C. 7805).)

PART 9—TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX REDUCTION ACT OF 1975

Certain Provisions for TRASOP's

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document notes the temporary effect of certain provisions relating to investment credit employee stock ownership plans ("TRASOP's") that are integrated with final Income Tax Regulations. Changes in the applicable tax law were made by the Tax Reduction Act of 1975 ("1975 TRA") and the Tax Reform Act of 1976 ("1976 TRA"). The document affects all employees who participate in TRASOP's and employers who establish TRASOP's. This document does not reflect changes made by the Revenue Act of 1978.

DATE: The regulations are generally effective for taxable years ending after January 21, 1975.

FOR FURTHER INFORMATION CONTACT:

Thomas Rogan of the Employee Plans and Exempt Organizations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3589) (not a toll-free number).

SUPPLEMENTARY INFORMATION:

INTEGRATION OF FINAL AND TEMPORARY REGULATIONS

It has been the practice in the past to publish temporary Internal Revenue Service regulations separately from final regulations both in the FEDERAL REGISTER and in the Code of Federal Regulations. However, the temporary regulations noted in this document are published together with final regulations as integrated provisions under 26 CFR Part 1, Income Tax Regulations (published elsewhere in this Part III of today's FEDERAL REGISTER) in a separate Treasury decision. This integrated format enables the public to see more clearly the effect of the 1976 TRA amendments on the 1975 TRA. Also, it facilitates the use of both the temporary and the final regulations until the temporary provisions are superseded by final provisions.

The publication of this document makes it clear that the temporary provisions published in an integrated format with final regulations elsewhere in today's FEDERAL REGISTER under 26 CFR Part 1 are in fact adopted and effective only as temporary regulations under 26 CFR Part 9.

IDENTIFICATION AND DISCUSSION OF TEMPORARY PROVISIONS

See preamble to T.D. 7590 published elsewhere in this Part III of today's FEDERAL REGISTER for a table identifying temporary provisions appearing in 26 CFR Part 1 and for a discussion of major issues.

DRAFTING INFORMATION

The principal author of this regulation was Thomas Rogan of the Employee Plans and Exempt Organizations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

ADOPTION OF AMENDMENTS TO THE REGULATIONS

Accordingly, 26 CFR Part 9 is amended by inserting in the appropriate place the following new section:

§ 9.2 Temporary TRASOP requirements for 1-percent additional investment credit.

The provisions listed in § 1.46-8 (a) (4) (i)–(xii) (Income Tax Regulations) are deemed effective only as temporary regulations under this section.

There is need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue it with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

(Sec. 301 (d) (2) (C) and (10) of the Tax Reduction Act of 1975 and sec. 7805 of the Internal Revenue Code of 1954 (89 Stat. 38, 68A Stat. 917 (26 U.S.C. 7805).)

JEROME KURTZ,
Commissioner of Internal Revenue.

Approved: January 5, 1979.

DONALD C. LUBICK,
Assistant Secretary of the Treasury.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

[EE-4-78]

INCOME TAX

Certain Provisions for TRASOP's

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: In the Rules and Regulations portion of this FEDERAL REGISTER, the Internal Revenue Service is issuing temporary income tax regulations relating to investment credit employee stock ownership plans ("TRASOP's"). This notice of proposed rulemaking for final income tax regulations requests comments on these temporary regulations. These provisions would affect all employees who participate in TRASOP's and all employers who establish TRASOP's. The provisions do not reflect changes made by the Revenue Act of 1978.

DATE: Written comments and requests for a public hearing must be delivered or mailed by March 20, 1979.

ADDRESS: Send comments and requests for public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T [EE-4-78], Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT:

Thomas Rogan of the Employee Plans and Exempt Organizations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, NW, Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3589).

SUPPLEMENTARY INFORMATION:

IDENTIFICATION AND DISCUSSION OF TEMPORARY PROVISIONS

See preamble to T.D. 7590 published elsewhere in this Part III of today's FEDERAL REGISTER for a table identifying temporary provisions appearing in 26 CFR Part 1 on which comments are requested by this notice and for a discussion of major issues.

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably six copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

DRAFTING INFORMATION

The principal author of this regulation was Thomas Rogan of the Employee Plans and Exempt Organizations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

PROPOSED AMENDMENTS TO THE REGULATIONS

The proposed amendments to 26 CFR Part 1 are as follows:

1. The temporary regulations described in § 1.46-8(a)(4) (i)-(xii) and published in italics in T.D. 7590 are adopted as final regulations. These provisions appear in today's FEDERAL REGISTER. See FR Doc. No. 79-1620.
2. Section 1.46-8(a)(4) is deleted.

JEROME KURTZ,
Commissioner of Internal Revenue.

FRIDAY, JANUARY 19, 1979
PART IV

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

[4510-27-M]

DEPARTMENT OF LABOR

Employment Standards Administration, Wage and Hour Division

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 224-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Mofifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Government Contract Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

MODIFICATIONS TO GENERAL WAGE DETERMINATION DECISIONS

CANCELLATION OF GENERAL WAGE DETERMINATION DECISIONS

General Wage Determination Decision No. MS77-1054 DeSoto County, Mississippi is cancelled. Agencies with building construction projects pending in this County should utilize the project determination procedure by submitting form SF-308. See Regulations Part 1 (29 CFR), §1.5. Contracts for which bids have been opened shall not be affected by this notice, and consistent with 29 CFR 1.7 (b)(2), the incorporation of Decision No. MS77-1054 in contract specifications, the opening of bids for which is within ten (10) days of this notice, need not be affected.

Signed at Washington, D.C., this 12th day of January 1979.

DOROTHY P. COME,
Assistant Administrator,
Wage and Hour Division.

[4110-12-M]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary

IMPROVING GOVERNMENT REGULATIONS

Semiannual Agenda of Regulations

AGENCY: Department of Health, Education, and Welfare.

ACTION: Publication of the semiannual agenda of regulations (Improving Government Regulations).

SUMMARY: The President's Executive Order on Improving Government Regulations, Executive Order 12044, requires each Federal agency to publish at least twice a year a list of significant regulations under development. HEW published its first semiannual agenda in the May 30, 1978 FEDERAL REGISTER. This semiannual agenda contains: (1) *all* non-FDA regulations being developed within the Department; and (2) FDA regulations classified as "policy significant." The Department plans to publish its next semiannual agenda by June 30, 1979.

ADDRESS: For inquiries or comments related to specific regulations listed in the agenda, the public is encouraged to contact the appropriate responsible individual. Questions or comments concerning the overall agenda should be sent to Rick Cotton, Executive Secretary to the Department of Health, Education, and Welfare, 200 Independence Avenue, S.W., Washington, D.C., 20201.

Dated: January 2, 1979.

JOSEPH A. CALIFANO, JR.,
Secretary.

U.S. OFFICE OF EDUCATION

[4110-12-C]

TITLE	CLASSIFICATION	STATUTORY BASE	NEED TO REGULATE	DESCRIPTION	*RA	CONTACT
Adult Education (NPRM)	Policy Significant	Adult Education Act, P.L. 91-230, as amended by Education Amendment of 1978. P.L. 95-561	Regulations are needed to provide uniform interpretation and implementation of the law.	The regulations will expand the current delivery system of adult education and will broaden the outreach of the program.	No	Paul V. Delker, Adult Edu. Prog., Office of Education, 7th & D Sts., S.W., Washington, D.C., (202) 245-2278
Metric Education (NPRM)	Technical	Sec. 403 of P.L. 93-380, as amended by the Education Amendments of 1978. P.L. 95-561	Need to clarify program purpose, objectives, and funding criteria.	The regulations will establish criteria for evaluation of grants to prepare students, parents and other adults to use the metric system.	No	Floyd Davis, Metric Education, Prog., U.S. Office of Education, 831 Riviera Bld., 1832 M. St., N.W. Washington, D.C. 20202 (202) 653-5811
Consumers' Education (NPRM)	Policy Significant	Sec. 811 of P.L. 93-380, as amended by the Education Amendments of 1978. P.L. 95-561	Need to clarify standards and establish uniform evaluation criteria.	Develop the capacity of Education institutions and community agencies to provide consumers' education to persons of all ages.	No	Dustin W. Wilson, Jr., Office of Consumers' Ed., Office of Education 400 Maryland Ave., S.W. Washington, D.C. 20202 (202) 653-5983
Community Education (NPRM)	Policy Significant	Sec. 405 of P.L. 93-380, as amended by the Education Amendments of 1978. P.L. 95-561	Regulations are needed to clarify the law.	The regulations will expand the scope and responsibilities of the present community education program.	No	Julie Englund, Community Education Program, Office of Education, 7th & D Sts., S.W. Washington, D.C. 20202 (202) 245-0691
Youth Employment (NPRM)	Policy Significant	Sec. 627 of Education Amendments of 1978. P.L. 95-561	Regulations are needed to interpret and clarify the law.	Regulations will establish requirements to prepare children to take their place as working members of society.	No	Sid High, Office of Career Education, U.S. Office of Education, 7th & D Sts., S.W., Washington, D.C. 20202 (202) 245-2335

*RA - Regulatory Analysis (Yes/No)

Basic Skills Improvement Program (R2R) (NPRM)	Policy Significant	Title II & Title IX, Part B, Education Amendments of 1978 (P. L. 95-561)	Law in general terms in the two applicable titles thereby requiring clarification.	Expands National Reading Improvement Act Program affecting all States, LEAs, and many non-public schools.	No	Tom Keyes, Program Officer, Office of Education, 400 Maryland Ave., S.W., Washington, D.C. 20202 (202) 245-2710
Gifted & Talented (NPRM)	Technical	Education Amendments of 1978 (P.L. 95-561)	Required to incorporate changes of Ed. Amendments of 1978 and write in simple English.	Revised the present regulations to provide interested parties, a better understanding of the program.		Dr. Dorothy Sisk, Director, Office of Gifted & Talented, Office of Education 7th & D Sts., S.W. Washington, D.C. 20202 (202) 245-2482
Handicapped Children Early Education Program (NPRM)	Technical	Education Amendments P.L. 94-142	Law in general terms and require clarification to include all age groups. Also write in simple English.	Provides funds for Handicapped children's Early childhood Education.	No	Dr. William Swan, Division of Innovation & Development, BEH, Rm. 3120, Donohoe Bldg. 400 Maryland Ave., S.W. Washington, D.C. 20202 (202) 245-9722
Indian Education Program (NPRM)	Policy Significant	Ed. Amendment of 1978 P.L. 95-561	Law in general terms, needs to clarify existing regulations.	Supports all phases of Indian Education children and adults.	No	Dr. John Tippeconic U.S. Office of Education Rm. 2177, ROB-6 400 Maryland Ave., S.W. Washington, D.C. 20202 (202) 245-8020
Handicapped Media Services (NPRM)	Technical	Ed. Amendment of 1977 P.L. 95-49	Incorporate minor language change and write in simple English.	The regulations govern the administration of programs which provides a free loan service of captioned films for the deaf and promotes the educational and cultural advancement of handicapped persons through research and the use of media and technology.	No	Barry E. Katz, U.S. Office of Education Rm. 4819, Donohoe Bldg. 400 Maryland Ave., S.W. Washington, D.C. 20202 (202) 472-4640

General Provisions Relating to Student Assistance Program (FINAL)	Policy Significant	Section 497-A of the Higher Education Act of 1965, as amended (P.L. 94-482)	Statute in general terms - implementing provisions need regulation (NPRM pub. 8/10/78)	This regulation will establish fiscal and administrative standards for institutions participating in	No	William L. Moran Chief, Basic Grants Policy Section, OPPD/ BSFA/OE, Rm. 4318, ROB-3 400 Maryland Ave., S.W. Washington, D.C. 20202
1979-1980 Basic Grant Family Contribution Schedule (FINAL)	Technical	Sec. 411(a)(3)(A)(i) of the Higher Edu. Act of 1965, as amended (P.L. 94-482)	Statute requires the annual publication of the Family Contribution Schedule (NPRM pub. 8/14/78)	The Family Contribution Schedules are the formula used in determining eligibility on the basis of financial need for the Basic Educational Opportunity Grants Program.	No	Same as above
Basic Educational Opportunity Grant Program-Administrative and Technical (FINAL)	Technical	Sec. 411 of the Higher Education Act of 1965, as amended (P.L. 94-482)	New regulations which revise and consolidate existing program regulations and incorporate applicable provisions of the Education Amendments of 1976 and the Middle Income Student Assistance Act (NPRM pub. 5/15/78)	These regulations govern institutional administration of the Basic Grant Program, computation of awards, and all other areas of program administration except the Family Contribution Schedules.	No	Same as above

SOCIAL SECURITY ADMINISTRATION

Title	Classification	Statutory Base	Need to Regulate	Description	PA	Contact
Reorganization and Updating of Reg. No. 1	Policy Significant	Privacy Act of 1974, (Pub. L. 93-579)	Strong public interest in SSA's rules on disclosing information from its records	Provides for disclosure of information from social security records under the Social Security Act, the Freedom of Information Act, the Privacy Act, and other related statutes.	No	Mr. Armand Esposito Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-5551
Totalization Agreements	Policy Significant	Social Security Amendments of 1977 (Pub. L. 95-216)	Law in general terms, implementing instructions needed.	Implements a provision that authorizes the President to enter into bilateral agreements with other countries to provide for coordination between the social security system of the United States and other countries. Permits each country to establish entitlement to and amount of benefits based on a combination of a person's periods of coverage under social security systems of both countries.	No	Mr. John Mosler. Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-7337
New Methods for Computing Benefit Amounts	Technical	Social Security Amendments of 1977 (Pub.L. 95-216)	Required to publish definition of "average of the total wages," and need for complex provisions to be explained in layman's language.	Explains the decoupling provisions of the Social Security Amendments of 1977 whereby a worker's basic benefit amount is computed from his earnings as a ratio of the total earnings of all workers. Explains the amended provisions for computing minimum benefit amounts and cost-of-living increases and recomputing the basic benefit.	No	Mr. Jack Schanberger Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-6785
Reduction of Benefits to Maximum	Technical	Social Security Amendments of 1977 (Pub. L. 95-216)	To complement regulations on "New Methods for Computing Benefit Amounts."	Provides a new formula for determining the maximum monthly benefit that a family can receive.	No	Mr. Jack Schanberger Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-6785

Title	Classification	Statutory Base	Need to Regulate	Description	PA	Contact
Reduced Benefits for Spouses Receiving Government Pensions	Policy Significant	Social Security Amendments of 1977 (Pub. L. 95-216)	To explain to the public a controversial provision of the Social Security Amendments of 1977.	Explains the pension offset provision whereby a spouse's social security benefit will be offset, or reduced by the amount of a public pension to which he or she is eligible. There is an exception—offset does not apply to spouses who are eligible for a public pension anytime before December 1982 and who meet the social security requirements that were in effect in January 1977 (i.e., an applicant for husband's or widower's benefits must have met a one-half support requirement).	No	Mr. Jack Schentenger Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-6705
The Retirement Test; The Elimination of the Monthly Test, and the Age at Which the Retirement Test no Longer Applies	Policy Significant	Social Security Amendments of 1977 (Pub. L. 95-216)	Law does not provide specificity for implementation	Implements a provision which permits payment of monthly benefits because of low earnings in a month only at the time of initial retirement. Thereafter, the right to payments depends on earnings in a year.	No	Ms. Clara [illegible] Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235
Effects of Annual Wage Reporting	Policy Significant	Social Security Amendments of 1977 (Pub. L. 95-216)	The Social Security Amendments of 1977 require that we publish a definition of "the average of the total wages." This definition is used when we determine whether the amount of a person's income subject to social security taxes must be increased.	Reflects a change granting military wage credits for compensation other than cash. Changed from a monthly amount to an annual amount to conform to new annual reporting of wages.	No	Mr. Armand [illegible] Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-5551

Title	Classification	Statutory Base	Need to Regulate	Description	RA	Contact
Recovery of Overpayments; Extension of Recovery Period	Technical	Secs. 204 and 205 of the Social Security Act.	Regulations prepared to preclude statutory amendment proposed by a Senator. Interim regulations published to alleviate public relations problem in State of Oregon	Liberalizes the period for recovery of an overpayment by removing the present 3-year time limitation in which overpayments must be recovered.	No	Mr. Marvel Cater Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-7463
Reference Changes to Reflect Transfer and Recodification of Medicare Regulations	Technical	Secs. 205(a), 1102, and 1362 of the Social Security Act.	Cross references to be changed due to reorganization.	Modifying various references to 20 CFR Part 405 to reflect the redesignation of those regulations to 42 CFR Part 405 and which make the Health Care Financing Adm. rulings binding on all SSA components.	No	Mr. Phil Berne Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-59--7-52
State and Local Government Wage Reporting Requirements; Annual Basis	Policy Significant	An Act to amend the Social Security Act to expedite the holding of hearings under titles II, XVI, and XVIII by by establishing uniform review procedures under such titles, and for other purposes (Pub. L. 94-202)	This change will make all wage reports due annually. We currently have different schedules for private and State employers.	These regulations change the States obligation for filing wage reports from one each quarter to one each year. This will reduce SSA's and the States' processing times.	No	Mr. Armand [illegible] Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-5551
State and Local Coverage--Frequency with Which States Should Deposit Social Security Contributions	Policy Significant	Sec. 218(e) of the Social Security Act	This change to the deposit schedule will increase substantially the amount of interest income to the social security trust funds.	These regulations would require States to pay their FICA contributions 15 days after the end of each month rather than 45 days after each quarter. This speedup in collections will add millions of dollars per year to the trust funds.	No	Mr. Armand [illegible] Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-59--5551

Guidelines for Adjudicating Disability Claims in Which Vocational Factors Must Be Considered	Policy Significant	Secs. 205, 223, 1102, 1614, and 1631 of the Social Security Act, as amended	Consolidating and incorporating these policies into the regulations will serve to make clearer to claimants and their representatives how disability is determined where vocational factors must be considered.	Expand existing regulations to include additional detailed criteria for the evaluation of claims based on disability (under Titles II and XVI of the Social Security Act) in which a determination of disability cannot be made on medical severity alone or on the ability to do past work. Provides rules for evaluating age, education, and work experience in these kinds of disability claims.	No	Mr. William Ziegler Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-7415
Disability Insurance Supplemental Security Programs Substantial Gainful Activity--Guidelines for 1978	Policy Significant	Secs. 223 and 1614 of the Social Security Act	The Social Security Act directs the Secretary to prescribed SGA criteria by regulations.	Increases the dollar amounts for determining whether a person's earnings show the ability to perform SGA for calendar years 1978 and 1979 and later.	No	Mr. James MacDonald Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-7319
Revised Medical Criteria for the Determination of Disability	Policy Significant	Secs. 205(a), 1102, & 1614(a) of the Social Security Act.	Update present Listing to reflect medical advances and diagnosis and treatment that have occurred since last published Listing in 1968.	Revises the medical evaluation criteria currently used in the SSI and social security disability programs which describe the level of severity deemed sufficient to prevent a person from engaging in any gainful work activity. Recognizes medical advances both in treatment and in methods used to evaluate severity of particular impairments.	No	Mr. Harry Short Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-7455
Eligibility of Individuals Residing in Publicly Operated Community Residences Serving No More Than 16 Residents	Technical	Unemployment Compensation Amendments of 1976 (Pub. L. 94-566)	Rules are needed to define what is and what is not a publicly operated community residence serving 16 or fewer residents.	Provides that the term "public institution" does not include publicly operated community residences which serve no more than 16 residents. Also defines what are and are not publicly operated community residences which serve no more than 16 residents.	No	Mr. Sander Wiseman Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-7341

Amount of Benefits; Computation of Certain Benefits Under Title XVI; Essential Persons	Technical	Unemployment Compensation Amendments of 1976 (Pub. L. 94-566)	Secretariel decision to delete from regulations all benefit amounts which previously reflected cost-of-living increases.	Deletes tables of increased benefit amounts from existing regulations. Reference is made to basic statutes and to notices in the Federal Register to ascertain current benefit amounts.	No	Mr. Marval Caner Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-7463
Unearned Income, One-Third Reduction for Living in Another Person's Household	Policy Significant	Sec. 1612 of the Social Security Act.	Rules are needed to describe when the one-third reduction applies and when it does not apply.	Provides that the standard payment amount for an eligible individual (or couple) who lives in another person's household and receives support and maintenance from such person will be reduced by one-third. The actual value of such support and maintenance is not established.	No	Mr. Sander Wolosan Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-7141
Medical and Social Services Which Are Not Income	Policy Significant	Sec. 1612 of the Social Security Act	To fulfill sec. 1612(b)(6) of the Social Security Act.	Excludes from the SSI definition of income certain medical and social services. This means those furnished in conjunction with any governmental or nongovernmental assistance program based on need.	No	Mr. Henry Lerner Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-7141
Exception to the One-Third Reduction Provision and Income and Resources Exclusion When An Individual is Affected by a Major Disaster	Policy Significant	Major Disasters Presidentially declared. (Pub. L. 94-331, Pub. L. 94-955, and Pub. L. 95-171)	Required by statute to be reflected in regulations.	Provides additional exclusions in determining countable income and resources for payments of SSI benefits when an individual is affected by a Presidentially declared major disaster.	No	Mr. Henry Lerner Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-7141
Replacement of Damaged or Lost Excluded Resources	Policy Significant	Sec. 1613 of the Social Security Act	These regulations apply to non-Presidentially declared disasters and parallel the major disaster statutes.	Excludes from income and resources, assistance received from any source for the repair or replacement of certain damaged, lost, or stolen property.	No	Mr. Henry Lerner Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-7141

Exclusion from Resources of the Property Essential to Self Support	Policy Significant	Social Security Amendments of 1972 (Pub. L. 92-603) and Internal Revenue Code of 1954--Distilled Spirits Stamp (Pub. L. 94-569)	Current regulations merely provide that property essential to self-support shall be excluded from resources but do not provide value limitations. These regulations provide the necessary guidelines.	Provides guidelines for determining property essential to self-support is excluded from countable resources under the SSI program. Also provides that even if income-producing property is associated with the home, the home (including land appertaining to it and buildings on the land) is excluded as a resource regardless of its value or use.	No	Mr. John Mahler Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-7337
Evaluating Resources on the Basis of Equity and Increasing Dollar Limit on Certain Excluded Resources	Policy Significant	Sec. 1613 of the Social Security Act	Secretarial decision to regulate.	Increases the reasonable value of household goods and personal effects from $1,500 to $2,000 and the value of an automobile from $1,200 to $2,000. Values within these amounts will not affect eligibility for SSI payments. Also provides for evaluating resources on the basis of equity in the resource rather than its current market value.	No	Mr. Henry Lerner Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-7141
Permitting Individuals Applying for or Receiving SSI to File for Food Stamps in Social Security Offices	Policy Significant	Food and Agriculture Act of 1977 (Pub. L. 95-113)	Food and Agriculture Act of 1977 is in general terms. SSA needs regulations for instructions	Describes SSA's authority (with the concurrence of the Department of Agriculture) to obtain information from individuals solely for food stamp purposes.	No	Ms. Dorothy Tiggs Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-7167
Pass Along Provisions of Federal Supplemental Security Income Benefit Cost-of-Living Increases to State Supplementary Recipients with Limitation on State Cost for Hold-Harmless States	Policy Significant	Food Stamp Distribution to AFDC Families (Pub. L. 94-585)	Law is not specific enough to be entirely self-effectuating.	Implement provisions of sec. 1618 of the Social Security Act by interpreting the statute to include those beneficiaries who receive only State supplementation and to provide guidelines for related State agreements.	No	Ms. Clara Powell Office of Policy and Regulations 6401 Security Blvd. Baltimore, Md. 21235 301-594-7[illegible]
